

1

00:00:00,000 --> 00:00:07,000

The following is a lecture entitled Coming World Changes,

2

00:00:07,000 --> 00:00:09,840

delivered by George Hunt Williamson,

3

00:00:09,840 --> 00:00:14,200

research coordinator of the Monarch Research Center.

4

00:00:14,200 --> 00:00:18,160

This organization publishes a printed quarterly document

5

00:00:18,160 --> 00:00:21,840

containing harmony and vital UFO news

6

00:00:21,840 --> 00:00:24,000

and reports to worldwide research

7

00:00:24,000 --> 00:00:26,480

in interstellar communication.

8

00:00:26,480 --> 00:00:36,160

I'm pleased to be in the city of Cleveland,

9

00:00:36,160 --> 00:00:39,680

and I'd like to thank the Copy Center

10

00:00:39,680 --> 00:00:43,560

and all the other people who are responsible for making

11

00:00:43,560 --> 00:00:47,320

it possible for me to be here this evening.

12

00:00:47,320 --> 00:00:48,840

I'd also like to thank all of you

13

00:00:48,840 --> 00:00:51,760

who turned out so well for this meeting,

14

00:00:51,760 --> 00:00:54,080

because we couldn't have had the meeting with us

15

00:00:54,080 --> 00:00:56,320

until being present.

16

00:00:56,320 --> 00:00:58,440

It's a great privilege and honor to speak to you

17

00:00:58,440 --> 00:01:01,280

on the subject of flying saucers.

18

00:01:01,280 --> 00:01:04,080

I feel that I have been very fortunate,

19

00:01:04,080 --> 00:01:07,160

because I have been a witness to tools

20

00:01:07,160 --> 00:01:10,880

of the most outstanding happenings in the soccer field

21

00:01:10,880 --> 00:01:12,480

today.

22

00:01:12,480 --> 00:01:16,440

First of all, in August of 1952, I

23

00:01:16,440 --> 00:01:19,600

was present when our research group in Northern Arizona

24

00:01:19,600 --> 00:01:22,920

made contact with the disk for flying saucers

25

00:01:22,920 --> 00:01:26,720

by radio shortwave or radio telegrams.

26

00:01:26,720 --> 00:01:30,640

Then again, in the same year in November 1952,

27

00:01:30,640 --> 00:01:34,000

I was present with George Adamsky on the desert

28

00:01:34,000 --> 00:01:36,320

in the desert center of California,

29

00:01:36,320 --> 00:01:40,280

when he made his memorable meeting with the Venusian,

30

00:01:40,280 --> 00:01:44,760

and I took the class to town later that same day.

31

00:01:44,760 --> 00:01:47,880

I don't feel that some people came here to hear my opinion,

32

00:01:47,880 --> 00:01:51,960

because they had an opinion of only one man.

33

00:01:51,960 --> 00:01:56,400

But I do feel that my experiences are important,

34

00:01:56,400 --> 00:01:58,920

because the flying saucers are coming from outer space,

35

00:01:58,920 --> 00:02:01,640

which I firmly believe they are.

36

00:02:01,640 --> 00:02:03,360

Then the fact that they're coming to Earth

37

00:02:03,360 --> 00:02:06,440

is going to affect the life of every man, woman, and child

38

00:02:06,440 --> 00:02:09,520

who is speaking, and indeed affect the life

39

00:02:09,520 --> 00:02:13,360

of every individual in our world.

40

00:02:13,360 --> 00:02:16,560

I don't feel it really matters very much whether you

41

00:02:16,560 --> 00:02:20,000

personally believe what I have to tell you to speak in or not.

42

00:02:20,040 --> 00:02:23,280

I feel that we should let time be the judge of that.

43

00:02:23,280 --> 00:02:27,120

As Bacon said, truth is the daughter of time, not

44

00:02:27,120 --> 00:02:28,960

of authority.

45

00:02:28,960 --> 00:02:30,800

Truth will stand and will live.

46

00:02:30,800 --> 00:02:33,840

Falsehood can not stand and will die.

47

00:02:33,840 --> 00:02:37,560

Therefore, let time decide the fullness of my words

48

00:02:37,560 --> 00:02:39,840

through the truth.

49

00:02:39,840 --> 00:02:43,600

I only hope that my experiences will awaken a sense of

50

00:02:43,600 --> 00:02:48,200

watchfulness within you, that you will look up to the stars

51

00:02:48,200 --> 00:02:51,000

and ponder many things.

52

00:02:51,000 --> 00:02:53,680

Now, for the benefit of those who haven't read my book

53

00:02:53,680 --> 00:02:57,160

or who haven't heard me speak before very briefly,

54

00:02:57,160 --> 00:03:00,520

I would like to run down the various experiences

55

00:03:00,520 --> 00:03:06,040

and tell you how I was interested in flying saucers.

56

00:03:06,040 --> 00:03:08,280

Well, it was through studying in the American Indians.

57

00:03:08,280 --> 00:03:13,280

Now, Indians sound like a farce tribe who's flying saucers.

58

00:03:13,280 --> 00:03:17,160

In 1950 and 1951, I was in Minnesota,

59

00:03:17,200 --> 00:03:19,680

working with a couple of Indians, gathering

60

00:03:19,680 --> 00:03:21,840

legends that had never been gathered before

61

00:03:21,840 --> 00:03:24,200

amongst these people.

62

00:03:24,200 --> 00:03:26,760

Many of these legends sounded like flying saucers,

63

00:03:26,760 --> 00:03:30,200

but I didn't pay any attention to them at the time.

64

00:03:30,200 --> 00:03:32,940

Going up to Minnesota, I had purchased major Donald

65

00:03:32,940 --> 00:03:37,080

Seahors flying saucers are real.

66

00:03:37,080 --> 00:03:38,240

I never did rent a book.

67

00:03:38,240 --> 00:03:42,600

I purchased it in the bus station on their way up to Minnesota.

68

00:03:42,600 --> 00:03:44,920

One link it was raining, and I couldn't get out

69

00:03:44,920 --> 00:03:46,520

to do any fieldwork.

70

00:03:46,520 --> 00:03:49,560

So I picked up the book and started to read it.

71

00:03:49,560 --> 00:03:53,000

Well, when I finished it, I thought, well, here's a man

72

00:03:53,000 --> 00:03:56,800

who has been in the aircraft field for many, many years,

73

00:03:56,800 --> 00:03:59,240

almost since the conception.

74

00:03:59,240 --> 00:04:02,240

After investigating it, then he was very skeptical.

75

00:04:02,240 --> 00:04:04,840

Of course, we know that they heard me nothing wrong

76

00:04:04,840 --> 00:04:06,360

with good, healthy skepticism.

77

00:04:07,920 --> 00:04:09,800

After all, I was very, very skeptical.

78

00:04:09,800 --> 00:04:12,760

Perhaps some of you are tonight about flying saucers

79

00:04:12,760 --> 00:04:15,120

when I started in this investigation.

80

00:04:16,520 --> 00:04:20,360

But I felt here the man who has proven to himself

81

00:04:20,360 --> 00:04:22,680

that there's many others that flying saucers are from

82

00:04:22,680 --> 00:04:25,600

other states after this thorough investigation,

83

00:04:25,600 --> 00:04:27,000

spending many months on it.

84

00:04:28,560 --> 00:04:31,720

Then all of a sudden, many of the legends that I had collected

85

00:04:31,720 --> 00:04:33,120

began to fall in place.

86

00:04:34,320 --> 00:04:37,440

I thought, well, if flying saucers certainly had been seen

87

00:04:37,440 --> 00:04:42,440

long before 1947, between for centuries evidently.

88

00:04:43,440 --> 00:04:47,160

Now, on further investigation, my wife's helping me.

89

00:04:47,160 --> 00:04:49,680

We found that not only the Chippewas, but Indians,

90

00:04:49,680 --> 00:04:52,040

all over America, have the same legend.

91

00:04:53,120 --> 00:04:55,960

And on investigating further, we found that so-called

92

00:04:55,960 --> 00:04:59,720

primitive peoples all over the world have stories

93

00:04:59,720 --> 00:05:01,800

that sound like flying saucers.

94

00:05:01,800 --> 00:05:04,160

It ain't that they called them fire circles.

95

00:05:04,160 --> 00:05:06,240

It ain't the flying boats.

96

00:05:06,240 --> 00:05:08,920

In America, they called them the Chippewas, for instance,

97

00:05:08,960 --> 00:05:11,680

they called them the Gin-Guin, or the Wills

98

00:05:11,680 --> 00:05:14,400

that Rumble the Earth, or flying wheels.

99

00:05:14,400 --> 00:05:18,440

But now the whole of the Chippewas called them flying boats.

100

00:05:18,440 --> 00:05:21,600

Little people, they're the flying boats, and so on.

101

00:05:21,600 --> 00:05:25,360

Now, in every case, if any contact was made with these

102

00:05:25,360 --> 00:05:28,440

fire circles or flying saucers,

103

00:05:28,440 --> 00:05:30,800

why they always gave words of wisdom and so on

104

00:05:30,800 --> 00:05:33,200

to the people, that is apparent in all the legends.

105

00:05:35,240 --> 00:05:37,160

Well, I came back to Arizona,

106

00:05:37,200 --> 00:05:39,600

and a friend of mine from Winflow came down.

107

00:05:40,680 --> 00:05:42,360

I told him some of my legends.

108

00:05:44,200 --> 00:05:46,360

I didn't say anything about saucers.

109

00:05:46,360 --> 00:05:47,720

Well, after he'd read us to him, he said,

110

00:05:47,720 --> 00:05:49,680

well, what were you doing up there anyway?

111

00:05:49,680 --> 00:05:51,600

It sounds like flying saucers to me.

112

00:05:51,600 --> 00:05:53,760

They said in the news quite a bit lately.

113

00:05:53,760 --> 00:05:57,240

I said, yes, it does sound like that, doesn't it?

114

00:05:57,240 --> 00:05:58,440

He said, I wonder what they are.

115

00:05:58,440 --> 00:06:00,840

And I said, well, I have no idea.

116

00:06:00,840 --> 00:06:02,360

As a man named Major G. Holm,

117

00:06:02,360 --> 00:06:05,040

he believes that they're from outer space.

118

00:06:05,040 --> 00:06:06,280

He said, do you believe that?

119

00:06:06,280 --> 00:06:08,240

And I said, well, I don't know,

120

00:06:08,240 --> 00:06:10,160

but I know that it's possible.

121

00:06:10,160 --> 00:06:12,800

We have to keep an open mind on it

122

00:06:12,800 --> 00:06:15,160

and study it from an objective standpoint.

123

00:06:16,480 --> 00:06:18,560

He said, well, I wonder, is there down here,

124

00:06:18,560 --> 00:06:20,720

why they must be there observing us.

125

00:06:20,720 --> 00:06:22,280

They have been for many years,

126

00:06:22,280 --> 00:06:24,560

and it's probably a few legends are correct.

127

00:06:24,560 --> 00:06:26,560

They have been here a long time.

128

00:06:27,560 --> 00:06:28,840

I wonder if they'd be interested

129

00:06:28,840 --> 00:06:31,040

if we tried to contact them.

130

00:06:31,040 --> 00:06:32,800

And I wonder if anyone's made that a test.

131

00:06:32,800 --> 00:06:35,680

And I said, well, I don't know that either.

132

00:06:35,680 --> 00:06:37,120

He said, how would we contact them?

133

00:06:37,120 --> 00:06:39,000

I said, well, surely you wouldn't go out on the hill

134

00:06:39,000 --> 00:06:42,360

and wave your hand to get it when one pass is by.

135

00:06:42,360 --> 00:06:46,160

And you might have waited a long time before one pass by.

136

00:06:47,520 --> 00:06:50,240

Then he said, yes, the old way is you could use radio.

137

00:06:51,360 --> 00:06:53,640

And I said, yes, that's what's possible.

138

00:06:53,640 --> 00:06:54,680

And he said, of course,

139

00:06:54,680 --> 00:06:56,720

he said they wouldn't understand our languages

140

00:06:56,720 --> 00:06:58,520

or our cultures.

141

00:06:58,520 --> 00:07:02,040

And I said, well, that's one thing that I can understand.

142

00:07:02,040 --> 00:07:05,400

Because certainly, there are more events than we are

143

00:07:05,600 --> 00:07:07,280

and we do not have to face this

144

00:07:07,280 --> 00:07:09,560

if there is intelligence in these tests.

145

00:07:11,640 --> 00:07:13,120

And if they have more intelligence,

146

00:07:13,120 --> 00:07:14,120

they can learn our language.

147

00:07:14,120 --> 00:07:17,040

Or if they are only as intelligent as we are,

148

00:07:17,040 --> 00:07:19,520

we can learn a new language fairly quickly.

149

00:07:20,640 --> 00:07:22,240

And they've been here for centuries,

150

00:07:22,240 --> 00:07:25,000

or even if they've only been here since 1947.

151

00:07:25,000 --> 00:07:27,560

Surely they can learn our language.

152

00:07:27,560 --> 00:07:30,280

Now, they don't have to control.

153

00:07:30,280 --> 00:07:32,360

You'll say that you think that they're all one tribe

154

00:07:32,360 --> 00:07:35,380

and I'm an anthropologist coming in to study you.

155

00:07:35,380 --> 00:07:38,100

First of all, I'll try to find someone who's bilingual

156

00:07:38,100 --> 00:07:40,140

that is someone who speaks two languages,

157

00:07:40,140 --> 00:07:42,140

my own and yours.

158

00:07:42,140 --> 00:07:45,580

And then they can tell me what your words mean

159

00:07:45,580 --> 00:07:46,660

in my own language.

160

00:07:47,740 --> 00:07:50,220

But if there isn't anyone here who can understand me

161

00:07:50,220 --> 00:07:51,980

and I can't understand any of you,

162

00:07:51,980 --> 00:07:54,340

I'll just have to listen.

163

00:07:54,340 --> 00:07:55,660

Well, in about six months,

164

00:07:55,660 --> 00:07:58,620

I'll begin to understand what you're saying.

165

00:07:59,660 --> 00:08:00,940

That's how they learn.

166

00:08:00,940 --> 00:08:02,180

As we get older, of course,

167

00:08:02,180 --> 00:08:04,460

it takes much longer to learn a new language.

168

00:08:05,580 --> 00:08:08,780

I found that out when I got in college.

169

00:08:08,780 --> 00:08:10,140

Surely it means people,

170

00:08:10,140 --> 00:08:12,460

after monitoring our broadcasts and so on,

171

00:08:12,460 --> 00:08:15,540

could learn these languages.

172

00:08:15,540 --> 00:08:17,460

Now, as far as Mark's code is concerned,

173

00:08:17,460 --> 00:08:21,180

it's used every day all over the Earth.

174

00:08:21,180 --> 00:08:22,740

And it's not any secret.

175

00:08:22,740 --> 00:08:25,380

So they could learn it in the next few months also.

176

00:08:26,620 --> 00:08:28,660

Well, we sort of got to study.

177

00:08:28,660 --> 00:08:30,860

We were only doing a little more serious at all

178

00:08:30,860 --> 00:08:32,860

when we were just discussing the possibilities

179

00:08:32,860 --> 00:08:36,540

of knowing to do something when you have a visiting.

180

00:08:36,540 --> 00:08:38,740

About 10 days later, he called me at work

181

00:08:38,740 --> 00:08:41,780

and he said, well, you know about the flying saucers.

182

00:08:43,020 --> 00:08:44,740

He said, we had to set.

183

00:08:44,740 --> 00:08:46,980

And I said, well, what do you mean?

184

00:08:46,980 --> 00:08:49,140

And he said, did you see one?

185

00:08:49,140 --> 00:08:52,380

He said, no, but he said, I mean, about radio.

186

00:08:54,140 --> 00:08:55,620

And I said, oh, you're kidding.

187

00:08:55,620 --> 00:08:57,780

He said, no, I'm not kidding.

