

1

00:00:00,000 --> 00:00:02,000

Hello?

2

00:00:02,000 --> 00:00:06,000

Mom, this is Colin from Major Robert Friend.

3

00:00:06,000 --> 00:00:08,000

Okay, hold on two minutes.

4

00:00:08,000 --> 00:00:10,000

Okay, go ahead.

5

00:00:10,000 --> 00:00:11,000

Thank you, are you here?

6

00:00:11,000 --> 00:00:12,000

Hi.

7

00:00:12,000 --> 00:00:13,000

Hello, Mr. Brown.

8

00:00:13,000 --> 00:00:14,000

Yes.

9

00:00:14,000 --> 00:00:18,000

I'm Larry Warriors from Akron with the Blind Crosser investigation.

10

00:00:18,000 --> 00:00:19,000

Yes, how are you?

11

00:00:19,000 --> 00:00:20,000

Good, how have you been?

12

00:00:20,000 --> 00:00:21,000

Oh, I've been fine.

13

00:00:21,000 --> 00:00:26,000

We noticed quite a release yesterday in the Associated Press.

14

00:00:26,000 --> 00:00:28,000

Were you responsible for that?

15

00:00:28,000 --> 00:00:31,000

No, that came out of the Security of Washington.

16

00:00:31,000 --> 00:00:32,000

Oh, out in Washington?

17

00:00:32,000 --> 00:00:33,000

Right.

18

00:00:33,000 --> 00:00:35,000

Oh, what do you know about it?

19

00:00:35,000 --> 00:00:36,000

What do I know?

20

00:00:36,000 --> 00:00:37,000

Washington.

21

00:00:37,000 --> 00:00:39,000

I read it in the paper like you did.

22

00:00:39,000 --> 00:00:40,000

Is that really true?

23

00:00:40,000 --> 00:00:41,000

What's this?

24

00:00:41,000 --> 00:00:45,000

I'm not even sure I saw the same one you saw.

25

00:00:45,000 --> 00:00:47,000

Yeah, well it was in the first one.

26

00:00:47,000 --> 00:00:52,000

A short release in the Springfield newspaper last night.

27

00:00:52,000 --> 00:00:53,000

Uh-huh.

28

00:00:53,000 --> 00:00:57,000

Well, look, Major, I have Mark and Dusso who is with the committee now.

29

00:00:57,000 --> 00:01:00,000

We've formed a new committee, the Blind Crosser Investigations Committee.

30

00:01:00,000 --> 00:01:01,000

Yes.

31

00:01:01,000 --> 00:01:07,000

And Mark is on the other end of the line and I want to introduce him to you.

32

00:01:07,000 --> 00:01:08,000

Mark, take over there, boy.

33

00:01:08,000 --> 00:01:10,000

Hello, Mr. Major, for it?

34

00:01:10,000 --> 00:01:11,000

Yes, how are you?

35

00:01:11,000 --> 00:01:13,000

Uh, you see, you're not responsible for this release.

36

00:01:13,000 --> 00:01:14,000

No, uh...

37

00:01:14,000 --> 00:01:15,000

Do you have any knowledge of it at all?

38

00:01:15,000 --> 00:01:18,000

Well, yes, I knew that a release was coming out.

39

00:01:18,000 --> 00:01:19,000

I see.

40

00:01:19,000 --> 00:01:22,000

Uh, in other words, did you cooperate with this release?

41

00:01:22,000 --> 00:01:25,000

Uh, yes, I provided them with some of the information.

42

00:01:25,000 --> 00:01:26,000

I see.

43

00:01:26,000 --> 00:01:28,000

What is the statistical information?

44

00:01:28,000 --> 00:01:30,000

Uh, are you serious about this?

45

00:01:30,000 --> 00:01:31,000

What is?

46

00:01:31,000 --> 00:01:32,000

Are you serious about it?

47

00:01:32,000 --> 00:01:33,000

Are you serious about what?

48

00:01:33,000 --> 00:01:38,000

I mean, about, uh, do you feel that this is a release that you had to put out yourself?

49

00:01:38,000 --> 00:01:46,000

Well, I, like I said, I haven't seen the complete release, but, uh, I know that all of these statistical information came from me, that's for sure.

50

00:01:46,000 --> 00:01:47,000

I see.

51

00:01:47,000 --> 00:01:50,000

Uh, Major, are you still continuing the investigation?

52

00:01:50,000 --> 00:01:51,000

Yes.

53

00:01:51,000 --> 00:01:55,000

And under what name are you continuing now?

54

00:01:55,000 --> 00:01:56,000

What do you mean?

