

1

00:00:00,000 --> 00:00:03,760

What is your first name Mr. Patterson?

2

00:00:03,760 --> 00:00:04,760

Early R. Patterson.

3

00:00:04,760 --> 00:00:05,760

Your first name is what now?

4

00:00:05,760 --> 00:00:06,760

Early.

5

00:00:06,760 --> 00:00:07,760

Early R. Patterson.

6

00:00:07,760 --> 00:00:10,760

And what is your address Mr. Patterson?

7

00:00:10,760 --> 00:00:11,760

First off, Park.

8

00:00:11,760 --> 00:00:13,240

And where in Newport do you live?

9

00:00:13,240 --> 00:00:14,240

Church is right.

10

00:00:14,240 --> 00:00:18,640

Mr. Patterson would you tell me what you were telling me earlier about what you saw this

11

00:00:18,640 --> 00:00:19,640

evening?

12

00:00:19,640 --> 00:00:20,640

Okay.

13

00:00:20,640 --> 00:00:21,640

I've seen something.

14

00:00:21,640 --> 00:00:22,640

I'm saying something.

15

00:00:22,640 --> 00:00:23,640

I've never seen before.

16

00:00:23,640 --> 00:00:24,640

I hear about this.

17

00:00:24,640 --> 00:00:25,640

I don't know about a fire problem.

18

00:00:25,640 --> 00:00:32,640

I'm trying to tell you the best thing I know is that I see.

19

00:00:32,640 --> 00:00:37,640

And it's whatever they're paying for, they're trying to see like that.

20

00:00:37,640 --> 00:00:40,640

You know, like a soft one and a comfort.

21

00:00:40,640 --> 00:00:44,640

But don't get me wrong, like the top of comfort, you're trying to level it all over the soft

22

00:00:44,640 --> 00:00:45,640

one.

23

00:00:45,640 --> 00:00:47,640

You know, that way it was built.

24

00:00:47,640 --> 00:00:51,640

And this thing, I'm saying this thing.

25

00:00:51,640 --> 00:00:53,640

I'm saying it here, one eye.

26

00:00:53,640 --> 00:00:56,640

All I can see, it came out of the top.

27

00:00:56,640 --> 00:00:59,640

We'll be globing at the top of it, at the mouth of the face.

28

00:00:59,640 --> 00:01:00,640

Top of it.

29

00:01:00,640 --> 00:01:04,640

Came out, looked like it was white by the end on the side.

30

00:01:04,640 --> 00:01:07,640

But it had something look like one eye.

31

00:01:07,640 --> 00:01:08,640

But it gloated.

32

00:01:08,640 --> 00:01:11,640

That's why I'm not saying it did have one eye.

33

00:01:11,640 --> 00:01:12,640

It wiped the top.

34

00:01:12,640 --> 00:01:13,640

And there was another.

35

00:01:13,640 --> 00:01:14,640

Like it, just up above.

36

00:01:14,640 --> 00:01:19,640

Maybe I don't know how much teeth I can understand because I wouldn't want to distance it.

37

00:01:19,640 --> 00:01:21,640

But that's my knowledge.

38

00:01:21,640 --> 00:01:25,640

I can say it was about maybe 15 to 20 times.

39

00:01:25,640 --> 00:01:27,640

Because it was digging off.

40

00:01:27,640 --> 00:01:28,640

You can tell it was digging.

41

00:01:28,640 --> 00:01:30,640

It was on the ground.

42

00:01:30,640 --> 00:01:33,640

It was about several people seeing this.

43

00:01:33,640 --> 00:01:39,640

But when this thing landed, before, just before it touched the ground, my head, my head like

44

00:01:39,640 --> 00:01:43,640

something, this is around about 7.30 tonight when this happened.

45

00:01:43,640 --> 00:01:46,640

My head like went out, my car went dead.

46

00:01:46,640 --> 00:01:48,640

I tried to crank it.

47

00:01:48,640 --> 00:01:53,640

And there was one individual that was in the car behind me that got out and ran when he

48

00:01:53,640 --> 00:01:54,640

seen it.

49

00:01:54,640 --> 00:02:00,640

And whatever this was, or whatever it is, like I said, I hear it on television.

50

00:02:00,640 --> 00:02:01,640

I didn't believe it.

51

00:02:01,640 --> 00:02:04,640

But I've seen something tonight.

52

00:02:04,640 --> 00:02:05,640

This will help me God.

53

00:02:05,640 --> 00:02:09,640

I don't want to know a thing as long as I live.

54

00:02:09,640 --> 00:02:13,640

I don't know if somebody may be pulling a trick on our leg, pulling a trick on us.

55

00:02:13,640 --> 00:02:16,640

But I've seen something tonight that looks so real.

56

00:02:16,640 --> 00:02:22,640

I came down here and I tried to tell the laws here, and you parrots, and they kind of half

57

00:02:22,640 --> 00:02:23,640

way laughed at me.

58

00:02:23,640 --> 00:02:25,640

Well, I laughed myself when I seen this.

59

00:02:25,640 --> 00:02:27,640

I mean, before I seen this.

60

00:02:27,640 --> 00:02:31,640

But when I seen this, you know, myself tonight, and I got proof.

61

00:02:31,640 --> 00:02:37,640

Because I've seen, I was the honest person seeing what I've seen tonight.

62

00:02:37,640 --> 00:02:39,640

I'm not going to argue with nobody anymore.

63

00:02:39,640 --> 00:02:41,640

Mr. Patterson, what time was this, man?

64

00:02:41,640 --> 00:02:43,640

It was about 7.30.

65

00:02:43,640 --> 00:02:44,640

At least no later.

66

00:02:44,640 --> 00:02:46,640

There was no later than quarter to eight.

67

00:02:46,640 --> 00:02:48,640

It was around about 7.30 tonight when this happened.