188

00:08:57,780 --> 00:08:59,660

Then I said, well, most of you would say

189

00:08:59,660 --> 00:09:01,620

it has to be true one way or the other.

190

00:09:01,660 --> 00:09:03,820

It has to be one thing or the other.

191

00:09:03,820 --> 00:09:05,100

I said, is it a hoax?

192

00:09:06,540 --> 00:09:08,340

He said, yes, we think it is a hoax.

193

00:09:08,340 --> 00:09:10,980

The radio man is certain that it is a hoax.

194

00:09:12,980 --> 00:09:14,500

I said, well, why don't you ask him

195

00:09:14,500 --> 00:09:16,900

to give some kind of proof so that he would know?

196

00:09:16,900 --> 00:09:20,220

I said, is it another amateur radio outlet?

197

00:09:20,220 --> 00:09:22,060

He said, no, it's not another amateur

198

00:09:22,060 --> 00:09:24,460

because the signals are entirely too loud.

199

00:09:24,460 --> 00:09:27,780

We have to turn the volume almost completely down off.

200

00:09:28,980 --> 00:09:31,300

And he says, the radio man says that whatever it is,

201

00:09:31,340 --> 00:09:32,540

it's a big operation.

202

00:09:34,140 --> 00:09:35,380

It's not another amateur.

203

00:09:36,540 --> 00:09:38,260

Of course, then I really did get interested.

204

00:09:38,260 --> 00:09:40,020

I mean, out of space or not,

205

00:09:40,020 --> 00:09:42,380

something here was quite interesting.

206

00:09:42,380 --> 00:09:44,500

We had run onto something.

207

00:09:44,500 --> 00:09:46,100

So I said, why don't you have him ask

208

00:09:46,100 --> 00:09:47,340

for some kind of a statement?

209

00:09:47,340 --> 00:09:48,180

Well, he did.

210

00:09:49,420 --> 00:09:50,500

Now, he felt this way.

211

00:09:50,500 --> 00:09:53,620

Why would they contact him after all he asked me?

212

00:09:53,620 --> 00:09:55,940

He said, why don't they contact Dr. Rinestein

213

00:09:55,940 --> 00:09:57,260

or the government?

214

00:09:57,260 --> 00:09:58,300

I'm just a nobody.

215

00:09:58,300 --> 00:10:00,020

Why would they be interested in me?

216

00:10:01,300 --> 00:10:02,140

I said, well, how do you know

217

00:10:02,140 --> 00:10:04,980

they're having contacted scientists and the government?

218

00:10:04,980 --> 00:10:06,620

Maybe they're interested in the people too.

219

00:10:06,620 --> 00:10:07,940

We don't know.

220

00:10:07,940 --> 00:10:10,700

We didn't know about the atomic bomb that blew us.

221

00:10:11,780 --> 00:10:14,140

So maybe the government is working with these people.

222

00:10:14,140 --> 00:10:14,980

We don't know.

223

00:10:14,980 --> 00:10:17,060

There's too many things to be answered here.

224

00:10:17,940 --> 00:10:20,820

So he said, well, I'll go along with that all right.

225

00:10:20,820 --> 00:10:23,060

So he asked him for proof.

226

00:10:23,060 --> 00:10:25,780

They said, yes, yes, we'll be glad to give that proof.

227

00:10:25,780 --> 00:10:29,020

If you will get it right, we will go by source

228

00:10:29,020 --> 00:10:30,660

at high time tomorrow.

229

00:10:31,940 --> 00:10:34,900

Now, we suspect to mean that if we would get a telescope,

230

00:10:34,900 --> 00:10:37,540

they'd be by the sun at noon the next day.

231

00:10:39,180 --> 00:10:41,020

Well, of course, we didn't know what they meant

232

00:10:41,020 --> 00:10:43,900

by the sun and we didn't have a telescope.

233

00:10:43,900 --> 00:10:46,820

Next day at noon, I went out and looked at the sun

234

00:10:46,820 --> 00:10:47,940

before the lightning sun.

235

00:10:47,940 --> 00:10:50,220

I could only look at it for a moment or two.

236

00:10:50,220 --> 00:10:51,340

I didn't see anything.

237

00:10:52,340 --> 00:10:55,300

But then I mean at 5.45 on the newscast

238

00:10:55,300 --> 00:10:57,460

coming up from Phoenix, Arizona,

239

00:10:57,460 --> 00:11:00,260

my wife and I both heard that a large fleet

240

00:11:00,300 --> 00:11:03,300

of the so-called wine saucers had been frided

241

00:11:03,300 --> 00:11:07,340

over the New York Air Force Base at noon, around noon time.

242

00:11:08,340 --> 00:11:10,140

Now I said, well, maybe that's just nice.

243

00:11:10,140 --> 00:11:11,940

I said, no, there's nothing about the sun in there.

244

00:11:11,940 --> 00:11:14,860

Let's not jump to conclusions and try to prove this thing

245

00:11:14,860 --> 00:11:16,500

just because that happened.

246

00:11:16,500 --> 00:11:18,180

Just a coincidence.

247

00:11:18,180 --> 00:11:20,700

Well, the next day, the following day,

248

00:11:20,700 --> 00:11:25,260

after the newscast, the Los Angeles Times reported

249

00:11:25,260 --> 00:11:28,660

that not a person had reported to them

250

00:11:28,660 --> 00:11:31,060

that on the preceding day about noon

251

00:11:31,060 --> 00:11:33,340

around the middle part of the day,

252

00:11:33,340 --> 00:11:36,860

very large sunspots had been frided on the sun.

253

00:11:37,820 --> 00:11:40,340

Now it's not unusual to see sunspots on the sun,

254

00:11:40,340 --> 00:11:44,380

but this was a period of declining sunspot activity.

255

00:11:44,380 --> 00:11:46,020

And instead of lasting the usual two

256

00:11:46,020 --> 00:11:49,660

to 30 days period, they only lasted one day.

257

00:11:49,660 --> 00:11:51,260

So completely gone the next day.

258

00:11:52,260 --> 00:11:55,780

Now I can't tell you anymore about that particular thing

259

00:11:55,900 --> 00:11:59,660

and still don't know that we just coincidence or not.

260

00:11:59,660 --> 00:12:01,700

We never just find out.

261

00:12:01,700 --> 00:12:04,300

It may seem just coincidence, we don't know.

262

00:12:05,540 --> 00:12:08,740

Now the next thing, the radio man had a cousin

263

00:12:08,740 --> 00:12:10,060

that had come from back in

264

00:12:11,580 --> 00:12:14,980

and he was contacting some other ham operator meeting.

265

00:12:14,980 --> 00:12:18,260

He didn't mention saucers to his relative at all.

266

00:12:18,260 --> 00:12:21,100

When they heard a funny buzzing sound.

267

00:12:21,100 --> 00:12:23,220

So many of you who have some of you

268

00:12:23,220 --> 00:12:24,580

are ham operators here tonight,

269

00:12:24,620 --> 00:12:26,820

you know sometimes they have a fluorescent tube

270

00:12:26,820 --> 00:12:29,260

on the outside, on the antenna

271

00:12:29,260 --> 00:12:32,460

that splices off around during transmission.

272

00:12:32,460 --> 00:12:33,940

He said, would you go outside

273

00:12:33,940 --> 00:12:35,660

and see if that light's going?

274

00:12:35,660 --> 00:12:37,380

He said, I was something wrong here.

275

00:12:37,380 --> 00:12:38,780

I'm getting this buzzing sound.

276

00:12:38,780 --> 00:12:40,540

It was an interference.

277

00:12:40,540 --> 00:12:42,700

Well, the man went outside and he went right away

278

00:12:42,700 --> 00:12:45,660

and said, good heavens man, get out here.

279

00:12:45,660 --> 00:12:47,820

Well, when he went out, they saw this orange

280

00:12:47,820 --> 00:12:50,580

elliptical state of fame or this

281

00:12:50,580 --> 00:12:53,220

squint off into the sky.

282

00:12:53,220 --> 00:12:55,540

So then he didn't want to say anything to the cousin

283

00:12:55,540 --> 00:12:56,540

at that time either.

284

00:12:56,540 --> 00:12:58,380

And he asked him, he said, what do you think that was?

285

00:12:58,380 --> 00:13:00,580

He said, I think he just saw a flying saucer.

286

00:13:02,100 --> 00:13:03,820

He said, well, yes, I think so too.

287

00:13:03,820 --> 00:13:05,180

And then he broke down and told him

288

00:13:05,180 --> 00:13:06,980

about his radio work he was doing.

289

00:13:08,780 --> 00:13:12,100

Now the next thing he asked me, he said,

290

00:13:13,100 --> 00:13:15,020

I'm gonna give this thing a word,

291

00:13:15,020 --> 00:13:17,740

he's fooled whether it's true or not.

292

00:13:18,940 --> 00:13:19,780

He said, do you mind?

293

00:13:19,780 --> 00:13:22,500

And I said, no, because it's the one thing

294

00:13:22,860 --> 00:13:25,420

my wife and I both were working for civil service then

295

00:13:25,420 --> 00:13:27,700

in the veteran's administration.

296

00:13:27,700 --> 00:13:30,020

Some of you know who works for civil service

297

00:13:30,020 --> 00:13:32,380

that knew a crew member sickly.

298

00:13:32,380 --> 00:13:35,380

Well, my wife and I were getting sick at the same time.

299

00:13:36,340 --> 00:13:39,420

So the boss was getting suspicious.

300

00:13:39,420 --> 00:13:41,460

So I told him, listen, I don't wanna fool around

301

00:13:41,460 --> 00:13:44,700

with this thing anymore, if there's nothing to it, why?

302

00:13:44,700 --> 00:13:47,020

Okay, but if there is something to it,

303

00:13:47,020 --> 00:13:48,820

why I don't tell much about the job either.

304

00:13:48,820 --> 00:13:50,860

I mean, I'm quite interested in this.

305

00:13:51,860 --> 00:13:53,780

I take the stand.

306

00:13:53,780 --> 00:13:56,220

So he said, okay, well without telling anyone

307

00:13:56,220 --> 00:13:57,780

just what he was going to do,

308

00:13:58,940 --> 00:14:01,860

one night he was in his hamster, which by the way,

309

00:14:01,860 --> 00:14:05,100

there's an old railroad car which is separated in half.

310

00:14:05,100 --> 00:14:06,820

In one end he has all of his hands

311

00:14:06,820 --> 00:14:09,740

sending equipment and so on, receiving equipment.

312

00:14:09,740 --> 00:14:12,460

In the other end he has his work done.

313

00:14:12,460 --> 00:14:14,740

Now he knows that commercially like this operator,

314

00:14:14,740 --> 00:14:18,300

not just an amateur, but he's commercially like this

315

00:14:18,300 --> 00:14:22,900

and works with a fantasy railroad in the reindeer shop.

316

00:14:22,900 --> 00:14:27,100

He's also a repair of the blue radio

317

00:14:27,100 --> 00:14:29,580

that their car is there in Northern Arizona.

318

00:14:29,580 --> 00:14:32,060

And he's also a part time engineer

319

00:14:32,060 --> 00:14:34,420

for one of the NBC spaces.

320

00:14:34,420 --> 00:14:36,300

So he's pretty busy, of course all the neighbors

321

00:14:36,300 --> 00:14:39,900

bring in their broken down TV sets and so on.

322

00:14:39,900 --> 00:14:42,140

So he's busy all the time and he has the workshop

323

00:14:42,140 --> 00:14:43,820

in the other end.

324

00:14:43,820 --> 00:14:46,420

Well that's what he means without telling anyone,

325

00:14:46,460 --> 00:14:49,340

he's heading back to about eight people in a hamster.

326

00:14:50,300 --> 00:14:53,380

And suddenly he decided to switch

327

00:14:54,500 --> 00:14:55,940

from one meter to the next.

328

00:14:55,940 --> 00:14:59,500

He asked a question on 40 meters and got an answer.

329

00:15:00,980 --> 00:15:03,860

And then very quickly he switched to 160 meters

330

00:15:03,860 --> 00:15:06,500

and asked a question and an answer came right back.

331

00:15:07,620 --> 00:15:09,220

Now he told us about a week later,

332

00:15:09,220 --> 00:15:13,500

after he had a chance to think it through very thoroughly,

333

00:15:13,500 --> 00:15:15,660

that even if he had told the operator

334

00:15:15,660 --> 00:15:18,380

on the other end that he was going to switch,

335

00:15:19,380 --> 00:15:22,540

the man wouldn't have had him in time to hear the question.

336

00:15:22,540 --> 00:15:24,340

Therefore couldn't have answered it.

337

00:15:25,540 --> 00:15:27,900

He said it's fantastic to me, he's the kind of fellow

338

00:15:27,900 --> 00:15:30,380

that can only believe tools and wires

339

00:15:30,380 --> 00:15:32,900

and what's right in his hand, he's from Missouri.

340

00:15:33,940 --> 00:15:36,340

And he said, I just can't believe this,

341

00:15:36,340 --> 00:15:38,340

but I can't really accept what's happening.

342

00:15:39,540 --> 00:15:41,620

And we were glad that he wasn't the gullible type

343

00:15:41,620 --> 00:15:45,380

because that way he would talk to each other

344

00:15:45,380 --> 00:15:46,540

one way or the other.

345

00:15:48,140 --> 00:15:50,060

Now the next thing he noticed,

346

00:15:50,060 --> 00:15:54,180

a very supportive pattern, something that was very important,

347

00:15:55,100 --> 00:15:57,820

which is only found a little bit weird in one sense.

348

00:15:59,140 --> 00:16:01,140

He would notice that he was in the workshop

349

00:16:01,140 --> 00:16:03,820

away from his equipment,

350

00:16:03,820 --> 00:16:07,140

that they would always be a three one or a signal

351

00:16:07,140 --> 00:16:08,860

before the coach started coming in,

352

00:16:08,860 --> 00:16:10,900

giving him time to get to the set.

353

00:16:11,940 --> 00:16:15,580

But if he would have to set, there never was any free warning.

354

00:16:15,580 --> 00:16:17,660

He said it seems to me that they know

355

00:16:17,660 --> 00:16:20,580

whether I'm at my radio equipment or not.

356

00:16:22,100 --> 00:16:25,980

Now the next thing, we went before it's their hand,

357

00:16:25,980 --> 00:16:27,940

so we asked them if they wouldn't land.

358

00:16:29,140 --> 00:16:31,860

Make some kind of a landing, rendezvous some place,

359

00:16:31,860 --> 00:16:34,220

they said yes, we'd be glad to comply with that.

360

00:16:34,220 --> 00:16:36,340

Well we let him make all the arrangements.

361

00:16:36,340 --> 00:16:38,220

He was the only one that knew where we were going

362

00:16:38,220 --> 00:16:40,740

and we were to follow his car in the second car.

363

00:16:42,620 --> 00:16:45,860

Well that didn't mean after range of six minutes

364

00:16:45,860 --> 00:16:48,900

for the next day to go into the mountains

365

00:16:48,900 --> 00:16:50,900

for this landing concept,

366

00:16:52,060 --> 00:16:55,140

why the radio man's father-in-law came in unexpectedly

367

00:16:55,140 --> 00:16:56,140

from Tennessee.

368

00:16:57,460 --> 00:16:59,420

He's not a very old man by the way,

369

00:16:59,420 --> 00:17:00,900

since then he passed away.

370

00:17:00,900 --> 00:17:03,860

He wasn't a very old man, he was only in his sixties,

371

00:17:03,860 --> 00:17:06,460

but he had some sort of brain tumor.

372

00:17:06,460 --> 00:17:09,060

He was very thin now, he would stumble,

373

00:17:09,060 --> 00:17:10,460

his balance was very poor,

374

00:17:10,460 --> 00:17:13,420

he had to be helping on all the times of white and child.

375

00:17:14,460 --> 00:17:17,020

And he came out there to see a particular doctor.

376

00:17:18,060 --> 00:17:20,500

So the wife came out and by the way,

377

00:17:20,500 --> 00:17:23,620

the transmitter was off, but the radio man's dad was off.

