

1

00:00:00,000 --> 00:00:01,000

Good morning, neighbors.

2

00:00:01,000 --> 00:00:02,000

This is Long John with the Party Line once again.

3

00:00:02,000 --> 00:00:03,000

We're around for midnight to five o'clock, five mornings during the week.

4

00:00:03,000 --> 00:00:04,000

Saturday mornings and Sunday mornings, we continue through to 5.30.

5

00:00:04,000 --> 00:00:05,000

Monday mornings, we get started about one.

6

00:00:05,000 --> 00:00:06,000

Figure that out.

7

00:00:06,000 --> 00:00:07,000

We come up to about 35 hours of conversation.

8

00:00:07,000 --> 00:00:08,000

And maybe talk with a lot of interesting people.

9

00:00:08,000 --> 00:00:09,000

This morning, we have Al Lopman with us insurance broker, J.J.

10

00:00:09,000 --> 00:00:10,000

Carver Lopman.

11

00:00:10,000 --> 00:00:11,000

Dollar Relan there, author and lecturer, managed with the Cybernetesis and Frank Edwin.

12

00:00:11,000 --> 00:00:12,000

This morning, we have Al Lopman with us insurance broker, J.J.

13

00:00:12,000 --> 00:00:13,000

Carver Lopman.

14

00:00:13,000 --> 00:00:14,000

Dollar Relan there, author and lecturer, managed with the Cybernetesis and Frank Edwin.

15

00:00:14,000 --> 00:00:15,000

This morning, we have Al Lopman with us insurance broker, J.J.

16

00:00:15,000 --> 00:00:16,000

Carver Lopman.

17

00:00:30,000 --> 00:00:31,000

This morning, we have Al Lopman with us insurance broker, J.J. Carver Lopman.

18

00:00:31,000 --> 00:00:32,000

This morning, we have Al Lopman with us insurance broker, J.J. Carver Lopman.

19

00:00:32,000 --> 00:00:33,000

This morning, we have Al Lopman with us insurance broker, J.J.

20

00:00:33,000 --> 00:00:34,000

Carver Lopman.

21

00:00:34,000 --> 00:00:35,000

This morning, we have Al Lopman with us insurance broker, J.J.

22

00:00:35,000 --> 00:00:36,000

Carver Lopman.

23

00:00:36,000 --> 00:00:37,000

This morning, we have Al Lopman with us insurance broker, J.J.

24

00:00:37,000 --> 00:00:38,000

Carver Lopman.

25

00:00:38,000 --> 00:00:39,000

This morning, we have Al Lopman with us insurance broker, J.J.

26

00:00:39,000 --> 00:00:40,000

Carver Lopman.

27

00:00:40,000 --> 00:00:41,000

This morning, we have Al Lopman with us insurance broker, J.J.

28

00:00:41,000 --> 00:00:42,000

Carver Lopman.

29

00:00:42,000 --> 00:00:43,000

This morning, we have Al Lopman with us insurance broker, J.J.

30

00:00:43,000 --> 00:00:44,000

Carver Lopman.

31

00:00:44,000 --> 00:00:51,000

I'm going to be talking about the book, the title of it is Stranger Than Science.

32

00:00:51,000 --> 00:00:56,000

The title of it is Stranger Than Science, the publisher of the book.

33

00:00:56,000 --> 00:01:01,000

And I'm going to be talking about the book, the book of the book.

34

00:01:01,000 --> 00:01:05,000

And I'm going to be talking about the book, the book of the book.

35

00:01:05,000 --> 00:01:09,000

And I'm going to be talking about the book, the book of the book.

36

00:01:09,000 --> 00:01:14,000

I'm going to be talking about the book, the title of it is Stranger Than Science, the publisher

37

00:01:14,000 --> 00:01:19,000

of Lyle Sturd, the author, my guest in the morning, Frank Edwards.

38

00:01:19,000 --> 00:01:29,000

Usually, I take it after all 25 or 40 minutes of the top of the show, when we go around

39

00:01:29,000 --> 00:01:31,000

robbing the area on the table.

40

00:01:31,000 --> 00:01:35,000

But the gentleman seated at mine left, Al Lopman.

41

00:01:35,000 --> 00:01:42,000

I said, I'm going to read a book about a week or 10 days ago when I told him we were going

42

00:01:42,000 --> 00:01:44,000

to have Frank Edwards.

43

00:01:44,000 --> 00:01:46,000

I was very, very excited about this.

44

00:01:46,000 --> 00:01:49,000

And I said, you mean Frank Edwards?

45

00:01:49,000 --> 00:01:51,000

My new commentator?

46

00:01:51,000 --> 00:01:53,000

I said that's right.

47

00:01:53,000 --> 00:01:55,000

I said, Joe, can I get on the show?

48

00:01:55,000 --> 00:01:58,000

And he said, this is a man that I've admired for years.

49

00:01:58,000 --> 00:02:00,000

And I said yes.

50

00:02:00,000 --> 00:02:02,000

I'll book you.

51

00:02:02,000 --> 00:02:08,240

to be talking about the power man handles a new show and all like that. I said no, we're

52

00:02:08,240 --> 00:02:14,240

going to be discussing psychic phenomena. We'll be talking about flying saucers. Oh,

53

00:02:14,240 --> 00:02:19,240

he said then, you know, this is not the Edwards that I mean. I thought you were going to have

54

00:02:19,240 --> 00:02:25,240

to follow me, the great commentator. I said, look, this is the man that you're thinking

55

00:02:25,240 --> 00:02:30,240

of, Frank Edwards. Now, I said, Frank Edwards writes for Fate magazine. Oh, he said, please,

56

00:02:30,480 --> 00:02:35,480

that's not the Edwards. In other words, what I'm trying to tell you, Frank, is that this

57

00:02:35,480 --> 00:02:42,480

man, Earl Lottman, has extremely interested in meeting you and listened to you for years,

58

00:02:42,480 --> 00:02:51,480

but when he said that one possibly believes in some of the flying saucer stars and some

59

00:02:51,480 --> 00:02:58,480

of these stars about the mediums and the spiritualists and all like that, something happened. In

60

00:02:58,720 --> 00:03:03,720

other words, the man figured it's something, something, same man.

61

00:03:03,720 --> 00:03:08,720

I was wondering, would you like to comment on that? Yes, I think this is an understandable

62

00:03:08,720 --> 00:03:15,720

attitude on his part, because he probably contains me with another Edwards who is on

63

00:03:16,480 --> 00:03:22,480

another network, Doug Edwards, a very fine commentator. And a lot of people do that.

64

00:03:22,480 --> 00:03:29,480

There's Doug Edwards and then there's me with Doug Edwards. I think I was going to say

65

00:03:29,480 --> 00:03:33,480

that understand. Well, I'm going to give you a few minutes to start off. This is the Frank

66

00:03:33,480 --> 00:03:40,480

Edwards, the man that you've admired for years. And why I feel that there must, that evidently

67

00:03:40,480 --> 00:03:46,480

Frank Edwards has gone soft or something because he believes in the big saucers is amazing.

68

00:03:46,480 --> 00:03:50,480

I believe in some of the things, certainly not all of them. And just because you sit around

69

00:03:50,480 --> 00:03:57,480

here many nights and you figure that for anybody that comes on the show and talks about the

70

00:03:57,480 --> 00:04:02,480

experience and aspect projection or an experience of seeing the saucer or something like that,

71

00:04:02,480 --> 00:04:07,480

automatically you label them all coax. And I presume that actually you're labeling Frank

72

00:04:07,480 --> 00:04:13,480

Edwards as a coax. Oh, what do you mean? I haven't heard a word. You know, I am. You

73

00:04:13,480 --> 00:04:19,480

know, I'm excited and I can see the thoughts of the guys with science minds. But I am not

74

00:04:19,480 --> 00:04:26,480

just a huge different network. And Frank Edwards was a news commentator sponsored by the AFL

75

00:04:26,480 --> 00:04:34,480

and CIO or individually one of the two. Right. Frank Edwards, what I would classify as

76

00:04:34,480 --> 00:04:41,480

further interpretive analysis of the news, which was brilliant. I mean, I'm trying to make

77

00:04:41,480 --> 00:04:47,480

up to you right at the beginning. I really felt that way. When represented a viewpoint

78

00:04:47,480 --> 00:04:53,480

that I thought was the right viewpoint that was subjective, it was different than any other

79

00:04:53,480 --> 00:05:01,480

brains coming down on the air. It was objective and yet it was subjective from a human point of

80

00:05:01,480 --> 00:05:09,480

point. Now, there with my relation and excitement, I cannot reconcile Frank for an animal's

81

00:05:09,480 --> 00:05:16,480

interpretive power to give a news that is as great as yours, but something that is so

82

00:05:16,480 --> 00:05:26,480

unreal for me, something that represents in most cases such utter nonsense, I just don't

83

00:05:26,480 --> 00:05:34,480

reconcile with completely. Well, what I'm really asking you, I'm sure is you're really

84

00:05:34,480 --> 00:05:41,480

putting the question to me, why do I assist in regarding the so called sources of realities?

85

00:05:41,480 --> 00:05:48,480

Well, I do this because during the 12 years or so that I have been interested in things,

86

00:05:48,480 --> 00:05:53,480

I've had the reason to change my mind about it. At first I thought they were some development

87

00:05:53,480 --> 00:05:57,480

of ours. I'm sure there were a lot of other people in these countries that we thought that,

88

00:05:57,480 --> 00:06:02,480

but as the years went by and funds happened, I realized that there's many other people

89

00:06:02,480 --> 00:06:06,480

that some things, but most of them are nothing more than conventional objects from under

90

00:06:06,480 --> 00:06:11,480

unusual circumstances and misconstrued by people who do not recognize them for what they are.

91

00:06:11,480 --> 00:06:16,480

Well, there is a small percentage of these things that simply cannot be explained away as

92

00:06:16,480 --> 00:06:20,480

conventional objects. And the effort certainly doesn't regard them as conventional objects

93

00:06:20,480 --> 00:06:24,480

because it has a qualification if you'd order to shrink them down.

94

00:06:24,480 --> 00:06:30,480

You don't shrink down hallucinations and you don't shrink down atmospheric discoloration,

95

00:06:30,480 --> 00:06:35,480

you don't shrink down temperature inversions. These things have to be real and solid.

96

00:06:35,480 --> 00:06:39,480

I belong to an organization called NYCAP, do you know about it AI? Yes.

97

00:06:39,480 --> 00:06:45,480

This is headed by Admiral Hilling Cutter who for a long time, had a central intelligence.

98

00:06:46,480 --> 00:06:52,480

Hilling Cutter always in a position to know what was going on. We also have an organization

99

00:06:52,480 --> 00:06:56,480

that came with the director, the chairman of the board, was Admiral Hilling Cutter,

100

00:06:56,480 --> 00:07:00,480

and they just heard this thing before. Right? And the life of NYCAP is controlled.

101

00:07:00,480 --> 00:07:05,480

Oh yes, T. R. Firstman was Admiral Farney, the father of our guided missile and the man

102

00:07:05,480 --> 00:07:11,480

who coined the term guided missile. And he liked the rest of us on the board and he said so

103

00:07:11,480 --> 00:07:16,480

publicly in his opening statement, I was convinced that things came from somewhere in space

104

00:07:16,480 --> 00:07:21,480

in the space for every hour atmosphere and had been for quite a while and that there were

105

00:07:21,480 --> 00:07:26,480

works of intelligent beings and were certainly not subject to human control.

106

00:07:26,480 --> 00:07:30,480

And Admiral Farney said this, not exactly in those words but that's as near as I can remember.

107

00:07:30,480 --> 00:07:35,480

That was the gist of it. So now the chairman of the board is Admiral Hilling Cutter,

108

00:07:35,480 --> 00:07:40,480

the former head of central intelligence. We also have on the board Colonel Farney who headed

109

00:07:40,480 --> 00:07:45,480

one of the Air Force's social research projects. I certainly was in a position to know what

110

00:07:45,480 --> 00:07:49,480

was known as far as our official research program is concerned.

