

1

00:00:00,000 --> 00:00:10,680

Thank you very much. I will not say anything about myself because it's a pretty nasty topic

2

00:00:10,680 --> 00:00:17,000

anyway. But I'd like to say this, that I believe that time is something like five minutes to

3

00:00:17,000 --> 00:00:26,200

nine, so therefore we will start this meeting with a five minutes prayer for world peace

4

00:00:26,200 --> 00:00:36,080

and enlightenment. I've started a world campaign on this and I'm asking all people to cooperate

5

00:00:36,080 --> 00:00:42,640

with this at nine o'clock every day. Now the type of prayer we will use tonight is Keith

6

00:00:42,640 --> 00:00:51,680

Robertson will read one of the twelve blessings from the book New Age Bible which was given

7

00:00:51,680 --> 00:01:01,320

through me as a channel by Jesus. He will read the first or the say the second blessing this

8

00:01:01,320 --> 00:01:11,760

night and during this time should you wish would you be kind enough to visualize a white light

9

00:01:11,760 --> 00:01:17,600

leaving yourself, straightforward visualization, white light leaving yourself and then detach

10

00:01:17,600 --> 00:01:29,320

yourself from the light from then on put it that way. We hope to perform a campaign, world

11

00:01:29,320 --> 00:01:35,600

campaign in this respect so that every hour of the day and night for 24 hours someone somewhere in

12

00:01:35,600 --> 00:01:41,840

the world is sending out spending five minutes sending out prayer in their own way whatever way

13

00:01:41,840 --> 00:01:47,960

they choose for world peace and enlightenment and I think this is the least we can as decent human

14

00:01:47,960 --> 00:01:56,640

beings do. I think this is the absolute minimum certainly not the maximum. So if you do wish to

15

00:01:56,640 --> 00:02:02,200

take part in this and you have free will to choose or reject but should you wish to take part in this

16

00:02:02,360 --> 00:02:13,040

and should you ask for some advice I can only tell you that that mudra or that hand position is not

17

00:02:13,040 --> 00:02:19,800

the correct position for prayer. I won't tell you why the Christians have adopted it but I will

18

00:02:19,800 --> 00:02:27,720

say that it is not the correct position. As a yogi I have been initiated into mudra and I know about

19

00:02:27,960 --> 00:02:34,680

hand signs and I know that they are particularly important. You can make a man live with hand

20

00:02:34,680 --> 00:02:39,480

signs you can kill him with hand signs they are as important as that the difference between life

21

00:02:39,480 --> 00:02:48,440

and death. So if you wish to allow power to flow through you in an unobstructed manner that is the

22

00:02:48,440 --> 00:02:56,960

position of the hands of prayer. In this way you do not inhibit the heart center which is here
neither

23

00:02:57,080 --> 00:03:06,960

do you inhibit the two chakras in the palms of the hand. You are uninhibited unrestricted channel

24

00:03:06,960 --> 00:03:13,160

through which power or universal life force or love call it what you like it doesn't matter what

25

00:03:13,160 --> 00:03:19,720

name you give it it can flow. I'll ask Keith then to come to the front and read this.

26

00:03:27,360 --> 00:03:32,200

In Mark the Jesus.

27

00:03:40,200 --> 00:03:52,360

O my adorable children may your hearts and minds be filled with love and wisdom

28

00:03:53,360 --> 00:04:00,160

so that you may radiate this light of God throughout your earth.

29

00:04:00,160 --> 00:04:15,720

Blessed are the wise ones for they walk through a dark and ignorant world spreading their light

30

00:04:15,720 --> 00:04:31,840

so that all who want to so that all who are ready may see even though blindly some facet of the

31

00:04:31,840 --> 00:04:46,560

face of God some small part of his work. Price blessed are these wise ones. These are the ones

32

00:04:46,560 --> 00:04:56,000

who have gone within deep within and made a glorious and lasting contact with the spark which

33

00:04:56,160 --> 00:05:06,200

dwelleth there. The self same spark which came from the heart of the mighty logos from the

34

00:05:06,200 --> 00:05:22,120

heart of he and it which fashioned even the logos. Price blessed are the wise ones in the now and

35

00:05:22,880 --> 00:05:35,360

by now. Yet what bliss they sacrificed for man these ones have found peace and have turned away

36

00:05:35,360 --> 00:05:48,520

from it to give its very essence its very core to searching, groping unpeaceful man. These are

37

00:05:48,520 --> 00:06:00,080

the great ones without these this world could not endure. Price blessed are the searchers

38

00:06:00,080 --> 00:06:13,200

who have found and left and given of their very heart to man so that he may see and seeing no

39

00:06:13,760 --> 00:06:28,200

and knowing act and acting become that which he should be. So ended the second blessing.

40

00:06:29,200 --> 00:06:40,480

All adorable children, children of God walk bravely forward to your salvation,

41

00:06:40,480 --> 00:06:49,640

look neither to one side nor the other, but straight ahead into the very face of God and

42

00:06:50,400 --> 00:07:00,280

contact this mighty light so that it may shine upon you so that it may impregnate you forever.

43

00:07:00,440 --> 00:07:21,560

Be this now, by now. Adorable ones, little children, I am here with you. I will lead you into this

44

00:07:21,560 --> 00:07:33,080

state if you will but hold out your hand to me. Adorable ones, go with God.

45

00:07:43,080 --> 00:07:47,600

Thank you very much.

46

00:07:52,560 --> 00:08:01,920

Now this evening I'm going to talk about a little more fully about the third satellite. By the

47

00:08:01,920 --> 00:08:10,640

third satellite I do not refer to these tin cans sent up by the Russian government. Neither do I

48

00:08:10,640 --> 00:08:16,000

refer to the tin cans which you people have paid for although you didn't have much say in the matter

49

00:08:16,160 --> 00:08:22,360

or the fifty ball bearings that you people have paid for although you had no say in the matter

50

00:08:22,360 --> 00:08:33,600

sent up by the American government. I refer to a satellite which is a wonderful spacecraft and

51

00:08:33,600 --> 00:08:41,640

satellite which is not always in orbit of this earth but does come in occasionally for a very

52

00:08:41,680 --> 00:08:52,440

definite reason. Now first of all I refer to it as the third satellite. Well it is the third

53

00:08:52,440 --> 00:09:02,520

satellite and there are two satellites in continuous orbit of this earth. They are there for 24 hours

54

00:09:02,520 --> 00:09:08,640

a day, day in and day out, month in and month out, year in and year out and the American

55

00:09:08,640 --> 00:09:13,800

government, the British government and the Russian government and every other government on earth

56

00:09:13,800 --> 00:09:23,320

who has radar systems knows of the existence of these two man-made satellites which have been

57

00:09:23,320 --> 00:09:32,440

orbiting this earth for some years. Brave people like Major Donald Keough, late-of-airforce intelligence

