

1

00:00:00,000 --> 00:00:11,240

The following tape recording was made December 5, 1957 and includes an interview with gentlemen

2

00:00:11,240 --> 00:00:15,520

who witnessed an unidentified flying object.

3

00:00:15,520 --> 00:00:18,520

At this time I'll ask the gentlemen to introduce themselves.

4

00:00:18,520 --> 00:00:22,520

Well, Donald, I'm talking to the Detroit UFO Research Group.

5

00:00:22,520 --> 00:00:24,520

Howdy, same thing.

6

00:00:24,520 --> 00:00:27,520

Al Rowe, Detroit UFO Research Group.

7

00:00:28,040 --> 00:00:32,040

Al Rowe, 696 West Maple, Higley Mission.

8

00:00:34,040 --> 00:00:38,040

What was the locality of your observation line?

9

00:00:38,040 --> 00:00:45,040

Approximately 7 miles southwest of Higley on F-34.

10

00:00:45,040 --> 00:00:51,040

Would you love to carry this crap to the weather station at the time?

11

00:00:51,040 --> 00:00:55,040

Well, it was a real dark night.

12

00:00:55,040 --> 00:01:00,040

Matter of fact, there were not any stars at the other probably.

13

00:01:00,040 --> 00:01:05,040

Weather conditions, dry, no rain.

14

00:01:05,040 --> 00:01:08,040

After the wind I couldn't be too sure of that.

15

00:01:08,040 --> 00:01:10,040

Well, what time is it?

16

00:01:10,040 --> 00:01:17,040

The fire ground is frankly that would have been around between 7.30 to 8 o'clock at night.

17

00:01:17,040 --> 00:01:19,040

Would you give us some of your background?

18

00:01:19,040 --> 00:01:24,040

That is your observation, your placement of climate.

19

00:01:24,040 --> 00:01:26,040

How did you get this name?

20

00:01:26,040 --> 00:01:28,040

I'm a driver.

21

00:01:28,040 --> 00:01:32,040

And what about your education?

22

00:01:32,040 --> 00:01:34,040

Backgrounds of that type.

23

00:01:34,040 --> 00:01:36,040

10 years.

24

00:01:36,040 --> 00:01:38,040

Were you running the air poultry service?

25

00:01:38,040 --> 00:01:40,040

No, I wasn't.

26

00:01:40,040 --> 00:01:44,040

How long did you see the object?

27

00:01:44,040 --> 00:01:48,040

We had the object in sight approximately 2 hours.

28

00:01:48,040 --> 00:01:50,040

You were taking a little bit.

29

00:01:50,040 --> 00:01:52,040

And when you say we, how long?

30

00:01:52,040 --> 00:01:55,040

Who else along with you at the time was the object?

31

00:01:55,040 --> 00:01:58,040

Oh, the famous Deputy Earl Smith.

32

00:01:58,040 --> 00:02:00,040

You left my gun in search of her.

33

00:02:00,040 --> 00:02:03,040

Or I shouldn't say I left her there.

34

00:02:03,040 --> 00:02:07,040

And you witnessed this object flying over in the control car?

35

00:02:07,040 --> 00:02:09,040

That's right.

36

00:02:09,040 --> 00:02:11,040

Was there only one object?

37

00:02:11,040 --> 00:02:13,040

One object.

38

00:02:13,040 --> 00:02:22,040

And how did you have your first, how did your attention go on to the object?

39

00:02:22,040 --> 00:02:27,040

Well, you were traveling west on M34.

40

00:02:27,040 --> 00:02:33,040

You make a sharp left turn, going straight south.

41

00:02:33,040 --> 00:02:39,040

I looked up the window and I noticed something red hanging there.

42

00:02:39,040 --> 00:02:43,040

Or in the sky and I didn't pay too much attention to it at first.

43

00:02:43,040 --> 00:02:45,040

And I looked again.

44

00:02:45,040 --> 00:02:47,040

I had Deputy Smith.

45

00:02:47,040 --> 00:02:50,040

Just what the heck is that over there?

46

00:02:50,040 --> 00:02:52,040

He looked and said, what?

47

00:02:52,040 --> 00:02:55,040

It looks like a reflection in the windshield.

48

00:02:55,040 --> 00:02:57,040

Well, it had to be reflecting out here.

49

00:02:57,040 --> 00:02:59,040

It's not a reflection.

50

00:02:59,040 --> 00:03:01,040

He says, you're right.

51

00:03:01,040 --> 00:03:03,040

He looked a little bit more.

52

00:03:03,040 --> 00:03:05,040

He says, guys, I don't know why you should have started there.

53

00:03:05,040 --> 00:03:07,040

I don't think so.

54

00:03:07,040 --> 00:03:11,040

We didn't stop the control car and got off.

55

00:03:11,040 --> 00:03:19,040

It was a German object that appeared to us to be just old maybe dumbest.

56

00:03:19,040 --> 00:03:22,040

Oh, make the ice and freeze.

57

00:03:22,040 --> 00:03:28,040

And we, a German object that raised sort of on the first position.

58

00:03:28,040 --> 00:03:33,040

And then started away and sort of out of the, well, the icy at that time.

59

00:03:33,040 --> 00:03:37,040

The guy was going to solve what's the direction.

60

00:03:37,040 --> 00:03:42,040

We weren't sure what you would see.

61

00:03:42,040 --> 00:03:44,040

Contacted the lesson.

62

00:03:44,040 --> 00:03:46,040

He's the person that had confirmed.

63

00:03:46,040 --> 00:03:49,040

And they also will spot the object.

64

00:03:49,040 --> 00:03:57,040

And at that time they told us that it was cutting back north and then coming back east.

65

00:03:57,040 --> 00:04:00,040

At that time there was another control car about that.

66

00:04:00,040 --> 00:04:03,040

I went to Gordon, went.

67

00:04:03,040 --> 00:04:05,040

They came up also.

68

00:04:05,040 --> 00:04:06,040

Yeah.

69

00:04:06,040 --> 00:04:09,040

And then we could follow it out of the eastern northeast direction.

70

00:04:09,040 --> 00:04:14,040

Yeah, I believe you said earlier that decided it was quite bright.

71

00:04:14,040 --> 00:04:20,040

And you said it was about seeing a star fall off.

72

00:04:20,040 --> 00:04:22,040

That is at the end.

73

00:04:22,040 --> 00:04:24,040

That's when we stopped watching it.

74

00:04:24,040 --> 00:04:26,040

It looked like a bright star.

75

00:04:26,040 --> 00:04:27,040

I see.

76

00:04:27,040 --> 00:04:34,040

When I was close to the ground, however, and you were able to get a very close look at it.

77

00:04:34,040 --> 00:04:37,040

It also appeared at that time to be a bright light.

78

00:04:37,040 --> 00:04:41,040

Were you able to see what he doesn't outline?

79

00:04:41,040 --> 00:04:43,040

You couldn't distinguish any outline.

80

00:04:43,040 --> 00:04:49,040

Just a from a bright red light around the circular light.

81

00:04:49,040 --> 00:04:50,040

Did it?

82

00:04:50,040 --> 00:04:52,040

I mean, the full way.

83

00:04:52,040 --> 00:04:53,040

Yeah.

84

00:04:53,040 --> 00:04:56,040

Did you also mention that it changed color or did it?

85

00:04:56,040 --> 00:04:57,040

No, I didn't.

