00:00:00,000 --> 00:00:06,920

The United States Air Force in the early 50s, Mr. Smith, had a three, I think, top secret

2

00:00:06,920 --> 00:00:12,400

project going for identification of unidentified flying objects, and then they were dropped,

3

00:00:12,400 --> 00:00:13,400

weren't they?

4

00:00:13,400 --> 00:00:15,200

Do you know why or have you any theories to this?

5

00:00:15,200 --> 00:00:20,920

I couldn't really say why they were dropped unless it was due to the tremendous amount

6

00:00:20,920 --> 00:00:26,800

of publicity and a fair amount of ridicule which was aimed at the whole subject of flying

7

00:00:26,800 --> 00:00:27,800

saucers.

8

00:00:27,800 --> 00:00:33,080

I do believe, though, that there is some continuing investigation in the United States.