58

00:09:33,200 --> 00:09:42,280

comes forward quite definitely and openly and told the people of this country that he knew that

59

00:09:42,280 --> 00:09:51,720

the government knew of the existence of these two satellites. One of them orbits about 750 miles away

60

00:09:51,720 --> 00:09:59,760

from the surface of the earth and the other is about, I think it varies between about 2500 miles away

61

00:09:59,920 --> 00:10:08,560

and a little less than that. This is classified information, it's information classified for

62

00:10:08,560 --> 00:10:20,880

some reason or another by the governments of the world possibly because they do not wish to inform

63

00:10:21,400 --> 00:10:29,960

their electorate that there are greater people in this universe than they are. This may be a reason,

64

00:10:29,960 --> 00:10:37,080

I think that the reason is political whatever it be. Being a man who is not interested at all in

65

00:10:37,080 --> 00:10:48,560

politics, safe to see them as the foul things that they are, we let that ride. But whether the

66

00:10:48,560 --> 00:10:55,280

governments will admit this fact openly or not, they do know that these satellites are there. Now

67

00:10:55,280 --> 00:11:03,680

I have been just as outspoken about these as Donald Keough, certainly more outspoken about them

68

00:11:03,680 --> 00:11:10,400

than anyone else in England. I have spoken about these two satellites over the state-controlled

69

00:11:10,720 --> 00:11:20,080

radio of Britain on a national coverage and not once has an Air Force official come along to me

70

00:11:20,080 --> 00:11:32,280

and denied the fact that these do exist. I think that too is a clever move on the part of the Royal

71

00:11:32,280 --> 00:11:41,800

Air Force in as much as they do like a channel strangely enough through which certain information

72

00:11:41,800 --> 00:11:47,120

can be released. Now they wouldn't back up the fact that they know they exist but they have never

73

00:11:47,120 --> 00:11:57,040

once denied their existence. And for a person who has spoken to Britain in the straightforward

74

00:11:57,040 --> 00:12:02,640

manner in which I'll speak to you tonight, it's rather interesting that the Air Force have made

75

00:12:02,640 --> 00:12:12,160

no official denial of this. They've had every opportunity but they have not done so. The two

76

00:12:12,160 --> 00:12:22,640

satellites are, we are informed by people who belong to the planets from which they came,

77

00:12:23,600 --> 00:12:32,160

travelling classrooms. And it's a joke of us in London we believe that if they are travelling

78

00:12:32,160 --> 00:12:38,840

classrooms and if they are pupils on these classrooms that the pupils are told to observe

79

00:12:38,840 --> 00:12:44,640

the Earth very very carefully and they are told that after they have done this that is what not

80

00:12:44,640 --> 00:12:56,960

to be like. That's our joke and we don't expect even the space people to laugh at it but possibly

81

00:12:56,960 --> 00:13:06,000

something like that goes on there. I know that from these satellites metaphysical and astrophysical

82

00:13:06,400 --> 00:13:14,560

survey is carried on and I know that as a result of this survey from the two satellites on the

83

00:13:14,560 --> 00:13:21,920

third satellite every man on Earth is known. There's not a man or woman or child in this room

84

00:13:21,920 --> 00:13:30,400

tonight who is not known quite completely by people from other planets, people who are not very far

85

00:13:30,400 --> 00:13:41,200

away from this town tonight. You are known completely. These people know what you were in

86

00:13:41,200 --> 00:13:50,080

the last life and what you will be in the next. They know the whole import of your existence

87

00:13:50,080 --> 00:13:57,520

upon this Earth and other Earths upon which you will exist when you have faster necessary

88

00:13:57,520 --> 00:14:06,480

initiations. Now these dosios are quite complete and they will never be used in evidence against

89

00:14:06,480 --> 00:14:15,360

you in any way. They are not made up for any belligerent reason but for a definite reason which

90

00:14:15,360 --> 00:14:26,800

sooner or later each one of you will know about. The third satellite though is a large object

91

00:14:27,520 --> 00:14:37,120

which was originally built on Mars I don't know when is manned by advanced metaphysicians mainly

92

00:14:37,120 --> 00:14:46,400

from the planet Mars. It's under the control, strict control of a person who is living on the

93

00:14:46,400 --> 00:14:59,360

planet Mars which is a very friendly planet and this satellite varies its orbit. It is not always

94

00:14:59,360 --> 00:15:07,760

in orbit of this Earth sometimes it is out of orbit and other times it is in orbit. It has a very

95

00:15:07,760 --> 00:15:16,080

very definite function to perform. The function is this as I said last night the space people

96

00:15:16,160 --> 00:15:28,560

can see this world as a world which needs very very great help. Now their hands are tied to a

97

00:15:28,560 --> 00:15:37,520

certain extent. There is a law, a basic law which governs all things and that law makes this statement

98

00:15:39,280 --> 00:15:44,640

or whether we like it or not makes no difference. The law still makes this statement despite our

99

00:15:44,640 --> 00:15:53,600

petty likes and our petty dislikes. Statement is this, action and reaction are opposite and equal.

100

00:15:54,480 --> 00:16:03,120

In other words it is the law of karma. Jesus referred to it in a brilliant way when he said

101

00:16:03,120 --> 00:16:15,440

as you sow so shall you reap. If you cast mildewed bread upon the waters in many days mildewed bread

102

00:16:17,040 --> 00:16:22,400

will be returned to you. I'm not good bread. This whether we like it or not.

103

00:16:23,040 --> 00:16:34,880

Because the karmic balance or karmic pattern of this world is as it is the space people may not

104

00:16:34,880 --> 00:16:48,160

intervene except in an indirect way and their intervention in this respect, in the respect

105

00:16:48,160 --> 00:16:55,920

of the third satellite and in all other respects is an indirect intervention. They recognize the fact

106

00:16:55,920 --> 00:17:04,960

that mankind upon earth has chosen and I'm picking my words quite carefully here, has chosen to hang

107

00:17:04,960 --> 00:17:14,080

on to his free will, has chosen to exercise his free will so therefore they may not interfere

108

00:17:14,080 --> 00:17:22,160

with this choice and indeed they will not interfere with the choice of free will of man upon this earth.

109

00:17:23,680 --> 00:17:31,840

Certainly not directly, certainly not indirectly. The only interference if it can be called that

110

00:17:32,720 --> 00:17:43,200

will be to state a case to mankind which they have been doing through numerous channels for 18,800,000

111

00:17:43,200 --> 00:17:52,080

years but it is a statement of a case only. It is no force behind it. Mankind can reject this

112

00:17:52,800 --> 00:17:56,000

case or accept it as he chooses.

113

00:17:59,200 --> 00:18:08,160

This pattern must be taken through the whole gamut. The third satellite may not and no one on the third

114

00:18:08,160 --> 00:18:17,280

satellite may not interfere with the choice of anyone upon this earth. This would be

115

00:18:18,640 --> 00:18:26,400

contravention of the law because man is in the position that he is in today.

