

1

00:00:00,000 --> 00:00:08,600

If we start a group here, it will be patterned after Mr. Adamski's work and these teachings

2

00:00:08,600 --> 00:00:11,480

that the brothers are giving him.

3

00:00:11,480 --> 00:00:18,880

We have three little booklets at the moment, which after a while Mr. Adamski is planning

4

00:00:18,880 --> 00:00:20,680

to put into one book.

5

00:00:20,680 --> 00:00:23,480

This is Telepathy, the Language of the Universe.

6

00:00:23,480 --> 00:00:29,000

It's a basic understanding of yourself.

7

00:00:29,000 --> 00:00:35,680

What makes you think why we're here and I've found it very helpful in the short time that

8

00:00:35,680 --> 00:00:37,680

I've been using it.

9

00:00:37,680 --> 00:00:40,680

And we will use this material, the Harvick philosophy.

10

00:00:40,680 --> 00:00:44,160

I don't know whether all of you have seen this or not.

11

00:00:44,160 --> 00:00:45,160

We have a few of them left here.

12

00:00:45,160 --> 00:00:47,160

They are not available in the bookstores.

13

00:00:47,160 --> 00:00:51,160

You have to send to California to get it from Mr. Adamski.

14

00:00:51,160 --> 00:00:55,160

So we brought some with us in case anyone would like to have one.

15

00:00:55,320 --> 00:01:01,320

And currently Mr. Adamski has a series of twelve lessons going on called Science of Light.

16

00:01:01,320 --> 00:01:08,320

This would probably be the name of our group, the Science of Light Study Group.

17

00:01:08,320 --> 00:01:14,320

And this is, you start with the telepathy book that's going to the cosmic philosophy and then the

18

00:01:14,320 --> 00:01:18,320

Science of Light is still deep aface of this work.

19

00:01:18,320 --> 00:01:20,320

And it's pure science and truth.

20

00:01:20,480 --> 00:01:30,480

It has nothing to do with religion or metaphysics or our occult things, anything of this nature that we most of us

21

00:01:30,480 --> 00:01:34,480

have studied into in varying degrees before.

22

00:01:34,480 --> 00:01:36,480

It's mostly just scientific fact.

23

00:01:36,480 --> 00:01:38,480

This is why it appeals to me.

24

00:01:38,480 --> 00:01:43,480

It's just plain common sense and it fits together like pieces in a picture puzzle.

25

00:01:43,480 --> 00:01:48,480

And to me it's just fantastic.

26

00:01:48,640 --> 00:01:52,640

I don't know how I ever lived a dollar really.

27

00:01:52,640 --> 00:01:58,640

So I hope you will ask Mr. Adamski questions. I don't know what he's going to tell you.

28

00:01:58,640 --> 00:02:03,640

Some of you might have, when we had this meeting in Dorchester, I didn't know what he would say either.

29

00:02:03,640 --> 00:02:06,640

And I left him to say all these things and he didn't.

30

00:02:06,640 --> 00:02:13,640

So tonight I thought I would and then people would understand more where they are to begin with.

31

00:02:13,640 --> 00:02:16,640

And you can fit in better what he's trying to tell you.

32

00:02:16,800 --> 00:02:19,800

And if you have any questions, I know you'll be glad to answer them.

33

00:02:19,800 --> 00:02:23,800

Well, in the first place, the science of life.

34

00:02:23,800 --> 00:02:26,800

Life is scientific if you understand.

35

00:02:26,800 --> 00:02:30,800

Mr. Wachowski, I want to tell you about these things.

36

00:02:30,800 --> 00:02:36,800

Is there anyone who didn't get a Bible answer from the scripture and you'll be able to hear it if you don't have?

37

00:02:36,800 --> 00:02:42,800

There are also a few copies of the Rosamund Forton, which Mr. Adamski publishes.

38

00:02:42,960 --> 00:02:46,960

And what you can get by sending your name to him and sign up on a voluntary basis.

39

00:02:46,960 --> 00:02:51,960

If you like it and are interested, you can share whatever you like to help pay for the car.

40

00:02:51,960 --> 00:02:57,960

There's only three or four of these. These are all you have left when you finally arrived in Massachusetts.

41

00:02:57,960 --> 00:03:01,960

And what the people are going to do where he goes from here.

42

00:03:01,960 --> 00:03:06,960

And then we have the science of life study course.

43

00:03:07,120 --> 00:03:10,120

This is a short description of what it covers.

44

00:03:10,120 --> 00:03:14,120

The chapters in the course is what comes every month and that sort of thing.

45

00:03:14,120 --> 00:03:18,120

As far as these stories are welcome to have them, I think we should have enough.

46

00:03:18,120 --> 00:03:23,120

Some of the people in the group have nailed these up. We've done them since we nailed the last meeting.

47

00:03:23,120 --> 00:03:28,120

So before you leave or during the course of the evening or when I come look them over to life,

48

00:03:28,120 --> 00:03:33,120

I would appreciate it if these three bulletins you would leave so that people have a chance to look.

49

00:03:33,280 --> 00:03:37,280

At least until a meeting is over and you come home.

50

00:03:37,280 --> 00:03:42,280

Mr. Adams, his address is on this science of life sheet and it's also on this biographical sketch.

51

00:03:42,280 --> 00:03:46,280

And anyone can write to me.

52

00:03:46,280 --> 00:03:50,280

I'll be glad to answer any questions I can or send you any information on how.

53

00:03:50,280 --> 00:03:54,280

If there's anyone here tonight who's named we don't have on our record,

54

00:03:54,280 --> 00:04:01,280

if you are someone who has phoned me, I know there's a group in Shrewsbury who called.

55

00:04:01,440 --> 00:04:05,440

And we'd like to have you named it after this is over. You're still interested.

56

00:04:05,440 --> 00:04:10,440

We'd like to have you named so that we can keep you in touch and tell you what goes on next.

57

00:04:10,440 --> 00:04:14,440

Okay.

58

00:04:14,440 --> 00:04:18,440

We call it the science of life.

59

00:04:18,440 --> 00:04:22,440

Because life is scientific in itself.

60

00:04:22,440 --> 00:04:26,440

Even God is scientific if you want to use the term.

61

00:04:26,600 --> 00:04:33,600

Because we might say when you understand a thing, you can live it.

62

00:04:33,600 --> 00:04:40,600

And we might say once you understand science itself, then it's called a pliable science because you apply it in your life.

63

00:04:42,600 --> 00:04:47,600

And philosophy of course is a foundation of science as well as all the faiths or religions.

64

00:04:48,600 --> 00:04:55,600

And philosophy will end itself into various fields of life that's really the foundation of life out of which many things come forth.

65

00:04:56,600 --> 00:05:03,600

In other words, the foundation of life is like a trunk of a tree that later goes into various branches.

66

00:05:05,600 --> 00:05:10,600

We have today have been studying the branches and never the trunk.

67

00:05:10,600 --> 00:05:15,600

We left a trunk to some of the arrector that we have today.

68

00:05:16,600 --> 00:05:21,600

And we named it God, Jehovah, and many other names.

69

00:05:21,600 --> 00:05:28,600

Now what life is a whole, we might not know it as a whole either.

70

00:05:28,600 --> 00:05:33,600

Because the label might not represent exactly what we want to bring forth.

71

00:05:33,600 --> 00:05:38,600

And we are living by labels most of the time.

72

00:05:38,600 --> 00:05:43,600

For identification purposes.

73

00:05:43,600 --> 00:05:48,600

But life itself is both forth in intelligence.

74

00:05:48,600 --> 00:05:56,600

For we know that matter or gases or anything of which forms are made are first in the invisible state.

75

00:05:56,600 --> 00:06:01,600

And life itself is both forth in intelligence.

76

00:06:01,600 --> 00:06:06,600

And everything of which forms are made are first in the invisible state.

77

00:06:06,600 --> 00:06:11,600

And then solidify, I give you an example for instance.

78

00:06:11,600 --> 00:06:14,600

You look into the sky like today was a clear sky.

79

00:06:14,600 --> 00:06:19,600

You didn't see anything up there yet there were gases up there.

80

00:06:19,600 --> 00:06:23,600

But you didn't see if there were the invisible state.

81

00:06:23,600 --> 00:06:30,600

Well, suddenly they would form, they would slow their action up and a white cloud would appear.

82

00:06:32,600 --> 00:06:39,600

Then you saw what you could have saw is an effect over concrete effect, something that you call concrete.

83

00:06:39,600 --> 00:06:44,600

Up to that time you didn't have nothing concrete until the cloud appeared.

84

00:06:44,600 --> 00:06:51,600

And if that cloud keeps appearing and reducing its activity more and more, it becomes a dark cloud.

85

00:06:51,600 --> 00:06:55,600

And the little bit more you'll finally get some moisture out of it.

86

00:06:55,600 --> 00:07:00,600

And so down the line, besides it also gathers on energy.

87

00:07:00,600 --> 00:07:03,600

Which we call steady electricity up times.

88

00:07:03,600 --> 00:07:09,600

When they're loaded pretty well, they'll shoot that force out to another cloud.

89

00:07:09,600 --> 00:07:11,600

We call it lightning.

90

00:07:11,600 --> 00:07:16,600

Well, this all comes out of the invisible, two-possible state.

91

00:07:16,600 --> 00:07:21,600

And right before your eyes what you're watching, go back to the invisible.

92

00:07:21,600 --> 00:07:24,600

The cloud dissipates another clear sky.

93

00:07:24,600 --> 00:07:26,600

You see nothing there.

94

00:07:26,600 --> 00:07:32,600

So you can see that life in the field of abstract is in the abstract state.

95

00:07:32,600 --> 00:07:35,600

We call it abstract state, not the effect of sight.

96

00:07:35,600 --> 00:07:41,600

We have been studying the effects mostly and never gone down to the cause of it.

97

00:07:41,600 --> 00:07:44,600

And there was a cause for every manifestation.

98

00:07:44,600 --> 00:07:47,600

You might say there was a cause for the cloud to appear.

99

00:07:47,600 --> 00:07:53,600

And there was a cause also for the cloud to vanish again, become invisible.

100

00:07:53,600 --> 00:08:00,600

In other words, life works in a cycle, right on through, and produces various types of manifestations.

101

00:08:00,600 --> 00:08:06,600

Now the cloud that you might have saw today appearing in that way, you may never see it again.

102

00:08:06,600 --> 00:08:10,600

Because it'll never repeat itself in the same geometrical pattern.

