

1

00:00:30,000 --> 00:00:40,000

This year has been a big increase the last six months, and a lot more settings have been

2

00:00:40,000 --> 00:00:41,000

regularly passed.

3

00:00:41,000 --> 00:00:42,000

That's right.

4

00:00:42,000 --> 00:00:48,000

In many settings here, some of them in foreign countries, in most United States.

5

00:00:48,000 --> 00:00:55,000

You've run the books thousands and thousands of settings, most of which we have found in

6

00:00:55,000 --> 00:00:56,000

the Middle East.

7

00:00:56,000 --> 00:01:02,000

Twenty percent are unexploded, and those are the ones we concentrate on in this report.

8

00:01:02,000 --> 00:01:09,000

This is a seven-year report based on public reports and radar operators and other training

9

00:01:09,000 --> 00:01:10,000

services.

10

00:01:10,000 --> 00:01:14,000

Well, there's one out of five of the ones we're talking about.

11

00:01:14,000 --> 00:01:20,000

Now the Air Force, which is the official United States representative of speaking about this,

12

00:01:20,000 --> 00:01:23,000

I believe, issues, reports regularly.

13

00:01:23,000 --> 00:01:29,000

I have a new one here we called today down to Washington to get the very latest thing.

14

00:01:29,000 --> 00:01:31,000

And here, oh, there.

15

00:01:31,000 --> 00:01:35,000

Well, how are you doing, mother?

16

00:01:35,000 --> 00:01:39,000

Well, I'm in the Middle East.

17

00:01:39,000 --> 00:01:43,000

Well, how's that going on?

18

00:01:43,000 --> 00:01:48,000

Oh, but I'm not writing anything here.

19

00:01:48,000 --> 00:01:49,000

I'm not open-minded.

20

00:01:49,000 --> 00:01:50,000

I'm not open-eyed.

21

00:01:50,000 --> 00:01:55,000

I'm curious about things that don't lie down in this report.

22

00:01:55,000 --> 00:02:01,000

Let me quote Major Master of NJ, Public Information Division of the Department of Air Force, the

23

00:02:01,000 --> 00:02:02,000

Quality of the National Defense.

24

00:02:02,000 --> 00:02:06,000

The Air Force has responsibility for being air-defensive of the U.S.

25

00:02:06,000 --> 00:02:09,000

It is also interested in the air phenomenon.

26

00:02:09,000 --> 00:02:13,000

Sixteen years of tracking down reports, nine thousand.

27

00:02:13,000 --> 00:02:17,000

Not one has ever turned out to be a threat to American security, nor an example of advanced

28

00:02:17,000 --> 00:02:22,000

technology, or interplanetary or extraterrestrial origin.

29

00:02:22,000 --> 00:02:26,000

Well, that would seem to wash it out for a while.

30

00:02:26,000 --> 00:02:28,000

No, not because of the evidence.

31

00:02:28,000 --> 00:02:33,000

They have, that's the policy they've had for the last eight years.

32

00:02:33,000 --> 00:02:38,000

When I read this, it just says that not one, one of what?

33

00:02:38,000 --> 00:02:41,000

Not one has ever turned out to be a threat to American security.

34

00:02:41,000 --> 00:02:42,000

Well, that's a judgment.

35

00:02:42,000 --> 00:02:44,000

Somebody has to decide if it's a threat.

36

00:02:44,000 --> 00:02:45,000

Maybe there.

37

00:02:45,000 --> 00:02:50,000

A judgment is whether it's advanced technology, if you see something in the data,

38

00:02:50,000 --> 00:02:51,000

I'm thinking advanced.

39

00:02:51,000 --> 00:02:54,000

But, the people see things and have it forged.

40

00:02:54,000 --> 00:02:56,000

This report has been I have told them.

41

00:02:56,000 --> 00:03:00,000

Nor does the project, the book thing, which is all old-fashioned,

42

00:03:00,000 --> 00:03:02,000

let me read one more line.

43

00:03:02,000 --> 00:03:10,000

The unidentified group, the small group, that's one that contains hypothesis

44

00:03:10,000 --> 00:03:14,000

that certainly cause or explanation of the report with the description of the object

45

00:03:14,000 --> 00:03:19,000

or explosion which cannot be correlated with any known object or phenomenon.

