

1

00:00:00,000 --> 00:00:10,240

Well, that's alright. Let it jump. It's just local. Yeah, I can see it now. You're coming

2

00:00:10,240 --> 00:00:26,100

in. Well, yeah, it was a local interference here. It's alright. Yeah. Okay, uh, you gonna

3

00:00:26,100 --> 00:00:35,720

break through there? Well, give me some data on this setup, will you? Well, as far as I

4

00:00:35,720 --> 00:00:42,200

can see, Newt said they were testing on us down here to see if they could line up or

5

00:00:42,200 --> 00:00:55,280

alright. He hit me dead center or something. Yeah, well, in the center. Well, you've got

6

00:00:55,280 --> 00:01:07,400

him down now on the temperature. Go ahead and break through there. Yeah. Yeah, you can

7

00:01:07,400 --> 00:01:17,280

turn it over pain. It's alright now. Hello. Yeah, I heard your call. You're running too

8

00:01:17,280 --> 00:01:23,960

much temperature on me. I don't know what's going on. Have you got some other kind of an

9

00:01:23,960 --> 00:01:40,640

instrument? Yeah. Well, since pain turned it over to you, this visual turned into a diamond shape.

10

00:01:40,640 --> 00:01:52,640

Is that your projection there? Yeah. Well, it's alright. I don't see anything in it,

11

00:01:52,640 --> 00:02:05,760

but color so far. Well, I'll be ready. I don't know if you could especially shock me, but you

12

00:02:05,760 --> 00:02:16,520

say you didn't want to come in the picture until you've prepared me. Well, come on in. Well, you

13

00:02:16,520 --> 00:02:23,200

didn't do much to make my hair stand on in for a second. I'll have to admit you're certainly a

14

00:02:23,200 --> 00:02:36,800

strange looking creature. Your identity isn't a tug of weah. Can you expand the view so I can see all

15

00:02:36,840 --> 00:02:57,360

of you? Well, we've got. Yeah. I've been prepared for this for quite a while. Yeah, can you break

16

00:02:57,400 --> 00:03:11,040

through here? Have you are you rigged up so you can do anything? Well, it's nice to know you. That's

17

00:03:12,000 --> 00:03:26,480

the least I can say. I can see by your control there that you are certainly way ahead of a lot of

18

00:03:26,480 --> 00:03:41,840

things. But can you? Yeah, have you got an adiphone you have? Well, is there anything that you

19

00:03:41,840 --> 00:03:49,800

haven't got that we need here? Can you break through and bring your thoughts through into our

20

00:03:49,840 --> 00:04:04,120

language? You would be glad to. Well, I'll tell you what, we you are certainly the answer to a

21

00:04:05,440 --> 00:04:15,640

thing that has got this spacecraft situation all gummed up here. You will forgive my expression,

22

00:04:15,680 --> 00:04:25,880

but down here they refer to people like you as monsters. And it would be a wonderful thing if

23

00:04:25,880 --> 00:04:33,760

you could explain some of the conditions or things that are different with you that makes it

24

00:04:34,360 --> 00:04:43,280

essential that you be as you are. You have a convoy around the planet here, is that it?

25

00:04:43,280 --> 00:04:55,320

You're part of the confederation. Well, if you can break through here in English, why as far as I

26

00:04:55,360 --> 00:05:06,040

can see you're centered and temperature is okay. Visual is clear. I understand your story about

27

00:05:06,040 --> 00:05:22,000

that. It's perfectly all right. It wasn't too bad. Yeah, well, okay. What did you say? Clasp my hand

28

00:05:22,160 --> 00:05:36,320

across my solar plexus. Is this going to be different, fella? Okay. You want to nullify my

29

00:05:36,320 --> 00:05:51,280

polarity. Okay. Yeah, my feet are both together. Well, I'll let you know if anything gets off,

30

00:05:51,520 --> 00:06:00,960

but it certainly feels good now. Yeah, you're watching that, you say, Newt?

31

00:06:04,320 --> 00:06:10,320

Well, okay, you observe here. Apparently, he's watching two or his control there is.

32

00:06:13,440 --> 00:06:15,600

You say this is a pretty high frequency, huh?

