

1

00:00:00,000 --> 00:00:08,560

This is Walter Schrode, your roving reporter at KSRC Radio and Sacro de Mexico.

2

00:00:08,560 --> 00:00:13,580

We have with us this afternoon Mr. Lonnie Zamor, the Sacro patrolman that while chasing

3

00:00:13,580 --> 00:00:19,840

a car, found himself in an area about two miles west of Sacro and one mile east of KSRC

4

00:00:19,840 --> 00:00:25,440

radio station, at which time he reports he came upon an unidentified object resting on

5

00:00:25,440 --> 00:00:26,440

four legs.

6

00:00:26,600 --> 00:00:32,400

That as he drew closer, the object took off with a loud roar, starting blue, red flame,

7

00:00:32,400 --> 00:00:34,080

and disappeared in the sky.

8

00:00:34,080 --> 00:00:39,160

A great number of cars and Sacro people have gathered here in front of the studios of KSRC

9

00:00:39,160 --> 00:00:44,720

to catch a glimpse of Mr. Zamor as he arrived and welcome him with their car horn.

10

00:00:44,720 --> 00:00:48,880

Mr. Zamor, after coming upon this object, just what did happen?

11

00:00:48,880 --> 00:00:54,200

I went up that little road for about half a mile again.

12

00:00:54,960 --> 00:01:01,680

Came up to this little barking deer there on the side of the road and I thought I'd

13

00:01:01,680 --> 00:01:10,680

glance out the window, look to my left, I've seen this white object on the ground.

14

00:01:12,680 --> 00:01:15,880

So I thought it might be a car that had turned over.

15

00:01:15,880 --> 00:01:21,400

So I asked the river, the real big carry going out there to investigate, thought maybe somebody

16

00:01:21,400 --> 00:01:24,600

would be hurt.

17

00:01:24,600 --> 00:01:30,600

That time I saw this white, eight shaped looking object.

18

00:01:30,600 --> 00:01:33,600

It looked something like an egg, you mean?

19

00:01:33,600 --> 00:01:38,600

From the distance I was, it looked like an egg to me, about the size of a car, I think

20

00:01:38,600 --> 00:01:39,600

someone said.

21

00:01:39,600 --> 00:01:42,600

It sort of looked like a car that turned over.

22

00:01:42,600 --> 00:01:45,600

That's why I said it was the size of a car.

23

00:01:45,600 --> 00:01:49,600

And there's any kind of markings on it of any kind that you noticed?

24

00:01:49,800 --> 00:01:51,800

Yes, it did.

25

00:01:51,800 --> 00:01:56,800

Not from that far I didn't see the markings.

26

00:01:56,800 --> 00:02:00,800

When I went up closer to it, I did see the markings.

27

00:02:00,800 --> 00:02:08,800

And someone said that the markings that you saw was an upside down V with three lines running through it.

28

00:02:08,800 --> 00:02:14,800

No sir, couldn't tell you that because they still, who are you saying doesn't go on marking?

29

00:02:14,800 --> 00:02:16,800

They don't want you to say anything about the markings.

30

00:02:17,000 --> 00:02:19,000

I have a lot of questions here on that.

31

00:02:19,000 --> 00:02:23,000

And if we run into an area that they don't want you to talk about, you just say so.

32

00:02:23,000 --> 00:02:26,000

And this happened about 5.30 Friday afternoon.

33

00:02:26,000 --> 00:02:31,000

It happened about 5.50, about 10 minutes to 6.

34

00:02:31,000 --> 00:02:36,000

And you just placed a call in to Sergeant Tavis of the State Police.

35

00:02:36,000 --> 00:02:38,000

Come on, I'll help you with the investigation.

36

00:02:38,000 --> 00:02:42,000

From the fire source, the object, I didn't know what it was.

37

00:02:42,200 --> 00:02:46,200

I placed a call to Sergeant Tavis of the State Police.

38

00:02:46,200 --> 00:02:49,200

Told him he would come up there and help me on this.

39

00:02:49,200 --> 00:02:53,200

He said yes, I'll be right there in about a few minutes.

40

00:02:53,200 --> 00:03:00,200

And he arrived just about 2 or 3 minutes after the object had taken off and left.

41

00:03:00,200 --> 00:03:07,200

Well, the object was still about a couple of months up there when he arrived.

42

00:03:07,400 --> 00:03:10,400

It was still at that direction it went.

43

00:03:10,400 --> 00:03:12,400

It went about 4 the top of the mountain.