103

00:08:10,600 --> 00:08:13,600

There'll be other clouds, but not the same one.

104

00:08:13,600 --> 00:08:14,600

And they keep on going.

105

00:08:14,600 --> 00:08:22,600

There's always constant newness going on in the field of light in the various manifestations.

106

00:08:22,600 --> 00:08:31,600

Now we know that there's a force, because nothing cannot get together without something gathering it together.

107

00:08:31,600 --> 00:08:39,600

Then to form a form, like for instance we know form of a tree, form of a worm, form of a man, or anything like that.

108

00:08:39,600 --> 00:08:42,600

It calls for intelligence.

109

00:08:42,600 --> 00:08:44,600

Some kind of an intelligence, back of it.

110

00:08:44,600 --> 00:08:48,600

While we classify that as God.

111

00:08:48,600 --> 00:08:52,600

And some people classify Jehovah in various names given to it.

112

00:08:52,600 --> 00:08:57,600

Supreme Being, the Supreme Intelligence, the cosmic intelligence, also some names were given to it.

113

00:08:57,600 --> 00:09:00,600

Everyone has a different label for it.

114

00:09:00,600 --> 00:09:12,600

But no one can deny the one thing, even as so-called innateism, can deny that there is power for our greater and betters of a zone.

115

00:09:12,600 --> 00:09:21,600

I lecture one time in Garden Grove in California to a group of students of a state college.

116

00:09:21,600 --> 00:09:25,600

And one fellow says, why don't believe in none of that?

117

00:09:25,600 --> 00:09:29,600

Because I'm an atheist.

118

00:09:29,600 --> 00:09:33,600

I says there's no such a thing as an atheist.

119

00:09:33,600 --> 00:09:35,600

And he disagreed with me.

120

00:09:35,600 --> 00:09:37,600

He said he wasn't an atheist.

121

00:09:37,600 --> 00:09:41,600

I said, all right, since we got into this hall here.

122

00:09:41,600 --> 00:09:43,600

I have settled down.

123

00:09:43,600 --> 00:09:45,600

That I myself won't be able to get home tonight.

124

00:09:45,600 --> 00:09:47,600

I'll have to stay over.

125

00:09:47,600 --> 00:09:51,600

Because I wouldn't know where to drive, where to find a road that's so heavy.

126

00:09:51,600 --> 00:09:53,600

I could cut it with a knife.

127

00:09:53,600 --> 00:09:57,600

Can you go out there and find your car?

128

00:09:57,600 --> 00:09:59,600

He says no.

129

00:09:59,600 --> 00:10:04,600

Well then you are admitting to me that you're subject unto another power.

130

00:10:04,600 --> 00:10:06,600

You're limited.

131

00:10:06,600 --> 00:10:10,600

If you weren't, you would be going down there and get the car and go home.

132

00:10:10,600 --> 00:10:17,600

And that alone is an admission that there's a greater power over man, a loving man,

133

00:10:17,600 --> 00:10:22,600

without the word of God, as we have been told.

134

00:10:22,600 --> 00:10:28,600

And that that great power is also an intelligent power.

135

00:10:28,600 --> 00:10:34,600

Because it gathers things, puts them into form when a man does not know how to put them into form.

136

00:10:34,600 --> 00:10:38,600

For an example, you take yourself.

137

00:10:38,600 --> 00:10:41,600

Well, some of you are mothers.

138

00:10:41,600 --> 00:10:44,600

Some of you are fathers.

139

00:10:44,600 --> 00:10:55,600

Is there any man in this world that really knows what is to take place when a lady conceives to be a mother?

140

00:10:55,600 --> 00:11:00,600

Be it a boy, be it a girl, be it a girl, be it a boy.

141

00:11:00,600 --> 00:11:01,600

Into the world.

142

00:11:01,600 --> 00:11:05,600

God, she knows that she's conceived and is going to be a mother in time.

143

00:11:05,600 --> 00:11:12,600

But does she know anything about what to do about growing that seed into a form of a babe?

144

00:11:12,600 --> 00:11:14,600

Nothing.

145

00:11:14,600 --> 00:11:16,600

She doesn't know a thing about it.

146

00:11:16,600 --> 00:11:19,600

Not even as our science today.

147

00:11:19,600 --> 00:11:25,600

Yes, they're talking about having robots by putting a tape recording into an instrument

148

00:11:25,600 --> 00:11:35,600

and have that robot do things according to the tape recording as the tape recording has been made by somebody else.

149

00:11:35,600 --> 00:11:44,600

And they may do that, but they can never and never will with what we call the intelligence or the soul work.

150

00:11:44,600 --> 00:11:48,600

Is it called into any form that they might make?

151

00:11:48,600 --> 00:11:50,600

Representing man.

152

00:11:50,600 --> 00:12:02,600

Yet we must admit that there is an intelligence operating within that mother that knows what to do, that finally the child is born into the world.

153

00:12:02,600 --> 00:12:05,600

Which might be the son or daughter.

154

00:12:05,600 --> 00:12:10,600

And there's not a man out there who knows anything about that out there to be done.

155

00:12:10,600 --> 00:12:13,600

There's evidence right there.

156

00:12:13,600 --> 00:12:16,600

Whether you call it God or whatever you want to call it.

157

00:12:16,600 --> 00:12:27,600

That there is an intelligent beyond that point of a man's mind or man's intelligence that is capable of doing the job that a man is not able to do himself.

158

00:12:27,600 --> 00:12:29,600

Even with the simple eating.

159

00:12:29,600 --> 00:12:35,600

You eat, you take the food down there, your mind says you should eat because you're hungry.

160

00:12:35,600 --> 00:12:37,600

Alright, you eat.

161

00:12:37,600 --> 00:12:41,600

But do you know what's going to happen with that food once you get down there in the stomach?

162

00:12:41,600 --> 00:12:44,600

You forget all about it, you don't pay no attention to it.

163

00:12:44,600 --> 00:12:51,600

And yet there's a harmonious law involved there that if you're disturbed terribly, disturbed mentally.

164

00:12:51,600 --> 00:12:56,600

And you go and eat the best kind of food that may be placed before you.

165

00:12:56,600 --> 00:13:02,600

And at this state of mind, I'll bet you in 20 minutes you'll be asking for soda.

166

00:13:02,600 --> 00:13:04,600

You'll have an indigestion.

167

00:13:05,600 --> 00:13:08,600

When you go and eat there in the Africa-Golabi state,

168

00:13:08,600 --> 00:13:13,600

even if you intended meat, you didn't know it probably, but you could eat it and it wouldn't bother you.

169

00:13:13,600 --> 00:13:18,600

There's a law that is perfect operating within you all the time.

170

00:13:20,600 --> 00:13:24,600

Even when you're sleeping, your mind, my beast said, is dead.

171

00:13:24,600 --> 00:13:28,600

You're dead. You're a hard sleeper, heavy sleeper.

172

00:13:28,600 --> 00:13:34,600

Why, people could take you out of the room, walk out in which you're the bed and all,

173

00:13:34,600 --> 00:13:36,600

which are in another place and you wouldn't know a thing about it.

174

00:13:36,600 --> 00:13:40,600

It makes more when you wake up, you're in the arm of the world, you got into that place.

175

00:13:40,600 --> 00:13:47,600

You know, you remember you went to bed in one place and found yourself woken up in another place.

176

00:13:47,600 --> 00:13:51,600

Yet there's something taking care of your body all the time.

177

00:13:51,600 --> 00:13:56,600

Or if it wasn't, your body would not wake up in the morning.

178

00:13:56,600 --> 00:14:05,600

It's these things. They're not metaphysical, they're not religious, they're just the law, actual fact.

179

00:14:07,600 --> 00:14:13,600

That you daily live with it, but how much attention or thought you give to it, none.

180

00:14:14,600 --> 00:14:19,600

We have exalted the mind of everything in the world,

181

00:14:19,600 --> 00:14:26,600

but we have never given any thought to that which even created that mind.

182

00:14:26,600 --> 00:14:34,600

If we do, we're always placed somewhere in the sky, somewhere in the heavens so called,

183

00:14:34,600 --> 00:14:43,600

or somewhere in a God-idea or a Supreme Being or a Supreme Intelligence or Divine State.

184

00:14:43,600 --> 00:14:51,600

Yet we must admit that even if there was that Divine Mind which is, which is that something that's already in you,

185

00:14:51,600 --> 00:14:57,600

that is responsible for creating that little son or a daughter that you may have,

186

00:14:57,600 --> 00:15:04,600

or a father, or digesting your food, as something is already there.

187

00:15:04,600 --> 00:15:12,600

Well, we might say that as something, whatever you call it, if we use the word God, then whatever God created,

188

00:15:12,600 --> 00:15:20,600

it came out of his mind or his conscience and became a living form of what you call concrete.

189

00:15:21,600 --> 00:15:30,600

And that which came out of that mind must be equally as Divine, if we use the word Divine,

190

00:15:30,600 --> 00:15:38,600

is that Divine Creator was Himself. Nothing less could come out of that mind, only that.

191

00:15:38,600 --> 00:15:47,600

So we are living as Divine Expression, and that Divine Expression still is within us which we call life of ourselves,

192

00:15:47,600 --> 00:15:55,600

or the higher soul some people call it, that very intelligence and power that motivates the body

193

00:15:55,600 --> 00:16:04,600

and also causes the mind to receive impressions and act upon them because every word that I say, or you will say,

194

00:16:04,600 --> 00:16:15,600

must come by an impression to you, and then your mind recognizes it and gives utterance to it in a form of sound.

195

00:16:16,600 --> 00:16:20,600

If you would not get that impression, you wouldn't know what to talk about.

196

00:16:20,600 --> 00:16:25,600

These are thoughts that are coming from the indivisible and silent manner,

197

00:16:25,600 --> 00:16:35,600

and then you recognize them and those that you like according to your habits, you express them to convey it to the other fellow.

198

00:16:35,600 --> 00:16:41,600

Yet there is that universal language, just like universal music.

199

00:16:41,600 --> 00:16:48,600

In our music you have what you call, so many notes, and they are all the same,

200

00:16:48,600 --> 00:16:56,600

whether they be Chinese men, German, French, American, Australian, Polak or what,

201

00:16:56,600 --> 00:17:00,600

they all use the same notes but produce different melodies.

202

00:17:00,600 --> 00:17:09,600

Yet no matter what kind of melodies, what nationality, you are touched by that harmony.

