

1

00:00:00,000 --> 00:00:12,880

Now Lee has had some interesting experiences he would like to talk about. I think a number

2

00:00:12,880 --> 00:00:20,000

of us would like to hear about them. He hasn't done much lecturing or any of that sort. He's

3

00:00:20,000 --> 00:00:27,840

talked to private groups here in Detroit and perhaps one or two upstate. Lee claims contact

4

00:00:27,840 --> 00:00:37,640

with people from outer space. According to his experiences he's had a number of physical

5

00:00:37,640 --> 00:00:45,760

contacts with these beings and some information related to him. Lee when did you first, let's

6

00:00:45,760 --> 00:00:50,680

say established contact with these beings? Well the first contact that I made was August

7

00:00:50,680 --> 00:00:59,360

14th, 1954 in the state hospital Carol Michigan. That's about 140 miles from Detroit. Lee

8

00:00:59,360 --> 00:01:06,960

where are these people from? Well they claim when they talk to me they say they come from

9

00:01:06,960 --> 00:01:16,640

the Titanian system which has 22 planets and the planet that Commander Markson, the gentleman

10

00:01:16,720 --> 00:01:23,920

that I first came in contact with is a seat of deity of that particular system, a Saturn

11

00:01:23,920 --> 00:01:34,120

in his garage. And his mission to this earth is to make physical contact with earth people.

12

00:01:34,120 --> 00:01:42,720

Now as a rule they wear their hair long shoulder length and to describe him more closely, more

13

00:01:42,760 --> 00:01:50,160

clearly, he stands about five foot seven or eight inches tall, weighs about 145 to 150

14

00:01:50,160 --> 00:02:02,360

pounds. His skin flesh is that of a baby skin. His hair was strawberry blonde in color. And

15

00:02:02,360 --> 00:02:11,400

I noticed a very interesting thing about his hair as I observed him, it had a sparkly sensation

16

00:02:11,400 --> 00:02:19,840

to it. Now these people when they speak to you, they speak in a melodious tone, like music

17

00:02:19,840 --> 00:02:27,920

like pouring from hearts to a certain degree. I can't explain it very good. That was the

18

00:02:27,920 --> 00:02:35,520

first man I met. Then I met a commander Titanian who stood about four foot tall. His argument

19

00:02:35,560 --> 00:02:43,800

was that he stood eight feet three inches tall. And Captain Bratashan which is the husband

20

00:02:43,800 --> 00:02:53,400

to Lieutenant Mencham which is the brother to Commander Markson. And he was similar to

21

00:02:53,400 --> 00:02:59,960

that of Commander Markson in size and shape. Now the first contact that I made was back

22

00:03:00,040 --> 00:03:05,360

in August of 1954, 14th August which was a Saturday between the hours of two and three

23

00:03:05,360 --> 00:03:15,360

in the afternoon. Since that time I've had 20 contacts and seven flights into space. They

24

00:03:15,360 --> 00:03:21,360

introduced me to speed and so far beyond my conception that I'm rather shaking even now

25

00:03:21,640 --> 00:03:29,840

to the last fifth that I've taken which was in September, September the second. The first

26

00:03:29,840 --> 00:03:38,480

speeds that I was introduced to started in April the ninth, 1955. The ship came down right

27

00:03:38,480 --> 00:03:46,560

up out here on Livernois Avenue. There's a viaduct that comes across the street. And the ship was

28

00:03:47,080 --> 00:03:55,920

parked some 30 to 40 feet from the embankment. It comes down to meet the street. And I was

29

00:03:55,920 --> 00:04:01,240

coming home from work this particular night. It was around two o'clock in the morning. Coming

30

00:04:01,240 --> 00:04:10,680

home from General Bacon, where I work. I was coming up Livernois Avenue going home. And as I

31

00:04:10,720 --> 00:04:17,240

was driving up the street and I got just under the viaduct, my car stopped completely. I was

32

00:04:17,240 --> 00:04:24,560

driving a 46 Dodge at the time. It stopped completely dead. Battery just conked out on me.

33

00:04:24,560 --> 00:04:31,640

Couldn't figure out why. I tried to start and would start. So I got out of the car, raised the

34

00:04:31,640 --> 00:04:39,920

hood. And I was going under the hood and I heard a voice from across the way say, hey, just like

35

00:04:39,920 --> 00:04:49,000

that. When I looked across the street, well, I couldn't tell who it was. So I thought somebody was

36

00:04:49,000 --> 00:04:54,160

in trouble or something. I went over to give him a hand. And as it did so, I got halfway across the

37

00:04:54,160 --> 00:05:00,280

street and I recognized him immediately with commanding Mark. This time he was in full scale

38

00:05:00,280 --> 00:05:08,680

uniform, which was ruined in color. Also the same as his hair. Ruin color. And

39

00:05:10,360 --> 00:05:17,760

so as I was went up this embankment, why cool breeze have been blowing. We got about halfway up

40

00:05:17,760 --> 00:05:25,360

this embankment. And all of a sudden it got hot. Sticky. You might do with no breeze at all. As we