68

00:02:48,640 --> 00:02:49,640

7.30.

69

00:02:49,640 --> 00:02:50,640

On time, way 82.

70

00:02:50,640 --> 00:02:51,640

Right.

71

00:02:51,640 --> 00:02:53,640

It's on the side of you parrots.

72

00:02:53,640 --> 00:02:56,640

Or at Grady Crossin, just above Grady Crossin.

73

00:02:56,640 --> 00:02:58,640

And where is that in relation to you parrots?

74

00:02:58,640 --> 00:03:01,640

It's just west of you parrots.

75

00:03:01,640 --> 00:03:02,640

About how far?

76

00:03:02,640 --> 00:03:07,640

About three or four miles?

77

00:03:07,640 --> 00:03:09,640

About four miles and a half.

78

00:03:09,640 --> 00:03:11,640

Four miles and a half west of you parrots.

79

00:03:11,640 --> 00:03:12,640

Right.

80

00:03:12,640 --> 00:03:17,640

This object that came down, it came down on the center of the highway itself.

81

00:03:17,640 --> 00:03:19,640

Well, it was where it landed.

82

00:03:19,640 --> 00:03:21,640

Where it landed at.

83

00:03:21,640 --> 00:03:24,640

Well, I could see it from the center of it, whatever thing was.

84

00:03:24,640 --> 00:03:28,640

It kind of looked like a head, like a starlight and head.

85

00:03:28,640 --> 00:03:30,640

It was like a starlight and head.

86

00:03:30,640 --> 00:03:32,640

It was like a starlight and head.

87

00:03:32,640 --> 00:03:39,640

Well, it looked more like a purple cough, you know, saucer, but it had it chimed off from the top to the side.

88

00:03:39,640 --> 00:03:41,640

But where it landed, it landed.

89

00:03:41,640 --> 00:03:44,640

Like, it was almost dead center.

90

00:03:44,640 --> 00:03:46,640

That line, it was too high a way.

91

00:03:46,640 --> 00:03:48,640

It wasn't that far off.

92

00:03:48,640 --> 00:03:52,640

Because it was hanging a little bit to the right, coming from west going east.

93

00:03:52,640 --> 00:03:55,640

It was hanging a little bit off the highway.

94

00:03:55,640 --> 00:03:58,640

But it did through the middle of the highway.

95

00:03:58,640 --> 00:04:03,640

It took the whole other side, one side to the other.

96

00:04:03,640 --> 00:04:08,640

Like I said, that thing is about, I said about a hundred yards, it might be not a wide head,

97

00:04:08,640 --> 00:04:10,640

but anyway, we're all way across the highway.

98

00:04:10,640 --> 00:04:13,640

I'm saying, to me, well, I was excited.

99

00:04:13,640 --> 00:04:17,640

To me, it looked like it was a hundred yards wide, but I know it wasn't that wide.

100

00:04:17,640 --> 00:04:21,640

Because it covered one side of the highway to the other, it was hanging off on both sides.

101

00:04:21,640 --> 00:04:24,640

That's off the shoulder, off the side of the two highway.

102

00:04:24,640 --> 00:04:26,640

Was it on legs of any sort?

103

00:04:26,640 --> 00:04:28,640

Did it hover above the ground?

104

00:04:28,640 --> 00:04:29,640

Or did you sit on the ground?

105

00:04:29,640 --> 00:04:31,640

Well, that's kind of funny.

106

00:04:31,640 --> 00:04:36,640

That thing sat, just like I said, like a regular saucer you sit on a table.

107

00:04:36,640 --> 00:04:41,640

And it's got something, globe lights, I don't know if it was legs, but globe lights, you know.

108

00:04:41,640 --> 00:04:44,640

Like, it didn't sit, it sat, it was directed on the highway.

109

00:04:44,640 --> 00:04:48,640

I bet you it was standing over maybe two feet, two or three feet, no legs,

110

00:04:48,640 --> 00:04:50,640

no lower than two or three feet from the highway.

111

00:04:50,640 --> 00:04:54,640

But it had something globin' out like it was standing, but you couldn't see the stand.

112

00:04:54,640 --> 00:04:57,640

Whatever the stand was, you couldn't see the stand.

113

00:04:57,640 --> 00:04:59,640

But it had something globin' out.

114

00:04:59,640 --> 00:05:05,640

Like, I think it was, but did it, well, Burke said it was two legs she seen from the front.

115

00:05:05,640 --> 00:05:07,640

From what we were standing there, we seen two legs.

116

00:05:07,640 --> 00:05:10,640

It looked like it was in a triangle, like it had three legs.

117

00:05:10,640 --> 00:05:11,640

I'm not saying it did.

118

00:05:11,640 --> 00:05:14,640

But it had something, it wasn't no legs, it was something globin'.

119

00:05:14,640 --> 00:05:16,640

You know, it's like a light shining.

120

00:05:16,640 --> 00:05:17,640

That's what it was holding.

121

00:05:17,640 --> 00:05:19,640

Like, you know, like a leg, something like that.

122

00:05:19,640 --> 00:05:23,640

But it was standing a good two or three feet from the ground, you know, from where it was sitting.

123

00:05:23,640 --> 00:05:27,640

Mr. Patterson, to get back to the shape of it once again,

124

00:05:27,640 --> 00:05:30,640

you say that the bottom portion of it was like a coffee cup.

125

00:05:30,640 --> 00:05:31,640

Right.

126

00:05:31,640 --> 00:05:34,640

But then it had something on top of it, kind of dome shape.

127

00:05:34,640 --> 00:05:36,640

Like a hair fall, a bubble.

128

00:05:36,640 --> 00:05:38,640

You know, like a bubble in a shower, something like that.

129

00:05:38,640 --> 00:05:39,640

Yes.

130

00:05:39,640 --> 00:05:41,640

Well, it had a hair fall bubble, that's on the top.

