

1

00:00:00,000 --> 00:00:07,000

We needless to say that on rainy nights like this, on the 16th of September, 20 years exactly

2

00:00:07,000 --> 00:00:16,000

to the date when so many of us in 1936 were sure that the great step of the Great Pyramid,

3

00:00:16,000 --> 00:00:24,000

which we were entering, was the advent of a new dispensation, 20 years later, for having a man with us,

4

00:00:25,000 --> 00:00:29,000

that really helped to formulate such a crusade.

5

00:00:29,000 --> 00:00:32,000

Certainly, we're very happy to welcome you here tonight.

6

00:00:32,000 --> 00:00:36,000

It's been a long, long time I realized between sauce and meat,

7

00:00:36,000 --> 00:00:42,000

and yet I must repeat for the benefit of those people who are new and who are here for the first time

8

00:00:42,000 --> 00:00:50,000

or who are here for only the second time, that our type of discovery into the field of the unidentified flying objects

9

00:00:50,000 --> 00:00:54,000

is far different from anything that we have ever known here before.

10

00:00:54,000 --> 00:01:00,000

You cannot find a pattern. You cannot find a tangible continuity.

11

00:01:00,000 --> 00:01:05,000

You cannot find or discover something in here that is so specific that you can say,

12

00:01:05,000 --> 00:01:11,000

at last I've got it, I know what it is, and my friends come down and look it over.

13

00:01:11,000 --> 00:01:17,000

Two years ago, when we had the first Saucer Club meetings, we were so sure we had the answer.

14

00:01:17,000 --> 00:01:21,000

The thing was so clear, clarified there could be no mistake in it.

15

00:01:21,000 --> 00:01:27,000

These were beings from other planets, high celestial majestic.

16

00:01:27,000 --> 00:01:29,000

We don't disbelieve that at all.

17

00:01:29,000 --> 00:01:37,000

But in the two years time, all of the experiences that many of us, as laymen researchers have gone through,

18

00:01:37,000 --> 00:01:42,000

the disillusionment, and if you want the real word, a little bit of heartbreak,

19

00:01:42,000 --> 00:01:48,000

because you're so sure that this statement is accurate, that that tape is going to be right,

20

00:01:48,000 --> 00:01:54,000

and that that person's witness is something that you can definitely depend upon,

21

00:01:54,000 --> 00:02:01,000

only to find that there's somebody with a rather unconscious feel of glamorizing,

22

00:02:01,000 --> 00:02:05,000

of building a lily, of confusing mental experiences,

23

00:02:05,000 --> 00:02:10,000

and they won't imagine a just subjective state with objective reality.

24

00:02:10,000 --> 00:02:16,000

A subject that has been called everything from crackpotism to escapism,

25

00:02:16,000 --> 00:02:21,000

to the most profound subject to have hit this planet in 2000 years,

26

00:02:21,000 --> 00:02:26,000

is a thing that we have tried to find a very clear path to.

27

00:02:26,000 --> 00:02:28,000

It hasn't been easy.

28

00:02:28,000 --> 00:02:33,000

Our Detroit Flying Saucer Club can definitely, if you want to know what we stand for,

29

00:02:33,000 --> 00:02:35,000

it's very simple.

30

00:02:35,000 --> 00:02:39,000

We have no intelligence, aspiring look into this subject,

31

00:02:39,000 --> 00:02:47,000

without objectivity, without any motivations, no isms, no secret religions to cultivate.

32

00:02:47,000 --> 00:02:52,000

We have no dues or secret rights, and we know something is happening.

33

00:02:52,000 --> 00:02:56,000

But we believe that saucers are part of an evolution,

34

00:02:56,000 --> 00:03:01,000

that they're a normal thing, that this is part of a reality, as it were.

35

00:03:01,000 --> 00:03:04,000

A little overtones and implications, very obviously.

36

00:03:04,000 --> 00:03:09,000

Many of us have been so impressed with it, that it has altered our lives visibly.

37

00:03:09,000 --> 00:03:12,000

When I was giving a talk in Windsor about six months ago,

38

00:03:12,000 --> 00:03:14,000

a gentleman came up to me and said,

39

00:03:14,000 --> 00:03:18,000

Mr. Mayday, just what the saucers has done to me,

40

00:03:18,000 --> 00:03:22,000

and making me have a new slant on life is worth all of this.

41

00:03:22,000 --> 00:03:24,000

I think many of us feel that way.

42

00:03:24,000 --> 00:03:29,000

There's been something gained, something, some great lift.

43

00:03:29,000 --> 00:03:33,000

I met this in my barber's chair on Saturday afternoon yesterday

44

00:03:33,000 --> 00:03:35,000

to the man who was supposed to be going here.

45

00:03:35,000 --> 00:03:42,000

He told me himself that if the saucers could be proven to be true,

46

00:03:42,000 --> 00:03:44,000

that we were visited by other planets,

47

00:03:44,000 --> 00:03:46,000

that the implications were so great,

48

00:03:46,000 --> 00:03:49,000

he said that it would change this world overnight.

49

00:03:49,000 --> 00:03:51,000

But we so agree.

50

00:03:51,000 --> 00:03:54,000

But it's not going to be a transition like that.

51

00:03:54,000 --> 00:03:58,000

And I don't want to get in and give the talk for our speaker tonight,

52

00:03:58,000 --> 00:04:03,000

but I want to plant the thought of the visually flying saucer club

53

00:04:03,000 --> 00:04:08,000

that stands for an attitude of mine, for a definite conviction,

54

00:04:08,000 --> 00:04:12,000

for a camaraderie that you cannot put down in certain statutes,

55

00:04:12,000 --> 00:04:14,000

covenants, and judgments.

56

00:04:14,000 --> 00:04:18,000

But we do believe that we have specific and definite and tangible

57

00:04:18,000 --> 00:04:21,000

evidences that can't be controversial.

58

00:04:21,000 --> 00:04:25,000

The five sightings that I've seen, three of which were unwitnessed,

59

00:04:25,000 --> 00:04:29,000

have made such an impression upon me that nothing changed my attitude.

60

00:04:29,000 --> 00:04:32,000

I've had the best meaning of religious analyses tell me,

61

00:04:32,000 --> 00:04:36,000

well Henry, you know, after all, you're progressing upward,

62

00:04:36,000 --> 00:04:38,000

and possibly you got into that psychic field,

63

00:04:38,000 --> 00:04:42,000

and you thought you saw that flash of blue across your horizon.

64

00:04:42,000 --> 00:04:45,000

Well, I know all about that too.

65

00:04:45,000 --> 00:04:48,000

But there wasn't any imagination, there wasn't any subjectivity,

66

00:04:48,000 --> 00:04:52,000

it was just as objective as this audience listening to me tonight.

67

00:04:52,000 --> 00:04:55,000

And several of you know that that's true in your own cases.

68

00:04:55,000 --> 00:04:57,000

And now, leading from the gentlemen,

69

00:04:57,000 --> 00:05:01,000

the man that we're bringing to you tonight has an enviable history.