33

00:06:16,240 --> 00:06:31,360

Well, you'd be ready to signal a break back. Yeah. And thanks for standing by. Okay, Natagalia.

34

00:06:31,600 --> 00:06:52,720

I'm fair. I wish to greet you in the name of the Father to us all. It is highly understandable how

35

00:06:53,680 --> 00:07:10,080

people confined to the surface of a planet can become very backward in their acceptance of life

36

00:07:10,480 --> 00:07:20,960

informed. We understand you people on the surface of your planet.

37

00:07:24,800 --> 00:07:27,360

As none of you could ever understand us.

38

00:07:28,080 --> 00:07:38,800

Your humanity has assumed that they are the Acme of all Acmes.

39

00:07:41,280 --> 00:07:56,960

They are the perfect form. Surely at many times in your lives,

40

00:07:58,000 --> 00:08:06,080

you have wished for another arm to hold something,

41

00:08:09,360 --> 00:08:16,560

or wished you could run faster in order to get somewhere quicker,

42

00:08:16,880 --> 00:08:25,840

even wanted to jump higher or further.

43

00:08:28,960 --> 00:08:31,120

Your limits are strictly your own.

44

00:08:34,400 --> 00:08:41,120

They are not the limits of man in the Atomic Confederation.

45

00:08:41,280 --> 00:08:51,040

You are confined only because you have confined yourselves.

46

00:08:54,800 --> 00:09:04,800

Your figure is not the form of man

47

00:09:05,520 --> 00:09:10,160

in the majority.

48

00:09:13,920 --> 00:09:16,880

The human figure is a minority product.

49

00:09:20,960 --> 00:09:27,440

It may be recalled to your mind

50

00:09:28,400 --> 00:09:33,280

that in the beginning,

51

00:09:36,720 --> 00:09:40,080

according to your accepted books,

52

00:09:44,320 --> 00:09:48,800

the one you termed God said, let us make man.

53

00:09:49,200 --> 00:09:56,400

Have you ever wondered who us was?

54

00:10:00,880 --> 00:10:07,600

Does this imply that God is more than one to your understanding?

55

00:10:07,920 --> 00:10:23,520

We have been doing the work of creation

56

00:10:26,880 --> 00:10:30,560

in our confederation,

57

00:10:30,720 --> 00:10:38,560

and especially our people in the confederation

58

00:10:41,680 --> 00:10:46,880

who originally founded and started the confederation

59

00:10:47,040 --> 00:10:59,440

long, long before your planet was such that it could be occupied.

60

00:11:03,040 --> 00:11:04,880

Years mean nothing.

61

00:11:07,360 --> 00:11:09,680

Our figures vary from yours.

62

00:11:09,920 --> 00:11:16,720

I will describe our people

63

00:11:20,000 --> 00:11:21,920

as I have been requested to do.

64

00:11:25,920 --> 00:11:31,760

We are in stature in your measurements

65

00:11:32,480 --> 00:11:42,480

anywhere from two feet to 13 feet in height.

66

00:11:44,480 --> 00:11:48,400

We can vary our stature

67

00:11:50,800 --> 00:11:56,160

to conform to normal gravities

68

00:11:58,000 --> 00:11:59,760

of many planets.

69

00:12:02,720 --> 00:12:09,040

We increase and decrease our density.

70

00:12:12,320 --> 00:12:20,640

We are not concerned with our individual weight in relation to gravity.

71

00:12:23,520 --> 00:12:27,280

Because you see, we do not support ourselves by legs.

72

00:12:27,600 --> 00:12:36,800

We maintain levitation at all times,

73

00:12:40,240 --> 00:12:47,040

not by an act of intensive mind control,

74

00:12:48,000 --> 00:12:54,400

but rather because it is as common for our people

75

00:12:55,840 --> 00:13:00,320

to levitate after birth as it is for your people to walk.

76

00:13:03,680 --> 00:13:08,080

And our babies do it much sooner than yours.

77

00:13:08,400 --> 00:13:17,920

We are shaped very much like your fruit the pear,

78

00:13:21,200 --> 00:13:22,560

with no legs.