203

00:17:10,600 --> 00:17:18,600

It does something to you, why? Because it is the original, the real thing.

204

00:17:18,600 --> 00:17:25,600

See, something that's been before you came in, and you are part of it,

205

00:17:25,600 --> 00:17:31,600

because that's something that is part of you as in relationship with it, of a cosmic nature,

206

00:17:31,600 --> 00:17:36,600

which is also responsible for creating that son and daughter that you may have,

207

00:17:36,600 --> 00:17:40,600

or digesting that food if you are also taking care of you at night when you are sleeping,

208

00:17:40,600 --> 00:17:44,600

because sleep really is actually death.

209

00:17:44,600 --> 00:17:53,600

You will witness no other way of death than that, unless you have probably been crippled up in

accidents

210

00:17:53,600 --> 00:17:55,600

and some like that, you have suffered then.

211

00:17:55,600 --> 00:17:58,600

What if you were to die right there in that sleep?

212

00:17:58,600 --> 00:18:03,600

That's the only way you would pass away, and you would know any difference.

213

00:18:03,600 --> 00:18:07,600

So you would die every night anyway.

214

00:18:07,600 --> 00:18:11,600

You are hoping that you wake up in the morning because it's customary,

215

00:18:11,600 --> 00:18:16,600

you have so many years to go on, and so it becomes customary to believe that you are going to wake up,

216

00:18:16,600 --> 00:18:20,600

but a lot of people are having to open up in the morning.

217

00:18:20,600 --> 00:18:26,600

So you really are taking gambling, taking a chance when you go to bed and closing your eyes,

218

00:18:26,600 --> 00:18:32,600

and your mind goes to absolutely dead that you will wake up in the morning, and you do.

219

00:18:32,600 --> 00:18:39,600

And notice again, here, the last thoughts that you might have in going to sleep

220

00:18:39,600 --> 00:18:42,600

will be the first thoughts that you will wake up with.

221

00:18:42,600 --> 00:18:45,600

It's like a long clock.

222

00:18:45,600 --> 00:18:50,600

But the consciousness, what we call consciousness, we have given very little thought to it.

223

00:18:50,600 --> 00:18:58,600

It's the one that keeps operating your body and your body,

224

00:18:59,600 --> 00:19:02,600

and keeps it going all night long.

225

00:19:02,600 --> 00:19:10,600

The blood pressure goes along, and every bit of liquid in your body is moving on.

226

00:19:10,600 --> 00:19:16,600

The pulsation is going on just the same, whether you are asleep or not.

227

00:19:16,600 --> 00:19:23,600

Well, it shows here then that there is an intelligence, independent of your mind,

228

00:19:23,600 --> 00:19:28,600

right there in your body, all the time, and is taking care of that body.

229

00:19:28,600 --> 00:19:32,600

And that's intelligence that, off time, does warn you.

230

00:19:32,600 --> 00:19:37,600

We call hunches or premonitions, and all those kind of names have been given to those feelings,

231

00:19:37,600 --> 00:19:43,600

that we get sometimes, don't do this or do that, or don't eat this or don't eat that,

232

00:19:43,600 --> 00:19:46,600

or you're doing this or that wrong, or something like that.

233

00:19:46,600 --> 00:19:49,600

We know, don't pay any attention to that.

234

00:19:49,600 --> 00:19:55,600

That particular manifestation has been called in the early days, a guarding angel.

235

00:19:55,600 --> 00:19:59,600

But that angel is really you. They're really you.

236

00:19:59,600 --> 00:20:04,600

Because the mind and the body is not in effect of that real thing.

237

00:20:04,600 --> 00:20:09,600

Just the same, you see, before you can have a building, we say.

238

00:20:09,600 --> 00:20:14,600

Or even a chair. What do you do? You make a blueprint.

239

00:20:14,600 --> 00:20:19,600

You've got an impression of what to do. You make a blueprint. Draw it on a piece of paper.

240

00:20:19,600 --> 00:20:24,600

You still haven't got a concrete form. You just got an idea.

241

00:20:24,600 --> 00:20:31,600

And then you proceed to get the material necessary to build that building or build that chair.

242

00:20:31,600 --> 00:20:35,600

Then you've got a concrete form. This is what a lot of people are asking for.

243

00:20:35,600 --> 00:20:37,600

Give me the concrete evidence.

244

00:20:37,600 --> 00:20:40,600

Well, what they're asking for is an effect.

245

00:20:40,600 --> 00:20:47,600

And they sell them there. They go to the study of cause, and they never know what the cause of it was.

246

00:20:47,600 --> 00:20:50,600

And it's to the cause that we have to go.

247

00:20:50,600 --> 00:20:59,600

Now, if it wasn't for Marconi, Madame Currie, Einstein, Stein, Mitzvillan, all these fellas here,

248

00:20:59,600 --> 00:21:04,600

at one time were treacherous to be thrown in the Santa's column of the things they talked about,

249

00:21:04,600 --> 00:21:07,600

well, we wouldn't have the things that we got today.

250

00:21:08,600 --> 00:21:14,600

These men were upset-sangered. They went to the cause, and from the cause, worked towards the effect,

251

00:21:14,600 --> 00:21:19,600

and produced the effect. Once they produced the effect, they may not have to acknowledge.

252

00:21:19,600 --> 00:21:22,600

But first conception wasn't the cause.

253

00:21:22,600 --> 00:21:30,600

It's the same thing as a child boy that has been, uh, conception taking place as a cause.

254

00:21:30,600 --> 00:21:32,600

Well, you still haven't got a form.

255

00:21:32,600 --> 00:21:38,600

I've not been born outside into the world as yet, but the cause is there.

256

00:21:38,600 --> 00:21:43,600

And eventually the effect would be brought forth. Then you've got a concrete form.

257

00:21:43,600 --> 00:21:45,600

You've got a concrete knowledge.

258

00:21:45,600 --> 00:21:48,600

It's a form been born out of that little sea.

259

00:21:48,600 --> 00:21:52,600

And so it is with all everything else. Everything comes out of the invisible,

260

00:21:52,600 --> 00:21:57,600

and returns back to the invisible like that cloud.

261

00:21:57,600 --> 00:21:59,600

Life was on a cycle.

262

00:21:59,600 --> 00:22:05,600

Now, we got to classify intelligence then, and in order to know what we're talking about.

263

00:22:05,600 --> 00:22:11,600

We have allotted the idea to be only passed on to human beings,

264

00:22:11,600 --> 00:22:14,600

that they're intelligent or non-intelligent.

265

00:22:14,600 --> 00:22:21,600

But everything that manifests is intelligent in some, in its own field, in a certain degree.

266

00:22:21,600 --> 00:22:24,600

You might say that the blade of grass is intelligent.

267

00:22:24,600 --> 00:22:31,600

I want to tell you something. In UCLA, in California, this field is back.

268

00:22:31,600 --> 00:22:38,600

I went down there and went with quite a few professors there, and they're studying plants.

269

00:22:38,600 --> 00:22:43,600

And this was a geranium that they were using at this time.

270

00:22:43,600 --> 00:22:48,600

And, uh, you know, when we pinch ourselves or cut ourselves,

271

00:22:48,600 --> 00:22:55,600

immediately a certain amount of fever takes place in that cut.

272

00:22:55,600 --> 00:22:57,600

Immediately.

273

00:22:57,600 --> 00:23:05,600

All right. You pinch a plant, slip off of a plant, you don't see that.

274

00:23:05,600 --> 00:23:08,600

You think it's a dead thing, but it's not.

275

00:23:08,600 --> 00:23:16,600

We had this little instrument where it would show normal condition as well as fever.

276

00:23:16,600 --> 00:23:22,600

Well, the professor went to work and pinched it, slip off of the geranium.

277

00:23:22,600 --> 00:23:24,600

First he put it in there, it was normal.

278

00:23:24,600 --> 00:23:28,600

You like taking your own pulse or your temperature.

279

00:23:28,600 --> 00:23:30,600

Well, it was normal.

280

00:23:30,600 --> 00:23:33,600

He pinched it, and pinching is tearing it.

281

00:23:33,600 --> 00:23:36,600

It's not a clean cut. It's tearing it.

282

00:23:36,600 --> 00:23:38,600

So he pinched it.

283

00:23:38,600 --> 00:23:44,600

And because he pinched it, the ting quiver showed that his life was going on out of it.

284

00:23:44,600 --> 00:23:50,600

There was it hurt. It was quivering just the same as you would be quivering.

285

00:23:50,600 --> 00:23:54,600

And acting in that way. And the fever began to rise.

286

00:23:54,600 --> 00:24:00,600

He had entered the plant out and took the slip and put the slip in there.

287

00:24:00,600 --> 00:24:04,600

And you'd seen probably, I don't know how many of you have seen that I have,

288

00:24:04,600 --> 00:24:09,600

seen it in a war and all of that, where the muscles begin to jerk.

289

00:24:09,600 --> 00:24:13,600

Once the body is dying, see, they begin to jerk.

290

00:24:13,600 --> 00:24:16,600

They jerk by themselves. They're all together.

291

00:24:16,600 --> 00:24:20,600

So a kind of a joking went on and slipped.

292

00:24:20,600 --> 00:24:22,600

The life was passing out of it.

293

00:24:22,600 --> 00:24:24,600

All right?

294

00:24:24,600 --> 00:24:27,600

Then he took another geranium, put it in, done the same ting.

295

00:24:27,600 --> 00:24:32,600

This time he took a razor blade and he cut a slip off.

296

00:24:32,600 --> 00:24:36,600

There was pain registered there and slight fever,

297

00:24:36,600 --> 00:24:42,600

but not as great as the one that the tissues were torn by pinching it off with fingernails.

298

00:24:42,600 --> 00:24:47,600

See? And the same reaction but a mile of nature.

299

00:24:47,600 --> 00:24:54,600

Well, the right there, immediately little sap would come out of it

300

00:24:54,600 --> 00:24:57,600

and the healing would begin to take place where the injury took place.

301

00:24:57,600 --> 00:25:00,600

Just the same as those on your hand.

302

00:25:00,600 --> 00:25:05,600

There's a form of intelligence right there taking care of the injury right there.

303

00:25:05,600 --> 00:25:07,600

It's the same with trees and everything else.

304

00:25:07,600 --> 00:25:14,600

So when we talk about intelligence, we have to then grasp what we mean by intelligence.

