

1

00:00:00,000 --> 00:00:04,000

The water was 45 degrees in the morning.

2

00:00:04,000 --> 00:00:07,000

Big thunderstorm that night, it was right before the big thunderstorm.

3

00:00:07,000 --> 00:00:09,000

Of course it was raining at the time.

4

00:00:09,000 --> 00:00:11,000

The car was just dill-sundered.

5

00:00:11,000 --> 00:00:13,000

It had a red light on each side.

6

00:00:13,000 --> 00:00:16,000

One red was green and the other red is orange and gold.

7

00:00:16,000 --> 00:00:18,000

It had a big spotlight.

8

00:00:18,000 --> 00:00:20,000

It was a big spotlight.

9

00:00:20,000 --> 00:00:22,000

It was a spotlight.

10

00:00:22,000 --> 00:00:24,000

It was the sun that night, actually.

11

00:00:24,000 --> 00:00:26,000

Shining down.

12

00:00:26,000 --> 00:00:28,000

Did you see any sort of structure?

13

00:00:28,000 --> 00:00:30,000

It was a big object to self-image.

14

00:00:30,000 --> 00:00:32,000

It was triangular.

15

00:00:32,000 --> 00:00:35,000

The thing we saw on the newspaper the other day, the thing you described, right?

16

00:00:35,000 --> 00:00:36,000

I didn't see it.

17

00:00:36,000 --> 00:00:38,000

I saw it in the observatory.

18

00:00:38,000 --> 00:00:43,000

I think Ron has a picture of Newton Grove police officer Drew.

19

00:00:43,000 --> 00:00:45,000

The exact same thing that you saw.

20

00:00:45,000 --> 00:00:49,000

How far away is Newton Grove from what you were?

21

00:00:49,000 --> 00:00:53,000

Newton Grove is about 80 miles from here.

22

00:00:53,000 --> 00:00:55,000

It's in Faxon County.

23

00:00:55,000 --> 00:00:57,000

Where were you at the time of Newton Grove?

24

00:00:57,000 --> 00:00:59,000

Boston.

25

00:00:59,000 --> 00:01:02,000

I was out first and then in the middle.

26

00:01:02,000 --> 00:01:05,000

How far away from you would it have been, do you reckon?

27

00:01:05,000 --> 00:01:10,000

I'd say 200 or 300 yards or something.

28

00:01:10,000 --> 00:01:13,000

Was it over the roadway or off the road?

29

00:01:13,000 --> 00:01:15,000

Did you stop the car?

30

00:01:15,000 --> 00:01:16,000

Yeah, and did you get it all?

31

00:01:16,000 --> 00:01:18,000

Did you hear any sound?

32

00:01:18,000 --> 00:01:20,000

I did hear it on the phone.

33

00:01:20,000 --> 00:01:25,000

Did that make you a little more curious about what you were looking at?

34

00:01:25,000 --> 00:01:27,000

It was a little more curious.

35

00:01:27,000 --> 00:01:29,000

Was it moving at that step?

36

00:01:29,000 --> 00:01:31,000

It was moving.

37

00:01:31,000 --> 00:01:35,000

When it did move, did it move fast?

38

00:01:35,000 --> 00:01:38,000

It was going really fast.

39

00:01:38,000 --> 00:01:41,000

How long would it have been hovering when you were looking at it?

40

00:01:41,000 --> 00:01:42,000

About 12?

41

00:01:42,000 --> 00:01:43,000

About 12.

42

00:01:43,000 --> 00:01:49,000

I tried to get that close to it when I first stopped the car and got out.

43

00:01:49,000 --> 00:01:54,000

It stood there for a while, and it worked 5-2 seconds.

44

00:01:54,000 --> 00:01:56,000

It didn't stay there long when I stopped.

45

00:01:56,000 --> 00:01:58,000

It managed like that or it just didn't move away?

46

00:01:58,000 --> 00:02:01,000

I see it move away, but it was very good.

47

00:02:01,000 --> 00:02:03,000

It was filled with a horizontal position.

48

00:02:03,000 --> 00:02:05,000

Hey, Ron.

49

00:02:05,000 --> 00:02:07,000

What do you think it was?

50

00:02:07,000 --> 00:02:09,000

Could it have been an aircraft?

51

00:02:09,000 --> 00:02:10,000

I don't know.