131

00:05:41,640 --> 00:05:46,640

But like, from top of that, top of it looked, you know, like a little bubble.

132

00:05:46,640 --> 00:05:50,640

The top of it looked, you know, it was shaped from the angle, from the top, that cup,

133

00:05:50,640 --> 00:05:54,640

down to the end of the, it was like a round saucer.

134

00:05:54,640 --> 00:05:59,640

Because, you know what I'm saying, it's like that, because it had three different points, it was globin' on it.

135

00:05:59,640 --> 00:06:02,640

But you had about, like I said, ice made about eight lights from the front of you,

136

00:06:02,640 --> 00:06:04,640

when you were standing, that had on it.

137

00:06:04,640 --> 00:06:10,640

It's got little lights, it's kind of blue screen, lights was playing on it, you know,

138

00:06:10,640 --> 00:06:12,640

it's going on and off.

139

00:06:12,640 --> 00:06:17,640

You, from the top of that thing, what he come out of, you know, the thing just opened up.

140

00:06:17,640 --> 00:06:20,640

That, that whatever it was, came out.

141

00:06:20,640 --> 00:06:24,640

Right, right in the top of the, of the bubble portion.

142

00:06:24,640 --> 00:06:26,640

Right, right, right.

143

00:06:26,640 --> 00:06:30,640

Well, when he come out of there, the thing opened up.

144

00:06:30,640 --> 00:06:35,640

He come out of there, like I said, he wiping his head on there, or here, or here, whatever it is, that hit.

145

00:06:35,640 --> 00:06:39,640

Did he come, when he came out of the object, did he come to the ground?

146

00:06:39,640 --> 00:06:43,640

No, he just came out from the top and he rubbed on the side, like, you know, I don't know, like some,

147

00:06:43,640 --> 00:06:48,640

that hit it or something, rubbed on the side, this other one's up over, up over him.

148

00:06:48,640 --> 00:06:52,640

They just put the light down on, it was shining, the other one's globin' like, you know, put the light on,

149

00:06:52,640 --> 00:06:55,640

from the top of the one that landed.

150

00:06:55,640 --> 00:07:01,640

Now this one up above it, well I know it was good 15 or 20 feet, but you can still look at it and tell it,

151

00:07:01,640 --> 00:07:04,640

it was just like the other one, because you know, it had a light glow on it from it.

152

00:07:04,640 --> 00:07:06,640

I don't know what this thing is.

153

00:07:06,640 --> 00:07:11,640

It's from the side of the top, it's got some little arrows sticking out, just about like a,

154

00:07:11,640 --> 00:07:13,640

a satellite.

155

00:07:13,640 --> 00:07:15,640

You know how little things stick out on a satellite?

156

00:07:15,640 --> 00:07:19,640

It just about, it sticks out, it's got some little wire that sticks out on it, just about like that.

157

00:07:19,640 --> 00:07:21,640

Now this is on the object itself, right?

158

00:07:21,640 --> 00:07:22,640

It's on the top.

159

00:07:22,640 --> 00:07:23,640

On the top of it.

160

00:07:23,640 --> 00:07:24,640

Right.

161

00:07:24,640 --> 00:07:26,640

And there were three little things, you say.

162

00:07:26,640 --> 00:07:28,640

Right, you know what I'm talking about?

163

00:07:28,640 --> 00:07:32,640

The antenna, like radar antenna, they're just shaped objects.

164

00:07:32,640 --> 00:07:37,640

Right, this is on the top, and they had some little gadgets, about like a satellite, you know,

165

00:07:37,640 --> 00:07:40,640

the little antennas, like I guess there must be a antenna, but it had some little things like that,

166

00:07:40,640 --> 00:07:42,640

you know, like a radio, ever.

167

00:07:42,640 --> 00:07:45,640

Sticking out with a rubber ball, it all looked like on the top.

168

00:07:45,640 --> 00:07:46,640

I don't know what that stuff was.

169

00:07:46,640 --> 00:07:50,640

I mean, I'm trying to take the best I can, but I might take it.

170

00:07:50,640 --> 00:07:53,640

There were three rods with ball shaped things on top.

171

00:07:53,640 --> 00:07:55,640

Right, something about like that.

172

00:07:55,640 --> 00:08:00,640

Now the creature that came out of the top of it, you say, he came down on the side of it and was wiping it,

173

00:08:00,640 --> 00:08:02,640

but he never came all the way to the ground.

174

00:08:02,640 --> 00:08:06,640

No, he came out, all right, on the top of that thing, it's got a level.

175

00:08:06,640 --> 00:08:08,640

This is about as tall as you know, I'm 5'8".

176

00:08:08,640 --> 00:08:14,640

For me, that thing, from the point of view we were standing from, that thing looked like it was about 6' something.

177

00:08:14,640 --> 00:08:17,640

Maybe 6'3 or 6'4", I'm just saying, maybe.

178

00:08:17,640 --> 00:08:20,640

I can't tell you the truth, I'm not going to try to tell a lie about it.

179

00:08:20,640 --> 00:08:25,640

But whatever it was, it looked like, to me, it looked like I'm just exclamation about maybe 6'2 or 6'3".

180

00:08:26,640 --> 00:08:31,640

But anyway, that thing got out on the side of the road, you know, it had things on like, you know what I'm saying,

181

00:08:31,640 --> 00:08:36,640

you swim in, you know, and got the long feet on like a frog foot, like, but that's what his foot looked like.

182

00:08:36,640 --> 00:08:42,640

He got a body just like a human being, but from what I can say, from waist up, it looked just like a catfish.

183

00:08:43,640 --> 00:08:46,640

You mean a catfish as far as the shape of his mouth?

184

00:08:46,640 --> 00:08:51,640

Well, see, only like, well, from waist up, he looked just about like a catfish.

