

1

00:00:00,000 --> 00:00:12,760

Alone in a room, 100,000 miles from Earth, my body lay dead before me, and yet I spoke

2

00:00:12,760 --> 00:00:16,120

and felt and lived.

3

00:00:16,120 --> 00:00:23,400

Behind me lay a tortured world, before me the moon and destiny.

4

00:00:23,400 --> 00:00:29,440

Again I felt a surge of power, and had I been able to, I would have smiled.

5

00:00:29,440 --> 00:00:31,960

My mission was accomplished.

6

00:00:31,960 --> 00:00:34,920

No one knew, no one understood.

7

00:00:34,920 --> 00:00:39,680

If they had, they would not believe.

8

00:00:39,680 --> 00:00:46,160

This was a project 3,000 years old, yet no one had guessed.

9

00:00:46,160 --> 00:00:47,720

No one.

10

00:00:47,720 --> 00:00:50,720

Listen now to 2000 plus.

11

00:00:59,440 --> 00:01:13,480

Adventures into the world of tomorrow.

12

00:01:13,480 --> 00:01:26,280

Science fiction stories from the years beyond 2000 AD.

13

00:01:26,280 --> 00:01:38,040

Today a story entitled, The Flying Saucers.

14

00:01:38,040 --> 00:01:40,600

It is the year 2000 plus 12.

15

00:01:40,600 --> 00:01:46,040

A blazing New Mexico sun shines down upon a great military installation, upon a vast

16

00:01:46,040 --> 00:01:51,320

noisy field, and upon a silvery shape which seems to strain forward, ready to leap up

17

00:01:51,320 --> 00:01:53,160

into space.

18

00:01:53,160 --> 00:01:58,200

In an executive office, a man sits in his chair, his eyes on the great rocket.

19

00:01:58,200 --> 00:02:02,920

Behind him a girl waits for him to speak.

20

00:02:02,920 --> 00:02:04,360

Better close that window, Eileen.

21

00:02:04,360 --> 00:02:06,480

The noise won't let a man think.

22

00:02:06,480 --> 00:02:09,480

Yes, sir.

23

00:02:09,480 --> 00:02:15,480

Ah, that's better.

24

00:02:15,480 --> 00:02:17,360

I'm ready, Dr. Bronson.

25

00:02:17,360 --> 00:02:19,360

Get this on tape as well as in shorthand.

26

00:02:19,360 --> 00:02:21,600

It's for the permanent files in Washington.

27

00:02:21,600 --> 00:02:24,280

It's got to go out in the next jet.

28

00:02:24,280 --> 00:02:26,680

I'll give you a sign, Chief of Stationery.

29

00:02:26,680 --> 00:02:28,680

Send it off to make the five o'clock connection.

30

00:02:28,680 --> 00:02:29,680

You got that?

31

00:02:29,680 --> 00:02:30,680

Yes, sir.

32

00:02:30,680 --> 00:02:31,680

Record her on.

33

00:02:31,680 --> 00:02:35,640

The letter to be transcribed over your signature and sent off on the five o'clock connecting

34

00:02:35,640 --> 00:02:36,640

plane.

35

00:02:36,640 --> 00:02:37,640

Right.

36

00:02:37,640 --> 00:02:42,120

Heading, top secret.

37

00:02:42,120 --> 00:02:46,320

To National Scientific Council.

38

00:02:46,680 --> 00:02:51,760

To Joint Chiefs of Staff, Secretary of Defense, the President.

39

00:02:51,760 --> 00:02:53,920

Brom Andrew Bronson.

40

00:02:53,920 --> 00:02:57,160

Forget the usual string of title, Eileen.

41

00:02:57,160 --> 00:03:03,440

Chief Department of Extraterrestrial Research, White Sands, New Mexico.

42

00:03:03,440 --> 00:03:13,880

Regarding defense measures against aerial visitors listed in file AA-286 as flying sources.

43

00:03:14,880 --> 00:03:15,880

One.

44

00:03:15,880 --> 00:03:24,400

For the past three months, this secret experimental installation has been visited by flying sources.

45

00:03:24,400 --> 00:03:30,000

First appearance coincided with the launching of our secret flying missile, Zeus.

46

00:03:30,000 --> 00:03:35,720

Details and reports CB-286, A, B, and C.

47

00:03:35,720 --> 00:03:37,720

Two.

48

00:03:37,720 --> 00:03:43,720

Although the flying sources have never landed, the frequency of their visits has tripled.

49

00:03:43,720 --> 00:03:45,720

Since the launching.

50

00:03:45,720 --> 00:03:51,720

As reported in the file cited, Zeus has not yet returned.

51

00:03:51,720 --> 00:03:53,720

Three.

52

00:03:53,720 --> 00:04:01,000

In view of the importance to national security of this secret installation and its experiments,

53

00:04:01,000 --> 00:04:09,120

the reports already mentioned were reviewed by JCS and the National Scientific Council.

54

00:04:09,120 --> 00:04:17,400

It has decided that the flying sources were a potential menace and that countermeasures be undertaken.

55

00:04:17,400 --> 00:04:19,000

Four.

56

00:04:19,000 --> 00:04:28,040

Zeus II, an improved model of our secret flying missile, has been completed and armed.

57

00:04:28,040 --> 00:04:33,080

It is equipped with mass attraction and proximity fuse devices.

58

00:04:33,080 --> 00:04:37,320

Warhead contains 5,000 pounds hexanite.

59

00:04:37,320 --> 00:04:39,680

Firing control automatic.

60

00:04:39,680 --> 00:04:44,160

C, file CB-344.