86

00:04:57,040 --> 00:04:59,040

But it did change.

87

00:04:59,040 --> 00:05:04,040

I mean, red and it changed to white and then blue or blue is green.

88

00:05:04,040 --> 00:05:10,040

And we get notices it came back in the northeast direction.

89

00:05:10,040 --> 00:05:16,040

Then it was leaving a sort of a reddish cloud.

90

00:05:16,040 --> 00:05:21,040

Like sometimes you grab a sun ray or a light bulb or what you would call it.

91

00:05:21,040 --> 00:05:22,040

Yeah.

92

00:05:22,040 --> 00:05:24,040

It made a reddish cast in the sky.

93

00:05:24,040 --> 00:05:27,040

Now what about the new revolving of the object?

94

00:05:27,040 --> 00:05:32,040

Was it traveling slower or did it change its speed at any time, direction, that sort of thing?

95

00:05:32,040 --> 00:05:36,040

No, it seemed to be a pretty steady speed to me.

96

00:05:36,040 --> 00:05:39,040

You didn't notice that it doesn't drop anything?

97

00:05:39,040 --> 00:05:40,040

No.

98

00:05:40,040 --> 00:05:41,040

Oh, it did.

99

00:05:41,040 --> 00:05:43,040

Changed shape at all?

100

00:05:43,040 --> 00:05:44,040

No.

101

00:05:44,040 --> 00:05:48,040

The only thing you could see was the color.

102

00:05:48,040 --> 00:05:49,040

That's right.

103

00:05:49,040 --> 00:05:56,040

Did this object at any time cast as a frontal or behind it anything which might give you

104

00:05:56,040 --> 00:06:00,040

some idea or a comparison of signs?

105

00:06:00,040 --> 00:06:01,040

No.

106

00:06:01,040 --> 00:06:02,040

I see.

107

00:06:02,040 --> 00:06:07,040

Couldn't I have had an inlubrige to build in the streets, that sort of thing?

108

00:06:07,040 --> 00:06:08,040

No.

109

00:06:08,040 --> 00:06:13,040

You were sure of this could not have done it.

110

00:06:13,040 --> 00:06:18,040

A water hose or a hand type of known vehicle.

111

00:06:18,040 --> 00:06:20,040

No, I can't be sure of that.

112

00:06:20,040 --> 00:06:23,040

As I said, I see the objects in the sky, right?

113

00:06:23,040 --> 00:06:25,040

I can't tell you what it was.

114

00:06:25,040 --> 00:06:30,040

If I were to say it could be a water balloon, but I'm not sure what it is, I don't know.

115

00:06:30,040 --> 00:06:36,040

Well, the reason I'm asking these questions is that in so many of the reports, there is

116

00:06:36,040 --> 00:06:43,040

always statements to confusion of what this might have been or what it might not have been.

117

00:06:43,040 --> 00:06:46,040

I'm not making any statements as to what it was.

118

00:06:46,040 --> 00:06:51,040

I won't be describing what it looked like to be in color in the silence.

119

00:06:51,040 --> 00:07:00,040

Would you, character, give any idea in the estimation of the signs?

120

00:07:00,040 --> 00:07:06,040

You mean at the time, as I would say, approximately all figure was and yes.

121

00:07:06,040 --> 00:07:11,040

Well, as I described before, one of the most likely versions of one of these, I read by

122

00:07:11,040 --> 00:07:12,040

the

123

00:07:12,040 --> 00:07:15,040

Scholar, maybe just a little bit bigger.

124

00:07:15,040 --> 00:07:21,040

Well, I just had you observe this object first in the windshield of the car.

125

00:07:21,040 --> 00:07:26,040

Did you at this later time get off the car to observe the object?

126

00:07:26,040 --> 00:07:27,040

Yes.

127

00:07:27,040 --> 00:07:29,040

You can stop the car and get off the car.

128

00:07:29,040 --> 00:07:30,040

Murray?

129

00:07:30,040 --> 00:07:35,040

How about the Alton-Denny position on the windshield?

130

00:07:35,040 --> 00:07:40,040

Was there any definite outline to it?

131

00:07:40,040 --> 00:07:43,040

Or was it more or was it?

132

00:07:43,040 --> 00:07:47,040

No, it seemed to me just a bright red color.

133

00:07:47,040 --> 00:07:50,040

It seemed to me very well.

134

00:07:50,040 --> 00:07:55,040

How did this object disappear from your view?

135

00:07:55,040 --> 00:07:58,040

It kept happening in our peaceful direction.

136

00:07:58,040 --> 00:08:02,040

We still had it in sight when we left.

137

00:08:02,040 --> 00:08:10,040

At that time, it was rather small as I said before, as we see it every morning, it's like

138

00:08:10,040 --> 00:08:13,040

a bright star that can still change colors.

139

00:08:13,040 --> 00:08:16,040

Had it been in the Alton-Denny position, forget it.

140

00:08:16,040 --> 00:08:18,040

It happened to me, I see.

141

00:08:18,040 --> 00:08:20,040

It didn't change speed, though, did it?

142

00:08:20,040 --> 00:08:22,040

No, I wouldn't say so.

143

00:08:22,040 --> 00:08:24,040

It's pretty hard to do that, right?

144

00:08:24,040 --> 00:08:31,040

The volume seemed to me more volume in the control car, approximately, at that time when you traveled.

145

00:08:32,040 --> 00:08:35,040

We've got to get one giant move here up around 65,

146

00:08:35,040 --> 00:08:40,040

setting up an hour between here and the company, probably, but no use.

147

00:08:40,040 --> 00:08:50,040

But have you seen any other objects that might be listed as, let's say, unidentified objects?

148

00:08:50,040 --> 00:09:00,040

But general heritage and all that kind of wisdom was lacking in relation to a minute.

149

00:09:01,040 --> 00:09:13,040

I'm going to go back into it first part of that, but it was not the large piece of the site that was laid on the southwest side of the city.

150

00:09:13,040 --> 00:09:19,040

Well, I think we also have another example of a little city water that was in the city of New York.

151

00:09:19,040 --> 00:09:20,040

Right?

152

00:09:20,040 --> 00:09:22,040

Right, excuse me.

153

00:09:23,040 --> 00:09:31,040

Well, by the time that they didn't see anything, we got out there to meet this resemblance.

154

00:09:31,040 --> 00:09:42,040

Let me say, Starfish was an even bigger penis than the large Stardust guy with the white and the red and white and green light.

155

00:09:42,040 --> 00:09:47,040

And it didn't move. It was quite high, I don't know, wouldn't that make the opposite?

156

00:09:47,040 --> 00:09:50,040

It was driving in the northeast direction.

157

00:09:50,040 --> 00:09:59,040

We followed them down to the other back on the line, just over on the roadside line, which is just east of New York.

158

00:09:59,040 --> 00:10:00,040

Yes.

159

00:10:00,040 --> 00:10:03,040

Now, our purpose is identification here.

160

00:10:03,040 --> 00:10:15,040

Mr. Rogers, they can tell us your occupation and over half of the police statements that you're educating in your background.

161

00:10:16,040 --> 00:10:24,040

Well, I worked for one of my county sheriffs, a president of the sheriff, and it was about four years graduating last week.

162

00:10:24,040 --> 00:10:34,040

I have a room working there, and about 19 years in military service, and the president of the county commander of the National Guard came to the town.