46

00:03:19,000 --> 00:03:22,000

He gives itself a little kick head.

47

00:03:22,000 --> 00:03:25,000

If you don't know about it, we've got eight dollars.

48

00:03:25,000 --> 00:03:29,000

And that's what they are, unknown things, I tell you.

49

00:03:29,000 --> 00:03:36,000

Well, the positive evidence in the house, though, was so strong that our scientists

50

00:03:36,000 --> 00:03:41,000

and technical consultants on our board have concluded the majority of them.

51

00:03:41,000 --> 00:03:44,000

These things are superior to anything that we know.

52

00:03:44,000 --> 00:03:46,000

They're under intelligent control.

53

00:03:46,000 --> 00:03:51,000

And since they are far beyond anything we have here, they must be adjusted.

54

00:03:51,000 --> 00:03:54,000

But, it's superior to the big, faster beats.

55

00:03:54,000 --> 00:03:57,000

For instance, the highest speed of the Air Force admits this.

56

00:03:57,000 --> 00:04:02,000

The highest speed that they've definitely tracked from radar was over 9,000.

57

00:04:02,000 --> 00:04:06,000

You mean the Air Force that says nothing from A.S.T.A.T.R.S.T.R.

58

00:04:06,000 --> 00:04:09,000

goes 9,000 miles an hour?

59

00:04:09,000 --> 00:04:11,000

Well, that's the very odd part of it.

60

00:04:11,000 --> 00:04:13,000

They have all of these hundreds of cases.

61

00:04:13,000 --> 00:04:16,000

We have duplicates of about 400 of their cases.

62

00:04:16,000 --> 00:04:22,000

Now, that one in particular was where an object was seen flying about 9,000 miles an hour

63

00:04:22,000 --> 00:04:25,000

and several small objects came in and merged with it.

64

00:04:25,000 --> 00:04:28,000

Well, the assumption was that this was part of the carrier issue,

65

00:04:28,000 --> 00:04:31,000

but that was an official Air Force that tells it to go.

66

00:04:31,000 --> 00:04:37,000

I heard something about a report from the Navy about it, that's Maryland.

67

00:04:37,000 --> 00:04:38,000

We have that.

68

00:04:38,000 --> 00:04:47,000

On December 19, two radar objects, the object's going about 6,000 or 6,000 knots

69

00:04:47,000 --> 00:04:49,000

at 72 miles an hour.

70

00:04:49,000 --> 00:04:53,000

One of these objects made a very sharp 160 degree turn.

71

00:04:53,000 --> 00:04:58,000

Now, if you could think of anything that we have that would fly that fast in our atmosphere,

72

00:04:58,000 --> 00:05:02,000

even if this integrated, it would make a turn at that speed.

73

00:05:02,000 --> 00:05:04,000

So, this is something revolutionary.

74

00:05:04,000 --> 00:05:08,000

And these men signed a report, I have a copy of one of those,

75

00:05:08,000 --> 00:05:10,000

and there was no question about it.

76

00:05:10,000 --> 00:05:13,000

It was released and approved by the operations officer at the Doge.

77

00:05:13,000 --> 00:05:14,000

Of the Navy?

78

00:05:14,000 --> 00:05:16,000

What's the Air Force, they told me.

79

00:05:16,000 --> 00:05:21,000

The Air Force sent a Delta officer over there and told these men not to talk about it.

80

00:05:21,000 --> 00:05:25,000

By that time, the story leaked out and they came back and they said,

81

00:05:25,000 --> 00:05:30,000

either the radar objects are incompetent or your radar wasn't working,

82

00:05:30,000 --> 00:05:33,000

but they never examined the radar.

83

00:05:33,000 --> 00:05:37,000

Well, I had to wear this whole book and it was full of assumptions, is that right?

84

00:05:37,000 --> 00:05:39,000

No, they're really stuck.

85

00:05:39,000 --> 00:05:42,000

They started out, at first, very much worried about this.

86

00:05:42,000 --> 00:05:47,000

They thought maybe the Russians had jumped into the heat of the Ketschers outside.

87

00:05:47,000 --> 00:05:52,000

And then during World War II, they went back, they found out there were reports coming in,

88

00:05:53,000 --> 00:05:59,000

things going thousands of miles an hour, and obviously beyond anything that we get at that time.

