

1

00:00:00,000 --> 00:00:15,320

Mr Chairman, ladies and gentlemen, to say that my year of planning, at that very surprising

2

00:00:15,320 --> 00:00:24,320

and unlooked-for tribute from John, is to put it mildly. But to lead straight away into

3

00:00:24,320 --> 00:00:33,520

what I seriously consider to be the most important subject facing our Earth planet at this present

4

00:00:33,520 --> 00:00:42,840

time in history. Uphology. Now, thank heaven, thank heaven that I've got a thick skinned,

5

00:00:42,840 --> 00:00:50,280

thank heaven probably you think that you have thick skins. It's such a pity, a great

6

00:00:50,280 --> 00:00:56,720

shame, I feel personally and I'm an on entity, but I do feel this very strongly. I've been mixed up

7

00:00:56,720 --> 00:01:05,600

in the male strong of UFO sightings, UFO sounds for practically four years. I've stuck my neck

8

00:01:05,600 --> 00:01:14,160

out unreservedly on the evidence that I had accumulated after two years in 1966. And I declared

9

00:01:14,160 --> 00:01:19,840

firmly to anyone who is interested in that included Dennis Healy, the secretary of state

10

00:01:19,840 --> 00:01:35,160

for war and the cabinet. Come to Warminster and see on any clear night craft artifacts that do

11

00:01:35,160 --> 00:01:43,360

not comply with any conventional aircraft of this Earth for heaven's sake come and see them for

12

00:01:43,360 --> 00:01:53,000

yourselves and like me try and determine anyway whether you think they are of this Earth or

13

00:01:53,000 --> 00:02:07,680

extraterrestrial. My first book was if you like a very amateurish attempt to put across fact. Yet

14

00:02:07,680 --> 00:02:16,560

the whole problem one of the most perplexing incombrilities and irrationalities about UFOs,

15

00:02:16,560 --> 00:02:25,280

craft and whoever or whatever is aboard is that they are such fleeting ghosts of the air.

16

00:02:25,280 --> 00:02:37,080

Very rarely do they know. But out of the team of three, John was saying just now and Professor

17

00:02:37,480 --> 00:02:46,040

said that we didn't want to belong to before. Now for heaven's sake from that remark, don't take it

18

00:02:46,040 --> 00:02:55,440

that we're terribly proud. We are meekly as are you seeking truth about this still unpredictable,

19

00:02:55,440 --> 00:03:04,080

still largely unknown aerial mystery. The only reason we didn't become honorary members of

20

00:03:04,120 --> 00:03:13,400

before and we were very thrilled to be invited to do so was because having close contact with

21

00:03:13,400 --> 00:03:19,880

these craft so persistently and I'll give you some of what I consider to be the reasons for

22

00:03:19,880 --> 00:03:26,880

Warminster in a moment. Having such close contact seeing incredible happenings in the

23

00:03:26,880 --> 00:03:35,320

eye so consistently and persistently. If we start on an effort as a team, we've already been

24

00:03:35,320 --> 00:03:41,160

vilified and reviled. Fair enough it bounces off thick elegant hides nowadays. We're in

25

00:03:41,160 --> 00:03:49,120

praise to criticism even. We want to know, we're a team of three, that if we decide these craft

26

00:03:49,400 --> 00:03:55,160

do not deceive the eye when they fly away. They don't fly too fast to deceive the eye.

27

00:03:55,160 --> 00:04:04,360

They dematerialize if we decide a major, a major finding of that nature. Fantastic though it may

28

00:04:04,360 --> 00:04:17,200

seem. We would still exploit before to which we belonged to back us on that claim and we would

29

00:04:17,240 --> 00:04:25,240

never make any claim which is extravagant. What was the sole reason? We didn't want all before

30

00:04:25,240 --> 00:04:32,360

taking the time back publicly and we're snubbed up by all sorts of cynics and skeptics. We did not

31

00:04:32,360 --> 00:04:39,160

want them to take the time back for assumptions, pretty good assumptions that we make. That's the

32

00:04:39,160 --> 00:04:48,200

only reason. I let before very much, I let contact very much. We have helped us from both

33

00:04:48,200 --> 00:04:54,440

organizations coming down to warm and stuff and they seriously apply themselves to diligent study

34

00:04:54,440 --> 00:05:02,680

of these phenomena. Now this is a continuation I understand this evening and I'm speaking off

35

00:05:02,720 --> 00:05:10,840

of cut as I usually do. A continuation of the Warminster story. Is it still happening at

36

00:05:10,840 --> 00:05:19,200

Warminster? Are these things, and I use the word reservably, after all the Spanish word for

37

00:05:19,200 --> 00:05:27,880

thing is Cosa and Spanish sightings, the witnesses there describe them as Cosa. Are we still seeing

38

00:05:28,080 --> 00:05:40,840

them? The short and very honest reply is yes, but not so consistently. In April of 1966,

39

00:05:40,840 --> 00:05:49,280

that's going back a bit, isn't it? I wrote to Dennis Healy, a letter from a professionally

40

00:05:49,280 --> 00:05:56,960

trained observer, I'm a non-entity as a person but that's my job and I invited him warmly to get

41

00:05:56,960 --> 00:06:02,320

out of the cabinet to come to Warminster and see these incredible things that we were seeing on

42

00:06:02,320 --> 00:06:11,240

every clear night. That's two and a half years ago. I was politely rebuffed by a Mr. M. H. Toft of

43

00:06:11,240 --> 00:06:19,200

the Ministry who said that the Minister was a very busy man, but he did after going through the

44

00:06:19,200 --> 00:06:27,600

whole incredible gamut of preferred alternatives to eophiles, meteorological disturbance for

45

00:06:27,600 --> 00:06:36,920

weather buildings, sun dogs, reflections from bird wings, Venus, the most milked sacred cow of

46

00:06:36,920 --> 00:06:46,480

officialdom I've ever heard of. After this, he did admit that 90% of all sightings, so far as

47

00:06:46,640 --> 00:06:56,880

his investigators know, he worded it in a different, rather different way, he said that

48

00:06:56,880 --> 00:07:04,400

less than 10% are in its withhold. Well, when I told Bob, you know, he's an XRF man, one of my

49

00:07:04,400 --> 00:07:11,040

pre-person teams, when I gave him this information, he waxed it all for me and said, well, for

50

00:07:11,040 --> 00:07:16,640

heavens sake, Arthur, tell him from me that we've got the whole ready 10% over warmest

51

00:07:16,640 --> 00:07:28,200

every night. What I am rather pleased about is the temperature or the climate of public opinion

52

00:07:28,200 --> 00:07:37,600

towards these craft has changed considerably over the past year or so. This is very welcome.