163

00:10:34,040 --> 00:10:39,040

I think we've covered quite a bit of information here in detail on the object.

164

00:10:39,040 --> 00:10:45,040

How many witnesses or other people in the area you have to meet also saw it?

165

00:10:45,040 --> 00:10:50,040

Well, Mr. Stewart here was with us in the car at Iowa City.

166

00:10:50,040 --> 00:10:56,040

Mr. Warren Stewart from the town of Grandham, and Ross being joined with us and his assistant.

167

00:10:56,040 --> 00:10:58,040

There was five in our car.

168

00:10:58,040 --> 00:11:06,040

There was two in their car with Mr. West because he was the department.

169

00:11:06,040 --> 00:11:08,040

I believe you saw it from the right.

170

00:11:08,040 --> 00:11:14,040

A year in police department, and I know one car with a radio announcer from our local radio station was with him.

171

00:11:14,040 --> 00:11:15,040

They saw it.

172

00:11:15,040 --> 00:11:18,040

They were on my fastest saw.

173

00:11:18,040 --> 00:11:20,040

A little bit less than a billion here.

174

00:11:20,040 --> 00:11:22,040

They saw the same object.

175

00:11:22,040 --> 00:11:26,040

They had some police department officer wise.

176

00:11:26,040 --> 00:11:29,040

He was looking at it to build glasses.

177

00:11:29,040 --> 00:11:33,040

He said that they're in Atlanta, and that's how they're making some problems.

178

00:11:33,040 --> 00:11:39,040

They're in Atlanta, and that means they're also in the city.

179

00:11:39,040 --> 00:11:48,040

I can't remember if it seems to me that it's been rolled coming, but it was not coming at the same time.

180

00:11:48,040 --> 00:11:52,040

So obviously we were talking back and forth on the police radio.

181

00:11:52,040 --> 00:11:55,040

It takes in more stuff from the road coming.

182

00:11:55,040 --> 00:12:00,040

Mr. Rodgers was any of this information relating to a building center?

183

00:12:00,040 --> 00:12:03,040

In other words, was the Air Force notified of this?

184

00:12:03,040 --> 00:12:04,040

It was.

185

00:12:04,040 --> 00:12:05,040

I see.

186

00:12:05,040 --> 00:12:07,040

By our radio dispatcher in Illinois?

187

00:12:07,040 --> 00:12:08,040

It was our department.

188

00:12:08,040 --> 00:12:11,040

They made a remark, are you kidding?

189

00:12:11,040 --> 00:12:14,040

And seemed to be taking it as a lie.

190

00:12:14,040 --> 00:12:19,040

At that time, the way I was told Mr. Dierce was part of the surrender here in San Francisco.

191

00:12:19,040 --> 00:12:23,040

There were no gentlemen from the floor center here to investigate?

192

00:12:23,040 --> 00:12:25,040

No, not that home.

193

00:12:25,040 --> 00:12:29,040

They might have come in after I went home, something like that right in here.

194

00:12:29,040 --> 00:12:30,040

They were moving there?

195

00:12:30,040 --> 00:12:31,040

Yeah.

196

00:12:31,040 --> 00:12:40,040

Do you know of anyone who might have witnessed the thing very close to the ground?

197

00:12:40,040 --> 00:12:41,040

No.

198

00:12:41,040 --> 00:12:49,040

There's a letter here that was mailed in from the company mailed in here to the African cities.

199

00:12:49,040 --> 00:12:52,040

They had a plane in Britson, and it was an able tool.

200

00:12:52,040 --> 00:12:55,040

But I can't tell you where the letter is.

201

00:12:55,040 --> 00:12:58,040

Not on the man claims, but he saw something, the same sort.

202

00:12:58,040 --> 00:13:01,040

I'd have to go to see if I'd find it in the records.

203

00:13:01,040 --> 00:13:07,040

The, uh, Mr. Stewart, when he first came in that night, he said to me, he says, have you

204

00:13:07,040 --> 00:13:09,040

seen any bright lights in the sky in the southwest?

205

00:13:09,040 --> 00:13:11,040

And I looked at it in the last.

206

00:13:11,040 --> 00:13:13,040

I said, no, I haven't seen any of that in all.

207

00:13:13,040 --> 00:13:19,040

And he said that he had had a home call from a friend of ours out in the airport room,

208

00:13:19,040 --> 00:13:24,040

which after this was all over, but that's when he gave up the phone and threw it in the back.

209

00:13:24,040 --> 00:13:28,040

He calls all of this, and he says that he had called that word to somebody else, called

210

00:13:28,040 --> 00:13:30,040

and used this man's name.

211

00:13:30,040 --> 00:13:35,040

Well, I wonder if the other gentleman here would care to make some remarks.

212

00:13:35,040 --> 00:13:36,040

I missed your name.

213

00:13:36,040 --> 00:13:37,040

Mr. Stewart.

214

00:13:37,040 --> 00:13:38,040

I'm Mr. Stewart.

215

00:13:38,040 --> 00:13:41,040

And you're from the, uh, Telegraph, is that it?

216

00:13:41,040 --> 00:13:42,040

Telegraph.

217

00:13:42,040 --> 00:13:43,040

I'm from the family of the two.

218

00:13:43,040 --> 00:13:44,040

Look here in the ether.

219

00:13:44,040 --> 00:13:45,040

Yes, sir.

220

00:13:45,040 --> 00:13:48,040

The article, give it here.

221

00:13:48,040 --> 00:13:50,040

It's in the newspaper, covering this incident.

222

00:13:50,040 --> 00:13:51,040

The next day.

223

00:13:51,040 --> 00:13:55,040

The article was not the lady in the wire services or what?

224

00:13:55,040 --> 00:14:04,040

Yes, I called, um, I called the Associated Press, um, sometime around 11, 15, 1130 that night,

225

00:14:04,040 --> 00:14:07,040

the, um, Detroit Bureau.

226

00:14:07,040 --> 00:14:08,040

I see.

227

00:14:08,040 --> 00:14:15,040

And, uh, gave him quite a story on what I had seen, what I, what I thought I had seen,

228

00:14:15,040 --> 00:14:22,040

and, uh, at least the Michigan, um, branch out of the Detroit Bureau, he carried a story

229

00:14:22,040 --> 00:14:23,040

the next day.

230

00:14:23,040 --> 00:14:27,040

How much it was picked up on a Trump wire, I don't know.

231

00:14:27,040 --> 00:14:28,040

I see.

232

00:14:28,040 --> 00:14:34,040

We didn't receive any reports of this incident and, uh, he tried, in any of the, uh, he tried

233

00:14:34,040 --> 00:14:35,040

to lose papers.

234

00:14:35,040 --> 00:14:42,040

You've had any, uh, information that you would like to give personally as to the site?

235

00:14:42,040 --> 00:14:49,040

Well, as far as I'm concerned, uh, I have the slightest idea of what I saw.

236

00:14:49,040 --> 00:14:56,040

I'm thoroughly convinced that, uh, I saw a definite, uh, light pattern.

237

00:14:56,040 --> 00:15:00,040

I'm sure that it wasn't a reflection.

238

00:15:00,040 --> 00:15:07,040

I'm sure that it wasn't a star or a, uh, meteor.

239

00:15:07,040 --> 00:15:17,040

I'm deadly positive that, uh, I have never seen any, uh, aircraft in the sky, which,

240

00:15:17,040 --> 00:15:20,040

uh, at night, which resemble it.

