

1

00:00:00,000 --> 00:00:08,460

This is Walter Schrode, your roving reporter at KSRC Radio in Socorro, New Mexico.

2

00:00:08,460 --> 00:00:13,080

We have with us this afternoon Mr. Lonnie Zamorro, the Socorro patrolman left while

3

00:00:13,080 --> 00:00:18,800

chasing a car, found himself in an area about two miles west of Socorro and one mile east

4

00:00:18,800 --> 00:00:25,080

of KSRC radio station at which time he reports he came upon an unidentified object resting

5

00:00:25,080 --> 00:00:26,080

on four legs.

6

00:00:26,600 --> 00:00:32,320

As he drew closer, the object took off with a loud roar, starting blue, red flame, and

7

00:00:32,320 --> 00:00:34,000

disappeared in the sky.

8

00:00:34,000 --> 00:00:37,720

A great number of cars and Socorro people have gathered here in front of the studios

9

00:00:37,720 --> 00:00:43,440

of KSRC to catch a glimpse of Mr. Zamorro as he arrived and welcome him with their car

10

00:00:43,440 --> 00:00:44,440

horns.

11

00:00:44,440 --> 00:00:48,760

Mr. Zamorro, after coming upon this object, just what did happen?

12

00:00:48,760 --> 00:00:54,880

I went up that little road for about half a mile, I guess.

13

00:00:54,880 --> 00:01:01,920

I came up to this little barking deer there on the side of the road and I saw a glance

14

00:01:01,920 --> 00:01:10,720

out the window, looked to my left, it seemed this white object on the ground.

15

00:01:10,720 --> 00:01:15,760

So I thought it might be a car that had turned over.

16

00:01:16,760 --> 00:01:21,520

So I was in the real big carry going out there to investigate, thought maybe somebody would

17

00:01:21,520 --> 00:01:24,520

be hurt.

18

00:01:24,520 --> 00:01:30,000

That time I saw this white ink-shaped, ink-shaped looking object.

19

00:01:30,000 --> 00:01:33,000

It looked something like an egg, you mean?

20

00:01:33,000 --> 00:01:38,760

Yeah, from the distance I was, it looked like an egg to me, about the size of a car, I think,

21

00:01:38,760 --> 00:01:39,760

someone said.

22

00:01:39,760 --> 00:01:45,760

I thought it looked like a car that turned over, I'll say it's a size of a car.

23

00:01:45,760 --> 00:01:48,760

And did any kind of markings out of any kind that you noticed?

24

00:01:48,760 --> 00:01:49,760

Yes, it did.

25

00:01:49,760 --> 00:01:52,760

Not from that far, I didn't see the markings.

26

00:01:52,760 --> 00:01:57,760

When I went up closer to it, I did see the markings.

27

00:01:57,760 --> 00:02:03,760

And someone said that the markings that you saw, it was an upside down V with three lines

28

00:02:03,760 --> 00:02:04,760

running through it.

29

00:02:04,760 --> 00:02:10,760

I couldn't tell you this, because they feel the one you see doesn't mark it.

30

00:02:10,760 --> 00:02:12,760

They don't want you to say anything about the markings.

31

00:02:12,760 --> 00:02:16,760

Or if we want to question you on that, and if we run into an area that they don't want

32

00:02:16,760 --> 00:02:19,760

you to talk about, well you just say so.

33

00:02:19,760 --> 00:02:22,760

And this happened about 5.30, 9.00 the afternoon.

34

00:02:22,760 --> 00:02:27,760

It happened about 5.50, about 10 minutes to 6.00.

35

00:02:27,760 --> 00:02:33,760

And you just placed a call in to Sergeant Tavis, the chief of the police, and he said,

36

00:02:33,760 --> 00:02:37,760

Sergeant Tavis of the state police, come on out and help you with the investigation.

37

00:02:37,760 --> 00:02:41,760

As soon as I saw his object, I didn't know what it was.

38

00:02:41,760 --> 00:02:48,760

I placed a call to Arden Shower as the new state police, told him he would come up there

39

00:02:48,760 --> 00:02:49,760

and help me on this.

40

00:02:49,760 --> 00:02:53,760

He said, yes, I'll be right there in about a few minutes.

41

00:02:53,760 --> 00:03:00,760

And he arrived just about two or three minutes after the object had taken off and left.

