

1

00:00:00,000 --> 00:00:07,000

I'm from the state of California.

2

00:00:07,000 --> 00:00:12,000

Where did you get the title, Major?

3

00:00:12,000 --> 00:00:17,000

From the Army Services, it was an Army combat intelligence officer during World War II,

4

00:00:17,000 --> 00:00:22,000

and I've had approximately 16, 16 years in the military service.

5

00:00:22,000 --> 00:00:28,000

Beginning in the year 1939, and until two years ago,

6

00:00:28,000 --> 00:00:33,000

I am in Washington now as a private citizen,

7

00:00:33,000 --> 00:00:36,000

not representing any military services.

8

00:00:36,000 --> 00:00:39,000

I am free to speak as an individual,

9

00:00:39,000 --> 00:00:44,000

but my views, I'm sure, are not different from many people in the Army Services,

10

00:00:44,000 --> 00:00:52,000

and it does not come to any group or any person in America that supports the Constitution.

11

00:00:52,000 --> 00:01:00,000

I'm a VFW member of Longstanding since 1941, a past commander of my post in California.

12

00:01:00,000 --> 00:01:04,000

You hear a lot of people that tell a thing about flying stuff,

13

00:01:04,000 --> 00:01:06,000

because you don't mind if I call them flying stuff,

14

00:01:06,000 --> 00:01:09,000

but that's okay, as most of you men don't like the term,

15

00:01:09,000 --> 00:01:16,000

you'll identify flying objects, but that's too hard, we'll just say flying stuff.

16

00:01:16,000 --> 00:01:18,000

All right, Major, let's get started.

17

00:01:18,000 --> 00:01:21,000

Number one, did you ever see such a thing?

18

00:01:21,000 --> 00:01:29,000

Yes, I did. On the night of May 11, 1957, in Southern California,

19

00:01:29,000 --> 00:01:37,000

I had the experience of having a personal fighting on the desert in California,

20

00:01:37,000 --> 00:01:42,000

and I think the story is a rather long one.

21

00:01:42,000 --> 00:01:47,000

It is very interesting to me,

22

00:01:47,000 --> 00:01:54,000

and it changed my whole life as a result of the personal experience that I had on the desert.

23

00:01:54,000 --> 00:02:00,000

I had all of my work and activities and proceeded to Washington

24

00:02:00,000 --> 00:02:08,000

to help create a great understanding of flying stuff that's subject among the people of America,

25

00:02:08,000 --> 00:02:13,000

and especially here in Washington, where this knowledge is very important.

26

00:02:13,000 --> 00:02:17,000

All right, you think it's very important, would you tell me why?

27

00:02:17,000 --> 00:02:26,000

I think it is important because the question of man's conscience is involved.

28

00:02:26,000 --> 00:02:35,000

The world is baffled, nursed, by problems of various kinds, including nuclear fission,

29

00:02:35,000 --> 00:02:42,000

the various dangers involved, and resolving from our advance in nuclear science,

30

00:02:42,000 --> 00:02:52,000

the confusion in the world caused by various things in many fields.

31

00:02:52,000 --> 00:03:00,000

And it is my understanding from my study and activity in the flying saucer field

32

00:03:00,000 --> 00:03:06,000

that here lies an answer that has been so far overlooked by a great many people.

33

00:03:06,000 --> 00:03:14,000

Hello, Major Keyho says or told me that he thought that the one who thought the issue was buried in official files

34

00:03:14,000 --> 00:03:19,000

or reasons which he outlasted. Do you feel the same way?

35

00:03:19,000 --> 00:03:26,000

Well, I don't believe there's any major difference between Major Keyho's views and mine.

36

00:03:26,000 --> 00:03:32,000

We are friends, and I support him in his work every way I can.

37

00:03:32,000 --> 00:03:42,000

However, I wouldn't put the brunt on various military services of our charge with the responsibility

38

00:03:42,000 --> 00:03:47,000

of a problem of unprecedented proportion. All right, let me ask the question this way.

39

00:03:47,000 --> 00:03:52,000

Do you think that official Washington knows that there is such a thing as flying saucers?

40

00:03:52,000 --> 00:03:58,000

Definitely. Why don't they tell us the same questions but in a different way?

41

00:03:58,000 --> 00:04:06,000

Well, I believe that the pacifics are allowing people like Major Keyho and myself and many others

42

00:04:06,000 --> 00:04:13,000

who are researching, talking about, discussing this situation in the field.

43

00:04:13,000 --> 00:04:18,000

It's an indication that there is an official recognition.