116

00:18:26,560 --> 00:18:39,440

So therefore the operators of the third satellite offer to mankind that which he needs.

117

00:18:42,000 --> 00:18:49,520

I said last night that they have a picture of mankind something like this. On the one hand

118

00:18:49,520 --> 00:18:57,680

you have a great materialistic conspiracy and conspiracy it is. Let me just illustrate in a

119

00:18:57,680 --> 00:19:09,520

few short words what I mean by that. I do not mean that if people have 20,000 dollars in the bank

120

00:19:09,520 --> 00:19:15,600

they're this, that, and the other wicked. Not that. But the materialistic conspiracy goes very much

121

00:19:15,600 --> 00:19:30,240

deeper than this. A great force exists not actually on this earth but in what we call the lower astral

122

00:19:30,240 --> 00:19:40,400

realms of this earth. And from this force various pawns upon this earth are directed. Pawns like

123

00:19:40,400 --> 00:19:51,200

Hitler, Himmler, Mussolini, Napoleon, Stalin, and people like that were directed from this

124

00:19:52,160 --> 00:20:00,880

great center of black magic, great center of evil. In fact the black magician who arranged the murder

125

00:20:00,880 --> 00:20:08,480

of Jesus years before he came to this planet is still alive on this earth in a physical body.

126

00:20:10,400 --> 00:20:15,920

I don't think there is a book written on earth that you will find that in except cosmic voice

127

00:20:15,920 --> 00:20:26,560

but you can take it from me. It is true. Brilliant minds, minds the like of which the ordinary man

128

00:20:26,560 --> 00:20:34,480

cannot conceive of are directing the policy of this earth and people and governments are but

129

00:20:35,440 --> 00:20:41,600

no not all people, some people and some governments are but pawns in their hands.

130

00:20:45,600 --> 00:20:52,560

And you get a weak man like Hitler and he can be used as a pawn to commit

131

00:20:52,560 --> 00:20:59,120

the foul atrocities that Hitler was either directly or indirectly responsible for.

132

00:20:59,360 --> 00:21:12,240

Atrocities which Hitler himself could not think of, did not think of but was a channel for this

133

00:21:12,240 --> 00:21:24,160

great evil force. An evil force fed by the majority of thought of ordinary human man upon earth.

134

00:21:24,720 --> 00:21:31,200

It's quite a statement. It's a terrible, terrible statement to make. Few people have ever made a

135

00:21:31,200 --> 00:21:40,400

worse one and yet it is a true one. On the other hand we have those who in many many ways, in many,

136

00:21:40,400 --> 00:21:49,200

many religions, in many many countries throughout this earth, have been able to make a statement

137

00:21:49,200 --> 00:21:56,400

in many ways in many many religions, in many many countries throughout this earth are helping

138

00:21:56,400 --> 00:22:04,240

all they know how to the best of their ability to bring an upliftment, a spiritual upliftment,

139

00:22:04,240 --> 00:22:12,960

a spiritual enlightenment to this earth. They are grossly outnumbered, so outnumbered that I've

140

00:22:12,960 --> 00:22:21,840

given these people a name and I refer to them as the thin white line. The thin white line with

141

00:22:21,840 --> 00:22:33,200

their backs against the wall, shocked to pieces the remnants of spiritualized terrestrial man.

142

00:22:33,920 --> 00:22:45,600

This thin white line lacks one thing. They do not lack courage. They have it. They are great,

143

00:22:45,600 --> 00:22:54,160

great, wonderful people even though they may be quite ordinary people. They may range from news

144

00:22:54,160 --> 00:23:06,960

boys to directors of concerns. They're wonderful people that space people refer to them as the

145

00:23:06,960 --> 00:23:15,680

glorious few which coming from a spaceman heaps great honor upon their heads.

146

00:23:16,480 --> 00:23:26,160

They're people who serve mankind in many many ways throughout the world.

147

00:23:27,120 --> 00:23:36,320

They're people who often sacrifice, make great sacrifices themselves in order to help the natives

148

00:23:36,480 --> 00:23:46,960

in the swamps of the Belgium Congo sometimes in order to go to the ends of the earth to help others.

149

00:23:48,000 --> 00:23:58,000

They are other people who serve in the slums. There are other people who can't do either of these,

150

00:23:58,800 --> 00:24:06,880

but pray often. The glorious few. Now I said that there was something that these people needed and

151

00:24:06,880 --> 00:24:14,480

there is. There's something they badly need and that is energy. If there's one thing that the

152

00:24:14,480 --> 00:24:24,880

space people have taught us beyond all doubt it is this that all energy which is expended

153

00:24:24,880 --> 00:24:34,880

is really and truly sacred. That is the power of the space people.

154

00:24:35,680 --> 00:24:38,320

That is really and truly sacred.

155

00:24:43,200 --> 00:24:52,960

That L O V E is the name of a very potent energy. They have stripped the

156

00:24:53,760 --> 00:25:04,480

emotional emotionalism from this word L O V E and

157

00:25:07,280 --> 00:25:14,000

given us the picture or as this as an energy of this as an energy.

158

00:25:14,960 --> 00:25:24,000

It's like electricity. We could not light one lamp in this room unless we had an electrical

159

00:25:24,000 --> 00:25:32,160

source. Even if we had an electrical source in this room as a potential we still could not

160

00:25:32,160 --> 00:25:38,320

light one lamp unless those lamps were connected to that source in the right way.

161

00:25:38,880 --> 00:25:45,280

If they were connected to that source by pieces of string they still would not light.

162

00:25:46,160 --> 00:25:52,400

It would it needs wires or conductors of electricity in order to connect those lamps to the source.

163

00:25:52,400 --> 00:26:02,080

This is so obvious. The energy L O V E is all pervasive energy. It belongs to no man,

164

00:26:02,960 --> 00:26:11,440

to no planet, to no system, to no galaxy, to no system of galaxies. It is all pervasive.

165

00:26:12,320 --> 00:26:20,720

It comes from the very Godhead itself down through all the cycles of manifestation back

166

00:26:20,720 --> 00:26:28,960

through to the Godhead itself again. But we have to connect ourselves up to the source in the right

167

00:26:28,960 --> 00:26:36,480

way in order to be able to use this all pervasive and greatest of all everlasting energy.

168

00:26:41,680 --> 00:26:48,640

It's the energy which is radiated from the sun and the space people know this.

169

00:26:49,520 --> 00:26:55,440

They know it to such an extent that they have gone out of their way to offer us

170

00:26:56,320 --> 00:27:07,360

or the thin white line a definite direct source of this energy. A source made readily available.

171

00:27:10,080 --> 00:27:23,040

Now, up until even a few years ago a man or woman in order to contact a vast amount of energy

172

00:27:23,840 --> 00:27:31,040

needed to have certain initiations needed to spend five or six hours a day as a very,

173

00:27:31,040 --> 00:27:37,200

very minimum at certain mystic practices such as yoga and various other practices.