111

00:07:49,480 --> 00:07:54,480

So many things have happened in this field. If you are close to it and have been able to

112

00:07:54,480 --> 00:08:00,480

get at some of the facts in it around the carefully laid censorship signs and the final

113

00:08:00,480 --> 00:08:07,480

reception and compunction of the existing and bad reporting tools and what do you want to do with that?

114

00:08:07,480 --> 00:08:12,480

I'm saying that there is something substantial there although we may not know what it is or

115

00:08:12,480 --> 00:08:16,480

where it comes from and we certainly do not control it. For that reason I don't know what

116

00:08:16,480 --> 00:08:21,480

the things are and I've never seen one. But I have many friends who are very competent people

117

00:08:21,480 --> 00:08:27,480

and certainly credible. I know a lot of people who are not friends with me but I know them.

118

00:08:27,480 --> 00:08:32,480

I regard their opinion very highly. One of them is Dr. James Bugg but the kind of the

119

00:08:32,480 --> 00:08:37,480

astronomy division at the University of Maryland who has seen the things and have had a really good look at them

120

00:08:37,480 --> 00:08:42,480

and talked about his standing and airline product and so forth. They have certainly seen something

121

00:08:42,480 --> 00:08:47,480

and it's something over which we are in no control. But what of a better name we call them flying saucers?

122

00:08:47,480 --> 00:08:53,480

Well I agree with the Air Force that flying saucers do not exist but unidentified flying objects do exist.

123

00:08:53,480 --> 00:08:57,480

I don't know what they are going to say but that's why I've been interested in them because in my opinion

124

00:08:57,480 --> 00:09:02,480

as a newsman, let's get back to what you've said to me, but my opinion as a newsman,

125

00:09:02,480 --> 00:09:07,480

and in my judgment as a newsman at 36 years, experience in broadcasting around,

126

00:09:07,480 --> 00:09:12,480

I think that this could be one of the biggest news stories of all time.

127

00:09:12,480 --> 00:09:17,480

But if we can get the facts out before the public can be, the reality of these things

128

00:09:17,480 --> 00:09:22,480

and their origin as some of us suspect they are going to be, can be confirmed.

129

00:09:22,480 --> 00:09:29,480

I think it's a bit early though, I think it's a bit early now, but I think it's about the origin of these things.

130

00:09:29,480 --> 00:09:30,480

I think.

131

00:09:30,480 --> 00:09:31,480

I don't have anything?

132

00:09:31,480 --> 00:09:39,480

Yes, I've been with Dr. Herman Over and with Admiral Farni and others.

133

00:09:39,480 --> 00:09:48,480

But I think things are probably rather planetary and that I have no idea where they come from

134

00:09:48,480 --> 00:09:54,480

but I am confident in view of all the evidence that has kind of left about them

135

00:09:54,480 --> 00:09:59,480

that they certainly do not originate on the earth, that's where they come from, that's why I don't know.

136

00:09:59,480 --> 00:10:05,480

I can see there in my perception, things are unidentified flying objects.

137

00:10:05,480 --> 00:10:09,480

I can understand that my point is that I have an interest also.

138

00:10:09,480 --> 00:10:16,480

I don't believe in an object having a certain sense, something that's probably the interest that's now in it and it's necessary.

139

00:10:16,480 --> 00:10:23,480

While I'm a victim to this and there's no significant ignorance in these things, I think it's a kind of feminine

140

00:10:23,480 --> 00:10:32,480

and I don't know why that word, new background, I'm always aggrieved at your acceptance and your alliance.

141

00:10:32,480 --> 00:10:34,480

I'm afraid of that way.

142

00:10:34,480 --> 00:10:38,480

I don't even feel any obstacle and mystical.

143

00:10:38,480 --> 00:10:43,480

Science, Frank, is the eventual answer to most of the claims of life.

144

00:10:43,480 --> 00:10:46,480

Here it has not yet explained everything.

145

00:10:46,480 --> 00:10:49,480

Here we have unidentified flying objects, flying objects.

146

00:10:49,480 --> 00:10:58,480

Now you say we're filming evidence from heaven and we are led to believe that things represent some form of human intelligence from outside the planet.

147

00:10:58,480 --> 00:11:04,480

We're not going to be the same far right, but some form of intelligence anyway, and human or otherwise.

148

00:11:04,480 --> 00:11:10,480

I have several questions which are also not one that's not evident from any credible source too.

149

00:11:10,480 --> 00:11:20,480

Can you explain at the same time Frank, some of the associations of those and those that I characterize in the texts in my book, I definitely do,

150

00:11:20,480 --> 00:11:32,480

those who believe in forms of mysticism and of cultism which have nothing and shouldn't have anything to do with research and what the process is when I'm not explaining objects.

151

00:11:32,480 --> 00:11:34,480

What associations trouble me?

152

00:11:34,480 --> 00:11:40,480

What you do is a large favor with Aladdin and all that you're anxious to get closer to our guests,

153

00:11:40,480 --> 00:11:42,480

but you're closer to prodding into the microphone.

154

00:11:42,480 --> 00:11:46,480

It makes it rather difficult for our engineers to keep a steady pace.

155

00:11:46,480 --> 00:11:55,480

I'm glad you brought science into this because this puts a unique frame of reference where I think I might be able to shed a little light on my own attitude toward the matter.

156

00:11:55,480 --> 00:12:08,480

All things have been photographed and they have been seen and they have been tracked by radar and the government has issued a book on how to recognize them when you see them on a radar screen,

157

00:12:08,480 --> 00:12:15,480

how they performed when they came over the city of Washington in numbers on the night of July 19th and 20th of 1952.

158

00:12:15,480 --> 00:12:23,480

About three nights later they were back again, but then on the night of August 13th, 1952, according to this government book which I have in my possession,

159

00:12:23,480 --> 00:12:34,480

there were 68 of them over Washington at one time and the book was issued for the guidance of control tower and men and other men how to recognize the things and how to know what you were seeing when you saw them.

160

00:12:34,480 --> 00:12:43,480

Now to those who haven't seen them, let me say that these things are fully as real as cosmic rays.

161

00:12:43,480 --> 00:12:48,480

I've never seen one of them either, but I have seen the tracks that they made when they were photographed.

162

00:12:48,480 --> 00:12:52,480

I've also seen pictures of these things when they had been photographed.

163

00:12:52,480 --> 00:13:01,480

So they are at least as real as cosmic rays having for that reason they constitute another thing that we know exists but which we certainly do not fully understand.

164

00:13:01,480 --> 00:13:07,480

People sometimes ask me, why do you believe the flying saucers?

165

00:13:07,480 --> 00:13:10,480

Well, that's a rather broad question.

166

00:13:10,480 --> 00:13:12,480

What do they mean by believing them?

167

00:13:12,480 --> 00:13:14,480

I think that it's like this.

168

00:13:14,480 --> 00:13:15,480

I feel this way about it.

169

00:13:15,480 --> 00:13:19,480

I feel that this is like the two ghosts.

170

00:13:19,480 --> 00:13:26,480

One is sitting on the cemetery wall one night watching the airplanes go over and one ghost said to the other, say, do you believe in people?

171

00:13:26,480 --> 00:13:34,480

And the problem goes ahead and been training around themselves but there was a reason to believe that maybe something was out there.

172

00:13:34,480 --> 00:13:37,480

I'm not being smart actually about this AI.

173

00:13:37,480 --> 00:13:39,480

I'm not trying to sell anybody on flying saucers.

174

00:13:39,480 --> 00:13:42,480

I don't care where anybody believes it, says things that exist or not.

175

00:13:42,480 --> 00:13:43,480

I believe it.

176

00:13:43,480 --> 00:13:44,480

The government believes it.

177

00:13:44,480 --> 00:13:45,480

The Air Force believes it.

178

00:13:45,480 --> 00:13:47,480

A lot of scientists believe it.

179

00:13:47,480 --> 00:13:49,480

If a lot of people don't, they want to believe it.

180

00:13:49,480 --> 00:13:50,480

It's all right with me.

181

00:13:50,480 --> 00:13:56,480

As I said a while ago, I'm interested in it because I think, but if my suspicions, I have nothing more than suspicions.

182

00:13:56,480 --> 00:13:57,480

I don't know where they come from.

183

00:13:57,480 --> 00:14:04,480

But if my suspicions are true, then the story of these unidentified flying objects certainly constitutes a major news story.

184

00:14:04,480 --> 00:14:12,480

Well, they would constitute a major news story if there were some evidence to back up your suspicions.

185

00:14:12,480 --> 00:14:13,480

Now, I cannot...

186

00:14:13,480 --> 00:14:15,480

What do you consider evidence?

187

00:14:15,480 --> 00:14:17,480

Oh, I can tell you what I consider evidence, Frank.

188

00:14:17,480 --> 00:14:19,480

And I've stated this several times.

189

00:14:19,480 --> 00:14:21,480

I want a credible source.

190

00:14:21,480 --> 00:14:30,480

And by a credible source, I will accept any scientific body who are objective.

191

00:14:30,480 --> 00:14:34,480

And I'm sorry to say this, but this is all a price to me.

192

00:14:34,480 --> 00:14:39,480

And it's not an income newsman because both the main gauges are full of wishful dramatic.

193

00:14:39,480 --> 00:14:41,480

They're part of their occupational pursuit.

194

00:14:41,480 --> 00:14:44,480

I'm not angry at them, but it is so.

195

00:14:44,480 --> 00:14:48,480

I want a credible scientific source.

196

00:14:48,480 --> 00:14:56,480

A university, somebody, who can be accepted as an objective person and a person with a background in their knowledge.

197

00:14:56,480 --> 00:15:02,480

But tell me, there is some form of scientific evidence, and here we will give it to you.

198

00:15:02,480 --> 00:15:08,480

That's an important planetary source, and class is unsighted over the earth.

199

00:15:08,480 --> 00:15:12,480

Thank you. I'm glad you brought that up because I'll be able to answer your question.

200

00:15:12,480 --> 00:15:24,480

On about seven o'clock on the morning of June the 30th, 1908, there was a great ball of fire that came in over the Yemisee River in Siberia.

201

00:15:24,480 --> 00:15:27,480

The thing exploded.

202

00:15:27,480 --> 00:15:31,480

It was a tremendous blast. It was so great that it was recorded all around the world.

203

00:15:31,480 --> 00:15:34,480

They realized that it was some great explosion, some tremendous shock,

204

00:15:34,480 --> 00:15:39,480

but it could not have been an earthquake because it possessed one of the characteristics of an earthquake.

205

00:15:39,480 --> 00:15:45,480

And the universities and the various laboratories and observatories that recorded this

206

00:15:45,480 --> 00:15:51,480

realized that it was a shock, and they were able to locate it reasonably well, but they were not able to identify it.

207

00:15:51,480 --> 00:16:00,480

Well, in 1908, there was very little understanding of atomic reactions.

208

00:16:00,480 --> 00:16:04,480

This is well known.

209

00:16:04,480 --> 00:16:09,480

So it was night there because of World War I and the great disruption that took place in Russia.

210

00:16:09,480 --> 00:16:19,480

So in 1927, before a scientific body got to the scene of the so-called Tungusta meteorite,

211

00:16:19,480 --> 00:16:24,480

they all assumed, for a lot of anything else to assume, that this was a great meteorite that had struck there.

212

00:16:24,480 --> 00:16:27,480

They discovered a very strange thing about it.

213

00:16:27,480 --> 00:16:33,480

But for many miles around the scene of this blast, the trees were all swept down flat.

214

00:16:33,480 --> 00:16:35,480

They were brushed down against the ground.

215

00:16:35,480 --> 00:16:39,480

They were charred on the side facing the center of the blast.

216

00:16:39,480 --> 00:16:43,480

In my book, if I may be permitted to stick in a commercial here,

217

00:16:43,480 --> 00:16:45,480

my book of strands is in science.

218

00:16:45,480 --> 00:16:50,480

There is an article on this covering it in considerable detail.

219

00:16:50,480 --> 00:16:56,480

And the blast was a very tremendous explosion of some sort.

