

1

00:00:00,000 --> 00:00:20,580

Well, you know, Hartley had made your keynote director of my cap, National Investigating

2

00:00:20,580 --> 00:00:25,840

Committee on Aerial Phenomenon departed Boston a week or so ago, and the balloon really

3

00:00:25,840 --> 00:00:30,920

went up out in Michigan. At least something went up out there because we have a whole

4

00:00:30,920 --> 00:00:36,600

rash of reports of unidentified flying objects that were sighted in the Ann Arbor area. They

5

00:00:36,600 --> 00:00:41,920

were seen by farmers, by policemen, the Civil Defense Director's Co-Ed, roughly about 400

6

00:00:41,920 --> 00:00:47,160

and all. What were they? Well, we'll get some opinion tonight. Some from Major Kehoe in

7

00:00:47,160 --> 00:00:52,960

Washington. How about you two? Have you had any sightings lately? You wonder what this

8

00:00:52,960 --> 00:00:58,120

thing called, the UFO is? What it's all about? First, let's have this message. Major Kehoe.

9

00:00:58,120 --> 00:01:02,720

Hello, Major. Hello? Hello, Major. How are you?

10

00:01:02,720 --> 00:01:06,600

All right, Bob. Fine. I'd like a little bit later, if you don't mind, I'd like to take

11

00:01:06,600 --> 00:01:10,080

some phone calls, talk about House of Public Leader Ford's statement today that he'd like

12

00:01:10,080 --> 00:01:12,640

to see a full-blown investigation of UFOs. Yes.

13

00:01:12,640 --> 00:01:16,800

Okay, right now let's take a call. Bob Kennedy, you're on contact. You're on the air.

14

00:01:16,800 --> 00:01:19,920

Hi, I'd like to direct my question to Major Kehoe. Yes, sir.

15

00:01:19,920 --> 00:01:27,240

I'd like to know his opinion on the fact why whenever the exciting UFOs reported to the

16

00:01:27,240 --> 00:01:33,360

Air Force, why the Air Force very rarely reports its findings to the public, because you'll

17

00:01:33,360 --> 00:01:39,280

find a number of the times the Air Force keeps quiet on them. They never highly reports the

18

00:01:39,280 --> 00:01:44,560

findings to the public, although they do get national trust coverage, but the Air Force

19

00:01:44,560 --> 00:01:47,560

never comments on them. Major.

20

00:01:47,600 --> 00:01:54,000

Well, there is a high-level policy with the Air Force two years out that these things must

21

00:01:54,000 --> 00:02:02,800

be played down, explained as possible, to avoid the hysteria, perhaps panic. The Air Force

22

00:02:02,800 --> 00:02:07,640

really should not be blamed too much. This is policy that's at a very high level, and

23

00:02:07,640 --> 00:02:12,240

many people in the Air Force that don't even believe in it, think that it's bound to cause

24

00:02:12,240 --> 00:02:18,600

trouble sooner or later. But under that policy, all of the project people and the Air Force

25

00:02:18,600 --> 00:02:25,560

spokesman and the best officers are required to explain as many things as they can, even

26

00:02:25,560 --> 00:02:29,760

though some of the answers are obviously orging on the ridiculous.

27

00:02:30,760 --> 00:02:33,480

All right, Bob Kennedy, you're on the air. You're on contact.

28

00:02:33,480 --> 00:02:35,480

Hello, Mr. Kennedy. Yes, sir.

29

00:02:35,480 --> 00:02:40,600

First of all, I'd like to say that I'm a believer, but you are Major Kehoe over the past few months

30

00:02:40,640 --> 00:02:42,640

and date my wife a real believer.

31

00:02:42,640 --> 00:02:48,640

You know something, I don't know, Major Kehoe, I'm not a believer. I don't think I'm one

32

00:02:48,640 --> 00:02:52,960

of the initiated. I'm not one of the born-again believers. You folks, I kind of figure hopefully

33

00:02:52,960 --> 00:02:56,960

we've come out of a cynic's attitude about this. I think that's my job.