305

00:25:14,600 --> 00:25:18,600

If a man come up here right now and has said,

306

00:25:18,600 --> 00:25:24,600

well, I'm so and so, he's well dressed, he looks like a million dollars,

307

00:25:24,600 --> 00:25:29,600

and he looks like he'd have just a stack of knowledge,

308

00:25:29,600 --> 00:25:34,600

we immediately get an impression from that he's a very intelligent man.

309

00:25:34,600 --> 00:25:39,600

But once he opens his mouth and he starts talking,

310

00:25:39,600 --> 00:25:42,600

immediately we classify him.

311

00:25:42,600 --> 00:25:48,600

Is he intelligent or is he a just good looking man and puts on airs,

312

00:25:48,600 --> 00:25:53,600

and behind that is nothing but a moron?

313

00:25:53,600 --> 00:25:56,600

So we classify him immediately.

314

00:25:56,600 --> 00:26:01,600

If he expresses himself below our standard of thought,

315

00:26:01,600 --> 00:26:05,600

then he has nothing to give us any reclassified as a moron.

316

00:26:05,600 --> 00:26:09,600

He doesn't know anything but what, doesn't know as much as we do.

317

00:26:09,600 --> 00:26:14,600

Yet another man will come along and maybe rag it and look like a trap.

318

00:26:14,600 --> 00:26:19,600

When we classify him, well, that guy must have nothing, he's just a bum.

319

00:26:19,600 --> 00:26:26,600

Yet when he opens his mouth up, we all should get around and we'll listen to him for hours.

320

00:26:26,600 --> 00:26:33,600

So we classified these two men, people, on the basis of expression,

321

00:26:33,600 --> 00:26:39,600

and if they were acting, producing something, we reclassified them the same way.

322

00:26:39,600 --> 00:26:42,600

This pellet can produce it better than the other pellet,

323

00:26:42,600 --> 00:26:47,600

so it's a little smarter or more intelligent, we say.

324

00:26:47,600 --> 00:26:55,600

Now, what is it in this world, like a blade of grass, the tree, the plant life, the worm,

325

00:26:55,600 --> 00:26:58,600

even the minerals and all of that?

326

00:26:58,600 --> 00:27:03,600

That is not expressing intelligence.

327

00:27:03,600 --> 00:27:10,600

Everything is expressing intelligence because you take a blade of grass that is formed,

328

00:27:10,600 --> 00:27:13,600

alright, it knows what it wants.

329

00:27:13,600 --> 00:27:18,600

We may give it too much fertilizer, we may give it too much anything and kill it.

330

00:27:18,600 --> 00:27:25,600

But if we let it alone, or if we know exactly how much food it requires,

331

00:27:25,600 --> 00:27:28,600

we'll be doing it a lot of good and if we let it alone,

332

00:27:28,600 --> 00:27:31,600

it'll do better sometime than when we try to help it long.

333

00:27:31,600 --> 00:27:35,600

See, it knows just exactly what it wants.

334

00:27:35,600 --> 00:27:42,600

Everything in its field for which it was created.

335

00:27:42,600 --> 00:27:47,600

There's nothing, we couldn't live, really we couldn't live without the insects,

336

00:27:47,600 --> 00:27:55,600

without the worm, the ladybugs and things like that, speaking of ladybugs.

337

00:27:55,600 --> 00:28:01,600

In California, two years back, they wanted to get rid of the insects

338

00:28:01,600 --> 00:28:06,600

because they were injuring the orange trees and they weren't getting the crops they were getting.

339

00:28:06,600 --> 00:28:11,600

So they sprayed the trees and all of that with poison gases and so forth,

340

00:28:11,600 --> 00:28:17,600

fumigated them and all of that, where did they kill off all the ladybugs?

341

00:28:17,600 --> 00:28:21,600

And then they didn't have no oranges.

342

00:28:21,600 --> 00:28:27,600

So they realized what they had done, so they got some ladybugs from the east

343

00:28:27,600 --> 00:28:30,600

and started promoting them.

344

00:28:30,600 --> 00:28:34,600

Today you're combined by the pound and they do.

345

00:28:34,600 --> 00:28:39,600

Combined by the pound and turn them loose and they got good oranges.

346

00:28:39,600 --> 00:28:42,600

In other words, everything is for a purpose.

347

00:28:42,600 --> 00:28:44,600

We are greedy people.

348

00:28:44,600 --> 00:28:46,600

They could in nature sway.

349

00:28:46,600 --> 00:28:53,600

We are greedy people, we may say, man, so is one, fifty acres of corn.

350

00:28:53,600 --> 00:28:59,600

This is a funny thing that we do sometime that we call ourselves very intelligent.

351

00:28:59,600 --> 00:29:06,600

I think we kind of use that word intelligent because instead of intelligent, we become greedy.

352

00:29:06,600 --> 00:29:09,600

And we heard ourselves with greed.

353

00:29:09,600 --> 00:29:13,600

He gets fifty acres of corn.

354

00:29:13,600 --> 00:29:15,600

What are you going to have with corn?

355

00:29:15,600 --> 00:29:18,600

With a lot of vitamins necessary in that corn?

356

00:29:18,600 --> 00:29:24,600

Well, somebody got to cultivate that corn and get it to a proper stage.

357

00:29:24,600 --> 00:29:28,600

And these little bucks and so on and so forth, they do their job.

358

00:29:28,600 --> 00:29:31,600

And for doing their job, they should be paid.

359

00:29:31,600 --> 00:29:33,600

So they eat some of the corn.

360

00:29:33,600 --> 00:29:38,600

And then the farmer doesn't get fifty acres of corn.

361

00:29:38,600 --> 00:29:40,600

He only gets forty-five acres.

362

00:29:40,600 --> 00:29:43,600

He uses five acres to debunk or the insects.

363

00:29:43,600 --> 00:29:47,600

So the farmer finds that, well, I got to save the other five acres.

364

00:29:47,600 --> 00:29:52,600

Maybe he gets fifty dollars for the other five acres as a profit.

365

00:29:52,600 --> 00:29:56,600

He saves the other five acres.

366

00:29:56,600 --> 00:29:59,600

So he makes fifty dollars a year more on that corn.

367

00:29:59,600 --> 00:30:04,600

He goes to a chemist. He says, what can you do about it in a way of getting these bucks?

368

00:30:04,600 --> 00:30:08,600

Well, I'll work with the idea and find out what we can come up with.

369

00:30:08,600 --> 00:30:13,600

So he finally gets this spray or liquid.

370

00:30:13,600 --> 00:30:19,600

So you spray it with this or mix it with water and spray it that way and so on, you'll get rid of the bucks.

371

00:30:19,600 --> 00:30:20,600

He does.

372

00:30:20,600 --> 00:30:24,600

And in the next crop, he's got full fifty acres.

373

00:30:24,600 --> 00:30:28,600

Corn looks fine. Everything looks fine.

374

00:30:28,600 --> 00:30:33,600

He gets it to the market, he sells it, and he makes it for extra fifty dollars.

375

00:30:33,600 --> 00:30:39,600

But by and by, he got a family of six kids and a wife and a myself of eight.

376

00:30:39,600 --> 00:30:44,600

Now he has to go to drugstore and buy vitamins.

377

00:30:44,600 --> 00:30:52,600

That used to get it from the corn and it both cost him two hundred fifty dollars a year now for vitamins, so supply his family with.

378

00:30:52,600 --> 00:30:53,600

See?

379

00:30:53,600 --> 00:30:56,600

And that's the way we have been working all the time.

380

00:30:56,600 --> 00:31:03,600

All because we don't quite understand nature as we should.

381

00:31:03,600 --> 00:31:08,600

Everything is important or wouldn't be here.

382

00:31:08,600 --> 00:31:14,600

If the insects and things like that would not be here, we wouldn't be here.

383

00:31:14,600 --> 00:31:19,600

They do the job first, prepare everything just like the earthworms.

384

00:31:19,600 --> 00:31:24,600

You can get a very good flower or a very good production from the earth.

385

00:31:24,600 --> 00:31:33,600

If it wasn't for the earthworms and where there's no earthworms, they usually import them and put them into the ground so they'll root the soil and one to another.

386

00:31:33,600 --> 00:31:39,600

Even gopher, as bad as he is sometimes, and chews up on the old flower and pulls it in the hole.

387

00:31:39,600 --> 00:31:50,600

According to science today, he actually brings forth from a depth of three to sixty depth of the earth.

388

00:31:50,600 --> 00:31:59,600

He brings up on the average of three yards of dirt per year to the surface.

389

00:31:59,600 --> 00:32:05,600

Dirt has really a virgin dirt down there. This one on top and the dirt on the back.

390

00:32:05,600 --> 00:32:10,600

And he was up to twenty-four inches of deep.

391

00:32:10,600 --> 00:32:14,600

He keeps wearing them out, grinding them out by digging.

392

00:32:14,600 --> 00:32:20,600

All these things are important and you don't need to take this just because I said so.

393

00:32:20,600 --> 00:32:27,600

You can get books on it where it's been written, where science has proven these things and so forth.

394

00:32:27,600 --> 00:32:32,600

All of this is one of these stages of action below us.

395

00:32:32,600 --> 00:32:41,600

It's an expression of intelligence because if gopher knows what he does, what he's to do, the wind knows what he's to do.

396

00:32:41,600 --> 00:32:50,600

The being knows what it's to do, France, France, Poland from one place to another.

397

00:32:50,600 --> 00:32:56,600

So we have proper production and vegetation or fruit and so forth.

398

00:32:56,600 --> 00:33:05,600

Everything is for the purpose and they do express cosmic or universal, God's intelligence.

399

00:33:05,600 --> 00:33:08,600

All in their own field.

400

00:33:08,600 --> 00:33:13,600

The same one note will not produce a melody how many are the way.

401

00:33:13,600 --> 00:33:20,600

But you use many notes or many keys on a piano or many instruments to produce a beautiful melody.

402

00:33:20,600 --> 00:33:25,600

Everyone fits in certain spots and this is just like that.

403

00:33:25,600 --> 00:33:31,600

And everyone of these are governed by the same law that you and I are governed by.

404

00:33:31,600 --> 00:33:34,600

We call life.

405

00:33:34,600 --> 00:33:36,600

What is life?

406

00:33:36,600 --> 00:33:41,600

Well, if you become unconscious and you no longer consider living, you're dead hungry.

407

00:33:41,600 --> 00:33:43,600

You bury you.