61

00:04:44,160 --> 00:04:46,160

Five.

62

00:04:46,160 --> 00:04:49,840

The station has been placed in condition alert.

63

00:04:49,840 --> 00:04:54,760

Next visit from the flying sources is expected momentarily.

64

00:04:54,760 --> 00:04:59,280

In view of the foregoing, we are in complete readiness.

65

00:04:59,280 --> 00:05:01,680

We will attack.

66

00:05:01,680 --> 00:05:03,320

Repeat.

67

00:05:03,320 --> 00:05:06,600

We will attack.

68

00:05:07,560 --> 00:05:08,560

Where's my pen?

69

00:05:08,560 --> 00:05:09,560

Andrew.

70

00:05:09,560 --> 00:05:11,560

This one doesn't work.

71

00:05:11,560 --> 00:05:12,560

I'll get it.

72

00:05:12,560 --> 00:05:13,560

I saw your pen and your vest.

73

00:05:13,560 --> 00:05:15,560

Don't touch that vest.

74

00:05:15,560 --> 00:05:17,560

I'll get it myself.

75

00:05:17,560 --> 00:05:19,560

Did I do something wrong?

76

00:05:19,560 --> 00:05:21,560

No, no, no.

77

00:05:21,560 --> 00:05:23,560

There.

78

00:05:23,560 --> 00:05:24,560

Well, you might have been hurt.

79

00:05:24,560 --> 00:05:26,560

Hurt?

80

00:05:26,560 --> 00:05:28,560

I don't have one.

81

00:05:28,560 --> 00:05:31,560

There you are, my signature.

82

00:05:31,560 --> 00:05:33,560

Now, on your way.

83

00:05:33,560 --> 00:05:35,560

Andrew, why can't I stay?

84

00:05:35,560 --> 00:05:37,560

You know the orders, Eileen.

85

00:05:37,560 --> 00:05:39,560

We're going to test Zeus, too.

86

00:05:39,560 --> 00:05:41,560

You know anything that happened.

87

00:05:41,560 --> 00:05:44,560

Maybe the flying sources will come back if they do.

88

00:05:44,560 --> 00:05:46,560

We'll be ready for them.

89

00:05:46,560 --> 00:05:50,560

Besides, if the rubbish should go wrong, the hexanite detonate.

90

00:05:50,560 --> 00:05:51,560

No, no, no.

91

00:05:51,560 --> 00:05:53,560

On your way now.

92

00:05:53,560 --> 00:05:55,560

The jet cars waiting downstairs.

93

00:05:55,560 --> 00:05:58,560

Very well.

94

00:05:58,560 --> 00:06:01,560

But you will be careful, won't you?

95

00:06:01,560 --> 00:06:02,560

Of course.

96

00:06:02,560 --> 00:06:04,560

Eileen.

97

00:06:04,560 --> 00:06:06,560

Yes?

98

00:06:06,560 --> 00:06:08,560

I've never told you.

99

00:06:08,560 --> 00:06:10,560

Yes?

100

00:06:10,560 --> 00:06:12,560

Never mind.

101

00:06:12,560 --> 00:06:14,560

Au revoir, my dear.

102

00:06:20,560 --> 00:06:24,560

Au revoir, my darling.

103

00:06:35,560 --> 00:06:38,560

Dr. Bronson to security. Come in, security.

104

00:06:38,560 --> 00:06:40,560

Security, hi.

105

00:06:40,560 --> 00:06:42,560

Has Ms. Hartnitz found in yet?

106

00:06:42,560 --> 00:06:43,560

No, sir.

107

00:06:43,560 --> 00:06:46,560

Well, that's funny. I expected it to after sending off the latest reports.

108

00:06:46,560 --> 00:06:48,560

She should be home now, are you sure?

109

00:06:48,560 --> 00:06:49,560

Yes, sir.

110

00:06:49,560 --> 00:06:52,560

Something must have happened to her. Send a security officer to check.

111

00:06:52,560 --> 00:06:54,560

What about the setup for the new test?

112

00:06:54,560 --> 00:06:55,560

All right, sir.

113

00:06:55,560 --> 00:06:57,560

Oh, that's good. I hope nothing happens.

114

00:06:57,560 --> 00:06:59,560

Any report of flying sources?

115

00:06:59,560 --> 00:07:00,560

No, sir, not yet.

116

00:07:00,560 --> 00:07:02,560

But, sir, there's something funny about that.

117

00:07:02,560 --> 00:07:05,560

Every time we get ready for a test, even one of the minor missiles,

118

00:07:05,560 --> 00:07:07,560

one of the saucers appears.

119

00:07:07,560 --> 00:07:10,560

That's too much of a coincidence for comfort, sir.

120

00:07:10,560 --> 00:07:12,560

Yes, I thought of that, too. You think there's a leak somewhere?

121

00:07:12,560 --> 00:07:14,560

Yes, we've checked and rechecked.

122

00:07:14,560 --> 00:07:15,560

Nothing.

123

00:07:15,560 --> 00:07:18,560

But there's no doubt that someone's passing out information.

124

00:07:18,560 --> 00:07:19,560

I see.

125

00:07:19,560 --> 00:07:22,560

Of course, we'll keep on checking. Whoever is responsible for Dr. Bronson.

126

00:07:22,560 --> 00:07:24,560

Radar control to Dr. Bronson.

127

00:07:24,560 --> 00:07:25,560

Bronson here, what is it?

128

00:07:25,560 --> 00:07:27,560

Flying saucer detected and registered.

129

00:07:27,560 --> 00:07:30,560

Computations and effect data, data follows.

