

1

00:00:00,000 --> 00:00:11,000

Good evening, ladies and gentlemen. I'm very happy to be here tonight and to talk to you,

2

00:00:11,000 --> 00:00:19,000

talk to Buffora. Buffora, with its member societies throughout the British Isles, is

3

00:00:19,000 --> 00:00:27,000

doing wonderful work in helping to bring about a recognition of what is going on in our skies

4

00:00:27,000 --> 00:00:40,000

and of the UFO. I should like to pay tribute to all the work that Buffora is doing. And it is a work, I know,

5

00:00:40,000 --> 00:00:52,000

because from my own experience in the flying saucer field, I know that once the saucer bug gets you,

6

00:00:52,000 --> 00:01:03,000

then you might as well realize that you've had it. You're up half the night answering letters and doing various jobs.

7

00:01:03,000 --> 00:01:18,000

Some of your former social friends give you up as hopeless. However, in life there is often a compensating factor,

8

00:01:19,000 --> 00:01:31,000

and the flying saucer field is no exception. My interest in this subject has made me literally hundreds of friends all over the world.

9

00:01:31,000 --> 00:01:44,000

Most of them have never personally met. But after exchanging many letters with them, I feel that I know some of them very well indeed

10

00:01:44,000 --> 00:02:03,000

and that they are very fine people. Now, before I get down to my talk tonight, I should like to start by asking you all a very personal question.

11

00:02:04,000 --> 00:02:17,000

There isn't the world today a club. It is a very unofficial one. It is no longer very exclusive.

12

00:02:18,000 --> 00:02:35,000

Its members now run into the millions all over the world. It has no president, no chairman, no secretary, no subscriptions or fees,

13

00:02:36,000 --> 00:02:48,000

and no rules. There is only one qualification for membership. You have to have seen a flying saucer.

14

00:02:49,000 --> 00:03:00,000

Now, I would very much like to know how many people in this hall tonight have joined that club.

15

00:03:01,000 --> 00:03:11,000

Please, will those of you who have seen a flying saucer raise up your hands?

16

00:03:11,000 --> 00:03:18,000

Well, that is pretty good. In fact, it is wonderful.

17

00:03:18,000 --> 00:03:29,000

I think that those who have seen a flying saucer, have seen a flying saucer.

18

00:03:29,000 --> 00:03:45,000

I think that those saucers are frequently seen by the world public at large.

19

00:03:46,000 --> 00:03:55,000

On the whole, people genuinely interested in our subject are inclined to look up more,

20

00:03:55,000 --> 00:04:03,000

and so the law of average may be all working their favour.

21

00:04:04,000 --> 00:04:16,000

I should also like to state here and now, and this is a personal opinion, and it may sound possibly I don't know a little silly,

22

00:04:16,000 --> 00:04:23,000

but I think that the very act of looking up does something for you.

23

00:04:24,000 --> 00:04:37,000

I really think that the act of looking up does something for us spiritually, mentally and physically.

24

00:04:37,000 --> 00:04:49,000

Obviously, we must not look up all the time in crowded streets, which would be a menace.

25

00:04:50,000 --> 00:04:59,000

But wherever there are open spaces, we should always try and look up.

26

00:04:59,000 --> 00:05:11,000

Now, the flying saucers are not just craft that come from other spheres, although that in itself is very wonderful.

27

00:05:11,000 --> 00:05:16,000

They represent something far more.

28

00:05:16,000 --> 00:05:22,000

A new dimension in our thinking.

29

00:05:22,000 --> 00:05:37,000

Hundreds of years ago, people lived in small villages, and communication with what to them was the outside world was a rare event.

30

00:05:37,000 --> 00:05:43,000

That would be the next village or settlement.

31

00:05:43,000 --> 00:05:55,000

Then gradually, people moved outward to meet their neighbours, and great migrations began to take place.

32

00:05:55,000 --> 00:05:59,000

Mankind's horizons were being widened.

33

00:05:59,000 --> 00:06:11,000

Eventually, the old idea that the Earth was flat became out of date, as voyagers upon its surface,

34

00:06:11,000 --> 00:06:23,000

upon its apparently endless oceans, proved it to be a mighty sphere, even after the invention and development of telescopic instruments.

35

00:06:23,000 --> 00:06:41,000

The sky remained a flattened canopy, or an even flatter photographic print, to Earthman, as far as his own personal reality concerning it could go.

36

00:06:41,000 --> 00:06:48,000

Now that he is beginning to venture out upon the greater ocean of space,

37

00:06:48,000 --> 00:07:01,000

and as he listens to the electronic voices of the probes he sends out farther than he himself can go at present,

38

00:07:01,000 --> 00:07:09,000

the reality of this third dimension is growing stronger.

39

00:07:09,000 --> 00:07:26,000

His exploration of space has forced him to raise his eyes and to look outward and upwards into the universe that is, in fact, his true home.

40

00:07:26,000 --> 00:07:39,000

It is, of course, just as important to look within. A fully balanced person looks both within and without.

41

00:07:39,000 --> 00:07:50,000

Anyway, the information available now about this enormous universe in which we live is truly staggering and amazing.

42

00:07:50,000 --> 00:08:04,000

Astronomers tell us that there are 100,000 million stars, million stars, in our galaxy alone. But that is not all.

43

00:08:04,000 --> 00:08:19,000

They go further and inform us that at least 100,000 million other galaxies are stretching away in all directions.

44

00:08:19,000 --> 00:08:34,000

In addition to that, it is now beginning to become accepted that there are numerous invisible universes in which all this vastness is repeated.

45

00:08:34,000 --> 00:08:56,000

As I read in my last book, *The Flying Saucers Story*, one thing is quite clear. The creator of it all certainly didn't have a chicken coop in mind when he created it.

46

00:08:56,000 --> 00:09:11,000

Surely, this one planet in the whole of this incredibly vast cosmos could not be the only one to contain intelligent life.

47

00:09:11,000 --> 00:09:15,000

That would make a mockery of creation.

48

00:09:15,000 --> 00:09:21,000

Top-ranking scientists today agree with the idea of an inhabited universe.

49

00:09:21,000 --> 00:09:33,000

The director of the John Braubach radio telescope, Professor Fred Hoyle, Plumieian professor of astronomy at Cambridge University,

50

00:09:33,000 --> 00:09:52,000

the guardian of American astronomers Dr. Harle Schapley and incidentally the distinguished American Dr. Carl Sagan have stated that millions of planets in our Milky Way galaxy may well be inhabited.

51

00:09:53,000 --> 00:10:09,000

If we assume that the Earth is only an average planet, then there must be millions of planets in our galaxy, as Dr. Schapley has also pointed out, with far, far more advanced technologies than our own.

52

00:10:10,000 --> 00:10:30,000

I have often written that our highly prized technology has only been acquired within the last 200 years. Before that, we were content to rely for hundreds of years upon the horse and the wheel.

