

1

00:00:00,000 --> 00:00:10,000

I noticed a bright purple light over there that looked like it was right on the horizon.

2

00:00:10,000 --> 00:00:15,000

We were talking about various things and I called this light to make good attention,

3

00:00:15,000 --> 00:00:19,000

knowing that he was real prepared for that area over there.

4

00:00:19,000 --> 00:00:26,000

And he said, well, it's probably a light over the pop-up station or a light over to a race that's going to put quite a few of those micro-vapes

5

00:00:26,000 --> 00:00:28,000

in the middle of the purple light.

6

00:00:28,000 --> 00:00:33,000

I said, well, it just looked too purple to be a micro-vapes light to me.

7

00:00:33,000 --> 00:00:37,000

And we continued driving. It didn't stop at that time.

8

00:00:37,000 --> 00:00:42,000

And I kept watching the light and as we traveled down the highway,

9

00:00:42,000 --> 00:00:52,000

there appeared to be a blue light that just seemed to appear right out of this purple light.

10

00:00:52,000 --> 00:00:57,000

We were just almost parallel with the light.

11

00:00:57,000 --> 00:01:04,000

And as we drove, well, this light, the blue light seemed to move further over to the right.

12

00:01:04,000 --> 00:01:12,000

We pulled over right hand side of the road and stopped and got out and looked at the light briefly.

13

00:01:12,000 --> 00:01:17,000

The blue light had moved a good ways from the purple light at this time.

14

00:01:17,000 --> 00:01:24,000

We made a U-turn there and stopped on the other side of the highway and got out and looked at these last three binoculars.

15

00:01:24,000 --> 00:01:35,000

At this time, the light seemed to float up in the air just a very few degrees above the horizon and just hang suspended there.

16

00:01:35,000 --> 00:01:45,000

So we got back in the car to drive back towards Damon to take one of the back roads and go towards Sam and our river ship to get closer to it.

17

00:01:45,000 --> 00:01:49,000

We had driven, I guess, about a half a mile back towards Damon.

18

00:01:49,000 --> 00:01:53,000

We almost stopped again. We didn't pull off the highway.

19

00:01:53,000 --> 00:01:56,000

We just barreled and crept and there was no traffic on the highway.

20

00:01:56,000 --> 00:02:03,000

And the dude had his window down on his side and he observed the lights again with binoculars.

21

00:02:03,000 --> 00:02:07,000

And they seemed to still be in the same position as they were.

22

00:02:07,000 --> 00:02:13,000

So he laid the binoculars down and said, well, you watch it. I'll drive them back that way.

23

00:02:13,000 --> 00:02:18,000

And just as we started up, he said, are the other lights still there?

24

00:02:18,000 --> 00:02:21,000

And I said, man, they're not there. They're right here on us.

25

00:02:21,000 --> 00:02:33,000

Well, at this time, the object had moved just in a blink of an eye. It seemed like where they were to ride beside the highway.

26

00:02:33,000 --> 00:02:40,000

The purple light was illuminating the inside of a patrol car, ground all around us.

27

00:02:40,000 --> 00:02:47,000

And here this thing was just about, looked like it wasn't anymore than 100, 150 feet in the air.

28

00:02:47,000 --> 00:02:52,000

It was right at the side of the highway, completely motionless.

29

00:02:52,000 --> 00:02:59,000

There was a bright almost full, almost directly overhead.

30

00:02:59,000 --> 00:03:07,000

The moon illuminated the object. We could see the outlines very distinctly.

31

00:03:07,000 --> 00:03:10,000

We could see the shadow on the ground underneath it.

32

00:03:10,000 --> 00:03:13,000

And my gosh, you look like a football field.
