

1

00:00:00,000 --> 00:00:08,880

Here is a report just to see on an additional fighting by two soldiers at White Sands, New

2

00:00:08,880 --> 00:00:09,880

Mexico.

3

00:00:09,880 --> 00:00:16,880

This is Bill Hager, public information of South White Sands Proving Guard, New Mexico.

4

00:00:16,880 --> 00:00:24,880

Three young military policemen who spotted the mysterious object over White Sands Proving

5

00:00:24,880 --> 00:00:26,880

Guard Sunday.

6

00:00:26,880 --> 00:00:32,880

A great highlight of what they saw looked like a landing and takeoff of some controlled

7

00:00:32,880 --> 00:00:34,880

arctic tomato space.

8

00:00:34,880 --> 00:00:42,880

In open session here with the Public Information and Intelligence Officials, the youth piece

9

00:00:42,880 --> 00:00:48,880

together is starting to entail what appeared to be a movement of a control device.

10

00:00:48,880 --> 00:00:55,880

A nice long press here is to do team patrol in the off-range area.

11

00:00:55,880 --> 00:00:59,880

The soldiers said they had not talked with each other about what they saw.

12

00:00:59,880 --> 00:01:04,880

They learned about the reports and been turned into provoking marshals.

13

00:01:04,880 --> 00:01:11,880

Yesterday's father that prior to their sighting of the arctic, they read no newspaper talks.

14

00:01:11,880 --> 00:01:15,880

I heard anything about mysterious arctic stuff where.

15

00:01:15,880 --> 00:01:26,880

The youth emphasized that the arctic looked as bright as the sky, bright as the sun rather,

16

00:01:26,880 --> 00:01:31,880

but it did not light the sky around it.

17

00:01:31,880 --> 00:01:39,880

A cult world grand age toy, who with his buddy, the P.S.C. James, grew up.

18

00:01:39,880 --> 00:01:42,880

Saw the arctic first about 3 a.m. Sunday.

19

00:01:42,880 --> 00:01:47,880

He did not notice any mysterious stuff called sky.

20

00:01:47,880 --> 00:01:52,880

The arctic came down very slowly, about 50 yards from the ground.

21

00:01:52,880 --> 00:01:54,880

The cult world said.

22

00:01:54,880 --> 00:01:59,880

It stayed up there for 3 miles, just giving off the brilliant reddish light.

23

00:01:59,880 --> 00:02:05,880

Then it came to the ground fairly fast, about a 4 to 5 degree angle, and the light went out quickly.

24

00:02:05,880 --> 00:02:08,880

This was about 2 to 3 miles away from me.

25

00:02:08,880 --> 00:02:11,880

It looked like a completely controlled landing.

26

00:02:11,880 --> 00:02:16,880

A little man, so it had been on a 3 day pass, not presently interviewed.

27

00:02:16,880 --> 00:02:19,880

This pass had been approved a few days previously.

28

00:02:19,880 --> 00:02:27,880

The other 2 mts are speciality third class Richard Oaks, speciality third class Henry Morrill.

29

00:02:27,880 --> 00:02:34,880

It spotted what it did to be the same arctic, some 17 hours later, about 8 a.m. Sunday,

30

00:02:34,880 --> 00:02:37,880

while the arctic rolled together in the Jeep.

31

00:02:37,880 --> 00:02:42,880

They said they first noticed the arctic curving motionless about 50 yards from the ground,

32

00:02:42,880 --> 00:02:47,880

and then saw it rise slowly into the sky and stop again.

33

00:02:47,880 --> 00:02:54,880

It got so far up 5 in the blackest star, so then all of a sudden we didn't see it anymore.

34

00:02:54,880 --> 00:03:03,880

I know it didn't have been a mad threat, said Marlowe, because it remained motionless for several minutes.

35

00:03:03,880 --> 00:03:11,880

The second patrol also saw the arctic from about 2 miles in about the same area.

36

00:03:11,880 --> 00:03:16,880

The patrols were about a mile apart.

37

00:03:16,880 --> 00:03:22,880

The 10-way into northern end of the northern tip of the range,

38

00:03:22,880 --> 00:03:27,880

80 miles north of the likesand Promenkock headquarters,

39

00:03:27,880 --> 00:03:33,880

is near the park of Houston, the first of Thomas Farmer's explosion 1945.

40

00:03:33,880 --> 00:03:40,880

The terrain is flat as a land, as passed the sea quail in several miles.

41

00:03:40,880 --> 00:03:42,880

I think that tells it.

42

00:03:42,880 --> 00:03:46,880

You're just heard a report by the Public Information Officer at White Sands, New Mexico,

43

00:03:46,880 --> 00:03:53,880

on a sighting by 2 soldiers on Sunday morning of an unidentified flying object.