44

00:04:18,000 --> 00:04:21,000

I'm really surprised that he speaks that way, Major.

45

00:04:21,000 --> 00:04:26,000

You were an officer in the intelligence department. You're obviously a very intelligent man.

46

00:04:26,000 --> 00:04:30,000

And you use the expression that allow you to speak that way.

47

00:04:30,000 --> 00:04:37,000

Do you know of any official act or any official amendment to any constitution in any state or country

48

00:04:37,000 --> 00:04:42,000

in the United States which wouldn't allow you to speak any way you please?

49

00:04:42,000 --> 00:04:49,000

I believe there are ways and means to make people shut up if you don't want to talk.

50

00:04:49,000 --> 00:04:54,000

I haven't found that. I've found them by private people.

51

00:04:54,000 --> 00:05:01,000

I've found them by private people if they don't like what you say, they try to find all types of things to do to shut you out.

52

00:05:01,000 --> 00:05:06,000

If you radio commentator, they might put a squeeze on you financially.

53

00:05:06,000 --> 00:05:11,000

But sponsors, or they might do all sorts of unmanaged things to get you off the air.

54

00:05:11,000 --> 00:05:18,000

If you have newspaper right here, they can approach the box of the newspaper to feed the fellow who has many screw holes to fire you.

55

00:05:18,000 --> 00:05:23,000

But a special them would never attempt to do such a thing.

56

00:05:23,000 --> 00:05:28,000

And I've never heard of a special Washington ever try to shut anybody up, Major.

57

00:05:28,000 --> 00:05:32,000

How could they do it? How could official Washington shut you up?

58

00:05:32,000 --> 00:05:35,000

I'll make you key or anybody who believes in this stuff.

59

00:05:35,000 --> 00:05:43,000

Well, one thing we have been confronted with in an open discourse on flying chargers

60

00:05:43,000 --> 00:05:48,000

is by getting the news out to my friends radio and television and so forth.

61

00:05:48,000 --> 00:05:54,000

The terrible weapon of ridicule has been used a great deal in this field.

62

00:05:54,000 --> 00:05:58,000

I'm afraid that I've been a little guilty of it myself.

63

00:05:58,000 --> 00:06:02,000

I tell you, I told my name's Schumann Besserm. Do you know Mr. Besserm? I know him.

64

00:06:02,000 --> 00:06:09,000

He told me that on the planes of Nevada he saw a flying shot. He was a fighter on board for the trip in it.

65

00:06:09,000 --> 00:06:13,000

He told me the captain's name was Captain Range. I invited him on the microphone.

66

00:06:13,000 --> 00:06:18,000

I said, he's sure they don't want a full radio. So I said, come on in Captain Range, but he never showed.

67

00:06:18,000 --> 00:06:22,000

So I said, I think Mr. Besserm actually saw what he said he saw.

68

00:06:22,000 --> 00:06:26,000

But I thought that if I were with him, I would not have seen it.

69

00:06:26,000 --> 00:06:30,000

Now, that may be a little bit of a issue, maybe I've been guilty of it.

70

00:06:30,000 --> 00:06:35,000

But I really sure wouldn't stop making news that he gave us an idea like you.

71

00:06:35,000 --> 00:06:39,000

Correct. All right, let's get started. What did you see when you saw one?

72

00:06:39,000 --> 00:06:42,000

Firstly, let me say, I don't believe it.

73

00:06:42,000 --> 00:06:47,000

Not that I don't believe you saw it. You saw it. You've got a wonderful imagination.

74

00:06:47,000 --> 00:06:50,000

I know that the major key oh too, although he never saw one.

75

00:06:50,000 --> 00:06:55,000

I saw people who say they saw that wonderful imagination. What did you see, Major Aho?

76

00:06:55,000 --> 00:07:01,000

Well, I'll tell you what I saw, but I also tell you that I had witnesses to my tidings.

77

00:07:01,000 --> 00:07:05,000

That's one of those fortunate things that happen sometimes.

78

00:07:05,000 --> 00:07:10,000

When a person makes a certain statement, when they saw something,

79

00:07:10,000 --> 00:07:13,000

they are sometimes very fortunate to have a witness.

80

00:07:13,000 --> 00:07:18,000

I know that many people who say they have seen these omniscient very sightings

81

00:07:18,000 --> 00:07:24,000

have not been fortunate enough to know of a witness who would appear and support them.

