

1

00:00:00,000 --> 00:00:07,440

A man named Keely back in Pennsylvania built a free energy motor and demonstrated it to

2

00:00:07,440 --> 00:00:10,880

the highest scientific minds in this country.

3

00:00:10,880 --> 00:00:16,240

Keely later died in an insane asylum and his motor disappeared.

4

00:00:16,240 --> 00:00:19,080

Nobody has ever been able to find out what happened to him.

5

00:00:19,080 --> 00:00:24,400

We had a man in 1929 on a Cleveland airport that had a section of one hangar rented there

6

00:00:24,400 --> 00:00:27,560

and it was canvassed off so you couldn't see what was there.

7

00:00:28,000 --> 00:00:32,800

For over a year that man worked behind the canvas and as far as anybody on the airport

8

00:00:32,800 --> 00:00:37,000

went we all figured he was a little off the beam because he never did anything when he

9

00:00:37,000 --> 00:00:40,200

said good morning or good night or how are you.

10

00:00:40,200 --> 00:00:42,360

The man's name was Henderson.

11

00:00:42,360 --> 00:00:49,280

One morning when I came to my job there at Cleveland airport I saw a Waco 10 airplane

12

00:00:49,280 --> 00:00:51,240

setting out on the line.

13

00:00:51,240 --> 00:00:56,480

The only difference in it than the other Waco 10s was the calling was changed.

14

00:00:56,520 --> 00:01:01,320

This man Henderson came out and got in this airplane and flew it around the field.

15

00:01:01,320 --> 00:01:04,120

We didn't hear a sound from an engine.

16

00:01:04,120 --> 00:01:08,720

Everybody on the field rushed up to the ship after landing and he climbed out and permitted

17

00:01:08,720 --> 00:01:13,600

us to open the calling and look him into the cockpit into any part of the airplane.

18

00:01:13,600 --> 00:01:17,440

There were no batteries in the airplane, there were no gas tanks in the airplane.

19

00:01:17,440 --> 00:01:23,440

There were two devices under the calling and looked like our electric motors, one of them

20

00:01:23,440 --> 00:01:27,520

in to him and connected by a shaft.

21

00:01:27,520 --> 00:01:30,360

I saw that myself, I saw it fly.

22

00:01:30,360 --> 00:01:34,160

The next day when I came to work Henderson the canvas, the airplane and the whole work

23

00:01:34,160 --> 00:01:35,520

was gone.

24

00:01:35,520 --> 00:01:37,360

We never saw him again.

25

00:01:37,360 --> 00:01:39,320

We didn't know where it went.

26

00:01:39,320 --> 00:01:41,960

Another man named Henderson developed a motor.

27

00:01:41,960 --> 00:01:48,560

There were about a half a dozen of these free energy devices developed to produce power.

28

00:01:48,560 --> 00:01:52,120

They work on the same principle as planar work time.

29

00:01:52,120 --> 00:01:57,560

In fact these spaceships, the disks are copied after planets.

30

00:01:57,560 --> 00:02:05,160

They use exactly the same principle in space relative to their travel that the planets use.

31

00:02:05,160 --> 00:02:09,800

We're sitting here right now on a spaceship that we call the Earth.

32

00:02:09,800 --> 00:02:17,480

It's traveling 1,000 miles an hour on its axis and 1,800 miles an hour on its orbit.

33

00:02:17,480 --> 00:02:21,640

And we are following the sun through space at over 12 miles a second.

34

00:02:21,640 --> 00:02:23,640

And yet we register no sign of movement.

35

00:02:23,640 --> 00:02:28,320

And those three movements alone not counting the motion in the galaxy.

36

00:02:28,320 --> 00:02:32,600

We are wobbling on our North Pole which we can't feel.

37

00:02:32,600 --> 00:02:36,500

These motions are not felt because we are subject to the gravity of this body we're

38

00:02:36,500 --> 00:02:38,440

riding on.

39

00:02:38,440 --> 00:02:43,240

These people in copying the principle of planets and applying it to ships don't have to pay

40

00:02:43,240 --> 00:02:48,680

anybody for the power or put any fuel in the tanks any more than the Earth has to.

41

00:02:48,680 --> 00:02:51,640

There have been many people asked the question, what do they breathe?

42

00:02:51,640 --> 00:02:53,040

Do they carry compressed air?

43

00:02:53,040 --> 00:02:55,480

Do they carry oxygen and tanks?

44

00:02:55,480 --> 00:02:59,040

Well, we're not carrying oxygen and tanks.

45

00:02:59,040 --> 00:03:04,400

And in their copying of the planets they also provided the same method for producing the

46

00:03:04,400 --> 00:03:07,280

air and the oxygen they breathe.

47

00:03:07,280 --> 00:03:10,640

The air and the oxygen we breathe is generated by the plants.

48

00:03:10,640 --> 00:03:14,480

We never stop to think about these things because they're generally accepted as part

49

00:03:14,480 --> 00:03:19,240

of something we get for nothing from the time we're born to the time we die.

50

00:03:19,240 --> 00:03:23,560

Nevertheless, the planet generates our atmosphere.

51

00:03:23,560 --> 00:03:27,760

Astronomy has had so many things refuted in the last five years that they have been put

52

00:03:27,760 --> 00:03:33,440

on their secrecy because they don't want the public to find out that in the last five years

53

00:03:33,440 --> 00:03:38,720

they have upset the entire table of all the information that has been printed in regard

54

00:03:38,800 --> 00:03:42,480

to the stars and other planets and life.

55

00:03:42,480 --> 00:03:46,640

Science itself, if it produced a book every week, the book would be out of sleep by the

56

00:03:46,640 --> 00:03:53,160

time the next one came out the next week because things are moving so rapidly.

57

00:03:53,160 --> 00:03:59,160

No man and no one individual can possibly understand the full concept of this picture.

58

00:03:59,160 --> 00:04:05,200

This is the greatest thing that has happened to this planet since the birth of Christ.

59

00:04:05,200 --> 00:04:11,080

These people have stated that they originally colonized this planet.

60

00:04:11,080 --> 00:04:12,080

That's how people got here.

61

00:04:12,080 --> 00:04:14,080

They placed a colony on the planet.

62

00:04:14,080 --> 00:04:15,080

That was 86,000 years ago.

63

00:04:15,080 --> 00:04:20,080

Prior to that time there were two other civilizations on the planet.

64

00:04:20,080 --> 00:04:26,080

The ships themselves are coming from various places.

65

00:04:26,080 --> 00:04:29,080

They work in a large confederation.

66

00:04:30,080 --> 00:04:36,080

They said they had 51 solar systems and 601 individual planets in this confederation,

67

00:04:36,080 --> 00:04:39,080

which they call the Atomic Confederation of Man.

68

00:04:39,080 --> 00:04:42,080

They said that's where we got the name Adam in the Bible.

69

00:04:42,080 --> 00:04:46,080

It was taken from their original colony that's the colony they landed here.

70

00:04:46,080 --> 00:04:52,080

It has been passed down through history and interpreted today as a man, although it was

71

00:04:52,080 --> 00:04:54,080

actually a colony.

72

00:04:54,080 --> 00:04:58,080

Our astronomers know that day the moon is in habit.

73

00:04:58,080 --> 00:05:01,080

They know Mars is in habit.

74

00:05:01,080 --> 00:05:06,080

These are facts that you can find out if you can get on the inside of astronomy.

75

00:05:06,080 --> 00:05:11,080

The geometric lines they call canals on the surface of Mars are not half-hazard.

76

00:05:11,080 --> 00:05:18,080

They are the shortest distance between different points in straight lines on the surface of

77

00:05:18,080 --> 00:05:20,080

that planet.

78

00:05:20,080 --> 00:05:26,080

It's been brought out a number of times that these particular lines must be canal because

79

00:05:26,080 --> 00:05:32,080

we couldn't conceive of any life having anything straight that would show up from this planet.

80

00:05:32,080 --> 00:05:35,080

There could be anything other than a waterway.

81

00:05:35,080 --> 00:05:37,080

They aren't canals.

82

00:05:37,080 --> 00:05:40,080

They're what the people on Mars call light waves.

83

00:05:40,080 --> 00:05:47,080

They're the method by which they travel between the various large cities at the intersections of those lines.

84

00:05:47,080 --> 00:05:54,080

Our astronomers have photographed any number of lights on the moon, changing lights, moving

85

00:05:54,080 --> 00:05:55,080

lights.

86

00:05:55,080 --> 00:06:00,080

In 1954 they photographed the first man-made structure they've ever pictured on the moon.

87

00:06:00,080 --> 00:06:03,080

Prior to that time, apparently it wasn't there.