53

00:10:31,000 --> 00:10:45,000

When you think of the wonders we have achieved in just about 200 years, imagine what civilizations of other planets in the galaxy,

54

00:10:46,000 --> 00:11:01,000

either in the galaxy may have achieved in a thousand or ten thousand or even a hundred thousand years. It is a tremendous and awesome thought.

55

00:11:02,000 --> 00:11:23,000

So the idea that people could come here from other planets, either from inside or outside our solar system or perhaps from invisible realms, is not particularly astonishing.

56

00:11:24,000 --> 00:11:31,000

When you think about this in that way, it would seem more incredible if they could not do so.

57

00:11:33,000 --> 00:11:44,000

Up to quite recently, some people have said that we ourselves might be able to reach our moon and Mars,

58

00:11:45,000 --> 00:11:53,000

but journeys to the stars would be beyond the scope of humanity because of the vast distances involved.

59

00:11:56,000 --> 00:12:07,000

They maintained that the ultimate speed was approximately 180,000 miles a second, the speed of light.

60

00:12:08,000 --> 00:12:24,000

Even traveling at that speed, if it was possible, the critics stated that it would take many years

to reach the nearest star Proxima Centauri and Mercury 4.25 light years away.

61

00:12:26,000 --> 00:12:34,000

However, today some of Einstein's ideas are obsolete, a great man though he was.

62

00:12:37,000 --> 00:12:47,000

It is now known since the discovery of quasars in deep space that there are tremendous energies to be tapped upon in excess of the speed of light.

63

00:12:51,000 --> 00:12:56,000

I do not believe there is a limit to anything in God's universe.

64

00:12:57,000 --> 00:13:00,000

It is the same old story.

65

00:13:02,000 --> 00:13:08,000

Human beings, sort of look beyond their present know-how.

66

00:13:09,000 --> 00:13:16,000

They put frontiers to knowledge. Everything outside those frontiers is impossible.

67

00:13:17,000 --> 00:13:28,000

Scientific opinion at the time said it was not possible for a heavier-than-air machine powered by an engine to fly.

68

00:13:30,000 --> 00:13:33,000

They said it was aerodynamically impossible.

69

00:13:34,000 --> 00:13:46,000

Even while scientific articles were being written stating that it was impossible, the Wright brothers flew their little aircraft at the Kitty Hawk sand dunes.

70

00:13:47,000 --> 00:14:06,000

I am sure that men of other worlds have discovered long ago the means to travel from planet to planet, from star to star, and from galaxy to galaxy.

71

00:14:08,000 --> 00:14:13,000

We are only on the verge of space travel and we have much to learn.

72

00:14:17,000 --> 00:14:26,000

Today, as you all know, spaceships from other worlds, flying saucers as they are popularly called, are to be seen in our skies.

73

00:14:28,000 --> 00:14:31,000

Have they visited this planet before modern times?

74

00:14:33,000 --> 00:14:36,000

The answer is most certainly yes.

75

00:14:37,000 --> 00:14:56,000

There are records all through history and also we have stories coming back to us from way long ago in the folklore, legends and mythologies of very many countries all over the world,

76

00:14:57,000 --> 00:15:02,000

telling us of the visits of godlike people who came down from the skies.

77

00:15:07,000 --> 00:15:25,000

I will go even further and suggest that humanity was originally brought here by the sky people, which would explain their consistent interest in us down the ages.

78

00:15:26,000 --> 00:15:42,000

In two of my books, *Sky People* and *Forgotten Heritage*, I described to some extent how humanity came into being and later became crossed with extraterrestrials.

79

00:15:43,000 --> 00:15:52,000

I postulated that the human race was descended from this crossbreed of galactic and animal man.

80

00:15:55,000 --> 00:15:59,000

The galactic races of man were created long before humanity.

81

00:16:00,000 --> 00:16:03,000

No one knows when galactic man was created.

82

00:16:04,000 --> 00:16:07,000

This is an event lost in the mists of antiquity.

83

00:16:08,000 --> 00:16:18,000

Now, the galactic races have from time immemorial been known as the dragon or serpent people.

84

00:16:19,000 --> 00:16:31,000

This possibly stems from the fact that in very ancient times we had a different north pole star to Polaris, the one we have now.

85

00:16:32,000 --> 00:16:40,000

This was Alpha Draconis in the constellation of Draco, meaning dragon.

86

00:16:42,000 --> 00:16:53,000

Flying sources have often been seen coming from north and their occupants were known to the ancients as the dragons also up into people.

87

00:16:54,000 --> 00:17:15,000

Here and there in ancient cultural relics and here and there in cultural fossils still in use in our own time, there appears the ancient symbol of the serpent and the concentric figure we call the sun.

88

00:17:16,000 --> 00:17:29,000

The serpent has been made the symbol of many concepts and ideas which is the reason for its present great importance.

89

00:17:30,000 --> 00:17:50,000

Finally, for one thing, it is a representation of the two major arms of the spiral galaxy in which we live and is therefore the symbol of galactic civilization as well as a sign of the great creator.

90

00:17:51,000 --> 00:18:10,000

It was a seal of the serpent kings who are sent by old cultures around the world to have come from

the sky to establish the beneficent and civilizing rule of the sons of the sun or the sons of heaven upon earth.

91

00:18:11,000 --> 00:18:18,000

The sky people have often come down to earth and talked with human beings.

92

00:18:19,000 --> 00:18:39,000

It is remarkable how many royal dynasties in countries as far apart as Egypt, China, Japan, Peru, Mexico and others have been started by someone who originally claimed to be an extra terrestrial.

93

00:18:40,000 --> 00:19:01,000

In my book, Men Among Mankind, I postulated that in very ancient times when we were in open contact with sky people that there were two rulers, one an off-planet one and a secular one on earth.

94

00:19:02,000 --> 00:19:10,000

This dual system of rulership continued symbolically in ancient Egypt.

95

00:19:10,000 --> 00:19:22,000

Down to the time in Menish, there was a priest king who claimed to sent from an extra terrestrial and a secular one who was a man of earth.

96

00:19:23,000 --> 00:19:32,000

The mild people of Mexico told of a mysterious white man who came to them from the east.

97

00:19:32,000 --> 00:19:41,000

He had a hive for it and a flying bird. His name, Quixin Total, meant ballooned serpent.

98

00:19:42,000 --> 00:19:53,000

Nobody saw him arrive in Mexico. He introduced better conditions and taught the natives many arts.

99

00:19:53,000 --> 00:20:06,000

He was against all violence. He is said to have finally sailed away in a canoe made of serpent skins.

100

00:20:07,000 --> 00:20:13,000

To the ancients, eastward was synonymous with sunward.

101

00:20:13,000 --> 00:20:24,000

Later, Quixin Total became the chief guard of the Toltecs. His images often depict him with a solar disk.

102

00:20:25,000 --> 00:20:39,000

Last year, as some of you know, I visited Japan and had a fabulous trip.