82

00:07:24,000 --> 00:07:29,000

My exciting was witnessed by some people in California have a payment address

83

00:07:29,000 --> 00:07:33,000

and anyone that is curious enough or wants to check on it,

84

00:07:33,000 --> 00:07:38,000

they have my permission to write to them. I will supply this address to anyone who wants to.

85

00:07:38,000 --> 00:07:42,000

Have you ever seen a picture of one?

86

00:07:42,000 --> 00:07:45,000

Yes, I have. I've seen a number of pictures.

87

00:07:45,000 --> 00:07:47,000

Actual photographs.

88

00:07:47,000 --> 00:07:49,000

What have they never been published?

89

00:07:49,000 --> 00:07:53,000

Well, I think if you brought a picture of watching the post tonight

90

00:07:53,000 --> 00:07:59,000

of an actual client's office, they put it on the front page.

91

00:07:59,000 --> 00:08:02,000

These pictures have been published.

92

00:08:02,000 --> 00:08:06,000

Photograms have appeared in some of our leading magazines,

93

00:08:06,000 --> 00:08:10,000

and I personally saw a paper from Pennsylvania

94

00:08:10,000 --> 00:08:17,000

published about two months ago, which had not only one, but about four pictures of client's office in the paper.

95

00:08:17,000 --> 00:08:20,000

Well, I saw a picture too, but it didn't look like client's office.

96

00:08:20,000 --> 00:08:25,000

They looked like shooting sunspots of stars or what have you.

97

00:08:25,000 --> 00:08:29,000

They look at all like what I think a client's office just looked like.

98

00:08:29,000 --> 00:08:31,000

What did you see, mate?

99

00:08:31,000 --> 00:08:33,000

My exciting was at night.

100

00:08:33,000 --> 00:08:37,000

It's many of the exciting that have been taken place.

101

00:08:37,000 --> 00:08:41,000

We're in the daytime when the definite metallic objects,

102

00:08:41,000 --> 00:08:48,000

usually of a stainless steel type and color appearance are looms

103

00:08:48,000 --> 00:08:50,000

that have been observed.

104

00:08:50,000 --> 00:08:54,000

Mine was in the nighttime at about 11.30 p.m.

105

00:08:54,000 --> 00:09:01,000

I was walking in the desert in California to the site of a space convention

106

00:09:01,000 --> 00:09:05,000

that was being conducted in the woods under way of giant rock California,

107

00:09:05,000 --> 00:09:07,000

the Ethel Valley.

108

00:09:07,000 --> 00:09:13,000

And I had a very unique and strange experience.

109

00:09:13,000 --> 00:09:18,000

I could talk about this to people with great understanding on this subject

110

00:09:18,000 --> 00:09:23,000

and even to them, many of the classes that were involved in this exciting and experienced

111

00:09:23,000 --> 00:09:27,000

was caused a great deal of thought and conjecture.

112

00:09:27,000 --> 00:09:35,000

And I am going to limit my discourse to the things that I believe will be of definite benefit

113

00:09:35,000 --> 00:09:39,000

and understanding to the people that have it in this evening.

114

00:09:39,000 --> 00:09:44,000

The exciting occurred at the time of about 11.30 p.m.

115

00:09:44,000 --> 00:09:46,000

I was walking in the desert.

116

00:09:46,000 --> 00:09:49,000

I saw a star up in the sky.

117

00:09:49,000 --> 00:09:56,000

Here I felt that there was probably some kind of telepathic guidance or something involved.

118

00:09:56,000 --> 00:10:01,000

Because of the fact that I looked at a certain star of all the stars in the sky,

119

00:10:01,000 --> 00:10:07,000

the minute that I caught this star, it blinked an orange light.

120

00:10:07,000 --> 00:10:11,000

When I saw the orange light, I thought, well, here's the green.

121

00:10:11,000 --> 00:10:13,000

You saw the changes of color when you look at it.

122

00:10:13,000 --> 00:10:22,000

As I continued to watch it, it changed from a star into a large white light, an egg shape.

123

00:10:22,000 --> 00:10:27,000

And it moved across the sky in a gliding motion moving toward me.

124

00:10:27,000 --> 00:10:33,000

I estimate that it was probably 15 or 20 miles away from me at the first point of observation.

125

00:10:34,000 --> 00:10:42,000

And it took perhaps 30 seconds or so for this white object to arrive at the point in front of me

126

00:10:42,000 --> 00:10:49,000

about a quarter of a mile away, about 1,500 feet in elevation above the desert.

127

00:10:49,000 --> 00:10:55,000

When the object arrived at this point, it stopped.