34

00:02:56,960 --> 00:03:02,320

Well, I had two comments I'd like some expert opinion on, if I could. I'm calling from Kate

35

00:03:02,320 --> 00:03:09,320

Codd. And, first of all, as I've read articles about old bi-prominent scientists, I think,

36

00:03:09,320 --> 00:03:16,320

at least they say they are from Harvard and other places, who say that they've gathered

37

00:03:16,320 --> 00:03:22,320

from passages not directly from the Bible, but things like the Rosetta Stone, but not

38

00:03:22,320 --> 00:03:29,320

exactly, I'm not saying the Rosetta Stone itself, things they've translated from recorded

39

00:03:29,440 --> 00:03:36,440

history that people back then all talked about the great firebird that came from the sky

40

00:03:36,440 --> 00:03:42,440

and the little golden man that jumped out of it and looked around and got back in his

41

00:03:42,440 --> 00:03:49,440

firebird and in a great blast the fire took off. And the scientists said that they thought

42

00:03:49,440 --> 00:03:54,440

possibly we had been visited, our planet had been visited and watched over, something like,

43

00:03:54,440 --> 00:04:01,440

oh, something like you would watch over a garden pretty regularly for the past, oh, maybe

44

00:04:01,440 --> 00:04:05,440

five, ten thousand years. I'd like some comment on that.

45

00:04:05,440 --> 00:04:10,440

Well, there have been many reports of contact with space people, but so far we've had absolutely

46

00:04:10,440 --> 00:04:15,440

no proof that any of these plans are true. Well, so many of them are made, people who

47

00:04:15,440 --> 00:04:21,440

want publicity, or maybe they're deluded. Well, it's certainly natural to think there should

48

00:04:21,440 --> 00:04:27,440

be contact eventually if these things keep on taking touch landings, but we don't have

49

00:04:27,440 --> 00:04:29,440

any, we accept as reliable.

50

00:04:29,440 --> 00:04:34,440

Maybe we said a little bit early when talking about the fact that Representative Ford came

51

00:04:34,440 --> 00:04:40,440

out today for an investigation. I imagine this makes you sort of an elated man at this point.

52

00:04:40,440 --> 00:04:46,440

Well, we know that a lot of members of Congress have been supporting hearings and urging them

53

00:04:46,440 --> 00:04:52,440

for some time, but there's always changed public attitude and press attitude, so there's

54

00:04:52,440 --> 00:04:57,440

courage some of them, and now I think that that's the only forward they get some results.

55

00:04:57,440 --> 00:05:02,440

Do you have any particular theories or have you been filtering the reports out down there

56

00:05:02,440 --> 00:05:08,440

about why or why, particularly out in Michigan at this particular time, why so many?

57

00:05:08,440 --> 00:05:15,440

Well, no, we haven't figured out any pattern which would be confused like that, but quite often

58

00:05:15,440 --> 00:05:20,440

there's been a concentration in a certain area over a period of time, and then it ends

59

00:05:20,440 --> 00:05:25,440

and the concentration begins somewhere else. Now, for a long time there was a lot up there

60

00:05:25,440 --> 00:05:30,440

in England, and now it seems to be shifting over to the Federal West, but there's not

61

00:05:30,440 --> 00:05:36,440

enough tidings to reach a conclusion on. I would say perhaps if this goes on for a month

62

00:05:36,440 --> 00:05:39,440

we should have a lot more information.

63

00:05:39,440 --> 00:05:42,440

Bob Kennedy, you're on contact, you're on the air. Hello?

64

00:05:42,440 --> 00:05:48,440

Hello, yes, Bob. I would like to ask a couple of questions on my capture. Who is it supported

65

00:05:48,440 --> 00:05:52,440

by the Federal Government and is it affiliated with the Air Force?

66

00:05:52,440 --> 00:05:57,440

No, no. Quick answers for you, I can do that. No affiliation with the Government, no support

67

00:05:57,440 --> 00:06:01,440

from the Government. Bob Kennedy, you're on contact, you're on the air. Hello?