52

00:02:10,000 --> 00:02:12,000

What color was this plane on the top?

53

00:02:12,000 --> 00:02:14,000

That's right, it was a bright light.

54

00:02:14,000 --> 00:02:16,000

That's the crew name.

55

00:02:16,000 --> 00:02:18,000

It just turned like that.

56

00:02:18,000 --> 00:02:21,000

Were you in the car at the time?

57

00:02:21,000 --> 00:02:23,000

Did you stop the car at all to get out?

58

00:02:23,000 --> 00:02:24,000

Oh yeah, I stopped.

59

00:02:24,000 --> 00:02:26,000

I got out and parked.

60

00:02:26,000 --> 00:02:28,000

I was in the car.

61

00:02:28,000 --> 00:02:29,000

I was in the car at 6.

62

00:02:29,000 --> 00:02:31,000

It was a crash.

63

00:02:31,000 --> 00:02:34,000

Did it make any noise that you could hear?

64

00:02:34,000 --> 00:02:36,000

No, it didn't.

65

00:02:36,000 --> 00:02:39,000

No photo of Sam at all.

66

00:02:39,000 --> 00:02:43,000

Did this thing have any kind of light or beam?

67

00:02:43,000 --> 00:02:45,000

Light coming out from it, obviously.

68

00:02:45,000 --> 00:02:47,000

Not shining down on the dirt.

69

00:02:47,000 --> 00:02:50,000

It was right out in front of it, just like an airplane.

70

00:02:50,000 --> 00:02:53,000

Was it pulsating at all or was it a constant light?

71

00:02:53,000 --> 00:02:54,000

It was burning.

72

00:02:54,000 --> 00:02:56,000

They want a blink and arrow.

73

00:02:56,000 --> 00:02:58,000

They want a light on it.

74

00:02:58,000 --> 00:03:00,000

I think it was awfully quiet, huh?

75

00:03:00,000 --> 00:03:02,000

How big do you think the thing was?

76

00:03:02,000 --> 00:03:04,000

Could you estimate?

77

00:03:04,000 --> 00:03:05,000

Well, it was...

78

00:03:05,000 --> 00:03:09,000

I don't think it was quite as big as a small aircraft.

79

00:03:09,000 --> 00:03:10,000

Just that much.

80

00:03:10,000 --> 00:03:14,000

Now, Phil Stanton said that he didn't think it was much bigger than his car.

81

00:03:14,000 --> 00:03:17,000

It looked a little bigger than his car.

82

00:03:17,000 --> 00:03:19,000

Yeah, it was much smaller.

83

00:03:19,000 --> 00:03:22,000

I said, I said, I'm 17, 27.

84

00:03:22,000 --> 00:03:27,000

It was coming right down there, straight down this road, Jim.

85

00:03:27,000 --> 00:03:34,000

He got about the 3.018 cross-dialing and it just turned and went back towards your fizz.

86

00:03:34,000 --> 00:03:39,000

And that's probably when Phil thought as it was passing that way.

87

00:03:39,000 --> 00:03:41,000

It turned there.

88

00:03:41,000 --> 00:03:44,000

It was coming right... I said, I shouldn't stop, son.

89

00:03:44,000 --> 00:03:48,000

On the 3.018, he came right up with...

90

00:03:48,000 --> 00:03:50,000

Whether it was with the telepomp over.

91

00:03:50,000 --> 00:03:51,000

He got right about the...

92

00:03:51,000 --> 00:03:55,000

There was a telepomp over, I said, you know, 3.018, the next and down here.

93

00:03:55,000 --> 00:03:58,000

He just came right straight towards that way and it just turned like that.

94

00:03:58,000 --> 00:04:00,000

Could you see what it was made out of?

95

00:04:00,000 --> 00:04:02,000

No, you could tell when it was up, what it was made out of.

96

00:04:02,000 --> 00:04:04,000

You could see the shape on the back.

97

00:04:04,000 --> 00:04:07,000

Yeah, you could tell it was in a big shape, right?

98

00:04:07,000 --> 00:04:10,000

How many colored lights were together?

99

00:04:10,000 --> 00:04:12,000

Well, I never counted the lights on them.

100

00:04:12,000 --> 00:04:13,000

But how many colors was there?

101

00:04:13,000 --> 00:04:15,000

A white, white, white, two in the original color.