408

00:33:43,600 --> 00:33:50,600

But so long as you're conscious, you go on living and you express intelligence.

409

00:33:50,600 --> 00:33:54,600

Now, what is that conscience?

410

00:33:54,600 --> 00:33:58,600

Then why should we give some talk to it?

411

00:33:58,600 --> 00:34:08,600

Consciousness, you might say, is a life force coupled with intelligence.

412

00:34:08,600 --> 00:34:18,600

It's a little small voice in you that keeps telling your mind sometimes, don't do this, don't do that, or do this, or do that.

413

00:34:18,600 --> 00:34:27,600

A lot of people have classified that as coming from somewhere to be dead entity somewhere up there, a grandfather or somebody else or some master.

414

00:34:27,600 --> 00:34:32,600

That is now telling you what to do because he's on the other side of life.

415

00:34:32,600 --> 00:34:40,600

It's really yourself, the real true self that's eternal part of you that is telling you that.

416

00:34:40,600 --> 00:34:48,600

The consciousness that is responsible for creation of your body and creation of your mind in the senses.

417

00:34:48,600 --> 00:34:51,600

Your mind is made up of the senses.

418

00:34:51,600 --> 00:34:56,600

We know that men have lost their minds.

419

00:34:56,600 --> 00:35:10,600

And so long as they are conscious, they might write something down for me, they might be blind, deep and dumb, they can write it out for me, and I can go ahead and do the job for them.

420

00:35:10,600 --> 00:35:17,600

They can be limp as long as they're conscious, but they can have a mind ever so great.

421

00:35:17,600 --> 00:35:32,600

In other words, they can have a mind developed so high that the high frequency that is now in this

room, where TV set would produce it, we would pick it right out of the air and produce a picture on the screen,

422

00:35:32,600 --> 00:35:48,600

that they don't need the TV, they would see the picture, see that high because they was high enough in that frequency and they would see the pictures without reducing that frequency down to our site.

423

00:35:48,600 --> 00:35:52,600

Or we have to have it reduced down to our site so we can see it.

424

00:35:52,600 --> 00:36:04,600

We could hear the music that is here now in this room and all of that, which is produced by people on the stage right here in the city or maybe in New York and transmitted this way.

425

00:36:04,600 --> 00:36:12,600

And all of that, if you had a mind like that, you would be called superhuman being and you can develop that kind of a mind.

426

00:36:12,600 --> 00:36:23,600

All you have to do is synthesize a little bit more, be able to go up and down the scale, if you're like that cloud that can vanish or can become a concrete effect.

427

00:36:23,600 --> 00:36:26,600

Either way, you can do that with your mind.

428

00:36:26,600 --> 00:36:33,600

But if you did have that kind of a mind and you lost consciousness, would it do you any good?

429

00:36:33,600 --> 00:36:37,600

No, you would be a dead umbra as we know you to be.

430

00:36:37,600 --> 00:36:41,600

You'd be a dead umbra as they'd be bearing you.

431

00:36:41,600 --> 00:36:47,600

So you can't lose the mind and keep on living.

432

00:36:47,600 --> 00:36:51,600

But you can lose the consciousness and keep on living.

433

00:36:51,600 --> 00:36:53,600

So there's the major part of you.

434

00:36:53,600 --> 00:36:58,600

Yet it's the mind that we keep cultivating with all the personality or the ego.

435

00:36:58,600 --> 00:37:04,600

We keep cultivating it and give very little thought to the consciousness.

436

00:37:04,600 --> 00:37:06,600

And the consciousness of that is within you.

437

00:37:06,600 --> 00:37:12,600

That's why Jesus says, the kingdom of heaven is within you.

438

00:37:12,600 --> 00:37:15,600

In other words, God is now out there.

439

00:37:15,600 --> 00:37:20,600

He's living within you and you are living within Him all the time.

440

00:37:20,600 --> 00:37:30,600

Because the soul cosmic setup is, so to speak, that we use that word, and you are living within it.

441

00:37:30,600 --> 00:37:34,600

So you see, you don't have to search far or you have to go search yourself.

442

00:37:34,600 --> 00:37:38,600

And the great book says, know thyself, you shall know all things.

443

00:37:38,600 --> 00:37:42,600

And if you know yourself with the consciousness, you're not going to know all things.

444

00:37:42,600 --> 00:37:46,600

Because consciousness is the creator of all things.

445

00:37:46,600 --> 00:37:50,600

If you were not conscious, you couldn't have created this.

446

00:37:50,600 --> 00:37:53,600

As straight, that table or anything like that.

447

00:37:53,600 --> 00:37:58,600

But because you are conscious, then you use your mind to get the material to create it.

448

00:37:58,600 --> 00:38:02,600

Consciousness conveyed the idea to you.

449

00:38:02,600 --> 00:38:08,600

So the consciousness is really the parent of all creation.

450

00:38:08,600 --> 00:38:12,600

And that is the part we all neglected of ourselves.

451

00:38:12,600 --> 00:38:14,600

Now we know ourselves with the ego.

452

00:38:14,600 --> 00:38:25,600

Now for instance, the space people have cultivated themselves or developed themselves from that point of consciousness.

453

00:38:25,600 --> 00:38:32,600

Using their minds as an instrument to let you go on a little further in this manner.

454

00:38:32,600 --> 00:38:38,600

Well, what does a TV do?

455

00:38:38,600 --> 00:38:41,600

We select the station.

456

00:38:41,600 --> 00:38:43,600

We know what we want.

457

00:38:43,600 --> 00:38:44,600

We want music.

458

00:38:44,600 --> 00:38:46,600

We want entertainment.

459

00:38:46,600 --> 00:38:48,600

Or we want a prize fight.

460

00:38:48,600 --> 00:38:49,600

Or a wrestling match.

461

00:38:49,600 --> 00:38:51,600

Or sports.

462

00:38:51,600 --> 00:38:56,600

We didn't choose this station that these things are coming in on.

463

00:38:56,600 --> 00:39:00,600

We turned the set on and there they're coming.

464

00:39:00,600 --> 00:39:03,600

Where is it coming from?

465

00:39:03,600 --> 00:39:13,600

Well, in the early days when the radio first came into being, they called it radio eataways.

466

00:39:13,600 --> 00:39:15,600

Coming on to eataways.

467

00:39:15,600 --> 00:39:18,600

Well, they're saying today with the TV.

468

00:39:18,600 --> 00:39:23,600

In other words, they're broadcasting in New York and here you are.

469

00:39:23,600 --> 00:39:26,600

A couple of miles away, we say.

470

00:39:26,600 --> 00:39:33,600

Three thousand miles away, please, across the country and you're receiving it there.

471

00:39:33,600 --> 00:39:34,600

How?

472

00:39:34,600 --> 00:39:36,600

To eat on the eataways.

473

00:39:36,600 --> 00:39:38,600

What is that set doing?

474

00:39:38,600 --> 00:39:40,600

That set is inhaling.

475

00:39:40,600 --> 00:39:49,600

Actual inhaling of the eataway on that particular frequency of that station that was signed to it.

476

00:39:49,600 --> 00:39:58,600

And as it comes, as it inhales that eataway, the picture is showing then on the screen.

477

00:39:58,600 --> 00:40:03,600

That picture must remove itself for the next picture to be shown and down the line,

478

00:40:03,600 --> 00:40:06,600

so finally the whole show is showing.

479

00:40:06,600 --> 00:40:22,600

Today, if that picture, first one appearing on the screen would stand there, would not remove itself by, we call, exhaling yourself while the set would have a short end and pray to go on and burn up.

480

00:40:22,600 --> 00:40:33,600

But so long as that set is inhaling that eataway and what's on that frequency will express itself up on the screen,

481

00:40:33,600 --> 00:40:35,600

that picture must be shown.

482

00:40:35,600 --> 00:40:40,600

So the next picture is showing and down the line, so finally the whole show is showing.

483

00:40:40,600 --> 00:40:57,600

If that picture, first one appearing on the screen would stand there, would not remove itself by, we call, exhaling yourself while the set would have a short end and pray to go on and burn up.

484

00:40:57,600 --> 00:41:13,600

So so long as that set is inhaling that eataway and what's on that frequency will express itself up on the screen, inhaling and exhaling that set is operating perfectly.

485

00:41:13,600 --> 00:41:18,600

Shut it off, the set is dead, it's non-intelligent.

486

00:41:18,600 --> 00:41:22,600

But while it's operating you can learn something from it.

487

00:41:22,600 --> 00:41:27,600

See? But it must be inhaling and exhaling that eataway.

488

00:41:27,600 --> 00:41:33,600

Alright? You stop breathing and you'll be dead too.

489

00:41:33,600 --> 00:41:39,600

You'll not know that from that TV set.

490

00:41:39,600 --> 00:41:44,600

And if you inhale and do not exhale you'll be dead too.

491

00:41:44,600 --> 00:41:50,600

So you must inhale and exhale to keep on living as you are.

492

00:41:50,600 --> 00:41:59,600

So you see you're not much different and you choose the station that you want, the information found.

493

00:41:59,600 --> 00:42:02,600

You choose what you want.

494

00:42:02,600 --> 00:42:15,600

Your mind tunes in on a certain thought or certain frequency and that frequency finally is against the flow through your being by the process of breathing, inhaling and exhaling.

495

00:42:15,600 --> 00:42:18,600

And you express that channel.

496

00:42:18,600 --> 00:42:21,600

You can go up and down a scale.

497

00:42:21,600 --> 00:42:29,600

So the mind is no different than the TV set.

498

00:42:29,600 --> 00:42:43,600

And the mind itself doesn't carry this. Only there's a channel to which it comes through you, select it, or the frequency and then what's on that frequency comes through it.

499

00:42:43,600 --> 00:42:54,600

So we have an instrument that we don't leave each other. We at least can study the instrument and then study ourselves with it and we soon find out how we work.

500

00:42:54,600 --> 00:43:03,600

Yet that eataway or that channel, it does not come by any one line.

501

00:43:03,600 --> 00:43:10,600

It spreads out suddenly all over the world.

502

00:43:10,600 --> 00:43:32,600

It was measured in the early days when the radio came on first that if you were talking on a mic before the last breath of the sound that you were given out was exhausted from your lips, that the sound went around the world seven times already.

503

00:43:32,600 --> 00:43:41,600

That's how fast it spreads. That's why you can pick up these things anywhere in any part of the world.

504

00:43:41,600 --> 00:43:47,600

Well, that's fast, but your consciousness is even faster than that.