42

00:03:00,760 --> 00:03:07,760

Well, the object was still about a couple of months up there when he arrived.

43

00:03:07,760 --> 00:03:09,760

It was still in that direction it went.

44

00:03:09,760 --> 00:03:11,760

It went out over the top of the mountain.

45

00:03:11,760 --> 00:03:16,760

And we've heard several reports that it flew low, like it was dragging something.

46

00:03:16,760 --> 00:03:20,760

And we've heard some, it was very low to the ground.

47

00:03:20,760 --> 00:03:25,760

At the time I was seeing it, it was very low to the ground, up to the Burlite meal there.

48

00:03:25,760 --> 00:03:28,760

And then he started to gain altitude.

49

00:03:28,760 --> 00:03:36,760

Now I also reported to me that when you first drove up into this area and decided this object,

50

00:03:36,760 --> 00:03:38,760

that the motors were running and never going,

51

00:03:38,760 --> 00:03:42,760

there was some such sound as that.

52

00:03:42,760 --> 00:03:43,760

Is that correct?

53

00:03:43,760 --> 00:03:45,760

Oh, cool.

54

00:03:45,760 --> 00:03:50,760

I started running a little scared.

55

00:03:50,760 --> 00:03:52,760

Well, I don't blame you.

56

00:03:52,760 --> 00:03:54,760

Thoughts on it even scared me yet.

57

00:03:54,760 --> 00:04:00,760

Now you did say that you saw two what appeared to be people dressed in white uniforms.

58

00:04:00,760 --> 00:04:03,760

Did they have helmets on like space men or anything?

59

00:04:03,760 --> 00:04:09,760

No sir, I would say there are people I just saw some white colorals.

60

00:04:09,760 --> 00:04:12,760

It looked like there was something in white colorals.

61

00:04:12,760 --> 00:04:13,760

Right.

62

00:04:13,760 --> 00:04:17,760

But you couldn't identify them as actually being a human being and you and I are.

63

00:04:17,760 --> 00:04:18,760

No sir.

64

00:04:19,760 --> 00:04:26,760

And you didn't know where they turned and saw you or what then?

65

00:04:26,760 --> 00:04:35,760

Well, to my, I would say that this white object turned and saw me.

66

00:04:35,760 --> 00:04:36,760

Were they two of them?

67

00:04:36,760 --> 00:04:41,760

I would say were two because one was from France and the other was from the back.

68

00:04:41,760 --> 00:04:49,760

If you had a chance to notice what kind of a doorway they had to this, this ugly, this flying object,

69

00:04:49,760 --> 00:04:51,760

you'd notice it was over snow.

70

00:04:51,760 --> 00:05:00,760

And when it took off, it made a loud, loud roaring sound.

71

00:05:00,760 --> 00:05:02,760

Is that correct?

72

00:05:02,760 --> 00:05:06,760

Very loud, noisy roar sound.

73

00:05:06,760 --> 00:05:10,760

And then after it got up in the air about 20 feet while the sound seemed to disappear,

74

00:05:10,760 --> 00:05:13,760

the sound was, it disappeared and it was very, very quiet.

75

00:05:13,760 --> 00:05:16,760

You could hear a field drop there.

76

00:05:16,760 --> 00:05:20,760

And now these markings is left on the ground.

77

00:05:20,760 --> 00:05:24,760

Now the reports that I have had and I haven't had a chance to go and take a look in the winds yet

78

00:05:24,760 --> 00:05:31,760

to be a probably, a lot of that anyway, was that they were deep indentations in the ground

79

00:05:31,760 --> 00:05:38,760

approximately 10 inches wide and six to eight inches deep, about 15 feet apart.

80

00:05:38,760 --> 00:05:40,760

Is that a correct report?

81

00:05:40,760 --> 00:05:48,760

Well, I would say it was about 19 feet apart of the print.

82

00:05:48,760 --> 00:05:54,760

And were there any other prints, like footprints around the area right after the takeoff

83

00:05:54,760 --> 00:05:56,760

or at the end when you were making the investigation?

84

00:05:56,760 --> 00:06:02,760

There were some prints, but I wouldn't even know if there were footprint or if they were just prints.

85

00:06:03,760 --> 00:06:06,760

You couldn't identify them as actually being a footprint.

