

1

00:00:00,000 --> 00:00:07,000

Major Kehoe, just what are the functions and duties of the Natural Investigations Committee

2

00:00:07,000 --> 00:00:09,180

on aerial phenomena?

3

00:00:09,180 --> 00:00:15,080

Our committee investigates all factual reports, sightings of these unknown objects, submits

4

00:00:15,080 --> 00:00:19,720

them to our scientific advisors, and when we can reach a definite conclusion, we make

5

00:00:19,720 --> 00:00:21,480

the conclusions public.

6

00:00:21,480 --> 00:00:26,680

Our attempt is to inform the public of everything that can be told them without violating security.

7

00:00:27,240 --> 00:00:32,680

Now this information involves somewhat the flying saucer reports that have spread across

8

00:00:32,680 --> 00:00:34,400

the country and around the world.

9

00:00:34,400 --> 00:00:35,400

That's right.

10

00:00:35,400 --> 00:00:38,640

That's a bad name, but it is here, so we have to accept it.

11

00:00:38,640 --> 00:00:44,880

We use the word the Air Force uses, the term UFO or Unidentified Flying Objects.

12

00:00:44,880 --> 00:00:47,760

Well have these objects resembled a flying saucer?

13

00:00:47,760 --> 00:00:49,920

Is that why they reached that name?

14

00:00:49,920 --> 00:00:55,720

The majority of reports, and the Air Force agrees on that, are of disc-shaped objects,

15

00:00:55,720 --> 00:01:00,320

which have a diameter about one tenth out of their thickness, and they've been reported

16

00:01:00,320 --> 00:01:03,600

up in sizes over 300 feet in diameter.

17

00:01:03,600 --> 00:01:06,800

When was the first one sighted?

18

00:01:06,800 --> 00:01:13,320

During World War II, there were hundreds of reports of disc or rocket-shaped objects

19

00:01:13,320 --> 00:01:17,720

by our pilots over in Germany and on the bombing routes to Japan.

20

00:01:17,720 --> 00:01:19,800

Nobody used the word flying saucers then.

21

00:01:19,800 --> 00:01:22,800

They thought they were foreign devices, and we found out later that they thought they

22

00:01:22,800 --> 00:01:23,800

were ours.

23

00:01:24,400 --> 00:01:28,400

The mystery never was cleared up, but those were the first official sightings.

24

00:01:28,400 --> 00:01:34,520

Have there ever been any actions from these unidentified objects, such as shootings or

25

00:01:34,520 --> 00:01:36,520

incidents of any kind?

26

00:01:36,520 --> 00:01:39,120

No, there has been no proven hostilities.

27

00:01:39,120 --> 00:01:45,240

There have been three cases where planes have disappeared chasing these objects.

28

00:01:45,240 --> 00:01:50,840

One captain, Mantell, was killed back in 1948 chasing one of these saucers, and the Air Force

29

00:01:50,880 --> 00:01:54,960

stated this, and later made the suggestion to have all answers, but they never did have

30

00:01:54,960 --> 00:01:55,960

a conclusion.

31

00:01:55,960 --> 00:02:02,440

Does the Air Force work in cooperation with your committee in locating these things and

32

00:02:02,440 --> 00:02:03,440

reporting on them?

33

00:02:03,440 --> 00:02:04,440

Not officially.

34

00:02:04,440 --> 00:02:10,400

The Air Force policy, which has been set long ago, is to keep most of the facts undercover

35

00:02:10,400 --> 00:02:12,800

until they have all the answers.

36

00:02:12,800 --> 00:02:17,640

We don't like the policy, but in many of the times we find that people in the Air Force

37

00:02:17,680 --> 00:02:21,440

don't like it either, but it's set, and therefore of course they have to carry it out.

38

00:02:21,440 --> 00:02:26,280

We do get information from many people in the Air Force and also retired and reserve

39

00:02:26,280 --> 00:02:31,600

Air Force soldiers who are trying to get the truth for the public.

40

00:02:31,600 --> 00:02:37,960

Have more of these unidentified objects been sighted now in the current time as compared

41

00:02:37,960 --> 00:02:38,960

to years ago?

42

00:02:38,960 --> 00:02:41,680

No, they vary.

43

00:02:41,680 --> 00:02:44,840

Right now there is a slight increase in sightings.

