00:00:00,000 --> 00:00:10,000

Thank you Mr. Clark, your good wishes. I'll carry on from where you left off. The evidence

2

00:00:10,000 --> 00:00:19,000

for the existence of flying saucers is so overwhelming that I have long ago accepted

3

00:00:19,000 --> 00:00:27,000

it. I am therefore very little interested in stories of fresh sightings unless they refer

4

00:00:27,000 --> 00:00:37,000

to some new or rare type of vehicle. What I am interested in is any report or account

5

00:00:37,000 --> 00:00:47,000

of personal contact with the occupants. How far fetched the story may occur to be. It is by

6

00:00:47,000 --> 00:00:56,000

analyzing and correlating these often conflicting accounts that we shall sooner or later amass

7

00:00:56,000 --> 00:01:07,000

a volume of evidence which will enable us to form a useful theory about the facts of interplanetary flight.