44

00:03:12,400 --> 00:03:17,400

And we heard several reports that it proved low, like it was dragging something.

45

00:03:17,400 --> 00:03:19,400

And we heard some...

46

00:03:19,400 --> 00:03:21,400

They were very low to the ground.

47

00:03:21,400 --> 00:03:23,400

At the time I was seeing that they were very low to the ground.

48

00:03:23,400 --> 00:03:28,400

Up to the furlough, the mill there, and they thought it was beginning to empty too.

49

00:03:28,400 --> 00:03:30,400

Now, I'll...

50

00:03:30,400 --> 00:03:36,400

So it was reported to me that when you first drove up into this area and decided to stop

51

00:03:36,600 --> 00:03:38,600

the motorists were running and never going...

52

00:03:38,600 --> 00:03:43,600

There was some sort of stress found, is that correct?

53

00:03:43,600 --> 00:03:47,600

It was a cool thing because it happened so fast.

54

00:03:47,600 --> 00:03:50,600

I started running a little scared.

55

00:03:50,600 --> 00:03:52,600

I don't blame you.

56

00:03:52,600 --> 00:03:54,600

Thoughts on this had even scared me yet.

57

00:03:54,600 --> 00:04:00,600

Now, you did say that you saw two what appeared to be people dressed in white uniforms.

58

00:04:00,600 --> 00:04:03,600

Did they have helmets on like spacemen or anything?

59

00:04:03,800 --> 00:04:04,800

No, sir.

60

00:04:04,800 --> 00:04:06,800

I would say there were people I just...

61

00:04:06,800 --> 00:04:10,800

I saw some of them with white collar all that's what I could say.

62

00:04:10,800 --> 00:04:13,800

That's like there was something in white cover all right.

63

00:04:13,800 --> 00:04:16,800

But you couldn't identify them as actually being a human being.

64

00:04:16,800 --> 00:04:18,800

No, sir.

65

00:04:18,800 --> 00:04:25,800

And you didn't know where they turned and saw you or what then?

66

00:04:26,000 --> 00:04:29,000

Well, to my...

67

00:04:29,000 --> 00:04:35,000

I would say that this white object turned and saw me.

68

00:04:35,000 --> 00:04:37,000

Were there two of them?

69

00:04:37,000 --> 00:04:42,000

I would say there were two because one was from France and the other was from the back.

70

00:04:42,000 --> 00:04:50,000

You had a chance to know what kind of a doorway they had to this army, this flying army.

71

00:04:50,000 --> 00:04:52,000

Didn't notice them.

72

00:04:52,700 --> 00:05:00,700

And when that took off, it made a loud, loud roaring sound.

73

00:05:00,700 --> 00:05:02,700

That...

74

00:05:02,700 --> 00:05:06,700

I heard a very loud noise roar or something.

75

00:05:06,700 --> 00:05:10,700

And then after it got up in the air about 20 feet while the sound seemed to disappear.

76

00:05:10,700 --> 00:05:12,700

The sound was...

77

00:05:12,700 --> 00:05:14,700

It disappeared and was very, very quiet.

78

00:05:14,700 --> 00:05:16,700

You could hear a pin drop there.

79

00:05:16,700 --> 00:05:20,700

And now these markings is left on the ground.

80

00:05:20,700 --> 00:05:24,700

Now the reports that I have had and I haven't had a chance to go and take a look in the winds,

81

00:05:24,700 --> 00:05:27,700

you have to be a probably a score of a lot of that anyway.

82

00:05:27,700 --> 00:05:29,700

Whether that...

83

00:05:29,700 --> 00:05:36,700

There were deep indentations in the ground approximately 10 inches wide and 6 to 8 inches deep.

84

00:05:36,700 --> 00:05:38,700

About 15 feet apart.

85

00:05:38,700 --> 00:05:40,700

Is that a correct report?

86

00:05:40,700 --> 00:05:47,700

Well, I would say it was about 19 feet apart of the...

87

00:05:47,700 --> 00:05:49,700

Preve.

88

00:05:49,700 --> 00:05:55,700

And was there any other prints like footprints around the area that had to take off

89

00:05:55,700 --> 00:05:57,700

when you were making the investigation?

90

00:05:57,700 --> 00:06:01,700

There were some prints, but I wouldn't know if there were footprints or anything.

91

00:06:01,700 --> 00:06:03,700

Prints, I don't think.

92

00:06:03,700 --> 00:06:06,700

You couldn't identify them as actually being a footprint.

93

00:06:06,700 --> 00:06:11,700

There were indentations like maybe somebody might have walked there or somebody might have walked there.