44

00:02:44,920 --> 00:02:48,720

Most of these don't get into the newspapers or on the air, so there is an impression that

45

00:02:48,720 --> 00:02:50,200

there is complete law.

46

00:02:50,200 --> 00:02:53,960

Actually, there have been some very important sightings recently.

47

00:02:53,960 --> 00:02:55,920

They continue regularly all the time.

48

00:02:55,920 --> 00:02:56,920

That's right.

49

00:02:56,920 --> 00:02:59,080

They have kept on ever since World War II.

50

00:02:59,080 --> 00:03:06,080

There have been big increases several years ago, which did get into papers on the air,

51

00:03:06,080 --> 00:03:12,200

but after the Air Force set its new policy of closing up the files, naturally you don't

52

00:03:12,200 --> 00:03:13,200

get into them.

53

00:03:13,560 --> 00:03:14,560

Many times.

54

00:03:14,560 --> 00:03:19,600

But there is one recently, for instance, over the Pacific where two commercial jet liners,

55

00:03:19,600 --> 00:03:24,720

one of them a Pan American, the other British overseas airways corporation, just sighted

56

00:03:24,720 --> 00:03:31,040

a gigantic object, round object, apparently with an open space in the center like the

57

00:03:31,040 --> 00:03:35,880

planned space base suggested by Von Braun years ago, which of course we are just simply

58

00:03:35,880 --> 00:03:36,880

talking about.

59

00:03:36,880 --> 00:03:41,080

This thing moves so fast that it was over the horizon in a matter of minutes.

60

00:03:41,440 --> 00:03:47,320

It was also sighted and reported and confirmed by the Navy, sighted by a ship in the same

61

00:03:47,320 --> 00:03:48,320

area.

62

00:03:48,320 --> 00:03:55,160

So here we have this, apparently, huge space base, which was investigating our globe at

63

00:03:55,160 --> 00:03:56,960

that time on September 21st.

64

00:03:56,960 --> 00:04:04,760

October 3rd, out in Utah, in broad daylight, a smaller disk shape was seen by about eight

65

00:04:04,760 --> 00:04:10,080

pilots, a number of people on the ground, and was pursued by one pilot over Provo Airport.

66

00:04:11,080 --> 00:04:16,360

Down in Venezuela recently there was a sighting where a number of fishermen saw this thing

67

00:04:16,360 --> 00:04:20,400

and they were so terrified by it, they all jumped over there, both inside the swimmish

68

00:04:20,400 --> 00:04:21,800

shore, one man was drowned.

69

00:04:21,800 --> 00:04:24,800

There's been quite a lot of fear of these things, which has been built up because of

70

00:04:24,800 --> 00:04:25,800

the secrecy.

71

00:04:25,800 --> 00:04:31,160

Are there any conclusions to this, just where these machines are coming from?

72

00:04:31,160 --> 00:04:34,360

We're not drawing any definite conclusion.

73

00:04:34,360 --> 00:04:40,240

However, it is interesting that every time Mars approaches the Earth, there is a noticeable

74

00:04:40,240 --> 00:04:41,240

increase in sighting.

75

00:04:41,240 --> 00:04:43,240

So this has happened since 1948.

76

00:04:43,240 --> 00:04:49,480

Now, that doesn't mean that they are based on Mars, although it indicates they may be.

77

00:04:49,480 --> 00:04:50,480

Possibly there is a base.

78

00:04:50,480 --> 00:04:52,280

It may be the originator of Mars.

79

00:04:52,280 --> 00:04:53,480

We don't know.

80

00:04:53,480 --> 00:04:57,080

What about seeing actual persons or beings aboard?

81

00:04:57,080 --> 00:04:59,280

Has this ever been done?

82

00:04:59,280 --> 00:05:03,200

Of course, there have been many wild tales of people who claim that things have talked

83

00:05:03,200 --> 00:05:08,240

with the specimen who came down and stepped out of flying saucers, but we know of only

84

00:05:08,240 --> 00:05:09,240

one or two cases.

85

00:05:09,240 --> 00:05:15,040

We accept this as authentic where they saw some kind of creature.

86

00:05:15,040 --> 00:05:18,960

These creatures were simply seen vaguely, some kind of movement behind the ports or

87

00:05:18,960 --> 00:05:19,960

control panels.