102

00:04:15,000 --> 00:04:18,000

Red and green and then the bright light.

103

00:04:18,000 --> 00:04:22,000

These three just, of course, just had bright lights in the front of it.

104

00:04:22,000 --> 00:04:23,000

From what light?

105

00:04:23,000 --> 00:04:27,000

Well, the one night in Trump was just like a headlight on an audible field.

106

00:04:27,000 --> 00:04:29,000

It was shining right straight down in front of you.

107

00:04:29,000 --> 00:04:33,000

Now, somebody said they seemed more shining down, but I never seen them.

108

00:04:33,000 --> 00:04:36,000

How long did this whole thing, from the time you started to the time?

109

00:04:36,000 --> 00:04:42,000

Well, now from the time I seen it and getting after the highway noise about eight minutes to get to it.

110

00:04:42,000 --> 00:04:43,000

And it was...

111

00:04:43,000 --> 00:04:44,000

It turned.

112

00:04:44,000 --> 00:04:46,000

It started back towards the end of them.

113

00:04:46,000 --> 00:04:52,000

Well, that's when we got an audible field and we started off and we picked up a city man from out on that.

114

00:04:52,000 --> 00:04:55,000

And he was right beside it and then he started picking up a speeding.

115

00:04:55,000 --> 00:04:58,000

I got up to a hundred and he just left and...

116

00:04:58,000 --> 00:05:04,000

And the army, I showed me where they got something like that and showed me how to take it up and say on the thing, mate.

117

00:05:04,000 --> 00:05:06,000

I'll say that's what it was, but I don't see it either.

118

00:05:06,000 --> 00:05:07,000

Yeah, and you...

119

00:05:07,000 --> 00:05:08,000

It ain't no airplane.

120

00:05:08,000 --> 00:05:09,000

Oh, okay.

121

00:05:09,000 --> 00:05:10,000

They had these little lights.

122

00:05:10,000 --> 00:05:11,000

Yeah.

123

00:05:11,000 --> 00:05:12,000

These little lights around them.

124

00:05:12,000 --> 00:05:13,000

Okay, and...

125

00:05:13,000 --> 00:05:14,000

These little lights around him.

126

00:05:14,000 --> 00:05:15,000

Okay, and what color?

127

00:05:15,000 --> 00:05:16,000

Were they all the same?

128

00:05:16,000 --> 00:05:17,000

They were all the same.

129

00:05:17,000 --> 00:05:18,000

Well, they were real green.

130

00:05:18,000 --> 00:05:19,000

They were green.

131

00:05:19,000 --> 00:05:21,000

They were different color.

132

00:05:21,000 --> 00:05:26,000

Now, when you were watching it, did they seem to go on and off or were they full of sort?

133

00:05:26,000 --> 00:05:27,000

They didn't blink a bit.

134

00:05:27,000 --> 00:05:28,000

That's what I was saying.

135

00:05:28,000 --> 00:05:29,000

They just stayed on.

136

00:05:29,000 --> 00:05:30,000

They did stay on.

137

00:05:30,000 --> 00:05:31,000

They blinked it off.

138

00:05:31,000 --> 00:05:34,000

I just wish this land let me give proof of what it is.

139

00:05:34,000 --> 00:05:35,000

It didn't blink a bit.

140

00:05:35,000 --> 00:05:40,000

If it blinked, I could have seen nothing, but it just turned.

141

00:05:40,000 --> 00:05:43,000

It was bright white on amber light.

142

00:05:43,000 --> 00:05:46,000

This was, it appeared to be a three-top level.

143

00:05:46,000 --> 00:05:54,000

I observed it through the night, on DAC, looking when I was traveling south and I was looking

144

00:05:54,000 --> 00:05:57,000

more like a north-eastly, east-killy direction.

145

00:05:57,000 --> 00:06:02,000

And this bright white, the amber light, it was illuminating the perimeter.

146

00:06:02,000 --> 00:06:07,000

If there were, it was so pretty, if there was any running lights along the perimeter of

147

00:06:07,000 --> 00:06:10,000

it, it would drown in them all, or they would blow the tree to death.

148

00:06:10,000 --> 00:06:16,000

This was seen about a minute and a half before I saw it, and rolled in by a rolling city policeman,

149

00:06:16,000 --> 00:06:22,000

which is 15 to 20 miles south of us, and a minute and a half after I saw it by an officer

150

00:06:22,000 --> 00:06:25,000

in St. Paul's, 10 miles north.