55

00:01:56,000 --> 00:01:58,000

Well, uh, what is the, what do you have to do for?

56

00:01:58,000 --> 00:02:00,000

What was the, uh, still project movebook?

57

00:02:00,000 --> 00:02:01,000

Still project movebook.

58

00:02:01,000 --> 00:02:02,000

That's right.

59

00:02:02,000 --> 00:02:04,000

Well, that's good.

60

00:02:04,000 --> 00:02:05,000

And I'm glad you are.

61

00:02:05,000 --> 00:02:06,000

Absolutely.

62

00:02:06,000 --> 00:02:12,000

Uh, we have been getting an average of about three reports a week up here in the last couple of months.

63

00:02:12,000 --> 00:02:14,000

We've had almost a flat.

64

00:02:14,000 --> 00:02:15,000

Really?

65

00:02:15,000 --> 00:02:16,000

Yeah.

66

00:02:16,000 --> 00:02:19,000

The worst is the freeze because, uh, I don't recall any of this.

67

00:02:19,000 --> 00:02:20,000

It reached us.

68

00:02:20,000 --> 00:02:22,000

Well, this is probably true.

69

00:02:22,000 --> 00:02:31,000

Uh, do you feel, Major, that, uh, some of these press releases are, are interfering with, uh, people wanting to give you the reports?

70

00:02:31,000 --> 00:02:40,000

Well, absolutely no, because, uh, he promised to put in there a statement, uh, asking the people to report them to the nearest air force installation.

71

00:02:40,000 --> 00:02:42,000

But this did not appear.

72

00:02:42,000 --> 00:02:44,000

Well, it's supposed to have appeared.

73

00:02:44,000 --> 00:02:50,000

Uh, it disreleased, seems to, uh, imp, uh, imprived.

74

00:02:50,000 --> 00:03:07,000

Uh, that you know, are able to, uh, to investigate and diagnose, uh, all the way to 2%, 1.94% of them are unidentified now as to, uh, about 20% back in the 1947-1952 era.

75

00:03:07,000 --> 00:03:08,000

Uh, this is true.

76

00:03:08,000 --> 00:03:09,000

To what do you attribute?

77

00:03:09,000 --> 00:03:16,000

Actually, actually, uh, approximately, to only approximately 2% of these things, uh, are left unidentified.

78

00:03:16,000 --> 00:03:17,000

I see.

79

00:03:17,000 --> 00:03:34,000

Uh, Major, we noticed in the release here that, uh, there seemed to be some sort of an admission, uh, in the way it was stated, uh, of the existence of the UFO, by stating that the technology of the UFO has not exceeded ours as to the state.

80

00:03:34,000 --> 00:03:38,000

Now, do you feel that that was an admission by the Washington office?

81

00:03:38,000 --> 00:03:40,000

Do I read it right now in the paper for you?

82

00:03:40,000 --> 00:03:41,000

No, you go ahead and read it.

83

00:03:41,000 --> 00:03:51,000

Okay, it said, it said its, uh, project blue ball has turned up no evidence of any UFOs, represented technological advances beyond the range of our present-day scientific knowledge.

84

00:03:51,000 --> 00:03:56,000

Or that any were extra-extra-terrestrial vehicles under intelligent controls.

85

00:03:56,000 --> 00:04:00,000

Right, there has been no evidence to indicate this.

86

00:04:00,000 --> 00:04:01,000

Not to us.

87

00:04:01,000 --> 00:04:03,000

I see that. I, I realize that.

88

00:04:03,000 --> 00:04:04,000

Right.

89

00:04:04,000 --> 00:04:14,000

Uh, but, uh, from, from all reports, I'll say, for instance, if, uh, if you take the stand that there are no such things, then, of course, this statement is true.

90

00:04:14,000 --> 00:04:20,000

If the stand is though that there is, is still indefinite, and you still have a 2% pile of unidentified.

91

00:04:20,000 --> 00:04:21,000

Yes, for sure.

92

00:04:21,000 --> 00:04:27,000

Uh, the things that aren't unidentified sometimes, uh, outperform anything that has, uh, been seen on Earth. Isn't that right?

93

00:04:27,000 --> 00:04:37,000

Well, we say outperformed, uh, what you mean, you see, for instance, uh, when you start talking about performance, you're talking in relative terms.

94

00:04:37,000 --> 00:04:42,000

In other words, if you're talking, you're talking relative to what?

95

00:04:42,000 --> 00:04:54,000

Well, in other words, you say anything that we've ever seen, after all, that we have, uh, uh, outfamilites in the dashing around the area is around 18,000 miles per hour.

96

00:04:54,000 --> 00:04:55,000

I know, but they...