185

00:08:51,640 --> 00:08:57,640

He got a mouth just as wide as a catfish, whatever that thing was, you know, and because, you know, as he would come out,

186

00:08:57,640 --> 00:08:59,640

his mouth was open up back in the shower.

187

00:08:59,640 --> 00:09:07,640

Now, like I said, I got proof that he was talking about, look at his mouth, look at his mouth, he was open, you know,

188

00:09:07,640 --> 00:09:13,640

just open, closed, open, closed, just about like I'm saying, open, closed.

189

00:09:13,640 --> 00:09:15,640

That was why he was rubbing on the side.

190

00:09:15,640 --> 00:09:18,640

And this other one, like I said, was up above it.

191

00:09:18,640 --> 00:09:20,640

And it must have put the light on.

192

00:09:20,640 --> 00:09:25,640

I keep real up that this thing got in there and it got up so high, my headlights came back on in my car.

193

00:09:26,640 --> 00:09:29,640

And I just took off and then we fangwished.

194

00:09:29,640 --> 00:09:32,640

My lights come back on, I cut the start on, and my car cut up.

195

00:09:32,640 --> 00:09:35,640

But they had two arms, two legs?

196

00:09:36,640 --> 00:09:38,640

Let me tell you something.

197

00:09:38,640 --> 00:09:40,640

I'm going to tell you something, you may think I'm lying.

198

00:09:41,640 --> 00:09:47,640

Whatever that thing was, it had like, waist up, it had a body like I said, from a catfish.

199

00:09:47,640 --> 00:09:51,640

But that thing had something behind him, I don't know, I can't even describe it.

200

00:09:51,640 --> 00:09:53,640

I can't pronounce it.

201

00:09:55,640 --> 00:10:00,640

I made a good draw because I don't know, I don't know what it is, but it got something behind it.

202

00:10:00,640 --> 00:10:03,640

Right behind his back, I don't know what it is.

203

00:10:03,640 --> 00:10:06,640

So here's what I don't know, I can't describe it.

204

00:10:06,640 --> 00:10:12,640

This got something that, well, I'm going to be like I said, I don't know what it is, but it got something behind its back.

205

00:10:12,640 --> 00:10:14,640

I can't describe it.

206

00:10:14,640 --> 00:10:21,640

I don't know what to name it, what to call it, what to give it something that I can identify it to.

207

00:10:21,640 --> 00:10:24,640

Was it like something he was carrying on his back?

208

00:10:25,640 --> 00:10:35,640

No, it was a, it was something in his back when he hopped over.

209

00:10:37,640 --> 00:10:39,640

Let me see, let me try this thing.

210

00:10:39,640 --> 00:10:49,640

I don't know, like I said, I can't even think, I've been trying all night to try to think, what kind of object, you know, I could, something I can similar to, but it was something on his back, it was kind of, I'll tell you what,

211

00:10:49,640 --> 00:11:04,640

whatever was on his back when he turned, it could be like a V, but it closed up, you know, like as he moved it, it would close up, you know, kind of like a feather, like two feathers together, something like that.

212

00:11:05,640 --> 00:11:17,640

I haven't seen that, that's the best I could say, I might be stealing on, but anyway, as it moved, some things on the back would close up, you know, I don't know what it was, I'm gonna be friendly with you, I can't describe it to you.

213

00:11:19,640 --> 00:11:26,640

Like I said, all I can do is get the people to help, to see the same thing I've seen to help you, maybe they can just, just try a little bit better than I can.

214

00:11:27,640 --> 00:11:38,640

I try to catch all I can, but I don't know what, like I said, I've seen something tonight, I hope I never see, forgot me God, as long as I live.

215

00:11:38,640 --> 00:11:46,640

Describing the creature once again, it did have two legs, its feet appeared as if it had flippers on it, is that right?

216

00:11:46,640 --> 00:11:52,640

I'll tell you what, between his legs, he got something like, you ever seen a flying squirrel?

217

00:11:52,640 --> 00:11:53,640

Yes.

218

00:11:53,640 --> 00:12:07,640

Well it's kind of something to a flying squirrel, it's got something between his legs, but you can see the print, you know, on his legs, as he walks, but his foot's just like these things, you swim on a wire, you know, you put on, you go skin down, that's where his foot's look.

219

00:12:08,640 --> 00:12:20,640

His hand looks just like a, see him on a fish, or a seal, you know, a seal front hand, that's just the way his hand looks, but it looks like a human arm, and it goes down so further than the other part, it looks just like a film.

220

00:12:20,640 --> 00:12:31,640

Now you know, they kind of like, flop it like, they kind of wave it like, maybe, I don't know how many things, they kind of like, but it's kind of waving like, you know, like as he was moving.

221

00:12:32,640 --> 00:12:44,640

The object, the creature which was on the side, you know, of the object which you saw set down, that you said was going over it, is that he was looking, you know, way, putting his hands on it.

222

00:12:44,640 --> 00:12:50,640

How, how was he suspended? How did he stay under the ground? Were there steps or ladders or?

223

00:12:51,640 --> 00:13:00,640

Well, it's a little thing around that, that I kept through wherever he was going. It's a little thing around, just like a walk around bar.

224

00:13:01,640 --> 00:13:07,640

We got out at just what I'm like, but I mean, now what would you say?

225

00:13:07,640 --> 00:13:11,640

You know, he doesn't hear about it, now they all ask me questions.

226

00:13:12,640 --> 00:13:14,640

You were explaining how he stayed on the side of the object.

227

00:13:15,640 --> 00:13:20,640

You know, just like, that's going to be all around the side, I guess something like that.

228

00:13:21,640 --> 00:13:33,640

But anyway, he was between one of the lights, that's the one he was feeling, and this one really was shocked me when he filmed, and he just held his head up, so it was like looking up.