88

00:05:19,960 --> 00:05:26,960

And as far as we know, they're simply the creatures of intelligence and interest in

89

00:05:26,960 --> 00:05:31,320

this planet and so on, and that's as much information as we have.

90

00:05:31,320 --> 00:05:36,520

But they haven't made any official contact or tried to?

91

00:05:36,520 --> 00:05:39,520

There have been several brief landings where they've touched down.

92

00:05:39,520 --> 00:05:46,000

Now, that's as contrasted with these wild claims, that they have touched down and the

93

00:05:46,000 --> 00:05:50,040

ground has been found radioactive where they rested on the ground for a few moments.

94

00:05:50,040 --> 00:05:55,400

I don't think we have any proof of any of these beings ever came out during those landings.

95

00:05:55,400 --> 00:05:59,800

I'd like to ask you some more questions, Major Kehoe, and so I'll continue with my capital

96

00:05:59,800 --> 00:06:02,960

of silent in just one minute.

97

00:06:02,960 --> 00:06:10,840

Major Kehoe, these unidentified objects that have been seen and cited and reported on,

98

00:06:10,840 --> 00:06:16,200

are reports coming in from overseas anywhere that they also are seeing them and are their

99

00:06:16,200 --> 00:06:18,160

stories as to what they look like?

100

00:06:18,160 --> 00:06:20,080

Are they the same as our stories?

101

00:06:20,080 --> 00:06:21,080

Do they compare?

102

00:06:21,080 --> 00:06:22,080

Yes, they do.

103

00:06:22,080 --> 00:06:23,320

They're practically the same.

104

00:06:23,320 --> 00:06:28,560

They've been reports by the armed forces in most foreign countries and the airline

105

00:06:28,560 --> 00:06:33,320

pilots, astronomers, missile trackers, and so on.

106

00:06:33,320 --> 00:06:35,440

Discs and rocket-shaped devices.

107

00:06:35,440 --> 00:06:40,680

In one case, an RAF pilot in broad daylight cited a disc-shaped object that was coming

108

00:06:40,680 --> 00:06:44,480

at him head-on and he just barely missed it.

109

00:06:44,480 --> 00:06:49,560

The object was also seen by pilots and other jets in the same area.

110

00:06:49,560 --> 00:06:54,560

Down in Brazil a few years ago, an airliner flew right into the middle of a formation

111

00:06:54,560 --> 00:06:57,120

of discs, about 19 of them.

112

00:06:57,120 --> 00:07:01,680

They were estimated by the pilots as being about 100 feet in diameter.

113

00:07:01,680 --> 00:07:04,920

This close proximity scared almost all the passengers.

114

00:07:04,920 --> 00:07:10,280

For a moment everybody was running wild in the ship, or they could be quieted down.

115

00:07:10,280 --> 00:07:14,480

These objects then do fly in numbers, not just one, is that right?

116

00:07:14,480 --> 00:07:17,360

They've been reported in many times in formations.

117

00:07:17,360 --> 00:07:22,960

They've been reported in T and V formations, echelons, and changing from one to the other.

118

00:07:22,960 --> 00:07:30,200

For instance, from a circle to a line formation, giving absolute proof of intelligent control.

119

00:07:30,200 --> 00:07:31,520

How about actual speeds?

120

00:07:31,520 --> 00:07:36,040

Have there been any estimates as to just how fast they can travel?

121

00:07:36,040 --> 00:07:39,000

They were tracked out of White Sands at the proving ground.

122

00:07:39,000 --> 00:07:43,040

One object was tracked at 18,000 miles an hour.

123

00:07:43,040 --> 00:07:45,560

That was by theodolite.

124

00:07:45,560 --> 00:07:50,560

Four Navy scientists saw this object and they tracked it very carefully.

125

00:07:50,640 --> 00:07:54,000

There have been other tracking by radar and visual also.

126

00:07:54,000 --> 00:08:00,920

Now the Air Force, for instance, one night over the Gulf of Mexico, a crew of B-29 bombers

127

00:08:00,920 --> 00:08:06,120

tracked several small objects moving at about 5,240 miles an hour.

128

00:08:06,120 --> 00:08:09,080

They tracked them by top watch.

129

00:08:09,080 --> 00:08:14,160

They were seen off to one side by crewmen looking out the blister windows.