151

00:06:25,000 --> 00:06:29,000

And they were describing exactly the same time I saw it.

152

00:06:29,000 --> 00:06:34,000

Well, let me give a picture of five miles and I was running that child.

153

00:06:34,000 --> 00:06:38,000

I was running about 50 to 55 miles.

154

00:06:38,000 --> 00:06:47,000

It came down to the old, this way right here was dark.

155

00:06:47,000 --> 00:06:56,000

The whole pro-side road lit up, and just like the day light, and stationery all right here

156

00:06:56,000 --> 00:06:58,000

where I'm at right now.

157

00:06:58,000 --> 00:07:05,000

And I travel on, this is a trailer park couple of miles, about 300 yards.

158

00:07:05,000 --> 00:07:16,000

I travel on the hit, I pull over, and I stop, stop a tow car, got out, and looked up

159

00:07:16,000 --> 00:07:23,000

at it, and I was surprised, and had to look back, and I leashed back in the car, and I got my

160

00:07:23,000 --> 00:07:28,000

dozen officers out here in the car, and I looked up at it.

161

00:07:28,000 --> 00:07:35,000

And then I take them off, I got an airplane landing light, but I don't care about the

162

00:07:35,000 --> 00:07:37,000

tow car, and I try to get that back.

163

00:07:37,000 --> 00:07:41,000

And I think the light out of here, it'll get flint back.

164

00:07:41,000 --> 00:07:47,000

I take another look at it, and look at it with the nose.

165

00:07:47,000 --> 00:07:58,000

Then it moved at a west, and my way was to the west towards Robinson, and it moved away

166

00:07:58,000 --> 00:08:04,000

from me, I followed it about two miles, right when I was driving.

167

00:08:04,000 --> 00:08:07,000

I don't know how fast from you said it was going on that left.

168

00:08:07,000 --> 00:08:11,000

I got up to 85 or 90, and it walked until it left.

169

00:08:11,000 --> 00:08:13,000

How was it at this time?

170

00:08:13,000 --> 00:08:19,000

It had time, and it went up in there, and it went up about a little way up.

171

00:08:19,000 --> 00:08:25,000

I'd say, well, when it left me, it started with, I threw out this batch of light, I

172

00:08:25,000 --> 00:08:30,000

passed light on it, went up straight up in there, and then went out, moved down about

173

00:08:30,000 --> 00:08:31,000

it.

174

00:08:31,000 --> 00:08:34,000

That there was a good 200 mile-long hour, because it just walked right right from me.

175

00:08:34,000 --> 00:08:38,000

Chief, when you first observed the object, did it come from any particular direction,

176

00:08:38,000 --> 00:08:39,000

or did it rise from the tree?

177

00:08:39,000 --> 00:08:43,000

It came right down over, right down on top of it, like it was going to hit the car.

178

00:08:43,000 --> 00:08:44,000

It got pulled over.

179

00:08:44,000 --> 00:08:47,000

Now, the question, what did you say it got to you?

180

00:08:47,000 --> 00:08:48,000

About 200 feet.

181

00:08:48,000 --> 00:08:50,000

You didn't get a good look at it.

182

00:08:50,000 --> 00:08:52,000

I got a good look at it.

183

00:08:52,000 --> 00:08:55,000

It just climbed the crash for me.

184

00:08:55,000 --> 00:08:58,000

It was a big, big shape.

185

00:08:58,000 --> 00:09:02,000

Had lights all the way around it, with the big light.

186

00:09:02,000 --> 00:09:09,000

It looked to be about the size of a double, size of a stem wheel of a car that was shining

187

00:09:09,000 --> 00:09:12,000

down the main minute light.

188

00:09:12,000 --> 00:09:17,000

It would light up about, I'd say, at least 500 feet on both sides of the road.

189

00:09:17,000 --> 00:09:20,000

It just lit up in a circle, I think.

190

00:09:20,000 --> 00:09:22,000

Did it make any sound at all?

191

00:09:22,000 --> 00:09:23,000

Not a bit.

192

00:09:23,000 --> 00:09:27,000

Did it at any time just stop and hover in midair?