97

00:04:55,000 --> 00:05:00,000

They have, uh, the Earth's gathering, and they have a sphere at around 50,000.

98

00:05:00,000 --> 00:05:01,000

Well...

99

00:05:01,000 --> 00:05:07,000

They do this sort. So, you see, when you say outperforming, you, what she talks about, outperforming craft?

100

00:05:07,000 --> 00:05:10,000

Well, let me say it this way then. I can be more specific.

101

00:05:10,000 --> 00:05:11,000

Okay.

102

00:05:11,000 --> 00:05:23,000

Uh, I realize that, uh, in the case of meteors, or meteorites, whatever, meteors, and, uh, also of satellites, this is true, but, uh, the satellite picture has only entered, uh, in since 1957.

103

00:05:23,000 --> 00:05:34,000

And the, uh, the Project Blue Book, or its predecessor, started sometime in 1947, and, uh, supersonic aircraft were not prevalent, uh, you know, as prevalent then as they are now.

104

00:05:34,000 --> 00:05:37,000

The B-58 course travels at high-speed now.

105

00:05:37,000 --> 00:05:38,000

Absolutely.

106

00:05:38,000 --> 00:05:48,000

And, uh, I say that, uh, relative, I think, is sure you're right about that, because it's relative to a person who, and it's subjective to the person who is reporting these things.

107

00:05:48,000 --> 00:06:00,000

And, uh, if they've been reported to cover, I remember one balloonist, uh, back in the, uh, White Sands area, and two other technical men down there, I think one of them was Conrad Wade.

108

00:06:00,000 --> 00:06:09,000

And, uh, that one was, uh, was, uh, was tricked by the auto-light and stopwatch at something around 18,000 miles per hour.

109

00:06:10,000 --> 00:06:17,000

Now, we had no satellite in the sky at that time, and we had no aircraft that could even approach at kind of a speed.

110

00:06:17,000 --> 00:06:22,000

Now, what do they, what would they mean by this kind of a statement then?

111

00:06:22,000 --> 00:06:27,000

In other words, this base statement is based strictly on the fact that they feel that there is no UFO.

112

00:06:27,000 --> 00:06:36,000

Uh, no, I think that what he means there is this, that, uh, all of those things which we have identified.

113

00:06:36,000 --> 00:06:48,000

Now, it's just counting to 2%. Uh, all of these, uh, objects that have been identified have at least not been operating outside of a realm, which we can explain.

114

00:06:48,000 --> 00:06:49,000

Oh, I see.

115

00:06:49,000 --> 00:07:00,000

In other words, he's talking about, say, his velocity, sitting talking to say, maybe, possibly, uh, meteoritic, or, uh, he might even be talking satellite velocity.

116

00:07:00,000 --> 00:07:01,000

Oh, I see.

117

00:07:01,000 --> 00:07:03,000

Major, help you.

118

00:07:03,000 --> 00:07:04,000

Perfect.

119

00:07:04,000 --> 00:07:18,000

I was going to say that another thing to visit the characteristics of even the other nanobiotic, uh, have not exceeded these limits. I think this is what he means.

120

00:07:18,000 --> 00:07:19,000

These limits.

121

00:07:19,000 --> 00:07:28,000

In other words, when I say these limits, I've talked about the limits of things that we've had in regions reported in previous sites that have been explained.

122

00:07:28,000 --> 00:07:30,000

I see what you mean by explained, yes.

123

00:07:30,000 --> 00:07:37,000

Major, have you had any, uh, new information that would be of interest to our group here?

124

00:07:37,000 --> 00:07:50,000

Uh, actually, I haven't had any, uh, any, uh, information reported to me recently. Uh, say it wasn't exciting to explain Minnesota, but, uh, all of the information is in there.

125

00:07:50,000 --> 00:07:56,000

Yet I had a phone call from the gentleman out there, but, uh, yet I haven't gotten the reports, seriously.

126

00:07:56,000 --> 00:08:01,000

Uh, look, do you remember Ken Pertre? Right, he's talked with you a number of times from WCUE.

127

00:08:01,000 --> 00:08:02,000

Oh, right.

128

00:08:02,000 --> 00:08:03,000

Yeah, I'll see you soon.

129

00:08:03,000 --> 00:08:05,000

Oh, there? Oh, yes, yes, yes, sure.

130

00:08:05,000 --> 00:08:08,000

Uh, do you mind, uh, sir, if we share this with him?

131

00:08:08,000 --> 00:08:09,000

Yeah, what?

132

00:08:09,000 --> 00:08:11,000

Oh, our conversation.