53

00:07:37,920 --> 00:07:44,000

Nobody likes to be considered a fool, especially if he thinks, well, he's a particular job, he's a bit

54

00:07:44,000 --> 00:07:50,080

of an expert. But there is no such thing, and I would be the first to acknowledge this, there is no

55

00:07:50,080 --> 00:08:02,880

such thing as an expert on ufology or Eucharist. One can only apply oneself to what one sees oneself,

56

00:08:03,600 --> 00:08:12,880

what one hears. The reports of others bearing in mind that one has to transmute the draft or to

57

00:08:12,880 --> 00:08:20,160

throw away the draft and retain the gold in certain eyewitness accounts. As a responsible

58

00:08:20,160 --> 00:08:28,800

journalist, I think fairly I can judge a person pretty well. Now, I'll give you a recent

59

00:08:28,800 --> 00:08:34,080

site in which made no newspaper at all. I said after all the Sunday papers didn't get anywhere.

60

00:08:35,680 --> 00:08:44,560

About cashier and her husband, a headmaster's wife, Mrs. Mayan, a farmer, Joseph Gray and his wife,

61

00:08:44,560 --> 00:08:53,920

France, five good witnesses of a new farm which came very low over the farmland at Glee Farm Dairy

62

00:08:54,000 --> 00:09:01,280

Coffee, six miles from Ornister, Wednesday, August 21, this year.

63

00:09:03,600 --> 00:09:11,440

Now, this was reported sensibly by the farmer to the local police, and they noted it, they told me,

64

00:09:11,440 --> 00:09:18,480

so I went out and interviewed the people. Now, here's, here's still, unfortunately,

65

00:09:19,440 --> 00:09:26,640

the official attitude coming into play. I've plugged this in a local newspaper, in the Bristol

66

00:09:26,640 --> 00:09:34,720

newspaper, and the Bristol Met Office immediately said that this must have been a fireball because

67

00:09:34,720 --> 00:09:47,680

it was seen over Bristol heading south to north at about 9.30 p.m. Our sighting happened at 9.35

68

00:09:48,240 --> 00:09:57,920

p.m. It was not the same night, and it was in sight for over three minutes. Time enough for a farmer

69

00:09:57,920 --> 00:10:03,920

to rush indoors and get his binoculars onto it, and he described it to me in good old-fashioned

70

00:10:03,920 --> 00:10:13,440

farmers language as very much, it was as big as a packet to start, to the eye as big as a packet,

71

00:10:13,440 --> 00:10:20,000

good old farming expression, didn't have anything in it at home. But the point is, a saddle stone

72

00:10:20,000 --> 00:10:25,920

rounded at the top, and if you've known about saddle stones, you will appreciate this is a good

73

00:10:25,920 --> 00:10:33,200

shaped flying saucer, and I hate that term, I'll select your chart. Soundless, which shook the

74

00:10:33,200 --> 00:10:42,400

fireball, but no sound at all, in sight, in view for three minutes, heading north-west to south.

75

00:10:43,600 --> 00:10:47,920

Now, if it had come in that direction over Bristol and been in fireball,

76

00:10:47,920 --> 00:10:51,600

even had it been the same date, it would have come nowhere, dear warm-man.

77

00:10:52,880 --> 00:10:58,160

Now, we had to be very careful, you see, because these official people rush in immediately if there's

78

00:10:58,160 --> 00:11:05,680

anything at all suspect. And yet, when given good sighting material, I used to work in close

79

00:11:05,680 --> 00:11:10,400

cooperation with the ministry, believing like a fool that they would buck me, that they would

80

00:11:10,480 --> 00:11:15,280

calm down, that they were sponsorous, that they were finances, help us with better equipment.

81

00:11:15,280 --> 00:11:19,520

It never happened, of course it didn't, but they still had our negatation prints, and they were

82

00:11:19,520 --> 00:11:24,240

still sending them back with no comment attached. That's fair enough, fair enough, please ask,

83

00:11:24,240 --> 00:11:32,160

no comment means, well, it could be true, of course it could. I will only digress it if I put

84

00:11:32,160 --> 00:11:39,760

this thought to you that a number of pilots, obviously, must have had far closer viewings of

85

00:11:39,840 --> 00:11:46,640

craft than we have, and we've been very privileged. On seven occasions in the last 18 months at

86

00:11:46,640 --> 00:11:56,480

Warmingham, we have seen eight landings, eight landings in seven evenings in the last 18 months.

87

00:11:57,360 --> 00:12:04,080

Now, how does one determine a landing? I will give you a typical example, and I won't speak off

88

00:12:04,160 --> 00:12:08,640

the cuff now, because this is in my new book, and I'm not plugging the book.

89

00:12:13,920 --> 00:12:21,520

Here is a report in the Rucha Times and News, not my newspaper.

90

00:12:24,320 --> 00:12:28,640

It says the front page headline on Friday, May 10th of this year,

91

00:12:29,360 --> 00:12:36,320

blinding light soot on car. The Warminster thing has reappeared. This is a pity when they say

92

00:12:36,320 --> 00:12:44,240

reappeared, honestly, because on average, still we're seeing them at least once a week at Warminster,

93

00:12:44,240 --> 00:12:50,800

and I'll come to the reason for that later on, but the newspaper is what tops the yarn normally,

94

00:12:50,800 --> 00:12:56,320

but this is probably their Warminster reporter, Bob Randall. The Warminster thing has reappeared.

95

00:12:56,400 --> 00:13:01,600

Teddy Communications engineer Mr. Trevor Marsh obtained the close Warminster. He used to have an

96

00:13:01,600 --> 00:13:06,800

open mind about the thing, but he says after it hovered over his car on the main warmest of the

97

00:13:06,800 --> 00:13:14,400

bathrobe near Warminster on Monday night, last week, he now has no doubts left. He was driving

98

00:13:14,400 --> 00:13:19,920

home between 10.40 and 11.00 p.m. after visiting his girlfriend when he saw a flashing light over

99

00:13:19,920 --> 00:13:26,480

Norwich Wood. You may remember, if you read my last book, how significant Norwich Wood is.

100

00:13:28,240 --> 00:13:34,560

He thought it was a helicopter's navigation light, but the light came towards the car almost

101

00:13:34,560 --> 00:13:43,200

blinding him and creating severe static on his car. He slowed down to 10 miles per hour because

102

00:13:43,200 --> 00:13:49,520

he was dazzled. As the light came right over the car, it was blotted out by a huge circular object

103

00:13:49,520 --> 00:13:55,440

underneath it. Trevor estimates the object was about three times as big as his Norwich

104

00:13:55,440 --> 00:14:03,840

1000 and about 30 feet above it, but it could have been bigger and higher or smaller and lower.