128

00:10:55,000 --> 00:10:58,000

It ceased all forward, which became motionless.

129

00:10:58,000 --> 00:11:06,000

And it changed into a large red sphere about the color of the tail light on an automobile.

130

00:11:06,000 --> 00:11:11,000

At this point, I estimated to be about 25 to 30 feet in diameter.

131

00:11:11,000 --> 00:11:16,000

It remained motionless in this one spot for possibly 5 minutes.

132

00:11:16,000 --> 00:11:22,000

At this point, it was observed by the witnesses that I mentioned earlier.

133

00:11:22,000 --> 00:11:25,000

And they reported the same to me the following morning.

134

00:11:25,000 --> 00:11:29,000

I had never met the people before. I didn't meet them the following morning.

135

00:11:29,000 --> 00:11:34,000

They gave me their names and addresses as I had breakfast with them.

136

00:11:34,000 --> 00:11:46,000

After remaining motionless for about 5 minutes, this red object started descending to the desert in a direction away from me.

137

00:11:47,000 --> 00:11:57,000

The minute it began motion again, it descended, it changed back to a white light, again egg shaped.

138

00:11:57,000 --> 00:12:06,000

And it slid down toward the desert and landed approximately 2 miles away from me when it came over a ridge.

139

00:12:06,000 --> 00:12:09,000

And it went out of sight.

140

00:12:09,000 --> 00:12:15,000

At this point, I was walking toward this object all the time.

141

00:12:15,000 --> 00:12:28,000

And for all the people listening tonight, anyone from any listening in the government capacity or the capacity of any foreign government,

142

00:12:28,000 --> 00:12:36,000

I would like to state now and definitely that I had no future about this object or any of the consequences

143

00:12:36,000 --> 00:12:40,000

of my going out into this desert area by myself.

144

00:12:40,000 --> 00:12:49,000

I know that certain people and certain groups have tried to executive here a situation in the business studies.

145

00:12:49,000 --> 00:12:56,000

Because of the fact that this is, you might say somewhat unknown, this is unprecedented and unknown.

146

00:12:56,000 --> 00:12:58,000

Did you ever reach the object?

147

00:12:58,000 --> 00:13:01,000

I walked out into the desert.

148

00:13:01,000 --> 00:13:05,000

I was out in the desert all night until the following morning.

149

00:13:05,000 --> 00:13:11,000

I arrived back at the first point of observation at about 7 o'clock the following morning.

150

00:13:11,000 --> 00:13:19,000

I observed this object two more times during the night at very close proximity.

151

00:13:19,000 --> 00:13:26,000

And I came to learn many things that I hadn't already thought before.

152

00:13:26,000 --> 00:13:38,000

And that is that these extra-trivial crafts or inter-planetary crafts do have the ability to operate in other dimensions.

153

00:13:38,000 --> 00:13:49,000

Preaching into dimensional discussions, why we get into a lot of complicated things that I don't think most people would understand.

154

00:13:49,000 --> 00:13:52,000

It may not only interject this much in my head.

155

00:13:52,000 --> 00:13:58,000

You say if I got you straight that you saw this object, it landed, you started to walk to it,

156

00:13:58,000 --> 00:14:06,000

and then you went home to hotel or whatever it is, and then you came back to the point of observation and you saw it again.

157

00:14:06,000 --> 00:14:09,000

No, I remain on the desert all night long.

158

00:14:09,000 --> 00:14:11,000

And you saw it twice again.

159

00:14:11,000 --> 00:14:14,000

I saw it twice again at close proximity.

160

00:14:14,000 --> 00:14:22,000

And whenever it was in motion, it was this luminous white light.

161

00:14:22,000 --> 00:14:30,000

And I believe from books that I have read, observations of other people that are taken at close quarters,

162

00:14:30,000 --> 00:14:36,000

that on certain occasions these ships become visible to the physical eye,

163

00:14:36,000 --> 00:14:41,000

but only under the right conditions and for certain reasons.

164

00:14:41,000 --> 00:14:48,000

I, um, it seems to me a shame that you didn't have a camera on Gobi's shoulder.

165

00:14:48,000 --> 00:14:54,000

I had a camera that went over my shoulder to shoulder, and I did not, one, think of taking a picture.

166

00:14:54,000 --> 00:15:00,000

Finally, the revelation that came to you after so many years of believing in something and not

saying it,

167

00:15:00,000 --> 00:15:07,000

finally there it was, twice, three times, and you didn't take this camera off of the picture.