88

00:06:03,080 --> 00:06:09,080

It was built suddenly and photographed over the Maricrestian crater, a hundred-mile-long

89

00:06:09,080 --> 00:06:13,080

man-made bridge from rim to rim of the equator.

90

00:06:13,080 --> 00:06:20,080

That can be verified in any number of recent checks on the moon's surface.

91

00:06:20,080 --> 00:06:25,080

In fact, you can see it through a good 12-inch telescope in any amateur's back yard.

92

00:06:25,080 --> 00:06:30,080

The best time to observe it is the first three days of a new moon.

93

00:06:30,080 --> 00:06:38,080

We have a 12-inch telescope going up at the property up there, and we intend to photograph

94

00:06:38,080 --> 00:06:42,080

that bridge through that telescope and publish the pictures of it.

95

00:06:42,080 --> 00:06:47,080

If astronomy won't reveal these things that are not security, Russia knows they're there.

96

00:06:47,080 --> 00:06:50,080

Every nation on the earth knows they're there.

97

00:06:50,080 --> 00:06:52,080

There's astronomers know they're there.

98

00:06:52,080 --> 00:06:58,080

It is not something that should be hidden from the people because the proof that life exists

99

00:06:58,080 --> 00:07:05,080

elsewhere is only another manifestation that there is a creative intelligence greater than man.

100

00:07:05,080 --> 00:07:09,080

It is the very verification that the Bible tries to teach us.

101

00:07:09,080 --> 00:07:16,080

These things being withheld are only evidence of a destructive element and a force trying

102

00:07:16,080 --> 00:07:19,080

to keep the people in ignorance.

103

00:07:19,080 --> 00:07:26,080

Naturally, with the investigation under the military and the Air Force, the Air Force is not responsible

104

00:07:26,080 --> 00:07:28,080

to the public.

105

00:07:28,080 --> 00:07:32,080

They don't have to say anything or they can say anything they want either way.

106

00:07:32,080 --> 00:07:34,080

They're not elected but a people.

107

00:07:34,080 --> 00:07:36,080

They're only responsible to the administration.

108

00:07:36,080 --> 00:07:40,080

Nevertheless, the administration knows the answers.

109

00:07:40,080 --> 00:07:43,080

Ike himself has talked to these people on these ships.

110

00:07:43,080 --> 00:07:46,080

Truman talked to these people.

111

00:07:46,080 --> 00:07:52,080

Ike flew out of Air Palm Springs two years ago specifically to be taken from Palm Springs

112

00:07:52,080 --> 00:07:57,080

over to March Air Force Base and to Murak Air Force Base to converse with these people at their requests

113

00:07:57,080 --> 00:07:59,080

when they landed there.

114

00:07:59,080 --> 00:08:02,080

Yet the public was never told the facts.

115

00:08:02,080 --> 00:08:08,080

We know this happened because Ike was supposed to come up to our place to talk to us.

116

00:08:08,080 --> 00:08:13,080

The night before his landing in Palm Springs, there was a GI six-wheeler truck pulled in there

117

00:08:13,080 --> 00:08:20,080

with about 40 MPs on it ready to set up to provide the security for the President.

118

00:08:20,080 --> 00:08:26,080

These things don't just happen out of the ordinary to anybody.

119

00:08:26,080 --> 00:08:30,080

Lindbergh flew the Atlantic but that doesn't mean we all can fly the Atlantic.

120

00:08:30,080 --> 00:08:35,080

Each of us through our lives have various experiences that other people don't have.

121

00:08:35,080 --> 00:08:43,080

The fact that this has occurred to us has come about because we had been in the process

122

00:08:43,080 --> 00:08:52,080

in our organization of working and researching into thought communication.

123

00:08:52,080 --> 00:08:58,080

We had had over three years' experience in the reception and transmission of thought messages.

124

00:08:58,080 --> 00:09:04,080

Our science today can photograph the thoughts of any individual they want to put before a machine.

125

00:09:04,080 --> 00:09:07,080

They don't look like thoughts, they look like flames.

126

00:09:07,080 --> 00:09:15,080

And they are the basic reason for the four-element principle that's brought out in many sciences,

127

00:09:15,080 --> 00:09:18,080

the fire earth, air and water principle.

128

00:09:18,080 --> 00:09:22,080

The fire represents the creative force or thought.

129

00:09:22,080 --> 00:09:30,080

And every thought, regardless of what it is, will register as a flame in this device.

130

00:09:30,080 --> 00:09:36,080

These space ships vary in size depending on what they are used for.

131

00:09:36,080 --> 00:09:48,080

They have 369 varieties or sizes or types, just like we have any cars, scooters, bicycles, automobiles, trains, ships and everything else.

132

00:09:48,080 --> 00:09:57,080

They have 369 types and sizes and each one is designed for a specific purpose and used only for that purpose.

133

00:09:57,080 --> 00:10:02,080

The scout ships that have been mostly observed around our surface have been photographed any number of times.

134

00:10:02,080 --> 00:10:08,080

We have any number of photographs out at our place, on the wall, in the restaurant,

135

00:10:08,080 --> 00:10:13,080

that have been taken both through telescopes and with box cameras,

136

00:10:13,080 --> 00:10:17,080

good like the cameras and different types of cameras.

137

00:10:17,080 --> 00:10:26,080

One ship in particular, the Venusium Bellcraft, which is a scout ship that can normally carry four people,

138

00:10:27,080 --> 00:10:35,080

has been photographed in Benzo Wheel, Scotland and the United States by three different people that didn't even know each other.

139

00:10:35,080 --> 00:10:46,080

And yet the photographs are identical in the fact that if you run a triangulation and bring these ships in the scale and the different attitudes they're in,

140

00:10:46,080 --> 00:10:53,080

you'll see that the dimensions are all the same and the appearance is the same, the number of portals is the same.

141

00:10:53,080 --> 00:11:00,080

I was particularly honored in 1953 to have one of these ships land out there at our place.

142

00:11:00,080 --> 00:11:08,080

They landed for definite reasons because we had been in thought communication with them for a year and a half prior to that time.

143

00:11:08,080 --> 00:11:19,080

It's difficult for people to realize that this rostrum wouldn't have existed if somebody hadn't thought before it was made.

144

00:11:19,080 --> 00:11:31,080

Anything that you can look upon as building the tables, anything here was the result of somebody's thought and thought is the creative force of all things.

145

00:11:31,080 --> 00:11:38,080

So in this research we had received a number of communications from these people.

146

00:11:38,080 --> 00:11:48,080

At first they only gave us little detailed data on events that were going to occur in order to verify themselves to us

147

00:11:48,080 --> 00:11:55,080

and make us know that they knew the score of not only what was going on but what was going to happen.

148

00:11:55,080 --> 00:12:01,080

We published a paper and have since 1953 that was all over the world.

149

00:12:01,080 --> 00:12:08,080

In the last issue, the first part of July, I printed data in there that they said was going to happen.

150

00:12:08,080 --> 00:12:17,080

The first line of that information was that owing to the atomic tests in the Pacific there would be violent earthquakes in the Mediterranean area

151

00:12:17,080 --> 00:12:25,080

and today's paper bears that out. The Greek islands were practically wiped out by earthquakes yesterday.

152

00:12:25,080 --> 00:12:31,080

In any of these cases, if you want to check on it yourself, you look on a globe.

153

00:12:31,080 --> 00:12:38,080

In the position opposite on the globe to where the tests are conducted, whether it's Siberia, Australia, or the King,

154

00:12:38,080 --> 00:12:47,080

earthquakes will result in the opposite position on the globe after the tests, exactly opposite to the position of the tests.

155

00:12:47,080 --> 00:12:55,080

Our science measures the strength and force of these tests through seismographs, which are earthquake instruments.

156

00:12:55,080 --> 00:13:05,080

Now if you can triangulate from three different positions hundreds of miles away of force and measure the extent of that destination,

157

00:13:05,080 --> 00:13:15,080

it's coming through the crust of the earth. This is just about as insane as some airline pilot were riding long up here throwing hand grenades out on the wing.

158

00:13:15,080 --> 00:13:21,080

Because we're riding on this planet, it's our ship. We were put on it for a purpose.

159

00:13:21,080 --> 00:13:25,080

And we have a bunch of mad men trying to blow it up.

160

00:13:25,080 --> 00:13:30,080

We make one big bomb and then Russia makes a bigger one. Then we make a bigger one than that.

161

00:13:30,080 --> 00:13:35,080

And this has been going back and forth now. Australia and England are sticking their finger in the pie.

162

00:13:35,080 --> 00:13:41,080

They've got to make a bigger one than either one of us. There's got to be an end to this sometime.

163

00:13:41,080 --> 00:13:50,080

The reason for these ships being here is because of these atomic detonations, which they have registered out in space and in their patrol ships.