241

00:15:20,040 --> 00:15:23,040

There was no shape or form as far as I could tell.

242

00:15:23,040 --> 00:15:31,040

It was simply a light that, uh, behaved very, very strangely as far as anything I'd ever

243

00:15:31,040 --> 00:15:32,040

seen before.

244

00:15:32,040 --> 00:15:37,040

Did you compare this light, uh, for example, to, uh, a dime or a nickel or a half of a

245

00:15:37,040 --> 00:15:40,040

dollar or something like that?

246

00:15:40,040 --> 00:15:42,040

You had a comparison of size?

247

00:15:42,040 --> 00:15:46,040

Well, it would be closer to a dime than anything else.

248

00:15:46,040 --> 00:15:52,040

At one point, just as we turned around, our car turned around when we first made, when

249

00:15:52,040 --> 00:15:58,040

we first saw the light, it was pointed out to us from the other control car by radio.

250

00:15:58,040 --> 00:16:04,040

We asked the lower, all third of the full moon, which was coming up in the east.

251

00:16:04,040 --> 00:16:10,040

We were traveling west and we turned around and started that east, uh, at the direction

252

00:16:10,040 --> 00:16:11,040

from the other control car.

253

00:16:11,040 --> 00:16:16,040

And the light crossed the, maybe the lower third, the moon.

254

00:16:16,040 --> 00:16:20,040

Still, on the full moon behind it, there was no shape.

255

00:16:20,040 --> 00:16:23,040

In other words, it wasn't like an airplane.

256

00:16:23,040 --> 00:16:28,040

It could be, would it cross the full moon or cross a portion of the moon from your

257

00:16:28,040 --> 00:16:29,040

lines of vision.

258

00:16:29,040 --> 00:16:36,040

But the brilliant point of that light stood out in the face of the moon, even though the

259

00:16:36,040 --> 00:16:39,040

moon was behind it and it was a full moon.

260

00:16:39,040 --> 00:16:43,040

Then you would say that this object was definitely salt-luminous.

261

00:16:43,040 --> 00:16:44,040

Oh, definitely.

262

00:16:44,040 --> 00:16:45,040

Yes, no.

263

00:16:45,040 --> 00:16:50,040

I got the impression, excuse me, I would say I got the impression of this light, uh, I

264

00:16:50,040 --> 00:16:50,700

don't know if it was a

265

00:16:50,700 --> 00:16:56,040

Gordon Center or anybody else, but I got the impression that the darn thing was, uh, was

266

00:16:56,040 --> 00:16:59,040

more of a pulsing than blinking.

267

00:16:59,040 --> 00:17:01,040

Is that some raw...

268

00:17:01,040 --> 00:17:03,040

No, no, that was a bit...

269

00:17:03,040 --> 00:17:04,040

Right there.

270

00:17:04,040 --> 00:17:06,040

That's a weird way to go.

271

00:17:06,040 --> 00:17:08,040

That's the only way I'm going to go.

272

00:17:08,040 --> 00:17:18,040

Now, did this pulsation get it appeared to contract in its band, perhaps, in its shape?

273

00:17:18,040 --> 00:17:22,040

Well, I haven't talked to Gordon or anybody else about this, but my impression of the

274

00:17:22,040 --> 00:17:28,040

thing was that not too long ago on television there was a, uh, some television program.

275

00:17:28,040 --> 00:17:33,040

There was an operation involving even heart, which chest was laid open.

276

00:17:33,040 --> 00:17:34,040

Yeah.

277

00:17:34,040 --> 00:17:38,040

And, uh, the heart kind of does this.

278

00:17:38,040 --> 00:17:41,040

That's the type of thing, yes.

279

00:17:41,040 --> 00:17:46,040

And, uh, that's the way the thing appeared to me.

280

00:17:46,040 --> 00:17:53,040

This light came in pulses or thrives rather than blinking as you'd see on an airplane

281

00:17:53,040 --> 00:17:56,040

crossing the sky right now, maybe, for instance.

282

00:17:56,040 --> 00:18:00,040

Well, can we go over the lights again as you observe the changes in the light?

283

00:18:00,040 --> 00:18:05,040

I'm just thinking that the changes in the light is thought.

284

00:18:05,040 --> 00:18:08,040

That, uh, might be where it's supposed to be.

285

00:18:08,040 --> 00:18:13,040

Well, there were three colors that I saw, a red, a white, and a green.

286

00:18:14,040 --> 00:18:20,040

There seemed to be, no, the light all centered at one point.

287

00:18:20,040 --> 00:18:26,040

It wasn't, uh, one, such as an airplane would be a blinking light on the tail,

288

00:18:26,040 --> 00:18:32,040

another that would define a wing, or another would define the nose, or the top.

289

00:18:32,040 --> 00:18:34,040

It was all at one point all the time.

290

00:18:34,040 --> 00:18:40,040

In other words, I got the impression that whatever it was, just was winking in,

291

00:18:40,040 --> 00:18:46,040

just there was frowning in its entirety with this light, rather than a blinking light here

292

00:18:46,040 --> 00:18:53,040

and another one there that would outline the shape of a plane or an object of some depth.

293

00:18:53,040 --> 00:18:55,040

Uh, description.

294

00:18:55,040 --> 00:19:02,040

From your observation of this, uh, object, would you say if there was, uh,

295

00:19:02,040 --> 00:19:05,040

any intelligence behind its maneuvers?

296

00:19:05,040 --> 00:19:13,040

All of the awfully hard to say, I'd say the thing appeared to be under some form of control, yes.

297

00:19:13,040 --> 00:19:22,040

In other words, it wasn't, uh, it wasn't just, uh, flitting about like a fly or a meteor

298

00:19:22,040 --> 00:19:25,040

with no definite, uh, pattern to it.

299

00:19:25,040 --> 00:19:29,040

It seemed to be under some form of control.

300

00:19:29,040 --> 00:19:33,040

At various times in your observation of this object,

301

00:19:33,040 --> 00:19:40,040

did you at any time note, uh, the wing direction, uh, such that perhaps the object could have traveled against the wind

302

00:19:40,040 --> 00:19:46,040

or it actually wasn't going with the wind?

303

00:19:46,040 --> 00:19:48,040

I was a conscious of the wind direction that night.

304

00:19:48,040 --> 00:19:52,040

I see. How about any of the other channels?

305

00:19:52,040 --> 00:19:55,040

It was not a particularly windy night, though.

306

00:19:55,040 --> 00:19:57,040

It was a calm night.

307

00:19:57,040 --> 00:20:01,040

Would you say that in the course of its travel, that it changed directions sufficiently

308

00:20:01,040 --> 00:20:07,040

so that it could have gone contrary to the wind direction?

309

00:20:07,040 --> 00:20:09,040

I don't say so, yes.

310

00:20:09,040 --> 00:20:15,040

Certainly when it went up or down, it, uh, it went in two opposite directions.

311

00:20:15,040 --> 00:20:25,040

In, in going into the sky or coming down, uh, we, we did not ourselves observe it, uh, traveling west.

312

00:20:25,040 --> 00:20:29,040

All of the travel that we saw was east and northeast,

313

00:20:29,040 --> 00:20:35,040

but, uh, from one of the other deputies who I have completely confidence in,

314

00:20:35,040 --> 00:20:39,040

that, uh, you saw it before we did, that it was traveling west.