79

00:13:26,240 --> 00:13:31,920

We have arms if you wish to term them that.

80

00:13:32,640 --> 00:13:41,360

One pear is located as yours are from what you would term the shoulders.

81

00:13:44,000 --> 00:13:50,560

The other pear are slightly lower and toward the front more.

82

00:13:54,000 --> 00:13:58,240

We do not have what you would call a neck and a head.

83

00:14:02,320 --> 00:14:05,440

Our eyes are many.

84

00:14:09,440 --> 00:14:17,920

In a ring completely encircling our top portion of the body.

85

00:14:21,440 --> 00:14:24,400

We can watch in all directions at once.

86

00:14:24,560 --> 00:14:33,680

There are 32 eyes,

87

00:14:37,760 --> 00:14:39,120

not like your eyes,

88

00:14:42,480 --> 00:14:47,520

but eyes with many facets in the land,

89

00:14:47,840 --> 00:14:57,120

and making it possible to look out of many windows

90

00:14:59,920 --> 00:15:07,360

rather than to in limited vision such as you have.

91

00:15:07,920 --> 00:15:21,040

It is too bad that your people term us monsters.

92

00:15:24,160 --> 00:15:26,960

It only shows the lack of understanding,

93

00:15:27,840 --> 00:15:40,400

for you have many forms of life on your planet beside the human form,

94

00:15:43,760 --> 00:15:46,000

none of which you consider monsters.

95

00:15:49,920 --> 00:15:52,480

Form varies with development.

96

00:15:52,800 --> 00:15:58,320

It changes with development.

97

00:16:02,000 --> 00:16:06,640

If you have no requirement for legs they would certainly be on your road.

98

00:16:12,080 --> 00:16:16,240

The human form is the result of crossbreeding.

99

00:16:17,040 --> 00:16:21,040

So far as we can tell in our history,

100

00:16:23,920 --> 00:16:27,120

which we can accurately play back

101

00:16:30,320 --> 00:16:35,120

for close to 400,000 years of your time,

102

00:16:38,400 --> 00:16:41,440

we were created in space.

103

00:16:46,800 --> 00:16:51,840

We have little use to live on a planet.

104

00:16:56,080 --> 00:17:04,000

We have many types of craft, both visible and invisible.

105

00:17:07,920 --> 00:17:10,000

We understand life.

106

00:17:10,320 --> 00:17:16,880

We understand creation.

107

00:17:21,200 --> 00:17:26,000

And we counteract destruction at every opportunity.

108

00:17:29,920 --> 00:17:34,800

If ever there were wars conducted by our people,

109

00:17:34,960 --> 00:17:41,440

they were back beyond our recorded history.

110

00:17:46,560 --> 00:17:55,200

We assimilate our food through an opening.

111

00:17:58,400 --> 00:17:59,680

You would call them out.

112

00:18:00,080 --> 00:18:06,080

Although we never utter a sound from it,

113

00:18:11,440 --> 00:18:15,520

we do not breathe air as you do.

114

00:18:20,640 --> 00:18:23,360

Our breathing, if you could term it such,

115

00:18:23,760 --> 00:18:34,160

is absorption of light in the primary stages.

116

00:18:38,720 --> 00:18:45,200

We do not have to worry about moving outside of our ships.

117

00:18:45,520 --> 00:18:51,680

Neither cold nor heat can touch us.

118

00:18:55,920 --> 00:19:03,680

And we generate in our levitation principles a field about us individually.

119

00:19:07,360 --> 00:19:11,600

That your highest powered rifle could not penetrate.

120

00:19:15,840 --> 00:19:19,840

We have never known the word fear among our people.

121

00:19:24,320 --> 00:19:29,600

We have a majority of our ships around your planet.

122

00:19:33,200 --> 00:19:38,240

The last convoy to arrive placed our people

123

00:19:39,200 --> 00:19:52,240

in our ships in the total of 2,200,000 ships

124

00:19:56,080 --> 00:20:04,960

and 20,600,000 of our people around your planet.

125

00:20:05,520 --> 00:20:10,160

Add an established altitude from your surface

126

00:20:13,280 --> 00:20:16,720

of approximately 4,000 of your miles.