86

00:06:06,760 --> 00:06:11,760

Just indentations like maybe somebody might have walked there or somebody might have walked there.

87

00:06:11,760 --> 00:06:17,760

Somebody walked around there because it was, when I got there, it was nobody around there yet.

88

00:06:17,760 --> 00:06:23,760

Now there was, according to a report on one of the news, the television stations in Albuquerque

89

00:06:23,760 --> 00:06:31,760

claimed that they had a call just about 5.30 in Albuquerque of a sighting about flying objects

90

00:06:31,760 --> 00:06:34,760

flying in this direction. Did you hear anything about that?

91

00:06:34,760 --> 00:06:39,760

Little photos of which, if that be true, it means that someone in Albuquerque

92

00:06:39,760 --> 00:06:43,760

saw this object flying in this direction just prior to your sighting it.

93

00:06:43,760 --> 00:06:48,760

And which collaborates with the fact that there was something here.

94

00:06:48,760 --> 00:06:53,760

Now it's the feeling, I get the feeling at least Lonnie, as the people I've talked to

95

00:06:53,760 --> 00:06:58,760

and they're out in the area that they are quite sure that something landed there

96

00:06:58,760 --> 00:07:03,760

and something took off from this spot because of not only the imprint that is left in the ground

97

00:07:03,760 --> 00:07:10,760

but the fire that it started and the method of which the fire or the power that it was

98

00:07:10,760 --> 00:07:14,760

whatever it was using kind of spread itself as it took off. Is that right?

99

00:07:14,760 --> 00:07:18,760

Right. No, there was something out there because I feel it.

100

00:07:18,760 --> 00:07:27,760

And what was your immediate reaction as soon as you realized that this thing might be an object from outer space?

101

00:07:28,760 --> 00:07:38,760

Well, I didn't think it would be an object from outer space because I don't believe in things like this from outer space.

102

00:07:38,760 --> 00:07:44,760

Well, it was something that you'd never seen before and it was enough to scare you down to run in the other direction.

103

00:07:44,760 --> 00:07:49,760

Well, what scared me was the loud noise and the flame that it had under it.

104

00:07:49,760 --> 00:07:53,760

It had a large flame then as it took off.

105

00:07:53,760 --> 00:07:58,760

It was a yellow flame or a blueish-orange flame.

106

00:07:58,760 --> 00:08:02,760

I thought this object would blow off. This one started running back.

107

00:08:02,760 --> 00:08:10,760

And did you notice whether these arms that it was sitting on retracted back into the object as it flew away or not?

108

00:08:10,760 --> 00:08:12,760

You didn't have time.

109

00:08:12,760 --> 00:08:16,760

I just ran in the other drag rod at that time. I would have been too.

110

00:08:16,760 --> 00:08:25,760

Are there any other things about this trying that you think our listening audience might be interested in or something that you'd be allowed to tell us?

111

00:08:25,760 --> 00:08:28,760

No, there's a lot of thought.

112

00:08:28,760 --> 00:08:32,760

And it disappeared.

113

00:08:32,760 --> 00:08:36,760

It entered a high sky after it got over around the pearl.

114

00:08:37,760 --> 00:08:41,760

It was a little low too, to a far lie of mine.

115

00:08:41,760 --> 00:08:45,760

Then from there on, it just told fast that you could barely hear it.

116

00:08:45,760 --> 00:08:47,760

Right in the great up in the air.

117

00:08:47,760 --> 00:08:53,760

There have to be things that do what you were looking at to see what it was doing.

118

00:08:53,760 --> 00:08:57,760

Well, do you think we're going to get any more of them around here?

119

00:08:57,760 --> 00:09:00,760

I hope not immediately.

120

00:09:00,760 --> 00:09:07,760

That was quite an interesting experience, I'm sure, and it has caused an awful lot of comment.

121

00:09:07,760 --> 00:09:13,760

Did the investigators that were called in make any comments at all?

122

00:09:13,760 --> 00:09:21,760

In one direction or the other, with the exception of that they do not have any such object in this area?

123

00:09:21,760 --> 00:09:24,760

Oh, there are still puzzled themselves here.

124

00:09:24,760 --> 00:09:33,760

In the last report on the sampling, they took of the area around there from the burning brush and the area that the blast hits the ground.