315

00:20:39,040 --> 00:20:41,040

Definitely.

316

00:20:41,040 --> 00:20:49,040

So, as you first saw it, it would be traveling, uh, northwest.

317

00:20:49,040 --> 00:20:51,040

Uh-huh.

318

00:20:51,040 --> 00:20:58,040

Does this object appear solid to you or does it appear as only a source of light?

319

00:20:58,040 --> 00:21:04,040

I'm afraid I couldn't answer that question, uh, other than, uh,

320

00:21:04,040 --> 00:21:07,040

to say it seemed to be a point of light,

321

00:21:07,040 --> 00:21:15,040

but I didn't see any shape or form any, any solid object or matter of any kind that I could identify.

322

00:21:15,040 --> 00:21:17,040

You followed this thing in a current.

323

00:21:17,040 --> 00:21:19,040

I was with the deputy right now.

324

00:21:19,040 --> 00:21:24,040

Uh, at any time, did this thing, uh, was it going away from you all the time

325

00:21:24,040 --> 00:21:27,040

or did it any kind of come towards you at all?

326

00:21:27,040 --> 00:21:34,040

Well, it came towards us, uh, when we first observed it,

327

00:21:34,040 --> 00:21:41,040

because, uh, we were traveling west of town looking for it,

328

00:21:41,040 --> 00:21:44,040

and it was, it was coming northeast at that time,

329

00:21:44,040 --> 00:21:48,040

so we were, it must have crossed, uh, we didn't have to see it,

330

00:21:48,040 --> 00:21:53,040

but it must have crossed our, uh, the top of our cars.

331

00:21:53,040 --> 00:21:57,040

Well, we have, that was one of the, this object was standing still at your time,

332

00:21:57,040 --> 00:21:59,040

when it was in a constant motion.

333

00:21:59,040 --> 00:22:04,040

It appeared to stand still to me on, uh, I'd say three or four different occasions, yes.

334

00:22:04,040 --> 00:22:06,040

Four different occasions.

335

00:22:06,040 --> 00:22:09,040

And have you thought these were for traveling?

336

00:22:09,040 --> 00:22:11,040

Not that I could see them.

337

00:22:11,040 --> 00:22:15,040

I was a patch of red mist or fog,

338

00:22:15,040 --> 00:22:20,040

but, uh, in my mind at least I associated it with a display of northern lights,

339

00:22:20,040 --> 00:22:23,040

which was brief but quite brilliant.

340

00:22:23,040 --> 00:22:31,040

We had heard a report from a witness who stated that he saw this object,

341

00:22:31,040 --> 00:22:36,040

and this witness, uh, he's from Detroit,

342

00:22:36,040 --> 00:22:43,040

and he stated to us that he observed this object very close to the ground,

343

00:22:43,040 --> 00:22:46,040

and that when he first came in contact with it,

344

00:22:46,040 --> 00:22:51,040

he noticed several fires, stopped alongside the road,

345

00:22:51,040 --> 00:22:56,040

and that he was forced to stop because his engine stopped as did all the others,

346

00:22:56,040 --> 00:23:02,040

and that he and several other people, quite a few as a matter of fact,

347

00:23:02,040 --> 00:23:07,040

saw this object in a field very, very close to the ground.

348

00:23:07,040 --> 00:23:13,040

Now, uh, you have not knew anyone else who might have, um,

349

00:23:13,040 --> 00:23:16,040

a better witness to this same event.

350

00:23:16,040 --> 00:23:18,040

This is on the night of November 6th?

351

00:23:18,040 --> 00:23:21,040

Uh, this was reported as November 7th.

352

00:23:21,040 --> 00:23:23,040

Uh...

353

00:23:23,040 --> 00:23:27,040

The, uh, what's been the evening of November 7th?

354

00:23:27,040 --> 00:23:33,040

I'm not sure whether it was on the 7th or whether he, uh, some jacket us on...

355

00:23:33,040 --> 00:23:35,040

No, I'm not sure. I'm not sure.

356

00:23:35,040 --> 00:23:37,040

It was on the 7th.

357

00:23:37,040 --> 00:23:40,040

Well, you said there were supposedly two paper reporters there.

358

00:23:40,040 --> 00:23:47,040

Well, I was the only one from our staff on this particular night that Deputy Rogers and I talked to.

359

00:23:47,040 --> 00:23:51,040

And to my knowledge, uh, I hadn't heard of any other.

360

00:23:51,040 --> 00:23:55,040

I've talked with Hillsdale Daily News, I've talked with Jackson,

361

00:23:55,040 --> 00:24:00,040

the Ann Arbor News and the Monroe News, which are made at least around the area.

362

00:24:00,040 --> 00:24:04,040

I don't have my own knowledge of anybody, Steve.

363

00:24:04,040 --> 00:24:11,040

The thing is, we get reports of this type, and, uh, unless we can contact the gentleman directly

364

00:24:11,040 --> 00:24:16,040

at this time who we're unable to do, we don't want to verify these two reports,

365

00:24:16,040 --> 00:24:21,040

because in the past reports of this type have often been extremely misleading,

366

00:24:21,040 --> 00:24:27,040

and, uh, some people tend to stress their imaginations moving too.

367

00:24:27,040 --> 00:24:34,040

Well, it was about a week ago, or a week and a half ago, I was on a radio.

368

00:24:34,040 --> 00:24:43,040

And Monroe, I'll take it back in honor, sent their car up to a local hill in the run there

somewhere out of the world.

369

00:24:43,040 --> 00:24:48,040

And Steve, they heard a word of light out there, and for them, they looked at it by the normal.

370

00:24:48,040 --> 00:24:51,040

They called back, and he says, all right, I'll call the observatory.

371

00:24:51,040 --> 00:24:54,040

Ann Arbor's an advocate for the Toe School.

372

00:24:54,040 --> 00:24:56,040

And that's where they ended right there.

373

00:24:56,040 --> 00:24:58,040

I wouldn't have had a moment to do that.

374

00:24:58,040 --> 00:25:02,040

You didn't get any reports of, uh, no, I just was over at least radio.

375

00:25:02,040 --> 00:25:05,040

In other words, we can hear Ann Arbor dispatcher go to the cars.

376

00:25:05,040 --> 00:25:06,040

Yes.

377

00:25:06,040 --> 00:25:10,040

And they use the car to go up on this particular area of South of town or something,

378

00:25:10,040 --> 00:25:14,040

and they go to this lake in Skye, and then the man called back, and he says,

379

00:25:14,040 --> 00:25:18,040

all right, I'll call the observatory and I'll get to the Toe School.

380

00:25:18,040 --> 00:25:25,040

Were there any other reports here in the Asian area of similar objects being cited since the 6th of November?

381

00:25:25,040 --> 00:25:26,040

Yes, there was.

382

00:25:26,040 --> 00:25:28,040

There was a young photo often here one night.

383

00:25:28,040 --> 00:25:36,040

It was the same night that Ann Arbor had this broadcast, and he thought the same thing that we did from that tall beach in David.

384

00:25:36,040 --> 00:25:38,040

You don't know who this gentleman was.

385

00:25:38,040 --> 00:25:41,040

No, we didn't.

386

00:25:41,040 --> 00:25:44,040

Well, I think that we have pretty well covered the trail.

387

00:25:44,040 --> 00:25:46,040

How do you have something more of you as I do?