103

00:20:40,000 --> 00:20:52,000

According to the legends of the Ainu people, a very ancient race who lived on Hokkaido Island in the north,

104

00:20:52,000 --> 00:21:00,000

there are not many of them left, but they are very wonderful, simple and friendly people.

105

00:21:01,000 --> 00:21:14,000

According to their ancient history, a man called Hakekarumi Kamui landed in Haapara in Hokkaido Island from the skies.

106

00:21:14,000 --> 00:21:22,000

He taught them the rudiments of agriculture and brought them sun worship.

107

00:21:23,000 --> 00:21:34,000

He told them that the sun was the giver and sustainer of life and was the outward manifestation and symbol of the Godhead.

108

00:21:35,000 --> 00:21:52,000

I have spoken to you about only a few of the galactic beings that have come to our planet in ages gone by in different parts of the world.

109

00:21:53,000 --> 00:22:03,000

Some people might say that the stories I have related are only legendary. Possibly so, but I doubt it.

110

00:22:03,000 --> 00:22:15,000

When you have so many stories coming down to us from so many parts of the world, and I have only given you one or two,

111

00:22:16,000 --> 00:22:20,000

then they must have some basis in fact.

112

00:22:25,000 --> 00:22:36,000

It was no less a person than some Winston Churchill who once said that to appreciate and understand the present,

113

00:22:37,000 --> 00:22:44,000

it was essential to have a knowledge and appreciation of the past.

114

00:22:44,000 --> 00:22:54,000

He was a man who really understood the importance of history and could apply that knowledge to coping with modern situations.

115

00:22:55,000 --> 00:23:04,000

Some of you may wonder why I pay so much attention to what has occurred in the past.

116

00:23:04,000 --> 00:23:10,000

But in order to understand what is happening today in regard to the flying saucers,

117

00:23:10,000 --> 00:23:21,000

it is essential and very important for me to give you the whole background.

118

00:23:22,000 --> 00:23:27,000

This is not just a modern phenomena.

119

00:23:27,000 --> 00:23:33,000

It is something that has been worse for thousands of years.

120

00:23:36,000 --> 00:23:44,000

The saga of the sky people is something that we were well acquainted with thousands of years ago,

121

00:23:45,000 --> 00:23:56,000

and is something that we will be well acquainted with again in a matter of a very short time.

122

00:23:59,000 --> 00:24:05,000

It is, I repeat, most important for you to have the whole background,

123

00:24:05,000 --> 00:24:10,000

at least as much of it as I can give you in this short talk.

124

00:24:11,000 --> 00:24:21,000

In the presentation of my case, for the existence of open contact between sky people and the inhabitants of this earth,

125

00:24:21,000 --> 00:24:29,000

long ago there is actual evidence on this planet still existing and bestifying

126

00:24:29,000 --> 00:24:36,000

that thousands of years ago there was a great sun-worshipping civilization

127

00:24:36,000 --> 00:24:46,000

capable of building huge monolithic structures containing 200 ton stones,

128

00:24:46,000 --> 00:24:54,000

a civilization that was in open contact with the inhabitants of other worlds.

129

00:24:56,000 --> 00:25:01,000

In the history of this planet, there had been quite a number of global catastrophes,

130

00:25:02,000 --> 00:25:07,000

resulting in the sinking of whole continents beneath the ocean waves.

131

00:25:09,000 --> 00:25:17,000

A few relics of the lost sun empires of Atlantis and Lemuria are even with us today.

132

00:25:18,000 --> 00:25:25,000

A perpetual reminder to us of their greatness and the genius of their people,

133

00:25:25,000 --> 00:25:32,000

and also a constant annoyance to those scientists who still insist

134

00:25:32,000 --> 00:25:38,000

that there was no great civilization on this earth before 8000 BC.

135

00:25:40,000 --> 00:25:49,000

We have the Gate of the Sun at Tia, Guernaca, 12,000 feet up in the high Andes of South America

136

00:25:50,000 --> 00:25:57,000

on the borders of Perun, Bolivia, with the most remarkable and precise calendar

137

00:25:57,000 --> 00:26:05,000

inscribed on its portals, nearby our other ruins, also with 200 ton stones.

138

00:26:09,000 --> 00:26:18,000

There is also the massive platform at Borbitt in the country now called the Lebanon.

139

00:26:20,000 --> 00:26:30,000

On this platform, long afterwards, the Romans built magnificent temples to their garden.

140

00:26:31,000 --> 00:26:40,000

One stretch of the platform consists of three stones whose combined length is nearly 200 feet.

141

00:26:41,000 --> 00:26:48,000

No one has so far come up with the answer as to who built this amazing platform.

142

00:26:50,000 --> 00:26:56,000

Was it originally intended as a launching platform for spaceships?

143

00:26:57,000 --> 00:26:59,000

The kind of cosmodrome?

144

00:27:00,000 --> 00:27:06,000

Mark Twain, the famous American poet and writer who visited Borbitt,

145

00:27:06,000 --> 00:27:12,000

tells us that a quarter of a mile away, this aquarii from which those colossal stones were taken.

146

00:27:13,000 --> 00:27:18,000

He relates how Inukkli lay a similar stone.

147

00:27:20,000 --> 00:27:25,000

In his words, the mate of the largest ones in the ruins.

148

00:27:26,000 --> 00:27:32,000

What is more, it lies there, squared and ready for the builders' hands,

149

00:27:32,000 --> 00:27:39,000

a solid mass 14 feet by 17 feet and 70 feet long.

150

00:27:42,000 --> 00:27:50,000

What caused that tremendous block of mason red intended for the great solid platform at Borbitt

151

00:27:50,000 --> 00:27:54,000

to be abandoned, leaving the work unfinished?

152

00:27:57,000 --> 00:28:00,000

There is also the mystery of Easter Island.

153

00:28:01,000 --> 00:28:08,000

Who built those giant figures of men with lawyers gazing igno-agnagnatically out to sea?

154

00:28:09,000 --> 00:28:14,000

Here again, there is evidence that the work had to be suddenly abandoned.

155

00:28:18,000 --> 00:28:25,000

Now, additionally, all over the world are strange, quizzical markings on its surface,

156

00:28:25,000 --> 00:28:31,000

which can only be seen at best advantage from the air.

157

00:28:32,000 --> 00:28:38,000

These are all of great antiquity, probably thousands of years old.

158

00:28:39,000 --> 00:28:45,000

In England, we have the Uppington White Horse.

159

00:28:45,000 --> 00:28:54,000

There are many white horses carved on English soil, but most of them appeared in the 18th century.

160

00:28:55,000 --> 00:29:01,000

However, this particular one on the Barksha Downs is very old.

161

00:29:02,000 --> 00:29:04,000

Its age is uncertain.

162

00:29:06,000 --> 00:29:09,000

It is 365 feet in length.

163

00:29:11,000 --> 00:29:18,000

It is true that this figure can be made out from ground level due to its prominent position.