105

00:14:03,840 --> 00:14:09,600

That's relevant, very relevant. It's very sensible. Unless you know beforehand the height of the

106

00:14:09,600 --> 00:14:14,880

object or the only other alternative to the dimension of the object, you can't measure streets,

107

00:14:14,880 --> 00:14:22,720

for example. The object was blue-green at one end and red at the other. He was unable to tell what

108

00:14:22,720 --> 00:14:30,720

it was made of and unable to see any metallic shine or rivets. As soon as the light was masked and he

109

00:14:30,720 --> 00:14:37,520

could see properly again, Trevor drove into Warminster as fast as he could. It gave me a right old

110

00:14:37,840 --> 00:14:44,400

freezer. He was a teenager, only 90. He admitted later, I was shaking all over. When I got into town,

111

00:14:44,400 --> 00:14:50,080

I slowed down and looked back, but it had gone. There was no sound. I came along the road about the

112

00:14:50,080 --> 00:14:55,760

same time on Tuesday night and I went like hell, I can tell you, but I did not see anything this time.

113

00:14:56,320 --> 00:15:06,160

Now, one can't beat that for a candor on what to us is quite an ordinary event. This may sound

114

00:15:06,160 --> 00:15:14,240

incredible. Before I go into any other sightings, I'm leaving the most dramatic one to the end,

115

00:15:14,240 --> 00:15:20,880

because no one apart from us, create Warminster, will ever believe it. I'm leaving that to the end.

116

00:15:23,360 --> 00:15:28,480

Let's try and assess in a practical scientific sense, why Warminster.

117

00:15:28,480 --> 00:15:36,560

All over the world, and I've checked South and North American sightings very carefully,

118

00:15:36,560 --> 00:15:42,160

forget about maze, any way. I'm sorry about this, but it just doesn't fit anymore.

119

00:15:42,800 --> 00:15:51,920

Maze can be found any old way. Concentrate more on fields and particularly concentrations

120

00:15:51,920 --> 00:16:01,440

of lines of magnetism. Now, in the magazine Nature last year, this is brought to my notice,

121

00:16:01,440 --> 00:16:08,320

not bad it was, because it works into the pattern of this at Warminster, it was there declared that

122

00:16:09,520 --> 00:16:16,720

you can measure these magnetic force lines, obviously, it tells you where to get books about

123

00:16:16,720 --> 00:16:24,000

this in this book. But the point is that one particular concentration of force field of

124

00:16:24,000 --> 00:16:33,680

electromagnetic power over this earth, and over Britain throughout the whole of 1966,

125

00:16:33,680 --> 00:16:41,280

although it fluctuated considerably, although it altered direction considerably. It may, for example,

126

00:16:41,280 --> 00:16:47,760

at one period of the year have struck from Southampton to Newcastle, and another period it

127

00:16:47,760 --> 00:16:54,000

might have come down from Norths to the Isle of Wight, it might have gone across from Guilford to

128

00:16:54,000 --> 00:17:02,800

Glastonbury. But wherever that power line shifted during the whole of the year, the only town which

129

00:17:02,800 --> 00:17:09,120

was always in the middle of it was Warminster. Now that's a good scientific finding.

130

00:17:11,360 --> 00:17:17,440

As you read the book, you will find that I'd go away eventually, I'm sorry about this,

131

00:17:17,440 --> 00:17:21,120

the conclusion of my book will probably shock a lot of you, because you think well,

132

00:17:21,120 --> 00:17:25,920

all shut woodtimes and sprouts, and he gives us some factual accounts, but what on earth has

133

00:17:25,920 --> 00:17:31,680

happened to him in this last couple of chapters? I will only say this for over two years,

134

00:17:32,560 --> 00:17:41,840

diligently and very meekly, we tried to estimate, to evaluate accurately, all that we were learning,

135

00:17:42,480 --> 00:17:50,320

and in a scientific sense, we could measure speed of the craft at over 100,000 an hour,

136

00:17:51,920 --> 00:18:00,320

we could make fairly reasonable deductions from the shapes of the craft, the three main shapes,

137

00:18:01,040 --> 00:18:10,720

lamb or cigar, lamb and bell or flying saucer. The shapes are already on the ground around

138

00:18:10,720 --> 00:18:17,440

Warminster in the form of birth, tumuli and burial burrows. This is only a fair assumption.

139

00:18:18,160 --> 00:18:23,680

We're trying to get to grips with something which has not the tangibility that we would desire

140

00:18:23,680 --> 00:18:29,920

a scientist, in other words, if they come down and they land, they let you come aboard the craft,

141

00:18:30,000 --> 00:18:35,120

you can see what's aboard or who's aboard, you can determine with microscopic slides

142

00:18:35,120 --> 00:18:41,840

correct analyses. Failing that as a scientist and doing scientific appraisals, you fall

143

00:18:41,840 --> 00:18:51,200

rowfully short of proving the identity of craft, the people and the purpose of their visits in

144

00:18:51,760 --> 00:18:57,520

vastly more numerical numbers than ever in numerical concentration than ever before in history.

145

00:18:58,480 --> 00:19:06,480

But the round barrel is on the plane, the bow barrel which contains a certain amount of flint

146

00:19:06,480 --> 00:19:12,160

is on the plane, and the long barrel where the experts are digging into history or prehistory

147

00:19:12,160 --> 00:19:20,080

of 4,000 years ago when assessing stonehenge, where they tell us that the ancient chieftains

148

00:19:20,080 --> 00:19:27,440

of life vary. Now if one does an aerial survey, I'll check this very clearly, one does an aerial

149

00:19:27,440 --> 00:19:35,440

survey of these burrows. When draw a ground floor map when you come down, it doesn't make

150

00:19:35,440 --> 00:19:42,000

sense at all, doesn't make any sense at all. The juxtapositioning of all the burrows, nothing,

151

00:19:42,000 --> 00:19:47,920

but a prior mathematical mind and take away certain types of barrel from other types of

152

00:19:47,920 --> 00:19:55,280

barrel, and you find that by subtracting the smaller burrows from the large, the chieftain

153

00:19:56,080 --> 00:20:04,400

burrows or the cigar shape, you see clearly marked on the ground constellations in the

154

00:20:04,400 --> 00:20:12,560

northern sky, they match as a major for proud, praise. Now this probably means nothing,

155

00:20:13,200 --> 00:20:18,240

it's a minor revelation perhaps, but when you are trying to appraise something scientifically,

156

00:20:18,240 --> 00:20:26,080

which doesn't give you any scientifically appraisable fodder or material, then you're

157

00:20:26,080 --> 00:20:33,360

stranded, you're out on a limb, and you must surely use your own humble faculties to determine,

158

00:20:33,360 --> 00:20:38,640

to your satisfaction at least, well here's something that makes a little bit of sense at last.