164

00:13:50,080 --> 00:13:56,080

And they started appearing here right after the two bombs were dropped in Japan.

165

00:13:56,080 --> 00:14:02,080

These people have demonstrated a science so far beyond ours that our scientists can't comprehend it.

166

00:14:02,080 --> 00:14:13,080

They travel from here to Venus in 42 minutes of our time in the carrier ships, which the 2200 foot carrier craft will carry 300 scout ships.

167

00:14:13,080 --> 00:14:21,080

They have no weapons. They have never had war in their history. Their science has been devoted entirely to the progression of their people.

168

00:14:21,080 --> 00:14:28,080

While we have had 177 years of peace in the last 2000 years, the rest have solved the war.

169

00:14:28,080 --> 00:14:38,080

These people have never made their appearance in great numbers before in any of our wars because they knew in a gunpowder war or bow and arrow war

170

00:14:38,080 --> 00:14:45,080

that it would soon end. There would be a lot of people killed and it would come to an end without any major damage.

171

00:14:46,080 --> 00:14:53,080

Nevertheless, now we have the means to destroy the civilization on this planet and the planet itself.

172

00:14:53,080 --> 00:15:01,080

Our government has admitted that we have enough bombs stored in this country alone to annihilate everybody on the planet through radioactivity.

173

00:15:01,080 --> 00:15:08,080

Now that don't include the Russian stockpile or the Australian stockpile. They have created a monster that's running.

174

00:15:08,080 --> 00:15:14,080

The men who create these things in Washington as this man from Air Force Intelligence told me, he said,

175

00:15:14,080 --> 00:15:19,080

they've got a glass of glare in their eyes and all they eat, sleep and drink is a bigger and better explosion.

176

00:15:19,080 --> 00:15:24,080

He said if they were out in public life that they would be committed to institutions.

177

00:15:24,080 --> 00:15:33,080

Now that's right from the horse's mouth in Washington, from a man in charge of a section of

intelligence in our military.

178

00:15:33,080 --> 00:15:41,080

We know ourselves, I know the Eucypa growers here, protested after a number of these Alan tests to Washington

179

00:15:41,080 --> 00:15:46,080

that they felt that these tests were causing crop losses owing to temperature drops.

180

00:15:46,080 --> 00:15:51,080

And I published an article on that in our paper.

181

00:15:51,080 --> 00:16:02,080

There's no question about it. These men, not only the people of Eucypa suffered crop losses, but Florida and other states all over the country suffered crop losses.

182

00:16:02,080 --> 00:16:09,080

The reason we see in the papers now that we have exploded another bomb, we get the information through Tokyo.

183

00:16:09,080 --> 00:16:15,080

Washington hasn't got the guts to announce their own explosions because they're scared to death of public or tyke,

184

00:16:15,080 --> 00:16:24,080

all these destructive storms, hurricanes, tornadoes, tidal waves, floods and earthquakes and crop losses in with their blasts out there in the Pacific.

185

00:16:24,080 --> 00:16:31,080

And we have run on a constant check on this thing and it definitely is the reaction of those bomb tests.

186

00:16:32,080 --> 00:16:43,080

The bombs in the first place, the hydrogen devices, charge our atmosphere with positive particles of radioactive material that they call fallout.

187

00:16:43,080 --> 00:16:53,080

You can check this information every major government in the world today as expeditions to both poles on our plants because they're concerned with the stability of the plant.

188

00:16:53,080 --> 00:16:57,080

The magnetic pole moved further on the surface last year than it ever had before.

189

00:16:57,080 --> 00:17:07,080

It recorded history and it's moving so fast now that they can't even conduct a survey this year and have an accurate next year because the declination lines are moving.

190

00:17:07,080 --> 00:17:14,080

We used to go out here and get a navigation chart to cross the ocean with a boat and it was good for 10 years.

191

00:17:14,080 --> 00:17:18,080

They would have the declination changes figure 10 years in advance on that chart.

192

00:17:18,080 --> 00:17:22,080

Now you have to get one every six months and then it doesn't accurate.

193

00:17:22,080 --> 00:17:25,080

These people are here for our protection.

194

00:17:25,080 --> 00:17:33,080

They have stated flatly that they will not permit any device to be exploded that will destroy this plant or the inhabitants of it.

195

00:17:33,080 --> 00:17:45,080

The ring of asteroids between Mars and Jupiter that we see through our telescopes are pieces of a planet going around in the orbit that the planet originally traveled.

196

00:17:45,080 --> 00:17:48,080

These people have records of the time that planet was there.

197

00:17:48,080 --> 00:17:53,080

It was destroyed in nuclear tests just as same as we're conducting today.

198

00:17:53,080 --> 00:18:01,080

And the resultant force of that and the cataclysmic eruption throughout the solar system, which they say runs just like a watch.

199

00:18:01,080 --> 00:18:04,080

If you've come up one gear, the whole work is affected.

200

00:18:04,080 --> 00:18:12,080

A piece of that planet hit in Arizona, the big crater over in Arizona that they've never found many pieces in.

201

00:18:12,080 --> 00:18:19,080

It was a piece of that planet of a different density and in a condition where it vaporized when it hit.

202

00:18:19,080 --> 00:18:23,080

But nevertheless the resultant force left the crater.

203

00:18:23,080 --> 00:18:37,080

The civilization on Mars, three quarters of the population of Mars was killed in the concussion, the upheaval and everything that followed that destruction of that planet.

204

00:18:37,080 --> 00:18:42,080

Mars never stabilized on its orbit again nor on its axis.

205

00:18:42,080 --> 00:18:50,080

And they had to go out there and build a man-made satellite, which is our astronomers call the inner moon of Phobos.

206

00:18:50,080 --> 00:18:55,080

It's 1500 miles off their surface and it's nearly 10 miles in diameter.

207

00:18:55,080 --> 00:19:06,080

And our astronomy today will still admit to anyone that they don't know why that moon travels opposite the rotation of planets while all the other moons travel with the rotation of planets.

208

00:19:06,080 --> 00:19:11,080

It's for the same reason the kid runs into the wind to fly a kite because he gets more wind.

209

00:19:11,080 --> 00:19:17,080

And they rotate it the opposite direction so they can move at a half the speed and get twice as much energy.

210

00:19:17,080 --> 00:19:21,080

And it also reflects more light than any other moon they've ever photographed.

211

00:19:21,080 --> 00:19:24,080

That's because it's of a metallic surface.

212

00:19:24,080 --> 00:19:29,080

Our astronomers have made these commitments in the past that there is no life on other planets.

213

00:19:29,080 --> 00:19:31,080

This is the beginning of everything.

214

00:19:31,080 --> 00:19:38,080

I wonder how these little minds can conceive of God when they confine into one speck of dust in the universe.

215

00:19:38,080 --> 00:19:43,080

This thing has reached the state now where we have a few motion pictures coming out.

216

00:19:43,080 --> 00:19:47,080

I don't know how many of you have seen this picture of UFO.

217

00:19:47,080 --> 00:19:53,080

Actual color motion pictures of 14 ships in formation taken by a Navy man.

218

00:19:53,080 --> 00:20:01,080

The film has been analyzed by every technical laboratory in the military and stated flatly that it's not been tampered with or faked.

219

00:20:01,080 --> 00:20:06,080

There are two actual shots of flying saucers in that picture.

220

00:20:06,080 --> 00:20:15,080

Plus data pertaining to the saucer buzz over Washington, 152, which we notified Washington was going to happen.

221

00:20:15,080 --> 00:20:20,080

Five days before it occurred, by registered letter, we told them this was going to happen

222

00:20:20,080 --> 00:20:26,080

because these people told us they were going to do it and told us to send the information to Washington.

223

00:20:26,080 --> 00:20:32,080

That takes a lot of nerve to stick your neck out far enough to tell Washington that spaceships are going to buzz the captain.

224

00:20:32,080 --> 00:20:37,080

Nevertheless, the information they had given us for three years had proved accurate in every case.

225

00:20:37,080 --> 00:20:43,080

And we stuck our neck out far enough to tell Washington spaceships were going to buzz Washington.

226

00:20:43,080 --> 00:20:46,080

And they did buzz Washington.

227

00:20:46,080 --> 00:20:52,080

We also advanced to the government two other messages that they asked us to send to Washington.

228

00:20:52,080 --> 00:20:57,080

Other than that, we record our information and keep it to ourselves or publish it in our paper.

229

00:20:57,080 --> 00:21:05,080

It's hard for the average person today who is wrapped up in the mundane things of making a living and making ends meet,

230

00:21:05,080 --> 00:21:12,080

paying his taxes and keeping his business going to realize that these things are taking place.