70

00:05:01,000 --> 00:05:05,000

He is one of those diamonds not in the rough,

71

00:05:05,000 --> 00:05:08,000

but diamonds that has been roughed up,

72

00:05:08,000 --> 00:05:11,000

in the way that he has been able to carry a conviction through

73

00:05:11,000 --> 00:05:14,000

to the point that his facets have become very sharp,

74

00:05:14,000 --> 00:05:17,000

and to the point where he's able to give a reflection

75

00:05:17,000 --> 00:05:20,000

and an unbiased opinion that is almost second to none,

76

00:05:20,000 --> 00:05:25,000

and today in the radio station at Indianapolis, the TV station WTTV,

77

00:05:25,000 --> 00:05:29,000

he is one of the most popular newscasters in the Midwest

78

00:05:29,000 --> 00:05:32,000

with a waiting list to get his time.

79

00:05:32,000 --> 00:05:34,000

On the way back from Martin View, Arkansas,

80

00:05:34,000 --> 00:05:37,000

the other afternoon after hearing Brian Edwards

81

00:05:37,000 --> 00:05:40,000

at a rotary club luncheon in Toronto,

82

00:05:40,000 --> 00:05:43,000

I was very much impressed to listen to one of the commentators

83

00:05:43,000 --> 00:05:46,000

talk about this commentator,

84

00:05:46,000 --> 00:05:50,000

to make a very humorous point at our good friend Mr. Arthur Godfrey,

85

00:05:50,000 --> 00:05:53,000

and across the imagination of so many thousands of people

86

00:05:53,000 --> 00:05:55,000

that make a thought for five minutes.

87

00:05:55,000 --> 00:05:57,000

That's Frank Edwards.

88

00:05:57,000 --> 00:06:01,000

Nonconformist, original, spontaneous.

89

00:06:01,000 --> 00:06:05,000

For five years from 1949 to 1954,

90

00:06:05,000 --> 00:06:08,000

an estimated 13 million people

91

00:06:08,000 --> 00:06:13,000

made it a nightly ritual to wait for the news commentations of Frank Edwards.

92

00:06:13,000 --> 00:06:17,000

1952, 1953, and 1954,

93

00:06:17,000 --> 00:06:22,000

the motion picture Daily Poll shows that the radio and television editors of this country

94

00:06:22,000 --> 00:06:26,000

rated Ed Murrow, Frank Edwards and Lo O'Thomas,

95

00:06:26,000 --> 00:06:29,000

as a nation's three top newsmen.

96

00:06:29,000 --> 00:06:33,000

Suddenly then in 1954, and many of you who told me about this,

97

00:06:33,000 --> 00:06:35,000

many of you remember the incident,

98

00:06:35,000 --> 00:06:39,000

Frank Edwards disappeared from the nation's airways.

99

00:06:39,000 --> 00:06:43,000

The official explanation handed out by his sponsors did not explain

100

00:06:43,000 --> 00:06:46,000

nor satisfy his millions of listeners.

101

00:06:46,000 --> 00:06:52,000

Many of whom, Mr. Edwards, had become the last nationwide source of information

102

00:06:52,000 --> 00:06:57,000

on the continuing cycle of unidentified flying objects.

103

00:06:57,000 --> 00:07:00,000

The court of last resort that actually went on the air,

104

00:07:00,000 --> 00:07:04,000

stuck his neck out and told, as many of us wrote him say,

105

00:07:04,000 --> 00:07:08,000

unidentified witness fighting, Arkansas,

106

00:07:08,000 --> 00:07:11,000

Maine, in Washington, and wherever it was.

107

00:07:11,000 --> 00:07:15,000

On this subject, he stands alone as a veteran and prominent newsman

108

00:07:15,000 --> 00:07:19,000

who had the courage to tell the American public what was happening

109

00:07:19,000 --> 00:07:23,000

despite the restrictions placed upon him by his sponsors.

110

00:07:23,000 --> 00:07:27,000

And it was Frank Edwards who caused no end of consternation

111

00:07:27,000 --> 00:07:30,000

to alter Wenshaw and the other commentators.

112

00:07:30,000 --> 00:07:35,000

In the school, down on Keyhomes, flying saucers are real story

113

00:07:35,000 --> 00:07:40,000

before it broke in True Magazine in 1949.

114

00:07:40,000 --> 00:07:47,000

Ladies and gentlemen, we're so very happy tonight to bring you Frank Edwards.

115

00:07:47,000 --> 00:07:59,000

Thank you, you brave people.

116

00:07:59,000 --> 00:08:04,000

Ladies and gentlemen, before I start my little dissertation here tonight,

117

00:08:04,000 --> 00:08:07,000

I'd like to explain that I'm rather hard of hearing

118

00:08:07,000 --> 00:08:12,000

and I would appreciate it very much if you would applaud again a little bit louder.

119

00:08:18,000 --> 00:08:22,000

Thank you, Morris Jessen.

120

00:08:22,000 --> 00:08:28,000

I understand that I have some guests here in the audience tonight

121

00:08:28,000 --> 00:08:32,000

from the Intelligence Center at Dayton, Ohio.

122

00:08:32,000 --> 00:08:36,000

So I'm going to open my program by saying,

123

00:08:36,000 --> 00:08:38,000

Mr. Mady, ladies and gentlemen,

124

00:08:38,000 --> 00:08:43,000

and Air Force intelligence officers in civilian clothing.

125

00:08:43,000 --> 00:08:45,000

I hope I make it worth their while.

126

00:08:45,000 --> 00:08:49,000

Ladies and gentlemen, I'd like to make it quite plain that I'm coming here to you tonight,

127

00:08:49,000 --> 00:08:54,000

not as a theorist because frankly, I have never seen a flying saucer.

128

00:08:54,000 --> 00:08:59,000

It's also true that I've never seen an atomic bomb, nor a hydrogen bomb.

129

00:08:59,000 --> 00:09:02,000

I haven't seen an arctic nor a ploughless,

130

00:09:02,000 --> 00:09:05,000

but I do believe that those things exist

131

00:09:05,000 --> 00:09:07,000

and that somewhere someone has seen them

132

00:09:07,000 --> 00:09:09,000

and I'm willing to take their word for it

133

00:09:09,000 --> 00:09:13,000

because I regard some of them as credible witnesses.

134

00:09:13,000 --> 00:09:16,000

The same thing goes true of the so-called flying saucer,

135

00:09:16,000 --> 00:09:18,000

but I would also like to say this,

136

00:09:18,000 --> 00:09:22,000

that I do agree with the Air Force, and you boys can take that down,

137

00:09:22,000 --> 00:09:29,000

I agree with the Air Force that there are no such things as flying saucers.

138

00:09:29,000 --> 00:09:36,000

That unfortunately is a slang term applied to a very distinctive type of aerial phenomena

139

00:09:36,000 --> 00:09:39,000

by some newspapers reporters back in 1947.

