

1

00:01:00,000 --> 00:01:03,000

They say we have no explanation.

2

00:01:05,000 --> 00:01:08,000

Photographs have been taken, witnesses are being questioned.

3

00:01:08,000 --> 00:01:12,000

The cost of trying to solve this battling affair goes on day and night.

4

00:01:12,000 --> 00:01:19,000

Last Monday morning, Bill Squire, an employee of Radio Station K-O-A-M in Fixburg, Kansas,

5

00:01:19,000 --> 00:01:22,000

reported a very strange experience to authorities.

6

00:01:22,000 --> 00:01:26,000

Today, I spoke with him about a nine-distance telephone.

7

00:01:26,000 --> 00:01:29,000

Here is the story that he told it to me.

8

00:01:29,000 --> 00:01:35,000

Radio Station K-O-A-M had a six-distance intercom with each other.

9

00:01:35,000 --> 00:01:41,000

And in the time I only reached my house at the United States time,

10

00:01:41,000 --> 00:01:46,000

30 in order to be reached out to make up that program.

11

00:01:46,000 --> 00:01:52,000

And where I sold my seat was just about a mile in the haze.

12

00:01:52,000 --> 00:01:56,000

So I had to turn out of traffic right north inside.

13

00:01:56,000 --> 00:02:00,000

And I was going around and I saw it on the west side of the road.

14

00:02:00,000 --> 00:02:03,000

What was the story? I don't know if you can see it there.

15

00:02:03,000 --> 00:02:07,000

It was a chain traffic.

16

00:02:07,000 --> 00:02:14,000

Or as if you would take a hand-to-hand chatter and hit it by the table right side-up.

17

00:02:14,000 --> 00:02:19,000

And there was a kind of motor chatter down over the top of it.

18

00:02:19,000 --> 00:02:23,000

It was a significant difference in terms of the amount of traffic.

19

00:02:23,000 --> 00:02:26,000

So I was saying to him, I wonder if you can see.

20

00:02:26,000 --> 00:02:32,000

Well, I was saying that while I was speaking, I was very excited.

21

00:02:32,000 --> 00:02:34,000

I heard all the bike chatter.

22

00:02:34,000 --> 00:02:37,000

I was standing there, I was just standing there.

23

00:02:37,000 --> 00:02:41,000

I was standing there, I was holding the bike for five minutes or so.

24

00:02:41,000 --> 00:02:45,000

So I went around and I was like, OK, I'm going to walk.

25

00:02:45,000 --> 00:02:48,000

Well, he was in my hand.

26

00:02:48,000 --> 00:02:50,000

And people were hearing.

27

00:02:50,000 --> 00:02:56,000

I was saying, I'm going from 8 to 10, about 3.12 feet,

28

00:02:56,000 --> 00:03:01,000

about 3.3 feet to about 5.5 feet.

29

00:03:01,000 --> 00:03:05,000

And I was not speaking at all, kind of immediately.

30

00:03:05,000 --> 00:03:09,000

Because when I first started, I was going to the end of that road.

31

00:03:09,000 --> 00:03:11,000

I was going to the other side of the road.

32

00:03:11,000 --> 00:03:14,000

And I was going to my right-hand corner.

33

00:03:14,000 --> 00:03:20,000

And there was no doubt, just about 2.20 feet, well past.

34

00:03:20,000 --> 00:03:24,000

And I opened the car door.

35

00:03:24,000 --> 00:03:28,000

And to hear the noise from the loudspeaker, I would be hearing.

36

00:03:28,000 --> 00:03:32,000

Maybe when I go to the sound, there's a loudspeaker before.

37

00:03:32,000 --> 00:03:35,000

You have to make sure that the sound is heard.

38

00:03:35,000 --> 00:03:40,000

And if I get out of the car and I'm standing there,

39

00:03:40,000 --> 00:03:43,000

you can hear the loudspeaker.

40

00:03:43,000 --> 00:03:46,000

And if you have this car, it's about 5.0 feet,

41

00:03:46,000 --> 00:03:49,000

or about 100 feet, or about 100 feet.

42

00:03:49,000 --> 00:03:53,000

I felt the loudspeaker over here excited.

43

00:03:53,000 --> 00:03:55,000

You're not going to hear anything.

44

00:03:55,000 --> 00:03:57,000

Well, not that we're sure.

45

00:03:57,000 --> 00:04:02,000

But for now, I think that there's just not a lot of difference.

46

00:04:02,000 --> 00:04:04,000

There are a lot of difference.

47

00:04:04,000 --> 00:04:06,000

There were 3.00 or 5.00 feet.

48

00:04:06,000 --> 00:04:09,000

And I was very pretty fast.

49

00:04:09,000 --> 00:04:12,000

And there was another loudspeaker.

50

00:04:12,000 --> 00:04:16,000

And the last time, they were dying from a loudspeaker

51

00:04:16,000 --> 00:04:17,000

or a loudspeaker.

52

00:04:17,000 --> 00:04:20,000

They were taking a car and just making back your loudspeaker

53

00:04:20,000 --> 00:04:22,000

with a loudspeaker again.

54

00:04:22,000 --> 00:04:23,000

Thank you very much.

55

00:04:23,000 --> 00:04:27,000

Joe Swans, a radio station player, AM and 6.30.

56

00:04:27,000 --> 00:04:30,000

I ran back to radio several persons with persons watching

57

00:04:30,000 --> 00:04:33,000

an unidentified crash, similar to that described

58

00:04:33,000 --> 00:04:36,000

in that state of New York City.

59

00:04:36,000 --> 00:04:39,000

And on the same day that he saw, he saw this.

60

00:04:39,000 --> 00:04:42,000

It fails when a touchdown was a failure reported to authorities

61

00:04:42,000 --> 00:04:46,000

that he saw a similar object over and over a few months long.

62

00:04:48,000 --> 00:04:53,000

The Air Force hopes to launch it and identify certain objects

63

00:04:53,000 --> 00:04:57,000

which are then seen frequently over groups and other countries.

64

00:04:57,000 --> 00:04:59,000

The official position for publication

65

00:04:59,000 --> 00:05:02,000

is that these objects are going to be included.

66

00:05:02,000 --> 00:05:05,000

But the young master thought the Air Force, the Navy

67

00:05:05,000 --> 00:05:08,000

and certain other groups are working around the clock

68

00:05:08,000 --> 00:05:10,000

to solve the mystery.

69

00:05:10,000 --> 00:05:13,000

At the once hand-moving round in New Mexico,

70

00:05:13,000 --> 00:05:16,000

the scene of many sightings which are still unsolved,

71

00:05:16,000 --> 00:05:20,000

scenes of scientists are quietly at work on an unending project.

72

00:05:20,000 --> 00:05:24,000

The official statement admits that they are trying to locate

73

00:05:24,000 --> 00:05:29,000

one or possibly two objects which are certainly the Earth-like moons

74

00:05:29,000 --> 00:05:31,000

on a much smaller.

75

00:05:31,000 --> 00:05:34,000

If these objects are black or dark colored,

76

00:05:34,000 --> 00:05:37,000

it will be extremely difficult for the scientists to locate them

77

00:05:37,000 --> 00:05:39,000

by telescope.

78

00:05:39,000 --> 00:05:43,000

But with radar telescopes and certain other devices of specialized nature,

79

00:05:43,000 --> 00:05:46,000

they hope to find these satellites.

80

00:05:46,000 --> 00:05:49,000

They say they want to find them in order to use them

81

00:05:49,000 --> 00:05:52,000

as stepping sounds to the moon.

82

00:05:52,000 --> 00:05:57,000

That is, of course, if someone else isn't already using them.

83

00:05:57,000 --> 00:06:00,000

The two gentlemen inside the display get by the government

84

00:06:00,000 --> 00:06:05,000

are Dr. Clyde Tombol, the astronomer who discovered the planet Cicero,

85

00:06:05,000 --> 00:06:10,000

and Dr. Lincoln LaFaz, director of the Institute of Meteorites

86

00:06:10,000 --> 00:06:12,000

at the University of New Mexico.