133

00:08:11,000 --> 00:08:14,000

Oh, no, I don't want to hear anything of it.

134

00:08:14,000 --> 00:08:15,000

I'm not going to hear anything of it.

135

00:08:15,000 --> 00:08:25,000

Fine. Uh, Mark, uh, is there anything else that you want to chat with the major about, uh, I don't seem to have anything here that is right for me.

136

00:08:25,000 --> 00:08:40,000

I thought that I had something in mind here, but I kind of, uh, I was just wondering, major, uh, in all these explained reports, the 98% that you're talking about, I mean, I'm not trying to be facetious when I ask this.

137

00:08:40,000 --> 00:08:41,000

Yes.

138

00:08:41,000 --> 00:08:48,000

Uh, what about the people that were involved? Are they convinced that your, uh, mind are, uh, correct?

139

00:08:48,000 --> 00:08:54,000

I can't answer for those people. It comes off too hard to answer for all of the people in 98%.

140

00:08:54,000 --> 00:08:56,000

And that's exactly the...

141

00:08:56,000 --> 00:08:58,000

So you start talking about 98% of the cases?

142

00:08:58,000 --> 00:08:59,000

I know, Miss.

143

00:08:59,000 --> 00:09:05,000

What is this way? Uh, I would say the majority of them are satisfied.

144

00:09:05,000 --> 00:09:17,000

Well, that's exactly the question I was asking, Major, is, uh, it's pretty hard to set yourself up, you know, as a fact-finding body and then coming out with such an opinion which would cover 98% of the cases.

145

00:09:17,000 --> 00:09:24,000

And that makes it a pretty tough proposition, you know, to, uh, for me to, uh, to swallow. I'm not swallowing.

146

00:09:24,000 --> 00:09:34,000

Actually, I agree with you there, but actually, uh, you want to, no matter what disease you take, you want to find it awfully hard to convince the most charged people you know that you're so...

147

00:09:34,000 --> 00:09:35,000

Yes.

148

00:09:35,000 --> 00:09:39,000

So, uh, say, say, watch your anything, you like that.

149

00:09:39,000 --> 00:09:51,000

Well, uh, uh, any position that you take, that you will have a great problem with that, of being with minority.

150

00:09:51,000 --> 00:09:53,000

Yes, I see. I know what you mean.

151

00:09:53,000 --> 00:09:54,000

Yes.

152

00:09:54,000 --> 00:09:58,000

Well, really, Major, it has been grand talking with you again, though, with, uh...

153

00:09:58,000 --> 00:10:00,000

Yes, it's been grand talking to you.

154

00:10:00,000 --> 00:10:01,000

So, uh...

155

00:10:01,000 --> 00:10:02,000

I follow it.

156

00:10:02,000 --> 00:10:06,000

Doing real well. This is Doug here. I haven't been in touch with him too recently, but, uh...

157

00:10:06,000 --> 00:10:08,000

You haven't talked with him recently either?

158

00:10:08,000 --> 00:10:14,000

I haven't talked with him. I haven't talked with George, though. Well, he's a very good guy, which I appreciate very much.

159

00:10:14,000 --> 00:10:18,000

Uh, he is, uh, still quite active in the field.

160

00:10:18,000 --> 00:10:19,000

Well, I'm sure he is.

161

00:10:19,000 --> 00:10:22,000

So, uh, just follow it, Major.

162

00:10:22,000 --> 00:10:27,000

Uh, actually, do you notice that I told you we had reorganized here?

163

00:10:27,000 --> 00:10:28,000

Yes.

164

00:10:28,000 --> 00:10:35,000

Uh, Mr. Poggowitz, uh, uh, did, uh, register with the state and took over the old organization, say.

165

00:10:35,000 --> 00:10:43,000

But, uh, I would say about 96% of the original research group, uh, came along with the new research.

166

00:10:43,000 --> 00:10:47,000

But Mr. Poggowitz is still quite active, and we're happy that he is.

167

00:10:47,000 --> 00:10:48,000

No, that's fine.

168

00:10:48,000 --> 00:10:53,000

So, um, and as a parting word, Major, I'm glad to have met you from such a long distance.

169

00:10:53,000 --> 00:11:00,000

Uh, I think, I think, uh, I remember your name, uh, didn't Captain Smith talk to you?

170

00:11:00,000 --> 00:11:03,000

Yes, he did. Yes, he did.

171

00:11:03,000 --> 00:11:07,000

Well, once again, tonight, talking with you, and make it a good night, then.

172

00:11:07,000 --> 00:11:08,000

Right, of course.

173

00:11:08,000 --> 00:11:09,000

Okay, good night.