140

00:09:39,000 --> 00:09:43,000

I agree with the Air Force that there are no such things as flying saucers.

141

00:09:43,000 --> 00:09:49,000

And I also agree with the Air Force that it is much more interesting to spend millions of dollars

142

00:09:49,000 --> 00:09:54,000

investigating the things under their official name of unidentified flying objects.

143

00:09:54,000 --> 00:10:00,000

Incidentally, our nation is only one of 30 nations at the present time conducting intensive,

144

00:10:00,000 --> 00:10:06,000

and let me say expensive investigations of unidentified flying objects.

145

00:10:06,000 --> 00:10:11,000

In a few minutes I'm going to tell you that we have already had some results,

146

00:10:11,000 --> 00:10:16,000

some technological results and progress as a result of this investigation.

147

00:10:16,000 --> 00:10:20,000

It's been well-replied, and at least a couple of respects.

148

00:10:20,000 --> 00:10:22,000

I'm going to that in just a moment.

149

00:10:22,000 --> 00:10:31,000

First time I ever heard of anything that could possibly be referred to as a UFO was back in the

20s.

150

00:10:31,000 --> 00:10:38,000

I flew around with an old flying surface, and we flew Jenny's old JM-4s and 5s.

151

00:10:38,000 --> 00:10:40,000

We had 94-power engines.

152

00:10:40,000 --> 00:10:45,000

We had so many wires on the wings that you could raise canaries in there and never lose a bird.

153

00:10:45,000 --> 00:10:52,000

And if you had a real good cop-aster and plenty of room, you could sometimes get into the air in half a mile.

154

00:10:52,000 --> 00:11:00,000

And in those days, one of the fellows that I frequently ran into was a fabled character named Bert Acosta.

155

00:11:00,000 --> 00:11:04,000

Bert was the fellow who said he could fly a barn door, but had enough power on it.

156

00:11:04,000 --> 00:11:06,000

I believe he could have done it.

157

00:11:06,000 --> 00:11:08,000

There must have been times when he tried.

158

00:11:08,000 --> 00:11:13,000

Bert died recently. He was one of the fabled pioneers of the days of barn-storming flying.

159

00:11:13,000 --> 00:11:17,000

And one night we were all sitting around in the hangar on a gender,

160

00:11:17,000 --> 00:11:24,000

and we were talking, and Bert was telling, an experience that he had had a month or so before,

161

00:11:24,000 --> 00:11:27,000

and he'd been flying somewhere down in the Southwest.

162

00:11:27,000 --> 00:11:34,000

And he said all of a sudden, he noticed about half a dozen things flying off his right wing a couple of hundred yards away.

163

00:11:34,000 --> 00:11:37,000

And he said they looked like man-old covers.

164

00:11:37,000 --> 00:11:42,000

And he told how they flew along beside him for five minutes or so.

165

00:11:42,000 --> 00:11:44,000

They had no trouble keeping up with him.

166

00:11:44,000 --> 00:11:51,000

In fact, they leveled along beside him and finally turned, changed course, and flew away.

167

00:11:51,000 --> 00:11:56,000

He said he had never seen anything like it, and had no idea what the things were,

168

00:11:56,000 --> 00:11:58,000

but they were very real.

169

00:11:58,000 --> 00:12:04,000

And none of the other fliers there, many of whom were veterans, had seen or heard of any such thing before.

170

00:12:04,000 --> 00:12:09,000

So the business of the flying man-old covers that Bert of course had talked about,

171

00:12:09,000 --> 00:12:14,000

dropped out of sight, and I never even thought about them as a matter of fact.

172

00:12:14,000 --> 00:12:21,000

Until June of 1947, when a story came in on the newswire,

173

00:12:22,000 --> 00:12:29,000

to the effect that a railroad engineer in Cedar Rapids had reported that as he was getting off his engine in the railroad yards there,

174

00:12:29,000 --> 00:12:39,000

he was operating a switch engine, he happened to look up in the air and he said he saw nine

circular shining objects flying along in a string like wild geese,

175

00:12:39,000 --> 00:12:43,000

and flying faster, he said, than any airplane he had ever seen.

176

00:12:43,000 --> 00:12:47,000

Well, he got about five or six lines on the news.

177

00:12:47,000 --> 00:12:58,000

The news wires in the matter was dismissed because the editors of the news wires do not regard switch engine engineers as the Thoregies' Ontario phenomenon.

178

00:12:58,000 --> 00:13:01,000

And they let the man have his say very briefly and forgot it.

179

00:13:01,000 --> 00:13:09,000

The next day the storm broke because the next day was the day that came aboard, on the Boise, Idaho, a civilian flier,

180

00:13:10,000 --> 00:13:18,000

saw the same or some similar objects, and then as you know that was the thing that broke today.

181

00:13:18,000 --> 00:13:22,000

Because from then on the things were seen all over the place for several months,

182

00:13:22,000 --> 00:13:29,000

tens of thousands of people reported that they had witnessed such objects which performed in unconventional manner,

183

00:13:29,000 --> 00:13:32,000

and the news wires were found.

184

00:13:32,000 --> 00:13:37,000

Because obviously something was going on up there, just what it was, nobody seemed to know.

185

00:13:38,000 --> 00:13:47,000

The Athos immediately stepped in and said that these things were hallucinations.

186

00:13:47,000 --> 00:13:56,000

They couldn't have picked the worst time to make their announcement because on the day they made their statement on July the 3rd, 1947,

187

00:13:56,000 --> 00:14:05,000

and on July the 4th, 1947, about 10,000 people, at least in the city of Port Monoragan,

188

00:14:05,000 --> 00:14:11,000

watched these hallucinations circling around overhead and turning clips in the air.

189

00:14:11,000 --> 00:14:16,000

Even to this day the Air Force maintains that the air is full of hallucinations.

190

00:14:16,000 --> 00:14:21,000

It has been my contention that the Air Force is full of hallucinations.

191

00:14:27,000 --> 00:14:35,000

I'd like to make it plain, for the benefit of our guests who have come a great distance to be here,

192

00:14:35,000 --> 00:14:48,000

that I don't criticize the Air Force for taking the position that it might be well to keep some of the facts of this story from the public.

193

00:14:48,000 --> 00:14:57,000

I don't know as much about this as the Air Force does, and I don't know anyone who does know as much about it as the Air Force does.

194

00:14:57,000 --> 00:15:08,000

So it's quite possible there are some aspects of this matter which make it advisable to keep it undercover at the present time.

195

00:15:08,000 --> 00:15:15,000

However, I think the Air Force has been particularly stupid in the manner in which they have kept it undercover

196

00:15:15,000 --> 00:15:21,000

by pretending that the things don't exist when there are millions of witnesses and no better.

197

00:15:21,000 --> 00:15:24,000

And I happen to be one of the witnesses.