130

00:07:30,560 --> 00:07:33,560

Distance, 486 miles.

131

00:07:33,560 --> 00:07:36,560

Height, 50.2 miles.

132

00:07:36,560 --> 00:07:39,560

Speed, 5 miles per second.

133

00:07:39,560 --> 00:07:44,560

Estimated time of arrival at contact point, 1 minute, 58 seconds from now.

134

00:07:44,560 --> 00:07:47,560

1, 58, right. Let fire control.

135

00:07:47,560 --> 00:07:49,560

Fire control alerted, sir.

136

00:07:49,560 --> 00:07:50,560

But when may we expect you...

137

00:07:50,560 --> 00:07:52,560

In 30 seconds, over and off.

138

00:07:52,560 --> 00:07:53,560

Are you still on security?

139

00:07:53,560 --> 00:07:54,560

Aye, sir.

140

00:07:54,560 --> 00:07:55,560

Clear the field.

141

00:07:55,560 --> 00:07:57,560

Field already clear. I've just had emergency red signal.

142

00:07:57,560 --> 00:07:59,560

We're waiting in control, sir.

143

00:07:59,560 --> 00:08:01,560

Very well. I'm coming down right now.

144

00:08:01,560 --> 00:08:02,560

Over and off.

145

00:08:02,560 --> 00:08:25,560

Let me have my headset and hand mic scutting.

146

00:08:25,560 --> 00:08:26,560

Yes, sir.

147

00:08:26,560 --> 00:08:27,560

Thank you.

148

00:08:27,560 --> 00:08:29,560

Bronson to fire control.

149

00:08:29,560 --> 00:08:32,560

Fire control to Bronson. Everything ready, handshift.

150

00:08:32,560 --> 00:08:35,560

Dolly's cleared from Zeus to warhead arms.

151

00:08:35,560 --> 00:08:37,560

Well done. Bronson to computation.

152

00:08:37,560 --> 00:08:38,560

Computation.

153

00:08:38,560 --> 00:08:40,560

Your figures checked through cybernetics.

154

00:08:40,560 --> 00:08:45,560

Yes, sir. As reported, Zeus 2 should destroy flying saucer six seconds after blast off.

155

00:08:45,560 --> 00:08:49,560

Firing time, 2,200, 33 hours, 36 seconds.

156

00:08:49,560 --> 00:08:54,560

Time check, everyone. Time is now 32 seconds to blast off.

157

00:08:54,560 --> 00:08:55,560

Condition red.

158

00:08:55,560 --> 00:08:57,560

I shall operate fire control remote.

159

00:08:57,560 --> 00:08:59,560

Strap in for firing.

160

00:08:59,560 --> 00:09:01,560

Security.

161

00:09:01,560 --> 00:09:02,560

Security, aye.

162

00:09:02,560 --> 00:09:03,560

Report.

163

00:09:03,560 --> 00:09:05,560

Field clear. Guards alerted and shielded.

164

00:09:05,560 --> 00:09:07,560

Anti-radiation up. Warhead arms.

165

00:09:07,560 --> 00:09:09,560

Zeus 2 ready. Any further?

166

00:09:09,560 --> 00:09:10,560

10 seconds.

167

00:09:10,560 --> 00:09:24,560

9, 8, 7, 6, 5, 4, 3, 2, 1.

168

00:09:24,560 --> 00:09:26,560

Fire.

169

00:09:26,560 --> 00:09:37,560

Get a bearing on that trajectory computation.

170

00:09:37,560 --> 00:09:40,560

Conjecture established and being ready, Mac.

171

00:09:40,560 --> 00:09:46,560

Conjecture correct, sir. Parabolic sound infectious receiving.

172

00:09:46,560 --> 00:09:58,560

Contact 2,200, 33, 42, run and alert.

173

00:09:58,560 --> 00:10:01,560

Good work, everyone. Security.

174

00:10:01,560 --> 00:10:03,560

Condition green.

175

00:10:03,560 --> 00:10:08,560

Well, boys, now to wait till someone phones in where the pieces fell.

176

00:10:08,560 --> 00:10:13,560

Then maybe we'll be finally knowing what the flying sources are.

177

00:10:13,560 --> 00:10:33,560

Yes, Scotty. A security located.

178

00:10:33,560 --> 00:10:35,560

Yes, sir, not yet.

179

00:10:35,560 --> 00:10:37,560

Captain McDonald is here, sir. He has a man with him.

180

00:10:37,560 --> 00:10:39,560

Says you should see him immediately.

181

00:10:39,560 --> 00:10:46,560

Ah, well, all right. Bring him in.

182

00:10:46,560 --> 00:10:48,560

Yes, what is it?

183

00:10:48,560 --> 00:10:50,560

McDonald thought you'd like to hear this, sir.

184

00:10:50,560 --> 00:10:52,560

This is Al Waters, a rancher from upstate.

185

00:10:52,560 --> 00:10:55,560

He flew down from his ranch this morning and reported to the state police.

186

00:10:55,560 --> 00:10:56,560

They sent a dozer.

187

00:10:56,560 --> 00:10:57,560

The saucer?

188

00:10:57,560 --> 00:10:58,560

Yes, sir.

189

00:10:58,560 --> 00:11:00,560

Where is it, Mr. Waters? The wreck.

190

00:11:00,560 --> 00:11:02,560

Rack. I didn't see no wreck, Doug.

191

00:11:02,560 --> 00:11:03,560

What did you see?

192

00:11:03,560 --> 00:11:06,560

I seen a flying saucer come down about half a mile from a ranch house.

193

00:11:06,560 --> 00:11:09,560

Start this morning when I was going after a lost calf.

