1

00:00:00,000 --> 00:00:16,000

Hello. Hello. Oh, yeah. Hello, Marlon Toy. I was startled to hear your call direct. I

2

00:00:16,000 --> 00:00:28,000

didn't recognize it. Yeah. Yeah, just a second. Hello, Payne. Oh, yeah, you picked that up.

3

00:00:29,000 --> 00:00:45,000

That's just fine. Yeah, do you want to wait on that moment? Okay, Payne, now the visual is opening up.

4

00:00:46,000 --> 00:01:02,000

Yeah, will you bring it over a little left side seems to be kind of vague. No, that still hasn't got it.

5

00:01:02,000 --> 00:01:14,000

My left leg is getting hot. Yeah, now the visual is clear. Yeah, can you bring that temperature down?

6

00:01:14,000 --> 00:01:27,000

I can notice that. Yeah. Now you're centered now. No, very good. Yeah, now you're coming in. I can see you.

7

00:01:28,000 --> 00:01:44,000

You're loud enough. Very clear. Yeah, Marlon Toy was calling there. Do you want to make that contact through?

8

00:01:45,000 --> 00:02:04,000

Okay. Yeah. Hey, wait a minute. No, I got. No, I got it. All right. Does that read all that pain?

9

00:02:05,000 --> 00:02:09,000

Okay, but I feel kind of funny.

10

00:02:14,000 --> 00:02:19,000

Now I get the terrific tingling all over. More unusual.

11

00:02:19,000 --> 00:02:35,000

Okay, I'm clear. No, hold on. I got hung up on my body here somewhere.

12

00:02:36,000 --> 00:02:46,000

First time I ever got caught in myself. All right. Yeah. Okay, I'm clear.

13

00:02:47,000 --> 00:02:57,000

From the station out there and greetings to you there.

14

00:02:58,000 --> 00:03:26,000

I am Marlon Toy. Over a year of your time passed, we informed you that the nuclear and atomic tests conducted on the surface of your planet

15

00:03:26,000 --> 00:03:41,000

would cause earthquakes upon the opposite side of the globe from the past.

16

00:03:41,000 --> 00:04:04,000

The recent Philippines and Chinese damages were direct results of repercussions from tests conducted in your western state.

17

00:04:05,000 --> 00:04:20,000

Violence shots throughout the Mediterranean and African areas will follow.

18

00:04:21,000 --> 00:04:35,000

Rebound will bring about severe shots in your country following.

19

00:04:36,000 --> 00:04:54,000

The surface atmospheric changes will be apparent on your side of the planet.

20

00:04:55,000 --> 00:05:10,000

From out there, I love Marlon Toy discontinued. Yeah, yeah, thanks Marlon Toy.

21

00:05:11,000 --> 00:05:17,000

Oh, I'm getting quick fella. Yeah, pain, what'd you say?

22

00:05:17,000 --> 00:05:30,000

Oh, yeah. Well, break through there if you want to. Everything's fine here.

23

00:05:31,000 --> 00:05:41,000

Visual's okay. I don't know what makes that funny feeling. Does it show anything there on the atlas?

24

00:05:41,000 --> 00:05:54,000

Well, it's sure different, but it may be something local. Okay, as long as that shows okay.

25

00:05:54,000 --> 00:06:07,000

Yeah, to the personnel aboard, I'll turn and we'll use and send our grateful appreciation and love and return to them.

26

00:06:07,000 --> 00:06:18,000

Okay, pain. Well, alright. Yeah, I'll raise my arms up if you want.

27

00:06:18,000 --> 00:06:28,000

I'm sitting straight up. Oh, well, I might have been leaning a little to one side. Okay.

28

00:06:28,000 --> 00:06:41,000

Hello, Corton. Yeah. Yeah, you can release that pain.

29

00:06:41,000 --> 00:06:49,000

What's cooking as new, Corton?

30

00:06:49,000 --> 00:06:57,000

Well, wait a minute, wait a minute, wait a minute, wait a minute, you're going too fast and besides that stuff is interesting.

31

00:06:57,000 --> 00:07:06,000

Are you set for a break through there? Oh, I'll just hop out anytime, yeah.

32

00:07:06,000 --> 00:07:15,000

That's right. Yeah, we're recording as you know.

33

00:07:15,000 --> 00:07:28,000

Yeah. No, it feels good. Everything's alright. I don't seem to get that funny tingle I had there with the playoff contact.

34

00:07:28,000 --> 00:07:40,000

Are you listening pain? Well, I don't get it with Corton, so you check there and see if you can tell what the thing is.

35

00:07:40,000 --> 00:07:56,000

Yeah, it's, no, it's perfect here. Okay, Corton, I'm clear.

36

00:07:56,000 --> 00:08:11,000

From WQ9 Convoy, from SRWQ9 Convoy, I am Corton.

37

00:08:11,000 --> 00:08:37,000

We have reinforced our plea near your surface with additional nullifiers. No, it's getting too hot. No, break it back. Yeah.

38

00:08:37,000 --> 00:08:54,000

Oh, no, I can see the steam. I don't know, maybe I got parboiled. Yeah, well, you better drop it there because that's too much.