89

00:05:59,000 --> 00:06:02,000

So they ruled out, and the Earth made devices.

90

00:06:02,000 --> 00:06:06,000

Well, the next question was if there were extra troops, who were they lost to?

91

00:06:06,000 --> 00:06:09,000

They were naturally doing a secret labor on the project.

92

00:06:09,000 --> 00:06:11,000

They kept the numbers at good.

93

00:06:11,000 --> 00:06:14,000

And they never happened, and they were found out and looked back at.

94

00:06:14,000 --> 00:06:16,000

So that's why it's secret.

95

00:06:16,000 --> 00:06:19,000

Well, they don't want to go that fast, that early something.

96

00:06:19,000 --> 00:06:21,000

They can hover.

97

00:06:21,000 --> 00:06:29,000

After analyzing about 4,000 reports, we select 750 to implement in this night care report.

98

00:06:29,000 --> 00:06:34,000

And the ball of talent, the fact that these things have some revolutionary power

99

00:06:34,000 --> 00:06:37,000

that induces an artificial gravity.

100

00:06:37,000 --> 00:06:41,000

They can accelerate to thousands of miles an hour, very quickly.

101

00:06:41,000 --> 00:06:46,000

They can make right angle turns without, you know, airplane bangs.

102

00:06:46,000 --> 00:06:48,000

Well, they don't have to do that.

103

00:06:48,000 --> 00:06:50,000

They can stop, reverse course.

104

00:06:50,000 --> 00:06:53,000

They can go vertically, or descend vertically.

105

00:06:53,000 --> 00:06:58,000

Has anyone ever come down to the ground where, you know, get your hands on it?

106

00:06:58,000 --> 00:07:05,000

The Sephora in case, you saw the picture of that, down New Mexico, I say so.

107

00:07:05,000 --> 00:07:07,000

April 24, 64.

108

00:07:07,000 --> 00:07:11,000

Now, the Air Force admits they have not really gone soft like this.

109

00:07:11,000 --> 00:07:15,000

They just came down and they were seen by the New Mexico patrolmen.

110

00:07:15,000 --> 00:07:18,000

And they came all posted to it.

111

00:07:18,000 --> 00:07:23,000

They destroyed the blast of flames in the barge and the golf and the spirit in Matters 2.

112

00:07:23,000 --> 00:07:29,000

I have a letter from your friend, Major Jacks, said to one of our members in which he says,

113

00:07:29,000 --> 00:07:31,000

we have no answer for this.

114

00:07:31,000 --> 00:07:33,000

We have never been able to solve it.

115

00:07:33,000 --> 00:07:36,000

But we don't concede to some known vehicle, West Matters base,

116

00:07:36,000 --> 00:07:38,000

so they just say there was a vehicle there.

117

00:07:38,000 --> 00:07:39,000

No, no, no.

118

00:07:39,000 --> 00:07:40,000

That's a question.

119

00:07:40,000 --> 00:07:42,000

The ones that keep it a secret, they don't know anything about it.

120

00:07:42,000 --> 00:07:46,000

If I might interrupt for a second, Major, we'll be right back in just a moment

121

00:07:46,000 --> 00:07:52,000

with more about UFO, but first, something that is identifiable, a commercial.

122

00:07:56,000 --> 00:07:58,000

I thought you made a sound with me.

123

00:07:58,000 --> 00:08:01,000

Well, uh, my cap.

124

00:08:01,000 --> 00:08:05,000

The investigating outfit to see what happens with the biologists.

125

00:08:05,000 --> 00:08:10,000

The address of my cap, if you, by the way, get a report or see something yourself,

126

00:08:10,000 --> 00:08:15,000

you want to contribute to my cap and I see it being Washington, D.C.

127

00:08:15,000 --> 00:08:20,000

The caliber of the people who send it to the courts, given what they're just talking about,

128

00:08:20,000 --> 00:08:23,000

is the most, to me, impressive.

129

00:08:23,000 --> 00:08:26,000

The two national people, for example, you mentioned.

130

00:08:26,000 --> 00:08:33,000

And airline pilots, people who are solver, industrious citizens, they've been trained in many ways.