194

00:11:09,560 --> 00:11:11,560

He swears the saucer's undamaged, Dr. Branson.

195

00:11:11,560 --> 00:11:12,560

Huh.

196

00:11:12,560 --> 00:11:14,560

Well, it may not be the one we...

197

00:11:14,560 --> 00:11:16,560

You flew down, Mr. Waters?

198

00:11:16,560 --> 00:11:18,560

Yeah, got my own jet plane.

199

00:11:18,560 --> 00:11:21,560

Well, can you take me up with you to your ranch, I mean?

200

00:11:21,560 --> 00:11:22,560

Sure, care. I'm glad to.

201

00:11:22,560 --> 00:11:23,560

All right, we'll leave immediately.

202

00:11:23,560 --> 00:11:25,560

Scotty, you round up the crew, everyone.

203

00:11:25,560 --> 00:11:27,560

Have them load everything we need on the chance for us to big job.

204

00:11:27,560 --> 00:11:28,560

Uh, one can't expect you.

205

00:11:28,560 --> 00:11:30,560

Oh, give us two hours, sir. All right.

206

00:11:30,560 --> 00:11:33,560

Now, Mr. Waters, let's get to your ranch.

207

00:11:47,560 --> 00:11:49,560

There's the flying saucer, Doug.

208

00:11:49,560 --> 00:11:50,560

Where?

209

00:11:50,560 --> 00:11:53,560

See them two peaks? That plateau between them, you see it?

210

00:11:53,560 --> 00:11:55,560

There, now the sun's heated.

211

00:11:55,560 --> 00:11:57,560

It is undamaged.

212

00:11:57,560 --> 00:11:59,560

I'm putting her down.

213

00:11:59,560 --> 00:12:01,560

Did you see any signs of life, anything moving?

214

00:12:01,560 --> 00:12:03,560

No, sir. Of course, I didn't get too close.

215

00:12:03,560 --> 00:12:05,560

I might lary the thing.

216

00:12:05,560 --> 00:12:08,560

I understand. It's just as well you didn't.

217

00:12:08,560 --> 00:12:10,560

Hey, wait until she stops rolling, Doug.

218

00:12:10,560 --> 00:12:12,560

You're all excited, ain't you?

219

00:12:12,560 --> 00:12:15,560

I'm afraid so, even scientists get excited sometimes.

220

00:12:18,560 --> 00:12:20,560

There.

221

00:12:23,560 --> 00:12:24,560

Sure is big, ain't you?

222

00:12:24,560 --> 00:12:27,560

Yes, must be over 300 feet in diameter.

223

00:12:27,560 --> 00:12:28,560

Now, there's an alley.

224

00:12:28,560 --> 00:12:30,560

Hey, you ain't going in.

225

00:12:30,560 --> 00:12:33,560

Was that, uh, round door open when you first saw this?

226

00:12:33,560 --> 00:12:34,560

I don't know. I don't remember.

227

00:12:34,560 --> 00:12:36,560

If you're going in, Doug, I'm going with you.

228

00:12:36,560 --> 00:12:38,560

Well, thank you.

229

00:12:38,560 --> 00:12:40,560

You'll be safer there, too, of us. You ain't got a gun?

230

00:12:40,560 --> 00:12:43,560

Uh, no. I'm glad I got mine, then.

231

00:12:43,560 --> 00:12:46,560

Never can tell what you'll bump into.

232

00:12:46,560 --> 00:12:48,560

Don't you think you ought to wait for the rest of your game?

233

00:12:48,560 --> 00:12:50,560

I can't. I've got to see what's in there.

234

00:12:50,560 --> 00:12:52,560

Okay. Watch your head.

235

00:12:52,560 --> 00:12:53,560

Right.

236

00:12:53,560 --> 00:12:56,560

In the door is still closed. Let's open the lobin.

237

00:12:56,560 --> 00:12:58,560

Not well.

238

00:13:01,560 --> 00:13:03,560

Look at that.

239

00:13:03,560 --> 00:13:05,560

Sure looks complicated, don't it?

240

00:13:05,560 --> 00:13:07,560

This must be the control room.

241

00:13:07,560 --> 00:13:10,560

I can't wait to inspect that another door over there.

242

00:13:10,560 --> 00:13:13,560

Yes. You'd better stay here. Don't touch anything.

243

00:13:13,560 --> 00:13:15,560

I'll see if there's anyone still aboard.

244

00:13:15,560 --> 00:13:17,560

Okay, Doug. I'll keep your eyes open.

245

00:13:17,560 --> 00:13:20,560

A larger room. This must be the cruise quarters.

246

00:13:20,560 --> 00:13:23,560

There's no one here. Let's...

247

00:13:23,560 --> 00:13:26,560

What's that?

248

00:13:26,560 --> 00:13:29,560

I'll get it for a second.

249

00:13:29,560 --> 00:13:31,560

I'll take a look through.

250

00:13:31,560 --> 00:13:33,560

Irene.

251

00:13:33,560 --> 00:13:36,560

Irene, wake up. Wake up.

252

00:13:36,560 --> 00:13:38,560

I'm not going to touch anything.

253

00:13:38,560 --> 00:13:40,560

I'm not going to touch anything.

254

00:13:40,560 --> 00:13:42,560

I'm not going to touch anything.

255

00:13:42,560 --> 00:13:44,560

I'm not going to touch anything.

256

00:13:44,560 --> 00:13:46,560

Irene, wake up. Wake up.

257

00:13:46,560 --> 00:13:48,560

I'm conscious.