198

00:15:24,000 --> 00:15:29,000

I say that because I have seen some of the material in the Air Force's own files,

199

00:15:29,000 --> 00:15:32,000

I've seen some of their films and some of their still pictures,

200

00:15:32,000 --> 00:15:35,000

I've seen the notations that they had on them,

201

00:15:35,000 --> 00:15:43,000

and up until the night that 68 of these things appeared over Washington DC in one night in August of 1952,

202

00:15:43,000 --> 00:15:50,000

I had no trouble at all going to the Pentagon and going to any one of several friends that are in the Pentagon,

203

00:15:50,000 --> 00:15:56,000

some of them generals, and going in and being briefed on what was going on.

204

00:15:56,000 --> 00:16:01,000

But when 68 of these things appeared in one night over the nation's capital,

205

00:16:01,000 --> 00:16:11,000

and when not one single jet took off to intercept them because they were under orders not to take off to leave these things on,

206

00:16:11,000 --> 00:16:18,000

when that happened, the lid went on and the story that 68 of these things appeared over the nation's capital on that particular night

207

00:16:18,000 --> 00:16:25,000

was never published until I published it in a magazine story in November of 1954.

208

00:16:25,000 --> 00:16:28,000

If you would like to look up the record on it,

209

00:16:28,000 --> 00:16:32,000

you'll find it in a book that's published by the Civil and Aeronautics Administration,

210

00:16:32,000 --> 00:16:37,000

distributed to the radar control operators of the nation for limited distribution,

211

00:16:37,000 --> 00:16:45,000

it says, and the title of the book it is, how to identify and track unidentified crime objects.

212

00:16:45,000 --> 00:16:50,000

There are also nations, ladies and gentlemen, but there are governments bringing books about them.

213

00:16:50,000 --> 00:16:56,000

Well, actually, what this booklet does, it discusses a great many of these stockings around Washington DC,

214

00:16:56,000 --> 00:17:03,000

particularly those of mid-July 1952, what about a dozen of the things came over.

215

00:17:03,000 --> 00:17:07,000

About a dozen of them came over one night, they were tracked by a radar, they were seen visually,

216

00:17:07,000 --> 00:17:11,000

they followed the planes in and according to the CAA's own booklet,

217

00:17:11,000 --> 00:17:15,000

the pilots got good looks of the things as they followed them in and out of the airport.

218

00:17:15,000 --> 00:17:18,000

Some of them hovered, some of them went around the Capitol building,

219

00:17:18,000 --> 00:17:23,000

some went over the monument and the White House and over the deep frays,

220

00:17:23,000 --> 00:17:27,000

and circled all around there, they were seen plainly.

221

00:17:27,000 --> 00:17:35,000

There was no question about them being there, and as a matter of fact, the officials were so concerned about it,

222

00:17:35,000 --> 00:17:39,000

that on the following morning they issued a shoot-em-down order.

223

00:17:39,000 --> 00:17:42,000

Why didn't they shoot them down the first night?

224

00:17:42,000 --> 00:17:49,000

They didn't shoot them down because the jets couldn't catch them and they've never been able to catch one yet.

225

00:17:50,000 --> 00:17:54,000

The jets couldn't catch them the next night they showed up.

226

00:17:54,000 --> 00:17:59,000

The jets didn't go up after them, they didn't go up with their shoot-em-down order

227

00:17:59,000 --> 00:18:05,000

for the simple reason that Alfred Einstein and others of comparable standing

228

00:18:05,000 --> 00:18:10,000

heard about the shoot-em-down order because the story was on the front pages all over the world.

229

00:18:10,000 --> 00:18:17,000

They heard about the shoot-em-down order and they personally got in touch with the little man in the White House,

230

00:18:17,000 --> 00:18:20,000

and I know what Mr. Einstein told him.

231

00:18:20,000 --> 00:18:26,000

He said, Mr. President, anyone who can cross millions of miles of space

232

00:18:26,000 --> 00:18:29,000

will be able to take care of himself after he gets there.

233

00:18:29,000 --> 00:18:32,000

Don't start something you can't finish.

234

00:18:32,000 --> 00:18:37,000

That was one time that give him hell, Harry, decided it would be better not to give him any hell.

235

00:18:37,000 --> 00:18:50,000

The order was issued that morning at 10.15, a progress ended that afternoon at 5.00.

236

00:18:50,000 --> 00:18:55,000

The planes stayed on the ground that night, the objects came in, they flew in formations

237

00:18:55,000 --> 00:19:02,000

between the National Airport and Andrews Field, and they maneuvered around there for a couple of hours and went away.

238

00:19:02,000 --> 00:19:12,000

A little later, a professor named Menzel came up with the theory that all they had seen was some reflections in hot air.

239

00:19:12,000 --> 00:19:18,000

And I think that's as good a criticism of his theory as I can think of myself.

240

00:19:18,000 --> 00:19:26,000

He's been thoroughly deflated by other fighters, and the airport itself admitted that Dr. Menzel was off the beam a little.

241

00:19:26,000 --> 00:19:34,000

As a matter of fact, the conditions necessary for his theory to have proven correct did not exist by a wide margin.

242

00:19:34,000 --> 00:19:39,000

I was, as I said, able to go in there and see all these things.

243

00:19:39,000 --> 00:19:41,000

I had no trouble about it.

244

00:19:41,000 --> 00:19:45,000

I saw some of the pictures that have since been released and what you folks have probably seen.

245

00:19:45,000 --> 00:19:50,000

The ones that great falls Montana, the train walking Utah pictures, and a lot of others.

246

00:19:50,000 --> 00:19:58,000

I think the best still picture of one of these objects that I ever saw was one taken by a farmer named Paul Trent, at McMenzel, Oregon.

247

00:19:58,000 --> 00:20:01,000

He took it with a little folding codec.

248

00:20:01,000 --> 00:20:07,000

He got two shots of the thing that had hovered over a field in back of his house just about twilight.

249

00:20:07,000 --> 00:20:10,000

And the structure of the object is clearly seen.

250

00:20:10,000 --> 00:20:12,000

It's at a perfectly flat bottom.

251

00:20:12,000 --> 00:20:23,000

As a matter of fact, it looked pretty much like a man's sailor stole half with a very tiny little antenna sticking out of the top of it.

252

00:20:23,000 --> 00:20:29,000

It's very interesting because a few nights later, it was not known that Mr. Trent had taken this picture.

253

00:20:29,000 --> 00:20:33,000

He didn't know what he had, and he had it developed at a drug store.

254

00:20:33,000 --> 00:20:34,000

And they looked at it.

255

00:20:34,000 --> 00:20:38,000

He and his wife, they couldn't figure out what the devil had bought, so they let the kids play with the negatives,

256

00:20:38,000 --> 00:20:41,000

and they finally ended up under the couch in the front room.

257

00:20:41,000 --> 00:20:51,000

And the pictures were thrown out in the ground with some other things, and it was at least a month later before anybody even knew that he had these things, and then purely by accident.