159

00:20:39,440 --> 00:20:42,080

So we've got the speed of the craft, we've got the shape of the craft,

160

00:20:45,360 --> 00:20:51,840

and you'll go on and pick up many minor pieces of information about electromagnetism,

161

00:20:53,120 --> 00:21:00,880

for example that's quite feasible that they do use electromagnetic forces, possibly with the

162

00:21:00,880 --> 00:21:09,200

secret of additive, of knowledge of harnessing certain strength and certain length, some ways,

163

00:21:10,080 --> 00:21:17,280

I can't say more than that, the book does, but I'm not here to plug the book, but you see you're

164

00:21:17,280 --> 00:21:23,040

out on a limb, now something happened to me last August, and this is on a purely personal note,

165

00:21:23,040 --> 00:21:30,240

but I'm sorry to have descended to the personal level in this way, something happened, and you

166

00:21:30,240 --> 00:21:36,800

can believe it or not, when you get to it in the book, it's as true as I stand here, waving this

167

00:21:36,800 --> 00:21:45,280

pen, I'd be struck, I'm sure, if I was not telling truth, to my knowledge that's what happened

168

00:21:45,280 --> 00:21:52,880

last August, after a particular speech I gave at Caxton Hall, I was there, Eileen was there,

169

00:21:52,880 --> 00:21:57,920

I think quite a number of you probably were there, there was a contact UK meeting, but the point is

170

00:21:57,920 --> 00:22:02,640

what happened to me when I got back to Warmingham stuff, when I was on the point of giving up all

171

00:22:02,640 --> 00:22:08,240

this research, I was fed up of our being ridiculed continually, I was fed up of the family life,

172

00:22:08,240 --> 00:22:14,560

the even temperament of family life being terribly upset by this type of investigation, I was fed

173

00:22:14,560 --> 00:22:20,320

up by getting broncholabine on the heel and taking unnecessary health risks and heartaches,

174

00:22:20,960 --> 00:22:26,240

and I got to a very low stage where I thought well, finish, let's finish, let's find another silly

175

00:22:26,320 --> 00:22:35,920

full dovetodontia. I can't get to grips in a scientific way, which is absolutely 100%

176

00:22:36,640 --> 00:22:44,320

of diagnosis and analyses without their cooperation for the full, and they cooperated very poorly

177

00:22:44,320 --> 00:22:50,320

apart from many sightings, and sightings no longer mean anything, I'm sure, to anyone,

178

00:22:50,800 --> 00:22:59,120

and at that point something happened to me which made me steer a different course,

179

00:23:01,280 --> 00:23:07,200

it made me realize, and you can laugh, I don't mind, I would have laughed at myself a year ago,

180

00:23:09,440 --> 00:23:17,200

behind all this, behind all the many, many facets and aspects, many of which conflict,

181

00:23:17,200 --> 00:23:23,840

behind all the incongruities and the ridiculous things that happen in connection with ufology,

182

00:23:23,840 --> 00:23:33,200

and with UFOs, the craft, and the people, beyond all that, I am confident on evidence that I've

183

00:23:33,200 --> 00:23:42,560

got at this moment, what great spiritual values, great spiritual undertones, and I don't use the

184

00:23:42,560 --> 00:23:55,200

loose word religion for what I don't like, lie behind the whole mystery. Now, up to about last

185

00:23:55,200 --> 00:24:04,640

August, I'm blaspheming here and I'll admit it, I was a hardened ex-police from ex-bargain,

186

00:24:04,640 --> 00:24:14,080

killed or be killed during the war, I would have said that the Bible was a good bit of fiction writing,

187

00:24:16,400 --> 00:24:23,360

no definite proof there at all, the existence of a God or a supreme creator or deity in the heavens,

188

00:24:23,360 --> 00:24:30,080

what did heaven mean, I found I never used to think about the purpose of life and beyond life,

189

00:24:31,040 --> 00:24:36,320

and the end of my book deals with those important things, what I've now considered to be important,

190

00:24:37,040 --> 00:24:44,640

and I'm sticking my neck out here, of course I am, but until then, I saw it in three things

191

00:24:44,640 --> 00:24:51,120

happen, and there were four witnesses of one particular happening, and one was Lady Marguerite

192

00:24:51,120 --> 00:24:55,760

Stewart, who's probably the most powerful woman in Australia, she was one of the four witnesses,

193

00:24:55,840 --> 00:25:01,760

had I been on the hill on that night, Friday, April 5th of this year, on my own,

194

00:25:03,120 --> 00:25:08,400

I would have either blown my top before I was going mad, quite frankly, you've got to have a strong

195

00:25:08,400 --> 00:25:13,600

mind to tackle this, I would have either thought, I've gone over the top, let's get back home and

196

00:25:13,600 --> 00:25:22,000

figure it all about it, I certainly couldn't have credited what we were seeing, had there not

197

00:25:22,000 --> 00:25:29,520

been four others on the hill, all seeing the same two tremendous, what you can only describe as,

198

00:25:29,520 --> 00:25:36,800

angel figures in the sky, now going back again, it's in the book because there were four others,

199

00:25:38,000 --> 00:25:44,160

but going back again until certain things happened, I thought Christ was just for the birds,

200

00:25:44,160 --> 00:25:49,280

I'm a terrible blasphemer, I was the figure's heath in creation, perhaps that's why things have

201

00:25:49,280 --> 00:25:55,440

happened to me at Warnester, things that I didn't expect, things that I couldn't, I couldn't take

202

00:25:55,440 --> 00:26:04,240

certain vibrations, but it's so clear, there are certain warnings, for example, about the taking

203

00:26:04,240 --> 00:26:13,360

of certain drugs which are dealt within the book, drugs, I've never taken drugs, I like a smoke,

204

00:26:13,600 --> 00:26:23,760

quite frankly, but warnings about drug taking in here correspond very much with minor revelations

205

00:26:23,760 --> 00:26:29,440

or confidential details which have reached me from all parts of the world from former drug takers,

206

00:26:30,400 --> 00:26:37,440

where a man has a super conscious projection while that drug is in being and he gains a little

207

00:26:37,440 --> 00:26:44,400

mental hold or a toe hold on cosmic truth and cosmic consciousness, then it's retracted and it

208

00:26:45,440 --> 00:26:53,200

harms him, he doesn't reach that peak again, it's very very harmful and certain things in here that

209

00:26:53,200 --> 00:27:00,080

if the people from space are true, then I've met one I know of, here again, I'll stick my neck out,

210

00:27:00,640 --> 00:27:15,120

I've met one, I've no doubt at all that he was not of this earth, the only thing that worries me

211

00:27:15,120 --> 00:27:22,240

as a reporter, as a fairly reliable link, I hope, connecting link between what happens on any news

212

00:27:22,240 --> 00:27:27,200

front whether it's futuristic or not on the public, blow the editors, I couldn't tell us about that,

213

00:27:28,160 --> 00:27:34,480

the only thing that worries me as a responsible journalist is and as a responsible human being

214

00:27:35,120 --> 00:27:41,760

is what these people are telling me, is it all true, is it going to happen?