258

00:13:48,560 --> 00:13:50,560

Irene.

259

00:13:50,560 --> 00:13:53,560

Still unconscious. How did she get here?

260

00:13:53,560 --> 00:13:55,560

I've got to get back there.

261

00:13:57,560 --> 00:13:59,560

What... What is...

262

00:13:59,560 --> 00:14:01,560

What are you doing in that control board?

263

00:14:01,560 --> 00:14:05,560

If you look through the porthole, Dr. Bronson,

264

00:14:05,560 --> 00:14:09,560

you'll notice that we're miles up and still accelerating.

265

00:14:09,560 --> 00:14:13,560

We would have been higher if I hadn't to take such care with my takeoff.

266

00:14:13,560 --> 00:14:16,560

What is you crazy?

267

00:14:16,560 --> 00:14:18,560

Who are you?

268

00:14:18,560 --> 00:14:20,560

Or are you taking me?

269

00:14:20,560 --> 00:14:22,560

Us.

270

00:14:22,560 --> 00:14:25,560

You were right when you guessed that this is not the saucer you destroyed.

271

00:14:25,560 --> 00:14:27,560

It isn't.

272

00:14:27,560 --> 00:14:30,560

You were wrong when you said there was no crew on board.

273

00:14:30,560 --> 00:14:32,560

There is.

274

00:14:32,560 --> 00:14:35,560

You see, I am the crew.

275

00:14:44,560 --> 00:14:48,560

You should consider yourself very fortunate, Dr. Bronson.

276

00:14:48,560 --> 00:14:53,560

It's not everyone who can view the Earth from a distance of 100,000 miles.

277

00:14:53,560 --> 00:14:55,560

You've been put that gun away.

278

00:14:55,560 --> 00:14:57,560

Let me take care of Miss Hartness.

279

00:14:57,560 --> 00:15:00,560

I've already assured you there's nothing wrong with her.

280

00:15:00,560 --> 00:15:02,560

Merely an advanced soporific.

281

00:15:02,560 --> 00:15:04,560

She'll recover quickly.

282

00:15:04,560 --> 00:15:06,560

Act here she is now.

283

00:15:06,560 --> 00:15:09,560

Irene, stay where you are. He has it done.

284

00:15:09,560 --> 00:15:12,560

Where are we? How did I get here?

285

00:15:12,560 --> 00:15:15,560

I think you'd better sit down, Miss Hartness.

286

00:15:15,560 --> 00:15:17,560

Who's he?

287

00:15:17,560 --> 00:15:20,560

I don't know. He calls himself Waters.

288

00:15:20,560 --> 00:15:23,560

Where are we? I looked out of a porthole.

289

00:15:23,560 --> 00:15:27,560

Don't be frightened, Irene. We're on a flying saucer.

290

00:15:27,560 --> 00:15:29,560

A flying saucer?

291

00:15:29,560 --> 00:15:32,560

Yes. How did you get here?

292

00:15:32,560 --> 00:15:35,560

I don't know. I sent off the road.

293

00:15:35,560 --> 00:15:38,560

Got into the car and woke up here.

294

00:15:38,560 --> 00:15:40,560

One of my operatives.

295

00:15:40,560 --> 00:15:45,560

I shall now engage the automatic controls and the ship will fly itself until we get to the moon.

296

00:15:45,560 --> 00:15:46,560

The moon?

297

00:15:46,560 --> 00:15:48,560

Yes, that is our first stop.

298

00:15:48,560 --> 00:15:53,560

You see, first of this saucer is it would take a centuries to get to our ultimate destination.

299

00:15:53,560 --> 00:15:57,560

So we must transfer to a matter converter at our base on the moon

300

00:15:57,560 --> 00:16:00,560

and we shall be in core almost instantly.

301

00:16:00,560 --> 00:16:03,560

Core? What are you talking about?

302

00:16:03,560 --> 00:16:05,560

Perhaps a little explanation is due you.

303

00:16:05,560 --> 00:16:10,560

We core are the inhabitants of the solar system you know as Rigel.

304

00:16:10,560 --> 00:16:13,560

But that's 500 light years away.

305

00:16:13,560 --> 00:16:14,560

Exactly.

306

00:16:14,560 --> 00:16:21,560

Although the speed of what you earthmen have been pleased to call our flying saucers is approximately that of light,

307

00:16:21,560 --> 00:16:26,560

even that speed would entail a round trip of the thousands of miles.

308

00:16:26,560 --> 00:16:33,560

True, the core are almost immortal, but for efficiency's sake we set up a matter converter to flash us,

309

00:16:33,560 --> 00:16:39,560

or rather I should say our operatives, through space, instantaneously.

310

00:16:39,560 --> 00:16:42,560

Our base is on the dock side of the moon.

311

00:16:42,560 --> 00:16:45,560

From there we can't shift to the saucers.

312

00:16:45,560 --> 00:16:47,560

But why?

313

00:16:47,560 --> 00:16:50,560

Why are you so interested in earth?

314

00:16:50,560 --> 00:16:52,560

Why haven't you let us know?

315

00:16:52,560 --> 00:16:55,560

Sent representatives to the world count...

316

00:16:55,560 --> 00:16:58,560

One thing at a time, Dr. Browson.

317

00:16:58,560 --> 00:17:04,560

I see you partake of your pulp writer's suspicions that we intend to take over the earth.

318

00:17:04,560 --> 00:17:06,560

The truth is just the opposite.

319

00:17:06,560 --> 00:17:11,560

We want earth left strictly alone for our research.

320

00:17:11,560 --> 00:17:13,560

How can we believe that?