164

00:29:19,000 --> 00:29:24,000

But it can only be seen at an extrude perspective from the air.

165

00:29:24,000 --> 00:29:28,000

And I think it was meant to be seen that way.

166

00:29:29,000 --> 00:29:36,000

Most certainly, it becomes an outstanding landmark, showing off its true proportions

167

00:29:36,000 --> 00:29:41,000

from a very long way off when viewed from an aeroplane.

168

00:29:42,000 --> 00:29:50,000

A very interesting fact is that the white horse in symbology represents mind,

169

00:29:50,000 --> 00:29:55,000

the one quality that distinguishes man.

170

00:29:57,000 --> 00:30:04,000

However, this particular white horse is more like a dragon than a horse.

171

00:30:05,000 --> 00:30:11,000

In this respect, it is different from all the other white horses carved on English soil.

172

00:30:12,000 --> 00:30:19,000

This is very significant because the amazing thing is that Ufa Pandragon,

173

00:30:20,000 --> 00:30:25,000

the paramount sovereign king of kings, the father of our famous King Arthur,

174

00:30:25,000 --> 00:30:28,000

is said to be buried nearby.

175

00:30:28,000 --> 00:30:31,000

I'm not telling you this as fact.

176

00:30:32,000 --> 00:30:35,000

But nevertheless, it is certainly interesting.

177

00:30:36,000 --> 00:30:41,000

And if Ufa Pandragon is buried nearby, then we could ask,

178

00:30:42,000 --> 00:30:49,000

was the Uffington White Horse or dragon a sign to other sky people

179

00:30:49,000 --> 00:30:53,000

that it marked the burial place of one of their own?

180

00:30:54,000 --> 00:31:01,000

In any case, the Uffington White Horse is a landmark meant to be seen from the air.

181

00:31:04,000 --> 00:31:15,000

Another landmark of gigantic proportions is situated in the Glastonbury area, Somerset.

182

00:31:16,000 --> 00:31:20,000

It is an amazing example of prehistoric earthworks.

183

00:31:20,000 --> 00:31:26,000

I have discussed this at some length in my book, *Men Among Mankind*.

184

00:31:27,000 --> 00:31:35,000

It has been called the Temple of the Stars and occupies an area 10 miles in diameter.

185

00:31:36,000 --> 00:31:39,000

It depicts a great planetarium.

186

00:31:41,000 --> 00:31:47,000

The artificial earthworks and waterways reproduce and map the heavens on the ground

187

00:31:47,000 --> 00:31:50,000

in the form of the signs of the zodiac.

188

00:31:53,000 --> 00:32:02,000

This fantastic discovery was made in modern times by the late Mrs. K. E. Wortwood.

189

00:32:03,000 --> 00:32:08,000

It was Mrs. Wortwood who traced the figures on the ground

190

00:32:08,000 --> 00:32:13,000

and arranged to have them photographed from the air.

191

00:32:14,000 --> 00:32:19,000

A casual worker would not notice anything out of the ordinary.

192

00:32:19,000 --> 00:32:22,000

They were meant to be seen from the air.

193

00:32:25,000 --> 00:32:30,000

Then in Peru, there are the famous Nazca Lines,

194

00:32:30,000 --> 00:32:35,000

which no doubt you have heard, hundreds of radiating straight lines

195

00:32:36,000 --> 00:32:44,000

discovered by two Peruvian airmen flying at 4,000 feet some years ago

196

00:32:44,000 --> 00:32:47,000

between Nazca and Palpa, Peru.

197

00:32:48,000 --> 00:32:54,000

Beneath them, on the sandy desert, they began to make out figures of birds,

198

00:32:54,000 --> 00:32:59,000

and other designs, one of a man wearing a crown,

199

00:33:00,000 --> 00:33:05,000

and in addition, spotted literally hundreds of straight lines.

200

00:33:08,000 --> 00:33:14,000

Unless thousands of years before the Inca's people had arrived by air,

201

00:33:14,000 --> 00:33:19,000

which is highly improbable, this extraordinary network of radiating lines

202

00:33:19,000 --> 00:33:23,000

seems to have been missed by them completely.

203

00:33:24,000 --> 00:33:28,000

The fact that the Inca's constructed their great coastal road

204

00:33:28,000 --> 00:33:33,000

straight through the pattern of lines tends more than anything else

205

00:33:33,000 --> 00:33:35,000

to indicate this was so.

206

00:33:36,000 --> 00:33:40,000

Later, the Inca's were plundered by the Spanish.

207

00:33:40,000 --> 00:33:43,000

Other people came and left.

208

00:33:43,000 --> 00:33:48,000

Passing over the same area, heaven knows how many times

209

00:33:48,000 --> 00:33:51,000

yet apparently no one saw them.

210

00:33:52,000 --> 00:33:57,000

It remained the two modern airmen to discover them from the air.

211

00:33:58,000 --> 00:34:03,000

Purously enough, these lines and figures cannot be spotted

212

00:34:03,000 --> 00:34:06,000

from a low-edge hopping altitude.

213

00:34:07,000 --> 00:34:12,000

The full design only reveals itself from high in the air.

214

00:34:13,000 --> 00:34:19,000

A German scientist, Maria Reich, has made a deep study of the Nazca lines

215

00:34:19,000 --> 00:34:24,000

and states that the unusual bimatic conditions

216

00:34:24,000 --> 00:34:28,000

must have had a remarkable, preserved effect

217

00:34:28,000 --> 00:34:32,000

because they are probably thousands of years old.

218

00:34:33,000 --> 00:34:38,000

A remark earlier that several great catastrophes

219

00:34:38,000 --> 00:34:41,000

have taken place in the world.

220

00:34:42,000 --> 00:34:49,000

It is probably that one occurred about 15,000 years ago.

221

00:34:49,000 --> 00:34:56,000

This was quite likely the one that caused the gate of the sun at Tihon Horonaka

222

00:34:56,000 --> 00:35:01,000

and the nearby Lake Titicaca to rise to their present position

223

00:35:01,000 --> 00:35:05,000

12,000 feet up in the high Andes.

224

00:35:06,000 --> 00:35:12,000

The distinguished scientist and writer Dr. Emanuel Velikovsky

225

00:35:12,000 --> 00:35:18,000

has expressed the view that catastrophes of such a nature

226

00:35:18,000 --> 00:35:21,000

cause mountains to rise up.

227

00:35:22,000 --> 00:35:26,000

The Russian scientist, Alexander Kazantsev,

228

00:35:26,000 --> 00:35:30,000

visited the gate of the sun and Lake Titicaca.

229

00:35:30,000 --> 00:35:35,000

He found seashells and stated that the lake

230

00:35:35,000 --> 00:35:41,000

and seashells and other marine plants by the shore of the lake

231

00:35:41,000 --> 00:35:48,000

and stated that the lake was probably at one time part of the ocean.

