

1

00:00:00,000 --> 00:00:17,600

I would just like for you to tell your story.

2

00:00:17,600 --> 00:00:20,520

Just in your own words.

3

00:00:20,520 --> 00:00:22,640

This was Tuesday morning.

4

00:00:22,640 --> 00:00:25,680

I just got off work at two o'clock.

5

00:00:25,680 --> 00:00:29,600

I had been a thunderstorm earlier that night.

6

00:00:29,600 --> 00:00:33,400

But it was over about an hour and a half earlier.

7

00:00:33,400 --> 00:00:37,040

And I was coming down North River Road.

8

00:00:37,040 --> 00:00:41,840

This was approximately 2 20 in the morning.

9

00:00:41,840 --> 00:00:50,480

And I started up over a big hill there on the road and I saw this orange red glow in the sky.

10

00:00:50,480 --> 00:00:57,720

Something like a fire and I thought maybe lightning struck a house earlier that night and the house was on fire.

11

00:00:57,720 --> 00:01:05,480

And I slowed down immediately expecting to see fire trucks in this as I top the hill.

12

00:01:05,480 --> 00:01:10,000

But as I top the hill, I noticed off to the left hand side of the road.

13

00:01:10,000 --> 00:01:12,880

That would be the south side.

14

00:01:12,880 --> 00:01:19,360

An orangeish red object which appeared to be a cone shaped with a brown sphere on top.

15

00:01:19,360 --> 00:01:30,400

It was about 25 feet tall and maybe 12 feet wide at the base and appeared to be hovering over the ground, maybe two feet at the most at all.

16

00:01:30,400 --> 00:01:35,760

This attracted my attention and I was staring at it and driving at the same time.

17

00:01:35,760 --> 00:01:40,080

And just out of our normal habit, I glance back at the street.

18

00:01:40,080 --> 00:01:46,160

And as I glance back at the street, I saw four, maybe five, there were four, at least of these.

19

00:01:46,160 --> 00:01:53,840

But what appeared to be people from this ship, they were running back and forth across the street.

20

00:01:53,840 --> 00:01:59,520

And I saw that they didn't recognize my presence there.

21

00:01:59,520 --> 00:02:02,800

The headlights are the noise from my car or anything.

22

00:02:02,800 --> 00:02:08,560

And they didn't stop running across in front of me and I slammed on my brakes because I saw it would hit them.

23

00:02:08,560 --> 00:02:15,160

And as I slammed on my brakes, my car was skidding and I heard this loud thump.

24

00:02:15,160 --> 00:02:22,560

And I maybe went eight to ten feet further after the impact with this object that I hit.

25

00:02:22,560 --> 00:02:30,680

I immediately, I started to get out of the car as just a first reaction when you hit something in the street.

26

00:02:30,680 --> 00:02:34,160

And then I thought that that was all wrong to get out of the car.

27

00:02:34,160 --> 00:02:36,840

So I sped away down the street.

28

00:02:36,840 --> 00:02:44,960

And as I started away, I looked in the rear of the mirror to catch a glance and these objects had then stopped running back and forth across the street.

29

00:02:45,920 --> 00:02:47,120

And they were all standing there.

30

00:02:47,120 --> 00:02:54,920

I couldn't see whether they were standing over the one that I hit or not, but they had stopped running across the street.

31

00:02:54,920 --> 00:03:05,280

I got home and I just kind of sat in the living room for a couple of hours and thought of a million or more different things that it could have been or what I could have done.

32

00:03:05,280 --> 00:03:09,120

And then I just went to bed.

33

00:03:09,240 --> 00:03:15,560

Thank you, David. Now, if you don't mind, we'll sort of talk and go over some of that.

34

00:03:15,560 --> 00:03:21,560

You were going old. What would you judge you were going in speed?

35

00:03:21,560 --> 00:03:26,120

Approximately 30 miles an hour. No more. It could have been a little slower.

36

00:03:26,120 --> 00:03:36,200

Now, I noticed on your automobile that you have the there's a space on your grill over it is sort of spread apart a wee bit scratches.

37

00:03:36,200 --> 00:03:42,400

And then one thing I noticed on the rim of your right headlight, it is dented too.

38

00:03:42,400 --> 00:03:44,400

Now, all of this occurred at this time.

39

00:03:44,400 --> 00:03:52,320

There was no dent there before because after seeing your car, I realized you keep it very well in good condition.

40

00:03:52,320 --> 00:04:00,840

Now, was this before or were there any dentists before to verify that there was only the one little crease there and the chrome piece.

41

00:04:00,840 --> 00:04:05,400

The rest of them were all made by this, whatever I hit in the street.

42

00:04:05,440 --> 00:04:09,600

And that on the rim of your headlight was made when you hit whatever you hit.

43

00:04:09,600 --> 00:04:19,600

Yes, it was. Now, we were wondering before we came out and of course, before we saw your automobile, I didn't realize it's set so high.

44

00:04:19,600 --> 00:04:25,800

And I thought perhaps it might be that the object you hit could have gone under the car.

45

00:04:25,800 --> 00:04:29,840

Would you explain why you don't feel this happened?

46

00:04:29,880 --> 00:04:37,200

After I started down the street, I didn't feel any thumb for anything underneath the car or like I ran over it with the tire.

47

00:04:37,200 --> 00:04:42,960

I either drove right over it or it went off to the side one way or the other there.

48

00:04:42,960 --> 00:04:45,360

I couldn't say which it was.

49

00:04:45,360 --> 00:04:58,120

Now, at this time, as you heard and felt the thumb in the light of your headlight, I think you said you could determine some part of a figure.

50

00:04:58,160 --> 00:05:09,280

Yes, it was. I saw a part of an arm, maybe about four inches of the arm and the hand, but there was

no fingers on the hand, only a thumb.

51

00:05:09,280 --> 00:05:18,480

In other words, you couldn't tell whether that could have been like a metton or like encased, a hand encased in a metton or you just don't know.

52

00:05:18,480 --> 00:05:20,320

It's just a quick flash, is that right?

53

00:05:20,320 --> 00:05:26,720

Yes, it was. I couldn't say whether it would be something that they had on their hand or their hand itself.

54

00:05:26,720 --> 00:05:38,320

Could you describe, because I know all of this happened in lack of flash, but would you describe the best your ability, Dave, the impression you had of these figures?

55

00:05:38,320 --> 00:05:51,160

Yes, they were maybe three and a half to four feet tall, built stockily, somewhat on the order of a midget with the short legs and the longer arms than normal.

56

00:05:51,480 --> 00:06:05,240

The heads were large, they were very large, out of proportion to the size body that they had. This could have been a head covering, but even if it would have been a head covering, they would have to make this covering so it fit the head.

57

00:06:05,240 --> 00:06:15,560

And at that it would have had to be bigger and it wasn't around the head more oblong, like a light bulb shape almost.

58

00:06:15,640 --> 00:06:28,640

Have you been, or have you been keeping up with any of the UFO material that has been in the paper? In other words, are you interested or were you interested in UFOs much before this occurred to you?

59

00:06:28,720 --> 00:06:40,320

Not so much. Every once in a while at work we'd have a discussion and talk about there had to be something out there, but no one knew what.

60

00:06:40,320 --> 00:06:52,320

But up until I saw these myself, I didn't do much reading on it. If there'd be something in the paper, I'd glance through a magazine and I'd mostly just look at the pictures. I wasn't really that interested.

61

00:06:52,320 --> 00:06:58,560

But now I started to do a lot of reading, trying to see if maybe I can find a story similar to mine.