68

00:06:01,440 --> 00:06:02,440

Good evening, Bob.

69

00:06:02,440 --> 00:06:03,440

Yes, sir.

70

00:06:03,440 --> 00:06:08,440

Yes, I have a question. I can't remember where I heard this comment, but it was on the top.

71

00:06:08,440 --> 00:06:10,440

Last show you did it made it feel.

72

00:06:10,440 --> 00:06:11,440

Sure.

73

00:06:11,440 --> 00:06:19,440

But in the comment that was mentioned that rashes about UFO sightings were usually related

74

00:06:19,440 --> 00:06:23,440

to certain planets in the solar system being close to the Earth.

75

00:06:23,440 --> 00:06:25,440

I don't know, you approach it more.

76

00:06:25,440 --> 00:06:30,440

Well, I was wondering if there were any planets close to the Earth, just because they were

77

00:06:30,440 --> 00:06:37,440

present, were under a suspicion. And also, sort of a science fiction comment.

78

00:06:37,440 --> 00:06:42,440

About a week and a half ago, I think it was the Russians that sent up a probe to see

79

00:06:42,440 --> 00:06:47,440

the collage of the Sun. And now a week and a half ago, maybe, is there about all the UFOs.

80

00:06:47,440 --> 00:06:50,440

But I just like the history of the Earth.

81

00:06:50,440 --> 00:06:52,440

All right. Thank you for calling.

82

00:06:52,440 --> 00:06:53,440

Major?

83

00:06:53,440 --> 00:07:00,440

Well, yes. You know, the first report for release, it was stated on a technical laboratory

84

00:07:00,440 --> 00:07:07,440

that there was absolutely no sign of any of the so-called canals or oylsis, the areas where

85

00:07:07,440 --> 00:07:13,440

the canal lines intersect. Now, it turns out that there actually are lines on these

86

00:07:13,440 --> 00:07:19,440

stones, on a number of them. As a matter of fact, we have seen two of these bones here

87

00:07:19,440 --> 00:07:25,440

in the office that were shown to us by Dr. Frank Salisbury, who is an eminent ex-opologist

88

00:07:25,440 --> 00:07:32,440

at State University, Colorado, and who has also studied Mars for a long time and who

89

00:07:32,440 --> 00:07:35,440

normally suggests that there may be a close-up line on Mars.

90

00:07:35,440 --> 00:07:39,440

Now, these were films made by the astronauts, weren't they, Major Kehoe?

91

00:07:39,440 --> 00:07:44,440

No, they were made by the mayor. Remember, the mayor flew by there and took pictures

92

00:07:44,440 --> 00:07:50,440

from a distance of several thousand miles, and he couldn't expect too much detail and

93

00:07:50,440 --> 00:07:57,440

do, but on the basis of this, get to the social laboratory, and then NASA said there was

94

00:07:57,440 --> 00:08:02,440

no indication of any canals. And that idea remained fixed for a while. Now it turns out

95

00:08:02,440 --> 00:08:08,440

that there were lines on the film, and I don't know whether it was thought better not to

96

00:08:08,440 --> 00:08:12,440

mention it at the time, or whether they were laterally discovered when they already made

97

00:08:12,440 --> 00:08:18,440

a more carefully domination. But they are there. Dr. Pombo, the director of the project,

98

00:08:18,440 --> 00:08:24,440

those pictures are also confirmed to fact that they, he's found several canals on these

99

00:08:24,440 --> 00:08:29,440

films. I understand too that there is a movement under foot to put more money into the Mars

100

00:08:29,440 --> 00:08:35,440

exploration and to sort of dismiss or not use the money that we had planned to use for

101

00:08:35,440 --> 00:08:43,440

the exploration of Venus, because it was felt that there was a greater reward to be

102

00:08:43,440 --> 00:08:49,440

raised by putting all of our eggs into one basket, so to speak, in the exploration of Mars.