258

00:20:51,000 --> 00:21:06,000

But on the night of Memorial Day, 1950, an American Airlines pilot flying an EC6 going out of the Washington National Airport on route to Tulsa was climbing over Mount Vernon.

259

00:21:06,000 --> 00:21:11,000

And he was about 20, 25 miles out of Washington.

260

00:21:11,000 --> 00:21:18,000

He was at an altitude of about 7,000 feet, and he said he was doing about 175 miles an hour still climbing.

261

00:21:18,000 --> 00:21:29,000

When the court pilot said what the devil is that, and they had a rummage in between the clouds and themselves, they could see what he said looked like a flying submarine.

262

00:21:29,000 --> 00:21:33,000

He said it looked like the conning tower of a little submarine in the middle of the left.

263

00:21:33,000 --> 00:21:42,000

Suddenly the thing sped around to the left, and he noticed the plane down, and they immediately called the airport and told them that he was seeing some sort of an object,

264

00:21:42,000 --> 00:21:48,000

and it was an unconventional thing of some sort, and they said yes, we're getting a blip on it, there's something better.

265

00:21:48,000 --> 00:21:56,000

And he swung the plane around a little bit, he banks to the left to keep it in sight, and all of a sudden the court pilot said, my God, here it is over on the right of us.

266

00:21:56,000 --> 00:22:01,000

So he grabbed the wheel and swung the plane back to the other end, I don't know what the passengers thought about all this.

267

00:22:01,000 --> 00:22:06,000

And here was this object trying out their right wing, and he estimated it was about half a mile away.

268

00:22:06,000 --> 00:22:18,000

It circled them once, it was seen by the pilot and court pilot, and also on the radar screen at National Airport, it circled them once and then sped away to the east and disappeared.

269

00:22:18,000 --> 00:22:27,000

And he reported that it looked like an conning tower of a little submarine, and of course it came out in the papers next day and I have the clipings for the file.

270

00:22:27,000 --> 00:22:30,000

Now they're seeing flying submarines.

271

00:22:30,000 --> 00:22:45,000

Well it found it pretty silly until these pictures showed up some months later, which had been taken by this farmer called Trayvon at McMIndville, Oregon, and there in silhouette was a little object that really did look like the conning tower of a small submarine, one seen at that particular angle.

272

00:22:45,000 --> 00:22:57,000

In those days you could, I had no trouble going over to the, going to go on and seeing these things as it came in, but after the, after the objects came over Washington and caused so much consternation and excitement there,

273

00:22:57,000 --> 00:23:03,000

the silence group took over and then I was no longer welcome at the Pentagon.

274

00:23:03,000 --> 00:23:08,000

When Major Keyho's second book came out, it was called Flying Fossils from outer space.

275

00:23:08,000 --> 00:23:13,000

There was a program on the Dumont television network called Author Meets the Critics.

276

00:23:13,000 --> 00:23:24,000

And it was a program where the author went on there and became the target for a lot of very pointed and off time nasty criticism from various critics.

277

00:23:24,000 --> 00:23:27,000

And Major Keyho's case was no exception.

278

00:23:27,000 --> 00:23:29,000

I was on with him.

279

00:23:29,000 --> 00:23:33,000

Mr. William Peterson was the moderator on the program.

280

00:23:33,000 --> 00:23:42,000

Mr. Willie Lay, whom you just saw there in the movie, the one of the founders of the V2 rocket, the German rocket society,

281

00:23:42,000 --> 00:23:50,000

was the man who was taking the view that flying saucers and unidentified flying objects and all the rest of it were all bunked.

282

00:23:50,000 --> 00:23:55,000

And he was on there to debunk the Major Keyho and his book.

283

00:23:55,000 --> 00:24:01,000

Now that particular program went out to 21 television stations each week.

284

00:24:01,000 --> 00:24:05,000

And all the night, all the week preceding the time we were to appear,

285

00:24:05,000 --> 00:24:15,000

they publicized the fact that Major Keyho and Frank Edwards and Willie Lay would be on the program the following week to discuss unidentified flying objects

286

00:24:15,000 --> 00:24:20,000

and in particular to discuss critically Major Keyho's book.

287

00:24:20,000 --> 00:24:25,000

The night before that particular broadcast, a few minutes past midnight,

288

00:24:25,000 --> 00:24:30,000

a DC6 with 27 passengers aboard was coming out of Philadelphia.

289

00:24:30,000 --> 00:24:34,000

He was en route to Washington. He was about 20 or 25 minutes away from Washington.

290

00:24:34,000 --> 00:24:38,000

He was flying at 8,000 feet above the Conowing Gordam.

291

00:24:38,000 --> 00:24:46,000

He had just reported to Washington and to the Baltimore Airport that all of us well expected to land in Washington such and such a time.

292

00:24:46,000 --> 00:24:56,000

He had just terminated that particular routine broadcast when both the pilot and co-pilot noticed something sliding out of a cloud bank ahead of them.

293

00:24:56,000 --> 00:25:03,000

All that they saw was that it was a disc shaped metallic looking object that glided in the moonlight.

294

00:25:03,000 --> 00:25:07,000

It had no rings on it. No visible means of propulsion.

295

00:25:07,000 --> 00:25:12,000

They were coming up on it so rapidly they were flying at about 245 miles an hour according to the pilot's report.

296

00:25:12,000 --> 00:25:19,000

They were coming up on this thing so rapidly that the pilot was afraid of a collision and he said that the co-pilot flipped on the wing light.

297

00:25:19,000 --> 00:25:23,000

The co-pilot had already anticipated the movement and flipped the wing lights on.

298

00:25:23,000 --> 00:25:31,000

They had been on about two seconds when this object turned a brilliant blinding stream of light into the cockpit.

299

00:25:31,000 --> 00:25:34,000

The pilot could tell if the object was coming at him at terrific speed.

300

00:25:34,000 --> 00:25:43,000

He thought it was a collision and he threw this plane with its load of passengers into a steep dive as steep as he dared to and still hold the wings.

301

00:25:43,000 --> 00:25:46,000

He dived 5,000 feet before he could pull the plane out of.

302

00:25:46,000 --> 00:25:54,000

Now it's most unusual to have a pilot diving a passenger plane, a foreign passenger plane with a load of passengers.

303

00:25:54,000 --> 00:25:58,000

That's only done in cases of extreme emergency and this was just such a case.

304

00:25:58,000 --> 00:26:01,000

He dived about 5,000 feet before he could pull out of it.

305

00:26:01,000 --> 00:26:08,000

He knew that there was trouble back in the cabin because the passengers were all piled up in the aisles on top of each other.

306

00:26:08,000 --> 00:26:11,000

The co-pilot got up and went back there.

307

00:26:11,000 --> 00:26:14,000

The pilot took over the ship. The object whatever it was was gone by that time.

308

00:26:14,000 --> 00:26:17,000

They called ahead to Washington and told him what had happened.

309

00:26:17,000 --> 00:26:20,000

Told him to get ambulances and doctors out of the airport.