41

00:05:25,360 --> 00:05:36,720

reached the crust of the embankment, I could see a distance away from 35 40 yards from the crest. A

42

00:05:36,720 --> 00:05:43,760

number of people standing around a strange looking object sitting on tracks. As I walked up close,

43

00:05:43,760 --> 00:05:49,800

why one of the people, the smallest commander not talking him, he come running up with something on

44

00:05:49,800 --> 00:05:59,080

his hand. And he put it on my waist. It was about the width of the same brown belt. They have

45

00:05:59,080 --> 00:06:06,280

the army's special to a certain degree. We had a belt buckle about so big around, or I'd say about

46

00:06:06,320 --> 00:06:13,840

an inch thick. Has a full setting of light in the center. Now, Commander talking in told me that

47

00:06:13,840 --> 00:06:20,560

this belt applied to my waist for protection of my flesh, my body against harmful rays that might

48

00:06:20,560 --> 00:06:27,760

exist within the area of the ship. Each individual, I noticed also war. He built up the same fashion.

49

00:06:28,280 --> 00:06:37,360

Each one of them also wore a uniform. Each individual person wore a uniform, matching their

50

00:06:37,360 --> 00:06:41,560

hair, shoes, everything matched. Everything was in uniform. Everything was in harmony.

51

00:06:44,320 --> 00:06:52,520

Sergeant Emu, he was the largest man I think I've ever seen in my life. The man stood eight feet,

52

00:06:52,560 --> 00:07:02,240

three inches tall. Now, this is my large man to come contact with. And he spoke also in

53

00:07:02,240 --> 00:07:10,160

Melodia's trolling, as Lieutenant mentioned, and Commander talk. And Captain Radisham, he stayed

54

00:07:10,160 --> 00:07:15,240

back out of the way too much. He didn't have much to say. But anyway, they took me aboard the ship,

55

00:07:15,240 --> 00:07:21,800

and I'd like to explain or describe the ship as it was. I would say it was an approximately 35,

56

00:07:22,040 --> 00:07:30,920

40 feet in diameter. It was circular in shape. It had no landing gears that I could see. It had a

57

00:07:30,920 --> 00:07:40,840

ball, round ball type cabin that I was told could be raised and lower up out of this rim and down

58

00:07:40,920 --> 00:07:52,880

into the rim while in flight. I was taken aboard this ship through a round hatch. Now, when we went

59

00:07:52,880 --> 00:07:58,320

aboard the ship, I was brought into a small compartment. I wasn't immediately, immediately

60

00:07:58,320 --> 00:08:07,200

taken into the main cabin, power cabin, and which they set me down in a circular fashion

61

00:08:07,520 --> 00:08:14,160

sitting range that they had there. And at the time I was sitting, I didn't know at the time that we

62

00:08:14,160 --> 00:08:22,560

were airborne. Momentary, just like that. No feeling of movement whatsoever. And I wasn't told

63

00:08:22,560 --> 00:08:28,400

until some minutes later that we were moving at the speed of 250,000 miles per hour, 40,000

64

00:08:28,400 --> 00:08:36,800

foot altitude. Now, I had felt no movement of the ship itself that we were moving at all,

65

00:08:36,800 --> 00:08:43,760

slight vibration in my feet maybe, that was all. I suddenly got sick because the realization

66

00:08:43,760 --> 00:08:50,080

that I was traveling so fast, me, human being, from this earth where I was born, 40,000 feet

67

00:08:50,080 --> 00:08:55,920

at 250,000 miles per hour. Well, I imagine that would get anybody, it would get me.

68

00:08:58,560 --> 00:09:07,120

Anyway, I found out that these ships can travel from 250,000 to 500,000 miles per hour outside

69

00:09:07,120 --> 00:09:13,920

the atmosphere of the earth. And the latest ship that I come in contact with, which had four rings,

70

00:09:14,800 --> 00:09:18,880

it created its own power. For these other smaller ones, they do not create their own power.

71

00:09:19,840 --> 00:09:26,880

This ship traveled at seven times the speed of light. Now, that's an enormous speed. I understand

72

00:09:26,880 --> 00:09:32,960

until they tell me that they transmit themselves through space, not power as we know and understand

73

00:09:32,960 --> 00:09:40,640

it upon this earth. They can move without sound because sound is taken up into power, transmission.

74

00:09:42,880 --> 00:09:51,520

Now, on the first contact that I made back in 54, that was the initial contact. That was the

75

00:09:51,520 --> 00:09:57,520

initial physical contact that I made with the individual. And he told me that that, see, was

76

00:09:58,880 --> 00:10:06,720

three days after that, that when a person makes a physical contact with a being from another

77

00:10:06,720 --> 00:10:15,120

planet, his mind or her mind, whichever it may be, is scanned. Each individual brains like a

78

00:10:15,120 --> 00:10:19,920

license plate. They can locate you no matter where you're at in this earth. They can locate you.