103

00:08:49,440 --> 00:08:54,440

Have you heard much on that? Well, I've heard about two. I don't think any actual figures

104

00:08:54,440 --> 00:09:04,440

have been released showing a change in appropriation, but it seems reasonable, because Mars has

105

00:09:04,440 --> 00:09:09,440

indicated that there's more chance of, I mean our evidence indicates there's more chance of

106

00:09:09,440 --> 00:09:15,440

some kind of intelligent life there. If it doesn't exist now, then there possibly wasn't a past.

107

00:09:15,440 --> 00:09:21,440

And I believe it's right, we will get more rewards, and certainly Venus, if all of the reports

108

00:09:21,440 --> 00:09:27,440

of the last two years are correct, it's very doubtful whether there is any life of the type

109

00:09:27,440 --> 00:09:36,440

that we would recognize at least. Now you're on the air. Yes, sir. Bob, yes. I want to ask

110

00:09:36,440 --> 00:09:41,440

Mr. Keero a question. Now this gentleman said that he'd call the Air Force and try to get

111

00:09:41,440 --> 00:09:49,440

the plane up. How come this radar in Colorado can't pick it up if they say that the Air Force

112

00:09:49,440 --> 00:09:56,440

is up there? And then I have another question. They said that they said that our boy in Maine

113

00:09:56,440 --> 00:10:02,440

had sighted one and he shot at it today. Could I have an answer on that? Okay, well,

114

00:10:02,440 --> 00:10:06,440

we should get the shot at it. He fired at it four times, he missed three, hit it once,

115

00:10:06,440 --> 00:10:11,440

doesn't say too much for his aim. I don't know about the UFO. Major Keero, what about the first

116

00:10:11,440 --> 00:10:18,440

thing? Was there anything picked up in any major radar sites on the slat of Michigan?

117

00:10:18,440 --> 00:10:25,440

According to the Civil Defense Director Van Hor, I think he told you that any radar

118

00:10:25,440 --> 00:10:31,440

at will or run confirmed the fact that they had two blunts for his last sighting. But

119

00:10:31,440 --> 00:10:36,440

there have been many cases where the Air Force has a better policy in playing this down.

120

00:10:36,440 --> 00:10:41,440

They said there was no radar confirmation and that later they had to retract, but if they

121

00:10:41,440 --> 00:10:47,440

did have it, now that happened last summer out in Oklahoma. The Oklahoma State Police

122

00:10:47,440 --> 00:10:52,440

and we have found reports from their headquarters saying that they did have confirmation from

123

00:10:52,440 --> 00:10:59,440

the Air Force. Take care of your state, call from many times that these officers had about

124

00:10:59,440 --> 00:11:05,440

zero and they retracted the radar there at height, the altitude, speed, maneuvers and so on.

125

00:11:05,440 --> 00:11:11,440

And yet the Air Force gave the public a statement that there was no radar tracking and you simply

126

00:11:11,440 --> 00:11:17,440

had to accept it as a part of the policy to play these things up. Okay, thank you very

127

00:11:17,440 --> 00:11:21,440

much. Thank you for coming, sir. Bob Kennedy, you're in contact here. I'm the Air. Hello,

128

00:11:21,440 --> 00:11:28,440

Bob. Yes. I would like to ask a question to Major Kehoff, I may. About a case that happened

129

00:11:28,440 --> 00:11:40,440

on October 23rd, 1965, out in Minnesota where an announcer at KEYL Longfrey, Minnesota, supposedly

130

00:11:40,440 --> 00:11:47,440

saw robots or creatures shaped like tin cans with arms and tricorid legs. Do you ever watch

131

00:11:47,440 --> 00:11:52,440

those amounts as they see all sorts of things we can have for them? Applying to the, not

132

00:11:52,440 --> 00:12:00,440

flesh or tissue, but a kind of metal. How does he count for this? Major Kehoff, do you

133

00:12:00,440 --> 00:12:09,440

hear anything about that? Yes, we have. And actually the evidence is rather sketchy and

134

00:12:09,440 --> 00:12:16,440

we are putting it on the question, Mark, that actually you take the thing like that and you

135

00:12:16,440 --> 00:12:23,440

have to have fairly good proof. There should be several witnesses who saw that same thing