321

00:17:13,560 --> 00:17:15,560

The truth is self-explanatory.

322

00:17:15,560 --> 00:17:18,560

We've been visiting the earth for over 3,000 years.

323

00:17:18,560 --> 00:17:20,560

3,000 years?

324

00:17:20,560 --> 00:17:21,560

Yes, Ms. Hartness.

325

00:17:21,560 --> 00:17:23,560

But why?

326

00:17:23,560 --> 00:17:24,560

For what reason?

327

00:17:24,560 --> 00:17:25,560

A very simple reason.

328

00:17:25,560 --> 00:17:27,560

Our interests differ from yours.

329

00:17:27,560 --> 00:17:30,560

Without research we become bored.

330

00:17:30,560 --> 00:17:32,560

To spend eternity in boredom?

331

00:17:32,560 --> 00:17:37,560

Well, we are primarily psychologists, social psychologists.

332

00:17:37,560 --> 00:17:43,560

While you were engrossed in a mechanical civilization, of course we fostered that development.

333

00:17:43,560 --> 00:17:44,560

I still don't understand it.

334

00:17:44,560 --> 00:17:46,560

I didn't expect you to understand it.

335

00:17:46,560 --> 00:17:53,560

However, in every society there are certain problems, shall I say, which can only be solved experimentally.

336

00:17:53,560 --> 00:17:56,560

We have used you humans in our experiments.

337

00:17:56,560 --> 00:17:58,560

It's been extremely interesting.

338

00:17:58,560 --> 00:18:04,560

You mean you've been using us as guinea pigs as experimental animals?

339

00:18:04,560 --> 00:18:06,560

Do I put it that way, too?

340

00:18:06,560 --> 00:18:08,560

I still don't see how.

341

00:18:08,560 --> 00:18:10,560

Through our operatives.

342

00:18:10,560 --> 00:18:12,560

That's the third time you've mentioned operatives.

343

00:18:12,560 --> 00:18:13,560

What do you mean?

344

00:18:13,560 --> 00:18:15,560

We call them operatives.

345

00:18:15,560 --> 00:18:19,560

We core possess nobody, as you know it.

346

00:18:19,560 --> 00:18:21,560

We are constructed of energy.

347

00:18:21,560 --> 00:18:27,560

In order for us to visit Earth it was necessary for us to construct human bodies and to inhabit them.

348

00:18:27,560 --> 00:18:30,560

We, thereupon, had an operative who could go to work on Earth.

349

00:18:30,560 --> 00:18:31,560

You couldn't have gotten away with it.

350

00:18:31,560 --> 00:18:32,560

Someone must have suspected you.

351

00:18:32,560 --> 00:18:33,560

Exactly.

352

00:18:33,560 --> 00:18:35,560

There were a few suspiciously.

353

00:18:35,560 --> 00:18:43,560

So we took the memory of life on core away from our operatives and landed them on Earth, complete with an Earth history.

354

00:18:43,560 --> 00:18:46,560

You may remember Alexander.

355

00:18:46,560 --> 00:18:47,560

Alexander the Great.

356

00:18:47,560 --> 00:18:49,560

He was one of our operatives.

357

00:18:49,560 --> 00:18:50,560

And François Villon.

358

00:18:50,560 --> 00:18:56,560

His task was to satirize his time and to lead the unrest which brought on the French Revolution.

359

00:18:56,560 --> 00:18:58,560

There we had another Marat.

360

00:18:58,560 --> 00:19:00,560

Villon Marat.

361

00:19:00,560 --> 00:19:02,560

It's incredible, I'm sure.

362

00:19:02,560 --> 00:19:05,560

As one of your Earth men, Emerson said,

363

00:19:05,560 --> 00:19:09,560

an institution is the length and shadow of one man.

364

00:19:09,560 --> 00:19:15,560

We sought to it that the key men in each age were our operatives.

365

00:19:15,560 --> 00:19:20,560

The problems they set Earth gave our scientists much material to work with.

366

00:19:20,560 --> 00:19:23,560

Enough for another few thousand years.

367

00:19:23,560 --> 00:19:29,560

Then our inventions, our scientific advances were pushed on by you?

368

00:19:29,560 --> 00:19:33,560

Yes, like giving an ape a stick to see what he will do with it.

369

00:19:33,560 --> 00:19:37,560

Then our wars are revolution?

370

00:19:37,560 --> 00:19:40,560

Naturally wars and revolutions are part of the research.

371

00:19:40,560 --> 00:19:42,560

They're all part of the master plan.

372

00:19:42,560 --> 00:19:46,560

But don't forget, we foster genius too.

373

00:19:46,560 --> 00:19:49,560

Why are you telling us all this?

374

00:19:49,560 --> 00:19:52,560

Surely that must be clearly due to you.

375

00:19:52,560 --> 00:19:56,560

You are perhaps the leading scientist in America.

376

00:19:56,560 --> 00:20:03,560

Certainly the leading figure in the use of atomic power for extraterrestrial research, a key man.

377

00:20:03,560 --> 00:20:06,560

Doesn't that suggest something to you?

378

00:20:06,560 --> 00:20:09,560

No.

379

00:20:09,560 --> 00:20:11,560

I can't believe it.

380

00:20:11,560 --> 00:20:15,560

Certainly, my dear Bronson, you are one of our operatives.

381

00:20:15,560 --> 00:20:21,560

You've done your work, but your experiments have endangered our base on the moon.

382

00:20:21,560 --> 00:20:25,560

So it's time to transport you back to CORE.

383

00:20:25,560 --> 00:20:29,560

The signal, we are approaching our base.