232

00:35:49,000 --> 00:35:56,000

I have already referred to how the work at Borbeck and Easter Island

233

00:35:56,000 --> 00:35:59,000

had to be suddenly abandoned.

234

00:35:59,000 --> 00:36:04,000

We have all heard too about the mammals in Siberia,

235

00:36:04,000 --> 00:36:08,000

some of whom were found dead in standing positions

236

00:36:08,000 --> 00:36:16,000

with refrigerated undigested food of a more temperate zone inside their carcasses.

237

00:36:18,000 --> 00:36:24,000

The catastrophe, as you can see, must have struck people and animals

238

00:36:24,000 --> 00:36:28,000

very subtly all over the world.

239

00:36:29,000 --> 00:36:36,000

For a long time afterwards, the world must have been a very difficult place

240

00:36:36,000 --> 00:36:39,000

in which to exist, let alone live.

241

00:36:41,000 --> 00:36:46,000

Then it seems there was probably another catastrophe about 11,000 years ago.

242

00:36:46,000 --> 00:36:50,000

That is about 9,000 B.C.

243

00:36:50,000 --> 00:36:54,000

We have to be a testimony of Plato for that.

244

00:36:55,000 --> 00:37:02,000

Probably for a very long time, the new survivors eat out a very precarious existence.

245

00:37:02,000 --> 00:37:09,000

Mankind fell back in some parts of the world to a near-end state.

246

00:37:09,000 --> 00:37:13,000

As a result, the terrible time they had been through.

247

00:37:15,000 --> 00:37:23,000

After it was all over, they had to start over once more on the long trek back to civilization.

248

00:37:24,000 --> 00:37:27,000

It was a long and gradual process.

249

00:37:30,000 --> 00:37:36,000

However, during all this time, the sky people have kept watch on this planet

250

00:37:36,000 --> 00:37:42,000

and we have evidence of sightings of their craft all through recorded history.

251

00:37:44,000 --> 00:37:50,000

Although it is my personal opinion that they have given us some guidance,

252

00:37:50,000 --> 00:37:55,000

they have not impinged themselves or their culture upon us.

253

00:37:56,000 --> 00:38:02,000

I think there is a cosmic law that does not allow a more advanced race

254

00:38:02,000 --> 00:38:07,000

to force its ideas upon a lesser advanced one.

255

00:38:08,000 --> 00:38:14,000

So for a long time, because I think they put us here in the first place

256

00:38:15,000 --> 00:38:20,000

and consequently had a deep interest in us and our growth,

257

00:38:20,000 --> 00:38:29,000

the sky people kept an eye on us and possibly injected an idea here and there unobtrusively.

258

00:38:31,000 --> 00:38:37,000

At this stage of my talk, I would like to briefly recapitulate

259

00:38:38,000 --> 00:38:44,000

the main points that I have made in my exposition of the UFO in our past history.

260

00:38:44,000 --> 00:38:51,000

I have postulated that one, the collective races of man were made before humanity.

261

00:38:51,000 --> 00:38:58,000

Two, that humanity became crossed with extraterrestrials and that we are their descendants.

262

00:38:58,000 --> 00:39:05,000

Three, that the sky people were known to the ancients as the certain-to-a-drago people

263

00:39:05,000 --> 00:39:10,000

and that this probably stemmed from the time before an axis tilt.

264

00:39:10,000 --> 00:39:17,000

When we had a different North Pole star, Alpha Draconis and the constellation of Drago.

265

00:39:17,000 --> 00:39:23,000

Four, that at one time in the period of Atlantis and Lemuria,

266

00:39:23,000 --> 00:39:27,000

sky people were in open contact with this planet.

267

00:39:28,000 --> 00:39:36,000

Five, after the catastrophes that caused an axis tilt and the sinking of Atlantis and Lemuria,

268

00:39:36,000 --> 00:39:43,000

sky people came down to Earth and pelted to human beings and I gave you some examples.

269

00:39:43,000 --> 00:39:49,000

Petzi Kotel in Mexico and Oki Kurumi Kamuri in Japan.

270

00:39:50,000 --> 00:40:00,000

However, I would also like to refer you very briefly to the Holy Bible,

271

00:40:00,000 --> 00:40:07,000

which in my estimation is the greatest flying source of book ever written.

272

00:40:07,000 --> 00:40:12,000

All through its pages, you read of sky people.

273

00:40:13,000 --> 00:40:20,000

There is the famous story of the landing by the river Chiba, described by Ezekiel.

274

00:40:20,000 --> 00:40:27,000

Also, the account of the three men who came to Abraham and also warned Lot.

275

00:40:27,000 --> 00:40:36,000

They were not spooks, for as you will recall, they actually partook of food with Abraham.

276

00:40:37,000 --> 00:40:48,000

Six, I then told you about some of the places on this planet, such as the Gate of the Sun at Tiaquanaco,

277

00:40:48,000 --> 00:40:52,000

Easter Island and the massive platform at Borbit.

278

00:40:52,000 --> 00:40:59,000

All three are shrouded in mystery and no one knows their exact age.

279

00:41:00,000 --> 00:41:09,000

But quite definitely, there are remnants of a civilisation capable of building with 200 ton stones

280

00:41:09,000 --> 00:41:15,000

and incidentally you can hardly put a knife blade between these stones.

281

00:41:15,000 --> 00:41:23,000

And building in a manner that with all our modern machinery and knowledge, we are not capable of emulating today.

282

00:41:24,000 --> 00:41:35,000

Seven, I then spoke of a few of the places on the Earth's surface where there are strange markings,

283

00:41:35,000 --> 00:41:43,000

which can only be seen from the air, probably thousands of years old, indicating that the entrance

284

00:41:43,000 --> 00:41:48,000

were in open contact with the sky people.

285

00:41:49,000 --> 00:41:57,000

Eight, finally I told you, and most of you know, from the works of Charles Ford

286

00:41:57,000 --> 00:42:03,000

and from the researches of W.R. Drake, Gessner, Leslie, M.K. Jessup and other writers

287

00:42:03,000 --> 00:42:09,000

that in the newspaper files of many countries in the journals of learned societies,

288

00:42:09,000 --> 00:42:16,000

the archives of monasteries and various bodies, there are records

289

00:42:16,000 --> 00:42:23,000

of what we now call flying sources that have been visiting us all through recorded history.

290

00:42:27,000 --> 00:42:33,000

This talk tonight is rather an ambitious one to say the least.

291

00:42:33,000 --> 00:42:40,000

To cover the whole UFO story, past, present and future.

292

00:42:41,000 --> 00:42:47,000

In the short space of about an hour is a shared impossibility.

293

00:42:47,000 --> 00:42:56,000

So you must forgive me if I appear to gloss over some events and not give chapter and verse.

294

00:42:56,000 --> 00:43:00,000

There are plenty of books that will do that for you.

295

00:43:00,000 --> 00:43:07,000

I am just trying to give you an overall picture,

296

00:43:07,000 --> 00:43:16,000

as I see it, of the whole UFO saga, and it is bound to have some shortcomings.