229

00:13:33,640 --> 00:13:37,640

That's when I told you I know what he looked like to me, he looked like a catfish, and what he stuck.

230

00:13:38,640 --> 00:13:49,640

And he saw the capsule, I don't know what it did, it didn't move to me, he got back in it, he started up, he saw the capsule moved up, and he got up behind the other one, and they just took off.

231

00:13:50,640 --> 00:13:52,640

And that's when my headlights come on, and I took off too.

232

00:13:53,640 --> 00:13:57,640

You said the other capsule, what do you mean by capsule?

233

00:13:58,640 --> 00:14:00,640

It was another one, just like it, just up, it didn't, it didn't.

234

00:14:00,640 --> 00:14:03,640

There was one that landed, and then there was another that stayed in the air.

235

00:14:04,640 --> 00:14:07,640

Right, the other one, like I said, the other one looked like the one that was shining light down on him.

236

00:14:08,640 --> 00:14:11,640

So one creature came out of the one that landed then.

237

00:14:12,640 --> 00:14:13,640

Right.

238

00:14:14,640 --> 00:14:15,640

And you could see another one of these creatures in the one that was up in the air.

239

00:14:16,640 --> 00:14:19,640

No, I seen the same thing, the same thing that landed, I seen another one up above that one.

240

00:14:20,640 --> 00:14:21,640

You only saw one creature though.

241

00:14:22,640 --> 00:14:24,640

Right, I don't know if it was a creature or whatever you call it.

242

00:14:25,640 --> 00:14:29,640

Whatever it was, it was only one of them, it was the one that stood in the air.

243

00:14:30,640 --> 00:14:31,640

How high up was he?

244

00:14:34,640 --> 00:14:36,640

About how tall is two light posts, the average tall is two light posts.

245

00:14:37,640 --> 00:14:41,640

I guess most light posts are about 30 feet, so it would be about 60 feet.

246

00:14:42,640 --> 00:14:44,640

Right, well it was about two light posts, it was high up.

247

00:14:45,640 --> 00:14:49,640

Mr. Patterson, how close were you, how far away did all this take place?

248

00:14:50,640 --> 00:14:54,640

When this took place, let me see, I can show you exactly where the place is at, and I know a little bit about yards.

249

00:14:55,640 --> 00:14:56,640

I bet you I wasn't going to want a hundred yards from it.

250

00:14:56,640 --> 00:15:01,640

Because he, my car cut off a little before then, but it closed.

251

00:15:02,640 --> 00:15:05,640

And when I seen this, whatever this thing was, that's when I hit on brakes.

252

00:15:06,640 --> 00:15:08,640

And I bet you I want no more than a hundred yards from it.

253

00:15:09,640 --> 00:15:10,640

No, no, no more than a hundred yards from it.

254

00:15:11,640 --> 00:15:12,640

You see the problem.

255

00:15:13,640 --> 00:15:16,640

The problem behind me was about two or three, four feet from me.

256

00:15:17,640 --> 00:15:21,640

That's why I said I got proof that people, about seven of us in all, have seen this.

257

00:15:22,640 --> 00:15:24,640

We've seen this, wherever it was, we've seen it.

258

00:15:24,640 --> 00:15:27,640

Suppose the cars that came pulled up behind you and stopped.

259

00:15:28,640 --> 00:15:33,640

Right, it was fighting Falkham, about a seventy, six now, sixty eight ones.

260

00:15:34,640 --> 00:15:36,640

Do you know the names of any of the other people that came up behind you?

261

00:15:37,640 --> 00:15:38,640

Right.

262

00:15:39,640 --> 00:15:40,640

Could you give me them please?

263

00:15:41,640 --> 00:15:42,640

Limmy Nolan.

264

00:15:43,640 --> 00:15:44,640

Who is that now?

265

00:15:45,640 --> 00:15:46,640

Limmy Nolan.

266

00:15:47,640 --> 00:15:48,640

Limmy Sutherland.

267

00:15:49,640 --> 00:15:50,640

Sutherland.

268

00:15:51,640 --> 00:15:52,640

Bert.

269

00:15:52,640 --> 00:15:53,640

Bangham.

270

00:15:54,640 --> 00:15:55,640

Right.

271

00:15:56,640 --> 00:15:57,640

Jack Oaks.

272

00:15:59,640 --> 00:16:00,640

Okay, Jack Oaks.

273

00:16:01,640 --> 00:16:02,640

Milton Sullivan.

274

00:16:03,640 --> 00:16:04,640

Milton Sullivan.

275

00:16:05,640 --> 00:16:06,640

And, uh, Maddie Patterson.

276

00:16:08,640 --> 00:16:09,640

Maddie Patterson.

277

00:16:10,640 --> 00:16:11,640

Lurine Peyton.

278

00:16:12,640 --> 00:16:13,640

That last one again?

279

00:16:14,640 --> 00:16:15,640

Lurine Peyton.

280

00:16:16,640 --> 00:16:17,640

Lurine Peyton.

281

00:16:18,640 --> 00:16:20,640

Do all of these people live in Newport?

282

00:16:20,640 --> 00:16:21,640

Right.

283

00:16:22,640 --> 00:16:27,640

On the other side of this object down the highway, were any cars approaching from that direction?

284

00:16:28,640 --> 00:16:29,640

I'm going to take you.

285

00:16:30,640 --> 00:16:32,640

It was a car that started behind me, it was coming over the hill.

286

00:16:33,640 --> 00:16:37,640

But I don't know who it was, but they turned around and they booked up on who it was.

287

00:16:38,640 --> 00:16:41,640

I just see it was like I was like, I say I was way up under the hill.

288

00:16:42,640 --> 00:16:45,640

This car topped the hill and it must have seemed to obviously this and that old boy was,

289

00:16:46,640 --> 00:16:48,640

I guess it was the top of the hill and seen the one with land at the hit the turn around.

