

1

00:00:00,000 --> 00:00:07,000

I want you to meet a gentleman who certainly knows more about this than anyone I know and

2

00:00:07,000 --> 00:00:10,000

that's why we have invited him to be with us.

3

00:00:10,000 --> 00:00:15,000

He is the formerly of the United States Air Force, he's now retired.

4

00:00:15,000 --> 00:00:19,000

He's the leading authority on the Unidentified Flying Objects.

5

00:00:19,000 --> 00:00:21,000

He's Major Donald Keelow. Welcome to the...

6

00:00:21,000 --> 00:00:34,000

You know, sometimes when the guests walks in and their back is turned, they're saying,

7

00:00:34,000 --> 00:00:39,000

Wild thanks to Major Keelow, if you'd better correct that, I'm Marine Corps, not Air Force.

8

00:00:39,000 --> 00:00:42,000

And boy, that needs correcting, doesn't it?

9

00:00:42,000 --> 00:00:45,000

Well, I do have some friends here.

10

00:00:45,000 --> 00:00:52,000

You explained these recent sightings that were recorded in the issue of lip-matching.

11

00:00:52,000 --> 00:00:57,000

Yes, that is mainly about the Exeter New Hampshire sightings on September 3rd.

12

00:00:57,000 --> 00:00:58,000

I can find them out.

13

00:00:58,000 --> 00:01:06,000

And it covers three interviews with 60 witnesses up there who saw one or more of these very strange

14

00:01:06,000 --> 00:01:09,000

objects coming down in the area of Exeter.

15

00:01:09,000 --> 00:01:13,000

I want to show this one photograph, which is just incredible.

16

00:01:14,000 --> 00:01:16,000

This is Marty Allen, may I be?

17

00:01:16,000 --> 00:01:17,000

Oh, you may, you.

18

00:01:17,000 --> 00:01:19,000

I didn't like my flying object.

19

00:01:19,000 --> 00:01:20,000

That's good.

20

00:01:20,000 --> 00:01:22,000

I thought I wasn't there.

21

00:01:22,000 --> 00:01:26,000

Ernie, can you get a close shot of this photograph right here and I'll let the Major explain it?

22

00:01:26,000 --> 00:01:29,000

There's no question that that is a photograph, actual photograph.

23

00:01:29,000 --> 00:01:32,000

We have an animal of the UFO right there.

24

00:01:32,000 --> 00:01:34,000

What about these recent sightings?

25

00:01:34,000 --> 00:01:36,000

Just go ahead and measure and let it...

26

00:01:36,000 --> 00:01:43,000

Well, in this case, the design line in there, an object was seen by a teenager who was hitchhiking

27

00:01:43,000 --> 00:01:48,000

towards Exeter and the thing came down toward him and it was enormous, round shaped and a

28

00:01:48,000 --> 00:01:53,000

brilliant red glow and he thought it was going to come down to the first of my pity and he

29

00:01:53,000 --> 00:01:54,000

dived into a ditch.

30

00:01:54,000 --> 00:01:59,000

Well, that doesn't sound very impressive, of course, but he went into the police station

31

00:01:59,000 --> 00:02:00,000

at Exeter.

32

00:02:00,000 --> 00:02:03,000

They drove back out, living, more or less to reassure him.

33

00:02:03,000 --> 00:02:11,000

And one police officer got out, Eugene Berkman, an Air Force veteran, and they saw this object

34

00:02:11,000 --> 00:02:16,000

rise up behind some trees and come toward him and he had a brilliant red glow that lit up

35

00:02:16,000 --> 00:02:22,000

the side of a house nearby and animals inside stabled and the dogs in nearby houses started

36

00:02:22,000 --> 00:02:27,000

making a terrific racket, apparently from a radiation or EM effect.

37

00:02:27,000 --> 00:02:29,000

And actually there's a closure by the policeman.

38

00:02:29,000 --> 00:02:30,000

He shot it.

39

00:02:30,000 --> 00:02:31,000

I've seen the thing myself.

40

00:02:31,000 --> 00:02:35,000

And he was scared and as a matter of fact, he started to grow his 38th and he thought

41

00:02:35,000 --> 00:02:39,000

better of it and he grabbed this young boy and they dived back into the police cruiser.

42

00:02:39,000 --> 00:02:42,000

Another policeman came up in a separate cruiser and he saw this thing.

43

00:02:42,000 --> 00:02:47,000

It was down at one time within about 40 or 50 feet of the ground and while they couldn't

44

00:02:47,000 --> 00:02:50,000

estimate the size, they could tell it was enormous.