220

00:16:56,480 --> 00:17:02,480

If it had been a meteorite, there would have been some sort of meteoritic crater there.

221

00:17:02,480 --> 00:17:04,480

But there was no crater.

222

00:17:04,480 --> 00:17:09,480

There was only this great mass of charred forest spreading for miles away from the center of the blast.

223

00:17:09,480 --> 00:17:12,480

This puzzled the scientists who went there.

224

00:17:12,480 --> 00:17:14,480

But they had nothing.

225

00:17:14,480 --> 00:17:19,480

They had no yardstick by which to figure what this thing could have been.

226

00:17:19,480 --> 00:17:24,480

When we exploded our atomic bomb at Hiroshima,

227

00:17:24,480 --> 00:17:26,480

actually the Russians were interested in it,

228

00:17:26,480 --> 00:17:31,480

so they sent a party over there and a member of the party was Dr. Alexander Kuzinsel.

229

00:17:31,480 --> 00:17:35,480

That was also a member of the various scientific expeditions which had been

230

00:17:35,480 --> 00:17:40,480

for the same as the Tungusco meteorite as it was known, as full as the Death Wing Records.

231

00:17:40,480 --> 00:17:44,480

When he was at Hiroshima, he noticed a peculiarity.

232

00:17:44,480 --> 00:17:49,480

Right under the so-called cone of the blast, directly under the point where the bomb had exploded,

233

00:17:49,480 --> 00:17:52,480

the tops of the trees were snapped off and they hung down.

234

00:17:52,480 --> 00:17:55,480

And the limbs on the trees were stripped and hanging down.

235

00:17:55,480 --> 00:17:57,480

They stripped down the trunk.

236

00:17:57,480 --> 00:17:59,480

This was a very odd looking thing.

237

00:17:59,480 --> 00:18:04,480

And out away from the center of the blast, the trees were flattened out in the brice to where it was charred

238

00:18:04,480 --> 00:18:06,480

on the side toward the blast itself.

239

00:18:06,480 --> 00:18:11,480

Suddenly it dawned on him that the only other place that he'd ever seen a thing like this

240

00:18:11,480 --> 00:18:15,480

was at the Tungusco meteorite.

241

00:18:15,480 --> 00:18:19,480

So he and his colleagues, again comparing notes, and they went back

242

00:18:19,480 --> 00:18:23,480

and they got the Soviet government to organize another expedition, actually to organize fun.

243

00:18:23,480 --> 00:18:28,480

They went up there with radiation gear and they discovered that they could trace out a cone of radiation

244

00:18:28,480 --> 00:18:31,480

directly under, directly in the center of the blast.

245

00:18:31,480 --> 00:18:34,480

Just as they added Hiroshima and Nagasaki.

246

00:18:34,480 --> 00:18:37,480

Now they had all the radiation characteristics of this.

247

00:18:37,480 --> 00:18:41,480

They also found some bits of alloyed metal around the edge of the cone of the blast.

248

00:18:41,480 --> 00:18:45,480

And then when they went back and examined the eyewitness reports,

249

00:18:45,480 --> 00:18:48,480

they found that there was the typical mushroom cloud.

250

00:18:48,480 --> 00:18:52,480

Now that the people who went into this area died of a strange malady.

251

00:18:52,480 --> 00:18:55,480

They went back and they were able to exclude many of them.

252

00:18:55,480 --> 00:19:01,480

And they all showed signs of excessive radioactivity in the bones.

253

00:19:01,480 --> 00:19:06,480

So obviously there had been some sort of a powerful radioactive performance there.

254

00:19:06,480 --> 00:19:11,480

And after the free and Russian expedition had been up there,

255

00:19:11,480 --> 00:19:15,480

I will find only front page of the New York Times for October the 4th.

256

00:19:15,480 --> 00:19:19,480

A story there which is the third one that has been published on this.

257

00:19:19,480 --> 00:19:24,480

But this was an atomic power spaceship that weighed many thousands of tons.

258

00:19:24,480 --> 00:19:29,480

That for some reason it was trying to make an emergency landing when it blew up.

259

00:19:29,480 --> 00:19:34,480

But now the 21 and 22 times miles are brought out what is known in the books.

260

00:19:34,480 --> 00:19:41,480

As a term just a meteorite, but actually it was a spaceship and atomic power went at that.

261

00:19:41,480 --> 00:19:42,480

Ben?

262

00:19:42,480 --> 00:19:48,480

I read the news story in the Times that they were quoting Russian scientists.

263

00:19:48,480 --> 00:19:50,480

This was at the Times version.

264

00:19:50,480 --> 00:19:52,480

They were quoting Russian scientists.

265

00:19:52,480 --> 00:19:55,480

But one of the possible explanations that...

266

00:19:56,480 --> 00:19:58,480

Also we have two.

267

00:19:58,480 --> 00:20:06,480

One we go, it might have been a spaceship, the other one might have been some radioacted explosion of unknown origin from outside the Earth.

268

00:20:08,480 --> 00:20:10,480

Let me pursue that.

269

00:20:10,480 --> 00:20:13,480

Also there was something very interesting in the article two.

270

00:20:13,480 --> 00:20:19,480

Another Russian scientist about this theory that the two moons of Mars are really artificial satellites

271

00:20:19,480 --> 00:20:28,480

put up the orbit thousands of years ago by people who had lived on Mars and tried to escape.

272

00:20:28,480 --> 00:20:32,480

Valerie sent me an old pair a moment ago.

273

00:20:32,480 --> 00:20:40,480

And I think we saw the Times reported it saying that the Russians said it may have been a spaceship.

274

00:20:40,480 --> 00:20:41,480

Yes.

275

00:20:41,480 --> 00:20:56,480

In his group reported to the Russian Academy of Science that all the evidence was conclusive, but it was a spaceship and that they found these alloyed metals.

276

00:20:56,480 --> 00:21:02,480

So the report, what in the Times said that the implication was that they were assuming that it was a spaceship?

277

00:21:02,480 --> 00:21:04,480

They didn't say it was a spaceship.

278

00:21:04,480 --> 00:21:06,480

Let me explain what happened on this thing.

279

00:21:06,480 --> 00:21:16,480

This was a different explanation and the ones who are quoted in the Times are the fellows who denied that Kuzentsev and his group reported that it was a spaceship.

280

00:21:16,480 --> 00:21:18,480

Academy of Science meeting over there.

281

00:21:18,480 --> 00:21:26,480

These fellows denied that such that it was, but when they went over there and made their own investigation, they changed their tune completely.

282

00:21:26,480 --> 00:21:27,480

They say, well, maybe it was.

283

00:21:27,480 --> 00:21:29,480

This is quite a change on their part.

284

00:21:29,480 --> 00:21:31,480

It's also supposed to be...

285

00:21:31,480 --> 00:21:33,480

The Times said it was not mentioned in that Times article.

286

00:21:33,480 --> 00:21:35,480

This was the first...

287

00:21:35,480 --> 00:21:36,480

This was the first...

288

00:21:36,480 --> 00:21:37,480

This was the first...

289

00:21:37,480 --> 00:21:41,480

This was supposed to be a certain amount of residual radioactivity in the area.

290

00:21:41,480 --> 00:21:47,480

This was perceived by what would have been ground zero at a nuclear blast and then...

291

00:21:47,480 --> 00:21:49,480

It was a cone of the blast directly under the blast.

292

00:21:49,480 --> 00:21:51,480

So don't misunderstand me.

293

00:21:51,480 --> 00:21:57,480

I'm not trying to feed or combine any scientific information because I showed...

294

00:21:57,480 --> 00:21:59,480

You would like to know the sum of...

295

00:21:59,480 --> 00:22:00,480

I have to rely.

296

00:22:00,480 --> 00:22:01,480

Right.

297

00:22:01,480 --> 00:22:07,480

Now you've all picked certain things, but I use the word something because that's all it means to me.

298

00:22:07,480 --> 00:22:11,480

Here are a group of Russian scientists and their accomplishments incidentally or something...

299

00:22:11,480 --> 00:22:13,480

What you might not...

300

00:22:13,480 --> 00:22:15,480

...away or avoid.

301

00:22:15,480 --> 00:22:16,480

They're indeed accomplished.

302

00:22:16,480 --> 00:22:21,480

However, there's still, it seems to me, a theory...

303

00:22:21,480 --> 00:22:25,480

...expounded by some Russian scientists which have some validity and one must look up.

304

00:22:25,480 --> 00:22:28,480

But nothing more at the moment than a theory.

305

00:22:28,480 --> 00:22:34,480

Now, speaking of a layperson and one who is interested in the news events of the day...

306

00:22:34,480 --> 00:22:39,480

I have one more question to pursue from a scientific viewpoint.

307

00:22:39,480 --> 00:22:47,480

Here is a subject of unbelievable, well important, isn't even a proper word.

308

00:22:47,480 --> 00:22:48,480

I can't think of one.

309

00:22:48,480 --> 00:22:49,480

The impact is enormous.

310

00:22:49,480 --> 00:22:51,480

I can think of nothing in my lifetime.

311

00:22:51,480 --> 00:22:58,480

But if it were so, if it were to nothing in my lifetime of greater importance or drama...

312

00:22:58,480 --> 00:23:04,480

...than the possibility of life in other planets and advanced life or some form of intelligence anyway...

313

00:23:04,480 --> 00:23:06,480

...sending crap to the surface.

314

00:23:06,480 --> 00:23:13,480

Nothing, it seems to me, including the rumors which went through which credit boys buy.

315

00:23:13,480 --> 00:23:18,480

Now, following that in agreement with me, I now ask you one more question.

316

00:23:18,480 --> 00:23:24,480

Are there any scientists of repeat or any scientists of repeat?

317

00:23:24,480 --> 00:23:31,480

For today, the uriology has taken this matter seriously and are engaging and valid.

318

00:23:31,480 --> 00:23:34,480

I'd better use a word credible research.

319

00:23:34,480 --> 00:23:37,480

Well, let me answer you in two sections.

320

00:23:37,480 --> 00:23:42,480

One, do you consider Dr. Berman over as a scientist of repeat?

321

00:23:43,480 --> 00:23:49,480

I mean, I've got to have your answers so that I'll know what you're talking about.

322

00:23:49,480 --> 00:23:56,480

The reason I smiled was never in front of Dr. Obert, but it was an embarrassment at my own ignorance.

323

00:23:56,480 --> 00:23:57,480

I don't know the matter.

324

00:23:57,480 --> 00:24:02,480

Dr. Berman Obert is the father of modern rocket science.

325

00:24:02,480 --> 00:24:04,480

He lived in Germany for many years.

326

00:24:04,480 --> 00:24:08,480

He was the man who organized rocket research in Germany.

327

00:24:08,480 --> 00:24:13,480

He lived in Germany and organized the rocket-summed-build-hitners rockets for him.

328

00:24:13,480 --> 00:24:19,480

He has written many books on space travel and I'd say that next to Sikopsky, the Russian,

329

00:24:19,480 --> 00:24:25,480

he is probably one of the total outstanding women the Russians have died of.

330

00:24:25,480 --> 00:24:27,480

That's two years ago.

331

00:24:27,480 --> 00:24:32,480

But Obert has just gone back to Germany after five years at Redstone Arsenal down here.

332

00:24:32,480 --> 00:24:38,480

Obert headed a German government research in this, which was actually a cooperative effort

333

00:24:38,480 --> 00:24:44,480

between Scandinavian countries and the Holland and Belgium and West Germany,

334

00:24:44,480 --> 00:24:50,480

looking into these so-called flying saucer UFOs.

335

00:24:50,480 --> 00:24:53,480

1954, when he concluded this program for him,

336

00:24:53,480 --> 00:25:00,480

he held a press conference at which he said that his opinion of himself and his colleagues

337

00:25:00,480 --> 00:25:05,480

and their own opinions were inter-pandestrian origin

338

00:25:05,480 --> 00:25:09,480

that they probably did not originate in our galaxy

339

00:25:09,480 --> 00:25:13,480

and that they were operated by intelligent beings of a very high order

340

00:25:13,480 --> 00:25:17,480

and were probably propelled by distorting the gravitational field.