384

00:20:29,560 --> 00:20:35,560

It will be a comfort to leave this unpleasant body and to resume my right path.

385

00:20:35,560 --> 00:20:38,560

Bronson, put down that hand.

386

00:20:43,560 --> 00:20:46,560

Here, here put this handchip over your nose, I'll eat.

387

00:20:46,560 --> 00:20:49,560

The gas will clear away in a moment.

388

00:20:54,560 --> 00:20:56,560

I think it's all right now.

389

00:20:56,560 --> 00:21:00,560

The full force was directed at this core.

390

00:21:00,560 --> 00:21:03,560

What was it?

391

00:21:03,560 --> 00:21:10,560

I had a gas pen in my vest, an idea which was originated after some of our scientists were kidnapped by the Eastern Alliance.

392

00:21:10,560 --> 00:21:13,560

I never thought I'd have to use it on something like this.

393

00:21:13,560 --> 00:21:15,560

Did he? Did he hit you?

394

00:21:15,560 --> 00:21:18,560

No, no, I'm merely unconscious for a few minutes. The gas is harmless.

395

00:21:18,560 --> 00:21:22,560

See if we can find something to put around his hands and feet while I see if I can operate the controls.

396

00:21:22,560 --> 00:21:24,560

We've got to get back to Earth.

397

00:21:24,560 --> 00:21:25,560

All right, Andrew.

398

00:21:25,560 --> 00:21:28,560

They won't believe our story, but they'll have to believe this ship.

399

00:21:28,560 --> 00:21:30,560

I can't find anything to use.

400

00:21:30,560 --> 00:21:31,560

You'd better hurry.

401

00:21:31,560 --> 00:21:33,560

All right, I...

402

00:21:33,560 --> 00:21:35,560

Andrew.

403

00:21:35,560 --> 00:21:37,560

What is it? We haven't much time...

404

00:21:37,560 --> 00:21:39,560

I thought you said the gas was harmless.

405

00:21:39,560 --> 00:21:40,560

Of course it is.

406

00:21:40,560 --> 00:21:42,560

But this man isn't unconscious, he's dead.

407

00:21:42,560 --> 00:21:43,560

Dead?

408

00:21:43,560 --> 00:21:47,560

There's no pulse, no breathing, no heartbeat, and room.

409

00:21:47,560 --> 00:21:49,560

Now get hold of yourself.

410

00:21:49,560 --> 00:21:51,560

I don't know how that...

411

00:21:51,560 --> 00:21:54,560

There was his life for hours, I'm in now.

412

00:21:54,560 --> 00:22:01,560

I neglected to inform you that the core of the upper grades can leave his body as he pleases.

413

00:22:01,560 --> 00:22:05,560

I see that I underestimated you, Dr. Bronson.

414

00:22:05,560 --> 00:22:11,560

You saw immediately that my weakest point was the human body of which I complained.

415

00:22:11,560 --> 00:22:13,560

Very clever.

416

00:22:13,560 --> 00:22:15,560

I...

417

00:22:15,560 --> 00:22:18,560

I... I can't move.

418

00:22:18,560 --> 00:22:21,560

I need no futile arms and hands in this form.

419

00:22:21,560 --> 00:22:26,560

A core carries power, for a core is power.

420

00:22:26,560 --> 00:22:31,560

I... I take it you will read us some of our bodies too.

421

00:22:31,560 --> 00:22:32,560

Precisely.

422

00:22:32,560 --> 00:22:34,560

Isn't there anything...

423

00:22:34,560 --> 00:22:37,560

If it comes to the dead, you can make us forget.

424

00:22:37,560 --> 00:22:39,560

Unfortunately the matter is out of my hands.

425

00:22:39,560 --> 00:22:42,560

My orders were to recall two operatives.

426

00:22:42,560 --> 00:22:43,560

Two?

427

00:22:43,560 --> 00:22:44,560

Yes.

428

00:22:44,560 --> 00:22:52,560

Miss Hartness was a psychometrist in her previous, shall I call it, incarnation.

429

00:22:52,560 --> 00:22:57,560

An excellent one too, Draga, for Eileen as you're now called.

430

00:22:57,560 --> 00:23:00,560

But this is inhuman, precisely.

431

00:23:00,560 --> 00:23:02,560

I am not human.

432

00:23:02,560 --> 00:23:04,560

But I mean go, I'll go with you gladly, but I'll be...

433

00:23:04,560 --> 00:23:07,560

No Andrew, take me instead.

434

00:23:07,560 --> 00:23:10,560

The answer is the same for both of you.

435

00:23:10,560 --> 00:23:11,560

No.

436

00:23:11,560 --> 00:23:14,560

What kind of things I do?

437

00:23:14,560 --> 00:23:16,560

Isn't there one of you with pity?

438

00:23:16,560 --> 00:23:22,560

Just one who knows what we fear, who... who's helped the agony of the millions, you've made your guinea pigs.

439

00:23:22,560 --> 00:23:23,560

You're speaking of sympathy?

440

00:23:23,560 --> 00:23:24,560

No.

441

00:23:24,560 --> 00:23:27,560

I guess, yes, I stand corrected.

442

00:23:27,560 --> 00:23:30,560

There was one of Core who felt that strange emotion.

443

00:23:30,560 --> 00:23:31,560

Carter.

444

00:23:31,560 --> 00:23:34,560

An odd being, is I recall?

445

00:23:34,560 --> 00:23:36,560

And I suppose you killed him.

446

00:23:36,560 --> 00:23:37,560

No.

447

00:23:37,560 --> 00:23:40,560

A core being energy cannot be destroyed.

