

1

00:00:00,000 --> 00:00:07,960

Hello my friends, this is Desmond Leslie speaking to you from London.

2

00:00:07,960 --> 00:00:09,880

I haven't prepared an address.

3

00:00:09,880 --> 00:00:10,880

I never do.

4

00:00:10,880 --> 00:00:20,880

I'm just going to talk to you about forces and as we talk we may learn something because

5

00:00:20,880 --> 00:00:25,680

it has been said that the speaker is also a listener.

6

00:00:25,680 --> 00:00:32,040

So there's no need for me to tell you people what forces are.

7

00:00:32,040 --> 00:00:33,840

We know that.

8

00:00:33,840 --> 00:00:41,680

We know that when you have sorted out the hoaxes, the illusions, the looms, the light

9

00:00:41,680 --> 00:00:51,240

inversions and a lot of perfectly normal things which at certain aspects can look like forces.

10

00:00:51,240 --> 00:00:58,360

We know that when you've got rid of all those, there is a hard residue left which the Air Force

11

00:00:58,360 --> 00:01:02,240

prefers to call unknown.

12

00:01:02,240 --> 00:01:10,040

They merely call them unknown because they look suspiciously like aircraft of a type

13

00:01:10,040 --> 00:01:13,320

thoroughly beyond our technology.

14

00:01:13,320 --> 00:01:18,440

But if they were to call them known and say they were spaceships, they would be admitting

15

00:01:18,440 --> 00:01:26,040

in effect that the Air Force is obsolete and that an alien race can come here and fly

16

00:01:26,040 --> 00:01:34,840

around our airlines and our airlines and there's nothing whatever we can do about it.

17

00:01:34,840 --> 00:01:39,600

So the authorities really are in a bit of a spot.

18

00:01:39,600 --> 00:01:42,040

I don't think we should judge them too harshly.

19

00:01:42,640 --> 00:01:51,920

Immediately they made a model as Ruppel's ExxonSpokeUSO explains that I think the time

20

00:01:51,920 --> 00:01:59,800

is coming when they will have to face up to it and make some announcement for it is made

21

00:01:59,800 --> 00:02:03,920

for them by our space visitors.

22

00:02:03,920 --> 00:02:11,000

I've talked to important people here including cabinet ministers, one of whom is a complete

23

00:02:11,120 --> 00:02:19,680

believer and he's told me their attitude is to say as little as possible until they can

24

00:02:19,680 --> 00:02:23,120

present the whole picture.

25

00:02:23,120 --> 00:02:29,400

That is not just say these are spaceships but say these are spaceships.

26

00:02:29,400 --> 00:02:31,200

This is what they have come for.

27

00:02:31,200 --> 00:02:37,080

This is who they are and this is what they plan to do.

28

00:02:37,160 --> 00:02:44,240

He told me if he was to go into Parliament and say that the force of the spaceships he

29

00:02:44,240 --> 00:02:48,600

would lose his job because half the people just simply wouldn't believe it.

30

00:02:48,600 --> 00:02:51,600

Well that of course is perfectly true.

31

00:02:51,600 --> 00:02:58,440

People have been told so many muddling things and lately they've been laughed at.

32

00:02:58,440 --> 00:03:04,400

Anyone who really believes in forces but I think people on the whole would not believe

33

00:03:04,400 --> 00:03:13,400

it but they very quickly believe it if a real lead was given and a series of statements

34

00:03:13,400 --> 00:03:14,400

made.

35

00:03:14,400 --> 00:03:19,400

However maybe it doesn't quite yet the time for that.

36

00:03:19,400 --> 00:03:30,400

After all forces in their new form that is since 1947 when we date the year one of Sorcery

37

00:03:30,400 --> 00:03:37,400

Arnold's case I'm not talking about the old forces the antique ones and those of antiquity

38

00:03:37,400 --> 00:03:44,400

but speaking in the present era starting in 1947 well the forces have only been with

39

00:03:44,400 --> 00:03:49,400

us nine years and I think in that time they've achieved a great deal.

40

00:03:49,400 --> 00:03:54,400

They have got the whole world talking about them.

41

00:03:54,400 --> 00:04:01,400

Maybe half the people still skeptical and laughing but after all in interplanetary and

42

00:04:01,400 --> 00:04:06,400

cosmic timetables what is nine years it's only a minute.

43

00:04:06,400 --> 00:04:14,400

What they've achieved so far is to give people thinking the possibility that maybe this rather

44

00:04:14,400 --> 00:04:22,400

squashy little vibe here that walks around messing up our planet is not the only living

45

00:04:22,400 --> 00:04:25,400

intelligent being in the universe.