378

00:17:25,020 --> 00:17:27,220

He always left it on and said, anything came in.

379

00:17:27,220 --> 00:17:30,820

But we had completed our transmission for the evening.

380

00:17:30,820 --> 00:17:32,140

So she came out and she said,

381

00:17:32,140 --> 00:17:34,100

what am I gonna do about my father?

382

00:17:34,100 --> 00:17:35,860

He said, well what do you mean?

383

00:17:35,860 --> 00:17:39,100

He said, well, the ladies are in their science fiction,

384

00:17:39,540 --> 00:17:41,300

they're in their science fiction sandwiches,

385

00:17:41,300 --> 00:17:43,620

and he thinks we're going on a picnic tomorrow.

386

00:17:44,540 --> 00:17:46,140

He said, we can't take him along

387

00:17:46,140 --> 00:17:47,540

if he seems to have been lying,

388

00:17:47,540 --> 00:17:49,860

there's a lot of other hard facts,

389

00:17:49,860 --> 00:17:53,820

or if he is there, they may not land

390

00:17:53,820 --> 00:17:55,420

because of his condition or something.

391

00:17:55,420 --> 00:17:58,060

He said, I don't know that we can't take him.

392

00:17:58,060 --> 00:17:59,660

He said, well, why don't we leave him?

393

00:17:59,660 --> 00:18:01,140

He said, I can't leave him alone

394

00:18:01,140 --> 00:18:02,940

because he might fall down soon.

395

00:18:03,940 --> 00:18:05,700

Then, of course, he just raised it,

396

00:18:05,700 --> 00:18:07,500

and he was beginning to wonder what he was gonna do

397

00:18:07,780 --> 00:18:09,420

with his father-in-law.

398

00:18:09,420 --> 00:18:12,820

He said, why don't we get someone to stay with him?

399

00:18:12,820 --> 00:18:13,940

I think we can get a friend.

400

00:18:13,940 --> 00:18:15,820

And he said, no, we can't do that

401

00:18:15,820 --> 00:18:17,940

because the doctors say

402

00:18:17,940 --> 00:18:20,180

that he must not be emotionally disturbed.

403

00:18:20,180 --> 00:18:22,900

And if he thinks we're going out without him,

404

00:18:22,900 --> 00:18:24,820

he thinks we're going on a picnic,

405

00:18:24,820 --> 00:18:27,420

and he will think that he's just not wanted.

406

00:18:28,700 --> 00:18:30,300

Well, for about a non-40 minutes,

407

00:18:30,300 --> 00:18:32,780

back and forth, we tried to define what to do

408

00:18:32,780 --> 00:18:34,380

with our father-in-law.

409

00:18:34,380 --> 00:18:35,740

One minute we say, well, take him,

410

00:18:35,740 --> 00:18:38,340

the next minute we say we won't.

411

00:18:38,340 --> 00:18:41,380

When suddenly cold began to come in on the silver.

412

00:18:42,380 --> 00:18:45,740

Now, I got up and stood behind the radio, man,

413

00:18:45,740 --> 00:18:48,740

looked over his shoulder, and, believe me,

414

00:18:48,740 --> 00:18:50,460

I guess my hair wasn't standing on end,

415

00:18:50,460 --> 00:18:51,620

no one saw through that,

416

00:18:51,620 --> 00:18:53,900

so I certainly thought like it was

417

00:18:53,900 --> 00:18:55,660

when I saw what was coming in.

418

00:18:56,780 --> 00:18:59,100

First of all, he said, now about the father.

419

00:19:00,460 --> 00:19:01,900

Well, how did they know about the father?

420

00:19:01,900 --> 00:19:05,300

We never admitted anything about the father.

421

00:19:05,300 --> 00:19:07,980

Then they diagnosed his case,

422

00:19:07,980 --> 00:19:11,980

said quite a bit about what was wrong with him, and so on.

423

00:19:11,980 --> 00:19:13,660

And then they said something which I think

424

00:19:13,660 --> 00:19:18,460

is very significant, which really goes back even farther

425

00:19:18,460 --> 00:19:22,100

than the time of Joe, 4,000 years ago, when he asked,

426

00:19:22,100 --> 00:19:24,420

if a man dies, he'll be live again.

427

00:19:25,780 --> 00:19:27,300

Now, I wouldn't do what they said.

428

00:19:27,300 --> 00:19:29,500

I don't want to get my opinions in here tonight,

429

00:19:29,500 --> 00:19:32,220

because I told you that's not very important.

430

00:19:32,220 --> 00:19:33,740

But I'll give you the experience

431

00:19:33,740 --> 00:19:37,060

and you can relate it to your own experiences

432

00:19:37,060 --> 00:19:40,100

and you can interpret it as you do.

433

00:19:40,100 --> 00:19:41,820

But this is what they said.

434

00:19:41,820 --> 00:19:44,900

Never fear the angels, so they can help

435

00:19:44,900 --> 00:19:47,340

when they are brought back into life again.

436

00:19:49,140 --> 00:19:51,660

Never fear the angels, so they can help

437

00:19:51,660 --> 00:19:53,900

when they are brought back into life again.

438

00:19:54,980 --> 00:19:59,340

Now, the next day, as a confirmation of this thing,

439

00:19:59,340 --> 00:20:01,580

the next day, a little 14-year-old boy

440

00:20:01,620 --> 00:20:04,820

from next door, he had been flinking on a glass

441

00:20:04,820 --> 00:20:07,540

in closed court at the neighbor's house.

442

00:20:08,580 --> 00:20:10,860

It was very warm, it's really in the office.

443

00:20:12,420 --> 00:20:14,300

He came over the next day and asked the radio man,

444

00:20:14,300 --> 00:20:15,700

he said, what in heaven's name

445

00:20:15,700 --> 00:20:17,660

was going on at your house last night?

446

00:20:18,620 --> 00:20:20,140

He said, what do you mean?

447

00:20:20,140 --> 00:20:21,380

He thought it was funny, he said,

448

00:20:21,380 --> 00:20:23,900

the kid, you would always be up late sending code

449

00:20:23,900 --> 00:20:25,700

and the kid wouldn't think it was fine

450

00:20:25,700 --> 00:20:28,300

that he was on the air or anything.

451

00:20:28,300 --> 00:20:29,380

So he said, well, what do you mean?

452

00:20:29,420 --> 00:20:31,780

He said, well, I woke up at such and such a time,

453

00:20:31,780 --> 00:20:34,420

he said, I looked at the clock and I noticed the time.

454

00:20:36,060 --> 00:20:38,820

And he told him what time that was.

455

00:20:38,820 --> 00:20:41,260

He said, I thought I was dreaming, but I sensed myself

456

00:20:41,260 --> 00:20:42,420

and I knew I was awake.

457

00:20:42,420 --> 00:20:44,580

And he said, I looked out the window

458

00:20:44,580 --> 00:20:47,660

and over at your house, above it,

459

00:20:47,660 --> 00:20:49,900

as far as I could see in space

460

00:20:49,900 --> 00:20:52,700

was a white, two-minute staff of light.

461

00:20:52,700 --> 00:20:54,820

And it was going right down into the bedroom

462

00:20:54,820 --> 00:20:56,620

when your father-in-law was sleeping.

463

00:20:57,620 --> 00:20:59,500

The radio man knew one of the pictures

464

00:20:59,500 --> 00:21:03,140

and seen something we did not see in our life.

465

00:21:03,140 --> 00:21:05,740

But it was exactly the same time that we were getting

466

00:21:05,740 --> 00:21:08,460

the message coming in on the receiver

467

00:21:08,460 --> 00:21:09,980

about this old gentleman.

468

00:21:11,660 --> 00:21:13,780

Now, very briefly, our new lawyer

469

00:21:13,780 --> 00:21:15,860

wondered what happened about this landing time.

470

00:21:15,860 --> 00:21:17,100

They thought it wouldn't come off

471

00:21:17,100 --> 00:21:19,500

because we got lost in the mountains.

472

00:21:19,500 --> 00:21:22,260

We were supposed to wait at a fork in the road for us.

473

00:21:22,260 --> 00:21:26,100

We got separated, a lot of people were touching the tree.

474

00:21:26,100 --> 00:21:28,540

We never did mean we wandered all over the mountains

475

00:21:28,540 --> 00:21:30,340

all day looking for him.

476

00:21:30,340 --> 00:21:33,020

We got back to town and he was sitting behind the mountain

477

00:21:33,020 --> 00:21:35,980

and he had all the food in his car.

478

00:21:35,980 --> 00:21:37,460

And he said, well, where were you?

479

00:21:37,460 --> 00:21:39,580

And we said, well, where were you?

480

00:21:39,580 --> 00:21:43,180

He said, well, I guess they were pretty disgusted with us.

481

00:21:43,180 --> 00:21:44,020

We didn't make it.

482

00:21:44,020 --> 00:21:47,060

I said, well, let's go to the radio anyway.

483

00:21:47,060 --> 00:21:49,460

So we did it and they came in and said,

484

00:21:49,460 --> 00:21:51,060

our plans are to be changed.

485

00:21:51,060 --> 00:21:54,340

When all is ready, we will be contacted by a man.

486

00:21:56,580 --> 00:21:58,860

And then our contact will continue

487

00:21:58,860 --> 00:22:03,660

to February of 1953 on and off at various times,

488

00:22:03,660 --> 00:22:05,740

but we never received a link more.

489

00:22:07,420 --> 00:22:10,420

Then in November, on November 20th, 1952,

490

00:22:10,420 --> 00:22:13,380

my wife and I released Georgia Dampé's.

491

00:22:13,380 --> 00:22:15,140

Now, we hadn't heard of Georgia Dampé

492

00:22:15,140 --> 00:22:16,980

when we had our radio contact.

493

00:22:18,060 --> 00:22:20,460

But I picked up this book, *The Coming of the Saucers*,

494

00:22:20,460 --> 00:22:23,420

by Ray Palmer and Kenneth Arnold.

495

00:22:23,460 --> 00:22:26,100

In the back was a picture of Georgia Dampe

496

00:22:26,100 --> 00:22:29,060

from his telescopic photograph of Saucers.

497

00:22:30,260 --> 00:22:34,460

So I told Al, this fellow that worked with me on it,

498

00:22:34,460 --> 00:22:36,940

I said, Al, you're going over to senior in law

499

00:22:36,940 --> 00:22:39,860

in Los Angeles so far very long.

500

00:22:39,860 --> 00:22:40,940

Why don't you drop down?

501

00:22:40,940 --> 00:22:43,620

He's a pal of marks, just a few miles from San Diego.

502

00:22:43,620 --> 00:22:46,780

Why don't you drop down and see the Dampe?

503

00:22:46,780 --> 00:22:48,780

They didn't need me to do the non-radio work

504

00:22:48,780 --> 00:22:50,820

because fairly indented and Saucers

505

00:22:50,820 --> 00:22:52,740

had been taking pictures.

506

00:22:52,740 --> 00:22:54,220

I didn't even tell my own dad.

507

00:22:54,220 --> 00:22:57,180

My father is a police probation officer

508

00:22:57,180 --> 00:23:00,740

in Northern Arizona, but I didn't tell him anything about it.

509

00:23:00,740 --> 00:23:03,380

I didn't tell my mother or any of our friends.

510

00:23:04,660 --> 00:23:07,220

So he said, all right, I'll do that.

511

00:23:08,700 --> 00:23:12,060

Well, then later he had a dampe and I met a dampe myself

512

00:23:12,060 --> 00:23:15,340

and then we made a ring sometime to go out in the desert.

513

00:23:15,340 --> 00:23:17,180

He said, can you get off work sometime?

514

00:23:17,180 --> 00:23:20,460

And I said, well, that's getting to be a little bit strange,

515

00:23:20,460 --> 00:23:22,380

but I'll try.

516

00:23:22,980 --> 00:23:24,380

He called me up one time and he said,

517

00:23:24,380 --> 00:23:25,500

let's go on the dervette.

518

00:23:25,500 --> 00:23:28,060

He said, I know how this near does.

519

00:23:28,060 --> 00:23:29,300

He's from California.

520

00:23:29,300 --> 00:23:31,100

He said that's about halfway for you

521

00:23:31,100 --> 00:23:32,420

and halfway for me.

522

00:23:33,460 --> 00:23:36,140

And he said, I know that Saucers has been fighting it out there

523

00:23:36,140 --> 00:23:38,300

fairly low to the ground at various times

524

00:23:38,300 --> 00:23:41,980

and I'd like to get out, maybe there's a stamp of something.

525

00:23:43,140 --> 00:23:45,660

There wasn't any preliminary arrangements by radio

526

00:23:45,660 --> 00:23:47,380

or anything as many people have said.

527

00:23:47,380 --> 00:23:49,260

We had made arrangements by radio

528

00:23:49,260 --> 00:23:50,380

that they would be there in that.

529

00:23:50,380 --> 00:23:52,220

There wasn't any pre-arrangements at all.

530

00:23:52,220 --> 00:23:55,540

Nobody knew whether anything was still up or not.

531

00:23:55,540 --> 00:23:57,100

But I don't want to get into that tonight

532

00:23:57,100 --> 00:23:59,300

because I have many more important things to tell you,

533

00:23:59,300 --> 00:24:03,100

but I would like to say that the message

534

00:24:03,100 --> 00:24:06,220

as Mr. Dempsey writes it in his book,

535

00:24:06,220 --> 00:24:07,540

written in Jesmond Leslie,

536

00:24:07,540 --> 00:24:10,420

Blind Thoughts of Landed is accurate.

537

00:24:10,420 --> 00:24:13,020

My wife and I both signed that after David

538

00:24:13,020 --> 00:24:14,740

and we both read that the manuscript

539

00:24:14,740 --> 00:24:16,180

was for a substantial public.

540

00:24:17,740 --> 00:24:20,980

It is accurate as Mr. Dempsey writes it.

541

00:24:20,980 --> 00:24:23,220

We did see the large mothership.

542

00:24:23,220 --> 00:24:24,540

We did see the small ship.

543

00:24:24,540 --> 00:24:26,420

It was a hovered in a saddle

544

00:24:26,420 --> 00:24:30,260

and we did observe the man's supranacrisis.

545

00:24:30,260 --> 00:24:31,100

It is accurate.

546

00:24:31,100 --> 00:24:31,940

We weren't too close,

547

00:24:31,940 --> 00:24:34,140

but we did observe the supranacrisis.

548

00:24:34,140 --> 00:24:36,260

I was one of the first people to,

549

00:24:36,260 --> 00:24:39,900

I was the first one actually to get up to be footprint

550

00:24:41,100 --> 00:24:44,220

and get a good look at them and I made some cash for them.

551

00:24:45,740 --> 00:24:49,700

Now, when it comes down to it, I feel this way

552

00:24:49,740 --> 00:24:51,060

perhaps many of you do too.

553

00:24:51,060 --> 00:24:52,700

There's been reading about orange balls

554

00:24:52,700 --> 00:24:55,260

freaking you to sky and this and that.

555

00:24:55,260 --> 00:24:58,460

So high and going so fast and what have you.

556

00:24:58,460 --> 00:25:00,660

It all boils down to this, so what?

557

00:25:01,860 --> 00:25:04,740

Who cares what if somebody meets a man on the desert

558

00:25:04,740 --> 00:25:06,540

to seek to the new skin?

559

00:25:06,540 --> 00:25:08,700

Or who cares what if somebody talks to talk to him

560

00:25:08,700 --> 00:25:10,540

by radio or not?

561

00:25:10,540 --> 00:25:12,060

As far as the world's concerned,

562

00:25:12,060 --> 00:25:13,900

it isn't very important, is it?

563

00:25:13,900 --> 00:25:15,140

When the novelty wears off,

564

00:25:15,140 --> 00:25:17,660

because nobody knows what these men are calling the truth

565

00:25:17,660 --> 00:25:19,540

or not in the end anyway.

566

00:25:19,580 --> 00:25:21,380

And it's all forgotten.