290

00:16:48,640 --> 00:16:51,640

Who it was just turn around and kept going, turn around and went back to the way.

291

00:16:52,640 --> 00:16:56,640

I don't know who it is, he might have called, he didn't say the same thing, I'm saying no.

292

00:16:57,640 --> 00:17:02,640

But whoever it was, you know, like it was a plight of ways, but he must have seen the one at the top of the hill.

293

00:17:03,640 --> 00:17:05,640

You know, the one was up in there on the top of the hill.

294

00:17:06,640 --> 00:17:11,640

He seen it, I didn't see the one that had me blocked off, that car turned around for them, but that car never to go dead.

295

00:17:12,640 --> 00:17:13,640

He turned around and went back to the way.

296

00:17:14,640 --> 00:17:16,640

I don't know what car the car was on, who it was.

297

00:17:16,640 --> 00:17:19,640

What did the objects appear to be made of, Mr. Bacchuson?

298

00:17:20,640 --> 00:17:22,640

What do you mean by like the capsule or?

299

00:17:23,640 --> 00:17:24,640

Yes, I know.

300

00:17:25,640 --> 00:17:31,640

I'm going to be frank with you, that thing was like to me, it was made of just like a regular spaceship.

301

00:17:32,640 --> 00:17:37,640

You know, like on television, this old job on television, it looked just about like that to me in a way.

302

00:17:38,640 --> 00:17:45,640

But I take that back, that thing looked about like a spider web, like Walls had honeycomb and spider web.

303

00:17:46,640 --> 00:17:48,640

I'm going to be frank, that thing looked just funny.

304

00:17:51,640 --> 00:17:53,640

Whatever it was, that's where, look I take it back.

305

00:17:54,640 --> 00:18:01,640

But you know, I guess a person, you know, you can think, you see something in person, you think about all those justice, you don't tell him, but I take that back.

306

00:18:02,640 --> 00:18:10,640

That thing looked just about like a spider web, you know, had a web, a spider web to make a web, a web, but a honey, you know, like a beehive, put honey over it.

307

00:18:11,640 --> 00:18:13,640

That's where that thing looked like a counterweight maze.

308

00:18:13,640 --> 00:18:18,640

I'm talking crazy to you, but I can't talk no better, but that's just about way to that thing, it was like a maze.

309

00:18:19,640 --> 00:18:24,640

See what I'm saying to you, it had, it had a streak, it looked like a spider web, it had a make of streak, it was building a trap.

310

00:18:25,640 --> 00:18:32,640

But the way that thing really was made, it had corners cut, like you know, beehive, making honey and stuff.

311

00:18:33,640 --> 00:18:34,640

You know what I'm talking about?

312

00:18:35,640 --> 00:18:36,640

Can you understand what I'm saying?

313

00:18:37,640 --> 00:18:38,640

I believe so.

314

00:18:38,640 --> 00:18:39,640

It looked like a honey hide.

315

00:18:41,640 --> 00:18:48,640

That's the way that thing looked like a honey hide, but you know, like a spider maze web, what you call it.

316

00:18:49,640 --> 00:18:50,640

Could you see through any part of it?

317

00:18:51,640 --> 00:18:55,640

Well, the way it was glowed, it looked like you could see through the whole thing, but you couldn't.

318

00:18:56,640 --> 00:18:59,640

But it's got a glow that I've never seen in my life.

319

00:19:00,640 --> 00:19:01,640

I don't think nobody else seen nothing like that.

320

00:19:03,640 --> 00:19:05,640

Were the individual lights or was the whole object glowing?

321

00:19:05,640 --> 00:19:06,640

No, they weren't.

322

00:19:07,640 --> 00:19:09,640

Some kind of lights, kind of like they want to come ahead where you are.

323

00:19:10,640 --> 00:19:11,640

I'll track you, you know.

324

00:19:12,640 --> 00:19:18,640

No, if there was a type of light that you can just look at and look like you couldn't get your man off of looking at them.

325

00:19:19,640 --> 00:19:21,640

Did they, could you see the same brightness or did the brightness vary?

326

00:19:22,640 --> 00:19:31,640

They had the same brightness, but they had different flowers like, you know, like when they're blinking, they had some different, like I said, to me it looked like a dark green, a greenish blue.

327

00:19:31,640 --> 00:19:35,640

It was flashing, a greenish blue, a greenish blue, a greenish blue.

328

00:19:36,640 --> 00:19:37,640

That's the way it looked like it was flashing.

329

00:19:38,640 --> 00:19:40,640

It was going about, just about like that.

330

00:19:41,640 --> 00:19:42,640

Were there any other colors now?

331

00:19:43,640 --> 00:19:44,640

That's all I see was greenish blue.

332

00:19:45,640 --> 00:19:50,640

That thing, the head, like I said, looked like to me, I'm not seeing in the head one eye.

333

00:19:51,640 --> 00:19:58,640

Like I said, I'm not looking directly at that thing, whatever that thing was, looked like it had one eye in the head, you know, or here, whatever it was.

334

00:19:58,640 --> 00:20:00,640

But it was a globe.

335

00:20:01,640 --> 00:20:07,640

Now I'm not talking like, oh, I hear some people talking about, but about looking directly at that thing, it's got a globe.

336

00:20:08,640 --> 00:20:16,640

You know, by looking at it, you know, like you can look just like a look at a light, you know, how, you know, in the red car, how you can look at it long enough to look like it forms something, right?

337

00:20:17,640 --> 00:20:22,640

But by looking at that thing, part enough to look like it's got a one big, big eye right in the center of the head.

338

00:20:22,640 --> 00:20:29,640

But it's a globe. That thing shines, whatever that thing, eye, whatever it is, shines, like a flashlight.

339

00:20:30,640 --> 00:20:31,640

Is this on the creatures themselves?

340

00:20:32,640 --> 00:20:33,640

Right, that's on the creatures.