130

00:08:14,160 --> 00:08:18,560

Later a very large object appeared on the radar scope and one of these formations joined

131

00:08:18,560 --> 00:08:22,120

this object or merged with it or taken aboard.

132

00:08:22,120 --> 00:08:26,800

And then this huge machine speeded up and went off the scope at about 9,000 miles an

133

00:08:26,800 --> 00:08:27,800

hour.

134

00:08:27,800 --> 00:08:30,680

That's an official Air Force intelligence report.

135

00:08:30,680 --> 00:08:35,280

Is there any report of this from the Northern Headquarters in Colorado?

136

00:08:35,280 --> 00:08:37,120

Do they report on this?

137

00:08:37,120 --> 00:08:41,280

They report what they call unknowns.

138

00:08:41,280 --> 00:08:46,760

Unknowns can be anything from an unknown aircraft to some phenomena, something like that.

139

00:08:46,800 --> 00:08:49,480

There have been UFO reports many times.

140

00:08:49,480 --> 00:08:54,320

We've been told that by Air Force officers, for instance, Captain Edmund Gironde, who

141

00:08:54,320 --> 00:08:59,160

recently retired and was an intelligence officer as well as a command pilot, says that several

142

00:08:59,160 --> 00:09:03,720

times there were cases reported in a distant early warning system where they picked them

143

00:09:03,720 --> 00:09:08,000

up by radar and they were moving in such fantastic speeds that it couldn't possibly be anything

144

00:09:08,000 --> 00:09:10,000

Russian.

145

00:09:10,000 --> 00:09:13,840

And these were, of course, sent right on to intelligence, but they were never made public.

146

00:09:14,400 --> 00:09:17,600

Has there been any ideas to what makes them move?

147

00:09:17,600 --> 00:09:19,600

What type of power?

148

00:09:19,600 --> 00:09:20,960

Well, that's speculation again.

149

00:09:20,960 --> 00:09:28,800

Now, Professor Herman Overth, the great rocket designer, the father of space travel, has

150

00:09:28,800 --> 00:09:34,120

suggested that they are using a force which has an artificial gravity field.

151

00:09:34,120 --> 00:09:40,600

In other words, they can move through our atmosphere without heating up or breaking the sound barrier

152

00:09:40,600 --> 00:09:42,880

and causing a boom.

153

00:09:42,920 --> 00:09:45,440

But what causes the power itself, he doesn't say.

154

00:09:45,440 --> 00:09:50,640

It could be cosmic rays, it could be nuclear power, and since they have been radioactive

155

00:09:50,640 --> 00:09:55,120

where they've touched down, at least some of them, a few of them, at least must use nuclear

156

00:09:55,120 --> 00:09:56,120

power.

157

00:09:56,120 --> 00:09:59,920

But they may have some other power outside of our atmosphere, which we don't even know

158

00:09:59,920 --> 00:10:00,920

about.

159

00:10:00,920 --> 00:10:07,640

Do our scientists, and by that I mean scientists all over the earth, feel that these machines

160

00:10:07,640 --> 00:10:11,960

are able or is it possible for them to move around without breaking the sound barrier?

161

00:10:12,520 --> 00:10:15,920

Obviously, there have been a number of them that have agreed with Overth on that same

162

00:10:15,920 --> 00:10:22,520

theory that if they have an artificial gravity field, that would cause them to carry a small

163

00:10:22,520 --> 00:10:26,920

cushion of air, just as the earth takes its atmosphere with it, around which keeps them

164

00:10:26,920 --> 00:10:31,400

from heating up, they can go up to any speed as far as their power would permit.

165

00:10:31,400 --> 00:10:37,600

Quite a number of scientists have said that we should do a more careful investigation.

166

00:10:37,600 --> 00:10:43,680

For instance, Professor Charles P. Oliver, the President of the American Reader Society,

167

00:10:43,680 --> 00:10:50,080

recently said in a book, Challenge of Unidentified Flying Objects, that the subject of UFOs is

168

00:10:50,080 --> 00:10:54,960

one which should be studied scientifically, which it has not been due to suppression of

169

00:10:54,960 --> 00:11:00,600

pertinent data and also to subjecting reports of trained and reputable people to a ridicule.

170

00:11:00,600 --> 00:11:06,360

Well, that's the feeling held by quite a number of scientists who will help us privately,

171

00:11:06,400 --> 00:11:08,400

but they don't want to be ridiculed either.