174

00:27:40,880 --> 00:27:48,320

I will not say that man doesn't need to spend five hours a day at yoga now in order to contact

175

00:27:48,320 --> 00:27:55,600

vast energies. But I will say that when the third satellite is in orbit of this earth,

176

00:27:56,320 --> 00:28:07,760

energies are more readily available to those people who may not have the time or opportunity

177

00:28:07,760 --> 00:28:15,600

to spend five or six hours a day in the practice of yoga. Energies are made readily available

178

00:28:15,600 --> 00:28:23,760

to all men irrespective of class, color, creed or religion, whether they can write or not,

179

00:28:23,760 --> 00:28:32,000

whether they can sit in Padma and perform any yogic practice whatsoever.

180

00:28:34,640 --> 00:28:42,720

No, that's incorrect. Whether they can sit in Padma and perform any deep mystic yogic practice

181

00:28:42,720 --> 00:28:55,040

whatsoever. So the thin white line need energy and the space people are unable to land en masse

182

00:28:55,040 --> 00:29:04,960

upon this earth because man has chosen to use this picky free will, this useless thing, this

183

00:29:04,960 --> 00:29:11,600

useless garment really, if you study it very carefully. He's chosen to use this. So therefore,

184

00:29:11,600 --> 00:29:15,280

he has closed the doors for any outside intervention.

185

00:29:20,880 --> 00:29:28,080

Just as surely as if our dear hostess tonight had closed the doors against us, we could not be here.

186

00:29:29,600 --> 00:29:38,320

We have closed the doors of this earth of ours against direct intervention. Number one, by our

187

00:29:38,320 --> 00:29:48,800

calming pattern, but number two, mainly because of our choice to govern ourselves by using this

188

00:29:48,800 --> 00:29:56,880

so-called free will, a free will by the way, my friends, which will never lead to freedom.

189

00:29:58,480 --> 00:30:06,160

I am not going to explain this night what I exactly mean by that statement, but would refer you

190

00:30:06,400 --> 00:30:14,880

to an issue of cosmic voice and refer you to a great speech given by a Martian when he spoke

191

00:30:14,880 --> 00:30:20,640

about freedom. And you will see there's a great difference between free will and freedom.

192

00:30:22,640 --> 00:30:27,600

Not only has mankind chosen to use this free will, but he's chosen to use it wrongly.

193

00:30:27,920 --> 00:30:39,040

He could heal cancer tomorrow, but what will he do tomorrow? Spend another 50 million dollars

194

00:30:39,040 --> 00:30:52,400

on bursting another hat and ball? He could heal all starvation upon this earth within a week,

195

00:30:52,400 --> 00:30:59,200

but what would he do within a week? Spend another 100 million dollars or English pounds or Russian

196

00:30:59,200 --> 00:31:06,480

rubles on some improvement to the army, navy, or air forces of the world?

197

00:31:11,360 --> 00:31:19,280

Mankind has closed these doors. This earth is almost alone in the whole planetary system,

198

00:31:20,240 --> 00:31:31,040

but not quite. Because of the fuel, this thin white line, it cannot be left alone. The thin white

199

00:31:31,040 --> 00:31:39,600

line are people who often have sunk petty light and dislike to perform some service or other,

200

00:31:39,600 --> 00:31:43,680

whatever it might be. There are thousands of ways of doing it upon this earth.

201

00:31:43,920 --> 00:31:54,080

The third satellite will come into orbit of this earth very shortly in order to give those people

202

00:31:54,080 --> 00:32:07,760

energy. Now, it operates in a very fair way. The people upon the third satellite do not differentiate

203

00:32:07,840 --> 00:32:15,440

between an American and a Russian, an American and a red Chinese. Providing both of these people

204

00:32:15,440 --> 00:32:26,080

are in some way doing a spiritual task. They will not differentiate between an Englishman

205

00:32:26,720 --> 00:32:35,120

and an Eskimo, providing those two people are doing in some way a spiritual task. And by a

206

00:32:35,200 --> 00:32:42,400

spiritual task, I mean this, a task done in the right motive, and there is only one motive,

207

00:32:42,400 --> 00:32:52,320

and the motive is this, a task performed in service to others, in service to others if

208

00:32:52,320 --> 00:33:01,280

that task cooperates with the law. It would not be a spiritual task if someone believes that if he

209

00:33:01,280 --> 00:33:11,040

killed 40 people, he could save 41. This would not be a spiritual task. A spiritual task is that

210

00:33:11,040 --> 00:33:16,720

done in selfless service to others, providing the law is cooperated with, and the law makes several

211

00:33:17,280 --> 00:33:25,920

quite definite statements. Krishna, Buddha and Jesus agreed upon all points, and they most

212

00:33:25,920 --> 00:33:33,280

certainly agreed upon this, thou shalt harm no living thing. One of the commandments given to

213

00:33:33,280 --> 00:33:40,720

Moses was thou shalt not kill, and whosoever does kill for any reason at all is wrong. Whether it be

214

00:33:40,720 --> 00:33:46,960

to defend his so-called country, to defend his so-called home, or to defend his so-called wife,

215

00:33:47,920 --> 00:33:57,600

or whether it be a wife to defend her so-called husband, thou shalt not kill, or thou shalt harm no

216

00:33:57,600 --> 00:34:04,720

living thing, is one of the basic commandments of all religions, great religions upon this earth.

217

00:34:05,920 --> 00:34:12,800

And I all thinkers know that there is little or no difference between mystic Hinduism, mystic

218

00:34:12,800 --> 00:34:19,280

Buddhism, and mystic Christianity. There were religions or statements of law given by three

219

00:34:19,280 --> 00:34:32,560

spacemen, Krishna, Buddha and Jesus. Krishna came from Saturn, he was the greatest, Buddha and Jesus

220

00:34:32,560 --> 00:34:41,280

came from Venus. They were great masters, but not quite of the initiatory ability of Shri

221

00:34:41,280 --> 00:34:48,080

Krishna, and both of them, if ever you gain, there you are privileged again, communication

222

00:34:48,080 --> 00:34:55,200

with them will tell you this beyond any doubt, and if they should deny this, then question the source

223

00:34:55,200 --> 00:35:06,800

of your information. So the third satellite there gives to you great energy, as much energy as you

224

00:35:06,800 --> 00:35:14,720

can possibly use. You will never drain this battery drive, because the energy comes to the

225

00:35:14,720 --> 00:35:27,200

satellite from the holiest being in this planetary system, which is the sun. I said the holiest being,

226

00:35:27,760 --> 00:35:37,040

I didn't say a great ball of flame, I said a living, breathing being, which the sun is.

227

00:35:38,080 --> 00:35:46,720

It is not only the father of all of us, but it is the father of all the planets as well.

