

1

00:00:30,000 --> 00:00:33,200

to report on unidentified flying objects.

2

00:00:33,200 --> 00:00:36,240

Mr. Rufel, you ended up in the official airport investigation

3

00:00:36,240 --> 00:00:38,760

of these trained officers from the sky for two years,

4

00:00:38,760 --> 00:00:41,720

during which time you created the term UFO.

5

00:00:41,720 --> 00:00:43,160

All presidents of the transportation

6

00:00:43,160 --> 00:00:45,560

would explain the meaning of UFO as the airport's

7

00:00:45,560 --> 00:00:47,760

understanding and how, if at all,

8

00:00:47,760 --> 00:00:49,320

it differs from the public's incest

9

00:00:49,320 --> 00:00:51,880

in a portrayal of flying saucers.

10

00:00:51,880 --> 00:00:54,040

The term UFO, a three-air force,

11

00:00:54,040 --> 00:00:55,760

means anything else in the sky.

12

00:00:55,760 --> 00:00:58,080

It cannot be a mini-magazine fight

13

00:00:58,080 --> 00:00:59,800

if something is known.

14

00:00:59,800 --> 00:01:02,360

I think for most people, the general public,

15

00:01:02,360 --> 00:01:04,480

the term flying saucer can't remember.

16

00:01:04,480 --> 00:01:06,200

And to get to the sky down,

17

00:01:06,200 --> 00:01:07,240

this is part of the myth known,

18

00:01:07,240 --> 00:01:09,360

because only five percent of all airports

19

00:01:09,360 --> 00:01:11,000

go out to get to the sky down.

20

00:01:11,000 --> 00:01:13,760

I think a lot of the person may be UFO-excited,

21

00:01:13,760 --> 00:01:17,320

this company grew up, and under much circumstances.

22

00:01:17,320 --> 00:01:18,680

The first use of the law at this time

23

00:01:18,680 --> 00:01:20,280

is to take the default,

24

00:01:20,280 --> 00:01:23,040

but it was right on the legion of the national security

25

00:01:23,040 --> 00:01:24,960

enforcement in 1947,

26

00:01:24,960 --> 00:01:27,240

when the gentleman named Ken Sinal was flying here,

27

00:01:27,240 --> 00:01:29,000

despite his flying the amount of years

28

00:01:29,000 --> 00:01:30,520

in the state of Washington.

29

00:01:30,520 --> 00:01:32,280

He's gone and I'm now just flying

30

00:01:32,280 --> 00:01:34,000

along the way to Mountain and when Landon

31

00:01:34,000 --> 00:01:35,520

he got to admit to the man,

32

00:01:35,520 --> 00:01:36,880

and he prayed in the saucers,

33

00:01:36,880 --> 00:01:38,080

he'd been in the spot flyers,

34

00:01:38,080 --> 00:01:39,720

and he's been in the flying saucers.

35

00:01:39,720 --> 00:01:41,800

There is another report that includes

36

00:01:41,800 --> 00:01:44,960

such amounts of flying bankers as the Bible.

37

00:01:44,960 --> 00:01:46,560

However, we've got to be,

38

00:01:46,560 --> 00:01:49,080

and I don't hear all the aspects of

39

00:01:49,080 --> 00:01:50,400

the president's flying saucers.

40

00:01:50,400 --> 00:01:51,920

Is there anything else he can know

41

00:01:51,920 --> 00:01:53,720

about these reports, Mr. Brutale?

42

00:01:53,720 --> 00:01:56,920

I think it's a report of the Christmas season report.

43

00:01:57,300 --> 00:01:59,920

Some dietary and Guru written here

44

00:02:00,860 --> 00:02:04,120

is very interesting to read Mayor Hstock,

45

00:02:04,120 --> 00:02:05,260

John ABS Jones,

46

00:02:06,360 --> 00:02:07,940

Walter L.

47

00:02:07,940 --> 00:02:10,100

Your testimony is very unelujah.

48

00:02:10,100 --> 00:02:11,480

You don't see it.

49

00:02:11,480 --> 00:02:13,600

You don't change the way that Understood

50

00:02:13,600 --> 00:02:14,640

Krutig wyde express your post and

51

00:02:14,640 --> 00:02:17,120

killing the leaders of the society.

52

00:02:20,920 --> 00:02:23,140

Here's what it all insuses

53

00:02:24,320 --> 00:02:25,320

as a part of the report of

54

00:02:25,320 --> 00:02:31,240

I wonder if there's some more significance to the construction of those lights, or more

55

00:02:31,240 --> 00:02:36,040

lights, that they weren't the great eyes, he said, when they were working there.

56

00:02:36,040 --> 00:02:40,600

They were, they were, they were stayed on, he said later on, a person had been chosen

57

00:02:40,600 --> 00:02:41,800

for an actual phenomenon.