131

00:08:33,000 --> 00:08:38,000

Even airline, Air Force pilots send them in sometimes enough without telling the Air Force.

132

00:08:38,000 --> 00:08:41,000

Why is it after all these years that Joe seems to know so little about it?

133

00:08:41,000 --> 00:08:43,000

Don't they have any definite evidence?

134

00:08:43,000 --> 00:08:45,000

They do have. They've had three different conclusions.

135

00:08:45,000 --> 00:08:48,000

And one of them is these things were interplanetary spaceships,

136

00:08:48,000 --> 00:08:52,000

and they sat on that for a long time, the monitor of our project.

137

00:08:52,000 --> 00:08:55,000

It's confirmed the fact there was a top secret report like that.

138

00:08:55,000 --> 00:09:00,000

Well, that's pretty much like doctors, whenever they can't figure out something they say is a virus.

139

00:09:00,000 --> 00:09:03,000

You know, it's a true decadent. They keep coming back to the same thing.

140

00:09:03,000 --> 00:09:04,000

They've proven nothing definite.

141

00:09:04,000 --> 00:09:07,000

Well, they're on the spot because they denied it so long.

142

00:09:07,000 --> 00:09:11,000

But now, when they finally do come out and say, well, we knew they were real,

143

00:09:11,000 --> 00:09:13,000

but we were doing it for the best interests of the public.

144

00:09:13,000 --> 00:09:16,000

Well, a lot of people out on Capitol Hill are going to be sore, and so will the press.

145

00:09:16,000 --> 00:09:21,000

Major, when you use that phrase, I assume that you're talking about the United States government,

146

00:09:21,000 --> 00:09:24,000

is the reason they don't want us, the people, to know about it,

147

00:09:24,000 --> 00:09:29,000

is because they fear that the people will be unable to cope with the situation of what?

148

00:09:29,000 --> 00:09:32,000

Well, that was the first fear that there would be hysteria,

149

00:09:32,000 --> 00:09:35,000

and I suppose there would be some excitement for 10 days,

150

00:09:35,000 --> 00:09:38,000

but after all, we've lived through the threat of an H-bomb,

151

00:09:38,000 --> 00:09:45,000

and everything else that I don't think could be killed any more dead by some unknown space device than with an H-bomb.

152

00:09:45,000 --> 00:09:51,000

But it's just that down in Pentagon, people get wrapped up and tied up in things.

153

00:09:51,000 --> 00:09:57,000

They stamp this top secret and that secret, and they hate to admit that they've been carrying this up for a long time.

154

00:09:57,000 --> 00:10:00,000

Well, the first people will simply do the things they want.

155

00:10:00,000 --> 00:10:02,000

You too, we didn't allow them to do the things they want.

156

00:10:02,000 --> 00:10:07,000

Actually, in July, when the Mariners, the Mariners that's down the way in Mars,

157

00:10:07,000 --> 00:10:10,000

they don't shoot back pictures of all our little green people,

158

00:10:10,000 --> 00:10:14,000

and it's going to knock this whole thing down, and now where are they coming from?

159

00:10:14,000 --> 00:10:22,000

Not necessarily, because the scientists recently lectured, incidentally lectured to the Air Force Cadets out at the Air Force Academy,

160

00:10:22,000 --> 00:10:26,000

and he believed the UFOs had told them so, and said the evidence was calling,

161

00:10:26,000 --> 00:10:29,000

and also believes they're intelligent on Mars.

162

00:10:29,000 --> 00:10:32,000

But the Air Force associates them out because they just may be.

163

00:10:32,000 --> 00:10:36,000

There's a civilization which has gone underground, and if that's so,

164

00:10:36,000 --> 00:10:43,000

because of the lack of oxygen, they wouldn't anything show to these photographs to be taken from about 6,000 miles out.

165

00:10:43,000 --> 00:10:46,000

Well, I honestly have never felt there was any life on the planet Mars,

166

00:10:46,000 --> 00:10:49,000

because they've never asked the United States for a loan.

167

00:10:50,000 --> 00:10:55,000

When the planet goes by, you may be thought I've bestowed a word like yes.

168

00:10:57,000 --> 00:11:00,000

This is a photograph, like that.