297

00:43:16,000 --> 00:43:26,000

Most of you have studied this subject in depth, and much of what I am telling you now may be old hat.

298

00:43:26,000 --> 00:43:32,000

But I think it is useful to present it on a big canvas,

299

00:43:32,000 --> 00:43:40,000

and some of my ideas may cause some food for thought.

300

00:43:40,000 --> 00:43:45,000

So much then for the past.

301

00:43:45,000 --> 00:43:54,000

As you know, citing reports of the sources have been made throughout recorded history.

302

00:43:54,000 --> 00:44:01,000

However, the number of sightings was nothing like it is today.

303

00:44:01,000 --> 00:44:09,000

The occasional reports continued down the centuries into modern times.

304

00:44:09,000 --> 00:44:19,000

Until suddenly, in 1945, the situation changed.

305

00:44:19,000 --> 00:44:26,000

As you might say, overnight.

306

00:44:26,000 --> 00:44:33,000

The atom bomb was let off.

307

00:44:33,000 --> 00:44:40,000

Once we had unlocked the secrets of the atom, they knew we were on our way.

308

00:44:40,000 --> 00:44:44,000

Space travel would soon follow.

309

00:44:44,000 --> 00:44:52,000

We might also blow up our planet.

310

00:44:52,000 --> 00:44:59,000

Since then, the sky people have intensified their visits to an enormous degree.

311

00:44:59,000 --> 00:45:10,000

There have been, as you know, literally hundreds of thousands of sightings since the Scandinavian flag in 1946.

312

00:45:10,000 --> 00:45:19,000

A recent Gallup poll in the USA established that five million people in that country alone

313

00:45:19,000 --> 00:45:27,000

claimed to have seen the flying sources.

314

00:45:27,000 --> 00:45:33,000

The sources have been seen, as before our members know very well,

315

00:45:33,000 --> 00:45:39,000

over every country and over every ocean in the world.

316

00:45:39,000 --> 00:45:47,000

They have been observed by both military and civilian pilots,

317

00:45:47,000 --> 00:45:57,000

as well as by police, postcards and by people in every walk of life.

318

00:45:57,000 --> 00:46:08,000

Then, as you are also aware, they have been tracked on radar and photographed and filmed on numerous occasions.

319

00:46:08,000 --> 00:46:16,000

I am not going to outline here either the classic or the latest sightings.

320

00:46:16,000 --> 00:46:23,000

This information is available in books and in flying source magazines.

321

00:46:23,000 --> 00:46:34,000

I want us all to think more about the implications of what is going on.

322

00:46:34,000 --> 00:46:39,000

However, I will say this.

323

00:46:39,000 --> 00:46:52,000

The technology of the sky people is so fast that it is a simple matter for them to cause major power failures

324

00:46:52,000 --> 00:46:59,000

of electricity in the United States and elsewhere.

325

00:46:59,000 --> 00:47:07,000

On another occasion, flying sources were over a Russian missile base.

326

00:47:07,000 --> 00:47:17,000

The jittery officer in charge gave the order to fire a salvo of missiles at the soldiers.

327

00:47:17,000 --> 00:47:26,000

In fact, three salvos were fired.

328

00:47:26,000 --> 00:47:29,000

What was the result?

329

00:47:29,000 --> 00:47:37,000

The source of occupants just stalled and put out of action the electrical apparatus of the whole missile base

330

00:47:37,000 --> 00:47:43,000

by means of their powerful electromagnetic force fields.

331

00:47:43,000 --> 00:47:48,000

No one was hurt.

332

00:47:48,000 --> 00:48:01,000

The authorities of the world have not announced the reality of the sources.

333

00:48:01,000 --> 00:48:09,000

All they have done over the years is to consistently explain the craft away

334

00:48:09,000 --> 00:48:17,000

according to the temperature in Russians, reflections, the planet Venus, and so on.

335

00:48:17,000 --> 00:48:27,000

Inserting the intelligences and damaging the reputations of the fine pilots who have reported them

336

00:48:27,000 --> 00:48:35,000

and know what they have seen and what that is in the sky.

337

00:48:35,000 --> 00:48:46,000

Many pilots in the United States now refuse to file UFO reports because they know what to expect.

338

00:48:46,000 --> 00:48:56,000

Neither have the authorities made any attempt during the last two decades to prepare the way

339

00:48:56,000 --> 00:49:04,000

and educate the public gradually up to an eventual announcement that the sources are real.

340

00:49:04,000 --> 00:49:12,000

It is true that a few months ago, due to public pressure, the United States authorities

341

00:49:12,000 --> 00:49:20,000

at long last allocated a sum of money, \$300,000, not a very large amount for the job,

342

00:49:20,000 --> 00:49:29,000

to the University of Colorado and a panel of scientists being set up there headed by a physicist, Dr. Condon,

343

00:49:29,000 --> 00:49:32,000

to investigate the subject.

344

00:49:32,000 --> 00:49:41,000

It remains to be seen whether this is just another stalling operation.

345

00:49:41,000 --> 00:49:56,000

Now I come to the future, which I regard as the most important phase of my talk.

346

00:49:56,000 --> 00:50:02,000

We are now in a period of violence.

347

00:50:02,000 --> 00:50:08,000

There is much trouble and unrest in the world.

348

00:50:08,000 --> 00:50:11,000

We are in Vietnam.

349

00:50:11,000 --> 00:50:13,000

It was driving China.

350

00:50:13,000 --> 00:50:15,000

We are on the MN.

351

00:50:15,000 --> 00:50:17,000

We are in Hong Kong.

352

00:50:17,000 --> 00:50:21,000

A possible civil war in Nigeria.

353

00:50:21,000 --> 00:50:30,000

And a very serious situation in the Middle East which may ignite into a World War III.

354

00:50:30,000 --> 00:50:36,000

Crime and vice are on an unprecedented sale.

355

00:50:36,000 --> 00:50:44,000

And additionally, there is racial trouble in the States and elsewhere.

356

00:50:44,000 --> 00:50:58,000

At the same time, many spiritually minded people are being drawn together into good communication all over the world.

357

00:50:58,000 --> 00:51:04,000

This is of a special interest in these times.

358

00:51:04,000 --> 00:51:23,000

As although there have always been some spiritually orientated people in the world, I do not think that there have ever been so many as there are today.

359

00:51:23,000 --> 00:51:29,000

So you see, we have two extremes building up.

360

00:51:29,000 --> 00:51:36,000

In fact, in a sense, these two represent a weight change.

361

00:51:36,000 --> 00:51:50,000

I pointed out some seven years ago in my book *The Sky People*, that these extremes were beginning to build up.

362

00:51:50,000 --> 00:52:01,000

However, they have gone on to use a modern word, escalating, and there is a reason for it.

363

00:52:01,000 --> 00:52:19,000

I think this world and the solar system in which we reside are moving gradually through space to areas where we were becoming under the influence

364

00:52:19,000 --> 00:52:24,000

of another sun.