215

00:27:42,880 --> 00:27:48,720

Now certain things, there again, I'm not plugging this to you, don't think that, Joe Soak would have

216

00:27:48,720 --> 00:27:56,480

written that, but the point is certain things that have been told me in the past have come

217

00:27:56,480 --> 00:28:05,760

bang out on target and you can only take my word for that. Now I used to laugh and I won't mention

218

00:28:05,760 --> 00:28:14,160

the name, he's a very senior member of your Iraqi, of your executive committee, I've heard him speaking,

219

00:28:14,160 --> 00:28:23,680

I've seen writings of his and I thought well that's impossible, he might laugh at us when we say

220

00:28:23,680 --> 00:28:30,320

that these craft literally disappear before your eyes and you look around you think your eyes

221

00:28:30,320 --> 00:28:35,840

have been deceived, gunmetal grey, sunstrikes it through lurking clouds, beautiful silver

222

00:28:35,840 --> 00:28:44,720

jewel and then it's gone, look all around, perhaps a minute later your team comes back and if this

223

00:28:44,720 --> 00:28:50,400

would be a marvelous thing if you could do it, but imagine a spider spinning a web or a silk

224

00:28:50,720 --> 00:28:59,280

wound, spinning itself, the threads, gradually assembling, speed it up a million times, then

225

00:28:59,280 --> 00:29:07,440

you see that you've found that celestial chariot absolutely crystallized, firm, clear cut before

226

00:29:07,440 --> 00:29:14,240

your eyes again. Now you can't, even if you want to be the most hard-headed scientific chap,

227

00:29:15,120 --> 00:29:21,200

you can't doubt the evidence of your eyes when you see that happening, so therefore the

228

00:29:22,800 --> 00:29:31,360

point in time perhaps, the point in technical involvement, the point in spiritual evolution

229

00:29:31,360 --> 00:29:39,840

of some of these people must be tremendous, who have overcome that handicap. In other words,

230

00:29:39,840 --> 00:29:46,640

they're obviously using a power unsteady time-walking technique or perhaps as John would like in it,

231

00:29:46,640 --> 00:29:52,880

a hyper-dimensional link which apparently short circuits or five-parses space and time.

232

00:29:54,000 --> 00:30:00,400

Sounds like space fiction, but when you see it happen, you know it's so true, so you can only

233

00:30:00,400 --> 00:30:06,480

conclude it doesn't matter what the blind experts say and we have, thankfully we have enough

234

00:30:06,720 --> 00:30:15,120

uh, seeing experts today who are willing to come up and check these things, one can only say that

235

00:30:15,120 --> 00:30:23,840

the craft therefore are capable of ultra-vibratory rates of acceleration or if you like they

236

00:30:23,840 --> 00:30:30,960

revolve their photons, units of light measurement, etc. fantastic degree, but they do disappear and

237

00:30:30,960 --> 00:30:40,720

therefore what or who is on board must therefore have the same capacity or capacity. So if one can

238

00:30:40,720 --> 00:30:47,360

imagine if we were able, if we were at that state of vibration and we were using a little more of

239

00:30:47,360 --> 00:30:52,480

the nine-tenths of untapped mental energy that we're not allowed to use perhaps at this particular

240

00:30:52,480 --> 00:30:59,440

time, one can then see and blow all our scientific concepts, I'm sorry to say this but when you're

241

00:30:59,520 --> 00:31:05,040

seeing the visible proof, you feel great great sympathy with our scientists, particularly the

242

00:31:05,040 --> 00:31:10,720

open-minded ones, but the scientific concepts are just underdrain so far as apodileema concern.

243

00:31:12,080 --> 00:31:22,160

The people can alter at will or when they can raise or lower the frequency or atomic the frequency

244

00:31:22,720 --> 00:31:32,240

of which all particles are composed. Flesh, inanimate things, inanimate things, matters not.

245

00:31:33,040 --> 00:31:40,320

When you see this happening it makes your mind boggle and conservative, blind scientists and they

246

00:31:40,320 --> 00:31:49,040

will have sudden charts of acute revelation and shock in the next few years because they can't

247

00:31:49,040 --> 00:31:56,480

conceive of anything which has risen above all scientific training, traditions and concepts.

248

00:31:57,680 --> 00:32:03,680

It's such a pity, such a pity but there I'm probably going on now, I should be telling you all

249

00:32:03,680 --> 00:32:09,920

about the sightings and I'm going on possibly to what you might consider hypotheses and theory

250

00:32:10,720 --> 00:32:19,600

but I do at least speak truth as I see it. Now for the most astounding story,

251

00:32:21,360 --> 00:32:28,000

if I'm not punishing you too right, because I must admit we punish ourselves on that field,

252

00:32:29,920 --> 00:32:34,000

the most astounding story, I won't worry to look at it,

253

00:32:34,000 --> 00:32:43,360

but I will. Early January this year, John knows the identity of these two people.

254

00:32:44,480 --> 00:32:50,000

Perhaps if you read the book, get it from your library, Save the 26 Bop, if you read my second

255

00:32:50,000 --> 00:32:54,240

book you will probably guess the identity of these two people.

256

00:32:54,960 --> 00:32:59,680

Xenia, Roshna and Wurl.

257

00:33:02,880 --> 00:33:09,760

They came up and asked my home on their way to Cradle Hill, I think it was January the 8th or 9th,

258

00:33:09,760 --> 00:33:17,120

it's in the book anyway, but the point was it was a Monday and when they reached the little traffic

259

00:33:17,120 --> 00:33:26,160

roundabout at the top of our road before you go on to Earl Hill proper, the UFO came over Cofeep

260

00:33:26,880 --> 00:33:31,120

which is a hill up there with high trees, you probably, many of you may know it,

261

00:33:32,480 --> 00:33:40,560

the UFO came over very low, darted down in front of the car and away to the left towards the downs,

262

00:33:40,800 --> 00:33:47,840

approximately east to west. Now the girl on board in the passenger seat

263

00:33:49,440 --> 00:33:52,480

was looking to see where the UFO had gone.

264

00:33:54,640 --> 00:33:58,880

The car break to a halt and she thought the man was dead.

265

00:34:01,760 --> 00:34:06,240

When the craft came down, although the girl was not affected,

266

00:34:06,320 --> 00:34:13,440

the man experienced two sharp stabbing pains in the chest

267

00:34:14,720 --> 00:34:18,960

and he collapsed at the wheel. It had been a serious accident, luckily no.

268

00:34:20,560 --> 00:34:27,680

Now here again this is where perhaps a certain mysticism creeps into this subject and it's a

269

00:34:27,680 --> 00:34:35,360

pity in a way and yet we've got to accept, we've got to be tolerant of extra sensory experience.

270

00:34:35,920 --> 00:34:41,840

I'm sure of that now. I was obtuse, I was blind before, but to get back to this story,

271

00:34:44,000 --> 00:34:47,440

the man's friend at work next day said,

272

00:34:47,760 --> 00:34:48,560

he said,

273

00:34:50,960 --> 00:34:51,840

we are calling him,

274

00:34:54,480 --> 00:34:59,680

we, I had a terrible dream about you last night, he said I dreamt you died.

