

1

00:00:00,000 --> 00:00:07,720

It has been quite an excitement in the local area and over the nation in so-called flying

2

00:00:07,720 --> 00:00:16,280

saucers. It started in Texas and spread to a large part of the world, search. WKAT broadcast

3

00:00:16,280 --> 00:00:23,040

a special recorded interview with a sheriff in Texas who said he had witnesses of the

4

00:00:23,040 --> 00:00:28,880

so-called flying saucer which appears to be a brightly colored 8-shape object to under

5

00:00:28,880 --> 00:00:35,840

see his eye in. I'm off to speaking with Major General E. Pee-oh on the telephone now. Major

6

00:00:35,840 --> 00:00:42,080

Pee-oh is director of Washington DC of the National Investigations Committee on Aerial

7

00:00:42,080 --> 00:00:49,320

Phenomenon which is a big organization which was organized over a year ago to investigate

8

00:00:49,320 --> 00:00:55,560

the subject of flying saucers. Major Pee-oh, would you have a statement to make on the

9

00:00:55,560 --> 00:01:04,680

basis for a defining report? Yes, I might be glad to. These reports would seem to be

10

00:01:04,680 --> 00:01:12,840

very authentic to indicate that an angular field of object could be any of the anything

11

00:01:12,840 --> 00:01:20,720

that we have made, but this report doesn't say, has been operating at a very low altitude

12

00:01:20,720 --> 00:01:29,160

and at this machine, there's some kind of force field which can cut out or affect the

13

00:01:29,160 --> 00:01:37,800

second of a car, the headlights, radios, TV. There are numerous incidents in the past that

14

00:01:37,800 --> 00:01:42,800

are likely to prove that this can be done. So it seems that when you have a room that's

15

00:01:42,800 --> 00:01:50,320

long low over areas, TV sets you down on the blank and there are cars that stop, radios

16

00:01:50,640 --> 00:01:56,880

that stop. But these new cases are so aesthetic that because there were recent people in the

17

00:01:56,880 --> 00:02:04,720

White House by James Sien, a young man who reported that there's car radios there about

18

00:02:04,720 --> 00:02:09,840

and then there's engines stopped and ten other drivers have the same experience. The

19

00:02:09,840 --> 00:02:16,080

horse on this train got about two to three hundred feet plan and by the time it was

20

00:02:16,160 --> 00:02:22,320

later that it was even larger, up to five hundred feet, moving at very high speed,

21

00:02:22,320 --> 00:02:30,320

I understand the control. This kind of scene was seen apparently at the same time in Chicago.

22

00:02:31,760 --> 00:02:38,640

Sometimes later, and the solar objects were seen around two to three days before that over the

23

00:02:38,640 --> 00:02:44,880

BG Islands, which was several of these states, for example, was forced operating around the

24

00:02:44,880 --> 00:02:51,280

Earth. I think that this is followed by a capable, a bad by Professor Hemman Obrist,

25

00:02:52,320 --> 00:02:58,160

a great rocket designer, Wilbur Smith, a family head of the Canadian UFO project,

26

00:02:59,120 --> 00:03:05,360

who indicated that any object with no gravitational field should be expected to have

27

00:03:05,360 --> 00:03:13,520

a electromagnetic force field, which would have several effects, exactly like the one described.

28

00:03:14,560 --> 00:03:20,240

However, there's one other angle which I don't like and some of the engineers I've talked with

29

00:03:20,240 --> 00:03:29,600

have been that a big man is supposed to really burn as not to be indicated. There may be radiation

30

00:03:29,600 --> 00:03:35,600

involved, but in that case, it is something that should be investigated very seriously.