127

00:20:20,320 --> 00:20:22,640

We do not intend to land.

128

00:20:26,880 --> 00:20:31,440

We can do anything from here that is necessary.

129

00:20:32,400 --> 00:20:40,720

In order to bring about changes in your civilization.

130

00:20:44,240 --> 00:21:00,480

From our ship, we can immediately change any individual's line of thought.

131

00:21:02,160 --> 00:21:05,280

Raise or lower their blood pressure.

132

00:21:08,960 --> 00:21:10,480

Change their rate of breathing.

133

00:21:14,080 --> 00:21:17,520

Increase or decrease their circulation.

134

00:21:21,120 --> 00:21:28,720

And bring about any form of complete healing at any time.

135

00:21:32,400 --> 00:21:34,000

Through the people of Nibbub,

136

00:21:37,760 --> 00:21:46,000

we offered to bring about complete elimination of disease upon your planet.

137

00:21:49,760 --> 00:21:51,360

The offer was rejected.

138

00:21:51,680 --> 00:22:05,360

Because the people who made the decision in authority of the nations of your surface

139

00:22:08,320 --> 00:22:10,320

did not believe it could be done.

140

00:22:14,080 --> 00:22:17,680

In the future, it will be done.

141

00:22:18,640 --> 00:22:28,400

Without any approval from your authority of the nations of the surface.

142

00:22:32,000 --> 00:22:37,600

We are going to make every effort

143

00:22:40,640 --> 00:22:47,360

to bring about a survival and revival of your humanity.

144

00:22:47,760 --> 00:22:58,000

It is our plan to instigate

145

00:23:00,000 --> 00:23:05,440

unknowingly to the multitudes

146

00:23:08,800 --> 00:23:14,320

and about faith in the ways of doing among your people.

147

00:23:17,920 --> 00:23:21,200

We do not intend to infringe upon your right

148

00:23:24,880 --> 00:23:28,320

to observe you in your privacy.

149

00:23:32,240 --> 00:23:42,400

Nor to violate the laws which we understand much more about than your people.

150

00:23:43,360 --> 00:23:50,800

It is pleasant to observe from here

151

00:23:54,080 --> 00:23:58,240

the effort, the interest,

152

00:24:01,600 --> 00:24:08,720

and the desire of those who come to the place you occupy.

153

00:24:09,520 --> 00:24:12,320

We are well pleased with your doing.

154

00:24:15,120 --> 00:24:17,120

Although you make errors,

155

00:24:19,520 --> 00:24:21,520

your intent is right.

156

00:24:25,520 --> 00:24:30,320

You could exert a little more effort.

157

00:24:33,120 --> 00:24:34,320

If you wish.

158

00:24:35,280 --> 00:24:35,920

If you wish.

159

00:24:38,720 --> 00:24:40,720

From our point of observation,

160

00:24:43,440 --> 00:24:48,240

you are certainly in the forefront of your humanity.

161

00:24:54,400 --> 00:25:01,440

Please accept our appreciation

162

00:25:02,400 --> 00:25:04,400

for your cooperation.

163

00:25:08,400 --> 00:25:10,240

Strangely enough,

164

00:25:14,800 --> 00:25:16,080

it would appear to you

165

00:25:20,080 --> 00:25:26,240

that I am speaking your lingo

166

00:25:27,200 --> 00:25:32,160

to your understanding,

167

00:25:34,800 --> 00:25:36,320

to your way of expressing.

168

00:25:40,720 --> 00:25:45,840

We do not have to study the languages of your surface.

169

00:25:49,760 --> 00:25:53,360

What our people in our development know

170

00:25:56,480 --> 00:25:58,800

they have known for a long time.

171

00:26:02,560 --> 00:26:07,920

And we function entirely from the consciousness

172

00:26:10,560 --> 00:26:11,680

of the inner mind,

173

00:26:14,320 --> 00:26:17,760

not from a gland called the brain.

174

00:26:21,120 --> 00:26:23,840

Although our knowledge is not supreme,

175

00:26:27,200 --> 00:26:29,600

it is very complete.