275

00:35:01,600 --> 00:35:05,040

So, he said, oh, it's interesting, you know, what time was it?

276

00:35:05,680 --> 00:35:07,360

He said about 11.25.

277

00:35:09,520 --> 00:35:14,240

Now this was the time that the UFO came across and he thought these shops had been claimed.

278

00:35:14,480 --> 00:35:24,480

Now I was, I've broken the sequence a little bit, I was being a little bit unfairly critical of one of your executive members

279

00:35:25,280 --> 00:35:31,760

who I remember clearly writing about fairies, giants, ghosts,

280

00:35:32,400 --> 00:35:37,040

palted chimes and those sorts of things make me laugh or they used to.

281

00:35:37,200 --> 00:35:46,320

But here's an interesting thought on this particular dramatic story,

282

00:35:47,600 --> 00:35:54,320

which apart from many other considerations tells me that that man has probably hit on an immortal truth.

283

00:35:55,440 --> 00:36:01,920

People who are tremendously evolved, not just millennia ahead of us, millions of years ahead of us,

284

00:36:02,640 --> 00:36:08,880

having already broken many dimensions which are alien and foreign to us at the moment,

285

00:36:08,880 --> 00:36:13,360

don't stop at the fourth, why stop at the fourth, go on to ten, fourteen, fourteen.

286

00:36:15,120 --> 00:36:20,560

For, for value of progressing in the right way, well these people, if, if, if,

287

00:36:20,560 --> 00:36:28,880

if it's raised about exactly in my mind now that they could possibly change, not only shape,

288

00:36:28,960 --> 00:36:34,960

not only have a duality of existence which would allow them to live in intense heat radiation,

289

00:36:36,320 --> 00:36:41,680

in atmospheric differences from ours, in gravity density differences from ours,

290

00:36:41,680 --> 00:36:47,120

I don't quite conceive, but they could also have a capacity I think if they can disappear from view

291

00:36:47,120 --> 00:36:56,480

literally and then reappear. They may be able, and I'll qualify this by the story that I'm going

292

00:36:56,480 --> 00:37:03,600

to tell you in a moment when I continue this dramatic story, they may be able to change size,

293

00:37:05,280 --> 00:37:06,240

craft as well.

294

00:37:09,200 --> 00:37:14,640

So that when we get throughout history, stories particularly about Irish leprechauns,

295

00:37:14,640 --> 00:37:19,120

about dwarfs and fairies, things which are commonly either laugh at as a realist

296

00:37:20,000 --> 00:37:32,480

or giants could evolve, terrifically evolve people, if it suited their purpose in exploring the depths

297

00:37:32,480 --> 00:37:40,240

of our oceans, in exploring, plummeting right down to the central ball of earth which is so important,

298

00:37:40,880 --> 00:37:50,880

but a magnetic equilibrium on currents and gravity values, is it possible that they can change

299

00:37:51,680 --> 00:37:57,360

from beings very much like us, how they can have a duality of existence, an astral body,

300

00:37:57,360 --> 00:38:03,680

a physical body which is something we must learn about eventually, can they change size

301

00:38:03,680 --> 00:38:10,800

down to pygmy status, can they go up to giant status. That would explain a lot of things and

302

00:38:10,800 --> 00:38:18,800

goes to sympathize, for me now, now I understand a little bit more perhaps, are simply entities

303

00:38:18,800 --> 00:38:28,560

which have their being and can move and can think and act in dimensions which are alien to our

304

00:38:28,560 --> 00:38:36,880

concepts at the moment, in other words they are dimensions which are invisible to us because

305

00:38:36,880 --> 00:38:43,040

they are beyond man's spectrum of vision, beyond the ultraviolet, beyond the intraday.

306

00:38:44,560 --> 00:38:50,160

Now to get back to the story, I've put that thought into your mind's first deliberately,

307

00:38:50,720 --> 00:38:53,360

because you'll probably laugh at the story, I did.

308

00:38:53,360 --> 00:39:02,240

The girl in the man drove up to tell me this story, the man was sat very silent and he's changed

309

00:39:02,240 --> 00:39:08,320

considerably since this experience, you've only got to mention two words to him now and you'll see

310

00:39:08,320 --> 00:39:15,520

his flesh crawl with goosebinkles and he starts to shiver uncontrollably, I won't say what the two

311

00:39:15,520 --> 00:39:24,240

words are, but here's his story as told by the female. Although she said you can believe it or not,

312

00:39:25,600 --> 00:39:31,200

if you tell me about the stabbing pains we've got there, haven't we? The next morning a friend

313

00:39:31,200 --> 00:39:38,640

that were telling him he had an awfully, awfully vivid dream that this chap had done at 11.25.

314

00:39:39,440 --> 00:39:50,960

Now, he said to his friend, well why say 11.25, I mean how is it you remember? A time of the dream.

315

00:39:50,960 --> 00:39:55,840

And I said well it was so vivid he said I looked up, he said I thought I couldn't have been

dreaming,

316

00:39:55,840 --> 00:40:03,200

so I looked at the clock he went from. I just tried it out, but here's the point, the girl said they

317

00:40:03,200 --> 00:40:09,280

didn't go to Cradle Hill, the man came round and he drove her home, he didn't say good night, he

318

00:40:09,280 --> 00:40:14,960

pushed her out of the car, he went home and he slept, I think the two days solid.

319

00:40:19,200 --> 00:40:26,400

This was on the Monday, I think on the Wednesday or the Thursday in the book. A phone call,

320

00:40:26,400 --> 00:40:30,160

I used to laugh at my hoax phone calls, of course they were hoaxes or were they?

321

00:40:33,200 --> 00:40:39,360

We're bringing the warmest story up to date. This man had a call at his place of work, he's not on

322

00:40:39,360 --> 00:40:46,880

the phone at home, and whoever around said you must be at Heaven's Gate on Lord Varsus State

323

00:40:46,880 --> 00:40:59,040

at nine o'clock Thursday by your earth hour. He and the girl went. Nine o'clock came, nothing.