193

00:09:27,000 --> 00:09:30,000

Just one time, it stopped while I was driving.

194

00:09:30,000 --> 00:09:32,000

It stayed stopped about five minutes.

195

00:09:32,000 --> 00:09:36,000

So you don't think it could have been a dead or any kind of aircraft like that?

196

00:09:36,000 --> 00:09:38,000

Jack can't park in there.

197

00:09:38,000 --> 00:09:41,000

But where's Jack can park in there?

198

00:09:41,000 --> 00:09:44,000

Actually, Jack can't fly 200 feet.

199

00:09:44,000 --> 00:09:46,000

He can't fly 200 feet to start with.

200

00:09:46,000 --> 00:09:48,000

He can make the trees off.

201

00:09:48,000 --> 00:09:52,000

So you're positive it wasn't any kind of conventional aircraft then?

202

00:09:52,000 --> 00:09:55,000

It was not no aircraft.

203

00:09:55,000 --> 00:10:03,000

No, not that we have, but I saw a lot of it, but I've never seen it like that.

204

00:10:03,000 --> 00:10:05,000

It was not an helicopter.

205

00:10:05,000 --> 00:10:11,000

If it's been an helicopter, I would have just thought it was an helicopter.

206

00:10:11,000 --> 00:10:13,000

What caused you to blink like that?

207

00:10:13,000 --> 00:10:20,000

I just thought I'd blink to see if it was someone in it, if they'd blink it back at me.

208

00:10:21,000 --> 00:10:27,000

I was heading south on 1166, which is near my home.

209

00:10:27,000 --> 00:10:32,000

In fact, I was on my way to have lunch or supper.

210

00:10:32,000 --> 00:10:38,000

When we spotted the craft to the east, northeast, it immediately gave pursuit.

211

00:10:38,000 --> 00:10:41,000

And soon over took the craft.

212

00:10:41,000 --> 00:10:45,000

It hovered along the side of the roadway, approximately 100 yards away.

213

00:10:45,000 --> 00:10:50,000

As it was dark, I stepped outside of the vehicle and with my right arm,

214

00:10:50,000 --> 00:10:54,000

took the right switch and switched the lights on and off and sure enough,

215

00:10:54,000 --> 00:10:59,000

I got every spot from the front headlight or spotlight from the vehicle.

216

00:10:59,000 --> 00:11:04,000

The vehicle having two spotlights on it went on the front and went on the back.

217

00:11:04,000 --> 00:11:10,000

It then proceeded to move in a southwestern direction and I turned around to give pursuit again.

218

00:11:10,000 --> 00:11:14,000

It soon lost sight of the craft as it disappeared behind trees.

219

00:11:14,000 --> 00:11:19,000

I must say this, that I did get within 100 yards of the craft

220

00:11:19,000 --> 00:11:25,000

and was able to get it to signal back to me with its front headlight.

221

00:11:25,000 --> 00:11:33,000

Being 100 yards away, there's no possibility that it could have been mistaken for a Duller aircraft

222

00:11:33,000 --> 00:11:36,000

or any other man-made aircraft for that matter.

223

00:11:36,000 --> 00:11:38,000

I have never seen anything like it before.

224

00:11:39,000 --> 00:11:46,000

Well, we were on Philadelphia Road, headed north and just driving along into the northern area speed

225

00:11:46,000 --> 00:11:50,000

and I was driving the car and I was the first one to see it.

226

00:11:50,000 --> 00:11:54,000

I observed what I thought to be five big lights.

227

00:11:54,000 --> 00:11:58,000

I would say, oh, gifts to be about 100 feet in the air.

228

00:11:58,000 --> 00:12:06,000

And the moment I focused my eyes on them, it appeared that they were maybe going at a speed of about 50 miles an hour

229

00:12:06,000 --> 00:12:08,000

and then they speeded up like 100 miles an hour.

230

00:12:08,000 --> 00:12:11,000

And I went to tell my wife and two daughters to look.

231

00:12:11,000 --> 00:12:14,000

So let's see those lights and they did.

232

00:12:14,000 --> 00:12:20,000

And momentarily I'd taken my eyes back off of them to make a turn, a right hand turn.

233

00:12:20,000 --> 00:12:25,000

And my wife and daughter, they kept their eyes focused on it and they observed it.

234

00:12:25,000 --> 00:12:30,000

Going in a downward position, like headed towards the ground.