136

00:12:23,440 --> 00:12:28,440

and give the same dimensions. I believe that you would have to say that that is one of the

137

00:12:28,440 --> 00:12:33,440

unconfirmed reports. What about the young man who mentioned the fact that that subtle up in

138

00:12:33,440 --> 00:12:38,440

Maine wasn't a pot shot out of flying saucers? Well, that has happened several times and we've

139

00:12:38,440 --> 00:12:44,440

been concerned about it too. Over the past year they've been reports of people who were

140

00:12:44,440 --> 00:12:49,440

alarmed by these things and either dived out of their cars, one that came down at Brother

141

00:12:49,440 --> 00:12:57,440

Low Altitude or actually fired at one case in West Virginia where a man had a gun in his

142

00:12:57,440 --> 00:13:02,440

car and he jumped out and shot at it. But we haven't any reports of what actually hitting

143

00:13:02,440 --> 00:13:10,440

them. Why did you say we were concerned about that? Well, if you start that kind of feeling,

144

00:13:10,440 --> 00:13:16,440

you can spread alarm and there's actually no basis to feel fear of these objects as far

145

00:13:16,440 --> 00:13:22,440

as we've found out. There's no evidence of any hostility and I think we should look at them

146

00:13:22,440 --> 00:13:29,440

more calmly and try to get as much scientific information as we can. And in plus people

147

00:13:29,440 --> 00:13:35,440

the fact that there's not been any attacks, there's been no hostility and there's a great deal

148

00:13:35,440 --> 00:13:40,440

that can be learned if these are actually machines from some other and more advanced

149

00:13:40,440 --> 00:13:45,440

civilization. So from the point of view, somebody up there likes this? No, I think that we

150

00:13:45,440 --> 00:13:50,440

don't know what motive could be back of these. It could simply be something the Air Force

151

00:13:50,440 --> 00:13:58,440

itself years ago suggested in the Project Guns report that an advanced civilization was

152

00:13:58,440 --> 00:14:03,440

concerned because we were now preparing to go into space. We were launching high altitude rockets.

153

00:14:03,440 --> 00:14:09,440

We were exploding nuclear bombs. They wanted to check and see whether we were likely to be

154

00:14:09,440 --> 00:14:13,440

any sort of a problem if we did get out of space. Kennedy, you're on the contact. You're

155

00:14:13,440 --> 00:14:19,440

out of the air. Hello Bob. Yes sir. John, do you want to throw a banana over? Hello John, how are you?

156

00:14:19,440 --> 00:14:24,440

Pretty good. Got a good show as usual. Why thank you John. I've got two questions here for

157

00:14:24,440 --> 00:14:30,440

Major Keough. I haven't been able to hear him too well on this slide here. So I'll hang up after I answer them.

158

00:14:30,440 --> 00:14:35,440

One, I've been interested in some time. Haven't done too much about it but here's the opportunity.

159

00:14:35,440 --> 00:14:42,440

Is it possible to become a member of ICAP and how? And number two, I don't know if

160

00:14:42,440 --> 00:14:49,440

Major Keough remembers, he probably will. There is an area over the Caribbean off Florida

161

00:14:49,440 --> 00:14:55,440

around Bermuda somewhere where many planes have been lost, the Star Tiger in the area

162

00:14:55,440 --> 00:15:03,440

or two of the famous ones back in 1948. I just wanted to get any idea if the U.S.

163

00:15:03,440 --> 00:15:08,440

boat has any connection at all with these strange experiences. All right sir.

164

00:15:08,440 --> 00:15:13,440

I'll hang up. Yes sir. Thanks very much. Okay, thank you for coming John. What about that Major?

165

00:15:13,440 --> 00:15:20,440

Well, as far as joining the ICAP, yes we do accept members. We have members in all 50 states and 34

166

00:15:20,440 --> 00:15:27,440

countries. You can write to us at 15 Connecticut Avenue, Washington DC and we'll send you

167

00:15:27,440 --> 00:15:36,440

information of what ICAP does and the publications that are available. We'd be very glad to hear from you.