79

00:10:20,640 --> 00:10:30,320

Well, anyway, I was taken out into space to a, on one occasion, to a ship called a Tricenon,

80

00:10:30,320 --> 00:10:36,720

which is the main carrier for the titanium system, which carries the smaller craft from their system

81

00:10:36,720 --> 00:10:43,840

to ours, which I think I'm not mistaken, it's some eight and a half light years away from this

82

00:10:44,320 --> 00:10:51,920

power plant. Now, it takes them a month to span the titanium system, which I understand also is

83

00:10:51,920 --> 00:11:00,960

both three five nine, a month and three days to make the transit across. Now, that's a vast

84

00:11:00,960 --> 00:11:07,440

distance. I don't know what speed they travel at in the Phrygianon. I know that the Phrygianon is

85

00:11:07,440 --> 00:11:15,040

operated by a cosmic force that is derived from the sun. They're made to sun until they make contact

86

00:11:15,040 --> 00:11:24,960

with ours, the narcissist. They charge up enough power in the storage banks to transmit themselves

87

00:11:24,960 --> 00:11:33,280

across the void. Now, the reason why they're coming here, so I've been able to understand,

88

00:11:34,000 --> 00:11:37,120

is simply because they were worried

89

00:11:40,320 --> 00:11:45,280

that the possibility that we were on the verge of atomic all out war,

90

00:11:46,800 --> 00:11:53,680

which would be a very disastrous thing if it ever occurred. Now, that is not the only reason

91

00:11:53,680 --> 00:12:00,800

why they're coming, because the people of this earth have faltered in their faith.

92

00:12:01,760 --> 00:12:09,280

The majority of the people, the Almighty God, and one thing to keep in mind always,

93

00:12:11,680 --> 00:12:19,840

I'm sorry, I'm sorry, is that we have an Almighty Creator who created this earth and

94

00:12:19,840 --> 00:12:26,720

made everybody honored. Now, these people have been called a lot of names.

95

00:12:33,520 --> 00:12:39,600

They have been called visitors, they've been called brothers. I would rather think of them people

96

00:12:39,600 --> 00:12:48,000

as angels, because when you walk on board one of their ships as I have,

97

00:12:51,600 --> 00:12:56,720

well, let me describe just one case that happened that I was overwhelmed,

98

00:12:58,880 --> 00:13:04,000

to make you really realize how to understand or realize what these people really are.

99

00:13:04,720 --> 00:13:17,920

I was taken out to the Trigenome on one particular contact that I'd made, I think it was in November.

100

00:13:20,480 --> 00:13:28,320

I was taken to this Trigenome at the speed of 5000 miles per hour by leading the earth.

101

00:13:29,280 --> 00:13:38,400

I was taken aboard this Trigenome. Incidentally, this Trigenome is a ball in shape. It's enormous in size.

102

00:13:39,040 --> 00:13:44,400

We have no conception of actual size as we know size or understand it.

103

00:13:46,240 --> 00:13:51,200

This ship, the main carrier, the Trigenome 1 and 2, there's two of them out there.

104

00:13:51,360 --> 00:14:01,600

Number two, I was taken aboard. Now, when we entered this ship, we went through a tunnel

105

00:14:01,600 --> 00:14:08,720

fashion, let me describe it this way, there are six airlocks. The main power of the ship,

106

00:14:08,720 --> 00:14:15,120

the cell that I was traveling in, was cut off and was brought in by the Trigenome's power.

107

00:14:16,080 --> 00:14:22,320

That would be to protect the outer skin of the ship itself against damage.

108

00:14:24,000 --> 00:14:37,440

Now, I was taken into this big crab and taken to a platform that was high above the hangar floor.

109

00:14:38,400 --> 00:14:44,400

We all disembarked from this smaller ship, all of us, everyone else.

110

00:14:45,840 --> 00:14:54,960

And as I was standing on this platform, I could look down way below. I seen hundreds and hundreds of

111

00:14:54,960 --> 00:15:01,920

ships and mines and order and the people going in and out of them looked like tiny ants.

112

00:15:02,720 --> 00:15:04,400

Now, that's how high up I was.

113

00:15:06,160 --> 00:15:10,800

I'm sorry I have to cut you, Leigh, because we're sort of running short of time.

114

00:15:10,800 --> 00:15:16,080

Well, I'm not used to being a public speaker and I'm very grateful to the opportunity to

115

00:15:17,040 --> 00:15:18,000

review what I have.

116

00:15:18,000 --> 00:15:23,760

Oh, we certainly appreciate your coming here and telling us. And perhaps anyone who would

117

00:15:23,760 --> 00:15:30,480

wish to find out more about your experiences and the information you receive could talk to you

118

00:15:30,480 --> 00:15:31,920

after the program. Would you be available?

119

00:15:31,920 --> 00:15:32,800

Of course. I'll be available.

120

00:15:32,800 --> 00:15:33,760

Oh, that's fine then.

121

00:15:33,760 --> 00:15:34,240

Thank you very much.

122

00:15:34,240 --> 00:15:42,240

And thanks a lot.