87

00:06:12,000 --> 00:06:16,000

Dr. LaFaz is well-known for his recent intensive study

88

00:06:16,000 --> 00:06:20,000

of the strange green fireballs which were hidden in the visible skies

89

00:06:20,000 --> 00:06:23,000

of the southwest for a period of several months.

90

00:06:23,000 --> 00:06:29,000

On Saturday night, February 13, the last period of astronomical society

91

00:06:29,000 --> 00:06:32,000

met at the home of Dr. Trombol.

92

00:06:32,000 --> 00:06:35,000

After a rather elementary description of the moon,

93

00:06:35,000 --> 00:06:39,000

Dr. Trombol applies all those patterns that they subtract

94

00:06:39,000 --> 00:06:43,000

estimating degrees and locations in the night sky

95

00:06:43,000 --> 00:06:47,000

in order to find better records in connection with anticipated

96

00:06:47,000 --> 00:06:50,000

flying saucer sightings this summer.

97

00:06:50,000 --> 00:06:56,000

The Earth is now over taking large, well-past, well-past,

98

00:06:56,000 --> 00:06:59,000

red planets about the last of July.

99

00:06:59,000 --> 00:07:03,000

The public percentage purpose of this worldwide scrutiny of large

100

00:07:03,000 --> 00:07:06,000

is to obtain more information about the distributed watching

101

00:07:06,000 --> 00:07:09,000

and so forth, according to part of the story.

102

00:07:09,000 --> 00:07:13,000

Now, Dr. LaFaz is a very large, well-known,

103

00:07:13,000 --> 00:07:17,000

well-known, well-known, well-known, well-known, well-known,

104

00:07:17,000 --> 00:07:20,000

and so forth, according to part of the story.

105

00:07:20,000 --> 00:07:23,000

Now, he has helped to gather photographs and other information

106

00:07:23,000 --> 00:07:26,000

which will enable them to determine with reasonable certainty

107

00:07:26,000 --> 00:07:29,000

the true nature of the two small satellites

108

00:07:29,000 --> 00:07:31,000

which circle large of ice-creams,

109

00:07:31,000 --> 00:07:35,000

the same were never seen before 1877.

110

00:07:35,000 --> 00:07:37,000

They are very small, very bright,

111

00:07:37,000 --> 00:07:40,000

and are ideally limited for testing sounds

112

00:07:40,000 --> 00:07:42,000

on interplanetary satellites.

113

00:07:42,000 --> 00:07:44,000

Are they natural satellites,

114

00:07:44,000 --> 00:07:48,000

or were they built by an elegant beam for a special purpose?

115

00:07:48,000 --> 00:07:51,000

Our scientists hope to be firmly hesitant to know the question

116

00:07:51,000 --> 00:07:53,000

this summer.

117

00:07:56,000 --> 00:07:59,000

Can spring you frank outwards on the news?

118

00:07:59,000 --> 00:08:00,000

Mr. Edwards.

119

00:08:00,000 --> 00:08:03,000

The crew of a commercial airliner reported watching

120

00:08:03,000 --> 00:08:05,000

a false sunrise effect,

121

00:08:05,000 --> 00:08:08,000

shortly before dawn on the morning of May 1st

122

00:08:08,000 --> 00:08:11,000

while they were in flight in mid-Pacific.

123

00:08:11,000 --> 00:08:14,000

Thus far, there is no report of any bomb firing on that date,

124

00:08:14,000 --> 00:08:17,000

and the flyers tossed another question mark into the matter

125

00:08:17,000 --> 00:08:20,000

when they reported that the great glow they watched

126

00:08:20,000 --> 00:08:25,000

actually took place at 65,000 feet above the ocean.

127

00:08:25,000 --> 00:08:30,000

In that case, it had to be a bomb carried aloft by a rocket of some sort,

128

00:08:30,000 --> 00:08:33,000

or else it was something entirely new and different

129

00:08:33,000 --> 00:08:36,000

in the field of explosions.

130

00:08:36,000 --> 00:08:39,000

Our guest tonight is Major Donald E. Kehoe,

131

00:08:39,000 --> 00:08:41,000

U.S. Marine Corps retired,

132

00:08:41,000 --> 00:08:45,000

a veteran of 35 years of civilian and military flying experience.

133

00:08:45,000 --> 00:08:49,000

Major Kehoe was aid to Colonel Charles Lindberg

134

00:08:49,000 --> 00:08:51,000

on Lindy's tour of the country

135

00:08:51,000 --> 00:08:53,000

after the historic transatlantic flight.

136

00:08:53,000 --> 00:08:55,000

A well-known aviation writer,

137

00:08:55,000 --> 00:08:59,000

in 1950, Major Kehoe brought out his best seller,

138

00:08:59,000 --> 00:09:02,000

Flying Saucers Are Real, which stirred up a real tempest,

139

00:09:02,000 --> 00:09:05,000

and in 1953, another best seller,

140

00:09:05,000 --> 00:09:08,000

Flying Saucers from outer space.

141

00:09:08,000 --> 00:09:14,000

Books based on material from Air Force and Canadian official sources.

142

00:09:14,000 --> 00:09:19,000

Major Kehoe, what are the most recent developments

143

00:09:19,000 --> 00:09:22,000

in this field of unidentified flying objects?

144

00:09:22,000 --> 00:09:24,000

There are three very important developments

145

00:09:24,000 --> 00:09:26,000

which have been kept from the public.

146

00:09:26,000 --> 00:09:28,000

In the first place, there is at least one,

147

00:09:28,000 --> 00:09:33,000

and possibly two, artificial satellites circling the Earth at the present time.

148

00:09:33,000 --> 00:09:37,000

An intensive effort is being made by government scientists

149

00:09:37,000 --> 00:09:42,000

at White Sands Connector Code to locate and chart the courses of these satellites

150

00:09:42,000 --> 00:09:46,000

in order to determine what they are and where they came from.

151

00:09:46,000 --> 00:09:49,000

Secondly, within the last two weeks,

152

00:09:49,000 --> 00:09:53,000

Canadian government scientists have notified all official sky watchers

153

00:09:53,000 --> 00:09:56,000

to be especially alert and to report immediately

154

00:09:56,000 --> 00:09:59,000

any unidentified area of objects.

155

00:09:59,000 --> 00:10:03,000

The third development which has then kept secret is this.

156

00:10:03,000 --> 00:10:06,000

In the closing week of March, Air Force Secretary Talbot

157

00:10:06,000 --> 00:10:10,000

made two trips to Palm Springs, California, in an Air Force plane.

158

00:10:10,000 --> 00:10:14,000

On one of those trips, shortly after the plane had passed

159

00:10:14,000 --> 00:10:17,000

Fresno, California, the crew of Secretary Talbot's plane

160

00:10:17,000 --> 00:10:20,000

discovered that it was being followed by a large,

161

00:10:20,000 --> 00:10:24,000

silvery disc-shaped object, which was flying about 1,000 feet

162

00:10:24,000 --> 00:10:28,000

below the Secretary's plane and about 1,000 feet distance.

163

00:10:28,000 --> 00:10:32,000

The unidentified object was seen by Secretary Talbot,

164

00:10:32,000 --> 00:10:35,000

the crew of his plane, and Secretary Talbot's aide

165

00:10:35,000 --> 00:10:37,000

to accompany him on the trip.

166

00:10:37,000 --> 00:10:40,000

After watching the disc for several minutes,

167

00:10:40,000 --> 00:10:44,000

Secretary Talbot ordered his plane to swing around and approach it.

168

00:10:44,000 --> 00:10:48,000

The object immediately accelerated and disappeared at high speed.