169

00:11:02,000 --> 00:11:08,000

That was very close, it doesn't look close there, but the close encounter with the Navy Super Constellation Transport,

170

00:11:08,000 --> 00:11:12,000

which was flying the Atlantic toward Gander-Newfoundland,

171

00:11:12,000 --> 00:11:16,000

and they saw this light that went down near the surface,

172

00:11:16,000 --> 00:11:20,000

and they filed a bank to take a look, and one of these objects immediately came up,

173

00:11:20,000 --> 00:11:29,000

and it almost collided with the transport, and then it reversed and came back and faced the Super Constellation for about 10 seconds, and so on.

174

00:11:29,000 --> 00:11:35,000

Well, he crawled out to an Indian village and then took him into a hospital, and it was in the hospital for a little while.

175

00:11:35,000 --> 00:11:40,000

Well, the first time I heard that, I thought that's a fault, because we've just given the lie detector test to another man,

176

00:11:40,000 --> 00:11:45,000

and he did make something very wild playing, and he didn't pass the test.

177

00:11:45,000 --> 00:11:54,000

So I thought, well, this is the same thing, but since then, they set out a jammer and found out that the ground around there was scorched,

178

00:11:54,000 --> 00:11:58,000

where this object had touched down, and the tops of the trees were scorched and broken,

179

00:11:58,000 --> 00:12:01,000

and this man couldn't have planned up to three of the broken ones.

180

00:12:01,000 --> 00:12:04,000

Well, to me, having made it, then, probably an alligator got him.

181

00:12:04,000 --> 00:12:07,000

Not even the semimoles that were at war with the Atlantic's stuff.

182

00:12:07,000 --> 00:12:11,000

Well, I know the gentleman, we've caused just pretty fear of this.

183

00:12:11,000 --> 00:12:13,000

You know you're expecting?

184

00:12:13,000 --> 00:12:17,000

We've caused just pretty belief in this commercial message all the way.

185

00:12:24,000 --> 00:12:32,000

This may be sees nightlife. We are in the midst of a discussion that you can hear amongst our host, Dave Garroway, and Major Keemo and Moran.

186

00:12:32,000 --> 00:12:36,000

I'm trying to make sure that a flying saucer isn't something my wife floated me.

187

00:12:37,000 --> 00:12:41,000

There's a thought, and wow, what do you think about that?

188

00:12:41,000 --> 00:12:42,000

Another one of these?

189

00:12:42,000 --> 00:12:44,000

No, this is just a mention of identification.

190

00:12:44,000 --> 00:12:48,000

Well, any UFO that may be watching, probably my wife.

191

00:12:51,000 --> 00:12:54,000

The United States Marine Corps, entirely, who was with Admiral Bird on these,

192

00:12:54,000 --> 00:12:58,000

but Admiral and the President of the A.D. and Colonel Bird,

193

00:12:58,000 --> 00:13:01,000

who had been very close to many operations,

194

00:13:01,000 --> 00:13:06,000

had probably this kind of thing, which he had become the leading,

195

00:13:07,000 --> 00:13:13,000

not proponent for, because I think the major is critical for parts of anybody I know.

196

00:13:13,000 --> 00:13:16,000

I'm just trying to say, I'm making these with public view,

197

00:13:16,000 --> 00:13:19,000

but most of the ones that come into you have described those two.

198

00:13:19,000 --> 00:13:23,000

No, I would say we've discovered about 15% immediately,

199

00:13:23,000 --> 00:13:28,000

and then the others, you put a question mark in front of any, that are pretty well backed.

200

00:13:28,000 --> 00:13:33,000

But when you find a group of, say, 25 or 30 people to impulsory our man,

201

00:13:34,000 --> 00:13:36,000

you don't put those outside.

202

00:13:36,000 --> 00:13:40,000

I think that over half the reports we have in our file are,

203

00:13:40,000 --> 00:13:45,000

they could be solid evidence, and I will take 20% of them as proof.

204

00:13:45,000 --> 00:13:50,000

Major, do you find it interesting that, I've read up on UFO to some degree,

205

00:13:50,000 --> 00:13:55,000

that the reports always seem to come from the wilds of New Mexico,

206

00:13:55,000 --> 00:13:57,000

or a little town in Florida.