341

00:25:17,480 --> 00:25:23,480

But just completed that in February of 1948 when he went back to Germany.

342

00:25:23,480 --> 00:25:33,480

I don't think it would be unfair to say that the opinion of the scientific community about Dr. Hans Obert

343

00:25:33,480 --> 00:25:40,480

is much the same as what was the opinion told about Nikolai Keshler,

344

00:25:40,480 --> 00:25:47,480

because he was a man of undoubted genius who in the later years of his life entertained some strange ideas.

345

00:25:48,480 --> 00:25:52,480

Of course, anyone who flies in the face of conventions, entertainings, strange ideas,

346

00:25:52,480 --> 00:25:55,480

and that was true of Einstein, it was also true of...

347

00:25:55,480 --> 00:25:57,480

My wording was supposed to be the lies.

348

00:25:57,480 --> 00:26:00,480

Yeah, sure.

349

00:26:00,480 --> 00:26:07,480

But I had known that we're going to ask this question because I could have brought a little bit later,

350

00:26:07,480 --> 00:26:12,480

which I cannot use publicly, but which I mentioned in one of my books.

351

00:26:12,480 --> 00:26:17,480

I shot it to Willy Lay one night on a program called Author, Reaches the Credit to TV Show

352

00:26:17,480 --> 00:26:18,480

and we were...

353

00:26:18,480 --> 00:26:21,480

Tingle and I were on every one of the major Tingle's books

354

00:26:21,480 --> 00:26:26,480

and the critic was Willy Lay, who was certainly a very eminent man of his field.

355

00:26:26,480 --> 00:26:31,480

And we were to be on a 20-station TV network

356

00:26:31,480 --> 00:26:36,480

and without any warning, whatever, we were cut down to one station that night.

357

00:26:36,480 --> 00:26:40,480

And maybe it was just half an hour past, but that's beside the point.

358

00:26:40,480 --> 00:26:44,480

What happened was that I was able to show Mr. Lay in the middle of the program

359

00:26:44,480 --> 00:26:48,480

a letter signed by a group of eminent government physicists

360

00:26:48,480 --> 00:26:51,480

who are engaged in work for the United States government.

361

00:26:51,480 --> 00:26:57,480

And they said in this letter that after evaluating the evidence and materials submitted to them

362

00:26:57,480 --> 00:27:02,480

over a period of years, they were convinced that things, objects were operated by intelligent beings

363

00:27:02,480 --> 00:27:06,480

in a very high order and were not correctly noted.

364

00:27:06,480 --> 00:27:09,480

And I had the letter.

365

00:27:09,480 --> 00:27:12,480

Let me interrupt here for a moment to take care of some business

366

00:27:12,480 --> 00:27:15,480

and then we'll be back with our guests in a few minutes.

367

00:27:15,480 --> 00:27:19,480

I had a question, Frank, was not answered.

368

00:27:19,480 --> 00:27:22,480

Well, in a way, just a moment I want to introduce you to guests.

369

00:27:22,480 --> 00:27:24,480

I'll give you a channel, you know.

370

00:27:24,480 --> 00:27:31,480

Also, I think at this time, I should remind our listeners that tomorrow night,

371

00:27:31,480 --> 00:27:34,480

or rather tonight, I'm sure we're in the sun already,

372

00:27:34,480 --> 00:27:39,480

tonight at 8.15 p.m. at the Philosophical Research Center

373

00:27:39,480 --> 00:27:43,480

and that's located at 211 West 57th Street in New York.

374

00:27:43,480 --> 00:27:46,480

I'll repeat that in a moment if you want to get a pencil and paper to make a note of it.

375

00:27:46,480 --> 00:27:52,480

Valerie Landier will deliver a lecture on the subject of the untold secrets of the flying saucers.

376

00:27:52,480 --> 00:27:57,480

It's ideal for a holiday gift to get some of these and send them to the...

377

00:27:58,480 --> 00:28:03,480

And outside of the question of flying saucers from other planets,

378

00:28:03,480 --> 00:28:08,480

I was very...plans to find that in your new book, *Stranger Than Science*,

379

00:28:08,480 --> 00:28:14,480

you have a record of a man who almost, let me say this, was 1959

380

00:28:14,480 --> 00:28:19,480

and that was somewhere about 1880s or so, and John Keely,

381

00:28:19,480 --> 00:28:26,480

had a built-in machine, a device which achieved physical levitation

382

00:28:26,480 --> 00:28:29,480

and it was quite some time before the turn of the 20th century.

383

00:28:29,480 --> 00:28:32,480

Could you tell us something about John Keely?

384

00:28:32,480 --> 00:28:36,480

John Warrell Keely was a very unusual fellow.

385

00:28:36,480 --> 00:28:41,480

He was a musician and a magician and he was an inventor

386

00:28:41,480 --> 00:28:47,480

and he seemed to be a very conscientious man in the national psychopedia of his day.

387

00:28:47,480 --> 00:28:51,480

He gave him a very fine biographical sketch in there

388

00:28:51,480 --> 00:28:55,480

and if John Keely was a crook, no one was ever able to prove it

389

00:28:55,480 --> 00:29:00,480

and certainly some of the best scientists of his time tried to expose him

390

00:29:00,480 --> 00:29:04,480

and he gave some of them his cooperation with the consent of the stockholders

391

00:29:04,480 --> 00:29:09,480

but at least one of them who was sent by the stockholders to examine Keely's invention

392

00:29:09,480 --> 00:29:12,480

said that he did not fully understand it

393

00:29:12,480 --> 00:29:18,480

but he had seen enough to convince him that Keely's invention was everything that he said it was.

394

00:29:18,480 --> 00:29:27,480

What Keely did was to build a machine and he called it a long technical, compound technical name

395

00:29:27,480 --> 00:29:30,480

which didn't mean much to me and possibly didn't mean much to him

396

00:29:30,480 --> 00:29:34,480

because I have a feeling that perhaps Keely didn't understand what he had either

397

00:29:34,480 --> 00:29:38,480

but this machine was one that had tremendous power

398

00:29:38,480 --> 00:29:44,480

and he demonstrated it many times from stockholders into various other groups

399

00:29:44,480 --> 00:29:49,480

and it drove, for one thing, it drove a lead ball through an oak plank

400

00:29:49,480 --> 00:29:53,480

a foot-to-feet which nothing else in his time could do

401

00:29:53,480 --> 00:29:56,480

it bent stung rails as though they were putty

402

00:29:56,480 --> 00:30:01,480

and there was not another machine that existed in that day that could do that

403

00:30:01,480 --> 00:30:08,480

and it performed various things but it never got to the point under his control or development

404

00:30:08,480 --> 00:30:12,480

where he felt like it could be safely be put out on the market

405

00:30:12,480 --> 00:30:17,480

or put to practical use although the demonstrations were always very impressive

406

00:30:17,480 --> 00:30:23,480

after Keely died, we found a huge tank of compressed air

407

00:30:23,480 --> 00:30:29,480

and when Keely died, we found a huge tank of compressed air in the basement of his own

408

00:30:29,480 --> 00:30:33,480

but there was nothing new about that really except to the reporters

409

00:30:33,480 --> 00:30:39,480

because Keely had shown that stockholders and several hundred people the tank of air

410

00:30:39,480 --> 00:30:44,480

was connected with the machine only by some relatively thin and wheat brass pipe

411

00:30:44,480 --> 00:30:46,480

so it couldn't have carried very much pressure

412

00:30:46,480 --> 00:30:50,480

certainly couldn't have caused the machine to do what the machine obviously did

413

00:30:50,480 --> 00:30:53,480

time after time in the presence of many witnesses

414

00:30:53,480 --> 00:30:56,480

Well you will have a thin outlet to a huge tank of compressed air

415

00:30:56,480 --> 00:31:00,480

you can build up tremendous pressure on that limited area

416

00:31:00,480 --> 00:31:06,480

Well I'm quoting these men who investigated for the I-R-H stockholders after Keely's death

417

00:31:06,480 --> 00:31:13,480

and they said that it was not possible for him to have used the air in this cylinder

418

00:31:13,480 --> 00:31:18,480

at enough pressure to have made the machine perform as it did

419

00:31:18,480 --> 00:31:25,480

Well maybe Keely was an advance of the knowledge of hydrologists at this time

420

00:31:25,480 --> 00:31:28,480

I don't think there was any knowledge involved

421

00:31:28,480 --> 00:31:30,480

Well I would compress that

422

00:31:30,480 --> 00:31:36,480

Oh I agree but what did he explain that his machines were anti-gravity?

423

00:31:36,480 --> 00:31:42,480

No, he according to the explanation that I found in my research on Keely

424

00:31:42,480 --> 00:31:47,480

probably hinted that this was some sort of an atomic disintegration process

425

00:31:47,480 --> 00:31:52,480

but he called it by a vacual pressure

426

00:31:52,480 --> 00:31:54,480

but already do you know what they named for it?

427

00:31:54,480 --> 00:31:55,480

I forgot his name

428

00:31:55,480 --> 00:32:00,480

I confess that I had done a good deal of research into Keely's work

429

00:32:00,480 --> 00:32:03,480

but this was a couple of years ago

430

00:32:03,480 --> 00:32:06,480

and I haven't had contact with the work

431

00:32:06,480 --> 00:32:10,480

there was one volume of work in just Keely's work

432

00:32:10,480 --> 00:32:12,480

that I was supposed to get

433

00:32:12,480 --> 00:32:17,480

and there was a very fascinating woman by the name of Natasha Rundover

434

00:32:17,480 --> 00:32:22,480

who actually came to that old bookshop in New York City some time ago

435

00:32:22,480 --> 00:32:27,480

that book had a good deal of mathematical analysis of the Keely motor

436

00:32:27,480 --> 00:32:33,480

and Mr. Keely was not quite as illiterate or ignorant as his attackers claim he was

437

00:32:33,480 --> 00:32:38,480

and in effect what he was doing was using sympathetic vibrations

438

00:32:38,480 --> 00:32:43,480

focused to the center of a sphere to achieve certain effects

439

00:32:43,480 --> 00:32:50,480

and then being a musician and having done a good deal of experiments in rib vibrations

440

00:32:50,480 --> 00:32:54,480

he apparently hit on something that we're just beginning to hit again

441

00:32:54,480 --> 00:33:01,480

and the proof of it of course was that he did accomplish these very strange results in his laboratories

442

00:33:01,480 --> 00:33:08,480

which types of compressed air in the basement could never accomplish no matter how efficiently they were built

443

00:33:08,480 --> 00:33:12,480

and as I recall now I examined one of Keely's machines

444

00:33:12,480 --> 00:33:17,480

which is in the city of Philadelphia and it is a new work

445

00:33:17,480 --> 00:33:23,480

a marvelous example, it's an advanced case so I don't know

446

00:33:23,480 --> 00:33:28,480

a marvelous example of the tourmakers art in any case

447

00:33:28,480 --> 00:33:36,480

and I do recall too that he had this tremendously heavy machinery in his laboratories

448

00:33:36,480 --> 00:33:40,480

but occasionally it was found in another part of the room

449

00:33:40,480 --> 00:33:43,480

and there was no physical means of transporting that weight around

450

00:33:43,480 --> 00:33:46,480

and of course no one really knows how Keely thought this stuff shifted around

451

00:33:46,480 --> 00:33:49,480

from one part of the building to the other

452

00:33:49,480 --> 00:33:54,480

but it was a very fascinating story, I spent quite a bit of time in research on it

453

00:33:54,480 --> 00:34:02,480

I spent several years ago and I distinctly remember that he didn't seem to be able to describe

454

00:34:02,480 --> 00:34:10,480

the operations of the machine in terms of the scientific knowledge of his time

455

00:34:10,480 --> 00:34:16,480

because he seemed to be far ahead of his time but he did the best he could with this long-winded name for it

456

00:34:16,480 --> 00:34:23,480

but he did say that there was some sort of what he called an atomic disintegration process

457

00:34:23,480 --> 00:34:30,480

but he said he thought it needed a great deal more study and research before it could be safely put to use

458

00:34:30,480 --> 00:34:36,480

I remember one other thing that Keely did which sounds very amusing, it sounds almost ridiculous

459

00:34:36,480 --> 00:34:44,480

but if you realize that the presence of atomic cars operating because a couple of little particles

460

00:34:44,480 --> 00:34:49,480

start a spark that keeps sparking more and more sparks through the whole elusive stuff

461

00:34:49,480 --> 00:34:55,480

but the thing isn't quite as strange as it sounds but Keely used to pick up his lorry

462

00:34:55,480 --> 00:35:03,480

and if I just played one note on the lorry and this great big metallic sphere would suddenly start to spin

463

00:35:03,480 --> 00:35:10,480

and it would go on spinning for days just as a result of this one sound that he produced on his lorry

464

00:35:10,480 --> 00:35:17,480

I was wondering Frank, I've given us some ideas about Keely

465

00:35:17,480 --> 00:35:22,480

I was wondering if you had any opinions about Otis Tent Car, does that name ring the bell with you?