505

00:43:47,600 --> 00:43:59,600

And you can tune in on the different wavelengths of different things that are happening anytime you want to and know what you want to know.

506

00:43:59,600 --> 00:44:13,600

For example, myself. I know a lot of these things. I used to have a lot of books. I haven't got a book of any kind home. I write books, but I don't read them no more.

507

00:44:13,600 --> 00:44:30,600

Why should I be lugging what a bunch of junk so to speak because it would be junk to me when I can tune in on any of these wavelengths and get what information I need?

508

00:44:30,600 --> 00:44:41,600

And the information that comes to me, I have to judge whether it's right or not also. So you've got to school your mind to judge constructively, make analysis properly.

509

00:44:41,600 --> 00:44:53,600

Because like a jigsaw puzzle, every piece is sent into the proper place. You may pick up a piece here and put it here and it won't fit here, it won't fit there, it won't fit there, it won't fit there, and you might throw it away.

510

00:44:53,600 --> 00:45:05,600

And then when you're ready to finish the picture, the piece is missing, isn't your head over fixed? You haven't got it there complete. So you keep them.

511

00:45:05,600 --> 00:45:18,600

Because you picked up something wrong at the moment. See, lay it aside, go on working with the idea and pretty soon you'll have a place for that one that you didn't have a place for a moment ago.

512

00:45:19,600 --> 00:45:30,600

So you can get anything you want. That's what it's meant. No, I said you shall know all things because you won't have to have a lot of big library or have reference books or things like that.

513

00:45:30,600 --> 00:45:41,600

Because these are all effects you're dealing with. You go to the cause, when you know the cause, you also will know the effect and it will fit in.

514

00:45:41,600 --> 00:45:54,600

Because everything fits into a pattern, there's nothing separate from the other. Everything fits in. And you've got to be a logical reasoner, a logical analyzer.

515

00:45:54,600 --> 00:46:02,600

If you're going to succeed at all and above all, you must have faith or confidence in yourself.

516

00:46:02,600 --> 00:46:12,600

Or if you have no confidence in faith in yourself, on whatever you're doing and don't expect the other fellow to expect accepting your ideas either.

517

00:46:12,600 --> 00:46:19,600

Because the other fellow is different. Everybody is different. There are no two people alike and no two people take a light.

518

00:46:19,600 --> 00:46:32,600

So then you have to make your own decisions. It's what you want. What you want to learn. What you want to do. And go ahead and do it. You've got to have confidence in yourself or faith in yourself.

519

00:46:32,600 --> 00:46:46,600

Because if you don't have faith in yourself, even if you do believe in God, how could you have faith in God? And if you don't believe in yourself, and you go for your jobs some place even.

520

00:46:46,600 --> 00:46:56,600

And you get shaky because you're not sure that you're going to be able to accept you or you're

going to get that job. Well, the fellow detects you right away so that I can't use you.

521

00:46:56,600 --> 00:47:06,600

But if you have faith and confidence in yourself without aggression, there's natural situation. You'll always succeed.

522

00:47:07,600 --> 00:47:15,600

Because the real self of you, the consciousness will always guide you in the right direction if the mind will ever self to be guided.

523

00:47:15,600 --> 00:47:26,600

Because that one does not make any mistakes. Sometimes the thoughts come to you from that source that are contrary to the way of life that you've been accustomed to live.

524

00:47:26,600 --> 00:47:34,600

But don't forget that we are living in traditions and conventions better than 5,000 years old.

525

00:47:34,600 --> 00:47:44,600

They've been handed down from generation to generation. The more a child is born, they throw that blanket on them.

526

00:47:44,600 --> 00:47:55,600

And then the great-grandma and great-grandfather and great-aunt and all the other aunts and everything everybody throws their blanket on her.

527

00:47:55,600 --> 00:48:08,600

And then the child is suffocating under these blankets and there is no longer free. Everybody wants the child to be like me and the child is independent, different.

528

00:48:08,600 --> 00:48:20,600

So then you grow up about, say, around 20, 30 years of age or maybe a little older, then you begin to see the picture of life as it moves throughout the world.

529

00:48:20,600 --> 00:48:26,600

And you begin to see, well, it could be better. I feel it could be better. That's something genuine.

530

00:48:26,600 --> 00:48:32,600

And then you're trying to tell you, this is not right. So you start searching.

531

00:48:32,600 --> 00:48:39,600

And you go through all kinds of religious groups thinking you're going to find a there.

532

00:48:39,600 --> 00:48:45,600

Even in the schools and everywhere you don't find it, you may go to school and learn to read and write, mathematics and so forth.

533

00:48:45,600 --> 00:49:01,600

But still you are searching. And you will be searching as long as you will not recognize, as you will not recognize the consciousness of yourself, because that's the other half part, that the other half.

534

00:49:01,600 --> 00:49:12,600

Because man said, well, a man was created perfect. Will he feel it's created perfect, or will it extend or fall? That's the impossible.

535

00:49:12,600 --> 00:49:23,600

God is perfect. He didn't fall. If we use it that way. If a man was created perfect, he wouldn't fall in either. But he never was created perfect.

536

00:49:23,600 --> 00:49:31,600

He's now working towards the perfection. And the proof is this, that the consciousness may be perfect.

537

00:49:31,600 --> 00:49:46,600

But the man, as he manifests as an effect of consciousness, is not perfect, because he's learning. He has to learn, even though he makes mistakes and so forth.

538

00:49:46,600 --> 00:49:56,600

If he takes those mistakes as a teacher or a guide for correction, that next time he left on the same thing, he'll do it a little bit better than he's learning.

539

00:49:56,600 --> 00:50:08,600

But if so long as man is learning, he's not perfect, or a perfect man wouldn't have to learn anything. You would have it already.

540

00:50:08,600 --> 00:50:27,600

So we might say that he's only half developed in the process of creation right now by learning. And half developed, I say, and half recognized, because he's negatively recognized as a man, 100% ego, personality.

541

00:50:27,600 --> 00:50:47,600

But who recognizes him, or who recognizes himself for the conscious character, who supports that ego, and that mind? Very few people do. And that's the real part of the man. That's the part that goes on eternally.

542

00:50:47,600 --> 00:50:57,600

And the other, the effects come and go. That's why you find a lot of people say, well, when you're dead, you're dead, like everything else. You don't see any future.

543

00:50:57,600 --> 00:51:11,600

Well, even judge from the effect, all effects, when they go, they go. Another effect will take place, but it will not be anything identical, like the one that just passed on.

544

00:51:12,600 --> 00:51:29,600

The whole life in the cosmos, who may say that the cosmic life, which is the eternal side of life, is like a kaleidoscope. You put two items in the kaleidoscope. Turn it all you want to, fast or slow.

545

00:51:29,600 --> 00:51:40,600

Every time two of items come in contact with each other, they produce a different design or pattern. Never the same. Similar, but never the same.

546

00:51:41,600 --> 00:52:05,600

And we might say that this whole system, and that's what eternity is made up of, this whole system in the constant state of action, the cosmos, and producing new conditions all the time, faster than a split second, new conditions coming in all the time, and by that very all.

547

00:52:06,600 --> 00:52:26,600

It's a process to help the new general state. Soon as it's quit doing that, that would be the end of all. And even the end, when you stop to think, you know, when a reason is proper, when you say an end, what do you mean? Something non-existent.

548

00:52:27,600 --> 00:52:47,600

And if something non-existent, you can speak of it. You couldn't find which to express it because you'd have nothing to go by, to label it. So even the end, if there wasn't an end, that end must be supported by something else.

549

00:52:48,600 --> 00:52:57,600

And as something else is then admitted, is greater in strength than everything else, than the end itself. And you keep on going and going, that's what's forever.

550

00:52:57,600 --> 00:53:16,600

I went with a bunch of students, when we didn't abuse the idea to where we disregarded God or anything like that. But because it's not a sin, not a crime, to search for truth.

551

00:53:17,600 --> 00:53:27,600

So we went down and actually done away with the Creator, with any form of intelligence, ever done away altogether mentally, see.

552

00:53:27,600 --> 00:53:42,600

And got down to such a minute particle left that we could conceive, the minute that we could conceive, that would take two million time magnification to see it.

553

00:53:42,600 --> 00:53:54,600

That's how small we got to. And by God in that we found all inclusive intelligence, government, a whole system of the cosmos and the power to move it.

554

00:53:54,600 --> 00:54:02,600

And though the other way is the same thing, you can get down to something that is absolutely nothing.

555

00:54:03,600 --> 00:54:06,600

The moment you say the word nothing is already something.

556

00:54:10,600 --> 00:54:19,600

Because if there was an absolute non-existence of something, you couldn't say it. Because you wouldn't know what to say, how to name it.

557

00:54:20,600 --> 00:54:30,600

So you see anything that is in existence, whether you understand or not, that you become aware of is somewhere.

558

00:54:30,600 --> 00:54:41,600

Or that which is non-existent you could never think of. It would never come to your mind. You would never be alerted to anything.

559

00:54:41,600 --> 00:54:50,600

Because that which is not, is not that's all. So whatever you can come to, you may not understand it at the time.

560

00:54:50,600 --> 00:54:58,600

But whatever you can come to your mind is in existence somewhere. And one of these days, you're going to face it.

561

00:54:58,600 --> 00:55:04,600

Because if you weren't going to face it, you wouldn't become alerted to it.

562

00:55:05,600 --> 00:55:12,600

So you'd be alerted sometimes 20 years ahead before you really face it.

563

00:55:12,600 --> 00:55:20,600

Like people in New York, been planning last 20 years to go to California and vice versa.

564

00:55:20,600 --> 00:55:26,600

They planned so much that finally they landed in California, see.

565

00:55:27,600 --> 00:55:31,600

But to 20 years planning or so called our expectation, see.

566

00:55:31,600 --> 00:55:37,600

But since that was their destiny, they finally wound up in California.

567

00:55:37,600 --> 00:55:48,600

Anything that comes to your mind consciously, will eventually be realized by you.

568

00:55:48,600 --> 00:55:54,600

Maybe not right away, but in 10, 20 years it will be.

569

00:55:54,600 --> 00:56:02,600

I'm an old man. I wrote my first book when I was 65.

570

00:56:02,600 --> 00:56:08,600

I say, you're no good after 65 or 80, you're somewhat more than 50.

571

00:56:08,600 --> 00:56:12,600

But I'm enjoying my best of my life right now.