310

00:26:20,000 --> 00:26:24,000

The plane arrived there a few minutes before one.

311

00:26:24,000 --> 00:26:27,000

The doctors and ambulances were there.

312

00:26:27,000 --> 00:26:32,000

My leg man as we call him, my personal reporter was also on the scene.

313

00:26:32,000 --> 00:26:36,000

We had arrangements made to take care of emergencies like this.

314

00:26:36,000 --> 00:26:41,000

He was on the scene. He had to hold his eyes open with one of his thumb and finger but he was there.

315

00:26:41,000 --> 00:26:45,000

He saw what went on. He had the report from me the next morning.

316

00:26:45,000 --> 00:26:48,000

Now fortunately none of these people on the plane were badly injured.

317

00:26:48,000 --> 00:26:52,000

A few of them were scratched up a little and a couple of them had to have some tape on them.

318

00:26:52,000 --> 00:26:56,000

But they were able to proceed and the plane was alright. It was able to proceed.

319

00:26:56,000 --> 00:26:59,000

But this was a very, very important case.

320

00:26:59,000 --> 00:27:05,000

It appeared in one issue of the Washington Post the following morning.

321

00:27:05,000 --> 00:27:08,000

It appeared in the first issue that came out after the incident.

322

00:27:08,000 --> 00:27:17,000

It was told out of there. It never appeared in any other newspaper or any other program, broadcast program except mine.

323

00:27:17,000 --> 00:27:24,000

That as I said was the night before we were to go to New York to appear on this Dumont television network.

324

00:27:24,000 --> 00:27:28,000

I put my program on the air with this incident in it.

325

00:27:28,000 --> 00:27:35,000

We went on to appear on this Dumont network program. We appeared on a network of one station.

326

00:27:35,000 --> 00:27:39,000

We've been cut off of everything else although they'd advertised it.

327

00:27:39,000 --> 00:27:43,000

And plenty of people were listening and calling the stations and demanding to know why we weren't on.

328

00:27:43,000 --> 00:27:49,000

Stations were notified a few minutes before broadcast time that the network would be unable to deliver this program.

329

00:27:49,000 --> 00:27:53,000

And they were throwing in old Hoot Gibson movies and everything else.

330

00:27:53,000 --> 00:27:59,000

A similar cultural level of course after maintaining these levels.

331

00:27:59,000 --> 00:28:02,000

Keoh-Han and Willie Lee and I went on in New York.

332

00:28:02,000 --> 00:28:08,000

Well, I have to admit that Mr. Lee taking the position that he did was able to give us a pretty rough time.

333

00:28:08,000 --> 00:28:17,000

However, I had a letter in my pocket which I'd received a few weeks before from a group of the top businesses in the United States.

334

00:28:18,000 --> 00:28:21,000

These are men who are internationally famous.

335

00:28:21,000 --> 00:28:26,000

Well, they're working in the field of physics and particularly that of nuclear physics.

336

00:28:26,000 --> 00:28:29,000

I had this letter in my pocket and I was waiting for Mr. Lee.

337

00:28:29,000 --> 00:28:34,000

So we got about halfway through the program and he was giving Major Keoh a hard way to go.

338

00:28:34,000 --> 00:28:38,000

He kept insisting that Major Keoh show him a piece of a flying saucer.

339

00:28:38,000 --> 00:28:42,000

And the measure didn't have any wisdom at the moment. However, I happened to have this letter.

340

00:28:42,000 --> 00:28:46,000

And I said to Mr. Lee, I said, Mr. Lee, I have a letter with me.

341

00:28:46,000 --> 00:28:54,000

I'm not permitted to read the entire letter to you, but I do have permission of the writers of the five men who have signed it.

342

00:28:54,000 --> 00:29:02,000

I do have permission to show you the letterhead and to show you the signatures of the men who wrote it.

343

00:29:02,000 --> 00:29:09,000

And after I show this to you with your permission, I would like to read just one sentence out of the letter.

344

00:29:10,000 --> 00:29:13,000

So I showed him the letterhead and his eyes popped open.

345

00:29:13,000 --> 00:29:17,000

I showed him the signatures and his jaw dropped.

346

00:29:17,000 --> 00:29:21,000

And I said, now Mr. Lee, do I have your permission to read one sentence out of this?

347

00:29:21,000 --> 00:29:24,000

Well, I don't mean, yes.

348

00:29:24,000 --> 00:29:28,000

So I read one sentence from the sentence that I read with them.

349

00:29:28,000 --> 00:29:33,000

After six years of analyzing and evaluating the material on this matter,

350

00:29:33,000 --> 00:29:38,000

it was a matter for these two us, by the United States government and other sources,

351

00:29:38,000 --> 00:29:52,000

we, the undersigned, are of the unanimous opinion that these unidentified flying objects are interplanetary devices developed and operated by intelligent beings of a very high order.

352

00:29:52,000 --> 00:29:59,000

Well, it would be a magnificent understatement to say the effect of the wind out of Mr. Willie Lane's sails.

353

00:29:59,000 --> 00:30:03,000

He was all outside from that order, we couldn't stir up any argument with him.

354

00:30:03,000 --> 00:30:06,000

And this Peterson had to take over as the critic.

355

00:30:06,000 --> 00:30:12,000

He thought Willie was with us. He didn't want any trouble with the five guys who had signed that letter.

356

00:30:12,000 --> 00:30:19,000

Not only that, after the program he got in the cab with me and rode from the Dumont studio, got to the airport out of the board.

357

00:30:19,000 --> 00:30:27,000

He had questioning me all the way on specific details concerning these particular objects.

358

00:30:27,000 --> 00:30:38,000

And as you noticed Mr. Willie, who appeared on this movie actually, is my personal urging, he didn't have a great deal to say.

359

00:30:38,000 --> 00:30:45,000

He wasn't particularly opposed to the whole idea. He was just sort of throwing around with it, trying to earn his fee.

360

00:30:45,000 --> 00:30:47,000

And I think he did very well.

361

00:30:47,000 --> 00:30:50,000

I broadcast a great many of these reports.

362

00:30:50,000 --> 00:30:55,000

Oh, I wouldn't say a great many, but I broadcast on an average of about one a week.

363

00:30:55,000 --> 00:31:02,000

If I considered that it was a worthwhile report from a credible source, I was sponsored at that time by the American Federation of Lakers.

364

00:31:02,000 --> 00:31:07,000

That's where my book got the title, 10 Million Sponsors. They used to say every night,

365

00:31:07,000 --> 00:31:10,000

but I had more sponsors than any other commentator on the air, actually.

366

00:31:10,000 --> 00:31:15,000

In the long history of broadcasting, I'm the only fellow who ever lost 10 million sponsors.

367

00:31:15,000 --> 00:31:18,000

They, I like to feel that they lost me.

368

00:31:18,000 --> 00:31:24,000

Well, at any rate, at that particular time, I was broadcasting about one a week, but being with the AM of LA,

369

00:31:24,000 --> 00:31:28,000

I had a very close working relationship with the Airline Planets Association.