231

00:21:12,080 --> 00:21:18,080

And yet on every hand, you can see the evidence of a decayed civilization,

232

00:21:18,080 --> 00:21:24,080

the money system going out in appropriate billions where we used to appropriate a few millions,

233

00:21:24,080 --> 00:21:33,080

for an aid that isn't accounted for, the expenditure of billions of dollars for things that you never know where it goes for.

234

00:21:33,080 --> 00:21:41,080

And there isn't that much money in existence while the nation is \$276 billion in a hole and going in deeper all the time.

235

00:21:41,080 --> 00:21:44,080

Any place in business, you can see the prices are rising.

236

00:21:44,080 --> 00:21:48,080

Labor has to have more money to meet the cost of living.

237

00:21:48,080 --> 00:21:52,080

This cycle of change has to end sometime someplace.

238

00:21:52,080 --> 00:21:59,080

It's going to end because these people are going to bring it to an end, but they're not going to do it by themselves.

239

00:21:59,080 --> 00:22:09,080

They are only going to observe the conditions and record them and prevent any bomb being exploded that would destroy this planet-and civilization.

240

00:22:10,080 --> 00:22:18,080

They said that in the event an atomic war starts, they will not interfere until the people start crying to God for help and then they'll put a stop to it.

241

00:22:18,080 --> 00:22:25,080

But they're going to let them get honey well fed up with radiation disease and everything else before they make a move.

242

00:22:25,080 --> 00:22:30,080

The reason for that is in their laws and in the laws of the universe,

243

00:22:30,080 --> 00:22:35,080

they say that was given the right of free choice every individual to make his own decision,

244

00:22:35,080 --> 00:22:39,080

every civilization to decide their own course.

245

00:22:39,080 --> 00:22:42,080

And they are not going to violate that right of ours.

246

00:22:42,080 --> 00:22:46,080

They learned a long time ago to keep their nose in their own business.

247

00:22:46,080 --> 00:22:53,080

Unless conditions arrive at a point where their civilizations are affected or destroyed, they will interfere.

248

00:22:53,080 --> 00:22:57,080

They stated that they have three and a half million ships around our planet.

249

00:22:57,080 --> 00:23:01,080

They said they can take over this planet in any 15 minutes if they want to take it over.

250

00:23:01,080 --> 00:23:06,080

And our government knows they can do that as well as arrest it.

251

00:23:06,080 --> 00:23:13,080

The people that came in the ship out to our place on August the 24th, 1953,

252

00:23:13,080 --> 00:23:21,080

the man that woke me up, we were sleeping outside, it's pretty hot in the desert in August, and we like to sleep outside anyway.

253

00:23:21,080 --> 00:23:28,080

The man that woke me up, introduced himself, said his name was Sol Ganda, he would like to show me a ship.

254

00:23:28,080 --> 00:23:34,080

I spent 20 years climbing in and out of airplanes, every kind of an airplane that was ever built.

255

00:23:34,080 --> 00:23:38,080

The last four and a half on flight test of constellations at Burbank.

256

00:23:38,080 --> 00:23:42,080

And they don't turn million and a half dollar airplanes over to screwballs.

257

00:23:42,080 --> 00:23:48,080

The man that took me in and explained the various things on the ship,

258

00:23:48,080 --> 00:23:54,080

I saw the method of power below the deck, the free energy motor running,

259

00:23:54,080 --> 00:23:58,080

the ship hovering there as stationaries, it was on a concrete foundation,

260

00:23:58,080 --> 00:24:01,080

despite the fact that Augustine Wynne was going.

261

00:24:01,080 --> 00:24:07,080

The fellow that introduced himself didn't introduce the other three men on the ship.

262

00:24:07,080 --> 00:24:11,080

However, they turned and smiled at me as I passed behind them.

263

00:24:11,080 --> 00:24:14,080

The man in the middle was controlling the ship.

264

00:24:15,080 --> 00:24:22,080

As I put my weight on the deck, when I went aboard it, I heard the tone of this humming engine change.

265

00:24:22,080 --> 00:24:26,080

And as Sol Ganda followed me onto the deck, it also changed again,

266

00:24:26,080 --> 00:24:32,080

indicating that they had to account for our different weights in order to maintain that hovering condition.

267

00:24:32,080 --> 00:24:37,080

As I said before, these ships have been patterned after plants.

268

00:24:37,080 --> 00:24:42,080

You can look at Venus in the sky and all you see is a brilliant light.

269

00:24:42,080 --> 00:24:47,080

This brilliant light is a result of the force field generated by the planet.

270

00:24:47,080 --> 00:24:55,080

Just as we know there are fields exist around any coil we wind or any armature we turn, we generate fields.

271

00:24:55,080 --> 00:25:00,080

We are actually seeing the field generated by the planet.

272

00:25:00,080 --> 00:25:06,080

If you were on Venus and looked at the earth, you would see the same thing, just a bright light in the sky.

273

00:25:06,080 --> 00:25:11,080

Now these ships as they travel overhead don't make a sound,

274

00:25:11,080 --> 00:25:16,080

because these fields generated around the ships won't permit sound to come out,

275

00:25:16,080 --> 00:25:19,080

and their engines aren't very noisy to begin with.

276

00:25:19,080 --> 00:25:26,080

They are not subject to any gravity outside of that to generate themselves any more than this planet is.

277

00:25:26,080 --> 00:25:31,080

Everything inside of that force field is subject to its own gravity on its own deck.

278

00:25:31,080 --> 00:25:36,080

They can make right angle turns of 2,000 or 5,000 miles an hour,

279

00:25:36,080 --> 00:25:40,080

and you don't even have to strap yourself in a seat to make the turn.

280

00:25:40,080 --> 00:25:46,080

These have been photographed. The Air Force for a while was confused by this condition,

281

00:25:46,080 --> 00:25:53,080

because the ship doesn't turn the people as our automobiles and airplanes do.

282

00:25:53,080 --> 00:26:00,080

The force that turns the ship turns every atom of the structure of the ship and the people in it at the same time.

283

00:26:00,080 --> 00:26:08,080

Relatively, there is no effect of centrifugal force manifest by the people in the ship relative to the ship.

284

00:26:08,080 --> 00:26:11,080

They're not smashed up against a wall or anything else.

285

00:26:11,080 --> 00:26:16,080

Now that science has found out that these things are,

286

00:26:16,080 --> 00:26:19,080

they are more reluctant than ever to reveal these things to the public,

287

00:26:19,080 --> 00:26:24,080

because practically every scientific book today in the earth is obsolete.

288

00:26:24,080 --> 00:26:29,080

It would mean printing an entire new scientific concept of things.

289

00:26:29,080 --> 00:26:34,080

These things have not only entered the scientific field and the military field and the government field,

290

00:26:34,080 --> 00:26:37,080

but they've entered the religious field.

291

00:26:37,080 --> 00:26:45,080

Religion, as administered by the Church, has maintained that Adam and Eve were the first creations.

292

00:26:45,080 --> 00:26:50,080

That's true enough in the Bible, but it's misinterpreted by the people who read it,

293

00:26:50,080 --> 00:26:53,080

because Adam wasn't a man and Eve wasn't a woman.

294

00:26:53,080 --> 00:27:00,080

Adam was a colony of men and Eve were the women, the race of females that were on this earth,

295

00:27:00,080 --> 00:27:03,080

that were here from the last civilization.

296

00:27:03,080 --> 00:27:08,080

And the first sin, or the original sin, as eating the apple that is quoted,

297

00:27:08,080 --> 00:27:13,080

is not the act of mating with a woman, it was the act of mating with a Romulan,

298

00:27:13,080 --> 00:27:16,080

or the crossing of the blood of two species.

299

00:27:16,080 --> 00:27:18,080

That's the original sin.

300

00:27:18,080 --> 00:27:24,080

These people landed here, all men, as we would land on Mars, we went up there,

301

00:27:24,080 --> 00:27:30,080

they got a colony of men along and set up a base before we ever took our women.

302

00:27:30,080 --> 00:27:34,080

And the Bible tells you that, it says Eve men were lonesome, they had no helpmate,

303

00:27:34,080 --> 00:27:36,080

meaning they didn't bring their women here.

304

00:27:36,080 --> 00:27:39,080

Everything in the Bible is there if it's interpreted right,

305

00:27:39,080 --> 00:27:43,080

and these people have interpreted this information for us,

306

00:27:43,080 --> 00:27:46,080

and it makes more sense than anything you ever read.

307

00:27:46,080 --> 00:27:50,080

The only thing is that it has to be interpreted right.

308

00:27:50,080 --> 00:27:55,080

The man we call Jesus is as alive today as he was when he was here.