341

00:20:34,640 --> 00:20:36,640

This is the thing right up in that creature's head, whatever that thing is.

342

00:20:37,640 --> 00:20:39,640

It glows, and it kind of, you know, shines, you know.

343

00:20:40,640 --> 00:20:44,640

Did the creatures appear to be wearing clothes or uniform?

344

00:20:45,640 --> 00:20:51,640

No, it was gray, like a fishkeller's head. It's got on like a fish, like, it was kind of greenish, a skeleton.

345

00:20:52,640 --> 00:20:53,640

Just a tight skin is on it, yeah.

346

00:20:54,640 --> 00:20:55,640

Right.

347

00:20:57,640 --> 00:21:00,640

Now, other than that, I don't, like I said, that's where it looked to me.

348

00:21:01,640 --> 00:21:11,640

Now, when they took off, how fast did it go up, and did they then disappear? Did they go up into the distance, or did the lights go off, or what happened?

349

00:21:12,640 --> 00:21:21,640

That thing went up a lot. I'm just saying, like, if I just got in a service, March, and I, you know, I flew to Vietnam, you know, with choppers, no gunners, you know.

350

00:21:22,640 --> 00:21:27,640

That thing went up just like a heria. That other one went up, the other one right up behind. That thing went up just like a heria.

351

00:21:28,640 --> 00:21:33,640

It got up so far, and it never often just went out. But you know what? That's how I run.

352

00:21:34,640 --> 00:21:36,640

They had some of the funnest sound I ever heard in my life.

353

00:21:37,640 --> 00:21:41,640

They go, weel, weel, weel, weel, weel, weel, just like that. That's the way they were sounding.

354

00:21:43,640 --> 00:21:46,640

That, in the land, was sounding the same way. But it got up so high, you could still hear the sound.

355

00:21:46,640 --> 00:21:53,640

It was a playing, go weel, weel, and it got up so high that you could hear it, right there, going away. You could hear it. Have you ever heard a sound like that before?

356

00:21:54,640 --> 00:21:55,640

No, I haven't.

357

00:21:56,640 --> 00:21:59,640

Well, that's just the way we're going. Weel, weel, weel, stuff like that, you know.

358

00:22:00,640 --> 00:22:03,640

Could you tell if I was propelling the object with any sound of a jet, or?

359

00:22:04,640 --> 00:22:08,640

No. You wouldn't believe it. Like I'm saying, you may not believe nothing I'm telling you now.

360

00:22:09,640 --> 00:22:15,640

But that thing looked like to me, it just released some gravity and took off, like I said, all you

could hear, weel, weel, weel.

361

00:22:16,640 --> 00:22:22,640

And it made no sound. No more understood, weel, weel, weel, weel, weel.

362

00:22:23,640 --> 00:22:25,640

Now, what if it was on the ground? Did you hear any sound then?

363

00:22:26,640 --> 00:22:28,640

Right, it was going the same way when it was on the ground.

364

00:22:29,640 --> 00:22:32,640

Could you tell if there was one on the ground making them sound, or was it the one up in the air that was making them sound?

365

00:22:33,640 --> 00:22:36,640

Well, you could hear it from that on the ground, closer than that up in there.

366

00:22:36,640 --> 00:22:41,640

But that on the ground, you could hear it from it good. While it was sitting still, you could hear it from that one.

367

00:22:43,640 --> 00:22:47,640

What you can, well, you can actually hear it from both of them, but that on the ground, you can hear it closer, you know.

368

00:22:48,640 --> 00:22:54,640

When it was taking off, did the lights vary? Did they get any brighter, any dimmer, any additional lights?

369

00:22:55,640 --> 00:22:56,640

No, it was just the same way.

370

00:22:58,640 --> 00:23:04,640

But after they get so fucked up in the sky, they get so high up in the sky, well, after we, I watched it, after it got so fucked up in the sky,

371

00:23:05,640 --> 00:23:10,640

you know, it kind of like showed a bluish red, you know, a bluish red, you know, like a globus red.

372

00:23:11,640 --> 00:23:14,640

That's what they show so late. But they didn't get that high.

373

00:23:16,640 --> 00:23:19,640

I guess that's why I hold out the people that I really call the Alphaz Bay. They didn't get too high.

374

00:23:21,640 --> 00:23:22,640

But let me see.

375

00:23:23,640 --> 00:23:25,640

When it left, which way, when it disappeared, which way was it going?

376

00:23:26,640 --> 00:23:27,640

82 hours ago, east and west, right.

377

00:23:28,640 --> 00:23:31,640

It landed up, it was head east.

378

00:23:32,640 --> 00:23:36,640

Well, let's, if you don't mind, I'd like to review one more time. It's a partisan.

379

00:23:37,640 --> 00:23:41,640

The shape of the crab was saucer shaped with a dome on the top of it.

380

00:23:42,640 --> 00:23:45,640

It's like a blue, like a bubble, I mean, in a bathtub, a half of a bubble.

381

00:23:46,640 --> 00:23:48,640

Now, did the bubble come all the way to the edge of the saucer?

382

00:23:49,640 --> 00:23:51,640

All the way to the edge is like, I can say, the cup like.

383

00:23:52,640 --> 00:23:53,640

Like a, like a, like a, like a...

384

00:23:54,640 --> 00:23:59,640

It had an angle from the top of that cup down to the end of like a saucer and a pour.

385

00:23:59,640 --> 00:24:03,640

So what I mean, you got a two double stack where it'll be.

386

00:24:04,640 --> 00:24:07,640

If I had, if you was here, I can, I can throw a little bit.

387

00:24:08,640 --> 00:24:09,640

I could show you by what it was like.

388

00:24:10,640 --> 00:24:12,640

But the bottom of it was saucer shaped.