168

00:15:07,000 --> 00:15:13,000

I did not. It's too bad in it. It is. I thought about it many times afterwards,

169

00:15:13,000 --> 00:15:19,000

and I had told friends of all the stupid things that here I was close to, that I thought,

170

00:15:19,000 --> 00:15:23,000

and the camera was on my shoulder and I didn't take a picture.

171

00:15:23,000 --> 00:15:30,000

The reason was because there were a great many other things in my mind.

172

00:15:30,000 --> 00:15:35,000

I have mentioned in letters to certain individuals.

173

00:15:36,000 --> 00:15:41,000

This was a nice, great experience for me. There are a lot of things happening to that on that desert,

174

00:15:41,000 --> 00:15:48,000

that I will tell various people when I know that they have arrived at a point where they will understand some of these things

175

00:15:48,000 --> 00:15:50,000

and not treat it as science fiction.

176

00:15:50,000 --> 00:15:59,000

I think it is useless to talk to a group of people unless they listen in an open-minded attitude.

177

00:15:59,000 --> 00:16:06,000

I already know something about this because this gets off into a realm of philosophy and many things.

178

00:16:06,000 --> 00:16:13,000

And he previously explained why people tend to say, well, we are getting into science fiction.

179

00:16:13,000 --> 00:16:16,000

Let me get that. If you serve this question.

180

00:16:16,000 --> 00:16:19,000

Francis, did you see any light on the ship?

181

00:16:19,000 --> 00:16:27,000

I found no sign of light in the third dimension that we operate in.

182

00:16:27,000 --> 00:16:38,000

However, I had reason to believe from certain observations that I made that there were a great deal of activity going on on the desert

183

00:16:38,000 --> 00:16:44,000

in, you might say, interdimensional or other dimensions.

184

00:16:44,000 --> 00:16:54,000

And I had certain things were shown to me at her sound and I saw things with my eyes which confirmed these ideas.

185

00:16:54,000 --> 00:16:57,000

Did you report to findings from any government agency?

186

00:16:57,000 --> 00:17:07,000

Yes, I have. I have reported this signing to friends here in the Washington area

187

00:17:07,000 --> 00:17:14,000

and any military group or intelligence group that wants to know any further information about it,

188

00:17:14,000 --> 00:17:20,000

I will give all the information I have on this signing and as a desert experience that I have.

189

00:17:20,000 --> 00:17:29,000

Now, may J.O.S. and Tommy Offiton, you know, as well as I do, that airplanes have cameras on them now.

190

00:17:29,000 --> 00:17:32,000

Most of the airplanes have cameras on them.

191

00:17:32,000 --> 00:17:40,000

I'm quite sure in your brochures have the names of pilots and fly boys who have seen these flying saucers, right?

192

00:17:40,000 --> 00:17:42,000

Yes, I have.

193

00:17:42,000 --> 00:17:52,000

Why do you think it is that they are astronomers who are searching the sky 24 hours a day, funny phenomena that might occur with cameras?

194

00:17:52,000 --> 00:17:56,000

Why do you think it is that they haven't got pictures of these things?

195

00:17:56,000 --> 00:17:59,000

Well, my personal opinion is that they have the pictures.

196

00:17:59,000 --> 00:18:01,000

Why don't they expose them?

197

00:18:01,000 --> 00:18:06,000

Well, that's the question I couldn't answer. It's not in my capacity to answer that question.

198

00:18:06,000 --> 00:18:10,000

What is your idea? Do you have any opinion on this subject?

199

00:18:10,000 --> 00:18:14,000

Yes, I have very definite ideas and opinions on this subject.

200

00:18:14,000 --> 00:18:25,000

I think that the main reason for this is that the question, the whole question is so big, it is such a fantastic proportion.

201

00:18:25,000 --> 00:18:41,000

And I could have so great an effect on our general context of the universe and what life is all about and our relationship to the planet and life in the universe.

202

00:18:41,000 --> 00:18:51,000

That's various people so far decided that the American public was not ready to hear this whole truth.

203

00:18:51,000 --> 00:19:00,000

All right, let us presume for a moment that I go along with it. I'm not sure that I do, but let us presume for a moment that I do that the American public is not ready to such a truth.

204

00:19:00,000 --> 00:19:14,000

Even though the American public is known through his newspapers and radio and television about such major happenings as the disarmament talk in London with Statham and the Russian people in the out of eyes,

205

00:19:14,000 --> 00:19:24,000

even though it's told about almost everything that happened, the jail says this particular case, it is such an Asian proportion that the government and society of American people are ready to hear.