567

00:25:21,380 --> 00:25:24,940

It is not really important to the individuals perhaps,

568

00:25:24,940 --> 00:25:26,900

but not anyone else.

569

00:25:26,900 --> 00:25:28,820

I came to that place.

570

00:25:28,820 --> 00:25:29,780

This thing is true.

571

00:25:29,780 --> 00:25:31,620

What is it going to mean to the people of the world?

572

00:25:31,620 --> 00:25:33,340

Why are these people here?

573

00:25:34,300 --> 00:25:36,940

And what does it mean to each and every one of them?

574

00:25:38,140 --> 00:25:40,580

Now, if we're in our radio context,

575

00:25:40,580 --> 00:25:42,660

it's also hard to consider,

576

00:25:42,660 --> 00:25:45,260

by the way, when I refer to things from now on,

577

00:25:45,260 --> 00:25:47,980

when I'm speaking in space, visitors and so on.

578

00:25:47,980 --> 00:25:50,220

The other night I kept saying space intelligence,

579

00:25:50,220 --> 00:25:52,460

using someone after the lecture asked me

580

00:25:52,460 --> 00:25:54,300

if I meant space FBI.

581

00:25:55,220 --> 00:25:58,700

So, when I say they,

582

00:25:58,700 --> 00:26:01,100

I'm referring to the space visitors

583

00:26:01,100 --> 00:26:02,700

who were coming in the circuit.

584

00:26:03,900 --> 00:26:06,900

They said that we asked, of course, about our atomic bombs

585

00:26:06,900 --> 00:26:09,220

and they said that was a major concern to them,

586

00:26:09,220 --> 00:26:11,100

but that was not the main reason

587

00:26:11,100 --> 00:26:13,300

we were having all these weather trouble.

588

00:26:15,020 --> 00:26:17,700

The main reason was that our entire solar system

589

00:26:17,740 --> 00:26:20,300

was moving into a new area of the universe.

590

00:26:21,900 --> 00:26:25,180

And that the cosmic wave bombardment is increasing.

591

00:26:25,180 --> 00:26:27,300

And that will cause many changes,

592

00:26:27,300 --> 00:26:31,140

many changes on the physical, mental and spiritual level.

593

00:26:33,060 --> 00:26:35,540

Now, in anthropology and so on,

594

00:26:35,540 --> 00:26:38,100

I was mainly interested in the physical

595

00:26:38,100 --> 00:26:42,060

because that is the thing that people can tie in to.

596

00:26:42,060 --> 00:26:44,420

That's something that will prove it.

597

00:26:44,420 --> 00:26:46,740

To me, the more important than meeting the benign,

598

00:26:46,780 --> 00:26:49,460

or talking to the Nazis by radio

599

00:26:49,460 --> 00:26:51,220

was the projection of these people

600

00:26:51,220 --> 00:26:54,780

because if the projection came true,

601

00:26:54,780 --> 00:26:56,940

then we have something to practice,

602

00:26:56,940 --> 00:26:57,980

you risk the base on,

603

00:26:57,980 --> 00:26:59,900

and also things to give to you people

604

00:26:59,900 --> 00:27:02,340

so you can investigate for yourself.

605

00:27:03,380 --> 00:27:04,820

Which I would advise you to do.

606

00:27:04,820 --> 00:27:07,700

I know it's pretty hard when you work all day,

607

00:27:07,700 --> 00:27:08,540

you come home at night,

608

00:27:08,540 --> 00:27:11,900

so I mean I don't have time to investigate the fine sources.

609

00:27:11,900 --> 00:27:15,260

But space visitors have said many times,

610

00:27:15,300 --> 00:27:18,180

look to nature for signs of the changes.

611

00:27:19,660 --> 00:27:20,500

And when they have said,

612

00:27:20,500 --> 00:27:22,220

look to nature for signs of the end,

613

00:27:22,220 --> 00:27:23,940

they do not mean the end of the world,

614

00:27:23,940 --> 00:27:26,340

they mean the end of the present age.

615

00:27:26,340 --> 00:27:30,500

Because they say the world is not going to end as such.

616

00:27:32,420 --> 00:27:34,860

Look to nature for signs of the changes.

617

00:27:35,860 --> 00:27:38,340

Now, first of all, that was too much to go

618

00:27:38,340 --> 00:27:39,460

to that was the same.

619

00:27:39,460 --> 00:27:41,420

So I thought the better thing to do,

620

00:27:41,420 --> 00:27:43,020

simple fact, I would wait and see

621

00:27:43,140 --> 00:27:45,100

if it was confirmed by science later.

622

00:27:46,700 --> 00:27:48,060

Now very recently,

623

00:27:48,060 --> 00:27:52,380

Dr. Kurt Scythe of Syracuse University,

624

00:27:52,380 --> 00:27:55,500

working in Colorado, in the mountains,

625

00:27:55,500 --> 00:27:57,260

discovered that the electron counter

626

00:27:57,260 --> 00:28:00,580

speeded up and the cosmic rays on bottom,

627

00:28:00,580 --> 00:28:01,500

was terrific.

628

00:28:03,460 --> 00:28:04,700

Now he was quite alarmed

629

00:28:04,700 --> 00:28:06,900

and wanted to confirm his findings still more

630

00:28:06,900 --> 00:28:10,380

so he became an extreme teacher down in Brazil

631

00:28:10,380 --> 00:28:11,700

at the Ursao Paul.

632

00:28:12,700 --> 00:28:15,300

For he worked 18,000 feet up in the mountains.

633

00:28:16,540 --> 00:28:18,740

Now he discovered again there

634

00:28:18,740 --> 00:28:21,740

that the cosmic rays on bottom had increased

635

00:28:21,740 --> 00:28:24,980

and that further scores would not account for it.

636

00:28:24,980 --> 00:28:27,140

That was released to a few scientific journals

637

00:28:27,140 --> 00:28:28,740

and then immediately hiked up.

638

00:28:31,220 --> 00:28:33,820

Again, along with the cosmic rays on bottom,

639

00:28:34,860 --> 00:28:38,500

Professor Vano Hour of Finland Health Institute University,

640

00:28:38,500 --> 00:28:41,100

one of the world's foremost geographers,

641

00:28:41,140 --> 00:28:44,700

recently announced that the bacteria of Earth

642

00:28:44,700 --> 00:28:46,820

or the bacteria which forms fulminous

643

00:28:46,820 --> 00:28:48,300

was giant at a rapid rate

644

00:28:48,300 --> 00:28:51,420

because of increased cosmic rays on bottom,

645

00:28:51,420 --> 00:28:53,460

which means the nitrogen cycle

646

00:28:53,460 --> 00:28:58,180

was being completely interspersed with

647

00:28:58,180 --> 00:29:00,500

and all life on Earth would end.

648

00:29:00,500 --> 00:29:03,060

Eventually, it would take some time, but it would end.

649

00:29:03,060 --> 00:29:04,660

Now as any high school student knows

650

00:29:04,660 --> 00:29:07,180

and says in general science or biology,

651

00:29:07,180 --> 00:29:10,460

the nitrogen cycle is sort of a vicious cycle.

652

00:29:10,500 --> 00:29:13,180

But each life going here on Earth,

653

00:29:13,180 --> 00:29:14,860

first of all we have the bacteria

654

00:29:14,860 --> 00:29:17,180

which produces the enzyme.

655

00:29:17,180 --> 00:29:19,860

The enzyme works on organic matter,

656

00:29:19,860 --> 00:29:21,700

which produces humans.

657

00:29:21,700 --> 00:29:24,780

Of course, plants live from the humans

658

00:29:24,780 --> 00:29:27,060

and we live off the plants and the animals

659

00:29:27,060 --> 00:29:29,580

who get their life from that.

660

00:29:29,580 --> 00:29:31,900

Primnize again, we cannot take from the atmosphere.

661

00:29:31,900 --> 00:29:34,620

We must contend upon the plant-wise response.

662

00:29:35,740 --> 00:29:37,340

Now if the bacteria would die

663

00:29:37,340 --> 00:29:39,340

because of the increased cosmic rays on bottom,

664

00:29:39,340 --> 00:29:40,780

you could see what would happen.

665

00:29:41,940 --> 00:29:44,020

No enzymes work on the organic matter,

666

00:29:44,020 --> 00:29:45,460

no organic matter, the humans,

667

00:29:45,460 --> 00:29:48,740

they go on and they go around in the circle again.

668

00:29:48,740 --> 00:29:51,220

Now many of you have probably read

669

00:29:51,220 --> 00:29:53,340

Major Donald Seahorse's book,

670

00:29:53,340 --> 00:29:55,820

Flying Saucers from Outer Space,

671

00:29:55,820 --> 00:29:58,340

his second book, The Lucid One.

672

00:29:58,340 --> 00:30:00,980

In there he talks about the red spray cases.

673

00:30:02,380 --> 00:30:04,580

Now the red spray cases were bombs,

674

00:30:04,580 --> 00:30:07,660

that's what we call bombs, ranging bombs,

675

00:30:07,660 --> 00:30:10,500

and in a sense they were bombs too,

676

00:30:10,500 --> 00:30:12,020

but of a beneficial type.

677

00:30:13,180 --> 00:30:16,180

Bongs that exploded near the airport

678

00:30:16,180 --> 00:30:17,860

near Albuquerque, New Mexico,

679

00:30:17,860 --> 00:30:20,620

were nights in the low at the same time.

680

00:30:20,620 --> 00:30:22,260

Alarmed many people.

681

00:30:23,900 --> 00:30:25,260

Now think, as it is said,

682

00:30:25,260 --> 00:30:27,460

that those bombs were not being sent

683

00:30:27,460 --> 00:30:32,460

to test out any conditions where they may be bathed later.

684

00:30:32,580 --> 00:30:35,100

The crosses I might add are not hot-stopped.

685

00:30:36,100 --> 00:30:38,380

The idea is absolutely ridiculous.

686

00:30:38,380 --> 00:30:39,700

The first place,

687

00:30:39,700 --> 00:30:41,900

if they've been coming here since 47 reasons

688

00:30:41,900 --> 00:30:45,060

or centuries as you've known now,

689

00:30:45,060 --> 00:30:47,980

why didn't they take over when we had bows and arrows?

690

00:30:47,980 --> 00:30:50,180

Why did they wait till we had atomic weapons?

691

00:30:51,460 --> 00:30:53,460

That doesn't make sense.

692

00:30:53,460 --> 00:30:56,940

Now people that will concede that life is on Mars,

693

00:30:56,940 --> 00:30:59,180

they'll all of Mars is a dying world,

694

00:30:59,180 --> 00:31:00,340

there's no water up there,

695

00:31:00,340 --> 00:31:02,700

so the Marsians are looking at our world

696

00:31:02,820 --> 00:31:04,660

as some sort of a big water pocket,

697

00:31:04,660 --> 00:31:06,820

personally, and they're gonna come down here

698

00:31:06,820 --> 00:31:08,300

and take over.

699

00:31:08,300 --> 00:31:09,940

And the first place announced to that,

700

00:31:09,940 --> 00:31:13,540

they have said that there are quadrillions of worlds in space,

701

00:31:13,540 --> 00:31:15,220

much better than this one.

702

00:31:15,220 --> 00:31:18,060

Men have contaminated this one in the second place,

703

00:31:18,060 --> 00:31:19,260

why would they want it?

704

00:31:20,500 --> 00:31:22,460

They don't have to move in where there are people,

705

00:31:22,460 --> 00:31:24,340

there are plenty of other places.

706

00:31:24,340 --> 00:31:26,140

They are not coming here to invade

707

00:31:26,140 --> 00:31:27,740

or take over our planet.

708

00:31:29,420 --> 00:31:32,580

Now the spray-pacers has been received

709

00:31:32,580 --> 00:31:35,020

by the people who are not satisfactory.

710

00:31:35,020 --> 00:31:37,140

I mean the spray bombs are not satisfactory

711

00:31:37,140 --> 00:31:39,380

so they develop a so-like device

712

00:31:40,940 --> 00:31:44,180

to rejuvenate the soil in certain areas.

713

00:31:45,180 --> 00:31:47,500

Now some of them perhaps have heard

714

00:31:47,500 --> 00:31:49,380

all six to eight months ago

715

00:31:49,380 --> 00:31:52,980

the stories of the red-blind telephone poles,

716

00:31:52,980 --> 00:31:55,460

which were over Illinois, Wisconsin,

717

00:31:55,460 --> 00:31:56,540

some in Michigan.

718

00:31:57,420 --> 00:31:58,660

Most of them were noticed

719

00:31:58,740 --> 00:32:02,260

in the early hours of the morning

720

00:32:02,260 --> 00:32:04,540

or early hours, I could say, of the morning,

721

00:32:04,540 --> 00:32:08,140

between three o'clock and six o'clock in the morning.

722

00:32:08,140 --> 00:32:09,660

Truck drivers noticed them mainly

723

00:32:09,660 --> 00:32:12,340

because they were on the road at that time.

724

00:32:12,340 --> 00:32:14,180

Several others were kind of going along

725

00:32:14,180 --> 00:32:15,460

on ice poles, simply, too,

726

00:32:15,460 --> 00:32:16,900

when their feet is glowing red,

727

00:32:16,900 --> 00:32:19,060

seeing if they were seen higher up,

728

00:32:19,060 --> 00:32:22,020

there was blue-green going along in front of them.

729

00:32:23,300 --> 00:32:24,820

And they would flop over and see

730

00:32:24,820 --> 00:32:26,940

if some truck drivers related that they had

731

00:32:27,060 --> 00:32:29,100

firmly put on their brakes in the quiet line

732

00:32:29,100 --> 00:32:31,020

and they'd probably been slide over,

733

00:32:31,020 --> 00:32:35,220

nor will they be in the field at a distance, for example.

734

00:32:35,220 --> 00:32:36,500

But thanks, as it is said,

735

00:32:36,500 --> 00:32:38,500

that that is a two-byte device

736

00:32:38,500 --> 00:32:41,020

that is filled with highly-efficient material

737

00:32:41,020 --> 00:32:43,020

and other types of material

738

00:32:43,020 --> 00:32:46,260

that is going to be, that is not being tested on

739

00:32:46,260 --> 00:32:49,180

and going to be used to rejuvenate certain areas

740

00:32:49,180 --> 00:32:50,860

because it's actually in the dust

741

00:32:50,860 --> 00:32:53,620

and because it'll account for its way from bottom.

742

00:32:53,620 --> 00:32:55,100

Now people asked a question,

743

00:32:55,100 --> 00:32:56,220

and this is a very good one,

744

00:32:56,340 --> 00:32:58,580

that answers before someone asked it.

745

00:32:58,580 --> 00:33:00,860

That is, if our entire solar system is moving

746

00:33:00,860 --> 00:33:02,380

into a new era of the universe,

747

00:33:02,380 --> 00:33:03,820

why aren't the people on Mars

748

00:33:03,820 --> 00:33:05,340

in the other places being affected?

749

00:33:05,340 --> 00:33:07,860

Why is there first being affected?

750

00:33:07,860 --> 00:33:09,420

The reason for that is that Earth

751

00:33:09,420 --> 00:33:11,460

has an unstable magnetic field.

752

00:33:12,580 --> 00:33:14,340

I'm not gonna go into all of that tonight.

753

00:33:14,340 --> 00:33:15,780

First place on another physicist,

754

00:33:15,780 --> 00:33:18,020

and I don't know very much about it.

755

00:33:18,020 --> 00:33:21,580

But the Earth has an unstable magnetic field

756

00:33:21,580 --> 00:33:23,660

proven by the fact that our magnetic north

757

00:33:23,660 --> 00:33:25,460

is not the famous two-north pole.

758

00:33:26,820 --> 00:33:29,500

Therefore, only those with unstable fields

759

00:33:29,500 --> 00:33:32,700

will be affected by this bumpup.

760

00:33:32,700 --> 00:33:35,740

Mars, parsley, and Earth much more so.

761

00:33:37,020 --> 00:33:39,260

Articles have come out recently by scientists

762

00:33:39,260 --> 00:33:41,780

as they say that Earth is now tipsy

763

00:33:41,780 --> 00:33:44,620

because of various conditions of the poles.