389

00:24:13,640 --> 00:24:17,640

And the saucer sitting like a, you know, sitting on the table, you know, slightly rounded at the bottom.

390

00:24:18,640 --> 00:24:19,640

Right.

391

00:24:20,640 --> 00:24:22,640

And then the top part of it, was it, was it like another saucer inverted on it?

392

00:24:23,640 --> 00:24:25,640

It was like a cup set in a saucer, but it was angle off.

393

00:24:25,640 --> 00:24:28,640

But it had that little, like I said, a bubble on top of it.

394

00:24:29,640 --> 00:24:32,640

It's like a, you know, like you, like a bubble in a mouth to a big bubble.

395

00:24:33,640 --> 00:24:34,640

That's the way it was on top of that thing.

396

00:24:35,640 --> 00:24:38,640

That's the one that opened up when that thing, whatever it was, come out of there.

397

00:24:39,640 --> 00:24:48,640

Mr. Patterson, as best you could, would you draw me a picture or a sketch and take my address down and drop it in the mail to me?

398

00:24:49,640 --> 00:24:50,640

Yes, I'll be sent to you.

399

00:24:51,640 --> 00:24:52,640

All righty. Do you have a pencil? Can you take my address?

400

00:24:53,640 --> 00:24:54,640

Yes, sir.

401

00:24:56,640 --> 00:24:59,640

The object which stayed up in the air was shining a light down.

402

00:25:00,640 --> 00:25:01,640

Right. The one on the ground.

403

00:25:02,640 --> 00:25:04,640

Where did this light, where did it come from?

404

00:25:05,640 --> 00:25:08,640

It looked like it was in the center of the bottom of that thing.

405

00:25:09,640 --> 00:25:12,640

It had a big light that was shining directly down at it.

406

00:25:13,640 --> 00:25:15,640

The one was sitting down, it was shining directly down on it.

407

00:25:16,640 --> 00:25:17,640

What color was that light?

408

00:25:18,640 --> 00:25:21,640

It's like a regular big hit light on the car, real bright light. It was real bright.

409

00:25:21,640 --> 00:25:28,640

It really, like I swear, I identified the thing whatever water was being, it was good.

410

00:25:29,640 --> 00:25:32,640

It was bright enough, it was up high enough to stand right over, directly over the top of that thing.

411

00:25:33,640 --> 00:25:34,640

And it really showed that thing off.

412

00:25:35,640 --> 00:25:38,640

I think I asked you before, but I don't remember what you said.

413

00:25:39,640 --> 00:25:41,640

And when they disappeared, what direction were they going?

414

00:25:42,640 --> 00:25:44,640

They were like, all right. 82 run east and west, right?

415

00:25:45,640 --> 00:25:47,640

Well, it was here at east. It was here at east of 82.

416

00:25:47,640 --> 00:25:52,640

Well, Mr. Patterson, I appreciate you giving me this information more than you know.

417

00:25:53,640 --> 00:25:56,640

And my name and address, my name is Jack King.

418

00:25:57,640 --> 00:25:59,640

Jack King, K-I-N-J.

419

00:26:02,640 --> 00:26:03,640

All right.

420

00:26:04,640 --> 00:26:05,640

Radio station W-R-O-B.

421

00:26:08,640 --> 00:26:13,640

Mr. Patterson, this conversation that I've been having with you here, I have been tape recording.

422

00:26:13,640 --> 00:26:16,640

Do you have any objection that I broadcasted on the radio?

423

00:26:17,640 --> 00:26:18,640

No.

424

00:26:19,640 --> 00:26:21,640

I just hope that I said it to the best of my knowledge.

425

00:26:22,640 --> 00:26:26,640

Well, I think you've done a very good job and you described it very well.

426

00:26:27,640 --> 00:26:29,640

I just hope that you've used the word of people, maybe they could have helped me out better.

427

00:26:30,640 --> 00:26:34,640

But I think I said it by the best, I think I had a better career than any of them did.

428

00:26:35,640 --> 00:26:39,640

Like I said, I just recently came to Vietnam, like in last March.

429

00:26:39,640 --> 00:26:45,640

You know, I think I explained it to you better than they could.

430

00:26:46,640 --> 00:26:51,640

And then I made a few errors, but you know, a few things that I didn't exactly explain it to you correctly,

431

00:26:52,640 --> 00:26:54,640

that they could have did, you know, that they could have seen.

432

00:26:55,640 --> 00:26:57,640

Something that they could have seen, you know, you know, helped me out better.

433

00:26:58,640 --> 00:27:00,640

Have you ever seen the shop top? What's the name?

434

00:27:01,640 --> 00:27:03,640

Have you ever seen any undisidentified flying objects before?

435

00:27:04,640 --> 00:27:05,640

Nothing like this.

436

00:27:05,640 --> 00:27:10,640

I think I think I'm doing a little weather something, you know, that's through Mississippi.

437

00:27:11,640 --> 00:27:15,640

And this kind of shocked me. Everything is all this junk is coming through our.

438

00:27:16,640 --> 00:27:19,640

Coming through the Gulf of Mississippi.

439

00:27:20,640 --> 00:27:21,640

That's got that's why I didn't believe it.

440

00:27:22,640 --> 00:27:26,640

You know, I can say all this job is coming through from the Gulf of Mississippi.

441

00:27:27,640 --> 00:27:28,640

Were you raised near your farm?

442

00:27:29,640 --> 00:27:30,640

Right.

443

00:27:31,640 --> 00:27:32,640

And how old are you now, Mr. Patterson?

444

00:27:33,640 --> 00:27:34,640

26.

445

00:27:34,640 --> 00:27:35,640

I got wife, two kids.

446

00:27:36,640 --> 00:27:39,640

Well, Mr. Patterson, if you will send me those drawings, I'll appreciate it.

447

00:27:40,640 --> 00:27:42,640

And if you think of anything else, if you'll give me a call.
