

1

00:00:00,000 --> 00:00:08,000

The only house that had Yakimov walking and reporting to clear is the news and said,

2

00:00:08,000 --> 00:00:13,000

well here we go again. Strange lights about Yakimov are causing the Air Force a lot of

3

00:00:13,000 --> 00:00:18,000

trouble and some of their information agencies had better get together on their stories.

4

00:00:18,000 --> 00:00:23,000

Last month, strange lights were reported in the North and the guy is about 8.45 each night.

5

00:00:23,000 --> 00:00:27,000

Now three of the lights traveled across to the guys and disappeared in about five minutes

6

00:00:27,000 --> 00:00:31,000

until they were fast seen by after night and still doing it.

7

00:00:31,000 --> 00:00:36,000

Gas gate photographers took pictures of the Yakimov taking from two separate locations

8

00:00:36,000 --> 00:00:40,000

and later sent a photograph to the United States Air Force for investigation.

9

00:00:40,000 --> 00:00:46,000

Just last week the Air Force and National Air Force say they spoke in on the gas gate

10

00:00:46,000 --> 00:00:51,000

to the owners of the lights that were F-165 jet taken on the fueling mission.

11

00:00:51,000 --> 00:00:56,000

Today, a phone call was received from a quarter of the Air Force based in Tacoma

12

00:00:56,000 --> 00:01:01,000

where intelligence officers have been spreading the press and one officer said,

13

00:01:01,000 --> 00:01:06,000

what we see has been seen before but we do not believe that you can place the lights

14

00:01:06,000 --> 00:01:11,000

in the same classification where they 2% unidentified flying objects have been sighted

15

00:01:11,000 --> 00:01:16,000

for recent years. I ask if they were jet-tagged on the fueling mission, the Air Force had tried.

16

00:01:16,000 --> 00:01:19,000

No, we do not believe they are.

17

00:01:19,000 --> 00:01:24,000

They have a several real estate and said that they had no record of any aircraft

18

00:01:24,000 --> 00:01:28,000

that have been sent to the Yakimov at that time, 8.25.

19

00:01:28,000 --> 00:01:32,000

The question remains, what are the lights attached to?

20

00:01:32,000 --> 00:01:36,000

If the Air Force would tell us to disturb our business, we'd shut up.

21

00:01:36,000 --> 00:01:39,000

That's the story from KIA Radio Union.