764

00:33:44,620 --> 00:33:48,220

And some physicists are quite alarmed about that also.

765

00:33:49,860 --> 00:33:54,060

Now those bombs, these self-rejuvenation devices

766

00:33:54,060 --> 00:33:55,620

are sent to go into the ground

767

00:33:55,660 --> 00:33:57,260

and dissolve in about an hour.

768

00:33:58,780 --> 00:34:01,500

They have said that the proof of this will be

769

00:34:01,500 --> 00:34:04,980

when certain farmers and others going by open fields,

770

00:34:04,980 --> 00:34:06,220

recently found and so on,

771

00:34:06,220 --> 00:34:10,220

they will notice a slight red glare,

772

00:34:10,220 --> 00:34:12,340

so red tins through the ground

773

00:34:12,340 --> 00:34:15,020

when the sunlight hits at the certain width.

774

00:34:15,020 --> 00:34:18,500

So you can be on the lookout for that sort of thing.

775

00:34:18,500 --> 00:34:21,220

Now the next phenomenon which I think is perhaps

776

00:34:21,220 --> 00:34:23,500

the most exciting and most interesting of all,

777

00:34:23,500 --> 00:34:25,060

connected with the process to me,

778

00:34:25,060 --> 00:34:28,460

they're even more interesting than the process themselves.

779

00:34:28,460 --> 00:34:30,020

And that is the fireball.

780

00:34:31,780 --> 00:34:34,340

Now these flying telephone pole breakers

781

00:34:34,340 --> 00:34:37,180

talked about are not in the fireball class.

782

00:34:38,300 --> 00:34:40,900

Actually, there are three types of fireballs

783

00:34:40,900 --> 00:34:45,340

and now there's a new one being manifested in Washington,

784

00:34:45,340 --> 00:34:47,660

which I don't want to get into that easily.

785

00:34:47,660 --> 00:34:50,020

A lot of things are going inside this,

786

00:34:50,020 --> 00:34:53,180

but time is limited and I want to give it as much as possible.

787

00:34:54,180 --> 00:34:55,900

There are three types of fireballs.

788

00:34:55,900 --> 00:34:58,820

The first type I'm not going to discuss this evening

789

00:34:58,820 --> 00:35:01,260

because it does not pertain to my talk.

790

00:35:02,460 --> 00:35:03,620

We don't have time to.

791

00:35:03,620 --> 00:35:05,260

They may leave us the names

792

00:35:05,260 --> 00:35:08,460

the ones I'm going to mention are the more interesting.

793

00:35:08,460 --> 00:35:10,900

First of all, the number one type of fireball

794

00:35:10,900 --> 00:35:11,900

is a nullflight.

795

00:35:13,660 --> 00:35:16,300

A Dr. Lincoln Laplace in New Mexico,

796

00:35:17,380 --> 00:35:20,100

one of the world's authorities on me and so on,

797

00:35:21,100 --> 00:35:23,300

was asked his opinion when the fireballs

798

00:35:23,300 --> 00:35:25,220

first started to show the green fireballs

799

00:35:25,220 --> 00:35:27,860

in the Southwestern part of the United States.

800

00:35:29,060 --> 00:35:30,820

Many scientists said they were meaners.

801

00:35:30,820 --> 00:35:32,740

Of course, a lot of those were scientists

802

00:35:32,740 --> 00:35:36,580

who would never claim the green fireballs.

803

00:35:36,580 --> 00:35:39,180

In that respect, they had the advantage of total ignorance

804

00:35:39,180 --> 00:35:41,420

because they'd never seen one major set of comedian

805

00:35:41,420 --> 00:35:42,580

because they didn't know.

806

00:35:44,140 --> 00:35:45,780

The same thing with the flying forces,

807

00:35:45,780 --> 00:35:47,620

scientists who say that they're meaners

808

00:35:47,620 --> 00:35:49,300

and they have never seen a flying star.

809

00:35:49,340 --> 00:35:52,140

They didn't even know it was me.

810

00:35:52,140 --> 00:35:54,260

But anyway, Dr. Laplace says,

811

00:35:54,260 --> 00:35:56,820

no, they are not meaners

812

00:35:56,820 --> 00:36:00,220

because these things explode violently.

813

00:36:00,220 --> 00:36:02,500

Meaners are not use freight trains.

814

00:36:02,500 --> 00:36:03,540

These things are green.

815

00:36:03,540 --> 00:36:05,420

Mediums are never green.

816

00:36:05,420 --> 00:36:08,740

And these things leave a copper residue in the atmosphere

817

00:36:08,740 --> 00:36:10,340

after they explode.

818

00:36:10,340 --> 00:36:11,940

Meaners contain no copper.

819

00:36:13,140 --> 00:36:14,300

Now, sometimes they do,

820

00:36:14,300 --> 00:36:17,300

but it's such a small percentage that it's to be negligible.

821

00:36:18,300 --> 00:36:20,220

Very little copper remains.

822

00:36:20,220 --> 00:36:22,780

These things appear to be all copper.

823

00:36:24,100 --> 00:36:25,740

Now, these are set off.

824

00:36:25,740 --> 00:36:27,980

They notice that the spot on the other side

825

00:36:27,980 --> 00:36:31,380

has noticed that there will always be many fireballs

826

00:36:31,380 --> 00:36:34,540

being fired both after atomic explosion.

827

00:36:36,300 --> 00:36:39,300

So this particular type one fireball is set off

828

00:36:39,300 --> 00:36:40,740

to nullify our atmosphere

829

00:36:40,740 --> 00:36:42,980

from the first amount of dead man radioactivity

830

00:36:42,980 --> 00:36:46,060

in the atmosphere of Earth.

831

00:36:46,180 --> 00:36:48,380

Now, the second type, which is the most important

832

00:36:48,380 --> 00:36:50,500

to our talk this evening,

833

00:36:50,500 --> 00:36:52,780

is a remote control device.

834

00:36:52,780 --> 00:36:55,580

Now, this is of such a struggling nature.

835

00:36:56,980 --> 00:36:58,620

I know it was me,

836

00:36:58,620 --> 00:37:03,620

and I did a little research on it in history, by the way,

837

00:37:05,140 --> 00:37:07,300

which I'm going to give you through these facts.

838

00:37:07,300 --> 00:37:09,500

I think there's quite a few.

839

00:37:09,500 --> 00:37:12,060

First of all, face-divideous suggests

840

00:37:12,060 --> 00:37:14,140

that this particular fireball

841

00:37:14,140 --> 00:37:16,300

is composed of crystalline copper.

842

00:37:17,620 --> 00:37:21,860

Now, we thought at first that they meant crystal and copper,

843

00:37:21,860 --> 00:37:25,060

but it's not crystal and copper, it's crystalline copper.

844

00:37:26,940 --> 00:37:28,700

Early remote control devices

845

00:37:28,700 --> 00:37:32,340

have always have an intelligence or a man behind them,

846

00:37:32,340 --> 00:37:34,140

a mind behind them somewhere.

847

00:37:36,260 --> 00:37:38,460

They can't operate, let's say, these things,

848

00:37:38,460 --> 00:37:41,060

besides having an intelligence behind them,

849

00:37:41,060 --> 00:37:42,940

have an intelligence within them.

850

00:37:44,300 --> 00:37:45,620

Now, it's difficult for us to say

851

00:37:45,620 --> 00:37:47,780

until the crystal looks and thinks.

852

00:37:47,780 --> 00:37:49,060

However, very recently,

853

00:37:49,060 --> 00:37:51,300

scientists have made the announcement

854

00:37:51,300 --> 00:37:54,700

that very shortly, well, by shortly, within a few years,

855

00:37:54,700 --> 00:37:56,740

we were not having these paints running this way

856

00:37:56,740 --> 00:37:57,820

to record anything,

857

00:37:58,780 --> 00:38:01,380

because they discovered that a crystal,

858

00:38:01,380 --> 00:38:06,380

an inch square, will record and hold 2,000 items

859

00:38:06,780 --> 00:38:09,700

of information, 2,000 items of information.

860

00:38:09,700 --> 00:38:13,820

You can carry around many, many hours of tape recording,

861

00:38:14,260 --> 00:38:18,180

something not much bigger than a human crystal.

862

00:38:18,180 --> 00:38:21,260

I mean, it's simple and fast, it's simple.

863

00:38:21,260 --> 00:38:23,620

So we're getting very close to these things ourselves,

864

00:38:23,620 --> 00:38:26,620

simple, I just jump ahead of it, that's all.

865

00:38:26,620 --> 00:38:28,460

Now, I don't see that there's anything

866

00:38:28,460 --> 00:38:30,340

supernatural to the thought, even of course,

867

00:38:30,340 --> 00:38:33,500

to me, there's nothing supernatural in the universe,

868

00:38:33,500 --> 00:38:36,260

because supernatural implies beyond nature.

869

00:38:37,460 --> 00:38:39,620

And you can't have anything beyond nature.

870

00:38:40,620 --> 00:38:43,940

Therefore, so-called spiritual manifestation,

871

00:38:43,940 --> 00:38:47,100

mental or any of the other physical, they're all one.

872

00:38:48,180 --> 00:38:50,820

Science and religion are really one.

873

00:38:50,820 --> 00:38:52,700

It's only in our own minds that we separate,

874

00:38:52,700 --> 00:38:54,700

but they never were separated actually.

875

00:38:56,420 --> 00:38:58,940

Someone one time down here in Cincinnati asked me,

876

00:38:58,940 --> 00:39:00,500

they said, well, why in heaven's name

877

00:39:00,500 --> 00:39:03,060

would anyone want to combine science and religion?

878

00:39:04,220 --> 00:39:06,380

Well, I answered that by saying,

879

00:39:06,380 --> 00:39:08,420

there is no religion higher than truth.

880

00:39:09,420 --> 00:39:11,100

Now, science has some of that religion,

881

00:39:11,100 --> 00:39:15,220

and religion has some of that truth,

882

00:39:15,220 --> 00:39:17,500

and religion has some of that truth.

883

00:39:17,500 --> 00:39:19,860

And that truth will not contradict itself.

884

00:39:21,100 --> 00:39:22,620

It cannot.

885

00:39:22,620 --> 00:39:25,780

I feel that we must tell the religionists

886

00:39:25,780 --> 00:39:27,620

the science of religion,

887

00:39:27,620 --> 00:39:29,620

and the scientists of religion is science.

888

00:39:31,180 --> 00:39:34,900

For many more, the religion has been on the extreme right

889

00:39:34,900 --> 00:39:36,620

and science on the extreme left,

890

00:39:36,660 --> 00:39:40,060

and they're coming closer and closer together all the time.

891

00:39:40,060 --> 00:39:42,660

And they discover it every day

892

00:39:42,660 --> 00:39:44,980

when you're closer and closer together.

893

00:39:46,180 --> 00:39:48,340

Now, these fireballs, right away,

894

00:39:48,340 --> 00:39:51,940

you remember the fireball that came down

895

00:39:51,940 --> 00:39:55,620

and went around the Pentagon and sprained in North Dakota.

896

00:39:55,620 --> 00:39:57,620

He said, he called it an intelligent life

897

00:39:57,620 --> 00:40:00,100

that seemed to follow his plane around.

898

00:40:00,100 --> 00:40:02,340

Well, now they will not contain any little mental

899

00:40:02,340 --> 00:40:04,860

or even height or anything like that.

900

00:40:04,860 --> 00:40:06,460

They are low-control devices.

901

00:40:06,460 --> 00:40:10,260

They are sent out telepathically from another ship

902

00:40:10,260 --> 00:40:13,060

or not another ship, but a space laboratory.

903

00:40:14,060 --> 00:40:16,460

Now, the very occupants of the process,

904

00:40:17,460 --> 00:40:20,980

they say, will have a fireball or two,

905

00:40:20,980 --> 00:40:24,620

that we might have a mascot or a dog or something.

906

00:40:24,620 --> 00:40:26,780

And these things are sent out telepathically

907

00:40:26,780 --> 00:40:29,260

to the area that they want studied.

908

00:40:29,260 --> 00:40:33,260

Now, I believe sincerely that the way they obtained

909

00:40:33,260 --> 00:40:34,860

what we were saying in Arizona

910

00:40:34,860 --> 00:40:37,220

is by one of these low-controlled scanners.

911

00:40:38,180 --> 00:40:39,540

That they dropped down low enough

912

00:40:39,540 --> 00:40:41,340

to pick up our conversation

913

00:40:41,340 --> 00:40:44,300

and perhaps televised the fact to the ship.

914

00:40:45,420 --> 00:40:46,940

That would mean, I don't know that,

915

00:40:46,940 --> 00:40:48,740

but I mean, that would be one way

916

00:40:48,740 --> 00:40:51,740

that they could have learned what we were saying.

917

00:40:53,340 --> 00:40:56,700

Now, not only do these fireballs pick up voices

918

00:40:56,700 --> 00:40:58,900

or anything, they could be recording everything I'm saying.

919

00:40:58,900 --> 00:41:02,140

Now, I make it also televised that they've been parked

920

00:41:02,140 --> 00:41:02,980

on both here.

921

00:41:03,980 --> 00:41:06,380

By the way, the thing doesn't have to be in the room.

922

00:41:06,380 --> 00:41:09,500

It's got some kind of an X-ray-like device

923

00:41:09,500 --> 00:41:11,620

which can go right on through the walls

924

00:41:11,620 --> 00:41:14,580

and so on and pick up whatever they want to.

925

00:41:14,580 --> 00:41:16,580

Not only do these interact with the grass,

926

00:41:16,580 --> 00:41:18,860

but they are going over the fault lines of birth,

927

00:41:18,860 --> 00:41:21,940

which I'm gonna show you a message in a few moments.

928

00:41:21,940 --> 00:41:24,340

And they are constantly patrolling these fault lines,

929

00:41:24,340 --> 00:41:27,100

sending back information on how these things

930

00:41:27,100 --> 00:41:29,300

are taking a stress strain from cognitive waves

931

00:41:29,300 --> 00:41:32,620

on barbless and second-ary because of the atomic bomb.

932

00:41:33,940 --> 00:41:36,460

Now, what about copper and crystal?

933

00:41:36,460 --> 00:41:38,580

I know a few of you here know about this,

934

00:41:38,580 --> 00:41:39,820

so I'm just going to show it in

935

00:41:39,820 --> 00:41:42,260

because it's a very interesting thing in history

936

00:41:42,260 --> 00:41:43,500

about copper and crystal.

937

00:41:43,500 --> 00:41:46,260

First of all, copper is the most common metal on earth.

938

00:41:47,380 --> 00:41:49,780

Most easily appendable, common.

939

00:41:49,780 --> 00:41:52,420

That's naturally proven with the fact that with the earth,

940

00:41:52,420 --> 00:41:53,780

when it went to a metal stage,

941

00:41:53,780 --> 00:41:55,500

it first went to a copper stage,

942

00:41:55,500 --> 00:41:57,100

and then to bronze, and then to iron,

943

00:41:57,100 --> 00:41:58,340

and so on, then to steel.

944

00:41:59,820 --> 00:42:02,540

Now, the ancient Egyptians have a symbol

945

00:42:02,740 --> 00:42:04,940

of an auric cross, which was the ankh,

946

00:42:04,940 --> 00:42:07,500

or the symbol of everlasting eternal life.

947

00:42:09,300 --> 00:42:13,180

This ankh was an auric with a cross off

948

00:42:13,180 --> 00:42:14,500

and a C cross underneath it,

949

00:42:14,500 --> 00:42:17,060

which stood for the male and female principle,

950

00:42:17,060 --> 00:42:18,940

or an egg in its positive and so on.

951

00:42:19,860 --> 00:42:22,700

Now, this cross was later known, the symbol, mind you,

952

00:42:22,700 --> 00:42:26,020

of eternal life, or everlasting life in the Egyptians,

953

00:42:26,020 --> 00:42:28,580

was later known by the medieval Alchemists

954

00:42:29,580 --> 00:42:31,100

as the symbol for copper.