388

00:25:46,040 --> 00:25:52,040

Uh, you stated that if someone stated at what time, if you were outside of the car,

389

00:25:52,040 --> 00:25:57,040

I'm sure you would say, we were all in the store, brass gear, system brass gear,

390

00:25:57,040 --> 00:26:05,040

and we were all out of the car after we left Jerobon West, almost to the Clayton Road,

391

00:26:05,040 --> 00:26:10,040

as we were talking Mr. Lettson goes and he's trying to get us to the district.

392

00:26:10,040 --> 00:26:15,040

And David wants to get us to the area where the island was, and we thought of it from there.

393

00:26:15,040 --> 00:26:17,040

And any one out of the car?

394

00:26:17,040 --> 00:26:23,040

Was there an indication that we had a sound or anything?

395

00:26:23,040 --> 00:26:24,040

Nothing.

396

00:26:24,040 --> 00:26:28,040

There was one out of the sound.

397

00:26:28,040 --> 00:26:33,040

Of course, we were in the ghost car too, but while we were outside of the car,

398

00:26:33,040 --> 00:26:36,040

these Derbys, they hadn't done anything.

399

00:26:36,040 --> 00:26:38,040

I remember it sound.

400

00:26:38,040 --> 00:26:40,040

Sometimes it was sound, but I didn't.

401

00:26:40,040 --> 00:26:45,040

If it was an airplane, would you have been close enough to hear the sound of an airplane?

402

00:26:45,040 --> 00:26:47,040

You proxened the distance that you were.

403

00:26:47,040 --> 00:26:54,040

I believe that when we first were serving in on to where the object was,

404

00:26:54,040 --> 00:26:57,040

that we were close enough to be able to do it through a model.

405

00:26:57,040 --> 00:26:59,040

Travelling in the car, I know.

406

00:26:59,040 --> 00:27:02,040

And I wouldn't say that it was a motor or a dirt field.

407

00:27:02,040 --> 00:27:06,040

I would never go to this whole really far house that I had.

408

00:27:06,040 --> 00:27:09,040

All this was the time.

409

00:27:09,040 --> 00:27:12,040

I wouldn't say that you'd be able to hear a sound.

410

00:27:12,040 --> 00:27:14,040

I don't know if you can hear an airplane engine.

411

00:27:14,040 --> 00:27:19,040

If it's a solid, nor can it even, it's hiding here.

412

00:27:19,040 --> 00:27:22,040

But there was no sound to this.

413

00:27:22,040 --> 00:27:28,040

One question I would like to ask before we run out of tape on this particular fact.

414

00:27:28,040 --> 00:27:36,040

Would you carry any permission for this information to be released to the National Investigations Committee on Arid Opinion?

415

00:27:36,040 --> 00:27:42,040

If you don't, you'll keep this strictly in confidence or we can destroy the tape as you wish.

416

00:27:42,040 --> 00:27:43,040

That's a good thing.

417

00:27:43,040 --> 00:27:45,040

I've approved doing the investigation.

418

00:27:45,040 --> 00:27:49,040

We're coming on a date by 5-6 in the mid-20s.

419

00:27:49,040 --> 00:27:52,040

Travelling for the honesty is far as I'm concerned.

420

00:27:52,040 --> 00:27:53,040

I've never believed in anything of that.

421

00:27:53,040 --> 00:27:58,040

I've always figured that the United States had found that there were some rhythms that I've never told anybody.

422

00:27:58,040 --> 00:28:01,040

I still can't believe what I saw up there.

423

00:28:01,040 --> 00:28:03,040

Because I'm a gay person.

424

00:28:03,040 --> 00:28:05,040

All the hair and things are a little bit different.

425

00:28:05,040 --> 00:28:06,040

I do.

426

00:28:06,040 --> 00:28:09,040

But to me it's a little bit hell of a big star.

427

00:28:09,040 --> 00:28:11,040

And brilliant is something else.

428

00:28:11,040 --> 00:28:14,040

Well, the reason I happened to this, I wouldn't say it was any maddening.

429

00:28:14,040 --> 00:28:16,040

It may have been it was me who was maddening.

430

00:28:16,040 --> 00:28:18,040

It's a slice of that.

431

00:28:18,040 --> 00:28:22,040

Well, may we send this information to Washington?

432

00:28:22,040 --> 00:28:25,040

Far as I'm concerned, it's perfectly alright.

433

00:28:25,040 --> 00:28:31,040

Well, we know that the National Investigations Committee is a very responsible organization.

434

00:28:31,040 --> 00:28:37,040

It is directed by Major Dominique Keeho, United States Marine Corps, retired.

435

00:28:37,040 --> 00:28:42,040

And he has done extensive work in research on I&I, 5-5-5-6.

436

00:28:42,040 --> 00:28:46,040

And he also published a few books on the subject.

437

00:28:46,040 --> 00:28:50,040

And we would like to have information on this information to him.

438

00:28:50,040 --> 00:28:51,040

I'm sorry.

439

00:28:51,040 --> 00:28:53,040

Perfectly alright with me.

440

00:28:53,040 --> 00:28:56,040

Before I think runs off, we did have a complaint here one night.

441

00:28:56,040 --> 00:28:59,040

I was never verified.

442

00:28:59,040 --> 00:29:03,040

But the Steve Tran, I believe it was.

443

00:29:03,040 --> 00:29:05,040

Once the other fellow works out there,

444

00:29:05,040 --> 00:29:10,040

he's got something to do with the speech they needed to have around town.

445

00:29:10,040 --> 00:29:12,040

All kind of kind of...

446

00:29:12,040 --> 00:29:14,040

I think I'm kind of...

447

00:29:14,040 --> 00:29:16,040

I think I'm kind of kind of...

448

00:29:16,040 --> 00:29:18,040

I don't know if he was ever in the radio station.

449

00:29:18,040 --> 00:29:23,040

Keeho over, Paul Keeho over called up here on the night and said that the farmer had fallen in.

450

00:29:23,040 --> 00:29:28,040

From Bob Mattock, he said there was a flying saucer sitting by the tree.

451

00:29:28,040 --> 00:29:31,040

He wanted to go with us, but we wouldn't take him with us.

452

00:29:31,040 --> 00:29:32,040

We went out there and never did.

453

00:29:32,040 --> 00:29:34,040

The farmer was flying in place.

454

00:29:34,040 --> 00:29:36,040

He'd be right across the street.

455

00:29:36,040 --> 00:29:42,040

Is this particular farmer familiar with even a training or...

456

00:29:42,040 --> 00:29:45,040

I mean, I didn't even find him.

457

00:29:45,040 --> 00:29:48,040

You know, schools have a horse way down here, you know, a horse way.

458

00:29:48,040 --> 00:29:53,040

We went back one time, I'm pretty sure there was a little guy in the street, but I didn't do anything back there.

459

00:29:53,040 --> 00:29:57,040

It was a project that I was complaining about, seeing the chickens.

460

00:29:57,040 --> 00:30:04,040

So, you know, the idea is to do the same work, but you know, I was like, you know, we had been out there,

461

00:30:04,040 --> 00:30:07,040

but we were all down there, we were all over there, an hour and a half.

462

00:30:07,040 --> 00:30:13,040

Trying to look for somebody, you know, who would be expecting us to come along.

463

00:30:13,040 --> 00:30:17,040

I had flown an airplane to the night, no tear or a tear or so forth.