572

00:56:12,600 --> 00:56:21,600

I have never had it so good and enjoyed life so much as I did by 60.

573

00:56:21,600 --> 00:56:28,600

So never let anything like that value, because these traditions and conventions have been brought in this way.

574

00:56:28,600 --> 00:56:39,600

At certain age you're supposed to die or retire in some dirt pile, see.

575

00:56:39,600 --> 00:56:48,600

And Gabriel goes to school and you wake up eventually and you're supposed to jump out of there like a jackrabbit and start going jumping around once more.

576

00:56:48,600 --> 00:56:54,600

But Gabriel might forget, but you better be looking out for yourself.

577

00:56:54,600 --> 00:57:03,600

See, at the same time these conventions, you take those traditions and conventions that constantly we worship.

578

00:57:03,600 --> 00:57:13,600

5,000 years ago they've been cumulair, been brought into existence, and they've been passed on generation after generation.

579

00:57:13,600 --> 00:57:23,600

Now let us say that the prophets of the old had made good prophecy and some of them come true and some of them are going to come true.

580

00:57:23,600 --> 00:57:32,600

And all of that, but the method of application that they had say 2,000 years ago is no longer served in service.

581

00:57:32,600 --> 00:57:41,600

Because we have advanced that much in knowledge and ideas and the principle remains the same.

582

00:57:41,600 --> 00:57:48,600

Like for instance, well, transportation of goods from one place to another.

583

00:57:48,600 --> 00:57:56,600

Well, first by a hog, by camel and so on, finally a wheel was invented, then by an ox guard.

584

00:57:56,600 --> 00:58:05,600

The principle is the same, but notice that today we transport commodities by air.

585

00:58:05,600 --> 00:58:08,600

See how we've grown?

586

00:58:08,600 --> 00:58:15,600

Now we've gone down to the traditions of an ox guard we wouldn't have to planes today.

587

00:58:15,600 --> 00:58:23,600

We overlook that the principle remains with us, but that principle keeps expanding and improving.

588

00:58:23,600 --> 00:58:27,600

Like it did from the ox guard to the aeroplanes.

589

00:58:27,600 --> 00:58:34,600

And the aeroplanes into space finally would craft that we'd never thought we could build or travel.

590

00:58:34,600 --> 00:58:45,600

They say, well, there's no air up there. Don't forget that there's no such a thing as total emptiness of anything.

591

00:58:45,600 --> 00:58:51,600

Wherever whatever we call space is full of something. You might not be able to see it.

592

00:58:51,600 --> 00:58:58,600

This space between you and I, right now you don't see only emptiness.

593

00:58:58,600 --> 00:59:05,600

But what is it? It's composed of 15 pounds per square inch pressure.

594

00:59:05,600 --> 00:59:09,600

You're built in with it and you don't feel it. What is here?

595

00:59:09,600 --> 00:59:16,600

Let somebody come up here with a pump and it would rather say that's in this room.

596

00:59:16,600 --> 00:59:19,600

See what will happen to you.

597

00:59:19,600 --> 00:59:26,600

Your 15 pound pressure inside of you will begin to expand and you will develop like a balloon.

598

00:59:26,600 --> 00:59:36,600

All you have to do is take a gallon can and withdraw the air from the inside of the can, which is 15 pound pressure in that can too.

599

00:59:36,600 --> 00:59:45,600

Sooner you withdraw that air within that can, the air from outside will collapse and just crush it together.

600

00:59:45,600 --> 00:59:50,600

You will begin to see then what you're living in. What a great pressure you're living in.

601

00:59:50,600 --> 01:00:01,600

This space is the same weight. In a lighter degree we call no air. When we mean refined air.

602

01:00:01,600 --> 01:00:08,600

There everywhere. What is there? Nobody knows except you feel the breeze of it like the wind or some light.

603

01:00:08,600 --> 01:00:16,600

You really don't know what it is. We know it's composed of right here, oxygen so far, but it's composed of the same.

604

01:00:16,600 --> 01:00:24,600

And we do know we have three kinds of oxygen. We got what they call number 6, 7 and 8.

605

01:00:24,600 --> 01:00:38,600

According to some of our scientists today, 8 is very rarefied air, oxygen. You could live on it, but it can be reduced and brought down to where you can live on.

606

01:00:39,600 --> 01:00:46,600

We one time thought that the air could not be frozen, or we have frozen air.

607

01:00:46,600 --> 01:00:52,600

In other words, the invisible become invisible by man's own process.

608

01:00:52,600 --> 01:00:59,600

And the man went the same way, and yet man didn't discover this because of his mind so much.

609

01:00:59,600 --> 01:01:07,600

He discovered it because of his consciousness conveying the ideas to him.

610

01:01:07,600 --> 01:01:13,600

Like Mark Cohen, he did Steinmitz, Einstein, nor did they do take Steinmitz.

611

01:01:13,600 --> 01:01:19,600

What has he done? Look at Mark, what things he's done in his lifetime.

612

01:01:19,600 --> 01:01:24,600

That is, we give him so many dollars a year, he said, I don't want the money.

613

01:01:24,600 --> 01:01:32,600

So they give him the free check, you could write his own check out, they knew that he was going to write a million dollar check or anytime.

614

01:01:32,600 --> 01:01:37,600

So any time he wanted money, he had to check on the formula, he would write it out whatever he needed.

615

01:01:37,600 --> 01:01:46,600

But he's constantly was working in the abstract field to bring about the things, the effects that he did.

616

01:01:46,600 --> 01:01:53,600

Another one, from my say, Edison, read Edison's biography.

617

01:01:53,600 --> 01:01:56,600

And you will find that he worked in the laboratory.

618

01:01:56,600 --> 01:02:01,600

The more he worked this mind, try to do what it was his mind the more confused he became.

619

01:02:01,600 --> 01:02:06,600

Till he gets so dark on time, like he said, he just walk out of the lab, lock the lab,

620

01:02:06,600 --> 01:02:14,600

and get out in the park and maybe feed a few pigeons and put a spike in their loader with tobacco and smoke and forget all about it.

621

01:02:14,600 --> 01:02:20,600

Just when his mind wasn't working, was neutral, the consciousness gave him the answer.

622

01:02:20,600 --> 01:02:24,600

And he just walked out of the lab and finished a job.

623

01:02:24,600 --> 01:02:28,600

Again, unconsciousness, he depends not on his mind.

624

01:02:28,600 --> 01:02:30,600

He uses mind as a tool.

625

01:02:30,600 --> 01:02:35,600

But the consciousness was the director and the intelligence that told him what to do.

626

01:02:35,600 --> 01:02:40,600

And all these end of the ideas that you've been hearing about sometimes,

627

01:02:40,600 --> 01:02:45,600

that you hear the still spike or a small voice in you,

628

01:02:45,600 --> 01:02:53,600

and he's just coming to you as some people call it, is really your consciousness talking to your mind.

629

01:02:53,600 --> 01:03:00,600

That's why the great book said, have no false gods before me.

630

01:03:00,600 --> 01:03:03,600

There's only one.

631

01:03:03,600 --> 01:03:07,600

That's why even Jesus said, which we don't abide by,

632

01:03:07,600 --> 01:03:16,600

well, no man is master, not even Christ, for there's one which is your father and heaven.

633

01:03:16,600 --> 01:03:19,600

And that father is that consciousness.

634

01:03:19,600 --> 01:03:25,600

Without consciousness, man cannot do anything, not even navigate his own body.

635

01:03:25,600 --> 01:03:30,600

When he becomes conscious, he becomes a dead man.

636

01:03:30,600 --> 01:03:32,600

And that's what we have neglected.

637

01:03:32,600 --> 01:03:39,600

We have neglected their mind, but we've never promoted the consciousness or acknowledged it.

638

01:03:39,600 --> 01:03:40,600

And it's about time.

639

01:03:40,600 --> 01:03:43,600

So we've been living as a half man.

640

01:03:43,600 --> 01:03:51,600

Now we're coming to the other half, and that is the half that really caused the other people on other plans to advance as far as they did.

641

01:03:51,600 --> 01:03:58,600

And once we begin to acknowledge their real thing, their real creative back-up ideas and effects,

642

01:03:58,600 --> 01:04:00,600

then we'll advance just as quick.

643

01:04:00,600 --> 01:04:07,600

And the puzzles that today puzzle us are the impossible that we think of impossible will become possible,

644

01:04:07,600 --> 01:04:12,600

because there's nothing impossible, nothing.

645

01:04:12,600 --> 01:04:17,600

And that's what we deal with when we deal with signs of life, we deal with that.

646

01:04:17,600 --> 01:04:24,600

How anybody have any kind of a fate, it doesn't necessarily that they have to give up the fate to study it.

647

01:04:24,600 --> 01:04:34,600

Any more than your son must give up his religion to be studying for an engineering university.

648

01:04:34,600 --> 01:04:43,600

But it might enlighten you on your own religion or your own fate that you may benefit more promise by understanding it better,

649

01:04:43,600 --> 01:04:49,600

by understanding your laws there on the lion-gate, those are things.

650

01:04:49,600 --> 01:05:00,600

And where I might not speak of this too, on the 17th of December I'll be going to Mexico,

651

01:05:00,600 --> 01:05:04,600

or establishing big school armor in this line.

652

01:05:04,600 --> 01:05:15,600

This will not deal with any, which is one thing, because supposing we have a child here that's got a talent to be a violinist,

653

01:05:15,600 --> 01:05:20,600

we develop the talent's worth it, because consciously we will awaken them,

654

01:05:20,600 --> 01:05:26,600

and then that child can bring forth the talent for which he's best fit it for.

655

01:05:26,600 --> 01:05:34,600

Instead of following my daddy's footsteps, daddy's a doctor and the son has to be a doctor when something may be better,

656

01:05:34,600 --> 01:05:42,600

but the baseball player, and he likes to have better, he could succeed in that much better than following father's footsteps.

657

01:05:42,600 --> 01:05:49,600

So we develop individual talents with the understanding what is back of it all,

658

01:05:49,600 --> 01:05:51,600

it can depend on that.

659

01:05:51,600 --> 01:05:58,600

And we're going down there to look over a big piece of property that's been offered us for the school,

660

01:05:58,600 --> 01:06:02,600

and the Mexican government wants the school there.

661

01:06:02,600 --> 01:06:12,600

And I know quite a number of professors at the University of Mexico, one of the finest universities here in the hemisphere,

662

01:06:12,600 --> 01:06:18,600

students from all over the world go there, of course it's cheaper too than anywhere else.