309

00:27:55,080 --> 00:28:01,080

These people have demonstrated beyond any possibility of a doubt that life is everlasting,

310

00:28:01,080 --> 00:28:05,080

from one lifespan to another under different conditions.

311

00:28:05,080 --> 00:28:10,080

Sometimes you have to take this raid over again because you didn't pass it.

312

00:28:10,080 --> 00:28:12,080

I asked him in particular that question,

313

00:28:12,080 --> 00:28:15,080

what do you have to do to pass this particular gradient life?

314

00:28:15,080 --> 00:28:18,080

And they said, all you have to do is conform to the golden rule

315

00:28:18,080 --> 00:28:22,080

and do all things in moderation, and you've made the great.

316

00:28:22,080 --> 00:28:27,080

And if you don't make it, that's the only time what we call reincarnation enters in.

317

00:28:27,080 --> 00:28:31,080

That's when you have to be born here again to take it over because you've flunked.

318

00:28:31,080 --> 00:28:35,080

Because they said, you can't polish God's apple, you're going to have to pass it

319

00:28:35,080 --> 00:28:37,080

if it takes you 10,000 times.

320

00:28:37,080 --> 00:28:40,080

And they said, he don't care because he's got forever.

321

00:28:40,080 --> 00:28:48,080

So their concept of these things of a single one or the creative spirit as they call God,

322

00:28:48,080 --> 00:28:55,080

they stated that the only difference between their religion and ours was that we talked about it and they lived it.

323

00:28:55,080 --> 00:29:01,080

And they've brought many things to the surface that if we just stop and reason a little bit and think,

324

00:29:01,080 --> 00:29:07,080

and take the time to think, they make good old plain horses.

325

00:29:07,080 --> 00:29:15,080

Their technologies and science are so far ahead of our scientific concepts that we don't even know what they're doing.

326

00:29:15,080 --> 00:29:21,080

And they further said that we didn't have to feel so bad about that because they know of people in space

327

00:29:21,080 --> 00:29:24,080

where they've explored as far above them that they can't understand.

328

00:29:24,080 --> 00:29:31,080

So eternal life appears to be, as they said, a series of grades just like going to school.

329

00:29:31,080 --> 00:29:38,080

You go through these grades to experience things and then go on to other grades to experience greater things.

330

00:29:38,080 --> 00:29:43,080

So they've also brought to us a realization that death is not a termination of anything.

331

00:29:43,080 --> 00:29:46,080

It's only a change to a new condition.

332

00:29:46,080 --> 00:29:52,080

This in itself, the church, should be anxious to bring to the people.

333

00:29:52,080 --> 00:29:57,080

Nevertheless, the church is under the same power of control in many cases.

334

00:29:57,080 --> 00:30:03,080

So there are true reverent people in the church and in the teachings in the church.

335

00:30:03,080 --> 00:30:08,080

Nevertheless, the hierarchy of various branches of religion in the church

336

00:30:08,080 --> 00:30:13,080

have to conform to the principles that have been established through the years.

337

00:30:13,080 --> 00:30:16,080

And they refuse to change those principles.

338

00:30:16,080 --> 00:30:19,080

Nevertheless, in the next few years, they're going to have to change.

339

00:30:19,080 --> 00:30:22,080

They're going to have to reveal these things.

340

00:30:22,080 --> 00:30:27,080

These things are going to come out in spite of authority, military, or other churches.

341

00:30:27,080 --> 00:30:29,080

These people are here to stay.

342

00:30:29,080 --> 00:30:30,080

They're going to make more landings.

343

00:30:30,080 --> 00:30:35,080

They're going to be seen by whole cities, whole populations.

344

00:30:35,080 --> 00:30:41,080

They have carrier craft here from other solar systems that would stagger the imagination of our people.

345

00:30:41,080 --> 00:30:49,080

The one here outside our solar system from Mark Turriss, they said the ship is 120 miles long and 36 miles in diameter.

346

00:30:49,080 --> 00:30:54,080

And it's one of several hundred ships they use primarily for exploratory.

347

00:30:54,080 --> 00:30:59,080

But in this case, it's been brought here to bring a large number of other ships here.

348

00:30:59,080 --> 00:31:05,080

These sound like tales of fantasy, but back when we were kids,

349

00:31:05,080 --> 00:31:09,080

somebody told you if you fell out of a high building, you were dead before you hit the street.

350

00:31:09,080 --> 00:31:14,080

Now we've got 20,000 feet in the parachute and they're conscious enough to pull a rip cord.

351

00:31:14,080 --> 00:31:20,080

They said a few years ago in the aviation game, which I know better than any other business,

352

00:31:20,080 --> 00:31:26,080

that if you went to the speed of sound and broke the sound barrier, it'd tear the airplane to pieces.

353

00:31:26,080 --> 00:31:31,080

We have ships of Murock Air Force right now that have flown better than twice the speed of sound

354

00:31:31,080 --> 00:31:34,080

and been landed by the pilots without any ill effects.

355

00:31:34,080 --> 00:31:37,080

I know a number of the boys out there.

356

00:31:37,080 --> 00:31:41,080

One condition out there that occurred at Murock, I've published in the paper.

357

00:31:41,080 --> 00:31:45,080

The government never disputed this thing.

358

00:31:45,080 --> 00:31:50,080

One of these large carriers came over Murock Air Base one day or hovered there for days.

359

00:31:50,080 --> 00:31:52,080

I don't know how long it was there.

360

00:31:52,080 --> 00:31:57,080

One of our rocket test airplanes that can't take off the ground has to be dropped from a bomber,

361

00:31:57,080 --> 00:32:04,080

was taken up and in this particular day their project was to see how high they could go with it.

362

00:32:04,080 --> 00:32:09,080

At 89,000 feet, the pilot's instruments all went dead.

363

00:32:10,080 --> 00:32:16,080

And he was gone for three hours, yet he only had 10 minutes fuel, rocket fuel.

364

00:32:16,080 --> 00:32:21,080

He couldn't possibly stay in the air over 10 minutes with a fuel he had.

365

00:32:21,080 --> 00:32:24,080

He couldn't buy the fuel in the gas station.

366

00:32:24,080 --> 00:32:28,080

The airplane won't take off the ground itself, and yet he was gone for three hours

367

00:32:28,080 --> 00:32:33,080

and landed back on Murock Air Force Base and told his story of being picked up

368

00:32:33,080 --> 00:32:36,080

by some kind of a force which he couldn't describe.

369

00:32:36,080 --> 00:32:40,080

The airplane and the pilot taken inside of one of these big craft

370

00:32:40,080 --> 00:32:47,080

in which he talked to the people for three hours, landed back on Murock and told his story.

371

00:32:47,080 --> 00:32:52,080

As he left to go home after being examined by the military psychiatrist for hours,

372

00:32:52,080 --> 00:32:56,080

they phoned his wife and told her that he had been on a high altitude flight

373

00:32:56,080 --> 00:32:59,080

and he probably would be irrational not paying attention to what he said.

374

00:32:59,080 --> 00:33:01,080

I know her too.

375

00:33:02,080 --> 00:33:06,080

Nevertheless, they had to accept that something happened.

376

00:33:06,080 --> 00:33:10,080

He certainly didn't go outside of the gravity. He was gone three hours.

377

00:33:10,080 --> 00:33:13,080

They finally had to arrive to the conclusion that his story was true.

378

00:33:13,080 --> 00:33:15,080

They couldn't put any other conclusion up.

379

00:33:15,080 --> 00:33:21,080

Especially after their radar stations had accounted for the fact that some large object

380

00:33:21,080 --> 00:33:24,080

was over Murock Air Force Base that day.

381

00:33:24,080 --> 00:33:27,080

These things are going on right in our midst,

382

00:33:27,080 --> 00:33:31,080

and the citizens who are supposed to be the government of this nation

383

00:33:31,080 --> 00:33:34,080

are being kept in ignorance of it.

384

00:33:34,080 --> 00:33:39,080

That's the crime that this great thing is taking place in our very presence

385

00:33:39,080 --> 00:33:43,080

and we are unaware of it except for a few.

386

00:33:43,080 --> 00:33:46,080

These people have a means to converse from one of these ships

387

00:33:46,080 --> 00:33:49,080

with any individual they choose to put a beam on

388

00:33:49,080 --> 00:33:52,080

and talk to you just like you listen over a telephone.

389

00:33:52,080 --> 00:33:55,080

It's the same thing that occurred in the time of Jesus

390

00:33:55,080 --> 00:34:00,080

when Isaiah and Moses and all of these different people in the Bible

391

00:34:00,080 --> 00:34:03,080

heard the voice of angels, they heard the voice from heaven,

392

00:34:03,080 --> 00:34:08,080

they heard the voice of the Lord and different things like that.