169

00:10:48,000 --> 00:10:52,000

This was a daylight sighting of long duration by credible personnel

170

00:10:52,000 --> 00:10:55,000

and under very favorable conditions.

171

00:10:55,000 --> 00:10:59,000

In view of the tremendous amount of evidence that is being concealed

172

00:10:59,000 --> 00:11:04,000

by the Air Force secrecy, it is high time the American people demanded to know the fact.

173

00:11:04,000 --> 00:11:10,000

Thank you very much, Major Donald E. Kehoe, U.S. Marine Corps, retired.

174

00:11:10,000 --> 00:11:14,000

To listeners everywhere, keep an eye on the sky.

175

00:11:14,000 --> 00:11:18,000

Things are going to become very interesting very soon.

176

00:11:21,000 --> 00:11:23,000

When you back at work, I'm the news.

177

00:11:23,000 --> 00:11:28,000

Our guest tonight is Major Donald E. Kehoe, U.S. Marine Corps, retired.

178

00:11:28,000 --> 00:11:33,000

A veteran of 35 years of civilian and military flying experience.

179

00:11:33,000 --> 00:11:39,000

Major Kehoe was paid to battle Charles Lindbergh on Lindy's tour of the country

180

00:11:39,000 --> 00:11:41,000

after the historic Panthabonic flight.

181

00:11:41,000 --> 00:11:44,000

A well-known aviation writer, in 1950,

182

00:11:44,000 --> 00:11:48,000

Major Kehoe brought out his best seller, Flying Saucers Arille,

183

00:11:48,000 --> 00:11:50,000

which started up Arille's temperate.

184

00:11:50,000 --> 00:11:56,000

And in 1953, another best seller, Flying Saucers from outer space.

185

00:11:56,000 --> 00:12:02,000

From space on material, from Air Force and Canadian official sources.

186

00:12:02,000 --> 00:12:09,000

Major Kehoe, what are the most recent developments in this field of unidentified flying objects?

187

00:12:09,000 --> 00:12:13,000

There are three very important moments which can be customary public.

188

00:12:13,000 --> 00:12:19,000

In the first place, there is the least part of possibly two artificial satellites

189

00:12:19,000 --> 00:12:22,000

that are serving the Earth of the present time.

190

00:12:22,000 --> 00:12:27,000

An intensive effort is being made by government staff at the first time in a century ago

191

00:12:27,000 --> 00:12:35,000

to locate and charge the courses of these satellites in an effort to determine what they are and where they came from.

192

00:12:35,000 --> 00:12:37,000

Secondly, within the last two weeks,

193

00:12:37,000 --> 00:12:43,000

Canadian government staff has been notified by all official skylights to be freshly alert

194

00:12:43,000 --> 00:12:47,000

and to report immediately any unidentified area of Earth.

195

00:12:47,000 --> 00:12:51,000

The third development which is then conspicuous is this.

196

00:12:51,000 --> 00:12:55,000

In the closing week of March, Air Force Secretary Talbot made two tests

197

00:12:55,000 --> 00:12:59,000

to found strange Californians in an Air Force plane.

198

00:12:59,000 --> 00:13:03,000

On one of those tests, shortly after the plane had passed Fresno, California,

199

00:13:03,000 --> 00:13:05,000

they crewed our Secretary Talbot's plane,

200

00:13:05,000 --> 00:13:10,000

discovering that it was seen by a large, silver-y-z-k-con,

201

00:13:10,000 --> 00:13:16,000

which was flying about 1,000 feet below the Secretary's plane, and about 1,000 feet distant.

202

00:13:16,000 --> 00:13:21,000

The unidentified object was seen by Secretary Talbot, the crew of this plane,

203

00:13:21,000 --> 00:13:25,000

and Secretary Talbot's feet to accompany him on the trip.

204

00:13:25,000 --> 00:13:28,000

After watching the disc for several minutes,

205

00:13:28,000 --> 00:13:32,000

Secretary Talbot ordered his plane to swing around at a coast.

206

00:13:32,000 --> 00:13:36,000

The object immediately accelerated and disappeared at high speed,

207

00:13:36,000 --> 00:13:43,000

just with a real-life sighting of long durations by credible personnel and under very favorable conditions.

208

00:13:43,000 --> 00:13:48,000

In view of the tremendous amount of evidence that is being concealed by the foreign secrecy,

209

00:13:48,000 --> 00:13:52,000

in the night time the American people demanded to notify.

210

00:13:52,000 --> 00:13:58,000

Thank you very much, Major Donald E. Keeho, US Marine Corps, retired.

211

00:13:59,000 --> 00:14:04,000

Panic and pilot reported a small flying disc made a sweeping pass

212

00:14:04,000 --> 00:14:07,000

on an F-8400 jet last March.

213

00:14:07,000 --> 00:14:11,000

An Air Force spokesman said the disc was described as being about

214

00:14:11,000 --> 00:14:14,000

8 inches in diameter, very thin and very shiny.

215

00:14:14,000 --> 00:14:19,000

He said it was reported sighted in northern Japan by Lieutenant David Brigham of Oxford, Illinois.

216

00:14:19,000 --> 00:14:24,000

Lieutenant Brigham reported seeing the disc in the same area where clusters of colored lights

217

00:14:24,000 --> 00:14:28,000

were sighted by other American pilots and radar experts earlier this month.

218

00:14:28,000 --> 00:14:32,000

Brigham took out of the incident while he was detailed in an intelligence report

219

00:14:32,000 --> 00:14:35,000

filed last April and just now being released.

220

00:14:35,000 --> 00:14:38,000

He said the disc zipped within 20 feet of the thunder jet,

221

00:14:38,000 --> 00:14:41,000

covered for two or three seconds in a slow, threaring motion,

222

00:14:41,000 --> 00:14:46,000

then zoomed around the right wing of the plane, which was then traveling at about 500 miles an hour.

223

00:14:46,000 --> 00:14:51,000

After that, Brigham reported the disc cut in front of the plane and vanished from sight in a steep climb.

224

00:14:51,000 --> 00:14:56,000

He said it left no paper trail and there was no indication of what's calling the thing.

225

00:14:56,000 --> 00:15:02,000

Brigham reported seeing the disc on March 29, 1952 at about noon on a bright clear day.

226

00:15:02,000 --> 00:15:05,000

He said he was only about 50 feet from the thing

227

00:15:05,000 --> 00:15:08,000

and that it showed up clearly against the background of the plane.

228

00:15:08,000 --> 00:15:13,000

He said the disc pulled up a breast of his plane. He could see a ray of light coming from it.

229

00:15:13,000 --> 00:15:17,000

He said the disc traveled faster than the jet and was maneuvering around it

230

00:15:17,000 --> 00:15:19,000

and that it flooded and walked back and forth.

231

00:15:19,000 --> 00:15:24,000

The Air Force spokesman would make no official comment concerning the credibility of the report,

232

00:15:24,000 --> 00:15:27,000

but he noticed that Brigham reported seeing the disc and brought their light.

233

00:15:27,000 --> 00:15:33,000

Last Thursday Colonel Curtis Lowe, the commander of the Northern Division of the Japan Air Defense,

234

00:15:33,000 --> 00:15:39,000

reported that trained radar observers and American pilots had sighted numerous colored lights

235

00:15:39,000 --> 00:15:43,000

near bases and materials in Sackling Island, Northern Japan.

236

00:15:43,000 --> 00:15:46,000

The lights were seen on December 29 and January 9.

237

00:15:46,000 --> 00:15:51,000

They were reported to have appeared as far south as Northern Honshu Island in Japan

238

00:15:51,000 --> 00:15:54,000

in the same area where Brigham reported seeing the disc.

239

00:15:54,000 --> 00:15:59,000

There was a time, you know, when the Air Force called all these discs sightings hallucinations.

