

1

00:00:00,000 --> 00:00:06,000

I'm Eddison Eddison, I'm tapering in Alberta.

2

00:00:06,000 --> 00:00:13,000

When I was fixing the highway and the highway number C, I'd taken a girl out to the driving,

3

00:00:13,000 --> 00:00:16,000

and I'd taken her home, and I didn't want to go see that.

4

00:00:16,000 --> 00:00:20,000

So I went to the mess, I decided to take her to the church.

5

00:00:20,000 --> 00:00:25,000

It's longer, but at least then you don't have to go to the mess.

6

00:00:25,000 --> 00:00:31,000

I was going down the road, and when I noticed that I got half way down,

7

00:00:31,000 --> 00:00:37,000

I looked and I was looking at my gauge for the temperature.

8

00:00:37,000 --> 00:00:42,000

It was climbing, it was climbing right over to hard.

9

00:00:42,000 --> 00:00:45,000

I couldn't figure it out because it's never done it before.

10

00:00:45,000 --> 00:00:50,000

So I was gathering a few of those guys back there and shut her off,

11

00:00:50,000 --> 00:00:52,000

and then it collapsed and just flew out and looked and I was like,

12

00:00:52,000 --> 00:00:55,000

I was going to go back to the hood and see if I got a water or something.

13

00:00:55,000 --> 00:01:01,000

So I put a window out and I would just pin the trunk off,

14

00:01:01,000 --> 00:01:04,000

and I was going to reach down into the handle and open the door,

15

00:01:04,000 --> 00:01:11,000

and I looked at the window and that's when I first found it was a view of light being light to it.

16

00:01:11,000 --> 00:01:18,000

I don't really know how long it was, but I could see the top of the window and I have a door shaped to it.

17

00:01:18,000 --> 00:01:26,000

I was already a little bit plain at the time, and it sort of faded out and I got a steady beep-beep sound.

18

00:01:26,000 --> 00:01:32,000

And so, getting a funny feeling, I was scared, I think, and I went from the east down to the turnabout.

19

00:01:32,000 --> 00:01:38,000

I only looked at it in a couple of seconds and I looked back and I found the window, whatever was there was gone.

20

00:01:38,000 --> 00:01:42,000

It must have been going into many speakers.

21

00:01:42,000 --> 00:01:45,000

Anything else, we don't have time to read that fast.

22

00:01:45,000 --> 00:01:50,000

You could see the top of it.

23

00:01:50,000 --> 00:01:55,000

Could you give me any idea how far the edges were or the sides?

24

00:01:55,000 --> 00:02:00,000

I think it was about the size of my cap and I found a bump with a tuck to the back of the cap.

25

00:02:00,000 --> 00:02:08,000

And it was about six feet high, because I could see the top of it, I couldn't see the side to the bottom.

26

00:02:08,000 --> 00:02:13,000

And it was further moving back and forth to the back.

27

00:02:13,000 --> 00:02:16,000

It was off the ground a little bit, you know, moving there.

28

00:02:16,000 --> 00:02:20,000

Just trying to stay in that one spot.

29

00:02:20,000 --> 00:02:22,000

I started moving around to the back.

30

00:02:22,000 --> 00:02:27,000

The other one was a bit further up.

31

00:02:27,000 --> 00:02:32,000

I could see the top pretty good.

32

00:02:32,000 --> 00:02:40,000

And I couldn't really see the sides because I was too far back in the seat and the tuck there was

closed.

33

00:02:40,000 --> 00:02:44,000

I couldn't see the bottom and I had the window close to the train.

34

00:02:44,000 --> 00:02:49,000

This was, seems good morning, was the phone light on?

35

00:02:49,000 --> 00:02:50,000

Yes.

36

00:02:50,000 --> 00:02:53,000

And the one moon at night, I think it was the phone?

37

00:02:53,000 --> 00:02:55,000

Yes, there was a moon at night.

38

00:02:55,000 --> 00:02:59,000

So this thing, the phone light was flashing off, but it was going with the phone.

39

00:02:59,000 --> 00:03:00,000

The phone was on the moonlit?

40

00:03:00,000 --> 00:03:02,000

Yes, and it turned to light.

41

00:03:02,000 --> 00:03:04,000

It was going with the phone light.

42

00:03:04,000 --> 00:03:07,000

How tall do you think it was, to your truck?

43

00:03:07,000 --> 00:03:09,000

Well, I fired up in the window.

44

00:03:09,000 --> 00:03:11,000

I think I could have touched it.

45

00:03:11,000 --> 00:03:17,000

It was about three feet from my door, I think, because it looked real close.

46

00:03:17,000 --> 00:03:22,000

This, I think, had a higher back compared with the moonlight and brightness.

47

00:03:22,000 --> 00:03:25,000

Because you were 11, it was brighter than me.

48

00:03:25,000 --> 00:03:26,000

I see.

49

00:03:26,000 --> 00:03:29,000

Now, you spoke to your truck over here.

50

00:03:29,000 --> 00:03:31,000

Has it ever done that thing?

51

00:03:31,000 --> 00:03:33,000

No, it hasn't.

52

00:03:33,000 --> 00:03:36,000

You see, you couldn't see the signs of the reedges.

53

00:03:36,000 --> 00:03:41,000

They just pop, uh, slope off and all toward the signs, it was at level.

54

00:03:41,000 --> 00:03:45,000

It looks like it, both sides sort of slope down at an angle.

55

00:03:45,000 --> 00:03:51,000

So it's like it's, you know, a plate, so to speak.

56

00:03:51,000 --> 00:03:56,000

Do you have any feelings, whether it's being frightened or,

57

00:03:56,000 --> 00:03:59,000

or you shouldn't put words in your mouth, how does it feel?

58

00:03:59,000 --> 00:04:00,000

Well, I was scared.

59

00:04:00,000 --> 00:04:08,000

I didn't notice any reactions from it, you know, like, you know, heating up, you know, hot, hot, or something.

60

00:04:08,000 --> 00:04:10,000

I was just scared.

61

00:04:10,000 --> 00:04:17,000

I never did feel sick after these accounts, but I did feel bad for a week after.

62

00:04:17,000 --> 00:04:25,000

Especially as one that I had a dream that would be, I'd get out of truck and they took me away.

63

00:04:25,000 --> 00:04:29,000

You know, I was, you know, that's when I woke up.

64

00:04:29,000 --> 00:04:32,000

I was sort of sweating, you know.

65

00:04:32,000 --> 00:04:36,000

I could tell, I was just sparing all night from the dream.

66

00:04:36,000 --> 00:04:38,000

It just sort of scared me.

67

00:04:38,000 --> 00:04:40,000

But I did dream about it every week though.

68

00:04:40,000 --> 00:04:42,000

I mean, every day.

69

00:04:42,000 --> 00:04:44,000

Thank you very much.