172

00:11:08,400 --> 00:11:14,440

So, I feel that before very long, they will come out and probably join in a body and make

173

00:11:14,440 --> 00:11:16,880

this recommendation to Congress or the airport.

174

00:11:16,880 --> 00:11:27,880

Well, is there any explanation or any idea as to why these objects have not revealed

175

00:11:27,880 --> 00:11:32,800

themselves as far as making official contact with people, letting them know why they are

176

00:11:32,840 --> 00:11:36,440

here, what they are doing, if this has been going on for so many years?

177

00:11:36,440 --> 00:11:41,320

Has it been considered strange that they have never done anything to make any contact at

178

00:11:41,320 --> 00:11:42,320

all this time?

179

00:11:42,320 --> 00:11:45,560

That is the usual question, one of the big ones.

180

00:11:45,560 --> 00:11:48,360

There are several reasons why they might not.

181

00:11:48,360 --> 00:11:52,920

One of them might be that they are afraid of coming out on this planet where they are

182

00:11:52,920 --> 00:11:54,920

not immune to our diseases.

183

00:11:54,920 --> 00:11:59,720

We've recently given a lot of thought to our landing on other planets and worrying about

184

00:11:59,720 --> 00:12:00,720

diseases there.

185

00:12:00,960 --> 00:12:04,800

Another thing, our gravity may be entirely different from there, which would make it

186

00:12:04,800 --> 00:12:07,160

difficult for them to maneuver around.

187

00:12:07,160 --> 00:12:09,680

They still may not be able to understand us.

188

00:12:09,680 --> 00:12:15,280

First, if they might be monitoring our rod death, perhaps they can't.

189

00:12:15,280 --> 00:12:18,920

They may have a lot of problems to solve about contacting us.

190

00:12:18,920 --> 00:12:24,000

Also, since we chase them and shoot at them frequently, and we chase them, the Air Force

191

00:12:24,000 --> 00:12:29,000

must chase any unidentified flying object like that by standing orders, they probably

192

00:12:29,080 --> 00:12:32,280

fear that they won't get a very good reception.

193

00:12:32,280 --> 00:12:37,680

But it looks as though they are trying to prepare for eventual communication and probably

194

00:12:37,680 --> 00:12:38,680

landing to.

195

00:12:38,680 --> 00:12:44,400

Do you feel that the fact that they have a machine that can move at such tremendous

196

00:12:44,400 --> 00:12:51,400

speeds and do so many things that we cannot do is an indication that they are much, much

197

00:12:51,400 --> 00:12:53,480

advanced over the Earth?

198

00:12:53,480 --> 00:12:57,000

Yes, I think that's fairly obvious.

199

00:12:57,000 --> 00:13:02,440

A number of scientists and others have said the same thing, as they must be, for instance,

200

00:13:02,440 --> 00:13:06,440

Professor Harlow Shapley, the former director of Harvard Observatory, said there must be

201

00:13:06,440 --> 00:13:11,960

at least 100 million planets that are populated, and many of them would have races far ahead

202

00:13:11,960 --> 00:13:12,960

of us.

203

00:13:12,960 --> 00:13:17,880

And since then, well, dozens of top astronomers have said the same thing.

204

00:13:17,880 --> 00:13:23,880

The majority leader of the House of Congress, and probably be our next speaker, McCormick,

205

00:13:24,240 --> 00:13:26,680

said that he told me the same thing.

206

00:13:26,680 --> 00:13:27,680

We were discussing this.

207

00:13:27,680 --> 00:13:30,800

He said that he believed that a number of these reports couldn't be explained.

208

00:13:30,800 --> 00:13:36,360

There was something going on, and we should be told the facts, whether or not the open

209

00:13:36,360 --> 00:13:38,480

or closed hearings had been decided.

210

00:13:38,480 --> 00:13:43,000

But he said that it seemed that if they were true, there must be intelligence as far ahead

211

00:13:43,000 --> 00:13:44,000

of us.

212

00:13:44,000 --> 00:13:46,160

I'd like to ask you some more questions, Major Kehoe.

213

00:13:46,160 --> 00:13:50,320

So I'll continue with my capital assignment in just one minute.