94

00:06:11,700 --> 00:06:14,700

Somebody walked around there because there was...

95

00:06:14,700 --> 00:06:17,700

When I got there, there was nobody around there yet.

96

00:06:17,700 --> 00:06:23,700

Now there was, according to a report on one of the news, the television stations in Albuquerque

97

00:06:23,700 --> 00:06:31,700

claimed that they had a call just about 5.30 in Albuquerque of a sighting about flying objects,

98

00:06:31,700 --> 00:06:32,700

flying in this direction.

99

00:06:32,700 --> 00:06:34,700

Did you hear anything about that?

100

00:06:34,700 --> 00:06:41,700

Low-flying, which if that be true, means that someone in Albuquerque saw this object flying in this direction

101

00:06:41,700 --> 00:06:43,700

just prior to your sighting it.

102

00:06:43,700 --> 00:06:48,700

And which collaborates with the fact that there was something here.

103

00:06:48,700 --> 00:06:53,700

Now it's the feeling, I get the feeling at least, Lonnie, as with the people that I've talked to

104

00:06:53,700 --> 00:06:58,700

and they were out in the area, that they are quite sure that something landed there

105

00:06:58,700 --> 00:07:03,700

and something took off from this spot because of not only the imprint that is left in the ground

106

00:07:03,700 --> 00:07:10,700

but the fire that it started and the method of which the fire or the power that it was,

107

00:07:10,700 --> 00:07:13,700

whatever, was using kind of spread itself as it took off.

108

00:07:13,700 --> 00:07:14,700

Is that right?

109

00:07:14,700 --> 00:07:15,700

Right.

110

00:07:15,700 --> 00:07:19,700

I know there was something out there because I see it.

111

00:07:19,700 --> 00:07:28,700

And what was your immediate reaction, as soon as you realized that this thing might be an object from outer space?

112

00:07:28,700 --> 00:07:38,700

Well, I didn't think it would be an object from outer space because I don't believe in things like this in outer space.

113

00:07:38,700 --> 00:07:41,700

Well, it was something that you'd never seen before.

114

00:07:41,700 --> 00:07:44,700

And you were not enough to just carry it around in the other direction?

115

00:07:44,700 --> 00:07:50,700

Well, what scared me was the loud noise and the flame that it had under it.

116

00:07:50,700 --> 00:07:53,700

It had a large flame as it took off.

117

00:07:53,700 --> 00:07:58,700

Was it a yellow flame or a blueish-orange flame?

118

00:07:58,700 --> 00:08:00,700

I thought this object was going to blow up.

119

00:08:00,700 --> 00:08:02,700

This one started running back.

120

00:08:02,700 --> 00:08:12,700

And if you notice whether these arms that it was sitting on retracted back into the object, it blew away and it didn't have time.

121

00:08:12,700 --> 00:08:15,700

I just ran in the other drag-a-law at that time.

122

00:08:15,700 --> 00:08:16,700

I was done too.

123

00:08:16,700 --> 00:08:25,700

Are there any other things about this trying that you think our listening audience might be interested in or something that you'd be allowed to tell us?

124

00:08:26,700 --> 00:08:29,700

You know, it felt like so.

125

00:08:29,700 --> 00:08:33,700

And it disappeared.

126

00:08:33,700 --> 00:08:34,700

I answered that.

127

00:08:34,700 --> 00:08:37,700

A high sky after it got over around the pearl eyes?

128

00:08:37,700 --> 00:08:39,700

It disappeared.

129

00:08:39,700 --> 00:08:41,700

It was a little low too, the pearl eyes.

130

00:08:41,700 --> 00:08:46,700

And then from there on, it just fell fast and you could barely hear it.

131

00:08:46,700 --> 00:08:47,700

Right? And great happening here?

132

00:08:47,700 --> 00:08:54,700

It had to be painted to what you were looking at to see what it was doing.

133

00:08:54,700 --> 00:08:58,700

So, do you think we're going to get any more of them around here?

134

00:08:58,700 --> 00:08:59,700

I hope not.

135

00:08:59,700 --> 00:09:00,700

Not immediately.

136

00:09:00,700 --> 00:09:03,700

Well, that was quite an interesting experience.

137

00:09:03,700 --> 00:09:09,700

I'm sure, and it caused an awful lot of comment.

138

00:09:09,700 --> 00:09:13,700

Did the investigators that were called in make any comments at all?

139

00:09:13,700 --> 00:09:21,700

In one direction or the other, was the exception that they do not have any such object in this area?