464

00:30:17,040 --> 00:30:24,040

And I had been flying an airplane, and around the station, apparently, over the next three years,

465

00:30:24,040 --> 00:30:26,040

airplanes come in with their landing.

466

00:30:26,040 --> 00:30:32,040

It definitely wasn't what I said before, I mean, it was like that particular form of life,

467

00:30:32,040 --> 00:30:39,040

because there's a hesitation between when the flight goes out, this one comes on, this one comes back on again.

468

00:30:39,040 --> 00:30:50,040

There was no, it was as ball-based as far as I'm concerned, it was a false setting of life that would resemble a heart beating.

469

00:30:50,040 --> 00:30:57,040

I never saw a telegram, I never tied the two together for this television program, I hadn't seen that, so I didn't tie the two together.

470

00:30:57,040 --> 00:31:03,040

Was there any known aircraft in the facility at that time?

471

00:31:03,040 --> 00:31:09,040

Well, that was kind of a funny thing, because I kept trying to tell myself that that's what it must be.

472

00:31:09,040 --> 00:31:19,040

Possibly a highly-targeted character, that was what kept me under my mind because of the elevator motion, the up and down motion.

473

00:31:19,040 --> 00:31:24,040

And so I think I was looking all the time for an airplane.

474

00:31:24,040 --> 00:31:32,040

But to my knowledge, there wasn't a thing all over, earlier in the evening, I didn't see a plane in the sky,

475

00:31:32,040 --> 00:31:37,040

or didn't see an aircraft. When we were down in Deerfield, didn't you think we saw an airplane in the sky?

476

00:31:37,040 --> 00:31:43,040

That was after all what we called an air plane, because after we looked back at the light,

477

00:31:43,040 --> 00:31:50,040

there seemed to be a plane in there, because we wondered if it was something that could set up to check into it, the same general area.

478

00:31:50,040 --> 00:31:53,040

Was it, would you know what I'm looking at?

479

00:31:53,040 --> 00:31:59,040

No, I wouldn't do it. But that was a jet, although there was some sound with that airplane,

480

00:31:59,040 --> 00:32:05,040

and it was a considerable distance away, which leads me to believe that there had been any sound with this thing we'd seen,

481

00:32:05,040 --> 00:32:12,040

we'd heard it. We'd heard it answer questions that he didn't hear, and I certainly didn't, and I was trying to.

482

00:32:12,040 --> 00:32:16,040

Why was it that you liked that?

483

00:32:16,040 --> 00:32:19,040

Well, I did spend pretty well covered.

484

00:32:19,040 --> 00:32:20,040

You covered that?

485

00:32:21,040 --> 00:32:34,040

At any time, would you say that you noticed that this change of color had any relation to the speed of the object?

486

00:32:34,040 --> 00:32:36,040

So, you would control the speed?

487

00:32:36,040 --> 00:32:37,040

No.

488

00:32:37,040 --> 00:32:42,040

Is it the change of color was, say, an actor affecting the change in speed?

489

00:32:43,040 --> 00:32:56,040

No, in fact, there was absolutely no correlation between the light, the different shades, colors, and the movements of the object,

490

00:32:56,040 --> 00:33:00,040

at least that I could see in the time I was watching.

491

00:33:00,040 --> 00:33:03,040

It didn't seem, there was no pattern to begin with.

492

00:33:03,040 --> 00:33:08,040

It wasn't red, green, white, white, red, green, white, red, green, white.

493

00:33:08,040 --> 00:33:17,040

It was red, maybe red, red, and then green, and white, and green, white, white, red, green.

494

00:33:17,040 --> 00:33:24,040

I mean, there was just no given pattern that I could determine, or any of us could.

495

00:33:24,040 --> 00:33:29,040

On that particular evening, was there any report at any time,

496

00:33:29,040 --> 00:33:39,040

the interference through local radio stations or perhaps any television that people in the area might have been observing?

497

00:33:39,040 --> 00:33:41,040

Not to my knowledge.

498

00:33:41,040 --> 00:33:48,040

I think if there would have been any interference with television, we'd have heard about it because we got a hand-mopper out of the gun here that's used in all of them,

499

00:33:48,040 --> 00:33:51,040

and that the people heard about it constantly.

500

00:33:51,040 --> 00:33:53,040

So, I had a lot of angry reports of that.

501

00:33:53,040 --> 00:33:57,040

There was no interference to be sure what's where.

502

00:33:57,040 --> 00:34:04,040

No, not in my radar, because there wasn't any one with this normal static, and you just, well, it did not go.

503

00:34:04,040 --> 00:34:07,040

There wasn't any change in that at all.

504

00:34:07,040 --> 00:34:15,040

Well, could anybody elaborate a little bit more on the, well, the white pattern of this thing?

505

00:34:15,040 --> 00:34:19,040

Was it a jerking motion or a smooth or...

506

00:34:19,040 --> 00:34:22,040

All of that jerking was very smooth.

507

00:34:22,040 --> 00:34:32,040

In other words, the only point of why, in fact, yes, as far as the speed, you know, is fast, what you're saying, a conventional flying jet.

508

00:34:32,040 --> 00:34:37,040

Most of the time I was conscious about slow motion, rather than how fast.

509

00:34:37,040 --> 00:34:44,040

The fact is that if you wondered how it stayed afloat, it stayed in the air because it was going so slow.

510

00:34:44,040 --> 00:34:49,040

That's why I tried to associate with a more accurate one.

511

00:34:49,040 --> 00:34:54,040

And when I tried to grab it, I knew I was going to do it.

512

00:34:54,040 --> 00:35:02,040

But this thing at any time, we'll go back and say, appeared to...

513

00:35:02,040 --> 00:35:09,040

Maybe it's just kind of far past, but it did appear to be evading in anything.

514

00:35:09,040 --> 00:35:14,040

I was kind of conscious of evading this thing out.

515

00:35:14,040 --> 00:35:17,040

Anything we did, it didn't seem to make a difference to what I did.

516

00:35:17,040 --> 00:35:19,040

That's why I'm trying to know.

517

00:35:19,040 --> 00:35:21,040

I couldn't see any.

518

00:35:21,040 --> 00:35:25,040

Could you guard my passion?

519

00:35:25,040 --> 00:35:30,040

Well, I think I just made a scene that had a little different angle than the rest of them did.

520

00:35:30,040 --> 00:35:37,040

When we first started, it was considerably lower than what you thought.

521

00:35:37,040 --> 00:35:44,040

As we noticed at the end of the cadmium, as I told these gentlemen before, it was considerably lower.

522

00:35:44,040 --> 00:35:48,040

I tried to grab it, and then they smiddy went along with the same thing.

523

00:35:48,040 --> 00:35:54,040

It looked to me about the length, and just about the same length as real, talking with the red light on top of it.

524

00:35:54,040 --> 00:35:58,040

And then it took off through the solid west.

525

00:35:58,040 --> 00:36:03,040

And then it hushed and fixed it up there, and it was cut back and was coming back our way.

526

00:36:03,040 --> 00:36:08,040

But when we was following it, it was solid, then it was 34.

527

00:36:08,040 --> 00:36:13,040

And when we picked it up again, it was larger than 34, coming back this way.

528

00:36:13,040 --> 00:36:22,040

Would you care to make any estimation of perhaps the possible number of people in the cadmium who might have been with us?

529

00:36:22,040 --> 00:36:25,040

I wouldn't have any of that myself.