214

00:13:50,320 --> 00:13:55,760

There have been some reports lately about the project the Air Force has been undertaking

215

00:13:55,760 --> 00:13:59,320

regarding, as it was termed, a flying saucer.

216

00:13:59,320 --> 00:14:04,880

What connection does this flying saucer have with the unidentified objects, if any?

217

00:14:04,880 --> 00:14:10,000

Well, that is the Avro project, which was started five or six years ago when the Air

218

00:14:10,000 --> 00:14:11,400

Force took it over from the Canadians.

219

00:14:11,400 --> 00:14:17,320

They were trying to design a round device, a typical flying saucer, which would fly

220

00:14:17,320 --> 00:14:20,120

on jet power.

221

00:14:20,120 --> 00:14:24,000

However, they had been trying for some time to force down some of these objects, so that

222

00:14:24,000 --> 00:14:26,800

they could duplicate the propulsion system.

223

00:14:26,800 --> 00:14:28,680

The Avro was an intermediate step.

224

00:14:28,680 --> 00:14:32,160

They tried all these years, and finally they gave it up because the best they could do

225

00:14:32,160 --> 00:14:35,200

was get it about 15 or 20 feet off the ground.

226

00:14:35,200 --> 00:14:39,240

So after spending approximately \$10 million on it, they abandoned it.

227

00:14:39,240 --> 00:14:42,120

Do you think they'll continue this at a later date?

228

00:14:42,120 --> 00:14:43,640

No, I don't think so.

229

00:14:43,640 --> 00:14:46,640

They've given it everything they had on that particular approach.

230

00:14:46,680 --> 00:14:51,560

Now, if they can find the secret of the propulsion of these UFOs, then they certainly will.

231

00:14:51,560 --> 00:14:53,160

And they're still trying that.

232

00:14:53,160 --> 00:14:54,680

They're trying artificial gravity.

233

00:14:54,680 --> 00:14:58,800

There are about 20 projects in this country, some of them official and some of them in

234

00:14:58,800 --> 00:15:02,480

private industry, to get the secret of gravity control.

235

00:15:02,480 --> 00:15:07,720

Would there be any benefit in trying to build a vehicle of our own or a spacecraft that

236

00:15:07,720 --> 00:15:13,200

could move at such an outstanding speed that might overcome one of these things to capture

237

00:15:13,200 --> 00:15:14,200

it?

238

00:15:14,240 --> 00:15:16,160

Well, I should think so.

239

00:15:16,160 --> 00:15:21,200

We had an awful record statement from one Air Force career officer who said that it

240

00:15:21,200 --> 00:15:23,720

would be the greatest thing in the world if the Air Force could get one of these in

241

00:15:23,720 --> 00:15:26,640

its hands and find out all the secrets.

242

00:15:26,640 --> 00:15:31,440

Providing Russia didn't do it at the same time, we would be very quickly ahead of it.

243

00:15:31,440 --> 00:15:35,480

Not only here on Earth, but of course in our space exploration.

244

00:15:35,480 --> 00:15:41,160

All these reports have been from people and the Air Force that there are unidentified

245

00:15:41,160 --> 00:15:47,880

objects and they all agree that they are shaped the same and what have you.

246

00:15:47,880 --> 00:15:52,720

Well, do any of these objects have special windows or do they have any portholes?

247

00:15:52,720 --> 00:15:54,920

Have they ever been seen that closely?

248

00:15:54,920 --> 00:15:57,520

They could really describe the right to detail.

249

00:15:57,520 --> 00:16:01,600

Yes, some of them have been seen close enough to get a fairly good picture.

250

00:16:01,600 --> 00:16:08,120

The captain, child of Eastern Airlines and his co-pilot, Captain Whitehead, cited one

251

00:16:08,120 --> 00:16:13,320

of these objects as a projectile type approaching them on an airway and it veered at the last

252

00:16:13,320 --> 00:16:18,720

second and they were put to one side and they said it had two rows of ports through which

253

00:16:18,720 --> 00:16:23,800

they could see blue fluorescent light and it had to look like a radar snout or a pole

254

00:16:23,800 --> 00:16:29,480

up on the nose and some type of exhaust similar to jet propulsion.

255

00:16:29,480 --> 00:16:32,480

It turns so sharply that the blast rocked this airliner.

256

00:16:32,480 --> 00:16:37,160

There have been two or three other cases where men of this policy describe the same type

257

00:16:37,200 --> 00:16:39,080

of thing with windows or ports.

