

1

00:00:00,000 --> 00:00:08,160

We told Wright Patterson Air Force Base we were offered a contract in 1961 and we told

2

00:00:08,160 --> 00:00:12,720

them at that time that if you have a security problem tell us, if this is a problem, the

3

00:00:12,720 --> 00:00:16,400

Niceman Security Tell us, we'll reconsider what we're doing and they said they didn't

4

00:00:16,400 --> 00:00:19,040

care how much research we did.

5

00:00:19,040 --> 00:00:25,360

Now we have had strong suspicions with reason that our phones have been tapped because we

6

00:00:25,360 --> 00:00:28,040

keep getting these calls and they want the information.

7

00:00:28,040 --> 00:00:31,440

We told them time after time our books are open, you can have all the information that

8

00:00:31,440 --> 00:00:32,440

we have.

9

00:00:32,440 --> 00:00:34,440

Perfectly welcome to it, we have no secrets.

10

00:00:34,440 --> 00:00:40,520

But in spite of this, on one occasion two years ago I had a reason to call the base

11

00:00:40,520 --> 00:00:45,400

and I did call Wright Patterson Air Force Base about a sighting in Argentina which involved

12

00:00:45,400 --> 00:00:47,240

some of our ships.

13

00:00:47,240 --> 00:00:52,240

I did not introduce myself and yet before I finished the conversation he said well Mr.

14

00:00:52,240 --> 00:00:57,080

Moriaz he said we don't have any more information on it and I said no, just wait a minute I

15

00:00:57,160 --> 00:01:00,160

didn't tell you who I am and he said well I know who you are.

16

00:01:00,160 --> 00:01:04,760

So one of two things I suspicion that they had listened to so many tapes from the tapped

17

00:01:04,760 --> 00:01:10,520

telephone that they knew my voice, this was Sergeant Mooney or else they had one of these

18

00:01:10,520 --> 00:01:15,000

voice print machines which I understand they now have which will identify any voice they

19

00:01:15,000 --> 00:01:17,200

have ever heard within ten seconds.

20

00:01:17,200 --> 00:01:22,280

Now one of these two things had to be true but they have never once told us not to research

21

00:01:22,280 --> 00:01:23,280

or not to get into it.

22

00:01:23,280 --> 00:01:26,720

In fact they offered us a contract but they were honest enough to say that if we took

23

00:01:26,760 --> 00:01:32,080

the contract they would give us research materials that are the equipment and in return we would

24

00:01:32,080 --> 00:01:36,960

give them information but if we did they would tell us where and when and what to say about

25

00:01:36,960 --> 00:01:37,960

it.

26

00:01:37,960 --> 00:01:43,960

So we said well there is no security problem and none of these things are involved and

00:01:43,960 --> 00:01:48,120

we choose to be free and we didn't take the offer.