39

00:08:54,000 --> 00:09:05,000

Well, your man started to break back there before I could hardly get the words out. I don't know what happened. Is that a local condition?

40

00:09:05,000 --> 00:09:17,000

I mean, is there radiation from this last, last yesterday or is there something different here? I never felt that before.

41

00:09:17,000 --> 00:09:30,000

What is that? Who's that calling? Oh, hello, Newt. You're running tests there, huh?

42

00:09:30,000 --> 00:09:43,000

Well, fellow, I'll appreciate it if you can find out what's going on because that, that was awful. No, it seemed like I was starting to cook from the inside out.

43

00:09:43,000 --> 00:09:56,000

Why'd you say pain? Well, look, wait a minute, you guys. I can only answer one at a time. That's all right, Corton.

44

00:09:56,000 --> 00:10:10,000

Well, break back then and call it off. Well, that's your decision and you know what you're doing. Yeah, pain, what'd you say?

45

00:10:10,000 --> 00:10:23,000

No, it seems good all right now, but it just seemed to build up. Well, Corton caught it out in control there just before I could hardly say anything.

46

00:10:23,000 --> 00:10:42,000

What is your show? Well, I can see the Abileth, everything seems to be normal air. Well, that Rodeland line is about where it normally is.

47

00:10:42,000 --> 00:11:00,000

No, I can't hear any buzzing, can you? No, I can't hear it. Is that what Newt's picking up? Well, let's go ahead as long as you've got everything there in front of you.

48

00:11:00,000 --> 00:11:24,000

That's fine, yeah. Hello, Deskett. Yeah, they kind of miss you around here. Oh, that'll be fine, fella. Yeah, that's okay, Alpaine. Okay, I'm clear.

49

00:11:24,000 --> 00:11:49,000

No, that's okay. Well, you got me hopping in and out here, I don't know what I'm in and what I'm out. I don't feel anything on it. Well, you just keep a check. I'll yell if anything goes wrong down here. Okay, okay.

50

00:11:54,000 --> 00:12:18,000

My love, I'm Deskett. The way we have been operating has not been exactly to my choice, but it was essential going to instability there.

51

00:12:18,000 --> 00:12:47,000

We have been recording much from the latest news on your surface, and I shall advance this information to you in regard to recent further violation of the laws.

52

00:12:49,000 --> 00:13:14,000

Of the universal. You might term this title, you have better yet you are committing adultery.

53

00:13:15,000 --> 00:13:18,000

As most of you know the

54

00:13:22,000 --> 00:13:24,000

Ten Commandments State,

55

00:13:25,000 --> 00:13:28,000

thou shall not commit adultery.

56

00:13:30,000 --> 00:13:52,000

In the twisting of words and meanings, this has come to be believed as the violation of marriage laws.

57

00:13:55,000 --> 00:14:03,000

Marriage laws of human civil writing.

58

00:14:07,000 --> 00:14:13,000

This law should have read, thou shall not commit delusion.

59

00:14:16,000 --> 00:14:21,000

The adulteration of anything is the mixing of anything else with it.

60

00:14:24,000 --> 00:14:40,000

Your propaganda machines all have carried headlines and writings upon the new polio vaccine.

61

00:14:41,000 --> 00:15:03,000

This is no different than others. Whatever it be that is injected into the bloodstream is delusion, and violation of the commandment, thou shall not adulterate thyself.

62

00:15:04,000 --> 00:15:11,000

The blood is the life of the physical body.

63

00:15:12,000 --> 00:15:33,000

Adulteration of that blood changes the frequency, the vibratory rate, and can be the cause of obsession.

64

00:15:34,000 --> 00:15:44,000

Mental failure and nerve failure.

65

00:15:45,000 --> 00:16:04,000

The blood is the result of a series of chemical, electrical changes in the laboratory of the body.

66

00:16:05,000 --> 00:16:31,000

Sudden additions of anything to the bloodstream may, in many cases, bring about a prevention of some particular virus,

67

00:16:32,000 --> 00:16:45,000

or electrochemical reaction, but every cause has an effect.

68

00:16:45,000 --> 00:17:14,000

And the effect of injections of any chemical into the bloodstream will sooner or later cause reactions that will be of a more deadly potential than the effect of any chemical.

69

00:17:16,000 --> 00:17:41,000

The original disease could have been if these vaccines could be assimilated very gradually over a long period of time.

70

00:17:42,000 --> 00:17:50,000

The body chemistry could adjust itself to them.

71

00:17:50,000 --> 00:18:19,000

These new polio vaccine have not been sufficiently tested for a period of time that would determine conditions that will be apparent.

72

00:18:20,000 --> 00:18:43,000

The ignorance in medicine upon the end is in assuming that every individual responds equally to the same application.

73

00:18:43,000 --> 00:18:54,000

This will be proven in many ways.

74

00:18:55,000 --> 00:19:20,000

The present formula for polio vaccine will cause an increase in heart failure, tuberculosis, spinal meningitis, and trapsia,

75

00:19:21,000 --> 00:19:27,000

and other numerous kidney ailments.

76

00:19:27,000 --> 00:19:39,000

And in the long run, we'll bring about an unbalanced mental condition.