365

00:52:24,000 --> 00:52:30,000

As you know, cosmic energies are always reaching us.

366

00:52:30,000 --> 00:52:37,000

But these energies have for some time been taking on a more potent force.

367

00:52:37,000 --> 00:52:44,000

These energies are now going to build up even more.

368

00:52:44,000 --> 00:52:53,000

It is a cleansing process for this planet.

369

00:52:53,000 --> 00:53:11,000

These increased cosmic energies are causing us to either react violently or in harmony in tune with cosmic law.

370

00:53:11,000 --> 00:53:17,000

Depending upon the state of our evolution and our makeup.

371

00:53:17,000 --> 00:53:30,000

As I say, we have been feeling the effect of these energies for some time and they will become more effective soon.

372

00:53:30,000 --> 00:53:40,000

I can best describe the strange situation by giving you an analogy.

373

00:53:40,000 --> 00:53:47,000

The world right now is like a dirty ink bottle.

374

00:53:47,000 --> 00:53:53,000

In process, I have been washed out with clean pure water.

375

00:53:53,000 --> 00:54:09,000

All the dirty ink and mud from the bottom of the bottle rises to the surface while it has been flushed out.

376

00:54:09,000 --> 00:54:24,000

Soon the dirty ink, that is the violence, the crime and negative way of life, will not be able to exist on this planet.

377

00:54:24,000 --> 00:54:32,000

Those who cannot exist in the clear fresh water, that is, live with the new cosmic energy.

378

00:54:32,000 --> 00:54:41,000

Now quickening us one way or the other will have to continue their evolution elsewhere.

379

00:54:41,000 --> 00:54:58,000

It is my opinion, and what I am saying is purely my opinion, this planet has been prepared for those who live in harmony

380

00:54:58,000 --> 00:55:17,000

and to take its place as a fully fledged member of the galaxy in open contact and communication with the inhabitants of other worlds.

381

00:55:17,000 --> 00:55:26,000

Now, I would like to make a few comments about another aspect of the subject.

382

00:55:26,000 --> 00:55:44,000

There has been a tendency of late, in some sections of the flying source of field, to label some of the flying sources as hostile or something approaching that classification.

383

00:55:44,000 --> 00:55:54,000

I fully appreciate that everyone is entitled to their own opinions.

384

00:55:54,000 --> 00:55:58,000

Let us take a look at the record.

385

00:55:58,000 --> 00:56:08,000

Sources of researchers know that there are reports of flying sources visiting us all through history.

386

00:56:08,000 --> 00:56:11,000

What is the result?

387

00:56:11,000 --> 00:56:18,000

You and I are still here, breathing God's fresh air.

388

00:56:18,000 --> 00:56:27,000

Or at least what remains of it after we have polluted it.

389

00:56:27,000 --> 00:56:29,000

That is all very well.

390

00:56:29,000 --> 00:56:39,000

Those that support the hostile source of their approach, but what about the intensive observation of this planet now going on?

391

00:56:39,000 --> 00:56:47,000

That surely indicates an invasion from space is about to take place.

392

00:56:47,000 --> 00:57:03,000

It is true that visitors have concentrated their observations systematically over every country, taking one or two parts of the globe at a time.

393

00:57:03,000 --> 00:57:18,000

They have closely studied fault lines in the Earth's crust, reservoirs, lakes, ancient sites, and indeed our missile and atomic bases have had their full attention.

394

00:57:18,000 --> 00:57:25,000

They have hovered over airports and observed our astronauts in flight.

395

00:57:25,000 --> 00:57:30,000

That is the truth, we are really known. They have studied everything.

396

00:57:30,000 --> 00:57:38,000

Nothing has been missed. Everything and everyone has been studied in detail.

397

00:57:38,000 --> 00:57:50,000

Now, as the sources have been seen over these missile and atomic bases and other military installations,

398

00:57:50,000 --> 00:58:00,000

some writers on the UFO have used these facts as proof that an invasion is imminent.

399

00:58:00,000 --> 00:58:09,000

I would like to point out that this intensive survey of our planet has now been going on for two decades.

400

00:58:09,000 --> 00:58:19,000

Actually, a shade more, 21 years, if we include the Scandinavian flap of 1946.

401

00:58:19,000 --> 00:58:25,000

Let us look at this situation with a little thought. That would be refreshing.

402

00:58:25,000 --> 00:58:37,000

Because it seems to me that is just what is needed to blow away the cobwebs of fell and rash conclusions.

403

00:58:37,000 --> 00:58:53,000

If you had the advanced technology to wipe out this planet in the twinkling of an eye, would you spend 21 long years on an intensive military reconnaissance?

404

00:58:53,000 --> 00:59:06,000

I would not think so. The whole idea is quite absurd when you look at it in that light.

405

00:59:06,000 --> 00:59:15,000

I submit that the flying sources do not have any hostile intentions towards the planet Earth.

406

00:59:15,000 --> 00:59:28,000

I would go so far as to suggest that they know only too well about possible coming physical changes on this planet.

407

00:59:28,000 --> 00:59:43,000

Including a possible access to it. They know, as our scientists also know, that the magnetic North Pole has deviated considerably from its normal position.

408

00:59:43,000 --> 00:59:52,000

And that a large quantity of ice is gradually building up in the south in Antarctica has been for some time.

409

00:59:52,000 --> 01:00:08,000

They may well have plans for melting the ice, I do not know. We do know that they have paid a great deal of attention for fault lines, but the San Andreas one in California.

410

01:00:08,000 --> 01:00:26,000

I think the reason for their keeping an eye on our atomic and missile bases is in case we aggravate a critical situation by starting a nuclear war.

411

01:00:26,000 --> 01:00:34,000

I do not think they want this planet to be destroyed.

412

01:00:34,000 --> 01:00:44,000

As I have earlier stated, I think they know, like our scientists do, that an axis tilt is on the cards.

413

01:00:44,000 --> 01:00:54,000

And that is possibly the reason for the recent phased power failures in the USA and other places.

414

01:00:54,000 --> 01:01:15,000

I will tell you why I think that. To reach that future date, you will recall the great power failure of November the 9th, 1965, in the Northeast United States.

415

01:01:15,000 --> 01:01:31,000

When millions of New Yorkers and other US citizens were plunged into total darkness, and soon afterwards there was another power failure in the Southwest United States.

416

01:01:31,000 --> 01:01:39,000

This incidentally, I am told, put the President's phone out of action and it is launched in Texas.

417

01:01:39,000 --> 01:01:47,000

There was also another failure in Mexico somewhere around the same time.

418

01:01:47,000 --> 01:01:59,000

On all of these occasions, flying saucers were observed, hovering and flying along the parlor.

419

01:01:59,000 --> 01:02:11,000

My speculation is that these blackouts were deliberately caused by the sky gamble for at least two reasons.