207

00:13:57,000 --> 00:14:01,000

Why is it that you never hear of a UFO landing,

208

00:14:01,000 --> 00:14:05,000

or an accurate sighting near a big city like New York, Chicago?

209

00:14:05,000 --> 00:14:06,000

Is there a reason?

210

00:14:06,000 --> 00:14:08,000

No, it may have, but you just haven't read about them.

211

00:14:08,000 --> 00:14:11,000

Now, for instance, on January 11th this year,

212

00:14:11,000 --> 00:14:14,000

the formation of between 2012 and 2015,

213

00:14:14,000 --> 00:14:16,000

Oval Shades of the Crew right over Washington,

214

00:14:16,000 --> 00:14:20,000

the report was backed up by Lieutenant Colonel in the Army,

215

00:14:20,000 --> 00:14:26,000

six communications specialists in the Army, and a number of other people.

216

00:14:26,000 --> 00:14:29,000

Just before I came up here, I was talking with an FAA,

217

00:14:29,000 --> 00:14:34,000

Federal Aviation Agency man in control,

218

00:14:34,000 --> 00:14:37,000

who said that they did have some on the radio.

219

00:14:37,000 --> 00:14:40,000

Now the Air Force came up flatly and said it just didn't happen,

220

00:14:40,000 --> 00:14:41,000

it was all made up.

221

00:14:41,000 --> 00:14:43,000

Probably a bunch of Congressmen trying to handle it.

222

00:14:43,000 --> 00:14:47,000

So they've been sighted over many cities.

223

00:14:47,000 --> 00:14:49,000

That's a trouble you can take.

224

00:14:49,000 --> 00:14:52,000

Anyone who doesn't take the time to pour through all of this massive evidence

225

00:14:52,000 --> 00:14:55,000

is bound to be just as I did, I thought it was nothing.

226

00:14:55,000 --> 00:14:57,000

Well, that is the first I had to investigate this.

227

00:14:57,000 --> 00:14:59,000

I said, I'll do it, and you pay me for it,

228

00:14:59,000 --> 00:15:01,000

but I'm not going to hit my name on it.

229

00:15:01,000 --> 00:15:04,000

It was never quite a while back, but after talking to classmates

230

00:15:04,000 --> 00:15:06,000

and people who haven't even been able to see these things,

231

00:15:06,000 --> 00:15:08,000

and the better politics, you know,

232

00:15:08,000 --> 00:15:11,000

there's been a lot of people who have seen them,

233

00:15:11,000 --> 00:15:15,000

that, well, they can't be crazy, they wouldn't be letting them fly.

234

00:15:15,000 --> 00:15:19,000

What's your answer then to skeptics who say that anything as big as this

235

00:15:19,000 --> 00:15:23,000

no government, including our own, could keep secret?

236

00:15:23,000 --> 00:15:28,000

That if there was such a thing as a UFO,

237

00:15:28,000 --> 00:15:32,000

or there were such things that just by the sheer did of it,

238

00:15:32,000 --> 00:15:36,000

it's, you know, the fucking such a big story that they couldn't keep it secret.

239

00:15:36,000 --> 00:15:39,000

Well, and the answer is it isn't secret.

240

00:15:39,000 --> 00:15:42,000

They're trying to keep it secret, but organizations like ours,

241

00:15:42,000 --> 00:15:47,000

we have 6,000 members of which about 5,000 in the United States, all 50 states.

242

00:15:47,000 --> 00:15:50,000

We have members in the space program, in all the armed forces,

243

00:15:50,000 --> 00:15:54,000

some up on Capitol Hill, and we're bound to get leads.

244

00:15:54,000 --> 00:15:56,000

We get a lot of information.

245

00:15:56,000 --> 00:15:59,000

People are violating national security.

246

00:15:59,000 --> 00:16:02,000

They're maybe stepping over the line on military orders.

247

00:16:02,000 --> 00:16:05,000

But this is so big that it's bound to break out.

248

00:16:05,000 --> 00:16:08,000

Now, as you take a statement by Vice Admiral Hillen Carter,

249

00:16:08,000 --> 00:16:12,000

who was formerly head of the CIA at the Hotel in the States,

250

00:16:12,000 --> 00:16:15,000

he was on our border building for five years,

251

00:16:15,000 --> 00:16:17,000

and he finally made a statement.