58

00:02:41,800 --> 00:02:45,640

Some of that I know, the person comes from the North, they were late there, they come

59

00:02:45,640 --> 00:02:48,040

from the Southern House, they've gone and been confirmed yet.

60

00:02:48,040 --> 00:02:54,200

And then, they said, the mayor of Sanctuary, St. Anthony's right, mostly, left were answers.

61

00:02:54,280 --> 00:02:58,040

However, in other cities, thanks to the people who went through, through people's

62

00:02:58,040 --> 00:02:59,720

prisons, come up with an answer.

63

00:02:59,720 --> 00:03:03,560

And there's a lot more ways to report, and really many people who believe it seems were

64

00:03:03,560 --> 00:03:08,280

in a financial state that, well, we've decided some of these possible natural explanations.

65

00:03:08,280 --> 00:03:13,080

Yes, we were great, and they were all advanced explanations for our bankers,

66

00:03:13,080 --> 00:03:17,480

1940, the report was written, and it was like, they were going through, they were going through

67

00:03:17,480 --> 00:03:18,280

it personally.

68

00:03:18,840 --> 00:03:23,000

During the war, we went into the right, and several cities, just two cars and lights in

69

00:03:23,000 --> 00:03:27,960

the air, cars by an electric car in the ground, and we were in front of the mayor.

70

00:03:27,960 --> 00:03:32,360

And then a couple of people just about just, it's a slow-loaded airplane, trying to get

71

00:03:32,360 --> 00:03:32,920

out of the way.

72

00:03:33,400 --> 00:03:36,360

We know it's a turbulence, you kind of fanfare, that's the way it's like, why?

73

00:03:36,360 --> 00:03:40,360

Like, the mayor, he did do a little bit of a stuff, he did a thousand-pound airplane.

74

00:03:40,360 --> 00:03:43,880

I, I, I kind of, as a student, and then of course, there's many other things, started

75

00:03:43,880 --> 00:03:48,760

sending me, I used to, as far as send off, all of these, working there, and working

76

00:03:48,760 --> 00:03:49,800

there, and we were just coming out.

77

00:03:49,880 --> 00:03:53,960

I remember about they had two of those, they are all new here, they are ballooned.

78

00:03:53,960 --> 00:03:59,080

And when it only talked about a super-experimental helicopter, it made the aircraft seem to

79

00:03:59,080 --> 00:03:59,880

cover it.

80

00:03:59,880 --> 00:04:03,960

We think they want to report this, a few years, it's going to help you to review both.

81

00:04:03,960 --> 00:04:07,800

However, we made it competent, great competent, and it's driving right.

82

00:04:08,440 --> 00:04:11,800

We worked closely with New York's Rick and Hinton reports out.

83

00:04:11,800 --> 00:04:18,040

We also tracked balloons, and added, we had three reports out, just a couple, we remember

84

00:04:18,120 --> 00:04:21,800

the same things again, we reported what, these fly out, they were ballooning.

85

00:04:21,800 --> 00:04:26,600

And now, making all these possible, was just simply natural explanation into account.

86

00:04:26,600 --> 00:04:31,160

As Project Ruebler said, in its exhausting investigation, what percentage of the total

87

00:04:31,160 --> 00:04:31,800

fighting was there?

88

00:04:31,800 --> 00:04:35,560

We, in my life, were sent down as unknown, and couldn't describe the technical case.

89

00:04:35,560 --> 00:04:39,560

But while I was inside the project, we looked here, uh, we looked, we didn't know the

90

00:04:39,560 --> 00:04:41,480

data, about 15.5%.

91

00:04:41,480 --> 00:04:43,560

Now the air force is beyond the 5%.

92

00:04:43,560 --> 00:04:47,800

However, I had a little bit of knowledge to the way they say that, that is report

93

00:04:47,880 --> 00:04:50,840

down the path of the so-and-so, uh, real thing.

94

00:04:51,480 --> 00:04:55,880

Might have been our, uh, three-fourth of, we got from the, from two air force,

95

00:04:55,880 --> 00:04:58,840

so, one will report to center-rad at 25.

96

00:04:59,400 --> 00:05:03,080

They were flying along on that, and then we saw Denver, and all of a sudden, they saw

97

00:05:03,080 --> 00:05:04,120

three non-missing agents.

98

00:05:04,760 --> 00:05:07,960

They kept the watch, and then they might be seeing that they sent them to the 70s,

99

00:05:07,960 --> 00:05:11,720

and they found these phones in, they got a good look at, and they were just trying to

100

00:05:11,720 --> 00:05:12,520

get this thing to win.

101

00:05:13,080 --> 00:05:14,520

At least that's very possible.

102

00:05:14,760 --> 00:05:18,520

So, uh, the answer is that we just think that we can get to the air force, and we can

103

00:05:18,520 --> 00:05:19,400

get to the channel.

104

00:05:19,400 --> 00:05:21,400

And to come up with that, we can have this.