324

00:40:59,440 --> 00:41:08,160

Two minutes past nine, a new faker drove over. It corresponded to what the team of up in front

325

00:41:08,160 --> 00:41:20,880

of the about 30 to 36 feet across. They saw it hovering, it tilted, it flew off then to the slope

326

00:41:20,880 --> 00:41:28,400

towards Longleat House which is Heaven's Gate proper. They jumped out of the car over the

327

00:41:28,400 --> 00:41:33,840

chain link fencing from the car park across the far side of the road, they tore between this

328

00:41:33,840 --> 00:41:40,000

on the longest avenue of trees, and when they came to the slope where the eupower definitely

329

00:41:40,000 --> 00:41:47,680

dropped they saw nothing. For time, then they heard a low wisdom sign, very much like a steam

330

00:41:47,680 --> 00:41:57,360

couple. And looking around behind the bush was a little thing no bigger than a soup to read or

331

00:41:57,360 --> 00:42:04,800

play. Now you've heard witness accounts and there are some again in this book of small

332

00:42:04,800 --> 00:42:10,320

rain beacons which are sent out by the larger craft. They're assumed to be by the experts,

333

00:42:10,320 --> 00:42:15,280

if there are any experts, or they're thinking lights which are sent, they're electronic

334

00:42:15,280 --> 00:42:21,200

frames which record all speech, record all pictures necessary to give a coherent picture

335

00:42:21,200 --> 00:42:30,640

of a current situation to the masterminders in the craft. Now this was very much as one of those

336

00:42:30,640 --> 00:42:39,200

would have been, no bigger than a soup bowl. This was obviously the youthful which had come out.

337

00:42:39,600 --> 00:42:44,960

Now this is crazy you see. Even a woman came to this part of the man and said no word.

338

00:42:46,080 --> 00:42:49,040

But one period or I wouldn't tell him you said he won't believe it.

339

00:42:52,320 --> 00:43:01,360

She continued her story. From the bottom of this craft appeared a golden ladder.

340

00:43:02,240 --> 00:43:09,520

Imagine a craft four or five inches off the ground, no bigger than a soup plate,

341

00:43:09,520 --> 00:43:15,520

a little trap door underneath opening and a little grass and a fine golden flag.

342

00:43:16,560 --> 00:43:22,560

Of course I was laughing at this one. Of course I was. I thought wow, I thought we're crazy but I mean

343

00:43:26,400 --> 00:43:29,680

that's just a pity that more of the world isn't crazy but there that's my side.

344

00:43:31,360 --> 00:43:39,280

Down this little ladder, a golden ladder came 30 small figures.

345

00:43:41,680 --> 00:43:45,280

Fairies if you like. Ridiculous isn't it?

346

00:43:46,320 --> 00:43:52,480

What we hence of the when that was born these two went away from the craft.

347

00:43:52,880 --> 00:44:03,760

The figures on the ground came up to the size of the two watches.

348

00:44:07,360 --> 00:44:10,160

This human rhythm is spoken in good English.

349

00:44:12,400 --> 00:44:19,360

And although the woman didn't want to leave the man, they insisted that the man could accompany

350

00:44:19,360 --> 00:44:30,560

them on a special journey. Remember the double chest room. This sounds bizarre, fantastic.

351

00:44:30,560 --> 00:44:37,520

Of course it does. Take it out of context in this book, it's man. Read it in the context it may

352

00:44:38,080 --> 00:44:44,000

give fresh thought for certain mysteries and departs. I was laughing of course I was laughing like
a

353

00:44:44,000 --> 00:44:49,200

brain and the chap kept saying I should have told you not to tell him. Shouldn't have told him.

354

00:44:50,240 --> 00:44:53,840

Well she was so serious about this story and she said well we've got to get it out of our

355

00:44:53,840 --> 00:44:57,600

systems that stuck in our necks. We can't, we must come to you and tell you.

356

00:45:00,320 --> 00:45:07,600

The man handed over all his metallic objects that he had including his car keys.

357

00:45:08,000 --> 00:45:16,000

And the girl waited there from just after nine until five in the morning and this is in the

358

00:45:16,000 --> 00:45:23,040

the depths of winter January this year. She was waiting scared stiff for him to come back.

359

00:45:25,040 --> 00:45:32,160

Great apprehensive that he would. The point is when he went away with these people they

360

00:45:32,240 --> 00:45:43,440

diminished themselves and so did he. No remember the two shots. Don't prepare us. Had he not been

361

00:45:44,000 --> 00:45:53,280

killed in word of commas quote, killed quote. He would not have had the capacity or the potential

362

00:45:53,280 --> 00:46:03,200

to join them as little men of that time. No I'm still laughing of course I'm still laughing.

363

00:46:07,120 --> 00:46:11,760

He went up the golden ladder the little ladder was drawn up and low wisdom sound accelerator

364

00:46:11,760 --> 00:46:17,040

and off they went. When it went above the trees it was a normal UFO sight.

365

00:46:17,360 --> 00:46:23,360

Nine, eight hours left. About five o'clock in the morning he came back.

366

00:46:24,960 --> 00:46:29,520

The girl was frantic. You can imagine eight hours in the midst of lonely surrounding.

367

00:46:29,520 --> 00:46:35,680

It's by another cradle hill but heaven's sake this must be even worse. I'm still laughing you see.

368

00:46:36,880 --> 00:46:43,600

He came back and he told her the most amazing story of where these people had taken him.

369

00:46:44,480 --> 00:46:48,960

He expected them to take them to the moon or which is probably one of their little bases

370

00:46:49,920 --> 00:46:54,000

leads to take them and take them to one of the planets in our own solar system.

371

00:46:54,720 --> 00:47:03,920

Certainly not beyond but they did. He alleges that they took him to the deepest part of our oceans

372

00:47:03,920 --> 00:47:12,800

between mid-atlantic and mid-pacific and down there on the bottom he saw the most amazing and

373

00:47:12,800 --> 00:47:20,480

beautiful cities and architectural forms that he's ever seen in his life. Beautiful splendor,

374

00:47:20,480 --> 00:47:26,080

huge mountain peaks running along from miles and miles, mountains that bore.

375

00:47:30,400 --> 00:47:39,840

Now remember this man had not said a word except to slightly review the girl for daring telling.

376

00:47:40,720 --> 00:47:47,040

And the girl in the end she quite broke down about it because I was still laughing.

377

00:47:48,720 --> 00:47:57,200

She said when they when we went down to their size and they got on board the craft she said I

378

00:47:57,200 --> 00:48:04,160

could have rushed over and picked it up and shaken it and she said I could have cried my

379

00:48:04,240 --> 00:48:11,440

heart dry because they were taking him from me. When he was a nice feminine, a slightly romantic

380

00:48:11,440 --> 00:48:22,960

touchbox but no I was still laughing. When the man said one thing to me, all right Arthur

381

00:48:22,960 --> 00:48:32,000

said you've had a good laugh and he said what does the ball of our earth, the central magnetic

382

00:48:32,000 --> 00:48:40,800

fluid or core of this planet mean to you and he said that's all I'm allowed to tell you so at this

383

00:48:40,800 --> 00:48:49,600

time. Now this really shocked me and I stopped laughing. I stopped laughing and I had to accept

384

00:48:49,600 --> 00:48:57,200

that this story, bizarre and ridiculous, quite fantastic though maybe, had a great sentence of

385

00:48:57,200 --> 00:49:06,640

truth in it but it wasn't just a mere traumatic nightmare. The center of our earth is apparently

386

00:49:06,640 --> 00:49:14,080

why there is so much aerial activity of UFOs at this present decade.