466

00:35:22,480 --> 00:35:27,480

Well I remember that when I was on the program here before John's 20 years ago

467

00:35:27,480 --> 00:35:32,480

I got a telegram from Mr. Otis Car who was named I believe in Baltimore

468

00:35:32,480 --> 00:35:37,480

I wanted me to come up there and see an anti-gravity machine that he said he had built

469

00:35:37,480 --> 00:35:41,480

I couldn't go and I really don't know anything about him other than that

470

00:35:41,480 --> 00:35:45,480

other than a few little stories that I've seen about him on the news wires from time to time

471

00:35:45,480 --> 00:35:50,480

Personally I don't know anything about him except that I do know that he's made these claims from time to time

472

00:35:50,480 --> 00:35:56,480

and that there have been some skeptics and felt that perhaps some is overstating his case

473

00:35:56,480 --> 00:36:03,480

I went out to Oklahoma City for the launching and naturally they didn't even take it out of the warehouse

474

00:36:03,480 --> 00:36:07,480

for some reason, the mercury leak or something they claimed later

475

00:36:07,480 --> 00:36:11,480

and that was just about the end of it at least temporarily anyway

476

00:36:11,480 --> 00:36:15,480

but we have just some sort of a machine that holds a beautiful thing

477

00:36:15,480 --> 00:36:18,480

I'll bring you a six foot prototype model

478

00:36:18,480 --> 00:36:21,480

I'm not talking about the anti-gravity machine

479

00:36:21,480 --> 00:36:24,480

I'm not talking about the OTC circuit or a craft

480

00:36:24,480 --> 00:36:31,480

the prototype model of the craft that he had hoped to be able to go to the military

481

00:36:31,480 --> 00:36:34,480

I didn't do it in the same time as you did, you know what you did

482

00:36:34,480 --> 00:36:38,480

and that's why we went out, we went out to Oklahoma City

483

00:36:38,480 --> 00:36:41,480

about, we were there for April 19th

484

00:36:41,480 --> 00:36:43,480

that was the day it was to be launched

485

00:36:43,480 --> 00:36:46,480

it's a beautiful contraption

486

00:36:46,480 --> 00:36:49,480

and it looks great

487

00:36:49,480 --> 00:36:52,480

I'm not a scientist, I'm not mechanically inclined

488

00:36:52,480 --> 00:36:56,480

so I couldn't tell you whether there's a possibility that it could go up or not

489

00:36:56,480 --> 00:36:58,480

I do know this

490

00:36:58,480 --> 00:37:01,480

which may have been window dressing

491

00:37:01,480 --> 00:37:04,480

but it seems that they had a little difficulty with the

492

00:37:04,480 --> 00:37:09,480

what is the department that has to do with aviation, not FCC

493

00:37:09,480 --> 00:37:11,480

CAB is that it?

494

00:37:11,480 --> 00:37:13,480

well, the office

495

00:37:13,480 --> 00:37:17,480

probably one of the ones you'll see in the industry, even the others

496

00:37:17,480 --> 00:37:20,480

one of the offices in Oklahoma City

497

00:37:20,480 --> 00:37:26,480

one of the officials of the department that would handle these things

498

00:37:26,480 --> 00:37:29,480

made them purchase a winch

499

00:37:29,480 --> 00:37:34,480

and 400 feet of nylon cord

500

00:37:34,480 --> 00:37:36,480

before they could launch this

501

00:37:36,480 --> 00:37:38,480

so it wouldn't get out of control

502

00:37:38,480 --> 00:37:42,480

because I gather from this

503

00:37:42,480 --> 00:37:46,480

that the government thought that there's a possibility that this would go up higher

504

00:37:46,480 --> 00:37:48,480

they would lose control over

505

00:37:48,480 --> 00:37:53,480

and it may cause an accident in some other part of the country

506

00:37:53,480 --> 00:37:56,480

John, I'd say you're a very conventional person

507

00:37:56,480 --> 00:37:59,480

that's a customary move in these cases

508

00:37:59,480 --> 00:38:01,480

I see the 400 feet of nylon cord

509

00:38:01,480 --> 00:38:03,480

yes, I mean, and you saw it

510

00:38:03,480 --> 00:38:05,480

it was outside the room

511

00:38:05,480 --> 00:38:08,480

Ben, I'll even show you if you're standing next to it

512

00:38:08,480 --> 00:38:10,480

I'll show you the photograph

513

00:38:10,480 --> 00:38:13,480

so if you're asking me whether you want him with a line on it

514

00:38:13,480 --> 00:38:15,480

I would eventually say there was

515

00:38:15,480 --> 00:38:17,480

but I'm not in a position, I didn't actually measure

516

00:38:17,480 --> 00:38:19,480

but there was a winch there

517

00:38:19,480 --> 00:38:22,480

and this was a big piece of big hunk of iron

518

00:38:22,480 --> 00:38:25,480

and the winch should have been above it

519

00:38:27,480 --> 00:38:31,480

they have a government there for him to buy this winch

520

00:38:31,480 --> 00:38:38,480

as I imagine if Otis T. Carr announced that he was going to go through his plans on December 7th

521

00:38:38,480 --> 00:38:40,480

the flight of the moon

522

00:38:40,480 --> 00:38:43,480

I imagine also the government would ask him to file a flight plan

523

00:38:43,480 --> 00:38:45,480

but that doesn't mean they'd seriously expect him to do it

524

00:38:45,480 --> 00:38:48,480

they just expect him to go through the regular

525

00:38:48,480 --> 00:38:52,480

and the regular morale that are attendant upon all these things

526

00:38:52,480 --> 00:38:54,480

we don't want to spend a lot of time on that

527

00:38:54,480 --> 00:38:56,480

I was taking a statement here about this

528

00:38:56,480 --> 00:39:00,480

I just mentioned about the flight plan for the moon

529

00:39:00,480 --> 00:39:02,480

I had a briefing down in Washington the other day

530

00:39:02,480 --> 00:39:04,480

about top scientists

531

00:39:04,480 --> 00:39:07,480

and this devotion, a lot of time to studying

532

00:39:07,480 --> 00:39:09,480

Russian scientific developments

533

00:39:09,480 --> 00:39:12,480

and he works closely with Scandinavian

534

00:39:12,480 --> 00:39:15,480

and other intelligence show that's over there

535

00:39:16,480 --> 00:39:20,480

but points out that at the time the Russians hit the moon

536

00:39:20,480 --> 00:39:23,480

the Ivan's problem was relatively simple

537

00:39:23,480 --> 00:39:26,480

to hit the moon you're much simpler than as you know

538

00:39:26,480 --> 00:39:29,480

actually orbiting the thing or raising it

539

00:39:29,480 --> 00:39:32,480

and making pictures of transmitting them by television

540

00:39:32,480 --> 00:39:35,480

but exactly the right thing in the right time and back

541

00:39:35,480 --> 00:39:38,480

as I said since the Russians did not have

542

00:39:38,480 --> 00:39:42,480

a fantastically good equipment

543

00:39:42,480 --> 00:39:45,480

at the time they hit the moon obviously

544

00:39:45,480 --> 00:39:48,480

this means that they would have had to have built

545

00:39:48,480 --> 00:39:53,480

all this wonderfully intricate and responsive

546

00:39:53,480 --> 00:39:56,480

from here between the time they hit the moon

547

00:39:56,480 --> 00:39:59,480

and the time they sent an outfit around it

548

00:39:59,480 --> 00:40:01,480

the photograph that developed the film

549

00:40:01,480 --> 00:40:03,480

that sent back the pictures by television

550

00:40:04,480 --> 00:40:08,480

and this has led any scientist to suspect

551

00:40:08,480 --> 00:40:12,480

so this man told me that the Russians actually sacrificed a man

552

00:40:12,480 --> 00:40:19,480

in this thing in order to have some responsive method

553

00:40:19,480 --> 00:40:23,480

of developing the film, of aiming the thing

554

00:40:23,480 --> 00:40:26,480

and sending back the pictures at exactly the time they wanted

555

00:40:26,480 --> 00:40:29,480

I know that they have tried on three occasions

556

00:40:29,480 --> 00:40:32,480

to send the space just up and back

557

00:40:32,480 --> 00:40:36,480

and we know that they got him back twice

558

00:40:36,480 --> 00:40:38,480

what happened to the photograph we don't know

559

00:40:38,480 --> 00:40:40,480

and I had a phone call

560

00:40:40,480 --> 00:40:41,480

how do we know?

