

1

00:00:00,000 --> 00:00:07,000

I was on patrol Saturday night at approximately 8 o'clock.

2

00:00:07,000 --> 00:00:12,000

I followed the car north of town to Smith Point.

3

00:00:12,000 --> 00:00:17,000

There's a little turn out there and I went to turn around and as I turned I thought I

4

00:00:17,000 --> 00:00:22,000

seen a spotlight or a large floodlight over the channel and I thought it was unusual for

5

00:00:22,000 --> 00:00:24,000

someone to be coming in that time of night.

6

00:00:24,000 --> 00:00:31,000

So I backed off the highway and then I could see the blinking a regular range light on

7

00:00:31,000 --> 00:00:37,000

the Christian Gouy out there was below it and I would say the other one looked to be

8

00:00:37,000 --> 00:00:43,000

about 30 or 40 feet above that just at that range which is about 2 miles.

9

00:00:43,000 --> 00:00:48,000

Then it started moving south and when I seen the first of the Santa Stil and it started

10

00:00:48,000 --> 00:00:53,000

moving south and it came to Bikinchal Point which is just a little hump in the Santa

11

00:00:53,000 --> 00:00:54,000

Island.

12

00:00:54,000 --> 00:00:59,000

We called the point and it disappeared for just a little bit and it was about just under

13

00:00:59,000 --> 00:01:07,000

the top of it and then it reappeared between Kinshaw Point and Cape Mears and then as it

14

00:01:07,000 --> 00:01:12,000

went on down it went around Cape Mears I would say just about even with the top of the Cape

15

00:01:12,000 --> 00:01:17,000

Mears and then I thought well it's some plane looking for something.

16

00:01:17,000 --> 00:01:24,000

I drove back to town and I'd been in town approximately 15 minutes and Officer Jacobus

17

00:01:24,000 --> 00:01:29,000

stopped and asked me if I'd seen any crazy lights and I said I'd heard that but I did.

18

00:01:29,000 --> 00:01:35,000

So then I went back to this same point and while we were sitting there they radioed

19

00:01:35,000 --> 00:01:40,000

evidently from down to Virginia Tarts and it was heading back north and then here it came

20

00:01:40,000 --> 00:01:46,000

but at that time it was quite high I'd say in the neighborhood of 5 or 6,000 feet and

21

00:01:46,000 --> 00:01:48,000

driving quite a little bit faster.

22

00:01:48,000 --> 00:01:52,000

Well then when it got almost even to this we jumped the car and drove to Rockaway.

23

00:01:52,000 --> 00:01:59,000

But when we got out on the beach there we thought we'd seen it once but if we did it

24

00:01:59,000 --> 00:02:05,000

was real to him and it would have been in the northwest position.

25

00:02:05,000 --> 00:02:11,000

The color when I first seen it was a kind of a greenish hue.

26

00:02:11,000 --> 00:02:16,000

I couldn't distinct any two colors to it but as I watched it then I couldn't tell whether it was

27

00:02:16,000 --> 00:02:20,000

flashing or just kind of dimming down and then picking up.

28

00:02:20,000 --> 00:02:25,000

Pretty regular but it had to me a kind of a greenish hue but I wear dark glasses.

29

00:02:25,000 --> 00:02:28,000

My name is Dennis Kruger and I was working.

30

00:02:28,000 --> 00:02:38,000

I was on duty at KTIL at the time and I had a phone call at around between 10.15 and 10.16 p.m.

31

00:02:38,000 --> 00:02:48,000

and these people said that they believed they'd seen what they believed was a UFO which would be

32

00:02:48,000 --> 00:02:51,000

approximately soft from KTIL.

33

00:02:51,000 --> 00:02:53,000

So I told them to hang on a second.

34

00:02:53,000 --> 00:02:59,000

I went outside and I thought you know we get a few calls like this every once in a while

35

00:02:59,000 --> 00:03:04,000

and so we'll check them out and go out and look and if I see anything fine I'll call a boss

36

00:03:04,000 --> 00:03:07,000

which let him worry about things.

37

00:03:07,000 --> 00:03:14,000

So I went outside and I seen this light in the sky and as he described it to me over the phone

38

00:03:14,000 --> 00:03:18,000

he said that it was a white light inside of a green ring.

39

00:03:18,000 --> 00:03:25,000

When I went out I probably had this in mind when I went outside and this is what I believe I saw.

40

00:03:25,000 --> 00:03:31,000

So I ran inside and I told him if you would like to hang on a second I'd like to call my boss

41

00:03:31,000 --> 00:03:34,000

because we had just been talking about this the night before.

42

00:03:34,000 --> 00:03:41,000

So he said you'd hang on so I called Bob Douglas and anyway after I talked to Mr. Douglas

43

00:03:41,000 --> 00:03:46,000

and I called the sheriff's department and then they sent their deputy out here

44

00:03:46,000 --> 00:03:53,000

and they rushed it for at least an hour if not over because the last time we had seen it

45

00:03:53,000 --> 00:03:59,000

my wife and I she was sitting inside in this room where we're sitting watching it out through the window

46

00:03:59,000 --> 00:04:06,000

with the lights shut off and frog definitely was what I was screwed our vision but it was at 11.27

47

00:04:06,000 --> 00:04:08,000

because I marked the time exactly.

48

00:04:08,000 --> 00:04:11,000

You couldn't distinguish any shape at all or I couldn't.

49

00:04:11,000 --> 00:04:13,000

I heard no sound.