31

00:03:36,560 --> 00:03:42,720

And you may want to know, as the employees in Tokyo Least, they have already,

32

00:03:42,720 --> 00:03:48,480

they have already laid our stations here and abroad and also asked the Canadians

33

00:03:49,120 --> 00:03:56,960

to watch out for UFOs and make this a report. So that with the next few days, we may have some

34

00:03:56,960 --> 00:04:04,320

very important information on this subject. Thank you very much, Major. There's one other thing,

35

00:04:05,040 --> 00:04:11,920

being a user thing, a Zeno interface, I can't ask you for an official statement from the

36

00:04:11,920 --> 00:04:16,960

government angle, but there's a new book which has just been published last week called,

37

00:04:16,960 --> 00:04:23,680

Somperspost 30 Blue, written by 108 string fields, a former editor of the magazine The

38

00:04:23,680 --> 00:04:32,160

What is This Morning? In it, Mr. Stringfield challenges both directly and indirectly the

39

00:04:32,160 --> 00:04:38,160

Air Force, so with holding information in this, not in this, but in similar cases in the past,

40

00:04:38,800 --> 00:04:44,320

would you have a comment to make on the official attitude with regard to unidentified bombing

41

00:04:44,560 --> 00:04:50,400

outchecks? Well, it's changed for a very time. It is hard to tell a guy. It is very

42

00:04:50,400 --> 00:04:58,720

common to read the mail or their existence to speak, but they were real and official records

43

00:04:58,720 --> 00:05:03,600

which were not released, which meant that they were not only real, but they were very common spaces.

44

00:05:05,120 --> 00:05:12,400

But the latest bad is that they, they're not as consistent. I just don't want to stand up

45

00:05:12,960 --> 00:05:19,200

to a few days ago when these things began to come in. However, I have a seed you will find that

46

00:05:19,200 --> 00:05:25,920

that is a very intense investigation by Ampersons intelligence. I try to run out each one of

47

00:05:25,920 --> 00:05:32,320

these reports. They're really authentic ones. That is, it's extremely serious, may not, and I think

48

00:05:32,320 --> 00:05:38,800

this is going to force them into admitting it publicly. The ass-right in this particular case

49

00:05:38,800 --> 00:05:45,360

has said that it's undertaking an investigation of the object as it was described, broken Texas,

50

00:05:45,360 --> 00:05:51,760

and near the light stands a two-regard. In that case, there were two NPs, military police,

51

00:05:51,760 --> 00:05:57,200

who announced to base on the object. And just today, we've received an associate

52

00:05:57,200 --> 00:06:04,800

apprentice batch which said that a cost-guard cutter in the Gulf of Mexico reported seeing

53

00:06:05,360 --> 00:06:12,640

also the U.S. only retracted that radar for 27 minutes. What happened to these military reports?

54

00:06:13,760 --> 00:06:20,480

Well, in that case, the reason these things have broken into red is that you have a situation that's

55

00:06:20,480 --> 00:06:27,120

getting out of control officially. I wouldn't know. Ampersons would never have known. The people

56

00:06:27,120 --> 00:06:31,680

on the highway in their white stands probably would have been asked up to time and they'd taken

57

00:06:32,000 --> 00:06:37,680

side with the engineer who was waiting for the effort. Everyone kept moving around,

58

00:06:37,680 --> 00:06:41,520

but it had been told, I should tell them. But they're, they're very excited about what's

59

00:06:41,520 --> 00:06:47,840

moving to, and I mean, this nice society, it has broken out, and I don't think that's going to do

60

00:06:47,840 --> 00:06:54,080

this topic. They're, you're going to get more and more reports that have an official weight.

61

00:06:54,480 --> 00:07:03,280

One other, excuse me. Yes. One other thing, the 4,600 and second intelligence group,

62

00:07:03,280 --> 00:07:07,280

there's the one which investigates most of these military reports, isn't there?

63

00:07:07,280 --> 00:07:07,840

That's right.

64

00:07:07,840 --> 00:07:14,000

Is this the organization which has been called into the Texas Siding to check in?

65

00:07:14,800 --> 00:07:19,200

Well, they haven't, they haven't made this much, you know, it's going out to the

66

00:07:19,200 --> 00:07:23,040

audience because that's part of their order, the commanding order, whatever any

67

00:07:23,040 --> 00:07:28,720

shining experience it is, who's in our team from the 4,300 second intelligence group

68

00:07:28,720 --> 00:07:30,240

that they're in for impossible.