393

00:34:08,080 --> 00:34:12,080

The book that we say we accept as the Holy Book

394

00:34:12,080 --> 00:34:14,080

has got all of these things in it.

395

00:34:14,080 --> 00:34:19,080

I recently written a book using the Bible as verification of these things that are occurring.

396

00:34:20,080 --> 00:34:24,080

If anybody can read that book and deny the facts in it,

397

00:34:24,080 --> 00:34:29,080

they also have to deny their Bible because the same facts are in the Bible.

398

00:34:29,080 --> 00:34:31,080

Isaiah tells you in Ezekiel,

399

00:34:31,080 --> 00:34:33,080

are there wheels within the wheels?

400

00:34:33,080 --> 00:34:34,080

What does that indicate?

401

00:34:34,080 --> 00:34:37,080

It indicates a mechanism of some sort.

402

00:34:37,080 --> 00:34:39,080

Voices from the sky,

403

00:34:39,080 --> 00:34:43,080

Moses running up into a cloud talking to the Lord.

404

00:34:43,080 --> 00:34:45,080

Those were real people.

405

00:34:45,080 --> 00:34:48,080

The only difference between our method of organization

406

00:34:48,080 --> 00:34:52,080

and theirs is that they classify their people by those names.

407

00:34:52,080 --> 00:34:54,080

Where we have general managers,

408

00:34:54,080 --> 00:34:56,080

superintendents and presidents,

409

00:34:56,080 --> 00:35:00,080

they have God, Lord God, Lord and titles like that.

410

00:35:00,080 --> 00:35:03,080

That's the thing the Bible tells you about.

411

00:35:03,080 --> 00:35:07,080

It's the story of these people in the skies.

412

00:35:07,080 --> 00:35:09,080

Of course, in those days,

413

00:35:09,080 --> 00:35:11,080

very few people could write,

414

00:35:11,080 --> 00:35:13,080

very few of them even owned a donkey.

415

00:35:13,080 --> 00:35:15,080

They didn't know what a jet airplane or a balloon was.

416

00:35:15,080 --> 00:35:17,080

When man came out of the sky,

417

00:35:17,080 --> 00:35:19,080

they had to picture him as something

418

00:35:19,080 --> 00:35:22,080

because they didn't know of anything that could fly in the sky but birds.

419

00:35:22,080 --> 00:35:25,080

So they drew pictures of man with wings on them

420

00:35:25,080 --> 00:35:27,080

and called them angels

421

00:35:27,080 --> 00:35:29,080

because of the magnificent feats they performed

422

00:35:29,080 --> 00:35:31,080

in the presence of these multitudes.

423

00:35:31,080 --> 00:35:33,080

These people coming here today

424

00:35:33,080 --> 00:35:36,080

and these ships are the angels of the Bible.

425

00:35:36,080 --> 00:35:38,080

They are just as reverent,

426

00:35:38,080 --> 00:35:40,080

they understand life,

427

00:35:40,080 --> 00:35:42,080

and they live the laws.

428

00:35:42,080 --> 00:35:44,080

They don't talk about them.

429

00:35:44,080 --> 00:35:46,080

They don't talk about the church or money system

430

00:35:46,080 --> 00:35:48,080

in their whole organization.

431

00:35:48,080 --> 00:35:51,080

But you never want to walk in the presence of finer people.

432

00:35:51,080 --> 00:35:53,080

You feel like a grandchild

433

00:35:53,080 --> 00:35:57,080

in the presence of his grandfather when you're around them

434

00:35:57,080 --> 00:36:00,080

because the very fact that they live these laws,

435

00:36:00,080 --> 00:36:03,080

they radiate the compassion and love

436

00:36:03,080 --> 00:36:05,080

that we like to know.

437

00:36:05,080 --> 00:36:08,080

Now, I have tried to cover this very roughly.

438

00:36:08,080 --> 00:36:11,080

I can't put eight years of research into a few minutes,

439

00:36:11,080 --> 00:36:13,080

but I'd be glad to answer any questions

440

00:36:13,080 --> 00:36:15,080

that you may want to ask.

441

00:36:15,080 --> 00:36:19,080

I think that way I can explain something possibly

442

00:36:19,080 --> 00:36:20,080

that you might want to know

443

00:36:20,080 --> 00:36:22,080

rather than go on with a subject

444

00:36:22,080 --> 00:36:25,080

which I can talk here until next week at this time,

445

00:36:25,080 --> 00:36:27,080

and I've still been covering all of it.

446

00:36:27,080 --> 00:36:29,080

So if any of you want to ask questions,

447

00:36:29,080 --> 00:36:31,080

why do you do it now is the time.

448

00:36:31,080 --> 00:36:33,080

Over here.

449

00:36:33,080 --> 00:36:35,080

Q. What makes your view the question

450

00:36:35,080 --> 00:36:37,080

of the presence of these people?

451

00:36:37,080 --> 00:36:41,080

A. Well, I can't say what the effects of all of them are.

452

00:36:42,080 --> 00:36:46,080

Q. The four on this ship came to my eyebrows in height.

453

00:36:46,080 --> 00:36:48,080

I'm six foot tall,

454

00:36:48,080 --> 00:36:51,080

and I would judge them to be about five foot seven.

455

00:36:51,080 --> 00:36:54,080

Any one of them could have put on our clothes

456

00:36:54,080 --> 00:36:55,080

and walked down the street

457

00:36:55,080 --> 00:36:57,080

and you wouldn't have known many of our people.

458

00:36:57,080 --> 00:36:59,080

Except they had a better physique.

459

00:36:59,080 --> 00:37:02,080

Their muscles were outstanding.

460

00:37:02,080 --> 00:37:04,080

Their physique was outstanding.

461

00:37:04,080 --> 00:37:06,080

They said they have no disease.

462

00:37:06,080 --> 00:37:08,080

On any of their planets,

463

00:37:08,080 --> 00:37:11,080

they have flipped disease a long time ago.

464

00:37:13,080 --> 00:37:16,080

I talked to two brain surgeons at my place,

465

00:37:16,080 --> 00:37:19,080

two of the top brain surgeons in this country.

466

00:37:19,080 --> 00:37:23,080

These two brain surgeons stated

467

00:37:23,080 --> 00:37:25,080

that they had postmortem the 16 bodies

468

00:37:25,080 --> 00:37:27,080

taken out of the ship north of Denver.

469

00:37:27,080 --> 00:37:30,080

That was way back the one that Frank Scully wrote about.

470

00:37:30,080 --> 00:37:33,080

Way back before security was ever clamped down.

471

00:37:33,080 --> 00:37:36,080

They said that from our own chart

472

00:37:36,080 --> 00:37:39,080

and our brain tissue under a microscope,

473

00:37:39,080 --> 00:37:42,080

they have established a condition on this chart

474

00:37:42,080 --> 00:37:46,080

where they can determine the age of any brain taken from any body,

475

00:37:46,080 --> 00:37:49,080

from a newborn baby to a person a hundred years old.

476

00:37:49,080 --> 00:37:51,080

It doesn't go beyond a hundred

477

00:37:51,080 --> 00:37:53,080

because they have so few cases beyond a hundred.

478

00:37:53,080 --> 00:37:56,080

But they said the brain tissue changes with the years.

479

00:37:56,080 --> 00:38:00,080

It gets more nerves or fibers or whatever it may be.

480

00:38:00,080 --> 00:38:02,080

They explained it.

481

00:38:02,080 --> 00:38:07,080

They said from our own chart, which is based on zero to a hundred years,

482

00:38:07,080 --> 00:38:10,080

they had to assume that the youngest of these bodies

483

00:38:10,080 --> 00:38:12,080

aboard these ships were 300 years old

484

00:38:12,080 --> 00:38:14,080

and the oldest was 700.

485

00:38:14,080 --> 00:38:17,080

That's physical evidence under a microscope.

486

00:38:17,080 --> 00:38:20,080

The one thing that the Air Force has harped on

487

00:38:20,080 --> 00:38:23,080

right straight through this thing is that we have no physical evidence.

488

00:38:23,080 --> 00:38:27,080

That's the biggest lie that was ever voisted on the American public.

489

00:38:27,080 --> 00:38:29,080

They have the physical evidence.

490

00:38:29,080 --> 00:38:32,080

We also have physical evidence.

491

00:38:32,080 --> 00:38:34,080

These things are going to come to light

492

00:38:34,080 --> 00:38:38,080

and the Air Force is going to have to backtrack.

493

00:38:38,080 --> 00:38:41,080

Because there have been a number of these contacts made,

494

00:38:41,080 --> 00:38:43,080

there have been several landings in South America,

495

00:38:43,080 --> 00:38:46,080

there have been several landings in France and Italy

496

00:38:46,080 --> 00:38:49,080

that we know of, probably in all the other countries.