387

00:49:17,760 --> 00:49:26,400

They are simply, they are guarded by higher intelligences but their practical and scientific

388

00:49:26,480 --> 00:49:34,320

purpose in our atmosphere I've been told. This was nine months before I was told this amazing story,

389

00:49:34,320 --> 00:49:42,960

this content story. In May of last year I learned that there's something wrong with the heart of our earth

390

00:49:44,160 --> 00:49:52,640

and that these craft are simply reactivating and reconstructing an aerial grid system which

391

00:49:53,600 --> 00:50:03,360

has not been in existence since biblical days but is now very, very important to take away

392

00:50:03,360 --> 00:50:12,240

the pressure from a dying heart of a planet. To effect this there has to be very skillfully,

393

00:50:12,240 --> 00:50:19,760

inordinately skillful juggling, dexterous juggling of polarity reversal facts.

394

00:50:21,600 --> 00:50:27,600

Now when as soon as this man said to me, laugh away after but I've only one thing to tell you from

395

00:50:27,600 --> 00:50:37,360

these people, what's wrong with the ball of our earth? When everything made very good sense.

396

00:50:38,320 --> 00:50:46,160

The man, I was telling you about the goose flesh, any one of you could come to war

397

00:50:46,160 --> 00:50:51,920

minister tomorrow and if that man was in your company and he wasn't wearing a jacket and as

398

00:50:51,920 --> 00:51:00,640

he's normal his sleeves rolled up even in the middle of winter. If you said two words to him

399

00:51:01,200 --> 00:51:03,200

you would see a violent reaction.

400

00:51:10,160 --> 00:51:20,160

He told me about the ball of your earth. Later he told me that while at work and this can occur

401

00:51:20,160 --> 00:51:24,320

at any particular any hour of the working day, it never happens at night,

402

00:51:24,880 --> 00:51:34,640

he has a terrific mental pull that he just can't, he can't deny it and he knows he's got to go

403

00:51:34,640 --> 00:51:43,920

to heaven's gate. Now I've given you the two words now. He goes to heaven's gate immediately in his car.

404

00:51:44,880 --> 00:51:50,240

He's in charge of about 200 men, he's a very responsible man in his job but whatever he's

405

00:51:50,240 --> 00:51:55,760

doing, a government contract or what have you, he leaves immediately and he tears off the heaven's

406

00:51:55,760 --> 00:52:05,840

gate. He's got a mental receiver set now that he never had before and there's a pull on it from

407

00:52:05,840 --> 00:52:12,880

three people. Now he's had this experience several times, he goes straight to heaven's gate and he

408

00:52:12,880 --> 00:52:17,920

wanders up and when he gets near to where this craft had landed and brought him back,

409

00:52:21,360 --> 00:52:28,240

he meets a person but it's not a person of the craft that he knew I'm there on short acquaintances,

410

00:52:28,800 --> 00:52:36,160

it's no one of this earth that he knows, very dark, very intense times and there's something

411

00:52:37,120 --> 00:52:42,640

which is a little bit fearful about this man, he has a part

412

00:52:45,360 --> 00:52:52,160

and this man tells me and I do believe him honestly because of certain little things that have

413

00:52:52,160 --> 00:53:02,720

happened to me now and I can only speak question but the man then just materializes and he dematerializes

414

00:53:02,720 --> 00:53:07,680

like the machines that we watch doing that on the chippen to Till's head road to the east

415

00:53:07,680 --> 00:53:14,320

near Stonehenge. We have certain reasons to believe that there's a power source deep under Stonehenge

416

00:53:15,520 --> 00:53:23,040

but it links to a power source deep under heaven's gate, that both are linked to a power source

417

00:53:23,040 --> 00:53:31,280

deep under the pyramids. Don't ask me why we think that, there are certain factors, remember the

418

00:53:31,360 --> 00:53:37,040

triangle we kept getting on film which is described in here and what we analyzed it as

419

00:53:37,040 --> 00:53:45,920

meaning in its significance and symbolism but this man who keeps appearing and disappearing

420

00:53:48,000 --> 00:53:59,040

you mention heaven's gate now that is to this Mr. B and you'll see his skin right in front of him.

421

00:53:59,280 --> 00:54:05,600

Now that would seem to indicate then if he's speaking truth and I can't think otherwise,

422

00:54:05,600 --> 00:54:13,920

I've dealt very deeply, he's a very respectful man and he's, well I can't give high enough praise

423

00:54:13,920 --> 00:54:21,040

for certain work that he's done but it would seem to indicate that although the majority of

424

00:54:21,040 --> 00:54:29,280

UFOs and their occupants around warmings disguise over the past four years are what we would evaluate

425

00:54:30,400 --> 00:54:39,440

pretty certainly as constructive and a helpful influence to earth people, while that is the case

426

00:54:39,440 --> 00:54:50,400

there may be also a hostile element which is out to stop perhaps a mission of mercy from

427

00:54:50,400 --> 00:54:58,800

more enlightened people. I wouldn't, there I'm going back to Ryan I shouldn't say I because the

428

00:54:58,800 --> 00:55:05,360

ego is nothing it should be draw but some of the stories which emanate from South America and

429

00:55:05,360 --> 00:55:11,200

Dicky, they seem to have a very sensational flavor about them and I think that the almighty

430

00:55:11,200 --> 00:55:20,080

Doris at work here I must be honest, I don't think that the hostile element comprises more than

431

00:55:20,080 --> 00:55:27,440

three percent of UFOs as a whole certainly our experiences and they're quite manifold now and

432

00:55:27,440 --> 00:55:35,680

I'll make that claim very briefly at Warminster we've had very few real fights but we've had

433

00:55:35,680 --> 00:55:43,760

hundreds of wonderful heartwarming thrills and I do think you can laugh at the last few chapters

434

00:55:43,760 --> 00:55:53,520

of my book if you want to read it just remember this though that I speak absolute truth as I know it

435

00:55:54,640 --> 00:56:02,480

there may be quite a lot of redundant material there there may be stuff there that you couldn't

436

00:56:02,480 --> 00:56:09,200

entertain us through such as the stone of the stone of scoom for example is perhaps an inspired

437

00:56:09,200 --> 00:56:18,800

guess but three quarters of the book contains hard factual stuff and if it only makes people

438

00:56:18,800 --> 00:56:25,760

even government people think a little bit more than they've done in the past I think any book

439

00:56:25,760 --> 00:56:33,600

which does that particularly on this most important subject is worth writing it's worth

440

00:56:33,600 --> 00:56:40,800

being laughed at and gaining a very false note to write your fame it's worth sticking a neck out

441

00:56:40,800 --> 00:56:49,040

and it's worth believing deeply and profoundly in all I'm sure that you believe about this

442

00:56:55,760 --> 00:57:01,040

a