561

00:40:41,480 --> 00:40:43,480

intelligence would pull me up

562

00:40:43,480 --> 00:40:45,480

I had a phone call during the past week

563

00:40:45,480 --> 00:40:48,480

during the daytime I was in my office there

564

00:40:48,480 --> 00:40:50,480

and somebody called me up

565

00:40:50,480 --> 00:40:51,480

they gave me their name

566

00:40:51,480 --> 00:40:52,480

to be very honest with you

567

00:40:52,480 --> 00:40:54,480

I didn't even make a notation of the name

568

00:40:54,480 --> 00:40:56,480

but the name didn't mean a thing to me

569

00:40:56,480 --> 00:40:58,480

I was not impressed maybe the man

570

00:40:58,480 --> 00:41:02,480

was somebody well known in his particular profession

571

00:41:02,480 --> 00:41:05,480

and I must admit this

572

00:41:05,480 --> 00:41:07,480

that the man sounded like a very intelligent man

573

00:41:07,480 --> 00:41:09,480

and I don't think he was trying to kid or joke around

574

00:41:09,480 --> 00:41:11,480

I think that he really believed it

575

00:41:11,480 --> 00:41:14,480

he told me that he had information

576

00:41:14,480 --> 00:41:17,480

he didn't want to be on the show or anything

577

00:41:17,480 --> 00:41:21,480

but the Russians have 12 people on the moon

578

00:41:21,480 --> 00:41:24,480

and have had for over a period of three months

579

00:41:24,480 --> 00:41:27,480

this I have a question

580

00:41:27,480 --> 00:41:32,480

but I know this from other sources

581

00:41:32,480 --> 00:41:36,480

about 300 dental training has asked us

582

00:41:36,480 --> 00:41:39,480

and the 27 of them are women

583

00:41:39,480 --> 00:41:42,480

their schedule calls for sending

584

00:41:42,480 --> 00:41:44,480

two men and two women to the moon

585

00:41:44,480 --> 00:41:48,480

and they do not expect to get the first part back

586

00:41:48,480 --> 00:41:51,480

but in other words they're going to send them

587

00:41:51,480 --> 00:41:54,480

they will be there

588

00:41:54,480 --> 00:41:56,480

they will be volunteers

589

00:41:56,480 --> 00:41:59,480

they will not expect to get back well

590

00:41:59,480 --> 00:42:02,480

it's not beyond their bounds of reason

591

00:42:02,480 --> 00:42:05,480

to tell you that some patriotic Russian

592

00:42:05,480 --> 00:42:07,480

member of the same group of astronauts

593

00:42:07,480 --> 00:42:09,480

may have been willing to sacrifice himself

594

00:42:09,480 --> 00:42:11,480

for this great scientific theory

595

00:42:11,480 --> 00:42:13,480

which they unquestively got

596

00:42:13,480 --> 00:42:15,480

by beating us to the punch on this

597

00:42:15,480 --> 00:42:18,480

why is we at the moment talking about the Russians

598

00:42:18,480 --> 00:42:20,480

why we are the Iranian guys

599

00:42:20,480 --> 00:42:23,480

I will give you the thinking of our scientists

600

00:42:23,480 --> 00:42:26,480

but this is true of most of the moon

601

00:42:26,480 --> 00:42:30,480

at the top or bottom of the moon

602

00:42:30,480 --> 00:42:32,480

where the rays strike at a different angle

603

00:42:32,480 --> 00:42:35,480

the temperature exchange will not be as great

604

00:42:35,480 --> 00:42:39,480

but will be as it is at the poles of the earth

605

00:42:39,480 --> 00:42:42,480

for example of course it wouldn't be that cold

606

00:42:42,480 --> 00:42:45,480

but it would not be boiling hot either

607

00:42:45,480 --> 00:42:49,480

we estimate that by our people digging in

608

00:42:49,480 --> 00:42:52,480

or finding themselves, recover of some sort

609

00:42:52,480 --> 00:42:55,480

that they can survive there for quite a while

610

00:42:55,480 --> 00:42:58,480

of course they'd have to take their oxygen with them in their water

611

00:42:58,480 --> 00:43:01,480

I'd just like to say I don't know who you spoke to

612

00:43:01,480 --> 00:43:04,480

with Washington and what intelligence reports he had access to

613

00:43:04,480 --> 00:43:07,480

but that's quite true

614

00:43:07,480 --> 00:43:10,480

it's easier to

615

00:43:10,480 --> 00:43:13,480

affect the moon there is the orbit around it

616

00:43:13,480 --> 00:43:16,480

this is like saying it's easier to build an atom bomb

617

00:43:16,480 --> 00:43:19,480

an H-bomb, it's still a monumental task

618

00:43:19,480 --> 00:43:22,480

but as far as sacrificing a man

619

00:43:22,480 --> 00:43:25,480

so they could have someone to develop a film and take pictures

620

00:43:25,480 --> 00:43:29,480

that sounds to me to be somewhat wishful thinking

621

00:43:29,480 --> 00:43:31,480

on the part of a man who said it

622

00:43:31,480 --> 00:43:34,480

because actually in a condition such as being in orbit around the moon

623

00:43:34,480 --> 00:43:38,480

automatic instruments to take pictures

624

00:43:38,480 --> 00:43:40,480

and transmit them back to the earth

625

00:43:40,480 --> 00:43:44,480

are of higher competence than any man who was sitting in a space

626

00:43:44,480 --> 00:43:47,480

or orbiting around the moon

627

00:43:47,480 --> 00:43:50,480

because the man would be practically worthless

628

00:43:50,480 --> 00:43:53,480

whereas the instruments wouldn't be bothered at all

629

00:43:53,480 --> 00:43:57,480

the idea of putting a man into orbit is something of an achievement

630

00:43:57,480 --> 00:44:01,480

in itself but the idea of doing it because the equipment isn't good enough

631

00:44:01,480 --> 00:44:04,480

this sounds rather far-fetched

632

00:44:04,480 --> 00:44:07,480

if you didn't have the appointment to do it

633

00:44:07,480 --> 00:44:09,480

but you had the man who could do it

634

00:44:09,480 --> 00:44:11,480

and you were really rushed to get it done

635

00:44:11,480 --> 00:44:13,480

what would you do?

636

00:44:13,480 --> 00:44:19,480

well if you have equipment that is capable of monitoring a flight

637

00:44:19,480 --> 00:44:23,480

and you can do it and put it in orbit around the moon

638

00:44:23,480 --> 00:44:26,480

you have the auxiliary equipment that would process

639

00:44:26,480 --> 00:44:29,480

after which would take a picture of the far side of the moon

640

00:44:29,480 --> 00:44:31,480

and to transmit it back to the earth

641

00:44:31,480 --> 00:44:34,480

the process, this kind of equipment is not...

642

00:44:34,480 --> 00:44:37,480

do they have any though that would put one in orbit around the moon?

643

00:44:37,480 --> 00:44:39,480

why not? I've done it before

644

00:44:39,480 --> 00:44:42,480

there are two views about Russian scientists and science

645

00:44:42,480 --> 00:44:46,480

which is practically hysterical as per prevalent in this country

646

00:44:46,480 --> 00:44:50,480

one is that there are a bunch of ignorant engineers

647

00:44:50,480 --> 00:44:55,480

who have changed their performances through sheer luck

648

00:44:55,480 --> 00:44:59,480

and they make 10,000 failures and they only let us know about the success

649

00:44:59,480 --> 00:45:01,480

it's a completely idiotic view

650

00:45:01,480 --> 00:45:04,480

but other views that they are supermen who just sit around

651

00:45:04,480 --> 00:45:06,480

and they come out with this fantastic achievement

652

00:45:06,480 --> 00:45:09,480

that we're 10,000 years behind and it's also a ridiculous view

653

00:45:09,480 --> 00:45:12,480

but it has to be just as good and as bad as we are

654

00:45:12,480 --> 00:45:14,480

I think you're absolutely right

655

00:45:14,480 --> 00:45:18,480

but I think that's the thinking of these scientists

656

00:45:18,480 --> 00:45:20,480

which is who this man refers

657

00:45:20,480 --> 00:45:24,480

and I think that because they felt that the Russians were only mortalling

658

00:45:24,480 --> 00:45:26,480

that they didn't have this gear a short time ago

659

00:45:26,480 --> 00:45:29,480

they probably did not have it at the time that they...

660

00:45:29,480 --> 00:45:31,480

I mean the picture is in the top

661

00:45:31,480 --> 00:45:35,480

actually over 70 chapters in this book

662

00:45:35,480 --> 00:45:38,480

and the price of it is 4.95

663

00:45:38,480 --> 00:45:41,480

it's published by Lyle Stewart

664

00:45:41,480 --> 00:45:45,480

but there's a black paper jacket on it

665

00:45:45,480 --> 00:45:49,480

with sort of a sharp, close-brained printing

666

00:45:49,480 --> 00:45:51,480

and it's a fantastic book

667

00:45:51,480 --> 00:45:53,480

and I know that you want to own a copy

668

00:45:53,480 --> 00:45:55,480

Frank is kind enough to join us this morning

669

00:45:55,480 --> 00:45:57,480

to give us some of his opinions about things

670

00:45:57,480 --> 00:46:01,480

and also to tell us about some of the stories I love it

671

00:46:01,480 --> 00:46:04,480

Frank, I have to come back to the original opening of June

672

00:46:04,480 --> 00:46:07,480

I still have no plausible explanations for you

673

00:46:07,480 --> 00:46:10,480

I don't

674

00:46:10,480 --> 00:46:12,480

but back then again

675

00:46:12,480 --> 00:46:13,480

I said it sincerely

676

00:46:13,480 --> 00:46:15,480

it was impressive to me

677

00:46:15,480 --> 00:46:17,480

I told you, I wasn't sincere

678

00:46:17,480 --> 00:46:18,480

but a fan of yours for years

679

00:46:18,480 --> 00:46:20,480

you're news reporting to me

680

00:46:20,480 --> 00:46:22,480

represents rationality

681

00:46:22,480 --> 00:46:24,480

interpretive powers, etc

682

00:46:25,480 --> 00:46:27,480

Coming back again

683

00:46:27,480 --> 00:46:30,480

from the work of these days

684

00:46:30,480 --> 00:46:33,480

the foreign sources which we found around for a bit

685

00:46:33,480 --> 00:46:37,480

I started to say a little earlier than I'd asked you a question

686

00:46:37,480 --> 00:46:38,480

the audience Frank

687

00:46:38,480 --> 00:46:42,480

but I say among many who are in the foreign source of fear

688

00:46:42,480 --> 00:46:44,480

I say they're believers

689

00:46:44,480 --> 00:46:46,480

their audience would be...

690

00:46:46,480 --> 00:46:48,480

would be...

691

00:46:48,480 --> 00:46:51,480

I am not calling names at the moment

692

00:46:51,480 --> 00:46:54,480

I went to some others who underpinned this program

693

00:46:54,480 --> 00:46:55,480

and I've done it before

694

00:46:55,480 --> 00:46:57,480

but I meant to find the purpose

695

00:46:57,480 --> 00:46:59,480

so I was very uncharacteristic to believe it

696

00:46:59,480 --> 00:47:02,480

I'm asking a question

697

00:47:02,480 --> 00:47:06,480

I've been the occult and the mystic

698

00:47:06,480 --> 00:47:09,480

but Frank merely and truly

699

00:47:09,480 --> 00:47:10,480

were in many things alike

700

00:47:10,480 --> 00:47:12,480

or mentally explained

701

00:47:12,480 --> 00:47:14,480

but Frank in himself

702

00:47:14,480 --> 00:47:19,480

have also found explanations for what some people afford

703

00:47:19,480 --> 00:47:23,480

the mystical or occult for science is explaining you

704

00:47:23,480 --> 00:47:25,480

would you please explain to me

705

00:47:25,480 --> 00:47:28,480

the ways between those who have

706

00:47:28,480 --> 00:47:30,480

what I think might be a

707

00:47:30,480 --> 00:47:35,480

valid scientific survey of unidentified science objects

708

00:47:35,480 --> 00:47:39,480

but then there are ways for those who believe in mysticism

709

00:47:39,480 --> 00:47:42,480

and occultism which are known out of our own indication

710

00:47:42,480 --> 00:47:45,480

of the use of human-lit-igated answers

711

00:47:45,480 --> 00:47:49,480

Well I can't explain what you call the alliance

712

00:47:49,480 --> 00:47:50,480

between these people

713

00:47:50,480 --> 00:47:51,480

because I'm not a part of it

714

00:47:51,480 --> 00:47:53,480

and I don't know anything about it

715

00:47:53,480 --> 00:47:56,480

I am interested as I said to you a while ago

716

00:47:56,480 --> 00:47:59,480

in the subject of these unidentified flying objects

717

00:47:59,480 --> 00:48:01,480

and I'm calling them by the same name

718

00:48:01,480 --> 00:48:03,480

that the United States government calls them

719

00:48:03,480 --> 00:48:05,480

and they've spent tremendous amounts of money

720

00:48:05,480 --> 00:48:07,480

investigating them

721

00:48:07,480 --> 00:48:10,480

by government thinks that they're real

722

00:48:10,480 --> 00:48:11,480

Please explain to me

723

00:48:11,480 --> 00:48:12,480

I don't mean to be rude

724

00:48:12,480 --> 00:48:14,480

but they're asking a different question

725

00:48:14,480 --> 00:48:16,480

and they're interested

726

00:48:16,480 --> 00:48:17,480

and this goes to your book

727

00:48:17,480 --> 00:48:19,480

which I did wonderful reading again

728

00:48:19,480 --> 00:48:22,480

and I read it and enjoyed it

729

00:48:22,480 --> 00:48:24,480

but if you offered it

730

00:48:24,480 --> 00:48:28,480

if you offered it as just interest

731

00:48:28,480 --> 00:48:31,480

but everything you're doing in here seems to imply

732

00:48:31,480 --> 00:48:33,480

look here are amazing things

733

00:48:33,480 --> 00:48:35,480

here are things that happen

734

00:48:35,480 --> 00:48:38,480

here is proof of mystical and occult forces

735

00:48:38,480 --> 00:48:41,480

now I'm questioning you on this Frank

736

00:48:42,480 --> 00:48:44,480

Who are you a bully for this?