955

00:42:31,980 --> 00:42:34,980

Interestingly, there is known as a symbol

956

00:42:34,980 --> 00:42:37,260

of good, verbal, everlasting life for copper.

957

00:42:38,860 --> 00:42:41,340

Then, even in the economical science today,

958

00:42:41,340 --> 00:42:43,860

the symbol for venus, the imbibation ankh,

959

00:42:46,420 --> 00:42:48,180

the astronomical science of venus.

960

00:42:49,740 --> 00:42:52,060

Also, another connection here,

961

00:42:52,060 --> 00:42:57,220

we get the ankh symbolized by, venus symbolized by the ankh,

962

00:42:57,220 --> 00:43:00,060

also venus is symbolized by copper,

963

00:43:00,100 --> 00:43:02,900

and that's the symbolic metal of venus, this copper.

964

00:43:04,900 --> 00:43:08,380

Now, many of you know, have seen drawings and so on

965

00:43:08,380 --> 00:43:11,340

of ancient people with a band there on their head,

966

00:43:11,340 --> 00:43:13,540

and in the center of them or something.

967

00:43:14,700 --> 00:43:19,500

Now, that was not placed there for artistic decoration

968

00:43:19,500 --> 00:43:22,140

or ornamentation, but was placed there

969

00:43:22,140 --> 00:43:23,380

for a definite purpose.

970

00:43:25,740 --> 00:43:29,180

The stone in this center, many times, was Lothos Landlis,

971

00:43:29,220 --> 00:43:30,900

which is a crystalline copper

972

00:43:30,900 --> 00:43:32,860

or a corrosive product of copper.

973

00:43:34,020 --> 00:43:38,220

But yes, and that was placed over the Camille's land

974

00:43:38,220 --> 00:43:41,900

among ancient people to stimulate philosophy.

975

00:43:41,900 --> 00:43:46,220

Now, some people may laugh, but many of our,

976

00:43:46,220 --> 00:43:48,060

our family in American universities

977

00:43:48,060 --> 00:43:49,740

have been experimenting with philosophy,

978

00:43:49,740 --> 00:43:53,780

such as Duke University, Dr. Ryan's work and so on,

979

00:43:54,780 --> 00:43:57,220

experimenting with existential perception,

980

00:43:57,260 --> 00:44:00,420

and they have discovered that when a subject

981

00:44:00,420 --> 00:44:04,700

in a telepathic experiment has a piece of Lothos Linguistone

982

00:44:04,700 --> 00:44:07,740

paced over the Camille's land here on the forehead,

983

00:44:07,740 --> 00:44:09,820

the telepathic ability increases.

984

00:44:12,420 --> 00:44:16,740

They noticed that to a marked extent, to a marked degree,

985

00:44:16,740 --> 00:44:18,820

the fact that the stone is taken with a fire

986

00:44:18,820 --> 00:44:21,340

over other's land is sort of short-circuit,

987

00:44:21,340 --> 00:44:25,140

which is commanding telepathic ability to increase.

988

00:44:26,140 --> 00:44:28,420

That has been proven by science.

989

00:44:30,180 --> 00:44:33,540

So again, we find these peculiar qualities of copper.

990

00:44:33,540 --> 00:44:35,340

Also, I'll give you many examples,

991

00:44:35,340 --> 00:44:37,460

which I'm not gonna take time now.

992

00:44:37,460 --> 00:44:40,460

You go back into legends and mythology.

993

00:44:40,460 --> 00:44:42,780

Many of the ancients will place pieces of copper

994

00:44:42,780 --> 00:44:46,460

and later call copper coins when it was used in coins.

995

00:44:46,460 --> 00:44:49,500

They will place it over the eyes of a dead person

996

00:44:49,500 --> 00:44:53,300

because the copper, they believe some quality of the copper

997

00:44:53,940 --> 00:44:56,220

had that person's eyes would open again

998

00:44:56,220 --> 00:44:58,100

and they would have a moral life.

999

00:44:58,100 --> 00:45:00,100

It was symbolic of everlasting life.

1000

00:45:02,180 --> 00:45:05,460

Now, Dr. Lines, in her telepathic experiment,

1001

00:45:05,460 --> 00:45:07,980

the D.C. University needed a copper coin

1002

00:45:07,980 --> 00:45:12,820

which would place it over the subject when they experiment.

1003

00:45:12,820 --> 00:45:14,580

So again, copper is in use.

1004

00:45:15,620 --> 00:45:20,340

Now, space visitors say that copper

1005

00:45:20,460 --> 00:45:23,820

is a dimension of quality that no other metal on earth

1006

00:45:23,820 --> 00:45:24,660

possesses.

1007

00:45:26,180 --> 00:45:27,140

Whatever that means.

1008

00:45:27,140 --> 00:45:29,620

I don't know if you can take it for what it's worth,

1009

00:45:29,620 --> 00:45:32,820

but it's a dimension of quality

1010

00:45:32,820 --> 00:45:35,060

that other metals do not possess.

1011

00:45:35,060 --> 00:45:36,700

Now, in combination with crystal,

1012

00:45:36,700 --> 00:45:38,700

you all know the legend and the stories

1013

00:45:38,700 --> 00:45:41,500

about crystal balls with the R.E.M.I.

1014

00:45:41,500 --> 00:45:42,620

continue today.

1015

00:45:43,740 --> 00:45:46,820

It's believed that a person can get glances of the past

1016

00:45:46,820 --> 00:45:50,100

and be conscious to a crystal ball of salt.

1017

00:45:50,860 --> 00:45:52,540

Now, space visitors say that originally

1018

00:45:52,540 --> 00:45:55,100

the ball, the crystal ball, was brought here

1019

00:45:55,100 --> 00:45:57,980

from other space, but it was not a solid ball of crystal.

1020

00:45:57,980 --> 00:46:00,660

It was composed of nine to 13 segments

1021

00:46:00,660 --> 00:46:02,820

which were fitted together

1022

00:46:02,820 --> 00:46:05,020

which on scientific principles

1023

00:46:05,020 --> 00:46:06,900

caused the fraction of life and so on.

1024

00:46:06,900 --> 00:46:09,740

And through that, sometimes they were able to meet

1025

00:46:09,740 --> 00:46:13,460

the past of a particular object, like scientific means,

1026

00:46:13,460 --> 00:46:15,140

or they could even look into the future.

1027

00:46:15,140 --> 00:46:15,980

How do you do it?

1028

00:46:15,980 --> 00:46:17,620

Of course, I don't know.

1029

00:46:17,620 --> 00:46:21,380

Now, many years ago, some of these crystal balls

1030

00:46:21,380 --> 00:46:22,860

were found when they were excavating

1031

00:46:22,860 --> 00:46:24,100

around the Great Firm.

1032

00:46:25,180 --> 00:46:27,580

But because no crystal balls were known

1033

00:46:27,580 --> 00:46:28,940

for many a distant period,

1034

00:46:28,940 --> 00:46:30,660

they thought that they were something modern

1035

00:46:30,660 --> 00:46:32,220

and through the mouth.

1036

00:46:32,220 --> 00:46:35,140

Now, these people say, and it takes them for what it's worth,

1037

00:46:35,140 --> 00:46:39,060

that not to damage, to possess one of the last of these balls

1038

00:46:39,060 --> 00:46:42,260

and was able to make these predictions because of it.

1039

00:46:42,260 --> 00:46:43,820

Whether that's true or not, I don't know,

1040

00:46:43,820 --> 00:46:47,540

but I tell you because I think it's rather interesting.

1041

00:46:47,540 --> 00:46:50,420

So we know crystal and copper,

1042

00:46:50,420 --> 00:46:53,740

the more crystal and copper is very rich

1043

00:46:53,740 --> 00:46:57,180

in our own historical records and legends and so on.

1044

00:46:58,340 --> 00:47:01,780

Now, Facebook says that this particular object,

1045

00:47:01,780 --> 00:47:06,540

when it goes down, it picks up anything which is around it.

1046

00:47:06,540 --> 00:47:10,180

They say, Facebook says that copper has an ability

1047

00:47:10,180 --> 00:47:12,900

to record and maintain only information

1048

00:47:12,900 --> 00:47:15,220

or anything with which it comes in contact.

1049

00:47:15,220 --> 00:47:17,420

It has that superior quality.

1050

00:47:19,220 --> 00:47:22,940

Therefore, it picks up this material, it evaluates it,

1051

00:47:22,940 --> 00:47:27,940

and as you turn light through a prism or a crystal again,

1052

00:47:28,340 --> 00:47:30,100

it turns, goes into a spectrum

1053

00:47:30,100 --> 00:47:32,580

which goes out in molecular form.

1054

00:47:32,580 --> 00:47:35,620

The same thing happens in a crystal, crystal and fiber.

1055

00:47:37,100 --> 00:47:39,820

The particular alien formation is televised

1056

00:47:39,820 --> 00:47:41,980

back in full color and so on,

1057

00:47:41,980 --> 00:47:43,740

and it is then through this crystal

1058

00:47:43,780 --> 00:47:46,420

and it is then out in molecular form

1059

00:47:46,420 --> 00:47:48,020

and it is picked up in the crest.

1060

00:47:49,340 --> 00:47:53,420

Now, anything that's done over a fault line,

1061

00:47:53,420 --> 00:47:55,420

and if any information they pick up there,

1062

00:47:55,420 --> 00:47:58,860

it's sent back to be evaluated in the laboratory.

1063

00:47:58,860 --> 00:48:00,980

So if we can have that picture now, please.

1064

00:48:02,860 --> 00:48:05,660

Now, this is a map of the major fault lines in the world,

1065

00:48:05,660 --> 00:48:07,340

these dark lines and the fault lines.

1066

00:48:07,340 --> 00:48:11,220

Now, a fault line is the line of lead just in the earth's crust,

1067

00:48:11,260 --> 00:48:14,980

along with volcanoes or things like the studios in Italy,

1068

00:48:16,980 --> 00:48:19,900

and some of the last and most famous

1069

00:48:19,900 --> 00:48:22,420

and most famous in the Pacific.

1070

00:48:22,420 --> 00:48:24,540

These are lines of lead that's big cracks

1071

00:48:24,540 --> 00:48:25,460

in the earth's surface.

1072

00:48:25,460 --> 00:48:28,460

Many of you have heard of the fan end of the fault line

1073

00:48:28,460 --> 00:48:31,780

because all of these earthquakes, the disasters

1074

00:48:31,780 --> 00:48:34,740

and so on are several months ago in California.

1075

00:48:34,740 --> 00:48:36,380

The fan end of the fault line,

1076

00:48:37,300 --> 00:48:38,860

well actually it's clear over here,

1077

00:48:38,860 --> 00:48:41,860

but it is sent down to Canada,

1078

00:48:41,860 --> 00:48:46,460

Alaska, Canada and down to in through Seattle,

1079

00:48:46,460 --> 00:48:49,460

or San Francisco, Los Angeles, San Diego

1080

00:48:49,460 --> 00:48:51,020

and down into Mexico.

1081

00:48:53,380 --> 00:48:56,660

Now, the fireballs are sent out over these things,

1082

00:48:56,660 --> 00:48:59,100

the state laboratories, likely they say,

1083

00:48:59,100 --> 00:49:03,500

and are there to determine the condition of these fault lines.

1084

00:49:05,620 --> 00:49:08,140

Now, they said before, atomic bombs, they say,

1085

00:49:08,300 --> 00:49:10,700

they're not causing all of their weather conditions,

1086

00:49:10,700 --> 00:49:15,180

the new carbon vibrations or the new intense vibrations

1087

00:49:15,180 --> 00:49:18,500

that we're going into in the new area of the solar system.

1088

00:49:19,820 --> 00:49:22,420

Atomic bombs only cause,

1089

00:49:24,020 --> 00:49:27,500

only accentuate an already weak distribution,

1090

00:49:27,500 --> 00:49:28,900

like you have a crack in the ground

1091

00:49:28,900 --> 00:49:30,260

and you jump up and down on it,

1092

00:49:30,260 --> 00:49:34,500

why is it going to yield or make a bigger crack or something?

1093

00:49:34,540 --> 00:49:37,860

Unfortunately, our government,

1094

00:49:37,860 --> 00:49:42,020

of course they had to pick an area in the country

1095

00:49:42,020 --> 00:49:43,620

where the population was slow

1096

00:49:43,620 --> 00:49:45,740

in order to experiment with the atomic bombs,

1097

00:49:45,740 --> 00:49:48,980

they couldn't do it outside of Cleveland or anything,

1098

00:49:48,980 --> 00:49:52,060

but unfortunately, perhaps unknown to them,

1099

00:49:52,060 --> 00:49:55,220

they picked the area in New Mexico in a radical

1100

00:49:55,220 --> 00:49:57,220

where one of the world's major fault lines

1101

00:49:57,220 --> 00:49:58,980

goes right through it.

1102

00:49:58,980 --> 00:50:01,340

So the atomic bombs experimented with them

1103

00:50:01,340 --> 00:50:03,380

were set off right over the fault lines.

1104

00:50:05,260 --> 00:50:07,620

Now, recently, Russia has been experimenting

1105

00:50:07,620 --> 00:50:10,380

with atomic bombs as an octopus

1106

00:50:10,380 --> 00:50:12,940

near the polar vent areas of Earth.

1107

00:50:12,940 --> 00:50:15,700

That could also be causing some of the funding weather,

1108

00:50:17,100 --> 00:50:19,260

but it's not wholly responsible for it.

1109

00:50:20,580 --> 00:50:22,660

Another thing I'd like to add here,

1110

00:50:22,660 --> 00:50:24,740

these people say that we have not set off

1111

00:50:24,740 --> 00:50:27,260

a hydrogen bomb nor will we.

1112

00:50:27,260 --> 00:50:31,020

What is called hydrogen is not hydrogen actually, although,

1113

00:50:31,020 --> 00:50:33,020

this is a technical small line,

1114

00:50:33,020 --> 00:50:36,020

but it's tritium and deuterium.

1115

00:50:36,020 --> 00:50:38,740

There are two isotopes of hydrogen.

1116

00:50:38,740 --> 00:50:40,940

With a different atomic weight,

1117

00:50:40,940 --> 00:50:42,660

of course, their tritium and deuterium

1118

00:50:42,660 --> 00:50:44,060

are hydrogen too, in a sense,

1119

00:50:44,060 --> 00:50:46,940

but anyway, if we use pure hydrogen,

1120

00:50:46,940 --> 00:50:48,700

we would destroy this planet.

1121

00:50:49,660 --> 00:50:51,380

They say that that already happened

1122

00:50:51,380 --> 00:50:53,380

with a planet between Mars and Jupiter,

1123

00:50:53,380 --> 00:50:55,500

now known as the asteroid belt,

1124

00:50:55,500 --> 00:50:57,500

which the ancient refer to as lucifer.

1125

00:50:58,500 --> 00:51:01,580

That planet was destroyed by hydrogen bombs.

1126

00:51:02,580 --> 00:51:04,860

Now, I'd rather present to my main say,

1127

00:51:04,860 --> 00:51:07,140

no, that doesn't exist because astronomy knows

1128

00:51:07,140 --> 00:51:12,140

that those asteroids seem about by a cold collision,

1129

00:51:12,340 --> 00:51:14,060

no, sometimes.

1130

00:51:14,060 --> 00:51:17,260

However, now, some lucifer is coming out in astronomy,

1131

00:51:17,260 --> 00:51:20,460

tend to prove that the collision was caused by thermal action,

1132

00:51:22,060 --> 00:51:24,980

radioactivity, or by the kudzu,

1133

00:51:24,980 --> 00:51:26,860

or the lucifer hydrogen power.

1134

00:51:26,860 --> 00:51:29,060

These people say that they explore a couple,

1135

00:51:29,180 --> 00:51:32,980

in the best time, in a confederation of people,

1136

00:51:32,980 --> 00:51:34,420

or in a different planet for example,

1137

00:51:34,420 --> 00:51:37,860

that never again would they allow that to take place.