240

00:16:00,000 --> 00:16:07,000

On the night of December 29 and again on the night of January 9 and on other occasions,

241

00:16:07,000 --> 00:16:13,000

radar picked up blitz which developed into glowing red, green, or white objects.

242

00:16:13,000 --> 00:16:17,000

The commander of the 39th Air Defense Colonel, Colonel Curtis Lowe,

243

00:16:17,000 --> 00:16:23,000

says the same flight of Venus had been seen as far south as the island of Honshu.

244

00:16:23,000 --> 00:16:30,000

As I reported to you a couple of weeks ago, our night jet fighters chased these things

245

00:16:30,000 --> 00:16:32,000

only to have them run wings around the jets.

246

00:16:32,000 --> 00:16:38,000

Colonel Lowe, these incidents are well-collaborated sightings by trained men.

247

00:16:38,000 --> 00:16:42,000

They are not the reports of a few imaginative people.

248

00:16:42,000 --> 00:16:46,000

Major Hildi McCall, the Air Force Intelligence Officer of Eastern Texas,

249

00:16:46,000 --> 00:16:52,000

said the pilots report indicated at least six sightings of the same topic.

250

00:16:52,000 --> 00:16:59,000

And two nights in December, the sightings of their own medication were over the northern Japanese island of Hokkaido.

251

00:16:59,000 --> 00:17:05,000

The pilots say the same fine objects were seen as well as intense bursts of speed

252

00:17:05,000 --> 00:17:08,000

and could change that level of sight within seconds.

253

00:17:08,000 --> 00:17:15,000

Colonel Donald Blake Lee, a special Harbor of Ohio, who was a flight leader of the F-84 jet squadron

254

00:17:15,000 --> 00:17:20,000

which flew the Pacific Black October, said he sighted one of the same things he said.

255

00:17:20,000 --> 00:17:28,000

This plane or a software or whatever it was, could make speeds far beyond the capability of my jet fighter.

256

00:17:28,000 --> 00:17:29,000

I couldn't catch it.

257

00:17:29,000 --> 00:17:33,000

It appeared to have a series of red, white and possibly green lights,

258

00:17:33,000 --> 00:17:37,000

rotating in a clockwise manner and alternating.

259

00:17:37,000 --> 00:17:43,000

Major Andrew M. M. of my Amalflora, who said the same things pulled away from the American jet,

260

00:17:43,000 --> 00:17:47,000

quote, almost as if the jets were standing still.

261

00:17:48,000 --> 00:17:57,000

The next step to Major Downey's view was to put on an identified line, not just to bring the backfire.

262

00:17:57,000 --> 00:18:02,000

The local space team in the open today, one of the first to stop the quarter,

263

00:18:02,000 --> 00:18:09,000

released the letter which he had received in reply to a question he was asked to the Air Force.

264

00:18:09,000 --> 00:18:15,000

And it was said that I see a voice, who was always an easy person to be with,

265

00:18:15,000 --> 00:18:21,000

with body, with both the position of being strange and identified flying objects.

266

00:18:21,000 --> 00:18:29,000

When it was known as no plane before it, there was no information that would see the night to the public.

267

00:18:29,000 --> 00:18:35,000

And I did not make any sense that a black flying saucer from out of space

268

00:18:35,000 --> 00:18:40,000

would not have airfoil planes or off-the-pearl.

269

00:18:40,000 --> 00:18:48,000

The fact is that the material made to see only had all been produced by the Air Force

270

00:18:48,000 --> 00:18:55,000

and the force was contained in the most difficult airfoil challenge we've ever seen the public show.

271

00:18:55,000 --> 00:19:00,000

If the Air Force actually denied information that it could be,

272

00:19:00,000 --> 00:19:04,000

when it was known that it was actually stopped,

273

00:19:04,000 --> 00:19:13,000

it was said that it received an old time-owned report on a plane which was held three weeks ago.

274

00:19:13,000 --> 00:19:20,000

The fact is that one of the nations' human newspapers and five-hour-old airfoil plane

275

00:19:20,000 --> 00:19:28,000

decided to report to the Air Force to see the day before it was denied.

276

00:19:28,000 --> 00:19:35,000

The public asked for permission between the motion of nine unidentified objects

277

00:19:35,000 --> 00:19:40,000

taken there in 1916 by an angel of the day in 1915.

278

00:19:40,000 --> 00:19:46,000

The Air Force told the public that it was only before it to the right Air Force

279

00:19:46,000 --> 00:19:52,000

to go to Ohio where he would be given permission to go one time during the film.

280

00:19:52,000 --> 00:19:56,000

It was for who was told when the air force had made him

281

00:19:56,000 --> 00:19:59,000

that the film had absolutely burned up,

282

00:19:59,000 --> 00:20:01,000

not before he stopped the film.

283

00:20:01,000 --> 00:20:06,000

The Air Force went to the right to the other side and see the other side.

284

00:20:06,000 --> 00:20:10,000

The further down the line, the other guy was talking.

285

00:20:10,000 --> 00:20:13,000

The public said, and he was still asleep, baby,

286

00:20:13,000 --> 00:20:16,000

the air force was telling the old weatherman,

287

00:20:16,000 --> 00:20:22,000

the air force was actually made 20 copies of this particular film.

288

00:20:22,000 --> 00:20:28,000

The Air Force official analysis says that the absolute human beauty of the film

289

00:20:28,000 --> 00:20:37,000

at about 900 miles an hour cannot possibly be compared to an aircraft at any time.

290

00:20:37,000 --> 00:20:40,000

Hundreds of persons watched for more than two hours,

291

00:20:40,000 --> 00:20:46,000

an unidentified object which maneuvered over the area at great altitude and high speed.

292

00:20:46,000 --> 00:20:49,000

First reported to police about two o'clock this morning,

293

00:20:49,000 --> 00:20:55,000

the thing was apparently triangular in shape with colors that varied from dull green

294

00:20:55,000 --> 00:20:57,000

to moments of glowing white light.

295

00:20:57,000 --> 00:21:02,000

Several squad cars radioed as they were watching the mysterious object.

296

00:21:02,000 --> 00:21:05,000

The control tower at Love Field confirmed the reports.

297

00:21:05,000 --> 00:21:11,000

Wildmore, the control tower observer and himself a pilot of 27 years experience,

298

00:21:11,000 --> 00:21:16,000

told Newsman that the thing was about at about 30,000 feet when first seen.

299

00:21:16,000 --> 00:21:22,000

He quickly marked a spot on the window of the control tower in order to check the movements of the object.

300

00:21:22,000 --> 00:21:26,000

In about two minutes it had zoomed up to around 80,000 feet

301

00:21:26,000 --> 00:21:31,000

and continued to rise until it was barely visible at about 100,000 feet.

302

00:21:31,000 --> 00:21:35,000

W. B. Harris, dispatcher for the Dallas Fire Department,

303

00:21:35,000 --> 00:21:39,000

reported that he watched the object for two hours through his office window.

304

00:21:39,000 --> 00:21:43,000

Several pilots agreed with the airport control tower operator

305

00:21:43,000 --> 00:21:48,000

that the weird object was moving at speeds up to 2,000 miles per hour.

306

00:21:48,000 --> 00:21:54,000

They were unanimous in their belief that it was not a balloon, a meteor or any conventional object.

307

00:21:54,000 --> 00:21:58,000

This is going to be a very interesting year, it's getting off to an early start.

308

00:21:59,000 --> 00:22:02,000

Frank Edwards and the News

309

00:22:02,000 --> 00:22:04,000

Mr. Edwards

310

00:22:04,000 --> 00:22:10,000

Mobile Alabama Special Brooklyn Air Force Base officials report that their radar units

311

00:22:10,000 --> 00:22:13,000

tracked an unidentified flying object last night.

312

00:22:13,000 --> 00:22:16,000

High speed, no sound, silvery colored.

313

00:22:16,000 --> 00:22:22,000

For that report, thanks to United Press, Daily News Building, New York City.