206

00:19:24,000 --> 00:19:32,000

Let us presume for a moment that I agree with it. Would you say in jail that these sightings have been made by other countries?

207

00:19:32,000 --> 00:19:43,000

Definitely. I have received mail and I read and seen publications where these sightings are reported in great many countries all over the world.

208

00:19:43,000 --> 00:19:51,000

All right. Do you think the same thing that holds true of American government holds true of all other governments?

209

00:19:51,000 --> 00:19:58,000

That they say they have people on both the North and the West, or would you say that all the governments got together through some agency and said let's keep it away?

210

00:19:58,000 --> 00:20:12,000

Well, some governments have made these sightings and the media reports not necessarily official, but they have, there seems to be a no blockage of information falling to the public.

211

00:20:12,000 --> 00:20:22,000

Mexico would touch a country and Australia has been treating it with a very open attitude and New Zealand and perhaps some other countries.

212

00:20:22,000 --> 00:20:36,000

Well, as I said before, I don't believe that we have such a thing as censorship in our country and I don't think that the government, or even the President of the United States, could say to the newspaper publishers and the Hamlin Association,

213

00:20:36,000 --> 00:20:48,000

please don't pick anything up from the Australian and Mexican papers imprinted to our country. I don't think that our newspaper publishers would go for it, number one, and I don't think President Eisenhower would have counted number two.

214

00:20:49,000 --> 00:20:58,000

So I don't understand why the agency or the U.P. on any newspaper has a correspondent in Mexico or Australia, and I guess most of our Mexican newspapers have one there.

215

00:20:58,000 --> 00:21:11,000

Why they haven't printed this? I'm just trying to figure out why. See, I'm not just a media worker, you say you saw it, you saw it. You're here on the microphone, you might guess and I agree, you saw it.

216

00:21:11,000 --> 00:21:21,000

You saw it. You saw it, they saw it. In Mexico, you tell me they saw it. In a big show, Washington, you tell me they saw it in Australia. I'm just wondering why these things are not printed.

217

00:21:21,000 --> 00:21:36,000

I don't think anybody's going to censor the American press. They better not try. No, I think a lot of factors involved in this, I don't think that the American press can be censored either,

218

00:21:36,000 --> 00:21:51,000

but there are certain times and places and waiting means by which the American press could be convinced that they should cooperate in certain ways and not list this information out at the present time or not too fast.

219

00:21:51,000 --> 00:21:59,000

We have an indication here of something that happened just a minute ago. We have a man out here in the audience this evening, at a fighting just right before last.

220

00:21:59,000 --> 00:22:17,000

This was reported to a great many newspapers and police stations all over the area and we have a situation right here in Washington where this report occurred only in one paper and in a very small and insignificant manner.

221

00:22:18,000 --> 00:22:28,000

The whole story was not presented right here in Washington. It occurred just night before last. You didn't know what I personally reported to a newspaper that submitted all the information that I had.

222

00:22:28,000 --> 00:22:33,000

Here's the names of the parties involved, everything, and nothing was reported.

223

00:22:33,000 --> 00:22:41,000

Why do you think it is that newspapers didn't report it, Major? Well, I couldn't answer that question. I could venture a guess. I wonder if you'd agree with me.

224

00:22:41,000 --> 00:22:51,000

Several years ago, the newspapers were reporting every sighting and then I came to a point where they even reported a sighting by a man or several green men with horns jumped out of the gym.

225

00:22:51,000 --> 00:23:02,000

So I guess newspapers got together and said unless it comes from something official, unless it comes from a recognized astronomer of some scientific mind, we just aren't going to report them.

226

00:23:02,000 --> 00:23:07,000

You know, something I don't blame them. Would you think that might be the reason?

227

00:23:07,000 --> 00:23:26,000

I think it might be. I think also that there are some of our newster people and others are aware of this situation in 1939 when we had a Mars scare and invasion from Mars and all this mess.

228

00:23:26,000 --> 00:23:34,000

And well, there's been flames for this so many times. Everybody says we can't do it because so well didn't look what happened.

229

00:23:34,000 --> 00:23:43,000

Well, you're an open microphone now and you might have government officials listening to you. We're going to ask the gentleman of whom you speak to come up on the air and tell us about his sighting.

230

00:23:43,000 --> 00:23:44,000

If I like to have him do that.

231

00:23:44,000 --> 00:23:49,000

All right. You hold on though for five minutes of eight years with Paul Melton. We'll be right back.