228

00:35:48,480 --> 00:35:55,440

In case you get the word father wrong, do not think I say that the sun is God or the absolute,

229

00:35:56,000 --> 00:36:04,640

it is not. The absolute is that which contains all things good, bad, or indifferent.

230

00:36:06,320 --> 00:36:13,920

There is one supreme source which contains all other things, and only that one source,

231

00:36:14,560 --> 00:36:20,960

but the sun is the nearest thing to that supreme source in this solar system.

232

00:36:20,960 --> 00:36:37,280

And man upon this earth, physical man, mental man, and psychic man, but not spiritual man,

233

00:36:38,720 --> 00:36:48,960

the three lower aspects of man is really only solidified sunlight. Take that into your meditations

234

00:36:48,960 --> 00:36:58,880

with you, and if you do ever meditate at all, that key can unlock the door of great, great mystic

235

00:36:58,880 --> 00:37:09,600

voice. Now I'll try to give you a little idea. We have made some color slides of the drawings

236

00:37:10,560 --> 00:37:20,640

which were done by Robertson under my direction of the third satellite. First of all, might I say

237

00:37:20,640 --> 00:37:26,960

that when it is in orbit of this earth, it is not visible, and it cannot be tracked by radar.

238

00:37:27,920 --> 00:37:35,680

The way that they are rendering visibility is very simple. I hold that up there, all people can

239

00:37:36,240 --> 00:37:45,520

see what you see. You see the photons emitted by the electric light in this room

240

00:37:48,000 --> 00:37:58,640

reflected from that material. These photons enter the lenses which you have in your head,

241

00:37:59,360 --> 00:38:07,920

called your eyes, impress themselves on the brain in a certain way, and you regard that as a book.

242

00:38:08,960 --> 00:38:16,080

If I cut off the streams of photons by turning off the lights, you do not see that book.

243

00:38:19,120 --> 00:38:27,120

But supposing I put the lights on, and instead of letting the photons

244

00:38:27,120 --> 00:38:34,240

bombard or letting the photons reflect from that book to you, supposing I was to turn those

245

00:38:34,240 --> 00:38:42,480

photons in a 360-degree arc through some magnetic field, I could hold that book up all night,

246

00:38:42,480 --> 00:38:45,920

you could use what arc lamps on it you like, and you would not see it.

247

00:38:48,800 --> 00:38:55,200

The third satellite is rendered invisible in this way, that the photons reflected from it are

248

00:38:55,200 --> 00:39:02,480

revolved around the false screen which is completely surrounding the crowd.

249

00:39:04,480 --> 00:39:13,600

It cannot be tracked by radar. Why? Well, a radar works in this way.

250

00:39:14,480 --> 00:39:20,480

Pulses of energy are sent out by an emitter or through a transmitting apparatus.

251

00:39:20,880 --> 00:39:28,000

These pulses of energy soar through space until they hit a certain object,

252

00:39:28,000 --> 00:39:35,280

and then they are reflected back and are received in a receiver, and on an oscilloscope screen,

253

00:39:35,280 --> 00:39:38,480

you see a shadow of this object.

254

00:39:39,200 --> 00:39:51,520

The third satellite operators take the radar pulses into the false shield around the object

255

00:39:52,400 --> 00:39:59,200

so that they will not be reflected back on the oscilloscope screen, and there's a good reason

256

00:39:59,200 --> 00:40:06,480

for it. They don't just do it in order to show off their ability, they do it for a very good reason,

257

00:40:06,480 --> 00:40:07,600

and this is the reason.

258

00:40:10,560 --> 00:40:19,120

Some time ago, the Atheris Society informed major military centers throughout the earth,

259

00:40:19,120 --> 00:40:27,920

in Russia, just as well as we did in America, that radar operators should be extremely careful

260

00:40:28,160 --> 00:40:39,120

what they scanned in space. If radar operators scanned radioactive clouds for a long time,

261

00:40:39,680 --> 00:40:46,640

then it was possible that the radar operator could become contaminated by the radioactivity from the

262

00:40:46,640 --> 00:40:53,040

cloud. I don't suppose any of these military establishments took any notice, they certainly

263

00:40:53,040 --> 00:41:01,280

didn't make any official plank the Atheris Society for giving them this news, but strangely enough,

264

00:41:01,280 --> 00:41:10,960

since this time, we have heard of many, many sudden deaths of radar operators which were

265

00:41:10,960 --> 00:41:19,200

totally unexplained in the press, and I know three radar operators working on atomic experimentation

266

00:41:20,080 --> 00:41:27,760

who had a queer rash come on their bodies, a rash which is incurable by any known scientific means,

267

00:41:28,560 --> 00:41:37,440

it is a rash which sometimes denotes leukemia, which as you know is cancer of the blood caused

268

00:41:37,440 --> 00:41:39,360

by strontium 90 radiation.

269

00:41:40,240 --> 00:41:50,400

I believe many radar operators have died or been afflicted by incurable disease

270

00:41:53,760 --> 00:41:58,800

over this last few years, and I believe when the space people gave this warning,

271

00:41:59,440 --> 00:42:08,080

they gave it as a timely warning in order to preserve life, because even though they do not,

272

00:42:08,080 --> 00:42:15,280

they may not agree with a militarist, they would still go out of their way to tell that man how

273

00:42:15,280 --> 00:42:22,720

he could protect his own life and protect his own body and so on from death or disease.

274

00:42:29,280 --> 00:42:36,800

If this happens with a radioactive cloud, it also happens with any form of energy which might be good.

275

00:42:38,080 --> 00:42:46,080

If the people in the third satellite were to allow the radar pulses to return to Earth after

276

00:42:46,560 --> 00:42:56,160

being bombarding the satellite, this allowance would interfere with the very, very delicate and

277

00:42:56,160 --> 00:43:00,000

subtle manipulations that they are carrying on from that satellite.

278

00:43:00,480 --> 00:43:08,880

I now show these color slides and tell you a wee bit more about the workings of this satellite.

279

00:43:10,240 --> 00:43:20,880

And I must ask our good lady there, if she would mind very much, is moving her chair.

280

00:43:30,720 --> 00:43:32,720

Thank you.

281

00:43:36,880 --> 00:43:44,320

Now these are rough chalk drawings of this thing. First of all, we have this huge egg-shaped

282

00:43:46,240 --> 00:43:53,040

satellite. It's shaped like an egg, which by the way is the most significant shape in the macrocosmic system.

283

00:43:53,360 --> 00:44:00,000

Strange to say that no birth, either on this or any other planet, can take place without this egg.

284

00:44:00,000 --> 00:44:05,920

If you know anything about basic biology on this Earth, you know that. If you know anything about

285

00:44:05,920 --> 00:44:14,480

advanced biology on other planets, you also know that. This is the ultimate shape in this system.