314

00:22:22,000 --> 00:22:25,000

Good night, good news and good luck.

315

00:22:26,000 --> 00:22:29,000

Frank Edwards and the News

316

00:22:29,000 --> 00:22:31,000

Mr. Edwards

317

00:22:31,000 --> 00:22:36,000

was sent up to investigate an unidentified craft near Griffiths Air Base.

318

00:22:36,000 --> 00:22:39,000

The jet was armed with rockets.

319

00:22:39,000 --> 00:22:45,000

It developed engine trouble, both pilot and radar operator bailed out and landed safely.

320

00:22:45,000 --> 00:22:48,000

But the stricken plane exploded in the air.

321

00:22:48,000 --> 00:22:54,000

The wreckage struck two homes and an automobile, killed four persons and injured one.

322

00:22:54,000 --> 00:23:03,000

Unidentified flying objects are being cited in record numbers all around the United States and in many parts of the world.

323

00:23:03,000 --> 00:23:09,000

The Air Force Base at Mobile reports last night, as I had on last night's broadcast,

324

00:23:09,000 --> 00:23:20,000

the Air Force Base at Mobile reports that it tracked one of these unidentified objects by radar along the Gulf Coast, the Gulf Coast night before last.

325

00:23:20,000 --> 00:23:29,000

Numerous Ohio newspapers report the case of a National Guard pilot whose plane was spotted last Monday by some sort of unidentified object,

326

00:23:29,000 --> 00:23:32,000

which fled when he gave chase.

327

00:23:32,000 --> 00:23:39,000

And the Buffalo Evening News reports that the Air Force is now asking all filter center observers,

328

00:23:39,000 --> 00:23:49,000

as well as military fliers and civilian spotters, to list certain specific data about unidentified flying objects.

329

00:23:49,000 --> 00:23:55,000

Reports are pouring into me. I'll pass some of them along to you Monday night.

330

00:23:55,000 --> 00:24:02,000

Meanwhile, keep an eye on the sky. We seem to have visitors.

331

00:24:02,000 --> 00:24:04,000

Frank Edwards and the News.

332

00:24:04,000 --> 00:24:06,000

Mr. Edwards.

333

00:24:06,000 --> 00:24:12,000

Here is a resume of recent sightings of unidentified flying objects.

334

00:24:12,000 --> 00:24:17,000

June 10th, the Duluth Minnesota Tribune headline said, quote,

335

00:24:17,000 --> 00:24:22,000

Dislike object arouses area residents curiosity.

336

00:24:22,000 --> 00:24:30,000

Within a 40-mile radius of Duluth, many persons saw the shiny, spherical object, which appeared to be just below the moon.

337

00:24:30,000 --> 00:24:39,000

One amateur astronomer thought it might have been a balloon, but air control records show no balloons anywhere near the area.

338

00:24:39,000 --> 00:24:46,000

The Hepler Gazette of Heppner, Oregon reported in a four-column front page story that on May 6th, quote,

339

00:24:46,000 --> 00:24:52,000

Three local men watched unidentified objects cross the skies. That was the headline.

340

00:24:52,000 --> 00:25:02,000

The three telephone linemen reported watching a V-shaped formation of three flat, shiny objects for about one minute,

341

00:25:02,000 --> 00:25:08,000

as the things swung across the sky at an estimated height of 10,000 feet.

342

00:25:08,000 --> 00:25:18,000

Knoxville, Tennessee, June 4th. The journal front page story headline, Flying Souser Sided at Knox, Morristown.

343

00:25:18,000 --> 00:25:25,000

Many persons reported seeing the thing, whatever it was. They described it as circular, blue-green disc shape.

344

00:25:25,000 --> 00:25:31,000

It was first reported from the area near the Oak Ridge Atomic Installation.

345

00:25:31,000 --> 00:25:39,000

June 16th. Beloit, Wisconsin, Daily News headline. Two more joined Flying Disc Club.

346

00:25:39,000 --> 00:25:48,000

Two young ladies reported watching a pair of small, glittering disc-shaped objects spinning rapidly as they moved over the city of Beloit.

347

00:25:48,000 --> 00:25:56,000

Newbury, Fort Massachusetts. Daily News. June 16th headline. Moon High Souser Seen.

348

00:25:56,000 --> 00:26:03,000

And the story says that three Amesbury, Massachusetts girls, daughters of Mr. and Mrs. William Thiveridge,

349

00:26:03,000 --> 00:26:09,000

reported watching two glowing yellow objects about 7.45 in the evening.

350

00:26:09,000 --> 00:26:16,000

The things were reportedly moving east to west at great speed and tremendous altitude.

351

00:26:16,000 --> 00:26:24,000

Reports of UFO sightings are now pouring in on the Air Force headquarters in Dayton at the rate of 700 per week.

352

00:26:24,000 --> 00:26:33,000

An all-time record high. News services, as you probably have noticed, seldom if ever carry these reports.

353

00:26:33,000 --> 00:26:43,000

If you find one in your local paper, please send it to me. I haven't been muzzled, not yet, and I intend to continue reporting until the mystery is solved.

354

00:26:43,000 --> 00:26:52,000

To listeners everywhere, keep an eye on the sky. Things are going to become very interesting very soon.

355

00:26:54,000 --> 00:26:58,000

Frank Edwards and the News. Mr. Edwards.

356

00:26:58,000 --> 00:27:10,000

Have we actually been visited by strangers from the skies? I have in my possession a statement by a representative of a group of scientists associated with a top secret project.

357

00:27:10,000 --> 00:27:19,000

After analyzing some data on this subject, which is available to them, and discussing it in the letter, the letter says further, quote,

358

00:27:19,000 --> 00:27:31,000

I can now unreservedly state that neither our government nor any other government possesses the tremendous technology necessary to the construction of such devices.

359

00:27:31,000 --> 00:27:41,000

The beings controlling the disks appear to have knowledge of the nullification of gravity and of some very advanced inertialist drive.

360

00:27:41,000 --> 00:27:46,000

End quote. Tomorrow night I'll have for you some more information on the same topic.

361

00:27:46,000 --> 00:27:50,000

Meanwhile, keep an eye on the sky. We seem to have visitors.

362

00:27:50,000 --> 00:27:57,000

Frank Edwards and the News. Mr. Edwards.

363

00:27:57,000 --> 00:28:04,000

Brilliantly glowing disk shaped object in and around the nation's capital last night about 8 p.m.

364

00:28:04,000 --> 00:28:18,000

They estimated that it was at an altitude of about 3,000 feet, moving about as fast as a four engine passenger plane, except that this thing made sharp right angle turns which no plane could do.

365

00:28:18,000 --> 00:28:30,000

Duluth. The strange marking on the moon discovered and reported by Frank Manning of New Orleans about a month ago has been confirmed by astronomer and curator Frank Halstead of Duluth.

366

00:28:30,000 --> 00:28:39,000

The Duluth News and Tribune reports that scores of persons who were visiting the observatory at the time also saw the marking.

367

00:28:39,000 --> 00:28:53,000

In his letter to me, Mr. Halstead says that he was using a 9-inch reflector telescope at the time and that his assistant Raymond Matsuhara actually spotted the dark line reported by Manning.

368

00:28:53,000 --> 00:29:06,000

They found that it runs from the center of the crater Piccolo, meaning to a break in the rim, just as Manning said, and it is a marking not previously reported by astronomers.

369

00:29:06,000 --> 00:29:14,000

To listeners everywhere, keep an eye on the sky. Things are going to become very interesting very soon.

370

00:29:36,000 --> 00:29:54,000

The British have no clue to the mystery after three years of in-depth study. Here in our own country, tens of thousands of automobiles, new and old, have had tents knocked out of the windshield in recent weeks.

371

00:29:54,000 --> 00:30:08,000

Not only the wind seals the side grasses and headlights, too. Starting in the northwest, the plague

moves slowly through the round the Great Lake into Indiana and Ohio, then stops as suddenly as it began, without leaving a clue as to its origin.