370

00:31:28,000 --> 00:31:32,000

And the nation's commercial airline planets are pretty found citizens.

371

00:31:32,000 --> 00:31:38,000

And they have a pretty good idea of what they see, and they know just about what should be up there,

372

00:31:38,000 --> 00:31:40,000

and they know how to watch these things.

373

00:31:40,000 --> 00:31:44,000

And as you notice, here's the chief pilot from Pan American Airlines, Mr. William Knight.

374

00:31:44,000 --> 00:31:50,000

He had done a rather methodical job of watching these things and the ones that he saw.

375

00:31:50,000 --> 00:31:55,000

Determining if possible their speed direction and so forth, getting all the information that he could.

376

00:31:55,000 --> 00:32:03,000

I used to get quite a few reports from pilots, particularly, and if they were worthwhile, I tried to carry them.

377

00:32:03,000 --> 00:32:06,000

You know, if there were anything out of the ordinary, pretty soon, here on the tape that I have,

378

00:32:06,000 --> 00:32:13,000

I'm going to let you hear Captain Jack Smith of Chicago and Southern Airlines reporting my long distance telephone to me.

379

00:32:13,000 --> 00:32:19,000

But a thing that had just circled his plane over Stuttgart, Arkansas about 15 minutes before he called me,

380

00:32:19,000 --> 00:32:24,000

I got to him before the Air Force did. In case you guys are wondering.

381

00:32:24,000 --> 00:32:31,000

In 1954, in April 1954, the Pentagon, the Air Force branch in the Pentagon came out with the statement

382

00:32:31,000 --> 00:32:36,000

that 1954, the flying saucers had just about disappeared.

383

00:32:36,000 --> 00:32:43,000

They only had about 185 reports in the first three or four months of 1954.

384

00:32:43,000 --> 00:32:47,000

Therefore, the must things must be gone, and there's nothing to them.

385

00:32:47,000 --> 00:32:53,000

I knew they were lying and the word is lying because it was a deliberate misrepresentation of facts.

386

00:32:53,000 --> 00:32:56,000

I personally had turned into the Air Force at the Pentagon.

387

00:32:56,000 --> 00:33:02,000

More than 127 reports up to the time they issued that particular statement.

388

00:33:02,000 --> 00:33:07,000

So I had some friends since then, and I get in touch with Lieutenant Colonel John O'Mara,

389

00:33:07,000 --> 00:33:11,000

who was with the Air Technical Intelligence Center at Wright Patterson Field.

390

00:33:11,000 --> 00:33:15,000

That is the place where they evaluate, they gather and evaluate all these reports.

391

00:33:15,000 --> 00:33:21,000

And on the same days at the Air Force in Washington, they had only 80 some reports.

392

00:33:21,000 --> 00:33:27,000

Lieutenant O'Mara, who evidently hadn't seen that bunch of balmy, said to my friend in the presence of a witness,

393

00:33:27,000 --> 00:33:33,000

oh, he said this is the heaviest year we've ever had. We're getting them at the rate of 700 a week.

394

00:33:33,000 --> 00:33:38,000

I put it on the air that night and there was a great deal of official unhappiness.

395

00:33:38,000 --> 00:33:47,000

Now there's been some speculation that I was, that I was fired by George Meany of the AFL because of my saucer broadcast.

396

00:33:47,000 --> 00:33:49,000

That happens to be a bunch of malarkey.

397

00:33:49,000 --> 00:33:56,000

Actually, I had the saucer broadcast occupied less than one half of 1% of my time.

398

00:33:56,000 --> 00:34:06,000

And Mr. Meany was personally responsible for having me write an article on the so-called flying saucers which was published in the AFL News Reporter.

399

00:34:06,000 --> 00:34:12,000

Only a few months before I suffered my relationship with another story, I find the thing is this.

400

00:34:12,000 --> 00:34:18,000

I was the last remaining national source of information on the unidentified flying objects,

401

00:34:18,000 --> 00:34:26,000

which were being suppressed by official orders and with the connivance of the nation's three major news services.

402

00:34:26,000 --> 00:34:30,000

That was very simple to get the three major news liars to cover it up.

403

00:34:30,000 --> 00:34:35,000

First, the Air Force put out a statement that there was nothing to it that explained everything away.

404

00:34:35,000 --> 00:34:40,000

Some of their explanations read like this. Could this be Venus? Or is this a balloon?

405

00:34:40,000 --> 00:34:44,000

That's considered a solution to the thing.

406

00:34:44,000 --> 00:34:49,000

You answer a question with a question. That's all that's answered.

407

00:34:49,000 --> 00:34:55,000

I was the last major source of information. They issued the statement that the things were all bunkers they do every year.

408

00:34:55,000 --> 00:35:00,000

That says regular is the one they put out that they're building a flying saucer and counter. That's bunk too.

409

00:35:00,000 --> 00:35:04,000

But it comes out every year. It's kind of an annual event by Christmas.

410

00:35:04,000 --> 00:35:16,000

So, the three major news services were notified that if they would discontinue the practice of carrying these so-called saucer fighting reports,

411

00:35:16,000 --> 00:35:22,000

they'd get some real good top-level stories out of the Pentagon.

412

00:35:22,000 --> 00:35:27,000

Of course, conversely, it was pretty obvious to the news services that if they didn't cooperate,

413

00:35:27,000 --> 00:35:31,000

their opponents would get the big military stories and they'd get left out.

414

00:35:31,000 --> 00:35:36,000

So, the news services cooperated. And to this day, to a very large extent,

415

00:35:36,000 --> 00:35:43,000

they're still cooperating. Although, I noticed that the Associated Press recently jumped the gun on this case at Fixley, California,

416

00:35:43,000 --> 00:35:49,000

where an Air Force Convair was flying at 17,000 feet and the pilot said,

417

00:35:49,000 --> 00:35:54,000

it felt like we hit a brick wall and he said that the plane was struck by an unidentified flying object.

418

00:35:54,000 --> 00:35:58,000

In any rate, it was so badly damaged that two of the men on it were injured.

419

00:35:58,000 --> 00:36:05,000

One propeller was bent, part of the tail surface was torn off. The plane fell 9,000 feet before the pilot,

420

00:36:05,000 --> 00:36:10,000

who was partially stunned by the impact, could get control of it and make an emergency landing.

421

00:36:10,000 --> 00:36:15,000

He landed, told the story to a newsman who happened to be at the Bakersfield Airport.

422

00:36:15,000 --> 00:36:22,000

The newsman got it on the wires. The Air Force explanation was, some rivets pulled out.

423

00:36:24,000 --> 00:36:28,000

Pulled out between their interiors.

424

00:36:28,000 --> 00:36:33,000

And the man was amazed by the plane's size. That is, the news became clear today.

425

00:36:33,000 --> 00:36:38,000

The outside was overactive in the observations of some people.