69

00:07:31,520 --> 00:07:38,880

This object in New Mexico was signed by units of the Newer Day, Staffordshire and others,

70

00:07:40,160 --> 00:07:47,520

right near the white stands proving ground, which is outside of Alamogordo.

71

00:07:47,520 --> 00:07:51,840

There has been a past history as there's not been these objects being seen over

72

00:07:51,840 --> 00:07:56,080

a period of years, years, what do you call, sensitive areas.

73

00:07:57,120 --> 00:08:02,960

Well, that's right, they've been seen many times over Alamogordo and New

74

00:08:02,960 --> 00:08:09,520

Mexico, and they've had to crush military stations and military stations.

75

00:08:10,560 --> 00:08:16,240

They've got a very great deal of information, the commanding area for the stations, and

76

00:08:17,520 --> 00:08:18,880

non-collection centers.

77

00:08:20,400 --> 00:08:24,960

One thing further, in regards to the committee which you are here about,

78

00:08:26,400 --> 00:08:34,640

there is a wire service report which says that the investigator from the NACAP is in the area,

79

00:08:34,640 --> 00:08:41,200

is named a chief of the, is it normal in the case like this to investigate personally these cases?

80

00:08:42,160 --> 00:08:49,440

Well, whatever is possible, if we have a member who kept them on the spot at the report,

81

00:08:50,240 --> 00:08:55,440

we approve that, that doesn't mean that he is a spiritual candidate to investigate it,

82

00:08:55,440 --> 00:09:01,680

but to collect the facts, in this case, we have to be a few miles away and we want it to be

83

00:09:01,680 --> 00:09:07,920

to the quarter and government to do as possible and just to interview the commissioners and share

84

00:09:08,880 --> 00:09:15,520

that information and we read it to us and at the same time get the greater trust with us.

85

00:09:16,400 --> 00:09:21,680

And we are going to ask all members that they do this,

86

00:09:22,960 --> 00:09:28,080

mindful of the fact that they are not speaking for NACAP, but they are collecting information for

87

00:09:28,080 --> 00:09:35,200

it and we not only like to have NACAP, but we listen to any Republican who have on any

88

00:09:35,200 --> 00:09:43,520

people in voices, send them in to NACAP and what is it? What seems to be the consensus as to what

89

00:09:43,520 --> 00:09:50,800

these things are, if they are things that not just some start understanding? Well, I think it's a

90

00:09:50,800 --> 00:09:56,160

little open to understanding because you will see that they have literally hundreds of events

91

00:09:56,160 --> 00:10:01,280

identified in through these problems and the other people trackers have their way not bad

92

00:10:01,600 --> 00:10:08,240

to tell our operators their voices, they are losing or sharing out practical notes,

93

00:10:08,240 --> 00:10:13,120

but they do accept the fact that they know what it's all about and that they think they are real.

94

00:10:14,160 --> 00:10:21,040

In that case, they will have to be seeking weapons, maybe on air, or they are from outside

95

00:10:21,040 --> 00:10:29,520

the area, from some other world, which is more advanced than real, we have certainly ruled out

96

00:10:30,160 --> 00:10:35,360

the fact that they are our own weapons because we wouldn't be building the same type of missiles

97

00:10:35,360 --> 00:10:43,280

and airplanes that can send them up things that we are now. However, we reckon, of course,

98

00:10:43,280 --> 00:10:49,120

still haven't said anything about recently, I do, about the Saucers and it's quite possible,

99

00:10:49,120 --> 00:10:57,280

they may claim that now the Saucers are dead, and that's just a ridiculous because for 10 years

100

00:10:57,280 --> 00:11:01,360

they've been working on an ordinary airplane that missiles and advanced hands to the perfect

101

00:11:01,360 --> 00:11:08,800

global weapon 10 or 12 years ago, who was forced to use the real basis to surrender and they would

102

00:11:08,800 --> 00:11:13,600

be surprised. So I think the evidence points to the interplanetary answers.