77

00:19:39,000 --> 00:19:45,000

Little can I add to these words.

78

00:19:45,000 --> 00:19:59,000

Little do the scientists in medicine realize what they are doing.

79

00:20:00,000 --> 00:20:10,000

The law reads, thou shalt not abhorrate thyself.

80

00:20:10,000 --> 00:20:25,000

I do not hope that this message will correct the condition where ignorance prevails.

81

00:20:25,000 --> 00:20:44,000

It has been pleasant to return to the omnibene to all of you there, my everlasting love and basket.

82

00:20:45,000 --> 00:21:00,000

No pain, it seems to be wearing off or wearing in or something.

83

00:21:00,000 --> 00:21:03,000

Maybe I'm becoming adulterated with it.

84

00:21:03,000 --> 00:21:10,000

You can grin and ask it, but it sure feels funny.

85

00:21:11,000 --> 00:21:15,000

Yeah?

86

00:21:15,000 --> 00:21:22,000

Well, I don't know.

87

00:21:22,000 --> 00:21:26,000

Hello, yeah.

88

00:21:26,000 --> 00:21:29,000

Oh, yeah, pain.

89

00:21:29,000 --> 00:21:37,000

No, I got a call in here and decided that everything was okay.

90

00:21:37,000 --> 00:21:43,000

Well, sure, let's go on through there. As far as I'm concerned, it's all right.

91

00:21:43,000 --> 00:21:49,000

It's just a funny feeling.

92

00:21:49,000 --> 00:21:54,000

Yeah?

93

00:21:54,000 --> 00:21:57,000

That'll be fine, yeah.

94

00:21:57,000 --> 00:22:01,000

Okay.

95

00:22:01,000 --> 00:22:05,000

Yeah, I'm clear.

96

00:22:05,000 --> 00:22:11,000

Greetings from the Vila Sector Center, I am Holder.

97

00:22:11,000 --> 00:22:22,000

We have increased the number of our ships around Shand,

98

00:22:22,000 --> 00:22:33,000

owing to a critical condition that we shall not tell you about at this time.

99

00:22:33,000 --> 00:22:36,000

Hello, hello.

100

00:22:36,000 --> 00:22:38,000

I don't know where he went.

101

00:22:38,000 --> 00:22:43,000

No, that's all right, pain.

102

00:22:43,000 --> 00:22:48,000

Well, that's one of those things, I guess.

103

00:22:48,000 --> 00:22:53,000

No, I don't know, maybe the thing I'm talking about myself.

104

00:22:53,000 --> 00:23:02,000

You know, it's sure nice to have Desperé give us the data on that.

105

00:23:02,000 --> 00:23:07,000

Yeah, pain.

106

00:23:07,000 --> 00:23:12,000

Okay, break through there again then.

107

00:23:12,000 --> 00:23:16,000

Yeah, hello, Holder.

108

00:23:16,000 --> 00:23:22,000

I didn't know what was going on. Newt said he flashed you that our tape was running off

109

00:23:22,000 --> 00:23:29,000

and told you to stop and then you stopped and I didn't know what you're stopping for.

110

00:23:29,000 --> 00:23:33,000

Okay.

111

00:23:33,000 --> 00:23:40,000

Yeah, I'll get clear and you come on back.

112

00:23:40,000 --> 00:23:44,000

Holder here again.

113

00:23:44,000 --> 00:23:57,000

We are moving the station out and over a place where

114

00:23:57,000 --> 00:24:10,000

another nation is about to conduct several tests.

115

00:24:10,000 --> 00:24:19,000

Our instrumentation indicates that we shall certainly nullify one of them.

116

00:24:19,000 --> 00:24:26,000

From the Vila Sector Center, I am Holder, discontinued.

117

00:24:26,000 --> 00:24:29,000

Yeah, pain.

118

00:24:29,000 --> 00:24:36,000

I don't know, I just feel like I'm just bouncing all around between the stars.

119

00:24:36,000 --> 00:24:39,000

Yeah.

120

00:24:39,000 --> 00:24:42,000

Hello, Stepus.

121

00:24:42,000 --> 00:24:47,000

Oh, you're just going through, huh?

122

00:24:47,000 --> 00:24:56,000

Well, that'll be fine. Yeah, this is Saturday. Yeah, I'll figure it out.

123

00:24:56,000 --> 00:25:01,000

That'll be there.

124

00:25:01,000 --> 00:25:07,000

Oh, that'll be wonderful pain.

125

00:25:07,000 --> 00:25:19,000

No, I'd like to talk to this fellow tomorrow again too, when he comes anytime you can fix that.

126

00:25:19,000 --> 00:25:26,000

Okay, fellow, that's your reading there. Why, so long and thanks for the data.

127

00:25:26,000 --> 00:25:34,000

And will you extend our love and greetings to the Center there at playoff

128

00:25:34,000 --> 00:25:43,000

and relay it through to the Council of Twelve Lords and the Council of Seven Lights?

129

00:25:43,000 --> 00:25:46,000

Right, fellow.

130

00:25:46,000 --> 00:25:48,000

Okay, so long.