235

00:12:30,000 --> 00:12:35,000

And we followed it and it went down behind a house.

236

00:12:35,000 --> 00:12:42,000

I would say 16 to 24 inch street behind them, behind each one of them.

237

00:12:42,000 --> 00:12:48,000

I couldn't determine if there was smoke but it didn't appear to be smoke behind each one of them.

238

00:12:48,000 --> 00:12:50,000

It didn't even look like a flame.

239

00:12:50,000 --> 00:12:54,000

It was just a beautiful streak behind each one of them.

240

00:12:54,000 --> 00:12:58,000

And we had church at 630 and it was 515 at that time.

241

00:12:58,000 --> 00:13:01,000

And I thought the time we could get home and get dressed.

242

00:13:01,000 --> 00:13:08,000

It would be time for church but obviously we run into something we didn't anticipate running into.

243

00:13:08,000 --> 00:13:14,000

These people, they don't tell you if you come up with any kind of little story.

244

00:13:14,000 --> 00:13:19,000

It's got to be something that excites you whenever you see something like this.

245

00:13:19,000 --> 00:13:24,000

I really don't think at any time the trees even bothered them.

246

00:13:24,000 --> 00:13:27,000

I think they were high up enough.

247

00:13:27,000 --> 00:13:34,000

And I think that they were in a position to totally miss the trees in the house that we talked about.

248

00:13:34,000 --> 00:13:39,000

There's a big light in the center of it.

249

00:13:39,000 --> 00:13:43,000

And that light is as bright as any thing that I've ever seen.

250

00:13:43,000 --> 00:13:46,000

Bright is, I've never seen a light as bright as that.

251

00:13:46,000 --> 00:13:48,000

I've seen church lights for on airports.

252

00:13:48,000 --> 00:13:51,000

What I've never seen a light as bright as that thing.

253

00:13:51,000 --> 00:13:52,000

That light shines.

254

00:13:52,000 --> 00:13:55,000

It will shine right down towards the ground.

255

00:13:55,000 --> 00:13:57,000

And what color were all these lights?

256

00:13:57,000 --> 00:13:58,000

A different color light.

257

00:13:58,000 --> 00:14:02,000

There were blue lights, there were red lights, there were all different color lights on me.

258

00:14:02,000 --> 00:14:04,000

They didn't have no sound whatsoever.

259

00:14:04,000 --> 00:14:06,000

Now how did you determine that?

260

00:14:06,000 --> 00:14:07,000

Like did you go outside?

261

00:14:07,000 --> 00:14:11,000

I was sitting here, I was sitting in the building here, I didn't see anything.

262

00:14:11,000 --> 00:14:16,000

Did you go out at all just to see if you could get a closer look at it?

263

00:14:16,000 --> 00:14:19,000

Oh yeah, I went outside there and I couldn't hear a thing on it.

264

00:14:19,000 --> 00:14:22,000

We got a system right there.

265

00:14:22,000 --> 00:14:25,000

If there's any noise at all, I'd hear a picky dip.

266

00:14:25,000 --> 00:14:26,000

Really?

267

00:14:26,000 --> 00:14:27,000

Yeah.

268

00:14:27,000 --> 00:14:30,000

It would pick it up all the way across that bridge down yonder,

269

00:14:30,000 --> 00:14:33,000

or anybody who was by down back to that plant down yonder.

270

00:14:33,000 --> 00:14:34,000

That would pick it up.

271

00:14:34,000 --> 00:14:37,000

You mean you've got microphones set up down there that pick this up

272

00:14:37,000 --> 00:14:39,000

and then chance for the sound back in?

273

00:14:39,000 --> 00:14:40,000

Right.

274

00:14:40,000 --> 00:14:42,000

I just walked right out here on this driveway.

275

00:14:42,000 --> 00:14:43,000

Yeah.

276

00:14:43,000 --> 00:14:44,000

And I thought of things.

277

00:14:44,000 --> 00:14:45,000

Where was the killing point?

278

00:14:45,000 --> 00:14:49,000

It came from back in here towards the city's 95 Highway back in here.

279

00:14:49,000 --> 00:14:52,000

Someone told me they traveled about 95 or something.

280

00:14:52,000 --> 00:14:56,000

They come across here, raise a canal right down here at the back of this plant down here.