420

01:02:11,000 --> 01:02:25,000

One, as a test of human behavior in an emergency, when masses of people would be in total darkness, and if an axis tilt was to occur,

421

01:02:25,000 --> 01:02:35,000

it is possible that the sun might be blacked out and they wanted to know how we would respond.

422

01:02:35,000 --> 01:02:48,000

I am happy to report, and you probably saw it in the papers, that there was no panic. Humanity passed this test.

423

01:02:48,000 --> 01:03:00,000

The only side effect was we found out later that the birth rate went up, someone has been warned.

424

01:03:00,000 --> 01:03:13,000

I think this was also a warning to humanity not to rely too much on material things.

425

01:03:13,000 --> 01:03:33,000

Those that support the hostile source of school have also made much of a fact that there have been some instances where editors from elsewhere

426

01:03:33,000 --> 01:03:50,000

who have landed and been surprised by a human being coming on the scene unexpectedly have used some sort of ray gun to temporarily stun or paralyze.

427

01:03:50,000 --> 01:04:04,000

For example, we now know that this happened to Monsieur Mass, the French farmer who came across an oval-shaped craft on his lavender field in the south of France.

428

01:04:04,000 --> 01:04:16,000

There have been other cases of visitors horribly removing themselves on being seen by human beings.

429

01:04:16,000 --> 01:04:23,000

Upon reflection, can we be surprised by this reaction?

430

01:04:23,000 --> 01:04:36,000

We must realize that the visitors probably come from many areas judging by the different landing reports and the descriptions of the source of occupants.

431

01:04:37,000 --> 01:04:47,000

The more evolved ones and those that really have the interests of this planet more at heart would probably not behave in this fashion.

432

01:04:47,000 --> 01:04:54,000

But others are undoubtedly coming in too, engaged in scientific research.

433

01:04:54,000 --> 01:05:09,000

These are the people who have been seen taking away soil samples and siphoning water out of lakes, taking them home for analysis.

434

01:05:09,000 --> 01:05:20,000

Word has probably got round the galleys here that the natives on this planet are dangerous.

435

01:05:20,000 --> 01:05:28,000

After all, we're always fighting among ourselves. I don't have to rub that point home, do I?

436

01:05:28,000 --> 01:05:37,000

We've just had two terrible world wars, then the Korean one, now Vietnam and the Middle East escalate into another.

437

01:05:37,000 --> 01:05:49,000

Quite apart from all the crime and other scullery doggerel I have already referred to, it is a sheer wonder that anyone from out there would wish to come to this jungle world at all.

438

01:05:49,000 --> 01:06:00,000

How about looking at the overall picture a little from their point of view?

439

01:06:00,000 --> 01:06:09,000

Human beings always have a tendency to think that someone is going to attack them.

440

01:06:09,000 --> 01:06:35,000

Finally, on this hostile business, there is yet another school of thought that maintains that there is no need for an invasion by the hostile type of sorcerer,

441

01:06:35,000 --> 01:06:42,000

as they are supposed to have already taken over the planet.

442

01:06:42,000 --> 01:06:55,000

It exists in bases on Earth, in places like Antarctica, the Himalayas, South America and so on.

443

01:06:56,000 --> 01:07:17,000

This school of thought considers that hostile entities in the sources that are occupying the Earth are influencing the names of men and infiltrating among us

444

01:07:17,000 --> 01:07:27,000

for the purpose of encouraging us to destroy each other by war.

445

01:07:27,000 --> 01:07:47,000

I've had letters from Holland, Austria and other places besides having had talks with sorcerer researchers here in this country on this aspect.

446

01:07:47,000 --> 01:08:08,000

Well, it's a very interesting theory, but you know it is an inborn trait on the part of many human beings to throw the results of their own actions.

447

01:08:08,000 --> 01:08:23,000

I'm not talking about their individual actions in regard to this particular matter, but they do pass off their own results of their own actions on to other people.

448

01:08:23,000 --> 01:08:35,000

It's not true, but in this case, it's a question of pushing the responsibility for collective action on to others.

449

01:08:35,000 --> 01:08:51,000

I am sure that the state of the world today has been brought about entirely by our own negative and faulty collective thinking.

450

01:08:51,000 --> 01:09:01,000

I am certain that it has not been brought about by alleged hostile flying sources based on this planet.

451

01:09:01,000 --> 01:09:15,000

It has come about by the collective human thinking on this Earth and we must all share collective responsibility.

452

01:09:15,000 --> 01:09:36,000

I know that we live in a world of dualities, good and evil, black and white, but we should try and rise above all this and realize that there is really only one force and that is the power of light.

453

01:09:36,000 --> 01:09:57,000

In the limited world of human thinking, there are seemingly two powers, but they fuse into one when we rise above the dualities of the world.

454

01:09:57,000 --> 01:10:08,000

I believe we are approaching the most commendous times and that we are now living in the most exciting period in the history of this planet.

455

01:10:08,000 --> 01:10:19,000

I am convinced that the sky people are only here to watch and alleviate any physical changes that may be coming.

456

01:10:19,000 --> 01:10:31,000

I do not think that they will make open contact with us unless invited to do so by a sufficient number of people.

457

01:10:31,000 --> 01:10:40,000

Then they might consider it, but the decision would be theirs.

458

01:10:40,000 --> 01:10:48,000

It is possible that they might intervene if we start a nuclear war.

459

01:10:48,000 --> 01:10:58,000

Again, we must not count on that. The decision would be theirs.

460

01:10:58,000 --> 01:11:10,000

I think the time is growing right for their return.

461

01:11:10,000 --> 01:11:27,000

In my book, *Men Among Man's Time*, I finished up by writing the promise that the two separated brother groups will in time come together again as not yet being openly fulfilled.

462

01:11:27,000 --> 01:11:46,000

But the numerous sightings all over the world in recent times, in recent years, modern visions of celestial chariots may well foreshadow such an event.

463

01:11:46,000 --> 01:11:52,000

I think that promise is shortly going to be fulfilled.

464

01:11:52,000 --> 01:12:08,000

It will not be a hostile invasion on their part, but it will be a coming together of long-parted friends.

465

01:12:08,000 --> 01:12:16,000

Meanwhile, if we keep in tune with our source, then we need have no fear.

466

01:12:16,000 --> 01:12:34,000

If we walk in the light, the dark will not affect us. It has long been prophesied that after the changes, a golden age will dawn, and once again we will be in open contact with our friends from the skies.

467

01:12:34,000 --> 01:12:46,000

So, let us all take higher ground. Then we need not fear any axis-pilt or hypothetical hostile sources.

468

01:12:47,000 --> 01:13:01,000

But realize, if you don't mind me saying so, in the words of Psalm 46, that God is our refuge and strength, a very present help in trouble.

469

01:13:01,000 --> 01:13:12,000

Therefore, will we not fear, where the earth be removed, and though the mountains be carried into the midst of the sea?

470

01:13:12,000 --> 01:13:15,000

Thank you.