663

01:06:18,600 --> 01:06:25,600

You can live about three months on the mountain of money, daddy takes you to the mountain one month here,

664

01:06:25,600 --> 01:06:28,600

so a student who got too much money go there.

665

01:06:28,600 --> 01:06:33,600

Their study and their education is right at the park, and people come from all over.

666

01:06:33,600 --> 01:06:40,600

So we have some of the professors there that will help us out with other things once we do open up the school there.

667

01:06:40,600 --> 01:06:46,600

And I won't know much about it, because I don't want to have any strings tied to it,

668

01:06:46,600 --> 01:06:50,600

want to be a slave onto something like that, no dictation.

669

01:06:50,600 --> 01:06:58,600

If they want to give it up on the basis of free state that we can do what we think is right, that's fine.

670

01:06:58,600 --> 01:07:05,600

So the signs of life will probably have a school after the first year, opening up in Mexico,

671

01:07:05,600 --> 01:07:12,600

and also one probably in California, who are already partly started there.

672

01:07:12,600 --> 01:07:21,600

And they'll teach everything that today is being taught with the background of consciousness,

673

01:07:21,600 --> 01:07:27,600

that you know what you're working from, work from the real trunk of the tree, and do the branches.

674

01:07:27,600 --> 01:07:31,600

Instead of landing on the branches, and you don't know how strong the branches are,

675

01:07:31,600 --> 01:07:38,600

you might break down with your own forelock, break your head, and start up with the trunk.

676

01:07:38,600 --> 01:07:44,600

And you've got to sell the foundation, like I've been said, don't build your house on the shifting sand.

677

01:07:44,600 --> 01:07:51,600

Start them along and knock it off. But build it on the rock, and no matter what kind of stone come along,

678

01:07:51,600 --> 01:07:54,600

it'll be there when the storm is over.

679

01:07:54,600 --> 01:08:07,600

We should follow the idea of flexibility, as well as freedom from all things that the world treats us.

680

01:08:07,600 --> 01:08:12,600

You know, oak tree, good stone comes along, and the oak tree will stand up there,

681

01:08:12,600 --> 01:08:15,600

and say, come on, knock me down, knock me down, madam.

682

01:08:15,600 --> 01:08:20,600

Next thing you know, it's uprooted with roots and all, or crack dried off in half.

683

01:08:20,600 --> 01:08:28,600

But the willow tree is flexible enough, there's been, it's said, way down to the ground, almost laid on the ground.

684

01:08:28,600 --> 01:08:32,600

And you think it's all ruined, but by God, it's strong as old, and the willow tree,

685

01:08:32,600 --> 01:08:37,600

standing like nothing happened because it was flexible and given with things,

686

01:08:37,600 --> 01:08:41,600

didn't resist anymore, didn't try to fight him.

687

01:08:41,600 --> 01:08:46,600

So we get that way, we'd be living many more years than we do now,

688

01:08:46,600 --> 01:08:50,600

and we'll not have the sickness that we have, because tension will, for the sickness,

689

01:08:50,600 --> 01:08:52,600

worries and all those things.

690

01:08:52,600 --> 01:08:56,600

The reason why we get grayheaded sometimes, bring maturity,

691

01:08:56,600 --> 01:09:01,600

because we worry too much, maybe about others instead of ourselves,

692

01:09:01,600 --> 01:09:04,600

or about ourselves, about ourselves.

693

01:09:04,600 --> 01:09:10,600

But death didn't, life cannot die, like I said last night,

694

01:09:10,600 --> 01:09:13,600

and death did not come by your Creator.

695

01:09:13,600 --> 01:09:16,600

Death, Creator cannot die.

696

01:09:16,600 --> 01:09:19,600

It keeps on creating.

697

01:09:19,600 --> 01:09:22,600

That's why Jesus says that death came by man,

698

01:09:22,600 --> 01:09:27,600

someone's life comes by man, soon to recognize life will happen.

699

01:09:27,600 --> 01:09:32,600

Of course, I wouldn't want this body to run for thousand years,

700

01:09:32,600 --> 01:09:36,600

because in a thousand years it's going to be put in badly worn down,

701

01:09:36,600 --> 01:09:42,600

and if I'm going to have fun and life, I'll have to have new instruments,

702

01:09:42,600 --> 01:09:45,600

new bodies to play with.

703

01:09:45,600 --> 01:09:51,600

Old body can't do a good job once it gets down to a certain stage,

704

01:09:51,600 --> 01:09:55,600

but I want a new body just like home,

705

01:09:55,600 --> 01:10:00,600

that you get rid of on houses, you're looking for a better house,

706

01:10:00,600 --> 01:10:05,600

you feel a better house with commodity and utilities and so forth,

707

01:10:05,600 --> 01:10:10,600

that will not be serving you better than the old house,

708

01:10:10,600 --> 01:10:12,600

or you'll leave the old house alone, don't you?

709

01:10:12,600 --> 01:10:15,600

You're only going to get a new one, and you've got all the nice conveniences

710

01:10:15,600 --> 01:10:17,600

that the old one doesn't have.

711

01:10:17,600 --> 01:10:22,600

So you learn from one body to another, just what the next stage

712

01:10:22,600 --> 01:10:25,600

or what kind of body you want, now you're ready for the better body

713

01:10:25,600 --> 01:10:29,600

or the better house, and you just move out of one and the other.

714

01:10:29,600 --> 01:10:33,600

But you as a consciousness cannot die.

715

01:10:33,600 --> 01:10:35,600

You couldn't die or have wanted to.

716

01:10:35,600 --> 01:10:40,600

You can destroy your mind, you can destroy your body,

717

01:10:40,600 --> 01:10:46,600

but that which built that body in the first place will go on to build another one,

718

01:10:46,600 --> 01:10:48,600

and that's the real you.

719

01:10:48,600 --> 01:10:52,600

So you get yourself acquainted, mentally, with the real you,

720

01:10:52,600 --> 01:10:56,600

the conscious part of yourself, and you'll soon understand yourself

721

01:10:56,600 --> 01:10:59,600

and understand others and all life around you,

722

01:10:59,600 --> 01:11:03,600

and you begin to enjoy it, and for the first time you begin to realize

723

01:11:03,600 --> 01:11:07,600

that you really are living in a real heaven,

724

01:11:07,600 --> 01:11:13,600

where now what you don't understand bothers you and disturbs you

725

01:11:13,600 --> 01:11:17,600

because sometimes you do things against yourself

726

01:11:17,600 --> 01:11:20,600

because not knowing how to apply the law.

727

01:11:20,600 --> 01:11:22,600

But the law is very free.

728

01:11:22,600 --> 01:11:27,600

You like to spend here, that's furnishing the electricity here for this building.

729

01:11:27,600 --> 01:11:31,600

You can use it for TV, you can use it for a paper carter,

730

01:11:31,600 --> 01:11:33,600

you can use it for everyone, you want it.

731

01:11:33,600 --> 01:11:36,600

And you're supposed to use it for that, enjoy it.

732

01:11:36,600 --> 01:11:40,600

But you're not supposed to put your finger in the socket,

733

01:11:40,600 --> 01:11:44,600

whether it's hot or when you're in the bathtub.

734

01:11:44,600 --> 01:11:50,600

You do the intelligence that generates this power, it knows nothing about it.

735

01:11:50,600 --> 01:11:56,600

The law that's involved in this way Christi was the care of you on that.

736

01:11:56,600 --> 01:12:00,600

Will shock you or burn you or kill you.

737

01:12:00,600 --> 01:12:04,600

In other words, you committed your wrong, you transgressed the law

738

01:12:04,600 --> 01:12:06,600

and she paid you off right away.

739

01:12:06,600 --> 01:12:10,600

And don't wait very long, stay on, run away from it.

740

01:12:10,600 --> 01:12:12,600

So that's the same thing with all life.

741

01:12:12,600 --> 01:12:18,600

We should go to work and learn the laws and use them rightly

742

01:12:18,600 --> 01:12:21,600

and we use them rightly, we'll be enjoying life.

743

01:12:21,600 --> 01:12:24,600

Whether we use them wrongly, we naturally want to get through repercussions

744

01:12:24,600 --> 01:12:29,600

because there's an effect for every cause.

745

01:12:29,600 --> 01:12:34,600

No matter what you do, you could do it, you apply it wrong

746

01:12:34,600 --> 01:12:36,600

or then you get a wrong reaction.

747

01:12:36,600 --> 01:12:41,600

But even then when you're smart, you wouldn't consider it wrong altogether.

748

01:12:41,600 --> 01:12:43,600

You say, well, I just applied it wrong, now I've learned now

749

01:12:43,600 --> 01:12:46,600

that I'll have to do it some other way and go in and learn from it

750

01:12:46,600 --> 01:12:48,600

and do it next time, do it better.

751

01:12:48,600 --> 01:12:51,600

Because all wrongs are like a teacher.

752

01:12:51,600 --> 01:12:55,600

You didn't know it, well then you had to do it anyway so you did it wrong.

753

01:12:55,600 --> 01:13:00,600

But that wrong knowledge is your teacher taught you to do it right way

754

01:13:00,600 --> 01:13:03,600

next time you do it again.

755

01:13:03,600 --> 01:13:07,600

So never condemn yourself for anything that you might do wrong first time.

756

01:13:07,600 --> 01:13:11,600

You say, well, I'll learn from it next time I'll do it better.

757

01:13:11,600 --> 01:13:18,600

So that's what Mrs. Spocko, that's the science of life that we're working with

758

01:13:18,600 --> 01:13:22,600

and we got that mostly from the brothers.

759

01:13:22,600 --> 01:13:30,600

We asked them how did they develop what steps they have taken to develop themselves

760

01:13:30,600 --> 01:13:33,600

and know what they know today that we don't know.

761

01:13:33,600 --> 01:13:35,600

And this is what they told us.

762

01:13:35,600 --> 01:13:39,600

I learned when it was analyzed carefully, it fits in with all the other teachings

763

01:13:39,600 --> 01:13:41,600

that we did not promote them.

764

01:13:41,600 --> 01:13:45,600

We left it to the Gods or something like that, that we would realize

765

01:13:45,600 --> 01:13:49,600

that we'd meet that somewhere else instead of using it here.

766

01:13:49,600 --> 01:13:51,600

And it's here where we're supposed to use it.

767

01:13:51,600 --> 01:13:53,600

Thank you.