286

00:44:14,480 --> 00:44:19,600

And it's significant that the third satellite should be other egg shapes.

287

00:44:20,560 --> 00:44:28,560

Now here we have, again this egg, we have here a huge dome and here a matrix.

288

00:44:30,560 --> 00:44:40,560

Now this dome here is made of crystalline substance, what it is I do not know. I have seen it and I know

289

00:44:40,560 --> 00:44:44,560

that you can see through it without any distortion.

290

00:44:44,560 --> 00:44:51,120

At the edges, which you would get through that thickness, because it appears to be thick, that

291

00:44:51,120 --> 00:44:57,120

thickness of glass. It is a pure crystalline substance. How it was made, I do not know.

292

00:44:59,280 --> 00:45:04,480

Except I believe it was grown to certain specifications.

293

00:45:06,480 --> 00:45:14,480

Now through here, we have a very large, very large, very large, very large, very large,

294

00:45:14,480 --> 00:45:22,320

here comes the rays of the sun. Now they cannot send the rays of the sun down through this power

295

00:45:22,320 --> 00:45:34,800

matrix directly without certain conditioning. They have us involved or evolved system of filters

296

00:45:34,800 --> 00:45:42,800

which cover that dome. Now when we want to alter a light frequency, we take a colored

297

00:45:42,880 --> 00:45:50,800

glass and put in front of the light and we alter the frequency to something we call blue or green or

298

00:45:50,800 --> 00:45:58,080

red, whatever color the glass may be. But these people do not need to do that. They simply charge

299

00:45:58,080 --> 00:46:04,160

that with an energy and that energy alters the frequency of light which is allowed to enter

300

00:46:04,160 --> 00:46:12,480

through this dome. Now before this process can take place, they must know exactly what

301

00:46:12,480 --> 00:46:20,320

energies are needed on earth at what time. That is why the complete dossier needs to be kept on

302

00:46:20,320 --> 00:46:28,160

individuals upon this earth, to know what energies are needed so that they can provide them in this

303

00:46:28,240 --> 00:46:36,480

great power station. The energies come in, conditioned when they come in and irradiated out

304

00:46:36,480 --> 00:46:48,320

through this matrix. It's not by chance we put a crosswork on there. A certain, very important

305

00:46:48,400 --> 00:46:58,080

space pattern has that same crosswork, an intersection of parallel lines at 90 degrees.

306

00:47:00,400 --> 00:47:05,520

You can ask me questions about that afterwards but I should be very careful as to what answers I give.

307

00:47:11,280 --> 00:47:18,000

Here we have a more descriptive drawing and I must be honest about this. Here's America down there,

308

00:47:18,000 --> 00:47:22,960

receiving all that energy, proving that there's all these good people in America receiving it.

309

00:47:22,960 --> 00:47:27,920

When I speak in South Africa or Australia, it'll be Australia down there so don't kid yourself.

310

00:47:36,080 --> 00:47:43,120

Now here we have the sun's crystal dome and underneath the crystal dome are three large

311

00:47:43,200 --> 00:47:49,920

pyramid formations. These two are made of crystal. The strange part about this crystal is this,

312

00:47:51,520 --> 00:47:58,800

that these glow from the inside out. You know that the diamond has to be cut and polished in a

313

00:47:58,800 --> 00:48:09,520

certain way in order to reflect light. It reflects and refracts light and it glows as blue and green

314

00:48:09,520 --> 00:48:16,640

and helium trope and so on. When it splits the light rays up which reflect upon it. But these

315

00:48:16,640 --> 00:48:24,800

don't operate like that at all. They seem to have an inner fire and the inner fire comes from

316

00:48:24,800 --> 00:48:31,920

the inside out, unlike a diamond, our diamond upon earth which purely simply reflects light.

317

00:48:31,920 --> 00:48:38,320

If you turned off all the lights, these crystals would still glow with this tremendous

318

00:48:38,320 --> 00:48:48,560

vibrant fire. They are about, I think, about seven foot tall. They are three sided pyramids

319

00:48:48,560 --> 00:48:59,200

and not four sided pyramids. The rays come down here, are absorbed in some way into those crystals.

320

00:48:59,200 --> 00:49:07,680

The crystals vibrate at a certain frequency, then the rays pass up here to another huge type

321

00:49:07,680 --> 00:49:16,960

of crystal formation, which again looks like a huge egg around which revolve multi-shaped crystals.

322

00:49:20,160 --> 00:49:28,800

The strange part about this thing is that it is not supported in any way. It just hangs there.

323

00:49:29,360 --> 00:49:38,640

It's possibly about 15 to 20 feet high and it just stays there. And I believe that if you fire a

324

00:49:38,640 --> 00:49:43,760

shell, point blank at that thing, I don't think you'd move it a fraction of an inch.

325

00:49:45,200 --> 00:49:53,360

Some great force which is totally invisible, unknown to people upon this earth, keeps it in

326

00:49:53,360 --> 00:50:01,520

place. And these crystals revolve around it without any visible means of support. Slowly.

327

00:50:02,160 --> 00:50:08,240

They don't revolve around fast. By the way, I'd like to say that these drawings may not

328

00:50:08,240 --> 00:50:14,320

be reproduced in any articles and so on. The Theorem Society holds world copyright on it.

329

00:50:15,280 --> 00:50:26,960

These revolve around that central crystal, if it is a crystal. And from there, the energy comes

330

00:50:26,960 --> 00:50:36,080

into the matrix which sends it to earth. Now the more I hear, and I say weird and really mean it,

331

00:50:36,080 --> 00:50:40,160

the more weird part about this whole operation is this.

332

00:50:43,600 --> 00:50:46,160

We have here light coming in,

333

00:50:49,840 --> 00:50:55,920

vibrating these crystals, conditioning the light or the energy in a certain way.

334

00:50:56,720 --> 00:51:00,160

Here again, we have a secondary conditioning of the energy.

335

00:51:01,120 --> 00:51:08,800

Out to then it appears to be light. But, and this is the weird part, from here to here,

336

00:51:09,440 --> 00:51:20,880

it seems to flow like liquid. One of the most staggering things I have ever noticed in outer space,

337

00:51:21,840 --> 00:51:29,360

I have seen a beam of light travel between point A and point B. I've seen a pole there,

338

00:51:29,360 --> 00:51:35,120

and a pole at the back of the room there, and I've seen a beam of light travel slowly between

339

00:51:35,120 --> 00:51:43,760

the two poles. You can't explain it. It's a really weird feeling. You can never see anything like

340

00:51:43,760 --> 00:51:54,400

that on this earth, but I have seen it. And this light appears to flow like water or liquid

341

00:51:54,400 --> 00:52:03,360

to the matrix, and from then on again, I believe it reaches a certain very high velocity.

342

00:52:03,920 --> 00:52:12,080

Probably many, many more times the speed of light, which is reckoned as 186,000 miles per second.