1138

00:51:37,860 --> 00:51:40,540

Therefore, they say that they themselves,

1139

00:51:40,540 --> 00:51:43,460

although they cannot assure it to a great degree,

1140

00:51:43,460 --> 00:51:45,780

nevertheless, they will interfere that much

1141

00:51:45,780 --> 00:51:48,020

and not allow this planet to be destroyed.

1142

00:51:50,020 --> 00:51:52,100

Now, why are they testing these spot lines?

1143

00:51:52,100 --> 00:51:53,260

The reason for that is,

1144

00:51:53,260 --> 00:51:55,860

if there is a major disaster in some areas,

1145

00:51:55,860 --> 00:51:57,140

they will evacuate.

1146

00:51:58,140 --> 00:52:00,580

Not to another planet necessarily,

1147

00:52:00,580 --> 00:52:03,180

but they will send people off and put them in safe areas

1148

00:52:03,180 --> 00:52:04,780

or they will beat them up in the ships

1149

00:52:04,780 --> 00:52:06,780

until the disaster is over.

1150

00:52:06,780 --> 00:52:08,780

They promise that they will do that.

1151

00:52:09,700 --> 00:52:12,300

Now, I don't want to be a star that is green or gloom,

1152

00:52:12,300 --> 00:52:15,140

that's why I tell you they say the world isn't going to end.

1153

00:52:17,340 --> 00:52:20,300

I don't think we have to worry too much about local disasters.

1154

00:52:20,300 --> 00:52:22,620

They say that local disasters will increase,

1155

00:52:22,620 --> 00:52:23,940

earthquakes will increase.

1156

00:52:23,940 --> 00:52:25,620

They have in the last two years.

1157

00:52:25,780 --> 00:52:27,860

They predicted two years ago they would get worse

1158

00:52:27,860 --> 00:52:29,140

and they have been.

1159

00:52:29,140 --> 00:52:31,620

By the way, just so I'm very quick,

1160

00:52:31,620 --> 00:52:33,700

I always thought of this.

1161

00:52:33,700 --> 00:52:37,380

For instance, when we did the very quick rundown recently,

1162

00:52:37,380 --> 00:52:40,900

the volcano that has been extinct since the history of man

1163

00:52:42,300 --> 00:52:45,740

and they have now been active up here in Alaska,

1164

00:52:45,740 --> 00:52:49,540

throwing ice and other volcanic rain to do on trees.

1165

00:52:49,540 --> 00:52:52,300

That was reported to be some once ago.

1166

00:52:52,300 --> 00:52:55,220

Also, you remember the Ionian Islands disaster

1167

00:52:55,340 --> 00:52:58,700

in the Mediterranean where over 1,200 people died

1168

00:52:58,700 --> 00:53:00,900

in the Greek and Ireland.

1169

00:53:00,900 --> 00:53:04,020

You'll notice that the Ionian Islands are directly over

1170

00:53:04,020 --> 00:53:06,380

two years ago in the major fault line.

1171

00:53:06,380 --> 00:53:07,700

So those three converged,

1172

00:53:07,700 --> 00:53:09,700

the back into the very dangerous area.

1173

00:53:11,300 --> 00:53:13,220

Now, as the state's region has said,

1174

00:53:13,220 --> 00:53:14,660

look to nature for signs.

1175

00:53:14,660 --> 00:53:18,180

If you look to nature ourselves and see those questions

1176

00:53:18,180 --> 00:53:21,460

of things to come, we can see what's coming.

1177

00:53:21,460 --> 00:53:24,660

A few days after the Ionian disaster,

1178

00:53:24,660 --> 00:53:27,740

the Ionian Islands had a disaster

1179

00:53:27,740 --> 00:53:30,100

and you'll notice very, however,

1180

00:53:30,100 --> 00:53:32,420

when our inner sea major fault line converged.

1181

00:53:33,420 --> 00:53:36,580

Now, the world is covered with minor fault lines

1182

00:53:36,580 --> 00:53:40,580

that can stand out just all over here like a roadmap.

1183

00:53:40,580 --> 00:53:43,300

The things are the largest ones, the major ones.

1184

00:53:44,260 --> 00:53:46,300

This work was done about,

1185

00:53:46,300 --> 00:53:49,340

a lot of years ago by a man named John C. Cole.

1186

00:53:50,820 --> 00:53:52,740

The work has been done on a princess.

1187

00:53:53,620 --> 00:53:55,340

Now, we do not have the ability,

1188

00:53:57,180 --> 00:53:58,980

recently some work has been done on it,

1189

00:53:58,980 --> 00:54:01,540

but we do not have the ability to miss work

1190

00:54:01,540 --> 00:54:04,580

to get one of our friends with the North South

1191

00:54:04,580 --> 00:54:06,540

or one who will have an earthquake.

1192

00:54:06,540 --> 00:54:08,580

But recently, scientists now are able,

1193

00:54:08,580 --> 00:54:10,740

within a few hours, to determine whether they'll be

1194

00:54:10,740 --> 00:54:11,580

in an earthquake.

1195

00:54:12,460 --> 00:54:13,580

But these five are all,

1196

00:54:13,580 --> 00:54:16,220

and these people, they are much more than simply able

1197

00:54:16,220 --> 00:54:20,380

to determine the extent of these fault lines

1198

00:54:20,420 --> 00:54:24,940

and the extent of the disaster that may occur to them.

1199

00:54:27,060 --> 00:54:30,100

You probably remember in the news that many witnesses

1200

00:54:30,100 --> 00:54:32,780

before the Algerian quake recently,

1201

00:54:32,780 --> 00:54:35,140

like several hundred people died in the middle,

1202

00:54:35,140 --> 00:54:38,820

the Algerian quake area is right on the world's

1203

00:54:38,820 --> 00:54:41,740

major fault line, right here in Northern Africa.

1204

00:54:41,740 --> 00:54:43,260

Now, just before that happened,

1205

00:54:43,260 --> 00:54:45,100

some of you have just noticed the largest

1206

00:54:45,100 --> 00:54:47,100

skating line, the silent and floating line

1207

00:54:47,100 --> 00:54:48,940

in the sky that's there off the road.

1208

00:54:49,940 --> 00:54:53,660

Just before the quake, that was one of the five bars

1209

00:54:53,660 --> 00:54:56,180

that was detonated after a few foot of the quake

1210

00:54:56,180 --> 00:54:58,580

and had relayed the information back to them

1211

00:54:58,580 --> 00:54:59,420

so cleverly.

1212

00:55:01,380 --> 00:55:03,740

On the east coast where a hurricane has been hitting

1213

00:55:03,740 --> 00:55:07,380

and so on, witnesses have seen it's floating light

1214

00:55:07,380 --> 00:55:09,700

just before the fuel in the storm hit.

1215

00:55:10,660 --> 00:55:12,660

Again, they are measuring the intensity

1216

00:55:12,660 --> 00:55:13,980

of the storm and so on.

1217

00:55:15,420 --> 00:55:17,500

Now, there are many other things that I can give you,

1218

00:55:17,500 --> 00:55:20,820

but I wanted you to see this massive,

1219

00:55:20,820 --> 00:55:22,420

a friend of mine just been checking

1220

00:55:22,420 --> 00:55:24,660

and he's been searching then across the country

1221

00:55:24,660 --> 00:55:27,300

and he noticed that one of these lines is this,

1222

00:55:27,300 --> 00:55:29,700

most of them have been seen in one five bars.

1223

00:55:31,140 --> 00:55:34,620

Now, in 1952, the other time in 1952,

1224

00:55:34,620 --> 00:55:36,660

he's probably some of you remember the largest

1225

00:55:36,660 --> 00:55:37,900

skating line ever seen,

1226

00:55:37,900 --> 00:55:42,100

about a thousand people ran out of their hands.

1227

00:55:42,100 --> 00:55:44,020

It's just a city.

1228

00:55:44,020 --> 00:55:45,340

It's still a great mystery.

1229

00:55:45,460 --> 00:55:47,060

Well, that was another five bars,

1230

00:55:47,060 --> 00:55:51,100

you know, because Seattle is also over the area.

1231

00:55:51,100 --> 00:55:52,220

There's three years in a row

1232

00:55:52,220 --> 00:55:53,700

they just got on a convert.

1233

00:55:53,700 --> 00:55:55,820

They're not commemorial, they're pointing.

1234

00:55:56,900 --> 00:55:59,020

But Seattle is directly over there

1235

00:55:59,020 --> 00:56:01,380

and that was a very dangerous day.

1236

00:56:01,380 --> 00:56:03,700

A recently five bars was incited there,

1237

00:56:03,700 --> 00:56:05,060

asked me by the hundred.

1238

00:56:06,420 --> 00:56:08,420

Power line and power line say that,

1239

00:56:08,420 --> 00:56:11,220

the power line say that the funny thing

1240

00:56:11,220 --> 00:56:12,820

that was happening to the equipment

1241

00:56:12,820 --> 00:56:14,020

in the power hyders.

1242

00:56:15,420 --> 00:56:17,500

And if they look outside and there's funny stuff

1243

00:56:17,500 --> 00:56:19,780

going on, they keep out about 12 feet past you

1244

00:56:19,780 --> 00:56:21,220

on the head.

1245

00:56:21,220 --> 00:56:23,180

One of the reasons that factories have landed

1246

00:56:23,180 --> 00:56:25,940

in the villages and it means out of the way,

1247

00:56:25,940 --> 00:56:27,700

by duty is because if they come over

1248

00:56:27,700 --> 00:56:29,900

to the city like cleaning, they would cause disaster

1249

00:56:29,900 --> 00:56:33,060

with the electronic equipment and electrical equipment.

1250

00:56:33,060 --> 00:56:35,180

They don't want to do that because the hospitals

1251

00:56:35,180 --> 00:56:37,580

and other emergency places,

1252

00:56:37,580 --> 00:56:40,620

that was, of course, on the coast

1253

00:56:40,620 --> 00:56:42,300

is something incredible to do.

1254

00:56:43,300 --> 00:56:45,940

But they are coming down the road here

1255

00:56:45,940 --> 00:56:50,180

to see some flooding on this particular fault.

1256

00:56:50,180 --> 00:56:54,500

Lots of sand and sand in the near future.

1257

00:56:54,500 --> 00:56:56,780

I don't know how long, I don't know myself,

1258

00:56:56,780 --> 00:57:00,620

but there's going to be some trouble out here

1259

00:57:02,220 --> 00:57:03,700

on the west coast.

1260

00:57:03,700 --> 00:57:06,980

A lot of people say, well, maybe they're going to end,

1261

00:57:06,980 --> 00:57:10,260

but it sounds like a lot of human doing to me

1262

00:57:10,260 --> 00:57:11,540

because of these disasters.

1263

00:57:11,540 --> 00:57:14,140

Well, these people are still in the health,

1264

00:57:14,140 --> 00:57:16,180

the health scene is nothing but because of the Algerian

1265

00:57:16,180 --> 00:57:18,020

Christmere's getting her to me.

1266

00:57:19,460 --> 00:57:22,180

And after all, death means living, there will be no,

1267

00:57:22,180 --> 00:57:26,180

we might step out here tonight to be run over by a car.

1268

00:57:26,180 --> 00:57:28,140

Some of them may drop dead at the heart of time before

1269

00:57:28,140 --> 00:57:30,260

there's meetings over, this can happen anytime,

1270

00:57:30,260 --> 00:57:32,820

we all know that, we live with a comfort.

1271

00:57:32,820 --> 00:57:35,300

So we don't have to worry about that,

1272

00:57:35,300 --> 00:57:37,500

whether we're going to die and some day lose

1273

00:57:37,500 --> 00:57:39,300

or some horrible flood or something.

1274

00:57:40,300 --> 00:57:41,460

Because these people say,

1275

00:57:41,460 --> 00:57:43,580

truly, your world is not going to end

1276

00:57:44,580 --> 00:57:48,020

and man has only been given beautiful to inherit.

1277

00:57:48,020 --> 00:57:49,180

And the new way is to come.

1278

00:57:49,180 --> 00:57:51,740

This is what man has been waiting for on earth.

1279

00:57:52,740 --> 00:57:55,900

And these people are here to see us through that.

1280

00:57:56,740 --> 00:57:59,740

You will turn that off, not please them.

1281

00:58:00,660 --> 00:58:03,260

Let the two other things that we're going to have

1282

00:58:03,260 --> 00:58:05,460

before we start to clarify this,

1283

00:58:05,460 --> 00:58:08,860

just to let you know, I have a question and answer period.

1284

00:58:08,860 --> 00:58:10,300

And then I'm going to finish up with

1285

00:58:10,300 --> 00:58:13,020

the mental and spiritual changes.

1286

00:58:13,020 --> 00:58:15,300

I mainly wanted to give you the physical changes

1287

00:58:15,300 --> 00:58:17,340

that I took in place and you can let us

1288

00:58:17,340 --> 00:58:19,660

see things in your own, real changes.

1289

00:58:20,820 --> 00:58:25,220

Another thing, the photographs are melting.

1290

00:58:25,220 --> 00:58:27,100

That's the reason for the oceans lying in,

1291

00:58:27,100 --> 00:58:29,260

the salt and sea and California recently

1292

00:58:29,260 --> 00:58:31,500

has lived in seven to 11 feet.

1293

00:58:31,500 --> 00:58:34,500

And salt water has gotten into the crop areas and so on.

1294

00:58:35,500 --> 00:58:39,660

That's the reason for the Holland and Belgium floods

1295

00:58:39,660 --> 00:58:41,980

here last year and so on.

1296

00:58:41,980 --> 00:58:45,100

The reason for the flood in Italy right now.

1297

00:58:45,100 --> 00:58:46,940

And those things are continuing.

1298

00:58:46,940 --> 00:58:50,860

But the entire weather of gold is warming up.

1299

00:58:50,860 --> 00:58:52,860

I talked to another man in the United States

1300

00:58:52,860 --> 00:58:54,940

the other day in Arizona.

1301

00:58:54,940 --> 00:58:57,180

He said, well, it's not, it's not true.

1302

00:58:57,180 --> 00:59:00,140

It means that the weather is changing

1303

00:59:00,140 --> 00:59:02,540

because we know we're trying to get that,

1304

00:59:02,580 --> 00:59:06,060

that the ocean, the ocean to cycle

1305

00:59:06,060 --> 00:59:08,940

but there are very few things.

1306

00:59:08,940 --> 00:59:11,380

Because the same thing is,

1307

00:59:11,380 --> 00:59:13,740

actually the problem with cycles

1308

00:59:13,740 --> 00:59:17,620

is that now we're going into a colder period.

1309

00:59:17,620 --> 00:59:20,820

But instead we're going, getting warmer all the time.

1310

00:59:22,420 --> 00:59:25,780

That's the same, not getting colder but getting warmer.

1311

00:59:25,780 --> 00:59:27,300

That's why the photographs are melting,

1312

00:59:27,300 --> 00:59:29,180

that's why we're having these floods.

1313

00:59:29,180 --> 00:59:53,220

That's why all of the

1314

00:59:54,220 --> 00:59:56,220

things are going to be very, very cold.

1315

00:59:56,220 --> 00:59:58,220

And that's why we're having these floods.

1316

00:59:58,220 --> 01:00:00,220

And that's why we're having these floods.

1317

01:00:00,220 --> 01:00:02,220

And that's why we're having these floods.

1318

01:00:02,220 --> 01:00:04,220

And that's why we're having these floods.

1319

01:00:04,220 --> 01:00:06,220

And that's why we're having these floods.

1320

01:00:06,220 --> 01:00:08,220

And that's why we're having these floods.

1321

01:00:08,220 --> 01:00:10,220

And that's why we're having these floods.

1322

01:00:10,220 --> 01:00:12,220

And that's why we're having these floods.

1323

01:00:12,220 --> 01:00:14,220

And that's why we're having these floods.

1324

01:00:14,220 --> 01:00:16,220

And that's why we're having these floods.