140

00:09:21,700 --> 00:09:23,700

Well, there's still puzzled themselves here.

141

00:09:23,700 --> 00:09:26,700

And there's been no report on the sampling.

142

00:09:26,700 --> 00:09:33,700

They took of the area around there from the brain brush and the area that the blast hit the ground.

143

00:09:33,700 --> 00:09:36,700

But my human curious of what kind of power was being used on this.

144

00:09:36,700 --> 00:09:39,700

No, no, no.

145

00:09:39,700 --> 00:09:43,700

Well, I think I just about covered it here.

146

00:09:43,700 --> 00:09:44,700

Let's see.

147

00:09:44,700 --> 00:09:46,700

It wasn't dragging anything.

148

00:09:46,700 --> 00:09:54,700

We had a report that it was dragging something as it let no one say it was dragging nothing just

blow through the ground.

149

00:09:54,700 --> 00:10:04,700

And you can't think of anything else then about deciding how this flying object that our listing audience might be interested in.

150

00:10:04,700 --> 00:10:07,700

You know, or full of say no.

151

00:10:07,700 --> 00:10:12,700

Well, Lonnie, I'm sure you've been getting an awful lot of questions and a lot of inquiry.

152

00:10:12,700 --> 00:10:17,700

And you're beginning to get a little tired of it actually for many people calling and asking you about it.

153

00:10:17,700 --> 00:10:20,700

Maybe this will be one way to keep that too many people from him.

154

00:10:20,700 --> 00:10:23,700

You have to go through the story over and over again.

155

00:10:23,700 --> 00:10:26,700

Well, it's been a real pleasure talking to you, Mr. Lonnie Des Moines.

156

00:10:26,700 --> 00:10:33,700

This is the gentleman, the support of patrolman that Friday at around 10 minutes to six,

157

00:10:33,700 --> 00:10:41,700

come up on an object, a flying object, an unidentified flying object that is the government preferred to call him.

158

00:10:41,700 --> 00:10:47,700

Excuse me, Walter, I've got some military people that serve as one talk to me now.

159

00:10:47,700 --> 00:10:49,700

We leave that from the UFO.

160

00:10:49,700 --> 00:10:50,700

All right.

161

00:10:50,700 --> 00:10:56,700

What you have is the military people that are here from the UFO to talk to you right now and to ask you some more questions about this.

162

00:10:56,700 --> 00:11:02,700

And they have not in any way tried to indicate that they didn't want us to cover this type of an issue.

163

00:11:02,700 --> 00:11:07,700

You know, sir, I just don't know if I was going to come here and talk to you on the way to take me this whole ride.

164

00:11:07,700 --> 00:11:09,700

Well, that's fine.

165

00:11:09,700 --> 00:11:15,700

And we would be interested in knowing what they think about it as if they will allow it.

166

00:11:15,700 --> 00:11:24,700

And after you get through talking to them, if you would call us back here at the SRC and to give us some of the information that they might allow you to let us broadcast.

167

00:11:24,700 --> 00:11:25,700

We're glad to.

168

00:11:25,700 --> 00:11:26,700

All right.

169

00:11:26,700 --> 00:11:28,700

And this is tomorrow.

170

00:11:28,700 --> 00:11:31,700

I hope that you don't come upon any more of these objects.

171

00:11:31,700 --> 00:11:36,700

And as we find out exactly what they are.

172

00:11:36,700 --> 00:11:39,700

So it's been a pleasure, Mr. DeMauro, having you in our studios.

173

00:11:39,700 --> 00:11:41,700

And we want to thank you.

174

00:11:41,700 --> 00:11:43,700

And I know our listeners thank you.

175

00:11:43,700 --> 00:11:53,700

And this is expressed by the great number of cars that are out here in front of our studios just to get a glimpse of what we might call a furcough celebrity right at the moment.

176

00:11:53,700 --> 00:11:54,700

Thank you.

177

00:11:54,700 --> 00:11:55,700

This is tomorrow.

178

00:11:55,700 --> 00:11:56,700

It's been very nice meeting you.

179

00:11:56,700 --> 00:11:58,700

Not the SRC studios.

180

00:11:58,700 --> 00:12:03,700

You're just been listening to a CSI radio special featuring an interview with Mr.

181

00:12:03,700 --> 00:12:06,700

DeMauro, the department here in Fulgore.

182

00:12:06,700 --> 00:12:09,700

That's kind of a honor to the fans.

183

00:12:09,700 --> 00:12:12,700

I think that's a little bit of a blow to the front.