343

00:52:13,120 --> 00:52:17,760

I believe the velocity of the energy when it comes from those crystals is above that of light.

344

00:52:18,480 --> 00:52:31,200

Here we have a drawing of an individual, which may be seven foot tall in comparison with these

345

00:52:31,200 --> 00:52:38,800

permanent, and you have this massive, massive color. And all this, by the way, is in contra,

346

00:52:38,800 --> 00:52:45,360

contained in one small part of this satellite, and it's massive. It's not small. The whole thing

347

00:52:45,360 --> 00:52:51,920

is big, and the first thing one notices when they come in here is not the machinery, but the

348

00:52:51,920 --> 00:53:01,360

purpose. You can smell these energies, and these energies, particularly beautiful.

349

00:53:05,840 --> 00:53:12,720

And there we have the action, conditioning the sun's rays here, another type of conditioning here,

350

00:53:13,280 --> 00:53:21,680

another type of conditioning here, and down. To every man, woman, and child upon earth who is

351

00:53:21,680 --> 00:53:28,240

performing some spiritual action, doesn't matter whether it's in a Roman Catholic church or a

352

00:53:28,240 --> 00:53:35,120

Buddhist monastery or a Buddhist temple, it makes no difference. Providing it's a selfless action

353

00:53:36,560 --> 00:53:40,640

with the right motive done on behalf of some other person.

354

00:53:42,720 --> 00:53:56,640

That's all the drawings we did. Well, that gives you

355

00:53:58,560 --> 00:54:05,440

a very small idea of this particular satellite and how the energies are used.

356

00:54:06,080 --> 00:54:18,560

Now, I said that this satellite would be in orbit of this Earth, and I most certainly intend

357

00:54:19,600 --> 00:54:26,400

to give you the dates. Some of you who were there last night had the dates, but I would ask you to

358

00:54:26,640 --> 00:54:38,400

please be patient, or I'd keep please be patient while I give these dates out again.

359

00:54:41,600 --> 00:54:47,040

Before I do, I'd like to just say a word or two more about this importance.

360

00:54:49,440 --> 00:54:56,160

If you are engaged in any type of spiritual work at all, with selfless spiritual work with

361

00:54:56,160 --> 00:55:13,200

the right motive, even if it is personal advancement, providing again the motive is right, and by the way,

362

00:55:14,640 --> 00:55:23,040

you cannot kid the troops in this respect. The people manipulating the energies from the third

363

00:55:23,040 --> 00:55:33,200

satellite know your motives. You may think you do, these people definitely do. So you can't say,

364

00:55:33,200 --> 00:55:47,920

well, my motive is this, that, and the other, if it's XYZ. So even if it is for personal advancement

365

00:55:47,920 --> 00:55:54,240

or personal enlightenment, providing that is sought with the right motive, these energies will

366

00:55:55,040 --> 00:56:04,880

directly, directly help you in every possible way, and they will help you like this. I'll give you

367

00:56:04,880 --> 00:56:08,960

again the same little illustration as I gave last night, because I can't better it.

368

00:56:09,440 --> 00:56:21,920

Let us take a hypothetical case. Let us take a case of Mrs. A. We'll take Mrs. A because women are more spiritual than men anyway.

369

00:56:22,240 --> 00:56:40,080

We'll take the case, for instance, of Mrs. R. Mr. A. Call her Mrs. A. Now Mrs. A has heard that her friend,

370

00:56:40,080 --> 00:56:51,840

Mrs. B, has had an accident and is in hospital. So what does she do? She may pray in her own way.

371

00:56:52,080 --> 00:56:59,040

Whatever it is she chooses what way to do it. May pray for her friend so that she gets better.

372

00:57:00,160 --> 00:57:05,280

She doesn't only pray, she does other things as well, like visit her in hospital, but one thing

373

00:57:05,280 --> 00:57:13,760

she does do is to pray and send out some power or love to her friend in hospital. And, don't

374

00:57:13,840 --> 00:57:22,560

mechanize her. By praying Mrs. A releases a stream of energy towards her friend, because after all,

375

00:57:22,560 --> 00:57:32,480

what is prayer? Prayer is a way to direct energy by thought, and one predetermines the way.

376

00:57:33,440 --> 00:57:40,560

When one says certain words, it means that one directs their mind in a certain channel.

377

00:57:41,520 --> 00:57:50,720

These words have a meaning or vibration. This vibration is then directed from Mrs. A to Mrs. B.

378

00:57:52,000 --> 00:57:57,680

It's simple to understand, and that is what prayer is, by the way. It's a sciences prayer. It's nothing

379

00:57:57,680 --> 00:58:03,200

airy-fairy. It's just as much a science as any other thing is, a science.

380

00:58:03,680 --> 00:58:15,920

Now, Mrs. A releases, in 15 minutes prayer, shall we say, X units of energy in order to help Mrs. B.

381

00:58:16,720 --> 00:58:18,480

in a normal time of the year.

382

00:58:21,440 --> 00:58:28,240

When the third satellite is in orbit, providing Mrs. A has clear, pure motives,

383

00:58:28,800 --> 00:58:35,920

she will not release X units of energy towards Mrs. B in order to help her, but she will release

384

00:58:35,920 --> 00:58:44,320

3000 X units of energy towards Mrs. B in order to help her. So, all spiritual practices are enhanced

385

00:58:46,080 --> 00:58:54,160

3000 times during the time that this satellite is in orbit of the world. Now, here is a vast,

386

00:58:54,560 --> 00:59:01,600

energy potential for you, an energy potential that you can use in every possible way,

387

00:59:02,640 --> 00:59:09,680

but an energy potential which will not help you to get a better job, particularly, a bigger and

388

00:59:09,680 --> 00:59:19,360

better Cadillac, particularly, or even a Ford, particularly. Mollie knows I'm going to make

389

00:59:19,360 --> 00:59:25,920

a crack at our old ranch wagon, so she's looking at me rather asking at the moment. I mean, if

390

00:59:27,920 --> 00:59:33,840

tuning in to the third satellite energies would help me to get a bigger and better car,

391

00:59:33,840 --> 00:59:39,200

that wouldn't be an old Ford ranch wagon out there. It would be a gold-plated, not even a Cadillac,

392

00:59:39,200 --> 00:59:47,600

a gold-plated Rolls Royce, because I've done it plenty of time. No, but it will help you to help

393

00:59:47,600 --> 00:59:54,400

others in whatever way it is, or help you to advance yourself, providing that advancement

394

00:59:54,400 --> 01:00:01,920

he's brought about with the right motive. And normal spiritual advancement is sought after

395

01:00:01,920 --> 01:00:14,960

with the right motive. And I give you the dates. All times, by the way, our Greenwich, our midnight

396

01:00:14,960 --> 01:00:24,160

Greenwich Mean Time. So a dime in a phone box will, to any air company, a big air company,

397

01:00:24,160 --> 01:00:30,640

will give you the equivalent in Cleveland Time. I don't know what it would be here,

398

01:00:30,640 --> 01:00:38,000

but Greenwich Mean Time. I heard earlier, 7 p.m. Air Force Bumps to Ground. Well, that's it.

