

1

00:00:00,000 --> 00:00:06,000

But there are many who are not satisfied with these official explanations.

2

00:00:06,000 --> 00:00:15,000

One of them is Edward J. Ruppel, the man who used to be head of Project Blue Book, the Air Force Unit investigating UFO sightings.

3

00:00:15,000 --> 00:00:21,000

Ruppel is an aeronautical engineer. He now works for one of the major aircraft companies in Los Angeles.

4

00:00:21,000 --> 00:00:26,000

He wrote a book about UFOs and I asked him why.

5

00:00:26,000 --> 00:00:36,000

Well, I felt that if I wrote my own story and not being in the military, I could probably tell a little bit more on science.

6

00:00:36,000 --> 00:00:39,000

What is the bias of the Air Force?

7

00:00:39,000 --> 00:00:46,000

Well, the Air Force has said since 1927 that these things are presided if there's nothing to it.

8

00:00:46,000 --> 00:00:52,000

This is the official conclusion of the Air Force. There are people in the Air Force who don't believe this.

9

00:00:52,000 --> 00:00:58,000

Why does the Air Force say that there's no evidence that UFOs exist? Why did they take this position?

10

00:00:58,000 --> 00:01:01,000

Well, it's a matter of the destination of the word proof.

11

00:01:01,000 --> 00:01:07,000

In other words, my project, I, Mike Dobson, and a lot of people in the Air Force, was like,

12

00:01:07,000 --> 00:01:11,000

if something can be done, like get their hands on a photograph, it's unquestionable.

13

00:01:11,000 --> 00:01:18,000

For example, or a piece of something or a trash that's indisputable. This has never occurred.

14

00:01:18,000 --> 00:01:29,000

Other people believe that if they first make an airline pilot or a North American pilot or a radar that, for example, sees something and tracks it, this has been lost information.

15

00:01:29,000 --> 00:01:36,000

Well, to speak of military pilots, how does the Air Force explain the sightings by its own people?

16

00:01:36,000 --> 00:01:43,000

Well, the official explanation is that these people have seen something that they, under on-lighting conditions,

17

00:01:43,000 --> 00:01:50,000

but say an airplane or on-lighting conditions in a kiss-look ship or an airplane or a dealer, believe something different.

18

00:01:50,000 --> 00:01:56,000

Have you talked with such a dog to thousands, hundreds of others, then? What do you think?

19

00:01:56,000 --> 00:01:58,000

Do you think they saw it?

20

00:01:58,000 --> 00:02:07,000

Well, let me only quote them. They all say that they saw something and whatever they saw was something real and nothing from this world.

21

00:02:07,000 --> 00:02:13,000

They are convinced it was not that delusion. 99% of them definitely are.

22

00:02:13,000 --> 00:02:18,000

Have you ever seen an unidentified fly-in-house in a line-handler?

23

00:02:18,000 --> 00:02:23,000

Well, the final question, Mr. Rubbo, what do you think UFOs are?

24

00:02:23,000 --> 00:02:28,000

Well, I've been asked this question a good many times in the past few weeks.

25

00:02:28,000 --> 00:02:36,000

I personally have never seen anything, any piece of evidence, to convince me that these are some actual objects from outer space.

26

00:02:36,000 --> 00:02:43,000

However, I certainly do keep an open mind on that in this day and age we can't afford to say that something can't be done.