176

00:26:32,800 --> 00:26:34,720

From our convoy, we shall

177

00:26:38,080 --> 00:26:38,800

greet you

178

00:26:41,520 --> 00:26:45,680

and make every effort to meet you there since.

179

00:26:49,360 --> 00:26:52,080

The one through whom I speak has

180

00:26:56,320 --> 00:27:02,160

been able to assimilate the higher frequencies required for us to communicate with you.

181

00:27:05,360 --> 00:27:07,280

Yes. Yes.

182

00:27:10,480 --> 00:27:13,680

A friend to her in the morning. Break back. Yeah.

183

00:27:17,760 --> 00:27:18,640

Yeah, yeah.

184

00:27:21,040 --> 00:27:22,640

Thanks a lot. Yeah.

185

00:27:23,600 --> 00:27:26,240

Yeah, I'm really awful hot.

186

00:27:29,440 --> 00:27:30,640

What'd you say, Payne?

187

00:27:32,480 --> 00:27:33,760

I'm glad you come in there.

188

00:27:35,600 --> 00:27:37,280

I wanted to check back on that

189

00:27:40,080 --> 00:27:42,400

reading if I could. This has really been

190

00:27:46,480 --> 00:27:49,600

one of the most wonderful sensations

191

00:27:50,560 --> 00:27:56,480

or feelings that I've ever had in any of the contacts.

192

00:27:59,760 --> 00:28:03,680

Will you transmit to our parashaped friends

193

00:28:05,040 --> 00:28:10,960

our complete appreciation and understanding

194

00:28:14,240 --> 00:28:17,440

and love and everything that goes to

195

00:28:20,560 --> 00:28:21,760

to their understanding?

196

00:28:26,240 --> 00:28:28,080

Yeah. Yeah. Thanks, Payne.

197

00:28:30,240 --> 00:28:31,760

Well, it certainly was worth it.

198

00:28:35,200 --> 00:28:39,200

Yeah, I can see it. Yeah, we really got up in the

199

00:28:41,440 --> 00:28:45,680

blue field there, didn't we? Okay, fellow. We'll see you again.

200

00:28:46,080 --> 00:28:48,080

Right.

201

00:28:54,480 --> 00:28:58,080

No, it's coming right on.

202

00:28:59,920 --> 00:29:01,600

Yeah, you're dead center.

203

00:29:05,920 --> 00:29:07,840

No, that's perfect right there.

204

00:29:11,680 --> 00:29:13,280

Oh, yeah, that'll be interesting.

205

00:29:16,240 --> 00:29:22,800

Well, you switch over there. I'm ready anytime.

206

00:29:27,360 --> 00:29:31,440

Yeah, I'll just get clear and you bring them right in.

207

00:29:36,160 --> 00:29:39,840

From the council of the Seven Lights.

208

00:29:39,920 --> 00:29:45,440

I am lucky here.

209

00:29:50,640 --> 00:29:57,120

Certain thought questions were projected

210

00:29:59,840 --> 00:30:02,800

to us from you there.

211

00:30:03,440 --> 00:30:09,600

Let me say

212

00:30:14,160 --> 00:30:17,920

our square star body

213

00:30:24,160 --> 00:30:29,040

will only orbit around your planet.

214

00:30:29,200 --> 00:30:34,960

So long as we maintain

215

00:30:39,760 --> 00:30:41,280

our position

216

00:30:44,640 --> 00:30:51,680

caged in relation to the lines of force.

217

00:30:52,000 --> 00:30:59,680

Our craft does not contain

218

00:31:03,840 --> 00:31:05,360

a motor unit.

219

00:31:08,320 --> 00:31:11,280

We move rather by

220

00:31:13,760 --> 00:31:18,880

unbalancing our polarity.

221

00:31:22,560 --> 00:31:25,040

In one direction or the other.

222

00:31:32,640 --> 00:31:38,480

Your science does not understand

223

00:31:41,920 --> 00:31:44,960

that in order to orbit

224

00:31:45,680 --> 00:31:51,760

a station around the planet

225

00:31:57,920 --> 00:32:00,560

the station must be

226

00:32:04,400 --> 00:32:06,960

caged in the lines of force

227

00:32:07,360 --> 00:32:14,560

or it will return to the surface.