372

00:30:08,000 --> 00:30:23,000

Myodists have no answer that fits the known fact. The head of the Michigan State, a section of the highway department, is in charge of the isotope division, meant to be a significant damage might have been done by some byproduct of the hydrogen bomb.

373

00:30:23,000 --> 00:30:41,000

But another scientist, just from the University of Michigan, complied with that one by pointing out that acid in the air, particularly hydrochloric acid, or rather hydrochloric acid, would have damaged both the metal bodies of the automobiles as well as the glass, and that did not happen.

374

00:30:41,000 --> 00:31:01,000

Another separation was that gravel on the highways had done the damage, but that wasn't as in hold up because many of the cars were actually damaged while they were parked. These damages are free because of the widely varying temperatures in which the damage occurred, whatever is wise it remains undetected and unexplained.

375

00:31:31,000 --> 00:31:53,000

Ladies experts had investigated and missed their battles, as they would be impossible to find amateurs who have perpetrated the broadcast as a whole, they regarded as highly unlikely that the signal from a television station in Houston could have traveled to some eastern planet and had been reflected back over a three-year period, especially since this astounding thing has happened several times.

376

00:31:54,000 --> 00:32:09,000

The investigators cautiously ventured their thoughts that some intelligence out in outer space had set the signal and sent it back to us time after time in a possible effort to establish contact. Well, those are the feelings, what do you think?

377

00:32:09,000 --> 00:32:14,000

Frank Edwards on the news. Mr. Edwards.

378

00:32:39,000 --> 00:32:44,000

By writing to CE 225 Lafayette Street, New York.

379

00:33:39,000 --> 00:33:59,000

In the clear skies, according to the newspaper reports, not radioactive and thus far not identified, probably just another hallucination or perhaps another mirage. To listeners everywhere, keep an eye on the sky. Things are going to become very interesting very soon.

380

00:33:59,000 --> 00:34:05,000

Frank Edwards on the news. Mr. Edwards.

381

00:34:59,000 --> 00:35:19,000

They were sighted and tracked by radar over the nation's capital last month, as I reported to you. The Air Force has a standing order at all air bases that they are to send up jets immediately when radar picks up unidentified objects. These scrambles are then described to the public as routine training flights.

382

00:35:19,000 --> 00:35:34,000

Yesterday, the pressure increased when the crew of a TWA transatlantic constellation watched a huge disc-shaped object near Boston. It flew ahead of the plane at a speed of about 275 miles an hour. Official explanation? Balloon.

383

00:35:35,000 --> 00:35:50,000

Replied the crew and the ground observers who also saw it? Bunk. Then the Air Force promptly released a publicity statement which said, among other things, that most of the UFO sightings could be explained as conventional objects.

384

00:35:51,000 --> 00:36:08,000

Explained, that is, to the satisfaction of the Air Force. That publicity statement may have been nothing more than a clumsy cover-up in anticipation of many more sightings to come. For one thing, the Air Force statement says that no photos of detail have been taken.

385

00:36:08,000 --> 00:36:34,000

Notice the word detail. It's a loophole. Actually, many photographs have been taken, including those taken by a Navy warrant officer at Tremont in Utah in July of 1952. After months of study, the Navy and Air Force scientists agreed that the objects in those movies could not have been any conventional airborne devices or birds of any type due to their weird maneuvering and extremely high speed.

386

00:36:35,000 --> 00:36:46,000

The Air Force agreed to join with the Navy in making that analysis public. Then, the hush-hush boys in the Air Force backed down and the analysis was not released.

387

00:36:46,000 --> 00:37:08,000

The Air Force publicity statement released yesterday said that only 87 sightings have been reported this year. The fact is that my listeners alone have sent me well over 100 sightings taken from the front pages of the nation's newspapers, and that list does not include the military and ground observer sightings available only to the Air Force.

388

00:37:08,000 --> 00:37:19,000

The Air Force figured is incorrect, but since they no longer permit newsmen to see their sighting records, they can issue any figure they like. That's the advantage of official secrecy.

389

00:37:19,000 --> 00:37:33,000

The flimsy nature of the Air Force publicity release yesterday is clearly outlined when they assert that most of these objects are balloons, weather freaks, conventional planes, and quote, atmospheric bodies.

390

00:37:34,000 --> 00:37:48,000

Whatever an atmospheric body may be, if the Air Force really believed its own press releases, then why would it be spending so much time, talent, and money trying to catch something which it says does not exist?

391

00:37:48,000 --> 00:37:56,000

Or to put it another way, why keep the jets scrambling at all hours after nothing more than high speed hallucinations?

392

00:37:56,000 --> 00:38:04,000

To listeners everywhere, keep an eye on the sky. Things are going to become very interesting very soon.

393

00:38:06,000 --> 00:38:09,000

Frank Edwards and the News. Mr. Edwards.

394

00:38:10,000 --> 00:38:21,000

In London today with a very strange report. So strange that one of the American news services actually carried it on the news wires tonight. A rare event.

395

00:38:21,000 --> 00:38:36,000

Captain J. R. Howard, a veteran pilot who has flown the Atlantic more than 250 times, reported to British authorities that his plane was followed today by a large object and six smaller objects for a distance of at least 80 miles.

396

00:38:36,000 --> 00:38:49,000

He sent an emergency flash to an American base in Labrador. It sent past jet interceptors to his assistants. As the jets approached, the unidentified objects raced away and left the jets far behind.

397

00:38:49,000 --> 00:39:03,000

To the United Press, thanks for carrying the story. Why don't you also carry the stories of these strange objects which are being reported all over the United States and reported in the local newspapers.

398

00:39:03,000 --> 00:39:12,000

Tomorrow night, thanks to my alert listeners who have sent me the clippings from their local papers, we will do a roundup on unidentified flying objects.

399

00:39:12,000 --> 00:39:28,000

With some proof that the government is very much interested in these things in spite of official denials. To listeners everywhere, keep an eye on the sky. Things are going to become very interesting very soon.

400

00:39:28,000 --> 00:39:33,000

Frank Edwards on the news. Mr. Edward.

401

00:39:33,000 --> 00:39:51,000

Captain James Howard has been flying the British overseas airways flights between New York and London for the past seven years. He reported to authorities that he and his crew of 11, as well as most of the 51 passengers, watched the UFOs for at least 20 minutes.

402

00:39:51,000 --> 00:40:05,000

Said pilot Howard, quote, never in my life have I seen anything like that. Stewardess Daphne Webster said, it was the weirdest thing I've ever seen. The big black object, sort of roundish, kept changing shape like a jellyfish swimming in the sea.

403

00:40:05,000 --> 00:40:16,000

Navigation officer George Allen said, quote, I am absolutely convinced that the seven objects we saw were a base ship of some kind with smaller satellites attached to it.

404

00:40:17,000 --> 00:40:40,000

The official report signed by every member of the 11 man crew of the big airliner says, quote, we were flying at 19,000 feet, about 280 miles per hour, nearing Labrador. It was just after sunset, a beautiful clear evening. Against the western sky we saw before us the silhouettes of one large black object with six much smaller objects clustering around it.

405

00:40:40,000 --> 00:41:00,000

The big objects seemed to change shape. It soon took on the appearance of some sort of a flat broad device in the general shape of an arrow. Then it developed two bumps at the ends, like a telephone receiver. The objects approached rapidly and passed parallel to the plane at a distance of about five miles while we were doing 280 miles an hour.

406

00:41:01,000 --> 00:41:18,000

The small round things which had been darting around the large body seemed to merge. Suddenly the big one stopped moving and in a matter of seconds it disappeared as though it had rushed away at tremendous speed in a right angle turn. At that time the jet interceptors from Goose Bay were about 20 miles from us and closing rapidly.

