00:00:00,000 --> 00:00:10,760

I was just about to make this left turn when I noticed this large ball of flaning. It was

2

00:00:10,760 --> 00:00:17,280

almost upon me. I had hardly time to think, but it looked like it was coming right straight

3

00:00:17,280 --> 00:00:25,040

at me. I see it was the size of a football field. It looked like a cigar. It wasn't pointed

4

00:00:25,040 --> 00:00:34,560

on the ends. It was rounded on the ends. Then, when it did move, it lurched real sharp,

5

00:00:34,560 --> 00:00:40,720

90-degree angle. When it lurched and took off, I don't think I would have been able to

6

00:00:40,720 --> 00:00:45,040

more than snap my fingers once and it was gone. Gone. Couldn't see nothing.