497

00:38:49,080 --> 00:38:52,080

But we know of several people in this country

498

00:38:52,080 --> 00:38:54,080

that have contacted these ships,

499

00:38:54,080 --> 00:38:58,080

talked to the people aboard them, and gone aboard the ships.

500

00:38:58,080 --> 00:39:02,080

In every case, the press has tried to twist the stories

501

00:39:02,080 --> 00:39:07,080

of these people to make it seem that they are just a little bit cracked.

502

00:39:07,080 --> 00:39:11,080

Dan Fry wrote one of these crap from White Sands in New York

503

00:39:11,080 --> 00:39:15,080

and back in 30 minutes from White Sands in Mexico.

504

00:39:15,080 --> 00:39:20,080

There's an electronic technique employed at White Sands

505

00:39:20,080 --> 00:39:23,080

to make the final adjustments on these expensive rockets

506

00:39:23,080 --> 00:39:26,080

being fired straight up into space.

507

00:39:26,080 --> 00:39:28,080

They get Dan Fry from Aerogedd in the zoo

508

00:39:28,080 --> 00:39:31,080

to come up there and make those adjustments

509

00:39:31,080 --> 00:39:33,080

because he's the technician with a know-how

510

00:39:33,080 --> 00:39:37,080

to set the gyro pilots for the rocket to go straight up.

511

00:39:37,080 --> 00:39:42,080

And yet, the press implies that the man's a little bit screwed.

512

00:39:42,080 --> 00:39:46,080

He's a head of crescent engineering down El Monte now

513

00:39:46,080 --> 00:39:49,080

and also a consulting engineer for Aerogedd yet, yes.

514

00:39:49,080 --> 00:39:51,080

But he has produced two or three devices

515

00:39:51,080 --> 00:39:54,080

which he has no competitor on.

516

00:39:54,080 --> 00:39:57,080

There are strictly things that will transport and so forth

517

00:39:57,080 --> 00:40:00,080

that the people he contacted told him how to make

518

00:40:00,080 --> 00:40:02,080

much better than anything we manufacture.

519

00:40:02,080 --> 00:40:05,080

He has no competition.

520

00:40:05,080 --> 00:40:07,080

One of them's a little electrical device

521

00:40:07,080 --> 00:40:09,080

that you can set next to any shaft that's rotating

522

00:40:09,080 --> 00:40:12,080

and it'll give you the exact RPMs per minute

523

00:40:12,080 --> 00:40:15,080

without any connection with the shaft.

524

00:40:15,080 --> 00:40:17,080

Another one has a pump that'll pump acid

525

00:40:17,080 --> 00:40:20,080

without having any moving part in the acid.

526

00:40:20,080 --> 00:40:22,080

You can wipe the acid being pumped through,

527

00:40:22,080 --> 00:40:25,080

pumping the fluid by induction.

528

00:40:25,080 --> 00:40:27,080

Another thing is a little apparatus

529

00:40:27,080 --> 00:40:29,080

about three-quarters of an inch long

530

00:40:29,080 --> 00:40:31,080

about a big round of pencil

531

00:40:31,080 --> 00:40:33,080

that you clip on the side of a hypodermic needle

532

00:40:33,080 --> 00:40:35,080

and whether they're taking blood from the vein

533

00:40:35,080 --> 00:40:37,080

or giving an injection.

534

00:40:37,080 --> 00:40:40,080

In three minutes, it'll give you the same amount of reading

535

00:40:40,080 --> 00:40:44,080

that you can get in 22 hours of chemical analysis of the blood

536

00:40:44,080 --> 00:40:46,080

in three minutes.

537

00:40:46,080 --> 00:40:48,080

Those are three of the things he has packed

538

00:40:48,080 --> 00:40:50,080

and he's telling him how to make.

539

00:40:50,080 --> 00:40:54,080

And nobody else manufactures a competitive object like it.

540

00:40:54,080 --> 00:40:57,080

This story is going to get out in spite of anything.

541

00:40:57,080 --> 00:41:01,080

It's the greatest thing that I say since the birth of Christ.

542

00:41:01,080 --> 00:41:03,080

Now, that's something else that they explain

543

00:41:03,080 --> 00:41:06,080

and I'm going to bring it out in relation to this

544

00:41:06,080 --> 00:41:10,080

because the man asked what were these people like.

545

00:41:10,080 --> 00:41:13,080

They stated that they landed Mary here pregnant.

546

00:41:13,080 --> 00:41:16,080

That's where we get the virginary story.

547

00:41:16,080 --> 00:41:19,080

Mary was one of their people that they landed here.

548

00:41:19,080 --> 00:41:22,080

She gave birth to one of their people here.

549

00:41:22,080 --> 00:41:26,080

That's why he was capable of manifesting all these actions

550

00:41:26,080 --> 00:41:30,080

that we termed miracles or the people in those days termed miracles.

551

00:41:30,080 --> 00:41:32,080

But you want to remember at the same time

552

00:41:32,080 --> 00:41:34,080

that when this man grew up and started teaching

553

00:41:34,080 --> 00:41:37,080

he also said, even as I do, you can do it more.

554

00:41:37,080 --> 00:41:39,080

He wouldn't have added that and more

555

00:41:39,080 --> 00:41:42,080

if he felt he had done everything that could be done.

556

00:41:42,080 --> 00:41:45,080

And the three wise men who came out of the east

557

00:41:45,080 --> 00:41:47,080

were three of their people.

558

00:41:47,080 --> 00:41:50,080

They landed to watch over Mary and the child on the ground.

559

00:41:50,080 --> 00:41:54,080

They followed this star of Bethlehem

560

00:41:54,080 --> 00:41:56,080

because it was a spaceship that came along

561

00:41:56,080 --> 00:41:58,080

and hovered over the manger.

562

00:41:58,080 --> 00:42:01,080

They were in thought communication with Mary at the time

563

00:42:01,080 --> 00:42:03,080

and also the three wise men.

564

00:42:03,080 --> 00:42:07,080

The star of Bethlehem was not recorded anywhere in astronomy

565

00:42:07,080 --> 00:42:09,080

in the records of that time.

566

00:42:09,080 --> 00:42:11,080

It was the same thing you see today.

567

00:42:11,080 --> 00:42:13,080

If you see one of these spaceships at night

568

00:42:13,080 --> 00:42:16,080

you see a brilliant light traveling through the sky,

569

00:42:16,080 --> 00:42:18,080

making a right angle turn or a curve

570

00:42:18,080 --> 00:42:20,080

which a shooting star doesn't do,

571

00:42:20,080 --> 00:42:22,080

or maybe going straight up.

572

00:42:22,080 --> 00:42:25,080

We have observed it in many a seven at one time

573

00:42:25,080 --> 00:42:29,080

doing all kinds of gyrations that our aircraft can't possibly do.

574

00:42:29,080 --> 00:42:33,080

So these people are people in another life level

575

00:42:33,080 --> 00:42:38,080

the same as college students do great school kids.

576

00:42:38,080 --> 00:42:42,080

Does that answer your question about the people at light?

577

00:42:42,080 --> 00:42:45,080

Does anybody else have a question?

578

00:42:45,080 --> 00:42:48,080

What about language they speak?

579

00:42:48,080 --> 00:42:51,080

Well, normally they don't speak any language.

580

00:42:51,080 --> 00:42:55,080

They have a basis of thought which they call the solex mall

581

00:42:55,080 --> 00:42:58,080

or the solar tongue,

582

00:42:58,080 --> 00:43:01,080

and they communicate meanings by thought.

583

00:43:01,080 --> 00:43:04,080

Now they have passed down in a number of families

584

00:43:04,080 --> 00:43:06,080

the abilities to speak.

585

00:43:06,080 --> 00:43:08,080

If one particular family talks English

586

00:43:08,080 --> 00:43:12,080

it'll be passed down as English to the succeeding generations.

587

00:43:12,080 --> 00:43:16,080

The man who talked to me, he spoke as good English as Ronald Coen,

588

00:43:16,080 --> 00:43:18,080

much better than I speak.

589

00:43:18,080 --> 00:43:21,080

And the three that didn't talk to me couldn't utter a sound.

590

00:43:21,080 --> 00:43:23,080

Not even if you hit them, they couldn't even grunt

591

00:43:23,080 --> 00:43:26,080

because they have their vocal cords are dormant,

592

00:43:26,080 --> 00:43:29,080

where they have the ability to think and not talk.

593

00:43:29,080 --> 00:43:32,080

We have the ability to talk and not think.

594

00:43:32,080 --> 00:43:35,080

So it's just a right about the face.

