

1

00:00:00,000 --> 00:00:05,440

Now the news with John Marshall.

2

00:00:05,440 --> 00:00:10,400

Welcome to tonight's News Reel and let's take a look first at the headlines in the news.

3

00:00:10,400 --> 00:00:12,640

Mystery Satellite in Orbit.

4

00:00:12,640 --> 00:00:16,720

The Defense Department says an unidentified object is orbiting the Earth and may be of

5

00:00:16,720 --> 00:00:18,220

Soviet origin.

6

00:00:18,220 --> 00:00:22,400

The mystery satellite is being kept under constant surveillance by United States tracking

7

00:00:22,400 --> 00:00:23,680

agencies.

8

00:00:23,680 --> 00:00:27,680

The object is orbiting over the poles, an orbit that would be desirable for any type

9

00:00:27,680 --> 00:00:29,680

of seeing eye satellite.

10

00:00:29,680 --> 00:00:33,280

The Pentagon announcement was the first official hint that the Soviets may have launched a

11

00:00:33,280 --> 00:00:35,920

space vehicle in a polar orbit.

12

00:00:35,920 --> 00:00:38,240

There are no radio signals from the vehicle.