399

01:00:38,720 --> 01:00:45,120

That's it. Then a gentleman's already worked it out for us, so it will be 7 p.m. All times

400

01:00:45,680 --> 01:00:54,080

are 7 p.m. Standard Time. If we use Daylight Time, it would be 8 p.m. Yeah, this is a 7 p.m. Standard

401

01:00:54,080 --> 01:00:59,520

Time. If it's Daylight Time, it will be 8 p.m. Thank you very much. That's a great question.

402

01:01:00,320 --> 01:01:05,120

February the 25th until April the 25th.

403

01:01:14,880 --> 01:01:21,600

February the 25th until April the 25th. And after 7 p.m., April the 25th,

404

01:01:22,320 --> 01:01:28,880

it's gone. And the way off it goes. It may go anywhere, but it's gone. Come back again,

405

01:01:29,600 --> 01:01:40,000

June the 5th until August the 9th. June 5th until August the 9th. And the way off it goes again.

406

01:01:40,880 --> 01:01:47,200

And it returns September the 30th to November the 30th.

407

01:01:47,200 --> 01:01:56,880

That's February 25th to April 25th. The first one. Second is June 5th to August 9th.

408

01:01:57,600 --> 01:02:03,520

Third is September 30th to November 30th. If you haven't got these times and dates down, don't

409

01:02:03,520 --> 01:02:09,920

worry. You can get them afterwards from Keith Robertson or Monique Knoppy. They'll be only two

410

01:02:09,920 --> 01:02:16,960

please go out of our way to make sure you do get these dates and times. Now during all those

411

01:02:16,960 --> 01:02:25,440

times for 24 hours a day because the space people don't sleep, for 24 hours a day this satellite

412

01:02:25,440 --> 01:02:33,600

is there. And if you go about your practice, forget the fact that it's there if you like.

413

01:02:33,600 --> 01:02:41,040

You don't need to tune into it or to go into any kind of a weird and wonderful posture or anything

414

01:02:41,040 --> 01:02:47,520

like that. This isn't necessary. But whenever you are performing any spiritual practice,

415

01:02:48,080 --> 01:02:59,200

an individual beam will be put on you. Oh my friends, before I go any further, may I just say this,

416

01:02:59,280 --> 01:03:11,920

you will not repeat knot. Underline the word not. Put a capital N before the word not. Get a message

417

01:03:11,920 --> 01:03:22,240

from this satellite. You must not repeat, not even seek a message from this satellite because

418

01:03:22,240 --> 01:03:32,240

it's energy wasting. But we'll get something far more valuable. That is a beam of energy. And if you

419

01:03:32,240 --> 01:03:42,800

are attuned at all, you will feel, physically feel, physically feel this energy course through you as a

420

01:03:42,800 --> 01:03:50,480

vibrant power. There is no doubt about whether you will physically feel it or not. You will.

421

01:03:51,440 --> 01:04:00,080

I can be categorical and make this statement. You will. If you don't, then indeed don't tell me

422

01:04:00,080 --> 01:04:09,360

because you're telling me that your rarity are not a good one at that. I have not, we have not

423

01:04:09,360 --> 01:04:19,680

received one letter at a theorist's house to my knowledge from a person anywhere on earth who

424

01:04:19,680 --> 01:04:29,280

has honestly told us that they have, they have performed some spiritual practice during the

425

01:04:30,480 --> 01:04:37,360

time the satellite has been there who has not said they felt that extra benefit, that extra uplift,

426

01:04:37,360 --> 01:04:46,000

that extra vibration. I have to yet have the first letter or put it this way. I have to yet see the

427

01:04:46,000 --> 01:04:53,600

first letter myself. I think that is right. I don't ever remember seeing a letter from anyone.

428

01:04:54,480 --> 01:05:03,280

And this is quite, quite a unique. Whenever one talks about spiritual energies, you always get

429

01:05:03,280 --> 01:05:07,920

some people come up and say, oh, well, I didn't that or I couldn't that or I wasn't the other.

430

01:05:08,720 --> 01:05:13,600

But I haven't seen one. If they've come to the Atherist Society, then I haven't seen them.

431

01:05:14,400 --> 01:05:26,080

So there it is. A great call, a great tremendous energy awaits you if you use it. You can be in a

432

01:05:26,960 --> 01:05:35,280

group at a theater and if you're the only one performing spiritual practice in that theater,

433

01:05:35,280 --> 01:05:43,760

an individual beam of the portfolio. You won't see it in size. It's something like the thousands

434

01:05:43,760 --> 01:05:52,720

part of a hair, a thousandth part as wide as our hair of your head in size. But it's there.

435

01:05:52,720 --> 01:06:01,200

It's powerful. It's extremely potent. The more you practice spiritual work, the more you do it,

436

01:06:01,200 --> 01:06:09,520

the more you use these energies, the more will be given to you. If any of you contemplate any

437

01:06:10,320 --> 01:06:20,640

great spiritual move, if you contemplate starting groups and things like that, then this is, these

438

01:06:20,640 --> 01:06:28,400

are the dates to make such a start. Or if you make a start beforehand, have everything ready so that

439

01:06:28,400 --> 01:06:36,480

on these dates you can go into battle as it were. It is known that if you are doing this, you are one

440

01:06:36,480 --> 01:06:44,800

of what the space people call the glorious few. And no matter what odds seem to be against you,

441

01:06:44,800 --> 01:06:52,320

and God knows the odds are bad enough, but no matter what odds they are, eventually

442

01:06:53,280 --> 01:07:04,240

you will win. There is no doubt about this. Eventually light will transmute darkness.

443

01:07:04,880 --> 01:07:06,960

There is no doubt about this.

444

01:07:09,600 --> 01:07:17,440

Whosoever thinks otherwise doesn't think deep enough, doesn't think long enough,

445

01:07:18,400 --> 01:07:30,880

doesn't know enough. If we keep on sending out this light, this energy, we will cause a great

446

01:07:30,880 --> 01:07:40,240

transmutation of the dark forces upon this earth. We will cause them to be transmuted so that they

447

01:07:40,240 --> 01:07:46,720

themselves can enter the realms of light. Instead of being a Guinness, they will then be for us.

448

01:07:48,400 --> 01:08:01,760

A few years ago, you all would have had to work extremely hard to know such significant information

449

01:08:01,760 --> 01:08:12,080

as this. But the space people have seen fit because of their great love for mankind to tear down the

450

01:08:12,880 --> 01:08:22,000

doors of the secret mystery school and lay open information to the ordinary man and woman so

451

01:08:22,000 --> 01:08:27,840

that he may use it or reject it as he sees fit.