407

00:41:19,000 --> 00:41:30,000

Captain Howard and his crew also said in their statement, quote, what we saw could not have been man made. We do not care to speculate further as to their possible origin.

408

00:41:30,000 --> 00:41:47,000

London and Continental Papers are headlining the story and the London Daily Express calls attention to the fact that we are now closer to Mars than at any time in 15 years. Here in our own country the Air Force Intelligence Center at Dayton admits that it is being deluged with sightings of unidentified flying objects.

409

00:41:48,000 --> 00:42:07,000

More than 700 reports per week, the biggest year on record. And on May 15th Air Force Chief General Twining said that the best brains of the Air Force are at work on the problem of the UFOs. General Twining also said on that same date that if we should find that these things come from Mars there is nothing to be alarmed about.

410

00:42:08,000 --> 00:42:21,000

Tonight I wish to thank the United Press for carrying the report of this particular sighting over the Atlantic which might conceivably be part of the greatest news story in history. Most news services ignore the UFOs.

411

00:42:22,000 --> 00:42:32,000

If you'd like to join me in thanking United Press just address your card or letter to United Press care of the Daily News Building, New York City.

412

00:42:32,000 --> 00:42:40,000

To listeners everywhere keep an eye on the sky. Things are going to become very interesting very soon.

413

00:42:42,000 --> 00:42:45,000

Frank Edwards and the News. Mr. Edward.

414

00:42:46,000 --> 00:42:57,000

Berlin officials disclose that more than 300 reports from widely separated points described unidentified flying objects which have been maneuvering over Berlin in recent evenings.

415

00:42:57,000 --> 00:43:11,000

The observers including many flyers and civilian aviation employees reported that the objects they watched were circular in shape, glowing brightly in changing colors, and they say that things flew in formations at very high speeds.

416

00:43:12,000 --> 00:43:29,000

Reports of UFO sightings continue to pour in on me thanks to the alert listeners who clip the stories from their local newspapers. At Anchorage, Alaska, strange circular objects maneuvered over Cook Inlet again a few nights ago, an area where many similar sightings have been reported before.

417

00:43:30,000 --> 00:43:34,000

Jets go up from Elmendorf Field. The lighted things go away.

418

00:43:35,000 --> 00:43:50,000

In Ohio, Air Defense observers report watching seven UFOs which gave off green and red lights as they swung through the sky. The Burlington Free Press for June 25th reports, mysterious objects bobbed through sky in St. Johnsbury.

419

00:43:51,000 --> 00:44:03,000

State police describe the things as glowing yellowish, silent, and very swift. The Everett Washington Daily Herald for June 23rd headline says, mysterious light seen over Skagit County.

420

00:44:04,000 --> 00:44:15,000

Witnesses told authorities the thing was circular, shiny like aluminum, moved jirkely at low altitude. The Kershokton, Ohio Tribune recently headlined, quote, hundreds here watch flying saucers.

421

00:44:15,000 --> 00:44:22,000

A bright object at great altitude moving westward, which was contrary to the prevailing winds according to officials.

422

00:44:23,000 --> 00:44:31,000

These are indeed wonderful days in which we live. It seems that we now have at long last the educated Mirage.

423

00:44:32,000 --> 00:44:44,000

Last week, a British passenger plane was followed by seven unidentified objects as the plane crossed the Atlantic. The Air Force now says that the seven objects were nothing more than a Mirage.

424

00:44:45,000 --> 00:44:52,000

In that case, it is even more remarkable than anyone thought, for it must have been a very intelligent Mirage in seven parts.

425

00:44:53,000 --> 00:44:59,000

It followed the propeller driven passenger plane, but vanished at high speed when a jet plane approached.

426

00:45:00,000 --> 00:45:07,000

Oslo Norway, a cameraman who photographed the eclipse for scientists last week, made a startling discovery when he saw his films.

427

00:45:08,000 --> 00:45:15,000

He had also photographed six unidentified objects at the same time that he took the pictures of the eclipse.

428

00:45:15,000 --> 00:45:20,000

The objects are shining white and disc shaped and are at great distance from the plane.

429

00:45:21,000 --> 00:45:29,000

Members of the expedition probably did not see them at the time of the eclipse because they were all watching the sun, said cameraman John Gernolf.

430

00:45:30,000 --> 00:45:43,000

The pictures were made from an altitude of 13,000 feet, made within a couple of hours of the time that a British passenger plane reported that it was being followed by six or seven unidentified objects over the Atlantic,

431

00:45:43,000 --> 00:45:52,000

near Labrador. To listeners everywhere, keep an eye on the sky. Things are going to become very interesting very soon.

432

00:45:55,000 --> 00:45:58,000

Frank Edwards on the news. Mr. Edwards.

433

00:45:59,000 --> 00:46:08,000

Coast to coast, special. Unidentified flying objects are being sighted by the hundreds, generally at night, all over the world.

434

00:46:09,000 --> 00:46:23,000

However, in Finland last Saturday in the daytime, scores of persons reported to the government that they watched several disc shaped objects and one huge zeppelin shaped thing traveling at high speed.

435

00:46:24,000 --> 00:46:35,000

The Wilmington-Dunaware Morning News in a front page story last Friday gives you some idea of the manner in which UFO sightings have been kept from the American public.

436

00:46:36,000 --> 00:46:41,000

The headline says, quote, 100 mystery flying objects spotted here.

437

00:46:42,000 --> 00:46:51,000

Most of these things, says the Wilmington News, were confirmed by the Air Force at the Baltimore Filter Centers after being reported by ground observers and others.

438

00:46:51,000 --> 00:46:55,000

These ground observers are civilians attached to the Air Force spotters.

439

00:46:56,000 --> 00:47:05,000

The list of sightings covers a two year period up to the latest UFO which was sighted over Wilmington on July 5th this year.

440

00:47:06,000 --> 00:47:17,000

And it includes a report by ground observers who watched a large cigar shaped device over Wilmington at 11 p.m. on April 18th of last year.

441

00:47:17,000 --> 00:47:20,000

The report calls it a mothership.

442

00:47:21,000 --> 00:47:33,000

100 unidentified objects over a major American city in two years and kept secret until now when a ground observer officer reveals the facts.

443

00:47:34,000 --> 00:47:39,000

Tomorrow night I'll have more of these report which the news wires ignore.

444

00:47:39,000 --> 00:47:43,000

To listeners everywhere, keep an eye on the sky.

445

00:47:44,000 --> 00:47:47,000

Things are going to become very interesting very soon.

446

00:47:49,000 --> 00:47:50,000

Flying Object Special.

447

00:47:51,000 --> 00:47:57,000

Tonight's report to you is made possible through the local newspapers which refuse to be muzzled.

448

00:47:58,000 --> 00:48:08,000

June 17th, Harryman, Tennessee record reports that A.H. Keaster, owner of a tourist court and several of his friends watched a brilliant red object for about 15 seconds.

449

00:48:09,000 --> 00:48:11,000

Whether it was clear, object was fast.

450

00:48:12,000 --> 00:48:13,000

It moved over a nearby ridge.

451

00:48:14,000 --> 00:48:22,000

The red tail or exhaust from the thing was clearly separated from the body of the disc they said by a thin green layer of some sort.

452

00:48:23,000 --> 00:48:25,000

Silent, bright and very very fast.

453

00:48:26,000 --> 00:48:27,000

Louisville, Kentucky June 25th.

454

00:48:28,000 --> 00:48:36,000

Three persons from different parts of the city report to me that they watched two round silvery disc shaped objects shortly after 4 p.m.

455

00:48:36,000 --> 00:48:44,000

Thin, shiny object that came in fast stopped then made a tight turn to the south or southwest and sped away.

456

00:48:45,000 --> 00:48:58,000

Deseret News and Telegram Salt Lake City June 29th reports that hundreds of persons in the area of Spanish Fork, Santa Queen and Pace in Utah reported watching two bright red orange objects in the skies there.