258

00:16:39,080 --> 00:16:46,280

Now the disc, there you often get a report of lighted openings around the edges whether

259

00:16:46,280 --> 00:16:51,280

that is an exhaust opening or observation port, I don't know.

260

00:16:51,280 --> 00:16:58,040

Several of these discs have also been reported with small turret or dome effects on top.

261

00:16:58,040 --> 00:17:03,000

And one report we had recently where one of the witnesses was so frightened that he practically

262

00:17:03,040 --> 00:17:08,800

blacked out was of the openings in the forward part of this disc as it came down and hovered

263

00:17:08,800 --> 00:17:14,080

over the car through which he could see figures moving apparently looking down at them.

264

00:17:14,080 --> 00:17:17,080

So in that one at least there were windows.

265

00:17:17,080 --> 00:17:22,080

Well then your committee is definitely assured that these objects do exist.

266

00:17:22,080 --> 00:17:25,080

There is no doubt in your mind about that.

267

00:17:25,080 --> 00:17:27,680

In the majority of mine, yes.

268

00:17:27,760 --> 00:17:33,760

Our board of governors and advisors have evaluated these many sightings as massive evidence and

269

00:17:33,760 --> 00:17:39,760

have concluded, the majority have concluded that the objects are real, they are under

270

00:17:39,760 --> 00:17:44,760

intelligent control superior to anything we have and they come from an unknown source.

271

00:17:44,760 --> 00:17:51,260

One of the board members who gave that opinion was Vice Admiral R.H. Hill and got her form

272

00:17:51,260 --> 00:17:53,760

ahead of Central Intelligence Agency.

273

00:17:53,840 --> 00:17:59,400

A number of Air Force officers agreeing with this too, most of them who make a name are

274

00:17:59,400 --> 00:18:03,640

retired or reserved although many on active duty feel the same way.

275

00:18:03,640 --> 00:18:08,840

Colonel J. Bryan for instance says that they are real, he says they are in a planetary

276

00:18:08,840 --> 00:18:10,840

and the censorship is wrong and dangerous.

277

00:18:10,840 --> 00:18:17,840

Major Dewey Farne who is formerly the chief monitor for the Pentagon on this project has

278

00:18:17,840 --> 00:18:22,840

withheld information and is still withholding it, particularly sightings of the objects.

279

00:18:23,420 --> 00:18:28,420

I know it gives the impression however that we are trying to attack the Air Force.

280

00:18:28,420 --> 00:18:34,420

I think the Air Force is in a very bad spot and recently one officer told me that they

281

00:18:34,420 --> 00:18:38,840

agreed the policy was controlling them instead of their controlling the policy because over

282

00:18:38,840 --> 00:18:45,520

a period of years they have explained sightings one way or another even though the facts didn't

283

00:18:45,520 --> 00:18:51,120

always fit and many times it was mere speculation and now they are on record and they don't

284

00:18:51,200 --> 00:18:55,200

know exactly which way to turn to get it back on the track.

285

00:18:55,200 --> 00:18:58,960

The easiest way I think would be simply to say we did it in the public interest, we didn't

286

00:18:58,960 --> 00:19:02,440

want to frighten anybody, we were waiting to get all the answers, we haven't got them

287

00:19:02,440 --> 00:19:07,400

all now so we are going to give out what we have and that's what we hope to do and we

288

00:19:07,400 --> 00:19:13,900

are with the release of our five year report to Congress we are going to give this a copy

289

00:19:13,900 --> 00:19:19,760

to the sector of the Air Force and offer to cooperate in helping to put out this information

290

00:19:19,760 --> 00:19:25,560

to our organization and our members in 50 states and see if we can change the misunderstanding

291

00:19:25,560 --> 00:19:26,560

in the ridicule.

292

00:19:26,560 --> 00:19:29,040

Thank you Major Kehoe.

293

00:19:29,040 --> 00:19:34,320

I have been speaking with Major Donald Kehoe, Director of the National Investigations Committee

294

00:19:34,320 --> 00:19:36,440

on Aerial Phenomena.

295

00:19:36,440 --> 00:19:39,920

This is Al Levy of Mutual News in Washington.

296

00:19:39,920 --> 00:19:42,320

Capital assignment will continue in one minute.