448

00:23:40,560 --> 00:23:43,560

We captured Carter and exiled him to your planet.

449

00:23:43,560 --> 00:23:46,560

An enormous task he was one of our greatest scientists.

450

00:23:46,560 --> 00:23:49,560

That makes it all the more strange, you see.

451

00:23:49,560 --> 00:23:52,560

He wished to stop our experiment.

452

00:23:52,560 --> 00:23:58,560

We lost track of him, but no matter the unfit must go, that is the paramount law of nature.

453

00:23:58,560 --> 00:24:00,560

Enough of these digressions, it is time.

454

00:24:00,560 --> 00:24:01,560

Please let me say goodbye.

455

00:24:01,560 --> 00:24:06,560

A little time must elapse before I can build up the energy to free you of your body.

456

00:24:06,560 --> 00:24:08,560

You may have the time.

457

00:24:08,560 --> 00:24:09,560

Besides, it is a new experience to me.

458

00:24:09,560 --> 00:24:10,560

Most interesting.

459

00:24:10,560 --> 00:24:16,560

Eileen, darling, it's too late now, but I want you to know I love you.

460

00:24:16,560 --> 00:24:19,560

I've loved you ever since you walked into my office three years ago.

461

00:24:19,560 --> 00:24:20,560

And I love you, Andrew.

462

00:24:20,560 --> 00:24:21,560

I always have.

463

00:24:21,560 --> 00:24:22,560

I always will.

464

00:24:22,560 --> 00:24:23,560

I'm very touching.

465

00:24:23,560 --> 00:24:28,560

Don't be afraid, my darling.

466

00:24:28,560 --> 00:24:32,560

This touching of lip to lip, very interesting.

467

00:24:32,560 --> 00:24:34,560

Energy is undoubtedly transmitted.

468

00:24:34,560 --> 00:24:37,560

Very well, Dr. Bronson, it is time.

469

00:24:37,560 --> 00:24:38,560

Take me first.

470

00:24:38,560 --> 00:24:46,560

Let him go.

471

00:24:46,560 --> 00:24:47,560

Andrew.

472

00:24:47,560 --> 00:24:50,560

Your emotion is senseless.

473

00:24:50,560 --> 00:24:53,560

I'm merely returning the two of you to your true being.

474

00:24:53,560 --> 00:24:58,560

Oh, Andrew, my darling, my darling.

475

00:24:58,560 --> 00:25:01,560

So this is your odd emotion called love.

476

00:25:01,560 --> 00:25:04,560

This should make an interesting report, a minor report.

477

00:25:04,560 --> 00:25:12,560

True, but you have done your work, oh, look, Andrew.

478

00:25:12,560 --> 00:25:17,560

You have done your work too well.

479

00:25:17,560 --> 00:25:19,560

You are not the operative I was sent for?

480

00:25:19,560 --> 00:25:21,560

No.

481

00:25:21,560 --> 00:25:33,560

I am carder at last, but now with two centuries of power, power I learned on Earth.

482

00:25:33,560 --> 00:25:38,560

There is no core who can withstand me now.

483

00:25:38,560 --> 00:25:41,560

No.

484

00:25:41,560 --> 00:25:47,560

Sympathy is the ability to feel what others feel.

485

00:25:47,560 --> 00:25:50,560

How do you feel now, Loker?

486

00:25:50,560 --> 00:25:56,560

I don't understand unscientific.

487

00:25:56,560 --> 00:25:58,560

Unscientific.

488

00:25:58,560 --> 00:26:00,560

No.

489

00:26:00,560 --> 00:26:02,560

Say mercy.

490

00:26:02,560 --> 00:26:06,560

Say it unscientific.

491

00:26:06,560 --> 00:26:08,560

Mercy.

492

00:26:08,560 --> 00:26:10,560

Mercy.

493

00:26:10,560 --> 00:26:14,560

There shall be changes on call.

494

00:26:14,560 --> 00:26:20,560

We must leave Earth alone to work out its destiny in its own way.

495

00:26:20,560 --> 00:26:25,560

Now go to the converter and await me there.

496

00:26:25,560 --> 00:26:28,560

Drugger.

497

00:26:28,560 --> 00:26:30,560

Mylene.

498

00:26:30,560 --> 00:26:31,560

Andrew, I...

499

00:26:31,560 --> 00:26:33,560

Don't be afraid.

500

00:26:33,560 --> 00:26:36,560

The transition is painless.

501

00:26:36,560 --> 00:26:40,560

It is so much for us to do on call, so much to teach you.

502

00:26:40,560 --> 00:26:43,560

Andrew, I...I can't...

503

00:26:43,560 --> 00:26:44,560

I'm so frightened.

504

00:26:44,560 --> 00:26:46,560

Don't be me.

505

00:26:46,560 --> 00:26:49,560

Your power will soon be with me.

506

00:26:49,560 --> 00:26:53,560

For you too are core.

507

00:26:53,560 --> 00:27:00,560

What those fools didn't know would rep emotion too is power.

508

00:27:00,560 --> 00:27:07,560

For love than mine, we can right the wrongs core has done to Earth.

509

00:27:07,560 --> 00:27:13,560

There is eternity for both of us to spend together.

510

00:27:13,560 --> 00:27:18,560

I'm in...Drugger.

511

00:27:18,560 --> 00:27:21,560

I'm ready.

512

00:27:21,560 --> 00:27:23,560

My darling.

513

00:27:23,560 --> 00:27:25,560

Now.

514

00:27:25,560 --> 00:27:28,560

And forever.

515

00:27:30,560 --> 00:27:35,560

Mylene.