457

00:48:59,000 --> 00:49:04,000

Watching these things at opposite ends of the county and in opposite directions from those who saw them.

458

00:49:04,000 --> 00:49:06,000

Norfolk, Virginia July 13th.

459

00:49:07,000 --> 00:49:21,000

A resident of a neighborhood near the Norfolk Naval Base reports that at 2.45 a.m. as he was coming home from work on the night shift, he saw a huge glowing circular object which he and his companion estimated to be about 200 feet in diameter.

460

00:49:22,000 --> 00:49:30,000

A former flyer, he says he thinks the thing was at about 3,000 feet altitude moving not faster than 100 miles per hour without sound.

461

00:49:31,000 --> 00:49:44,000

Winthrop, Maine July 5th. Five persons report watching one round white object which came down through a cloud layer, moved rapidly westward, followed a few seconds later by two jets which were apparently in pursuit.

462

00:49:45,000 --> 00:49:52,000

A huge unidentified flying object followed a United Airlines plane near Columbus, Ohio June 26th according to the Washington Daily News Tonight.

463

00:49:53,000 --> 00:50:01,000

The report says that Colonel Fred Murray, 49, an army doctor stationed here in the nation's capital, was a passenger on the plane at the time of the sighting.

464

00:50:02,000 --> 00:50:04,000

It was about 7.30 in the morning, the sun was shining.

465

00:50:05,000 --> 00:50:13,000

The doctor says that he and the 60 passengers and the crew of the United Airlines DC-6 all saw the object briefly but clearly.

466

00:50:14,000 --> 00:50:17,000

The crew told the passengers they had been alerted by radio to investigate the thing.

467

00:50:17,000 --> 00:50:20,000

The pilot made a sweeping turn so the passengers could see it.

468

00:50:21,000 --> 00:50:25,000

It was described as metallic in appearance and unlike any aircraft they had ever seen.

469

00:50:26,000 --> 00:50:32,000

Notice that this sighting took place June 26th at Columbus, Ohio. It is just now being reported by the press.

470

00:50:33,000 --> 00:50:44,000

On the following day, June 27th, a National Guard pilot near Dayton, Ohio reported that a similar object had followed his plane and on June 27th, 24 hours after that United Airlines sighting,

471

00:50:44,000 --> 00:50:52,000

I have newspaper reports of a similar object sighted at five places in West Virginia and three places in nearby Pennsylvania.

472

00:50:53,000 --> 00:51:00,000

To listeners everywhere, keep an eye on the sky. Things are going to become very interesting very soon.

473

00:51:02,000 --> 00:51:04,000

Frank Edwards found the news.

474

00:51:05,000 --> 00:51:06,000

Mr. Edwards.

475

00:51:06,000 --> 00:51:08,000

Washington Exclusive.

476

00:51:09,000 --> 00:51:20,000

The rapidly growing mass of evidence dealing with unidentified flying objects all over the world is bringing to light some surprising statements from various authoritative sources.

477

00:51:21,000 --> 00:51:24,000

What are these UFOs which are being seen all over the world?

478

00:51:24,000 --> 00:51:35,000

Astronomer Frank Halstead, who is in charge of the observatory of the University of Minnesota at Duluth, is just back from a year's visit with scientific centers in California and the Southwest.

479

00:51:36,000 --> 00:51:42,000

Astronomer Halstead says, quote, aircraft of some sort have visited the Earth from outer space.

480

00:51:43,000 --> 00:51:50,000

The best scientific minds in the world agree that some planet out there is sending these things to look us over, end quote.

481

00:51:51,000 --> 00:51:56,000

Somebody from somewhere in space? Are we alone in the universe?

482

00:51:57,000 --> 00:52:11,000

Writing in the June issue of McLean's magazine, Canadian professor Norman Burrell of McGill University says, quote, other planets will have their own evolutionary creations, the like of which we cannot imagine.

483

00:52:11,000 --> 00:52:20,000

Of this we may be sure. Well-placed planets evolve life, and life, sooner or later, evolves mind.

484

00:52:21,000 --> 00:52:35,000

There may not be anything in the universe that looks like man, but there will almost certainly be beings of kinds unaccountable, beings that possess intelligence and power, and wisdom grown perhaps far beyond our own.

485

00:52:36,000 --> 00:52:49,000

In all that really matters, we are almost certainly not alone. To listeners everywhere, keep an eye on the sky. Things are going to become very interesting very soon.

486

00:52:49,000 --> 00:52:55,000

And spring you Frank Edwards on the news. Mr. Edwards.

487

00:53:19,000 --> 00:53:30,000

The ocean is 1,000 feet above the ocean. In that case, it had to be a bomb carried aloft by a rocket of some sort, or else it was something entirely new and different in the field of explosions.

488

00:53:31,000 --> 00:53:40,000

Our guest tonight is Major Donald E. Kehoe, U.S. Marine Corps retired, a veteran of 35 years of civilian and military flying experience.

489

00:53:41,000 --> 00:53:48,000

Major Kehoe was aided to Colonel Charles Lindbergh on Lindy's tour of the country after the historic transatlantic flight.

490

00:53:49,000 --> 00:54:03,000

A well-known aviation writer, in 1950, Major Kehoe brought out his bestseller, Flying Saucers Are Real, which stirred up a real tempest, and in 1953, another bestseller, Flying Saucers from Outer Space.

491

00:54:03,000 --> 00:54:09,000

Books based on material from Air Force and Canadian official sources.

492

00:54:10,000 --> 00:54:17,000

Major Kehoe, what are the most recent developments in this field of unidentified flying objects?

493

00:54:18,000 --> 00:54:21,000

There are three very important developments which have been kept from the public.

494

00:54:22,000 --> 00:54:28,000

In the first place, there is at least one, and possibly two, artificial satellites circling the Earth at the first time.

495

00:54:28,000 --> 00:54:41,000

An intensive effort is being made by government scientists at White Sands, New Mexico, to locate and chart the courses of these satellites in an effort to determine what they are and where they came from.

496

00:54:42,000 --> 00:54:53,000

Secondly, within the last two weeks, Canadian government scientists have notified all official sky watchers to be especially alert and to report immediately any unidentified area of objects.

497

00:54:54,000 --> 00:54:57,000

The third development which has then kept secrets is this.

498

00:54:58,000 --> 00:55:05,000

In the closing week of March, Air Force Secretary Talbast made two trips to Palm Springs, California, in an Air Force plane.

499

00:55:06,000 --> 00:55:20,000

On one of those trips, shortly after the plane had passed Fresno, California, the crew of Secretary Talbast's plane discovered that it was being followed by a large, silvery, disc-shaped object, which was flying about 1,000 feet below the Secretary's plane,

500

00:55:21,000 --> 00:55:23,000

and about 1,000 feet distance.

501

00:55:24,000 --> 00:55:32,000

The unidentified object was seen by Secretary Talbast, the crew of his plane, and Secretary Talbast's aide, to accompany him on the trip.

502

00:55:33,000 --> 00:55:39,000

After watching the disc for several minutes, Secretary Talbast ordered his plane to swing around and approach it.

503

00:55:40,000 --> 00:55:43,000

The object immediately accelerated and disappeared at high speed.

504

00:55:44,000 --> 00:55:49,000

This was a daylight-fighting of long duration by credible personnel and under very favorable conditions.

505

00:55:50,000 --> 00:55:59,000

In view of the tremendous amount of evidence that is being concealed by Air Force secrecy, it is high time the American people demanded to notify.

506

00:56:00,000 --> 00:56:04,000

Thank you very much, Major Donald E. Kehoe, U.S. Marine Corps, retired.

507

00:56:05,000 --> 00:56:08,000

To listeners everywhere, keep an eye on the sky.

508

00:56:09,000 --> 00:56:12,000

Things are going to become very interesting very soon.