1325

01:00:16,220 --> 01:00:18,220

And that's why we're having these floods.

1326

01:00:18,220 --> 01:00:20,220

And that's why we're having these floods.

1327

01:00:20,220 --> 01:00:22,220

And that's why we're having these floods.

1328

01:00:22,220 --> 01:00:24,220

And we're having these floods.

1329

01:00:24,220 --> 01:00:48,220

And that's why we're

1330

01:00:48,220 --> 01:00:52,220

And it's very much a feeling, much like the earth.

1331

01:00:52,220 --> 01:00:58,220

They knew that it was dangerous to announce things to the god life from the world.

1332

01:00:58,220 --> 01:01:01,660

The scientists who were on the Mars from the day of the hour and just to do the next

1333

01:01:01,660 --> 01:01:02,660

and shall.

1334

01:01:02,660 --> 01:01:06,220

That's why they say they're not letting out their information.

1335

01:01:06,220 --> 01:01:11,220

However, Dr. Fesson is welcome, scholars of all astronomical society and aliens have

1336

01:01:11,220 --> 01:01:14,220

been asked to speak out of the canal differently.

1337

01:01:14,220 --> 01:01:16,220

They know the speed about the canal.

1338

01:01:16,220 --> 01:01:22,220

Now, I used to be a little obsessed with the way about the government not letting this

1339

01:01:22,220 --> 01:01:26,220

thing out, but after all I think they had a quite a hospitality to handle.

1340

01:01:26,220 --> 01:01:29,220

I mean, let's put ourselves in their position.

1341

01:01:29,220 --> 01:01:36,220

It's not very easy to announce such a thing because there's so many philosophical ramifications

1342

01:01:36,220 --> 01:01:38,220

and other implications.

1343

01:01:38,220 --> 01:01:44,220

I believe myself that they have been educating the people of the United States for several

1344

01:01:44,220 --> 01:01:46,220

years now, two philosophies.

1345

01:01:46,220 --> 01:01:51,220

One moment an article will be sort of anti-phosphor the next minute, cold-phosphor.

1346

01:01:51,220 --> 01:01:55,220

That way they get it sustained and they get it to tough.

1347

01:01:55,220 --> 01:02:00,220

Through controversy they get meaning such as this going and they get people to tough.

1348

01:02:00,220 --> 01:02:07,220

And of course Americans are great talkies anyway, so that way they learn more about a more

1349

01:02:07,220 --> 01:02:08,220

complicated topic.

1350

01:02:08,220 --> 01:02:14,220

I had something else in my mind that I was going to talk to you about, and just flipped

1351

01:02:14,220 --> 01:02:18,220

my mind maybe it will come up during questions and answers.

1352

01:02:18,220 --> 01:02:25,220

It has something again to do with the changes, but I would like to say again that our weather

1353

01:02:25,220 --> 01:02:26,220

is warming up.

1354

01:02:26,220 --> 01:02:30,220

Many people flock, if they are even so honest, they will lose their winter, they are getting

1355

01:02:30,220 --> 01:02:31,220

milder and so on.

1356

01:02:31,220 --> 01:02:38,220

But eventually there will be a tropical climate through the very.

1357

01:02:38,220 --> 01:02:46,220

Before we have the question and answer period, I would like to say we have two guests tonight

1358

01:02:46,220 --> 01:02:48,220

which I would like to introduce.

1359

01:02:48,220 --> 01:02:54,220

First of all from Columbus, Ohio, and the solo foster lecturer here who I would like to stand

1360

01:02:54,220 --> 01:03:00,220

up and have him stand up and take a bowing stand to be lecturing tomorrow at Lancaster, Ohio.

1361

01:03:00,220 --> 01:03:01,220

Isn't that right, Gats?

1362

01:03:01,220 --> 01:03:02,220

Gats Grand from Columbus.

1363

01:03:02,220 --> 01:03:07,220

But other young fellow who is known to some of you folks here in Cleveland who I was in

1364

01:03:07,220 --> 01:03:25,220

contact with and became a friend of sometime before we made radio contact in August of

1365

01:03:25,220 --> 01:03:26,220

1952 in Arizona.

1366

01:03:27,220 --> 01:03:35,220

He has done quite a bit and thought it worked since 1952 and now has a solo roundup column

1367

01:03:35,220 --> 01:03:36,220

in Midfield magazine.

1368

01:03:36,220 --> 01:03:39,220

I am sure some of you have been reading.

1369

01:03:39,220 --> 01:03:41,220

Tom Conella from Sacred Heights.

1370

01:03:41,220 --> 01:03:54,220

So if we could have a few minutes pause now for five minutes, but you ladies and gentlemen

1371

01:03:54,220 --> 01:03:55,220

please.

1372

01:03:55,220 --> 01:03:58,220

I am sorry to ask you a few questions and answers.

1373

01:03:58,220 --> 01:04:04,220

If you ask questions you are wanting to involve so we don't have to spend too long on one

1374

01:04:04,220 --> 01:04:05,220

question.

1375

01:04:05,220 --> 01:04:06,220

Yes, sir.

1376

01:04:06,220 --> 01:04:12,220

The question is, I will repeat this to the recorders, the question here, the basis of

1377

01:04:12,220 --> 01:04:20,220

our radio contact, is that an international morphe, I am sorry that I didn't mention that,

1378

01:04:20,220 --> 01:04:21,220

yes.

1379

01:04:21,220 --> 01:04:28,220

I am sorry that I didn't mention that, yes.

1380

01:04:28,220 --> 01:04:32,220

I am sorry that I didn't mention that, yes.

1381

01:04:32,220 --> 01:04:37,220

I am sorry that I didn't mention that, yes.

1382

01:04:37,220 --> 01:04:40,220

I am sorry that I didn't mention that, yes.

1383

01:04:40,220 --> 01:04:43,220

I am sorry that I didn't mention that, yes.

1384

01:04:43,220 --> 01:04:50,220

I am sorry that I didn't mention that, yes.

1385

01:04:50,220 --> 01:04:54,220

I am sorry that I didn't mention that, yes.

1386

01:04:54,220 --> 01:04:59,220

I am sorry that I didn't mention that, yes.

1387

01:04:59,220 --> 01:05:04,220

I am sorry that I didn't mention that, yes.

1388

01:05:04,220 --> 01:05:11,220

I am sorry that I didn't mention that, yes.

1389

01:05:11,220 --> 01:05:16,220

I am sorry that I didn't mention that, yes.

1390

01:05:16,220 --> 01:05:22,220

I am sorry that I didn't mention that, yes.

1391

01:05:22,220 --> 01:05:26,220

I am sorry that I didn't mention that, yes.

1392

01:05:26,220 --> 01:05:30,220

I am sorry that I didn't mention that, yes.

1393

01:05:30,220 --> 01:05:36,220

I believe that the answer to that is that these people say that as far as they have

1394

01:05:36,220 --> 01:05:45,220

surveyed in space with their own craft, they have always found planets and human beings.

1395

01:05:45,220 --> 01:05:48,220

Wherever they have gone.

1396

01:05:48,220 --> 01:05:56,220

That our Earth, not being the lowest in progression, but certainly not being the highest,

1397

01:05:56,220 --> 01:06:01,220

in this particular section of the universe that they surveyed and that they know about,

1398

01:06:01,220 --> 01:06:05,220

this planet is the only one knowing war.

1399

01:06:05,220 --> 01:06:09,220

On this planet, we are the only ones that kill our fellow man.

1400

01:06:09,220 --> 01:06:11,220

The others do not.

1401

01:06:11,220 --> 01:06:15,220

Another reason why this one is being singled out is, of course, I'm going to get into that.

1402

01:06:15,220 --> 01:06:20,220

I hope to usually the question is bring us right into the next part of my lecture,

1403

01:06:20,220 --> 01:06:27,220

but the reason they have singled us out is because the cosmic rays on bottom will change man

1404

01:06:27,220 --> 01:06:30,220

mentally and spiritually.

1405

01:06:30,220 --> 01:06:33,220

His mind will open because of his causes of body.

1406

01:06:33,220 --> 01:06:37,220

If his mind doesn't open, he eliminates himself.

1407

01:06:37,220 --> 01:06:39,220

I'm going to discuss a little later.

1408

01:06:39,220 --> 01:06:44,220

But they are here mainly to show us that truly the universe is one.

1409

01:06:44,220 --> 01:06:49,220

They want stress, the fact that the universal mind of all men.

1410

01:06:49,220 --> 01:06:52,220

And they want unity stress.

1411

01:06:52,220 --> 01:07:03,220

Not meaning God necessarily, but unity as the law, as universal law, because we are the planet that needs it.

1412

01:07:03,220 --> 01:07:05,220

Yes.

1413

01:07:05,220 --> 01:07:15,220

The question is, do I define interstellar space as space within the solar system or outside of our solar system

1414

01:07:15,220 --> 01:07:18,220

or just what do I mean?

1415

01:07:18,220 --> 01:07:21,220

Well, by interstellar means we start at star.

1416

01:07:21,220 --> 01:07:28,220

So it actually is beyond our solar system.

1417

01:07:28,220 --> 01:07:31,220

I mean, the term is means we start at star.

1418

01:07:31,220 --> 01:07:34,220

The question is if these people are connected to health,

1419

01:07:34,220 --> 01:07:37,220

why don't they land and assist us?

1420

01:07:37,220 --> 01:07:40,220

Well, they will do that by the end time.

1421

01:07:40,220 --> 01:07:43,220

You know, it's just like the old question that people used to ask,

1422

01:07:43,220 --> 01:07:47,220

well, if there is a God that is all-loving, why does he stop war?

1423

01:07:47,220 --> 01:07:52,220

People are not saying that the bosses are connected, how can I don't say stop?

1424

01:07:52,220 --> 01:07:54,220

Well, this is their answer.

1425

01:07:54,220 --> 01:07:59,220

First of all, we cannot have two things by putting the gun in a man's bag and forcing him to be peaceful.

1426

01:07:59,220 --> 01:08:03,220

They say that our idea that peace is for the strong, you get asked to it.

1427

01:08:03,220 --> 01:08:05,220

And the fallacies.

1428

01:08:05,220 --> 01:08:09,220

That we only have things that we learn to have faith in.

1429

01:08:09,220 --> 01:08:15,220

Therefore, they cannot interfere and force us to do anything, because then we are not truly learning anything.

1430

01:08:15,220 --> 01:08:20,220

Just as if the children in the eighth grade would go down and disturb the third grade

1431

01:08:20,220 --> 01:08:25,220

because they're not in the eighth grade and they're going to set their leftists in so on, you can't do that.

1432

01:08:25,220 --> 01:08:29,220

Neither can you get to the fourth grade because you say to the third grade,

1433

01:08:29,220 --> 01:08:33,220

if you have to take it over ten times, you're going to get it.

1434

01:08:33,220 --> 01:08:37,220

And you can't go to the fourth grade because you get to the third grade.

1435

01:08:37,220 --> 01:08:41,220

Therefore, they say that there are a lot of things that they can't interfere with here

1436

01:08:41,220 --> 01:08:43,220

because of universal law.

1437

01:08:43,220 --> 01:08:45,220

They can't force us to do anything.

1438

01:08:45,220 --> 01:08:50,220

Only, they will assess only as we ask them to.

1439

01:08:50,220 --> 01:08:54,220

They said many people say, well, why did you have an experience?

1440

01:08:54,220 --> 01:08:58,220

Did you something special or why did not you something?

1441

01:08:58,220 --> 01:09:04,220

Now, the answer to that is they say, we do not choose you, we do choose us.

1442

01:09:04,220 --> 01:09:09,220

They are not going around earth looking for a Republican or a Democrat or a good nation

1443

01:09:09,220 --> 01:09:16,220

or a man who doesn't smoke or drink or become a man's skinner of a particular color.

1444

01:09:16,220 --> 01:09:20,220

They're not interested in those things or what you particularly think.

1445

01:09:20,220 --> 01:09:22,220

That's your own business.

1446

01:09:22,220 --> 01:09:27,220

They say that they do not smoke and they do not drink in their particular world as we do,

1447

01:09:27,220 --> 01:09:31,220

but if we want to do it, it's our own body and that's up to us.

1448

01:09:31,220 --> 01:09:36,220

But in the overall picture of the thing, they're not too concerned

1449

01:09:36,220 --> 01:09:41,220

because they say life is eternal and one body is only one overcoat

1450

01:09:41,220 --> 01:09:44,220

and we take them off and put them on.

1451

01:09:44,220 --> 01:09:49,220

That's the various planets are only how we do the Father's message.

1452

01:09:49,220 --> 01:09:52,220

That's why I said in my father's house there are many messages.

1453

01:09:52,220 --> 01:09:58,220

That each planet has a class rule where a man learns certain lessons.

1454

01:09:58,220 --> 01:10:01,220

He comes here for certain pleasure-paying experiences

1455

01:10:01,220 --> 01:10:05,220

where he has learned those things no matter how many times he has to repeat the lessons.

1456

01:10:05,220 --> 01:10:09,220

He eventually gets to the very door to the next grade.

1457

01:10:09,220 --> 01:10:11,220

Yes.

1458

01:10:11,220 --> 01:10:15,220

Well, in the card reading of his rule, let it be hard to answer.

1459

01:10:15,220 --> 01:10:19,220

The question is, if we are not below us, where are we?

1460

01:10:19,220 --> 01:10:23,220

Well, in space they say there are...

1461

01:10:23,220 --> 01:10:28,220

In our world they say that they know of, they have heard of,

1462

01:10:28,220 --> 01:10:33,220

when they gave one example, where men are filming around with clubs

1463

01:10:33,220 --> 01:10:37,220

and in one particular world they just discovered the wheel and an axle

1464

01:10:37,220 --> 01:10:41,220

and they discovered that they put these wax on the axle lasted longer.

1465

01:10:41,220 --> 01:10:47,220

Now, there are wheels like that, but in our particular section, in this area of the universe,

1466

01:10:47,220 --> 01:10:51,220

whatever that might mean, I'm only telling you what they say,

1467

01:10:51,220 --> 01:10:55,220

they say we are the only ones knowing more.

1468

01:10:55,220 --> 01:10:58,220

The others are more highly advanced than we are.

1469

01:10:58,220 --> 01:11:00,220

We see problems with those grades,

1470

01:11:00,220 --> 01:11:04,220

and I think it goes back to the time of Copernicus when the people were awfully angry

1471

01:11:04,220 --> 01:11:08,220

because he said that the Earth was going around the sun

1472

01:11:08,220 --> 01:11:11,220

and there was no sun more than going around the Earth.

1473

01:11:11,220 --> 01:11:13,220

In fact, they liked avoiding the space.

1474

01:11:13,220 --> 01:11:19,220

And some other scientists, they did burn into space, for saying that the Earth is not the center of the universe.

1475

01:11:19,220 --> 01:11:26,220

But the same thing now. People do not like to think that there is anything smarter in outer space than they are.

1476

01:11:26,220 --> 01:11:33,220

My lecture was Truman Bestman in Cincinnati when a very well-known newspaper woman there came up and said,

1477

01:11:33,220 --> 01:11:37,220

you know, I can go through this whole thing and all that, but she said,

1478

01:11:37,220 --> 01:11:43,220

about this power and about this advancement, she said, I know with many, very definitely,

1479

01:11:43,220 --> 01:11:46,220

that when a doctor is made, a miracle will do it.

1480

01:11:47,220 --> 01:11:55,220

I think that's nice. That's very patriotic, and it's very nice.

1481

01:11:55,220 --> 01:11:59,220

We love our country and we like the things that we are ahead in all these things

1482

01:11:59,220 --> 01:12:04,220

that will assist the world, but nevertheless, there are a lot of rules out there

1483

01:12:04,220 --> 01:12:06,220

and a lot of things have been happening.

1484

01:12:06,220 --> 01:12:09,220

Even Dr. Shifley at Harvard has said they're quadrillion.

1485

01:12:09,220 --> 01:12:13,220

So I have the quadrillion world in space that can contain life as ours.