737

00:48:44,480 --> 00:48:46,480

Well I am simply reporting

738

00:48:46,480 --> 00:48:49,480

I'm not explaining because I can't explain

739

00:48:49,480 --> 00:48:52,480

science can't explain the things that are in that book

740

00:48:52,480 --> 00:48:54,480

science has not been able to explain them

741

00:48:54,480 --> 00:48:57,480

that's why they're all open-ended articles

742

00:48:57,480 --> 00:48:58,480

there's no explanation for them

743

00:48:58,480 --> 00:49:00,480

in the light of conventional science

744

00:49:00,480 --> 00:49:03,480

there are great many things that science does not know

745

00:49:03,480 --> 00:49:05,480

we know that we've only had organized science

746

00:49:05,480 --> 00:49:07,480

for about 75 years

747

00:49:08,480 --> 00:49:11,480

science has made tremendous strides

748

00:49:11,480 --> 00:49:13,480

in that period of time

749

00:49:13,480 --> 00:49:17,480

but actually we know that we've hardly scratched the surface

750

00:49:17,480 --> 00:49:19,480

and the things that are being brought out

751

00:49:19,480 --> 00:49:22,480

every few months each year

752

00:49:22,480 --> 00:49:25,480

and the thing that I have done in this book

753

00:49:25,480 --> 00:49:28,480

is to print in there

754

00:49:28,480 --> 00:49:30,480

to report in there

755

00:49:30,480 --> 00:49:32,480

documented instances

756

00:49:32,480 --> 00:49:34,480

for which we have no explanation

757

00:49:34,480 --> 00:49:37,480

but for which we have proof that they happen

758

00:49:37,480 --> 00:49:40,480

Now we've discussed the first room

759

00:49:40,480 --> 00:49:42,480

which is the mystery of David Lane

760

00:49:42,480 --> 00:49:44,480

Yes sir I'd be glad to go there

761

00:49:44,480 --> 00:49:46,480

as far as I can which is as far as science can go

762

00:49:46,480 --> 00:49:49,480

David Lane disappeared

763

00:49:49,480 --> 00:49:54,480

just to put it in the cap so this is a period of September 23, 1880

764

00:49:54,480 --> 00:49:57,480

David Lane disappeared literally

765

00:49:57,480 --> 00:50:00,480

at a matter of seconds in the full view

766

00:50:00,480 --> 00:50:02,480

of some members of his family

767

00:50:02,480 --> 00:50:04,480

and some friends that they totally don't know

768

00:50:04,480 --> 00:50:06,480

There was a judge

769

00:50:06,480 --> 00:50:08,480

I am the judge's brother who was an attorney

770

00:50:08,480 --> 00:50:10,480

here at the time

771

00:50:10,480 --> 00:50:12,480

I have some questions

772

00:50:12,480 --> 00:50:14,480

One

773

00:50:14,480 --> 00:50:17,480

What is the documentary evidence of this particular incident?

774

00:50:17,480 --> 00:50:20,480

I've got the documentary evidence on this

775

00:50:20,480 --> 00:50:22,480

from the county records

776

00:50:22,480 --> 00:50:24,480

of Gallupton, Tennessee

777

00:50:24,480 --> 00:50:28,480

from the records in the state house

778

00:50:28,480 --> 00:50:30,480

from Tennessee

779

00:50:30,480 --> 00:50:32,480

I've got a few men down there to pull this ground

780

00:50:32,480 --> 00:50:35,480

to say if he could have gone into some hole

781

00:50:35,480 --> 00:50:38,480

and also from the statements made by this judge

782

00:50:38,480 --> 00:50:40,480

and by his brother

783

00:50:40,480 --> 00:50:43,480

and by the family of the man who disappeared

784

00:50:43,480 --> 00:50:45,480

Now this man's case was never solved

785

00:50:45,480 --> 00:50:47,480

because there was no solution to it

786

00:50:47,480 --> 00:50:50,480

he is still listed as missing

787

00:50:50,480 --> 00:50:53,480

Frank I believe that the man disappeared of course

788

00:50:53,480 --> 00:50:56,480

and I'm trying to say it literally badly

789

00:50:56,480 --> 00:50:59,480

that by any chance you're fabricating in the book

790

00:50:59,480 --> 00:51:02,480

you are relating stories as a news reporter

791

00:51:02,480 --> 00:51:04,480

that you have checked

792

00:51:04,480 --> 00:51:06,480

that they allegedly happened

793

00:51:06,480 --> 00:51:08,480

I'm going a little deeper than that

794

00:51:08,480 --> 00:51:11,480

I believe that somebody told the story

795

00:51:11,480 --> 00:51:13,480

that David Lang, that there was a David Lang

796

00:51:13,480 --> 00:51:15,480

that somebody told the story that he disappeared

797

00:51:15,480 --> 00:51:17,480

and he viewed five people

798

00:51:17,480 --> 00:51:19,480

No question about that

799

00:51:19,480 --> 00:51:21,480

I'm not going to point anything as to your reporting of it

800

00:51:21,480 --> 00:51:23,480

but the question I'm asking

801

00:51:23,480 --> 00:51:25,480

what documentary evidence exists of any

802

00:51:25,480 --> 00:51:28,480

that these people didn't do a little dreaming

803

00:51:28,480 --> 00:51:30,480

and tell a story

804

00:51:30,480 --> 00:51:33,480

has there been any evidence at all that this literally happened

805

00:51:33,480 --> 00:51:36,480

If there was the state of Tennessee couldn't find it

806

00:51:36,480 --> 00:51:38,480

at the time it happened

807

00:51:38,480 --> 00:51:40,480

or in the subsequent years

808

00:51:40,480 --> 00:51:43,480

Now in your news reporting and your career

809

00:51:43,480 --> 00:51:46,480

have you not come across stories Frank

810

00:51:46,480 --> 00:51:50,480

on where people relate almost incredible events

811

00:51:50,480 --> 00:51:52,480

but then upon investigation

812

00:51:52,480 --> 00:51:55,480

it is found that the relation of these events

813

00:51:55,480 --> 00:51:59,480

either occurred somewhere in the deep recesses of their minds

814

00:51:59,480 --> 00:52:01,480

or for their elaboration

815

00:52:01,480 --> 00:52:04,480

or a little more practical purpose

816

00:52:04,480 --> 00:52:08,480

where to cover up some true story

817

00:52:08,480 --> 00:52:11,480

they made up some fantastic story

818

00:52:11,480 --> 00:52:13,480

Oh yes, yes

819

00:52:13,480 --> 00:52:16,480

Now I'm going to conjecture

820

00:52:16,480 --> 00:52:19,480

of possibly a silly hypothesis

821

00:52:19,480 --> 00:52:21,480

but the story of David Lang, my own mind

822

00:52:21,480 --> 00:52:23,480

is trying to seek an explanation

823

00:52:23,480 --> 00:52:25,480

a non-scientific mind

824

00:52:25,480 --> 00:52:27,480

but a non-believer in anything

825

00:52:27,480 --> 00:52:29,480

and the explanation I came up with

826

00:52:29,480 --> 00:52:32,480

was that David Lang got tired of a true wife

827

00:52:32,480 --> 00:52:33,480

and disappeared

828

00:52:33,480 --> 00:52:35,480

her pride was hurt

829

00:52:35,480 --> 00:52:36,480

terribly hurt

830

00:52:36,480 --> 00:52:37,480

she was left with two children

831

00:52:37,480 --> 00:52:39,480

and in collusion with a couple of friends

832

00:52:39,480 --> 00:52:41,480

made up a fantastic story

833

00:52:41,480 --> 00:52:43,480

go disproved it

834

00:52:43,480 --> 00:52:45,480

Now there's documentary evidence that she went to

835

00:52:45,480 --> 00:52:47,480

for example, if you have in today's

836

00:52:47,480 --> 00:52:49,480

you remember the police department of the city in New York

837

00:52:49,480 --> 00:52:51,480

and said my husband and my full view

838

00:52:51,480 --> 00:52:53,480

disappeared do something

839

00:52:53,480 --> 00:52:56,480

but for you are entitled to report that story Frank

840

00:52:56,480 --> 00:52:57,480

but in a world that's

841

00:52:57,480 --> 00:52:59,480

fraction of anybody's imagination

842

00:52:59,480 --> 00:53:01,480

if it doesn't necessarily mean it's the truth

843

00:53:01,480 --> 00:53:04,480

I think something that Ed Spingon

844

00:53:04,480 --> 00:53:06,480

brought up on the program once

845

00:53:06,480 --> 00:53:10,480

which I think is very apropos to this

846

00:53:10,480 --> 00:53:13,480

I said that he would make two statements

847

00:53:13,480 --> 00:53:16,480

one of which would be extremely easy to disprove

848

00:53:16,480 --> 00:53:20,480

and the second one would be impossible to disprove

849

00:53:20,480 --> 00:53:23,480

his first statement was that he is a qualified

850

00:53:23,480 --> 00:53:25,480

programmer of computing machines

851

00:53:25,480 --> 00:53:28,480

well obviously he could ask him two or three questions

852

00:53:28,480 --> 00:53:29,480

if I know he wasn't

853

00:53:29,480 --> 00:53:32,480

but since this is a statement he said it's very easy to disprove

854

00:53:32,480 --> 00:53:34,480

the second statement he said it's impossible to disprove

855

00:53:34,480 --> 00:53:37,480

is that he arrived at the studio tonight

856

00:53:37,480 --> 00:53:40,480

by a flying saucer which landed on the roof

857

00:53:40,480 --> 00:53:41,480

of the building he lives in

858

00:53:41,480 --> 00:53:43,480

and let him out

859

00:53:43,480 --> 00:53:45,480

over 1440 Broadway

860

00:53:45,480 --> 00:53:46,480

and he came down here

861

00:53:46,480 --> 00:53:48,480

and I disproved that statement

862

00:53:48,480 --> 00:53:50,480

and David Langstapin I said

863

00:53:50,480 --> 00:53:53,480

mid belongs into that lab category

864

00:53:53,480 --> 00:53:56,480

of something recorded that could never be disproved

865

00:53:56,480 --> 00:53:58,480

from the front

866

00:53:58,480 --> 00:53:59,480

I'm there about

867

00:53:59,480 --> 00:54:02,480

10 or 20,000 cases

868

00:54:02,480 --> 00:54:04,480

like the Lang case on record

869

00:54:04,480 --> 00:54:07,480

there are many cases of disappearance of course

870

00:54:07,480 --> 00:54:10,480

like what's about for which there is no answer

871

00:54:10,480 --> 00:54:11,480

what

872

00:54:11,480 --> 00:54:15,480

you know the several cases are reported

873

00:54:15,480 --> 00:54:17,480

in the books of the kind of child

874

00:54:17,480 --> 00:54:19,480

child openness or what has to do with it

875

00:54:19,480 --> 00:54:20,480

I'm not sorry

876

00:54:20,480 --> 00:54:23,480

the reason I used the David Lang case

877

00:54:23,480 --> 00:54:26,480

was because it was the subject of an intensity

878

00:54:26,480 --> 00:54:30,480

and prolonged official probe

879

00:54:30,480 --> 00:54:32,480

I did everything possible

880

00:54:32,480 --> 00:54:35,480

to find out what happened to this man

881

00:54:35,480 --> 00:54:37,480

and there was no indication whatever

882

00:54:37,480 --> 00:54:39,480

that there was any

883

00:54:39,480 --> 00:54:44,480

that there was any unpleasant connotations involved in the story

884

00:54:44,480 --> 00:54:47,480

or that there were any indication that any of these witnesses

885

00:54:47,480 --> 00:54:50,480

were deluded in front of the truth

886

00:54:50,480 --> 00:54:51,480

find out

887

00:54:51,480 --> 00:54:53,480

that that man just was worth a nil

888

00:54:53,480 --> 00:54:55,480

here's another point however

889

00:54:55,480 --> 00:54:58,480

one of the very last paragraph relating to the story

890

00:54:58,480 --> 00:55:03,480

tells of the incident of a stranger's disappearance itself

891

00:55:03,480 --> 00:55:06,480

with the experience that happened in the Lang's two years ago

892

00:55:06,480 --> 00:55:08,480

it was about seven months after the vanish

893

00:55:08,480 --> 00:55:09,480

and if I may

894

00:55:09,480 --> 00:55:11,480

just the ending of this story

895

00:55:11,480 --> 00:55:16,480

David Lang, the children noticed that at the spot where it last been seen

896

00:55:16,480 --> 00:55:20,480

there was a circle of stunted yellow grass and 15 feet in diameter

897

00:55:20,480 --> 00:55:23,480

on that evening as they stood beside the circle

898

00:55:23,480 --> 00:55:27,480

11 year old Sarah called to their father

899

00:55:27,480 --> 00:55:29,480

and told her astonishment

900

00:55:29,480 --> 00:55:31,480

the youngest man who has heard his voice

901

00:55:31,480 --> 00:55:33,480

calling faintly for help

902

00:55:33,480 --> 00:55:36,480

over and over until it faded away forever

903

00:55:36,480 --> 00:55:39,480

Frank, question one

904

00:55:39,480 --> 00:55:41,480

an 11 year old child

905

00:55:41,480 --> 00:55:43,480

had an imagination

906

00:55:43,480 --> 00:55:44,480

right?