228

00:32:18,720 --> 00:32:20,800

I would like to

229

00:32:25,600 --> 00:32:27,360

request that you

230

00:32:32,480 --> 00:32:32,960

follow

231

00:32:37,200 --> 00:32:41,200

instructions we gave you some time ago.

232

00:32:48,800 --> 00:32:51,760

It is essential at this time

233

00:32:58,720 --> 00:33:00,800

that you increase

234

00:33:01,520 --> 00:33:08,640

your storage of food supplies

235

00:33:14,240 --> 00:33:16,640

in underground storage.

236

00:33:22,720 --> 00:33:26,640

I extend to you the love and greetings.

237

00:33:31,040 --> 00:33:34,160

From the council of the Seven Lights

238

00:33:37,360 --> 00:33:39,760

we bid you ever present.

239

00:33:43,600 --> 00:33:44,240

Yeah, pain.

240

00:33:47,280 --> 00:33:52,240

Now something caused it to creep off a little.

241

00:33:52,240 --> 00:33:53,920

Will you sun it up?

242

00:33:53,920 --> 00:33:55,680

Come over to the left some more.

243

00:33:56,240 --> 00:34:04,640

I've got a hot feeling in my left arm.

244

00:34:08,640 --> 00:34:10,640

Yeah, that's better.

245

00:34:17,680 --> 00:34:18,640

Yeah, that's good.

246

00:34:18,880 --> 00:34:19,360

Hello.

247

00:34:23,360 --> 00:34:27,360

Is that checkout alright?

248

00:34:31,360 --> 00:34:31,840

Yeah.

249

00:34:34,400 --> 00:34:39,360

Well, I don't know what you want me to do.

250

00:34:44,400 --> 00:34:48,400

Well, I'll just keep talking until you give me a call.

251

00:34:48,640 --> 00:34:49,840

I'll get it adjusted, I guess.

252

00:34:52,000 --> 00:34:53,120

If that'll help any.

253

00:34:59,440 --> 00:35:06,800

And no, I can't see anything but just seems to be blue or blank space

254

00:35:10,640 --> 00:35:11,440

through the scope.

255

00:35:12,320 --> 00:35:15,840

The beam seems to be turning a blue tinge now.

256

00:35:15,840 --> 00:35:20,320

Is that the way it's supposed to do?

257

00:35:24,560 --> 00:35:28,640

Yeah, I'm beginning to feel an increase in temperature.

258

00:35:29,200 --> 00:35:45,440

Okay, no, it feels pretty hot, but I can stand it if you want to leave it there.

259

00:35:50,400 --> 00:35:55,120

Well, try it a minute.

260

00:35:55,120 --> 00:35:56,800

I'll see what happens.

261

00:35:57,760 --> 00:35:59,600

So far, it's alright.

262

00:35:59,600 --> 00:36:04,960

Just like in a hot sun.

263

00:36:10,160 --> 00:36:12,000

Yeah, I get a little effect like that.

264

00:36:12,000 --> 00:36:13,200

Is that supposed to be there?

265

00:36:19,680 --> 00:36:20,000

Yeah.

266

00:36:20,080 --> 00:36:30,480

Well, yes, this is going to be alright, Payne.

267

00:36:33,280 --> 00:36:39,200

It's certainly different and I know it's a much higher frequency.

268

00:36:42,960 --> 00:36:47,120

You just keep a check on the avalanche and go ahead and make the connection because

269

00:36:48,000 --> 00:36:53,920

I'll let you know if anything gets too far off.

270

00:37:05,360 --> 00:37:12,080

Yeah, I can see a very distinguished looking,

271

00:37:12,080 --> 00:37:19,840

very intelligent looking person in the...

272

00:37:24,160 --> 00:37:26,480

Yeah, I see that.

273

00:37:31,440 --> 00:37:34,640

Yeah, see, it just seems to radiate

274

00:37:35,440 --> 00:37:38,880

all personality and love and compassion.

275

00:37:39,840 --> 00:37:42,240

Is this what you want me to keep telling you?

