

1

00:00:00,000 --> 00:00:07,000

We had, just like we would have read the routine call, if a guy comes into the office and says,

2

00:00:07,000 --> 00:00:11,000

I've been robbed, it's my duty to believe that he's been robbed, to investigate as

3

00:00:11,000 --> 00:00:12,000

soon as we can.

4

00:00:12,000 --> 00:00:18,000

All we could do is go to the scene and interview these men and really stay with these men and

5

00:00:18,000 --> 00:00:24,000

observe them and question them, I mean to a full extent.

6

00:00:24,000 --> 00:00:30,000

If we had no time, could we, their thoughts would have been the same, we're going to leave them separately

7

00:00:30,000 --> 00:00:36,000

and before, and then we'll put them together, and we're going to their conversation.

8

00:00:36,000 --> 00:00:40,000

I believe the men stopped on the scale, like I said already, I don't know why.