595

00:43:35,080 --> 00:43:39,080

Mostly the reason how people can't think is because they never have time to think.

596

00:43:39,080 --> 00:43:41,080

Our system doesn't permit us to think.

597

00:43:41,080 --> 00:43:44,080

We're going like a race horse in the morning to night,

598

00:43:44,080 --> 00:43:47,080

maybe the wife running along beside us in some other position

599

00:43:47,080 --> 00:43:50,080

in order to meet the burdens of living.

600

00:43:50,080 --> 00:43:53,080

These things are something that have to be gone into

601

00:43:53,080 --> 00:43:55,080

and the system must change.

602

00:43:55,080 --> 00:43:58,080

There's no question this money system is on a critical point

603

00:43:58,080 --> 00:44:02,080

of either collapse or total expansion or inflation.

604

00:44:02,080 --> 00:44:07,080

The hydrogen condition definitely is going to have to come to some sort of a stop.

605

00:44:07,080 --> 00:44:10,080

It's either going to have to cease or blow the works up.

606

00:44:10,080 --> 00:44:13,080

And these people said they wouldn't permit that to happen.

607

00:44:13,080 --> 00:44:18,080

So we're living in a critical time in more ways than one.

608

00:44:18,080 --> 00:44:20,080

And you people as business people know it,

609

00:44:20,080 --> 00:44:23,080

especially if you're in the automobile.

610

00:44:23,080 --> 00:44:25,080

What is that question?

611

00:44:25,080 --> 00:44:29,080

We in the religious field speak quite a bit in the spiritual.

612

00:44:30,080 --> 00:44:34,080

What do they term as a spiritual realm?

613

00:44:34,080 --> 00:44:37,080

Is that thought communication?

614

00:44:37,080 --> 00:44:42,080

Well, no, their interpretation, references made to that,

615

00:44:42,080 --> 00:44:46,080

I think mostly in the church's heaven or some state of hereafter.

616

00:44:46,080 --> 00:44:50,080

Like in our teachings of the Trinity, God's Father, Son, and Holy Spirit.

617

00:44:50,080 --> 00:44:51,080

Yes.

618

00:44:51,080 --> 00:44:55,080

We've got a spirit that works in the portion of the spiritual church.

619

00:44:55,080 --> 00:45:02,080

They express that as the infinite light and the two opposite polarities of primary energy,

620

00:45:02,080 --> 00:45:05,080

the positive negative force of primary energy.

621

00:45:05,080 --> 00:45:08,080

They express that as the infinite light which is still

622

00:45:08,080 --> 00:45:11,080

and the two lines of force which cause all motion in the universe,

623

00:45:11,080 --> 00:45:14,080

the positive negative lines of force.

624

00:45:14,080 --> 00:45:19,080

They refer to what we call God as the creative spirit of the single one.

625

00:45:19,080 --> 00:45:26,080

And their interpretation of people like themselves and like us,

626

00:45:26,080 --> 00:45:31,080

they say we are instruments of this Creator's doings.

627

00:45:31,080 --> 00:45:34,080

In other words, you can't manifest anything except through man who

628

00:45:34,080 --> 00:45:39,080

he gave dominion over all things, and then rested and left the works up to us.

629

00:45:39,080 --> 00:45:47,080

So their basic explanation of these things has brought an understanding that we are in this life grade

630

00:45:47,080 --> 00:45:51,080

and they are in another one higher above us.

631

00:45:51,080 --> 00:45:56,080

When we die, rather than mourning the death, we should be tickled to death.

632

00:45:56,080 --> 00:46:03,080

Somebody died because it's evidence of termination of this grade.

633

00:46:03,080 --> 00:46:06,080

They said that death among their people is celebrated like we celebrate

634

00:46:06,080 --> 00:46:09,080

if one of our kids graduates from grade school to high school.

635

00:46:09,080 --> 00:46:14,080

They said we celebrate a graduation down here from one grade to another in school,

636

00:46:14,080 --> 00:46:16,080

but we don't celebrate in life.

637

00:46:16,080 --> 00:46:19,080

And they have no mourning.

638

00:46:19,080 --> 00:46:23,080

Actually, if we believe in an infinite Father, an infinite force,

639

00:46:23,080 --> 00:46:26,080

and a deity greater than ourselves, it looks kind of stupid to go out here and bawl

640

00:46:26,080 --> 00:46:29,080

because God took somebody from us.

641

00:46:29,080 --> 00:46:33,080

It's the same as to me. It's sacrilege to cry over.

642

00:46:33,080 --> 00:46:37,080

I mean, after all, that's business above and beyond us.

643

00:46:37,080 --> 00:46:39,080

We didn't have anything to say about getting here,

644

00:46:39,080 --> 00:46:42,080

so how much we have anything to say about believing?

645

00:46:42,080 --> 00:46:46,080

And they explained that as you leave this level,

646

00:46:46,080 --> 00:46:51,080

if you drop dead here now, you just get up and you'd see yourself laying there.

647

00:46:51,080 --> 00:46:54,080

The positive body, as they call it, or as we call it, the spirit body,

648

00:46:54,080 --> 00:46:57,080

would observe our physical body laying there.

649

00:46:57,080 --> 00:47:01,080

But we would get up and look around, just like you always do when you fall down,

650

00:47:01,080 --> 00:47:05,080

and be conscious of standing on the floor and wondering what the heck you're doing down there, too,

651

00:47:05,080 --> 00:47:08,080

because you're fully aware of everything where you're standing.

652

00:47:08,080 --> 00:47:11,080

Then they said, you gradually, everything is gradual.

653

00:47:11,080 --> 00:47:15,080

There's no abrupt shocks or terminations, sudden shocks in these conditions.

654

00:47:15,080 --> 00:47:17,080

They said, you gradually move out of this condition.

655

00:47:17,080 --> 00:47:22,080

You may observe your own funeral, all your relatives bawling their heads off,

656

00:47:22,080 --> 00:47:26,080

and you gradually drift into what they call a transition level,

657

00:47:26,080 --> 00:47:30,080

where you will either have passed a grade there,

658

00:47:30,080 --> 00:47:34,080

in that case you'll move out of transition, which they liken to our summer school,

659

00:47:34,080 --> 00:47:37,080

to catch up something between grades.

660

00:47:37,080 --> 00:47:41,080

You'll move out of that transition level in the next grade of life,

661

00:47:41,080 --> 00:47:47,080

or you'll return here in whichever case it doesn't make it ever to go live anyway.

662

00:47:47,080 --> 00:47:51,080

In fact, they said you can't kid yourself, you're going to live and spite yourself.

663

00:47:51,080 --> 00:47:57,080

So these various things have been brought out through the thought of communication,

664

00:47:57,080 --> 00:48:03,080

and verified in a number of instances by this ship landing.

665

00:48:03,080 --> 00:48:09,080

Now we're in the process right now putting up about \$55,000 worth of buildings for research

666

00:48:09,080 --> 00:48:16,080

to install the same apparatus they use for extension of the lifespan, rejuvenation.

667

00:48:16,080 --> 00:48:21,080

Because they said the only way that we can get out of this mess by ourselves

668

00:48:21,080 --> 00:48:28,080

is to take the people in the older years of life that have found out what is wrong

669

00:48:28,080 --> 00:48:34,080

and the situation through experience and give them enough more years to straighten the mess out.

670

00:48:34,080 --> 00:48:39,080

Because they said in this short life span we live, by the time we get old enough to know anything,

671

00:48:39,080 --> 00:48:43,080

we kick the bucket, and there's no value in any way.

672

00:48:43,080 --> 00:48:49,080

So this rejuvenation equipment has been explained to us in every phase except the last,

673

00:48:49,080 --> 00:48:54,080

the number of degrees that it has to be phased into the lines of force in order to find it.

674

00:48:54,080 --> 00:49:01,080

Outside of the Marine Corps buildings, that has all been approved by San Bernardino County.

675

00:49:01,080 --> 00:49:09,080

And they're ready to issue the experimental permit on this building whenever we are ready to start the building.

676

00:49:09,080 --> 00:49:12,080

I'm sorry, do you have to cut off time?

677

00:49:12,080 --> 00:49:16,080

That's a good deal. I'm just about to get more.

678

00:49:16,080 --> 00:49:20,080

I want to thank all you fellas for being here.

679

00:49:20,080 --> 00:49:25,080

One time I had the wife and the daughter and some of our local group with us.

680

00:49:25,080 --> 00:49:32,080

Usually I go out on these things, I talk to the nations, I talk to North American aviation management,

681

00:49:32,080 --> 00:49:38,080

and the San Bernardino County Chamber of Commerce, and I've been kind of all alone in business.

682

00:49:38,080 --> 00:49:41,080

Thank you, all the way.