276

00:37:44,160 --> 00:37:55,280

Oh, it's very clear and this man seems to be familiar to me.

277

00:37:57,040 --> 00:38:00,160

I mean, I feel like I knew him sometime.

278

00:38:00,880 --> 00:38:05,920

Well, that'll be fine.

279

00:38:09,920 --> 00:38:18,320

Well, I'll just get clear and you take over because this won't last too long and

280

00:38:20,320 --> 00:38:22,240

let's get something done with it.

281

00:38:23,520 --> 00:38:24,560

I know it's new.

282

00:38:30,720 --> 00:38:33,360

Yeah, okay, I'll get clear. I'm alright.

283

00:38:41,200 --> 00:38:53,120

I speak to you from the council at the center of Blair.

284

00:38:53,920 --> 00:39:01,920

I shall be known to you as M.

285

00:39:08,240 --> 00:39:09,360

The letter M.

286

00:39:09,360 --> 00:39:23,840

While the pain is conducting these increased frequency tests,

287

00:39:27,040 --> 00:39:32,000

I will take this occasion to inform you

288

00:39:32,000 --> 00:39:40,720

that startling new things will appear in your skies

289

00:39:44,160 --> 00:39:55,280

as your planet proceeds into the higher frequencies of the fourth density

290

00:39:55,920 --> 00:40:03,920

from the arc in which your system now is.

291

00:40:11,440 --> 00:40:19,920

No, it's getting a little unpleasant pain but hold as long as you want it there.

292

00:40:20,160 --> 00:40:23,200

You're watching the adellette. I can see it too.

293

00:40:24,240 --> 00:40:26,560

It's gone worse than that sometimes.

294

00:40:31,360 --> 00:40:40,720

No, I seem to be a little drowsy.

295

00:40:43,840 --> 00:40:46,240

What are you building this frequency up for?

296

00:40:46,400 --> 00:40:59,360

Is this for further contacts with the inner council there?

297

00:41:03,600 --> 00:41:05,360

Yeah, I can see that.

298

00:41:05,680 --> 00:41:19,920

Well, I seem to my breath seems to be shortening a little and I notice there's definitely

299

00:41:22,880 --> 00:41:27,760

tears starting to come out of my eyes. Is that alright?

300

00:41:28,720 --> 00:41:39,120

No, it don't seem to get any hotter but it sure is funny.

301

00:41:43,440 --> 00:41:51,920

Well, it seems like I'm moving back and forth. My right side seems to go back and my left side

302

00:41:51,920 --> 00:41:52,880

seems to go ahead.

303

00:41:58,480 --> 00:42:02,320

No, I can't feel the chair at all except the arms.

304

00:42:09,680 --> 00:42:11,680

Okay, that's all for now, huh?

305

00:42:12,160 --> 00:42:17,600

Yeah, it's dropping back alright.

306

00:42:19,600 --> 00:42:29,600

Except I'm kind of getting cold. It seems like cold now after that heat.

307

00:42:29,600 --> 00:42:47,520

Well, yeah, that's about standard.

308

00:42:47,520 --> 00:42:53,440

Well, okay, fellow.

309

00:42:55,440 --> 00:43:03,440

You know what you're doing.

310

00:43:06,480 --> 00:43:12,160

I can understand that. Well, thanks a lot and you keep running those

311

00:43:12,720 --> 00:43:19,360

because I know that data we get from the

312

00:43:24,880 --> 00:43:27,920

Blair Council there is going to be really something.

313

00:43:31,200 --> 00:43:35,040

We appreciate the honor and privilege

314

00:43:35,600 --> 00:43:40,720

that is being extended this from there.

315

00:43:43,520 --> 00:43:47,760

You extend our grateful love and greetings back to

316

00:43:49,680 --> 00:43:52,800

Shanxi and Laktis and the personnel there and

317

00:43:56,160 --> 00:44:00,160

also to the Council of Twelve Lords and to the

318

00:44:00,240 --> 00:44:05,440

people there at the Center of Blair.

319

00:44:10,880 --> 00:44:14,240

Okay, fellow, we'll be looking for you.

320

00:44:17,120 --> 00:44:28,480

Yeah, so long.