530

00:36:25,040 --> 00:36:28,040

I wouldn't have any of it, because the rails would jam up that night.

531

00:36:28,040 --> 00:36:29,040

Everybody was talking.

532

00:36:29,040 --> 00:36:35,040

You didn't see people out of the street in town, in Washington, that sort of thing?

533

00:36:35,040 --> 00:36:39,040

Well, I was in the pharmacy of the drill car, and I was trying to keep buying the things.

534

00:36:39,040 --> 00:36:44,040

I kept going in the direction I was looking for, but we came through town and let it out of the rush suit.

535

00:36:44,040 --> 00:36:50,040

Would you say that this was definitely well over time?

536

00:36:50,040 --> 00:36:52,040

No, I wouldn't say it was well over time.

537

00:36:52,040 --> 00:36:54,040

You mean on the other hand, did it happen?

538

00:36:54,040 --> 00:36:58,040

Either that night or the previous night.

539

00:36:58,040 --> 00:37:04,040

I don't mean the previous night. Excuse me. You could see the night after the newspapers.

540

00:37:04,040 --> 00:37:09,040

Oh, well, first I hear, I've been involved in the beating about this thing.

541

00:37:09,040 --> 00:37:14,040

Well, I had some experience along that line yourself.

542

00:37:14,040 --> 00:37:29,040

But I would say that there are anyway a minimum of 30 different people have talked to me and since the thing that happened,

543

00:37:29,040 --> 00:37:34,040

they saw this or saw that themselves.

544

00:37:34,040 --> 00:37:38,040

Of course, the radio was carrying a running sound.

545

00:37:38,040 --> 00:37:40,040

Anybody had to hold a radio station?

546

00:37:40,040 --> 00:37:44,040

Well, the radio station was running, running at the house.

547

00:37:44,040 --> 00:37:46,040

During the actual observation, was it?

548

00:37:46,040 --> 00:37:48,040

I think it was T.J.

549

00:37:48,040 --> 00:37:49,040

Was that part of the office work?

550

00:37:49,040 --> 00:37:50,040

He was my assistant.

551

00:37:50,040 --> 00:37:51,040

He was with the Navy?

552

00:37:51,040 --> 00:37:54,040

Yeah, the Navy was the major police for them.

553

00:37:54,040 --> 00:37:56,040

And what were they retaining in their house?

554

00:37:56,040 --> 00:37:57,040

I don't know.

555

00:37:57,040 --> 00:37:59,040

I know that when I got back.

556

00:37:59,040 --> 00:38:02,040

I believe that that was taken from Elmhol's gas station.

557

00:38:02,040 --> 00:38:04,040

That was taken in a telephone recording.

558

00:38:04,040 --> 00:38:06,040

Oh, telephone recording.

559

00:38:06,040 --> 00:38:08,040

When I got back, I was like, I know what I was doing.

560

00:38:08,040 --> 00:38:12,040

My wife needed to find a home where T.J. had been, of course.

561

00:38:12,040 --> 00:38:16,040

I had to do one, and I said, well, if I started to tell you, you'd think,

562

00:38:16,040 --> 00:38:19,040

I'd be like, hurry up, hurry up.

563

00:38:19,040 --> 00:38:23,040

But then I told her, she said, oh, yeah, that was the radio.

564

00:38:23,040 --> 00:38:25,040

And that was the first hint I had.

565

00:38:25,040 --> 00:38:30,040

So then she said that every so often they were breaking in with the news

566

00:38:30,040 --> 00:38:34,040

about the time when everything was down and what it was doing.

567

00:38:34,040 --> 00:38:38,040

So I suspect that a lot of people that probably wouldn't have had any

568

00:38:38,040 --> 00:38:43,040

first hand knowledge of it did pick it up in those radio broadcasts

569

00:38:43,040 --> 00:38:46,040

during the evening in Montana would have known something about it

570

00:38:46,040 --> 00:38:48,040

through that media.

571

00:38:48,040 --> 00:38:50,040

I think Elmhol's sound was working.

572

00:38:50,040 --> 00:38:54,040

I think the partners only did Elmhol's and the others on the same night.

573

00:38:54,040 --> 00:38:56,040

About the same time that you go to the sub-camp.

574

00:38:56,040 --> 00:38:59,040

And then she was watching the call of her daughter.

575

00:38:59,040 --> 00:39:02,040

And when he came out to see it, I remember that it was down the line

576

00:39:02,040 --> 00:39:06,040

in trees or something was in the way that he couldn't see it.

577

00:39:06,040 --> 00:39:11,040

That's the first way that appeared that I had smitten out there

578

00:39:11,040 --> 00:39:12,040

in the cabs, of course.

579

00:39:12,040 --> 00:39:15,040

That would be just soft-forced to see it.

580

00:39:15,040 --> 00:39:17,040

That appeared to us before.

581

00:39:17,040 --> 00:39:21,040

When we first looked at it and it said it was a radio tower standing there

582

00:39:21,040 --> 00:39:23,040

and we go, no, there's nothing there.

583

00:39:23,040 --> 00:39:25,040

It was just sort of a dead sex.

584

00:39:25,040 --> 00:39:29,040

Well, I'd say there were recently 30 people that told me that they saw it.

585

00:39:29,040 --> 00:39:32,040

But when they got it, I told them.

586

00:39:32,040 --> 00:39:35,040

Well, I think we fairly well covered the information

587

00:39:35,040 --> 00:39:38,040

and understood them and said thank you very much gentlemen for this interview.

588

00:39:38,040 --> 00:39:42,040

And at this time I'd also like to have you step up to the microphone

589

00:39:42,040 --> 00:39:45,040

and give your name, occupation,

590

00:39:45,040 --> 00:39:49,040

any other information of that type that you would like to add.

591

00:39:49,040 --> 00:39:51,040

Well, my name is Walden Stewart.

592

00:39:51,040 --> 00:39:56,040

I'm the colony editor of the newspaper here in Edwin, the Edwin Telegram.

593

00:39:56,040 --> 00:40:02,040

I had five years' service in the Marine Corps during World War II.

594

00:40:02,040 --> 00:40:05,040

I'm in a retired reserve now.

595

00:40:05,040 --> 00:40:12,040

And I think that I have a little bit of knowledge of flying objects

596

00:40:12,040 --> 00:40:16,040

from having been in service that way.

597

00:40:16,040 --> 00:40:19,040

I did quite a considerable amount of flying.

598

00:40:19,040 --> 00:40:23,040

But this is the first time I had ever seen anything of this nature.

599

00:40:23,040 --> 00:40:25,040

I'm kind of like Gordon.

600

00:40:25,040 --> 00:40:32,040

I was strictly valuing the whole thing until this particular night came along.

601

00:40:32,040 --> 00:40:36,040

My name is Gordon Rogers, definitely sure.

602

00:40:36,040 --> 00:40:38,040

None of my counting.

603

00:40:38,040 --> 00:40:45,040

Quite a bit of military service and I don't ever remember seeing anything in a service that resembled this particular item.

604

00:40:45,040 --> 00:40:47,040

And I've done quite a bit of flying also.

605

00:40:47,040 --> 00:40:52,040

My name is Lyle Letts, ambulance driver for the average funeral home, Adrian, Michigan.

606

00:40:52,040 --> 00:40:57,040

Thank you very much gentlemen for your cooperation in this area.