281

00:14:56,000 --> 00:14:57,000

Yeah.

282

00:14:57,000 --> 00:14:58,000

And that's where he was at.

283

00:14:58,000 --> 00:15:00,000

He just was at the bud of the tree top.

284

00:15:00,000 --> 00:15:02,000

I thought he was touching the tree top.

285

00:15:02,000 --> 00:15:03,000

Yeah.

286

00:15:03,000 --> 00:15:05,000

No sound whatsoever.

287

00:15:05,000 --> 00:15:06,000

So well.

288

00:15:06,000 --> 00:15:09,000

He came right up down here and just looked like he'd just come up there and stopped there

289

00:15:09,000 --> 00:15:10,000

for a little bit.

290

00:15:10,000 --> 00:15:11,000

Over what?

291

00:15:11,000 --> 00:15:12,000

Over the building over here?

292

00:15:12,000 --> 00:15:16,000

Well, right in front of the front office.

293

00:15:16,000 --> 00:15:17,000

Yeah.

294

00:15:17,000 --> 00:15:19,000

He was just in on hit over there.

295

00:15:19,000 --> 00:15:20,000

Right.

296

00:15:20,000 --> 00:15:24,000

He looked like he just came up there and stopped and set up a little bit and then he started

297

00:15:24,000 --> 00:15:25,000

the movement over and over.

298

00:15:25,000 --> 00:15:28,000

I never seen nothing move like the move.

299

00:15:28,000 --> 00:15:30,000

Our airplane can't come up there and do that.

300

00:15:30,000 --> 00:15:33,000

Our helicopter needs one without me hearing it.

301

00:15:33,000 --> 00:15:36,000

Tell me what happened when the lights went out.

302

00:15:36,000 --> 00:15:37,000

When was that?

303

00:15:37,000 --> 00:15:38,000

It happened two nights.

304

00:15:38,000 --> 00:15:39,000

That thing came back close.

305

00:15:39,000 --> 00:15:42,000

Two different nights on the Q's tonight and winds tonight.

306

00:15:42,000 --> 00:15:46,000

At the time it came from the same direction and it went back close to the same direction

307

00:15:46,000 --> 00:15:47,000

as it came from.

308

00:15:47,000 --> 00:15:51,000

All of these lights you on the front of the plant there, that's the lights that went out.

309

00:15:51,000 --> 00:15:54,000

We have one, two, three, four, five lights.

310

00:15:54,000 --> 00:15:57,000

Now where are these lights powered from?

311

00:15:57,000 --> 00:15:59,000

Are they powered by the same source that these lights over here?

312

00:15:59,000 --> 00:16:01,000

Same lights as those are down here.

313

00:16:01,000 --> 00:16:02,000

Were these still burning?

314

00:16:02,000 --> 00:16:03,000

They were still on.

315

00:16:03,000 --> 00:16:04,000

They were still on.

316

00:16:04,000 --> 00:16:05,000

Those was out.

317

00:16:05,000 --> 00:16:07,000

And yet they're all powered by the same source.

318

00:16:07,000 --> 00:16:08,000

That's right.

319

00:16:08,000 --> 00:16:11,000

The lights stayed out as long as that thing was.

320

00:16:11,000 --> 00:16:16,000

They were all down there and when it left, the lights came back on.

321

00:16:16,000 --> 00:16:20,000

I said at least five minutes that were out there.

322

00:16:20,000 --> 00:16:22,000

But it was just as plain as this.

323

00:16:22,000 --> 00:16:24,000

Obviously you got your hand here.

324

00:16:24,000 --> 00:16:25,000

Yeah.

325

00:16:25,000 --> 00:16:26,000

Just right out there.

326

00:16:26,000 --> 00:16:30,000

Just a hand that was touching the tree top that didn't miss much.

327

00:16:30,000 --> 00:16:31,000

It was right down on them.

328

00:16:31,000 --> 00:16:33,000

Yeah, if it was on a plane I would have heard it.

329

00:16:33,000 --> 00:16:36,000

A helicopter, it comes up and stops.

330

00:16:36,000 --> 00:16:38,000

It's going to make a noise.

331

00:16:38,000 --> 00:16:41,000

The motor's got to run to hold it up down there.

332

00:16:41,000 --> 00:16:43,000

And that thing did not have no noise whatsoever.