45

00:02:50,000 --> 00:02:55,000

It was round and there was a series of pulsating lights that were going in sequence.

46

00:02:55,000 --> 00:02:58,000

One, two, three, four, five, five, four, three, two, one.

47

00:02:58,000 --> 00:03:01,000

In a regular order so there wasn't any hallucination.

48

00:03:01,000 --> 00:03:03,000

The major almost all of them.

49

00:03:03,000 --> 00:03:05,000

Excuse me, where is that accident?

50

00:03:05,000 --> 00:03:07,000

This was up at Exeter New Hampshire.

51

00:03:07,000 --> 00:03:08,000

Oh.

52

00:03:08,000 --> 00:03:14,000

By coincidence, that very same night two Texas deputy sheriffs fled from the scene of an

53

00:03:14,000 --> 00:03:17,000

encounter with one of these things at 110 miles an hour.

54

00:03:17,000 --> 00:03:20,000

They came down toward them and they were absolutely terrified.

55

00:03:20,000 --> 00:03:24,000

In fact, they signed a report that she had to that effect and they raced out of there

56

00:03:24,000 --> 00:03:27,000

and they said, well we better go back and take a look.

57

00:03:27,000 --> 00:03:31,000

They went back to the scene and they after came down toward them again and they took off the second time.

58

00:03:31,000 --> 00:03:37,000

Now almost always when people cite these objects, these flying saucers if you want to call them,

59

00:03:37,000 --> 00:03:43,000

when they disappear, what they say is almost standard, you know, that they disappear at such a tremendous rate of speed.

60

00:03:43,000 --> 00:03:48,000

In fact, our fastest jets, none of them have been able to maneuver fast enough for keeping them alive.

61

00:03:48,000 --> 00:03:49,000

No, that's right.

62

00:03:49,000 --> 00:03:56,000

There must be the one UFO sighting on record where the object was tracked at 18,000 miles an hour in our atmosphere.

63

00:03:56,000 --> 00:03:58,000

In our atmosphere, 18,000 miles an hour.

64

00:03:58,000 --> 00:04:03,000

And of course any normal machine operating in our atmosphere at that speed would burn up.

65

00:04:03,000 --> 00:04:05,000

It couldn't maneuver that fast.

66

00:04:05,000 --> 00:04:07,000

So this is something revolutionary.

67

00:04:07,000 --> 00:04:10,000

What in your opinion are these things that are being seen?

68

00:04:10,000 --> 00:04:15,000

Well, I agree with the airport's top secret conclusion that there are extraterrestrial machines.

69

00:04:15,000 --> 00:04:16,000

Some other...

70

00:04:16,000 --> 00:04:18,000

Some other civilizational...

71

00:04:18,000 --> 00:04:22,000

Again, a little bit farther ahead in space operations than we are.

72

00:04:22,000 --> 00:04:23,000

Where are we?

73

00:04:23,000 --> 00:04:30,000

Well, they must be because some of these objects have been described and tracked on radar as very huge machines.

74

00:04:30,000 --> 00:04:35,000

One of them over the Gulf of Mexico at least 1200 feet long.

75

00:04:35,000 --> 00:04:39,000

How can you be sure or are you sure that there are people in them?

76

00:04:39,000 --> 00:04:41,000

How can you be sure that they're not being...

77

00:04:41,000 --> 00:04:43,000

They wave out of the window.

78

00:04:44,000 --> 00:04:46,000

Well, you can't be absolutely sure.

79

00:04:46,000 --> 00:04:51,000

It's a miracle by the law of arbiters that if we have small devices with remote control,

80

00:04:51,000 --> 00:04:54,000

more advanced civilization undoubtedly would too.

81

00:04:54,000 --> 00:04:58,000

But when you get something, just for instance, 300 feet in diameter,

82

00:04:58,000 --> 00:05:04,000

such as what's seen over the Atlantic by Navy pilots and in the Far East by Air Force pilots,

83

00:05:04,000 --> 00:05:05,000

they must be...

84

00:05:05,000 --> 00:05:09,000

Unless they be enormous remote control devices, laboratories, right?

85

00:05:09,000 --> 00:05:11,000

There probably are some kind of things.

86

00:05:11,000 --> 00:05:16,000

How do you account for the fact that there has been a greater number of sightings recently than ever?

87

00:05:16,000 --> 00:05:18,000

Well, it seems to be a new phase.