252

00:16:17,000 --> 00:16:21,000

He said, these things are real and under intelligent control.

253

00:16:21,000 --> 00:16:22,000

It's important.

254

00:16:22,000 --> 00:16:25,000

It's so serious that Congress shouldn't have an investigation of them,

255

00:16:25,000 --> 00:16:26,000

as soon as possible.

256

00:16:26,000 --> 00:16:28,000

Now, you wouldn't call him a crack-buck.

257

00:16:28,000 --> 00:16:30,000

I couldn't go ahead, we had the time,

258

00:16:30,000 --> 00:16:32,000

and then 500 people right down the line

259

00:16:32,000 --> 00:16:36,000

who had the same high reputation and responsibility.

260

00:16:36,000 --> 00:16:38,000

And they have taken the time to go through it.

261

00:16:38,000 --> 00:16:40,000

It would take you three weeks to go through them,

262

00:16:40,000 --> 00:16:42,000

and then you detailed reports in this book.

263

00:16:42,000 --> 00:16:45,000

And they have a lot of things called Manhattan Projects,

264

00:16:45,000 --> 00:16:46,000

pretty secret areas.

265

00:16:46,000 --> 00:16:50,000

But can they actually feel that perhaps there are people in these various dens?

266

00:16:50,000 --> 00:16:55,000

I only met two or three cases where serious people claim to have seen it.

267

00:16:55,000 --> 00:16:56,000

Now, of course, there are plenty of crack-bots.

268

00:16:56,000 --> 00:17:00,000

We'll say they met the long-haired, golden-haired men from Venus,

269

00:17:00,000 --> 00:17:04,000

and one man said he married a woman from Saturn, and all that sort of thing.

270

00:17:04,000 --> 00:17:08,000

We've been knocking those things down until it's a great pleasure to find one of those,

271

00:17:08,000 --> 00:17:11,000

because I think Dave has spotted one of those.

272

00:17:11,000 --> 00:17:14,000

Yes, but he's looking around and running.

273

00:17:14,000 --> 00:17:18,000

But he's never stopped to figure that maybe the Martians are just shying.

274

00:17:18,000 --> 00:17:20,000

That's possible.

275

00:17:20,000 --> 00:17:24,000

They said, well, we'll let them know we're around, but we don't want to be nosy.

276

00:17:24,000 --> 00:17:27,000

Of course, the phrase intelligence, you know, they say,

277

00:17:27,000 --> 00:17:31,000

do you think there is intelligence in other parts of the cosmos?

278

00:17:31,000 --> 00:17:34,000

That presupposes that we are intelligent here on Earth,

279

00:17:34,000 --> 00:17:39,000

and I think you might get an argument as to whether what we exhibit toward each other.

280

00:17:39,000 --> 00:17:41,000

You really think a Martian would say that?

281

00:17:41,000 --> 00:17:43,000

I don't know.

282

00:17:43,000 --> 00:17:46,000

I'm very much pleased I was smart, because other planets have been around

283

00:17:46,000 --> 00:17:49,000

for maybe two or three million more years of culture.

284

00:17:49,000 --> 00:17:51,000

I wonder what they've learned in two to three million years.

285

00:17:51,000 --> 00:17:53,000

They might even know more than me.

286

00:17:53,000 --> 00:17:55,000

I would hope so.

287

00:17:55,000 --> 00:17:58,000

What point did you raise if I may say this briefly?

288

00:17:58,000 --> 00:18:00,000

About how this could be.

289

00:18:00,000 --> 00:18:03,000

But do you know that there's a very serious side to this?

290

00:18:03,000 --> 00:18:06,000

At least three Air Force officers have been lost chasing these things.

291

00:18:06,000 --> 00:18:09,000

They've been almost under an airline passage.

292

00:18:09,000 --> 00:18:12,000

They've been injured with a case of agent.

293

00:18:12,000 --> 00:18:15,000

He's died underneath, he's one or zoomed over,

294

00:18:15,000 --> 00:18:17,000

and a lot of these pilots are sort of there for us.

295

00:18:17,000 --> 00:18:19,000

They say, why don't they tell us what to do?

