I presume he would have shown this document to around some of his majors or Lieutenant

2

00:00:11,200 --> 00:00:16,520

Kernels would have shown it to a few members of the SAB, all of whom would have left at

3

00:00:16,520 --> 00:00:20,160

it and that would have been reported back to the general.

4

00:00:20,160 --> 00:00:25,600

00:00:25,600 --> 00:00:32,240

SAB, each of whom was a leading scientist at some university or at the general electric

6

00:00:32,240 --> 00:00:34,840

or telephone companies.

7

00:00:34,840 --> 00:00:41,400

So he would obviously take their judgment and ask for their criticism and I have no

8

00:00:41,400 --> 00:00:46,040

doubt they all peed on this document you're talking about, but I was not one of them.