88

00:05:18,000 --> 00:05:26,000

Within the last eight or nine months, there's been a triple increase of very close approaches and touch landings.

89

00:05:26,000 --> 00:05:30,000

One landing, for instance, in near Pretoria, South Africa.

90

00:05:30,000 --> 00:05:33,000

Two police officers were patrolling a few miles from the city.

91

00:05:33,000 --> 00:05:38,000

And they saw this disk, which was descended on right in the middle of the highway about 20 o'clock in the morning.

92

00:05:38,000 --> 00:05:42,000

If they came near, they took off and it was a blast of flame from underneath,

93

00:05:42,000 --> 00:05:46,000

which starts the pavement and the truck, its size, piece out of it.

94

00:05:46,000 --> 00:05:49,000

Now, this is confirmed by an official report from Africa.

95

00:05:49,000 --> 00:05:50,000

We have it.

96

00:05:50,000 --> 00:05:52,000

It's been real, Major.

97

00:05:52,000 --> 00:05:56,000

Why do you suppose that they don't communicate with us?

98

00:05:56,000 --> 00:05:59,000

Well, I would feel that we're so far behind them that they would have enough...

99

00:05:59,000 --> 00:06:01,000

Stop shooting. I think maybe that would help.

100

00:06:01,000 --> 00:06:02,000

Are we shooting you?

101

00:06:02,000 --> 00:06:03,000

We have shot.

102

00:06:03,000 --> 00:06:05,000

The Air Force has one side now that in order to shoot,

103

00:06:05,000 --> 00:06:11,000

they still have in order to intercept and identify, which means try to force one down if possible.

104

00:06:11,000 --> 00:06:17,000

And we have hundreds of reports from Air Force, Navy, Marine Corps, pilots, airline pilots,

105

00:06:17,000 --> 00:06:22,000

every major airline in this country, and the same across describing this.

106

00:06:22,000 --> 00:06:24,000

So there's no doubt about they're being real.

107

00:06:24,000 --> 00:06:26,000

They're just something way ahead of it.

108

00:06:26,000 --> 00:06:30,000

Well, half of the government's suppressed information on UFOs up to now.

109

00:06:30,000 --> 00:06:31,000

Yes, there is an order.

110

00:06:31,000 --> 00:06:32,000

Why?

111

00:06:32,000 --> 00:06:39,000

Well, the first officers on the project years ago told me that they were afraid of scaring the public.

112

00:06:39,000 --> 00:06:43,000

And some of them in the Air Force still think that they would frighten the public.

113

00:06:43,000 --> 00:06:48,000

I think that actually the public has been so conditioned by now that they'd be ready for almost anything.

114

00:06:48,000 --> 00:06:51,000

Yeah, they'll let them move in the neighborhood.

115

00:06:51,000 --> 00:06:54,000

Oh, some people have been frightened by these.

116

00:06:54,000 --> 00:06:57,000

It was the case in West Virginia some months ago.

117

00:06:57,000 --> 00:07:00,000

They were afraid that you could go to the right.

118

00:07:00,000 --> 00:07:01,000

And shot at?

119

00:07:01,000 --> 00:07:05,000

Yeah, you know, you tend to.

120

00:07:05,000 --> 00:07:07,000

Did they look like thousands?

121

00:07:07,000 --> 00:07:09,000

They looked like big discs or saucers.

122

00:07:09,000 --> 00:07:11,000

Well, they didn't even look like saucers.

123

00:07:11,000 --> 00:07:13,000

Yeah, we'll show you what they looked like.

124

00:07:13,000 --> 00:07:15,000

There was an official Air Force intelligence sketch which they were...

125

00:07:15,000 --> 00:07:17,000

That's the way it was rational.

126

00:07:17,000 --> 00:07:21,000

This is, well, yeah, this is the dish which is approaching.

127

00:07:21,000 --> 00:07:25,000

That was based on the sketch based on what they saw.

128

00:07:25,000 --> 00:07:27,000

The Air Force saw the Air Force.

129

00:07:27,000 --> 00:07:30,000

The Air Force intelligence sketch and was never supposed to be made public.

130

00:07:30,000 --> 00:07:36,000

We were given that sketch by an Air Force criminal who doesn't believe in the secrecy.

131

00:07:36,000 --> 00:07:44,000

We have with us today, Major, a genius and unidentified flying object.

132

00:07:44,000 --> 00:07:48,000

Would you welcome the unidentified flying object, please?

133

00:07:55,000 --> 00:07:58,000

We'll be right back.