125

00:09:33,760 --> 00:09:36,760

They might give them a clue as to what kind of power was being used on this.

126

00:09:36,760 --> 00:09:39,760

No, no, no.

127

00:09:39,760 --> 00:09:43,760

Well, I think I just about covered it here.

128

00:09:43,760 --> 00:09:46,760

Let's see, it wasn't dragging anything.

129

00:09:46,760 --> 00:09:49,760

We had a report that it was dragging something.

130

00:09:49,760 --> 00:09:54,760

It was laying on the ground.

131

00:09:54,760 --> 00:10:04,760

You can't think of anything else about deciding how this flying object that our visiting audience might be interested in.

132

00:10:04,760 --> 00:10:07,760

What do you want to say now?

133

00:10:07,760 --> 00:10:11,760

Well, Lonnie, I'm sure you've been getting an awful lot of questions and a lot of inquiry.

134

00:10:11,760 --> 00:10:16,760

I imagine you're getting a little tired of it actually for so many people calling and asking you about it.

135

00:10:16,760 --> 00:10:19,760

Maybe this will be one way to keep too many people from him.

136

00:10:19,760 --> 00:10:22,760

You have to go through the story over and over again.

137

00:10:22,760 --> 00:10:26,760

Well, it's been a real pleasure talking to you, Mr. Lonnie Zemmour.

138

00:10:26,760 --> 00:10:32,760

This is the gentleman, the support patrolman that Friday at around 10 minutes to 6,

139

00:10:32,760 --> 00:10:40,760

come up on an object, a flying object, an unidentified flying object as the government prepares to call him.

140

00:10:40,760 --> 00:10:47,760

Excuse me, Walter, I've got some military people that serve on the one top to me now.

141

00:10:47,760 --> 00:10:50,760

We'll be there from the UFO.

142

00:10:50,760 --> 00:10:54,760

What you have is the military people that are here from the UFO to talk to you right now

143

00:10:54,760 --> 00:10:56,760

and to ask you some more questions about this.

144

00:10:56,760 --> 00:11:02,760

And they have not in any way tried to indicate that they didn't want us to cover this type of an issue.

145

00:11:02,760 --> 00:11:04,760

No, sir, I just don't know.

146

00:11:04,760 --> 00:11:08,760

I'm going to come here and talk to you and the regular state is just alright.

147

00:11:08,760 --> 00:11:09,760

That's fine.

148

00:11:09,760 --> 00:11:15,760

And we would be interested in knowing what they think about it, if they will allow it.

149

00:11:15,760 --> 00:11:19,760

And after you get through talking to them, if you would call us back here at the SRC

150

00:11:19,760 --> 00:11:24,760

and to give us some of the information that they might allow you to let us broadcast,

151

00:11:24,760 --> 00:11:25,760

we'd be glad to.

152

00:11:25,760 --> 00:11:26,760

Alright.

153

00:11:26,760 --> 00:11:31,760

And, Mr. Zemmour, I hope that you don't come upon any more of these objects.

154

00:11:31,760 --> 00:11:33,760

Yeah, yeah, yeah.

155

00:11:33,760 --> 00:11:36,760

And as we find out exactly what they are.

156

00:11:36,760 --> 00:11:39,760

So it's been a pleasure, Mr. Zemmour, having you in our studios.

157

00:11:39,760 --> 00:11:41,760

And we want to thank you.

158

00:11:41,760 --> 00:11:43,760

And I know our listeners thank you.

159

00:11:43,760 --> 00:11:47,760

And this is expressed by the great number of cars that are out here in front of our studio

160

00:11:47,760 --> 00:11:53,760

just to get a glimpse of what we might call a record celebrity right at the moment.

161

00:11:53,760 --> 00:11:55,760

Thank you very much, Mr. Zemmour.

162

00:11:55,760 --> 00:11:58,760

It's been very nice meeting you at the SRC studio.

163

00:11:58,760 --> 00:12:04,760

You're just been listening to a CSI-based video special featuring an interview with Mr. Zemmour.

164

00:12:04,760 --> 00:12:09,760

The performance here in the studio has finally a hundred and a five.

165

00:12:09,760 --> 00:12:11,760

I think that's a good one.

166

00:12:11,760 --> 00:12:12,760

Go go go.