907

00:55:44,480 --> 00:55:45,480

understandable

908

00:55:45,480 --> 00:55:48,480

today children commit to our own with stories sometimes

909

00:55:48,480 --> 00:55:49,480

but you just look at them

910

00:55:49,480 --> 00:55:51,480

with their imaginations

911

00:55:51,480 --> 00:55:53,480

with their indisputable imaginations

912

00:55:53,480 --> 00:55:54,480

it's true

913

00:55:54,480 --> 00:55:57,480

where is this document that a child told somebody?

914

00:55:57,480 --> 00:56:00,480

but a mother gave the state of Tennessee a sworn statement on that

915

00:56:00,480 --> 00:56:02,480

and she heard the same thing

916

00:56:02,480 --> 00:56:03,480

even before that

917

00:56:03,480 --> 00:56:06,480

is an alienist every man and Mrs. Lang?

918

00:56:06,480 --> 00:56:08,480

I don't know that there were any

919

00:56:08,480 --> 00:56:09,480

similar things

920

00:56:09,480 --> 00:56:12,480

I think that this is a great tragedy

921

00:56:12,480 --> 00:56:16,480

and many times when children make statements

922

00:56:16,480 --> 00:56:18,480

that sound wild or fantastic

923

00:56:18,480 --> 00:56:20,480

and they are laughed at and ignored

924

00:56:20,480 --> 00:56:23,480

and this is a very tragic thing

925

00:56:23,480 --> 00:56:25,480

because children have seen many things

926

00:56:25,480 --> 00:56:28,480

that seemed absolutely impossible

927

00:56:28,480 --> 00:56:30,480

I know

928

00:56:30,480 --> 00:56:33,480

sometimes I'm listening to you

929

00:56:33,480 --> 00:56:37,480

and your comment was not a comment

930

00:56:37,480 --> 00:56:39,480

the comment that I was saying

931

00:56:39,480 --> 00:56:41,480

your comment was a personal comment

932

00:56:41,480 --> 00:56:43,480

and unnecessary

933

00:56:43,480 --> 00:56:48,480

and if you like your pipe

934

00:56:48,480 --> 00:56:51,480

so that it can get the smoke coming properly

935

00:56:51,480 --> 00:56:53,480

you might be able to listen to what I'm saying

936

00:56:53,480 --> 00:56:56,480

instead of throwing it off into a personal tangent

937

00:56:56,480 --> 00:56:58,480

and if you heard what I said

938

00:56:58,480 --> 00:57:00,480

I don't know if you heard what you said

939

00:57:00,480 --> 00:57:02,480

but if you comment on what I said

940

00:57:02,480 --> 00:57:04,480

not on the condition of my mind

941

00:57:04,480 --> 00:57:06,480

which you can't do anything about

942

00:57:06,480 --> 00:57:07,480

what you said Ellery

943

00:57:07,480 --> 00:57:09,480

or what I thought you said

944

00:57:09,480 --> 00:57:12,480

was that it's a shame that we ignore

945

00:57:12,480 --> 00:57:16,480

some of the stories of our children

946

00:57:16,480 --> 00:57:21,480

and cause we might find a lot of truth in these stories

947

00:57:21,480 --> 00:57:23,480

I saw a ghost

948

00:57:23,480 --> 00:57:25,480

I don't want to go to sleep

949

00:57:25,480 --> 00:57:27,480

there was a ghost in the room last night

950

00:57:27,480 --> 00:57:28,480

don't ignore this child

951

00:57:28,480 --> 00:57:30,480

maybe there was a ghost Ellery

952

00:57:30,480 --> 00:57:31,480

but that's the point

953

00:57:31,480 --> 00:57:32,480

that I'm not going to say

954

00:57:32,480 --> 00:57:34,480

that I'm not going to say

955

00:57:34,480 --> 00:57:36,480

that I'm not going to say that

956

00:57:36,480 --> 00:57:38,480

that's why I'm calling it because it's children's statement

957

00:57:38,480 --> 00:57:40,480

the point of my statement is

958

00:57:40,480 --> 00:57:41,480

quite something else again

959

00:57:41,480 --> 00:57:43,480

the point of my statement is that

960

00:57:43,480 --> 00:57:45,480

there have been many observations made

961

00:57:45,480 --> 00:57:47,480

by children or adults

962

00:57:47,480 --> 00:57:48,480

adults

963

00:57:48,480 --> 00:57:50,480

which didn't happen to Jai

964

00:57:50,480 --> 00:57:53,480

with the emotions of the other individuals

965

00:57:53,480 --> 00:57:55,480

and around us surrounding them

966

00:57:55,480 --> 00:57:58,480

and that simple attitude of dismissing a thing

967

00:57:58,480 --> 00:57:59,480

while a child said this

968

00:57:59,480 --> 00:58:00,480

a child reported this

969

00:58:00,480 --> 00:58:02,480

this is a very vicious thing

970

00:58:02,480 --> 00:58:04,480

and a very destructive thing

971

00:58:04,480 --> 00:58:06,480

and I say that in essence

972

00:58:06,480 --> 00:58:09,480

the idea of having a lack of respect for a child

973

00:58:09,480 --> 00:58:12,480

is an exciting, very degrading thing

974

00:58:12,480 --> 00:58:14,480

to the person who has that lack of respect

975

00:58:14,480 --> 00:58:15,480

Ellery

976

00:58:15,480 --> 00:58:18,480

I'm so waiting to have a lack of respect

977

00:58:18,480 --> 00:58:20,480

I have an affection for children

978

00:58:20,480 --> 00:58:21,480

I love them

979

00:58:21,480 --> 00:58:23,480

there is no question about that

980

00:58:23,480 --> 00:58:25,480

but please don't dramatize

981

00:58:25,480 --> 00:58:26,480

and put up with this

982

00:58:26,480 --> 00:58:28,480

so many observations

983

00:58:28,480 --> 00:58:30,480

that it is malicious

984

00:58:30,480 --> 00:58:32,480

that it is terrible

985

00:58:32,480 --> 00:58:34,480

and one lacks respect for a child

986

00:58:34,480 --> 00:58:37,480

when a child comes in with a childish story

987

00:58:37,480 --> 00:58:39,480

and while not hurting a child

988

00:58:39,480 --> 00:58:41,480

you're nothing distrustful

989

00:58:41,480 --> 00:58:43,480

and you're nothing cruel

990

00:58:43,480 --> 00:58:45,480

and you don't accept

991

00:58:45,480 --> 00:58:47,480

an imaginative story of a child

992

00:58:47,480 --> 00:58:48,480

Ellery

993

00:58:48,480 --> 00:58:50,480

please, you're over dramatizing

994

00:58:50,480 --> 00:58:52,480

I'm not over dramatizing anything

995

00:58:52,480 --> 00:58:54,480

and it's simply the old story

996

00:58:54,480 --> 00:58:56,480

about the peasants who would report to the

997

00:58:56,480 --> 00:58:58,480

Lord of the Man of the Rock

998

00:58:58,480 --> 00:58:59,480

fell out of the sky

999

00:58:59,480 --> 00:59:01,480

and the Rock was made of metal

1000

00:59:01,480 --> 00:59:03,480

and they were laughed at because they were ignorant peasants

1001

00:59:03,480 --> 00:59:06,480

this has been told over and over and over again

1002

00:59:06,480 --> 00:59:08,480

and here the same thing happens with children

1003

00:59:08,480 --> 00:59:11,480

children see things that are actually not ever to follow

1004

00:59:11,480 --> 00:59:12,480

in what you say

1005

00:59:12,480 --> 00:59:15,480

and cause some children may have reported

1006

00:59:15,480 --> 00:59:17,480

certain stories which adults disbelieve

1007

00:59:17,480 --> 00:59:19,480

and later was checked to find out

1008

00:59:19,480 --> 00:59:20,480

that it was true

1009

00:59:20,480 --> 00:59:22,480

this does not mean that we should create

1010

00:59:22,480 --> 00:59:24,480

into everything that children say

1011

00:59:24,480 --> 00:59:27,480

and I exaggerated love and respect for children

1012

00:59:27,480 --> 00:59:28,480

or something like that

1013

00:59:28,480 --> 00:59:30,480

they're very complete human beings

1014

00:59:30,480 --> 00:59:32,480

I mean why you speak for yourself

1015

00:59:32,480 --> 00:59:33,480

I'm not a child

1016

00:59:33,480 --> 00:59:35,480

they're the one who's speaking for you

1017

00:59:35,480 --> 00:59:37,480

I would ask Frank

1018

00:59:37,480 --> 00:59:39,480

outside of the Frank

1019

00:59:39,480 --> 00:59:41,480

the long story

1020

00:59:41,480 --> 00:59:44,480

of how the story in the book about our woman

1021

00:59:44,480 --> 00:59:46,480

whose image appeared

1022

00:59:46,480 --> 00:59:49,480

sort of as a photographic image on the window

1023

00:59:49,480 --> 00:59:50,480

of a building

1024

00:59:50,480 --> 00:59:52,480

it seems it happened quite a few times

1025

00:59:52,480 --> 00:59:54,480

so could you give us a rundown on that story

1026

00:59:54,480 --> 00:59:56,480

I think I have several of them in the book

1027

00:59:56,480 --> 00:59:58,480

I happen to know about one of them

1028

00:59:58,480 --> 01:00:01,480

very well because it happened in the northern Indiana

1029

01:00:01,480 --> 01:00:03,480

which comes from my old hometown

1030

01:00:03,480 --> 01:00:04,480

down on the river

1031

01:00:04,480 --> 01:00:06,480

on the Ohio River right across from Louisville

1032

01:00:06,480 --> 01:00:08,480

this lady's name was Sharth

1033

01:00:08,480 --> 01:00:11,480

and hundreds and hundreds of people saw this thing

1034

01:00:11,480 --> 01:00:13,480

Sharthday after she died

1035

01:00:13,480 --> 01:00:16,480

her picture appeared in the glass

1036

01:00:16,480 --> 01:00:18,480

on the window of her home

1037

01:00:18,480 --> 01:00:20,480

and it was there

1038

01:00:20,480 --> 01:00:23,480

until sometime after her son arrived

1039

01:00:23,480 --> 01:00:26,480

at a considerable time after her funeral actually

1040

01:00:26,480 --> 01:00:30,480

and when the boy, the son, got there

1041

01:00:30,480 --> 01:00:33,480

of course he was puzzled by this

1042

01:00:33,480 --> 01:00:35,480

like a lot of others

1043

01:00:35,480 --> 01:00:37,480

and he rubbed his handkerchief over the thing

1044

01:00:37,480 --> 01:00:40,480

and the picture faded out

1045

01:00:40,480 --> 01:00:42,480

whether it faded out instantly or not

1046

01:00:42,480 --> 01:00:44,480

I don't know but I mean after he did this

1047

01:00:44,480 --> 01:00:46,480

within a very short time after the picture

1048

01:00:46,480 --> 01:00:47,480

had faded and was gone

1049

01:00:47,480 --> 01:00:50,480

but there were quite a few cases of this type

1050

01:00:50,480 --> 01:00:52,480

in fact there was one right down in Washington DC

1051

01:00:52,480 --> 01:00:55,480

in the book where a picture of a man

1052

01:00:55,480 --> 01:00:57,480

and an older new lady