426

00:36:38,000 --> 00:36:42,000

I can't tell you what they are. I don't have answers.

427

00:36:42,000 --> 00:36:48,000

And I really don't know anyone outside of the 13th election very quickly.

428

00:36:48,000 --> 00:36:52,000

And so, people with the government knew they had a lot.

429

00:36:52,000 --> 00:36:58,000

I can tell you that, that's how human is. It was the father of the German rocket society.

430

00:36:58,000 --> 00:37:04,000

One of the men who designed the famous German rocket, who used to in the high-up,

431

00:37:04,000 --> 00:37:10,000

and the man who set it to the German society for the investigation about a red-and-white flying object,

432

00:37:10,000 --> 00:37:13,000

and over the three years, he should have stayed there in 1954,

433

00:37:13,000 --> 00:37:17,000

and had some faith that they had come here to conclude it.

434

00:37:17,000 --> 00:37:21,000

But these answers to great military power are not sure.

435

00:37:21,000 --> 00:37:26,000

And that they probably worked up their way by distortion of the gravitational field.

436

00:37:26,000 --> 00:37:32,000

In other words, the thing that converted gravity into a form of musical energy.

437

00:37:32,000 --> 00:37:37,000

That of course is a very special investment coming from the scientists of this time.

438

00:37:37,000 --> 00:37:40,000

He didn't make any mistakes. But because, 23 days later,

439

00:37:40,000 --> 00:37:44,000

they put him on a plane and flew into the right snowmobile, that's what's out of Obama,

440

00:37:44,000 --> 00:37:46,000

and he's a pretty member of government secret,

441

00:37:46,000 --> 00:37:50,000

and he now works for the United States government, doesn't make any more public speeches on that,

442

00:37:50,000 --> 00:37:52,000

and I'm going to try and find out.

443

00:37:52,000 --> 00:37:57,000

General Gephard MacArthur, starting December of 1955, is a middle of time,

444

00:37:57,000 --> 00:38:01,000

but the nation's liberal means not worry about what he will rule free,

445

00:38:01,000 --> 00:38:04,000

but they have better yet together, General MacArthur,

446

00:38:04,000 --> 00:38:07,000

because the next war will be a different planetary war.

447

00:38:07,000 --> 00:38:13,000

What he meant by that, I don't know, that's what the state will be making a few strants with us.

448

00:38:14,000 --> 00:38:20,000

I see a lot of guidance on the famous, heard of the Royal Air Force,

449

00:38:20,000 --> 00:38:24,000

but in February of 1934, with a new opinion,

450

00:38:24,000 --> 00:38:27,000

there was no question about the United Planetary Nature,

451

00:38:27,000 --> 00:38:28,000

how long I've been a partner.

452

00:38:28,000 --> 00:38:31,000

There's been many, many more, of course, the opinion is pretty good.

453

00:38:31,000 --> 00:38:35,000

I'm sure it impresses me so much in the last few months, is there?

454

00:38:35,000 --> 00:38:39,000

A time I was in the United States prior to six months ago,

455

00:38:39,000 --> 00:38:43,000

which is in my experience, that's to discuss the unidentified time.

456

00:38:43,000 --> 00:38:48,000

The purpose was to suggest yourself to a great extent and spark out in the criticism,

457

00:38:48,000 --> 00:38:51,000

and you were assigned for our first subject.

458

00:38:51,000 --> 00:38:53,000

But something has happened, I don't know what it is,

459

00:38:53,000 --> 00:38:56,000

but something has happened and the public mood has changed.

460

00:38:56,000 --> 00:39:00,000

I say that of course there are some people who will believe anything,

461

00:39:00,000 --> 00:39:02,000

and others who will believe nothing,

462

00:39:02,000 --> 00:39:06,000

but the great hard part of the American people who are willing to be shown

463

00:39:06,000 --> 00:39:10,000

and who are at the moment, seems to have arrived by some process,

464

00:39:10,000 --> 00:39:15,000

and the decision that there is some substance to these unidentified time objects,

465

00:39:15,000 --> 00:39:19,000

and that the things are real and that they were these considerations,

466

00:39:19,000 --> 00:39:21,000

I've read that, I've got to say.

467

00:39:21,000 --> 00:39:25,000

In the last two or three months, I'm on the television station in Indianapolis,

468

00:39:25,000 --> 00:39:30,000

we've covered about two-thirds of Indiana and about half of the seven-half of Illinois.

469

00:39:30,000 --> 00:39:36,000

I am now being showered with invitations to speak to business groups,

470

00:39:36,000 --> 00:39:41,000

like Thomas, Kalana Slavery, Ryan Optimus and similar service groups,

471

00:39:41,000 --> 00:39:48,000

and almost without exception, they all asked me to speak to them on the subject of unidentified time objects.

472

00:39:48,000 --> 00:39:57,000

A year ago that was a bit unthinkable because a lot of them would have been ashamed to admit that they were attending a speech about nature.

473

00:39:57,000 --> 00:40:02,000

And lastly, I was in jail in Indiana and took the Kalana Slavery,

474

00:40:02,000 --> 00:40:06,000

and at their request, I spoke on the same subject.

475

00:40:06,000 --> 00:40:12,000

They had 127 names, so it was the largest single meaning in the history of that Kalana Slavery.

476

00:40:12,000 --> 00:40:17,000

During the course of the talk, they were very, very attentive.

477

00:40:17,000 --> 00:40:23,000

During the course of the talk, I said, I wonder how many of you here have seen

478

00:40:23,000 --> 00:40:28,000

what you consider unconventional objects in the sky in the last three years.

479

00:40:28,000 --> 00:40:30,000

Would you please hold up your hand?

480

00:40:30,000 --> 00:40:35,000

Out of 127, at 17 members there held up their hands.

481

00:40:35,000 --> 00:40:38,000

As you can see, I'm in a state of care of notifying it.

482

00:40:38,000 --> 00:40:41,000

I've tried to be an open-minded reporter.

483

00:40:41,000 --> 00:40:46,000

I've tried to report the facts on what appeared to be the facts, and I've told them.

484

00:40:46,000 --> 00:40:53,000

And for that reason, I have gone through the years and I still am with the most unidentified, unidentified objects

485

00:40:53,000 --> 00:40:59,000

of how secure and how alive I've been in the most insightful way ever.

486

00:40:59,000 --> 00:41:04,000

I still have the strength to, I don't know how to come down,

487

00:41:04,000 --> 00:41:10,000

but I can continue to report to the best in my ability and journey in time by this,

488

00:41:10,000 --> 00:41:13,000

and I'm just going to start with our next few characters.

489

00:41:13,000 --> 00:41:21,000

And with my suspicious recollect, this may turn out to be one of the greatest stories of our time.

490

00:41:21,000 --> 00:41:25,000

However, I am still going to make mention of the story of our next guest,

491

00:41:25,000 --> 00:41:28,000

who is facing on that part, and I'm sure it may change soon.