296

00:18:19,000 --> 00:18:22,000

Well, at least you can come in toward us, so it flies along the side.

297

00:18:22,000 --> 00:18:24,000

Come and they shot my radar.

298

00:18:24,000 --> 00:18:26,000

They're under the case of some radar.

299

00:18:26,000 --> 00:18:29,000

The radar's a good photo of our classified by Air Force Order.

300

00:18:29,000 --> 00:18:32,000

And there's an odd thing. Air Force Order 200-H2,

301

00:18:32,000 --> 00:18:35,000

which shows that you take time to read that, and it proves it.

302

00:18:35,000 --> 00:18:39,000

And it says, nobody may mention this to anyone, unless they're directed to do so.

303

00:18:39,000 --> 00:18:42,000

But we've got to copy them and start publicizing them.

304

00:18:42,000 --> 00:18:44,000

So what's now? It's secret.

305

00:18:44,000 --> 00:18:47,000

You can't get a copy. Not even a member of Congress can get a copy of them.

306

00:18:47,000 --> 00:18:51,000

Do you have a sensory major as to where they're from or what they indicate?

307

00:18:51,000 --> 00:18:53,000

No, I only know this.

308

00:18:53,000 --> 00:18:57,000

The things are real, and they're certainly something beyond anything we have.

309

00:18:57,000 --> 00:19:00,000

And they seem to be entering into a new phase,

310

00:19:00,000 --> 00:19:05,000

but then more of these cuts go in than they have had for years.

311

00:19:05,000 --> 00:19:08,000

And the Air Force is still chasing you with interceptors,

312

00:19:08,000 --> 00:19:10,000

and they may still be firing at you. I don't know.

313

00:19:10,000 --> 00:19:16,000

Why do you think they do not make themselves known if they are, or if there are people in them?

314

00:19:16,000 --> 00:19:21,000

Well, for one thing, if somebody's chasing you with a jet and firing at you every time you come down,

315

00:19:21,000 --> 00:19:24,000

most of them might not be encouraging you for one thing.

316

00:19:24,000 --> 00:19:25,000

That's another thing.

317

00:19:25,000 --> 00:19:29,000

Dr. Heineck, who is the Chief Air Force Consultant on this program,

318

00:19:29,000 --> 00:19:33,000

says that they may not have speaks that they may be using telepathy,

319

00:19:33,000 --> 00:19:35,000

and he's supposed to be able to serious science,

320

00:19:35,000 --> 00:19:38,000

but they just, it's part of that.

321

00:19:38,000 --> 00:19:42,000

Now the Puerto Rico and the huge radio astronomy base down there,

322

00:19:42,000 --> 00:19:45,000

they are now carrying on a trans-civite program,

323

00:19:45,000 --> 00:19:47,000

listening to messages from outer space.

324

00:19:47,000 --> 00:19:50,000

Well, if there is such a thing as thought-transference measures,

325

00:19:50,000 --> 00:19:53,000

I would like to transfer a strategic event,

326

00:19:53,000 --> 00:19:55,000

and I would like to say that it is a great honor,

327

00:19:55,000 --> 00:19:57,000

and it is a great honor, and it is a great honor,

328

00:19:57,000 --> 00:19:59,000

and it is a great honor, and it is a great honor,

329

00:19:59,000 --> 00:20:01,000

and it is a great honor, and it is a great honor,

330

00:20:01,000 --> 00:20:03,000

and it is a great honor, and it is a great honor,

331

00:20:03,000 --> 00:20:05,000

and it is a great honor, and it is a great honor,

332

00:20:05,000 --> 00:20:07,000

and it is a great honor, and it is a great honor,

333

00:20:07,000 --> 00:20:09,000

and it is a great honor, and it is a great honor,

334

00:20:09,000 --> 00:20:11,000

and it is a great honor, and it is a great honor,

335

00:20:11,000 --> 00:20:13,000

and it is a great honor, and it is a great honor,

336

00:20:13,000 --> 00:20:15,000

and it is a great honor, and it is a great honor,

337

00:20:15,000 --> 00:20:17,000

and it is a great honor, and it is a great honor,

338

00:20:17,000 --> 00:20:19,000

and it is a great honor, and it is a great honor,