168

00:15:36,440 --> 00:15:41,440

In regard to the area of the Caribbean, yes we have many of those reports and it has been suggested

169

00:15:41,440 --> 00:15:47,440

a couple of times at least that UFOs were responsible for some of these very strange

170

00:15:47,440 --> 00:15:54,440

disparities. But as far as I know there's never been any definite link with a lost plane or a

171

00:15:54,440 --> 00:16:01,440

lost ship in that area with the UFO. So it's still speculation. All right. Bob Kennedy you're on the air.

172

00:16:01,440 --> 00:16:11,440

You're on contact. I was wondering, I suppose, Major Keough is the one that I really was wondering about.

173

00:16:11,440 --> 00:16:23,440

I have heard that back during World War II that the army and Air Force were interested in the flying saucer

174

00:16:23,440 --> 00:16:30,440

situation pretty much undercover. Of course they don't say too much about it nowadays.

175

00:16:30,440 --> 00:16:41,440

But I heard that they went so far as to have diffraction-grating cameras stationed at some of their

176

00:16:41,440 --> 00:16:50,440

Air Force bases hoping to get a picture and diffraction-grating being similar to a prison.

177

00:16:51,440 --> 00:16:58,440

The line is really conging out here. They spent all that money. I think we'd better get to the question.

178

00:16:58,440 --> 00:17:06,440

Were you curious to know why they did it? I was wondering if Major Keough had any information on this.

179

00:17:06,440 --> 00:17:15,440

This is official or what? Okay fine. We'll let Major Keough answer that for you. I'm sorry the line is so bad.

180

00:17:15,440 --> 00:17:24,440

Thank you for calling. Major? Yes they did have an official project. It was announced about 1951-52

181

00:17:24,440 --> 00:17:33,440

after these special cameras with a grid and it turned out to be a failure. Several times the grid came off.

182

00:17:33,440 --> 00:17:39,440

They weren't cemented right. They had to be taken back in and worked on again. They never did turn up anything.

183

00:17:39,440 --> 00:17:47,440

The main reason is because they weren't the right type of equipment. There was no real campaign to use these things.

184

00:17:47,440 --> 00:17:56,440

As far as I know they didn't register a single UFO. Yes. It's the first night of here. I got a question from Mr Keough.

185

00:17:56,440 --> 00:18:07,440

I understand all our astronauts while out there had sighted a lot of these UFOs but again it's been played down by the Air Force.

186

00:18:07,440 --> 00:18:15,440

On this nightcap I'm very much interested and wondered if I could join this organization and how.

187

00:18:15,440 --> 00:18:21,440

Well we can't have asked that but I know you were just waiting on the line so Major would you underline that again and give the advice?

188

00:18:21,440 --> 00:18:28,440

Yes. We will accept membership applications from a certain United States and foreign countries.

189

00:18:28,440 --> 00:18:35,440

We do not accept any known communist connections. We do not accept any known communists.

190

00:18:35,440 --> 00:18:49,440

Something right to us at 1536 Connecticut Avenue, Washington D.C. addresses as NICAP which is short for National Investigations Committee on Aerial Phenomenal.

191

00:18:49,440 --> 00:18:54,440

Okay. I guess that brings us up to date on joining NICAP. Any dues a year Major?

192

00:18:54,440 --> 00:19:06,440

Yes, there are. \$5 a year and that includes a bi-monthly publication known as the U.S. Pro-Investigator which has all the latest sighting reports,

193

00:19:06,440 --> 00:19:16,440

latest developments in the Air Force investigation and in our own and occasionally a special bulletin whenever there's some real outbreak of sighting.

194

00:19:16,440 --> 00:19:20,440

Major Keough once again thank you very much for joining us tonight on contact.

195

00:19:20,440 --> 00:19:24,440

Thank you Bob. Nice to have you back with us. Kind of an exciting week for you I imagine though.

196

00:19:24,440 --> 00:19:28,440

Well thanks for building up versus been going on a long long time.