105

00:05:21,400 --> 00:05:22,920

Yes, we were often in unknown.

106

00:05:22,920 --> 00:05:26,200

But I, I think what's mentioned in the interesting series of investigations with

107

00:05:26,200 --> 00:05:28,760

greater, I think, because I think it's a little bit different, I think there's a

108

00:05:28,760 --> 00:05:32,360

lot of radiation in the atmosphere, and shortly after, because I think there were

109

00:05:32,360 --> 00:05:33,000

new phones.

110

00:05:33,000 --> 00:05:35,000

Could you tell us a little more about this, just to look at?

111

00:05:35,000 --> 00:05:39,000

Uh, this is great, yes, and one of our theories, and we can have these two things.

112

00:05:39,000 --> 00:05:42,200

Another one is people who've gone over all the way, and I think we'll find this

113

00:05:42,280 --> 00:05:45,160

in good manner with, uh, two, two, three, two, two.

114

00:05:45,160 --> 00:05:47,480

Secondly, to record the data that's in there.

115

00:05:47,480 --> 00:05:50,840

Uh, this, this is a lot of news to report.

116

00:05:50,840 --> 00:05:54,680

Even though it was very, very good, uh, like, on the course of which caused an argument.

117

00:05:54,680 --> 00:05:58,600

Uh, these people, uh, these people, they were right there.

118

00:05:58,600 --> 00:06:01,400

They said, they probably need to record it when out, right?

119

00:06:01,400 --> 00:06:01,800

Exactly.

120

00:06:01,800 --> 00:06:04,760

However, it's a nice thing to have that, there was a letter to, you know, to, because

121

00:06:04,760 --> 00:06:07,640

they got fire reported, and all our friends were fine with it, right?

122

00:06:07,640 --> 00:06:12,200

And it was, uh, rather than a small chance to say it all, five, it's three thousand to go back

123

00:06:12,200 --> 00:06:13,240

to the same, same, same.

124

00:06:13,240 --> 00:06:16,840

And, and all right, we can hear the number of authorities don't plan another way after

125

00:06:16,840 --> 00:06:20,600

the case of the Air Force, but they can't even cover up operations, indicating that they

126

00:06:20,600 --> 00:06:22,920

knew much more than they were learning on the topic.

127

00:06:22,920 --> 00:06:26,440

There's many news in this, Mr. Rueb, and just watching you on our, even the Air Force

128

00:06:26,440 --> 00:06:27,880

is provisioning this matter.

129

00:06:27,880 --> 00:06:30,360

Well, it's thought that the cover-up is in spirit.

130

00:06:30,360 --> 00:06:34,120

When it, uh, soon to make that the Air Force has proof to be reported to you for their

131

00:06:34,120 --> 00:06:35,800

aircraft has faced that.

132

00:06:35,800 --> 00:06:39,800

This is our report, we're not talking about people doing that, of course, already, not

133

00:06:39,800 --> 00:06:44,440

in there, but I'm sure that you've been specifically, uh, part of this, in your evens.

134

00:06:44,440 --> 00:06:48,520

Uh, number one, in the existing events that you've reported, uh, that they say have been

135

00:06:48,520 --> 00:06:51,640

solved, can't stand a very close examination.

136

00:06:51,640 --> 00:06:56,280

Uh, number two, the Air Force has admitted, only the past few years, that we have been

137

00:06:56,280 --> 00:07:00,440

reported, can't see the point, and we rather go for a new review of people that were

138

00:07:00,760 --> 00:07:02,760

reported, because we've got a contact.

139

00:07:02,760 --> 00:07:07,160

Can I ask an athlete, the Air Force, to please now, if it's going to be right for

140

00:07:07,160 --> 00:07:07,960

going away?

141

00:07:07,960 --> 00:07:08,760

Uh-huh.

142

00:07:08,760 --> 00:07:12,440

The group that I think are out here for the very least of our years of objective,

143

00:07:12,440 --> 00:07:15,800

of the fact that it's working, the deal, that's what your homeless and, you know,

144

00:07:15,800 --> 00:07:17,080

you call the stairs.

145

00:07:17,080 --> 00:07:20,040

All I've heard is you don't think that anyone knows enough about the deal, both the

146

00:07:20,040 --> 00:07:21,720

drone and the distance is good.

147

00:07:21,720 --> 00:07:25,320

Anything that I would have to say, uh, would only be in the same way as the first time

148

00:07:25,320 --> 00:07:28,760

that you've been asked to do that, when it seems more convenient to do it.

149

00:07:28,840 --> 00:07:31,000

Well, in other words, you don't want to comment that way.

150

00:07:32,120 --> 00:07:33,480

Well, thank you very much for having me.

151

00:07:33,480 --> 00:07:38,200

I hope you're also bringing up some actual, the Red Bull drone, kind of, the most exciting

152

00:07:38,200 --> 00:07:43,080

to speak about time, unidentified flying objects, or the flying public.