46

00:04:25,400 --> 00:04:33,400

In fact may not be intelligent being at all compared to life forms on other more advanced

47

00:04:33,400 --> 00:04:34,400

systems.

48

00:04:34,400 --> 00:04:43,400

This thought wave as I like to call it seems to be the main thought that is being put out

49

00:04:43,400 --> 00:04:53,400

by this visitation just the idea that Earth is not alone in the men bearing globes it

50

00:04:53,400 --> 00:05:00,400

is just one of many millions and I see the idea is now being picked up and accepted by

51

00:05:00,400 --> 00:05:07,400

some astronomers who previously had rejected the idea of an extremely interesting book

52

00:05:07,400 --> 00:05:11,400

by Fred Hoyle called Frontiers of Astronomy.

53

00:05:11,400 --> 00:05:17,400

Well he is a band of a lot of other beliefs about the Earth's creation and come to the

54

00:05:17,400 --> 00:05:24,400

conclusion as have many eminent astronomers that solar systems such as ours are not a

55

00:05:24,400 --> 00:05:35,400

freak an unusual occurrence but that every sun of a particular type resembling ours has

56

00:05:35,400 --> 00:05:43,400

a solar system in fact I believe that many astronomers now think that every star some

57

00:05:43,400 --> 00:05:51,400

point in its career will have children and I don't see why not because you see really

58

00:05:51,400 --> 00:06:00,400

many things that are not found through telescopes or in the dust of ancient libraries or in the

59

00:06:00,400 --> 00:06:09,400

wonders of a modern laboratory but they are found in the simplest things all around us.

60

00:06:09,400 --> 00:06:17,400

When Zoroastra the great prophet lived and gave his wonderful teachings to the world in

61

00:06:17,400 --> 00:06:24,400

Persia the king sent for him and asked him to teach him.

62

00:06:24,400 --> 00:06:33,400

The prophet replied by sending him a grain of corn and he said this will be your teacher.

63

00:06:33,400 --> 00:06:39,400

Well the king was very angry because at first he didn't see the point at all but later when he

64

00:06:39,400 --> 00:06:51,400

calmed down he realized that the life cycle the germination that all the forces working in their

65

00:06:51,400 --> 00:06:59,400

little grain of corn were exactly the same forces as germinate and create a universe and that if

66

00:06:59,400 --> 00:07:05,400

you studied one and got to understand it you would understand the other.

67

00:07:05,400 --> 00:07:12,400

The divine law is very simple there is only one law and everything follows that pattern so if you can

68

00:07:12,400 --> 00:07:22,400

understand it in a grain of corn you'll understand it in a universe and many scientists are coming to

69

00:07:22,400 --> 00:07:32,400

understand this they're beginning to realize now that the atom and the universe itself are the same thing

70

00:07:32,400 --> 00:07:41,400

that an atom has no size or position that it is as infinite and the universe and therefore we are

71

00:07:41,400 --> 00:07:48,400

beginning to find the scientific meaning to old expression such as God is everywhere.

72

00:07:48,400 --> 00:07:57,400

It's perfectly true all matter interpenetrates all other matter performs the boundaries that made this

73

00:07:57,400 --> 00:08:04,400

object separate from that object this molecule separate from the other molecule are only appearances

74

00:08:04,400 --> 00:08:14,400

they are necessary appearances they are necessary for the great purpose of the universe and that purpose

75

00:08:14,400 --> 00:08:24,400

in its simplest form is simply education. You might say that the material universe when it comes into being

76

00:08:24,400 --> 00:08:36,400

through various processes as it might like to say crystallizes or dimsums from pure spirit when it arrives it is

77

00:08:36,400 --> 00:08:45,400

unconscious it is life but unconscious life and the whole purpose of the great universal period appears to be the

78

00:08:45,400 --> 00:08:59,400

awakening of that in unconscious life into conscious life and that is achieved by forms changes motions and all the other

79

00:08:59,400 --> 00:09:08,400

processes where beginning to come aware of now that we are so have reached the first conscious stage known as men

80

00:09:09,400 --> 00:09:18,400

well if that is a universal proposition which obviously must be here it must be going on everywhere

81

00:09:18,400 --> 00:09:27,400

not only in the myriad worlds of our own planet of our own planet the great world we live in and the little microscopic

82

00:09:27,400 --> 00:09:36,400

worlds the smaller creations live in and the microscopic worlds of atoms and molecules but on every other planet

83

00:09:36,400 --> 00:09:45,400

every star in fact I'd go further I would say it is going on in space itself because we know now

that is no such thing

84

00:09:45,400 --> 00:10:00,400

as space that is near emptiness there is no such thing as nothing no thing every dot every cubic millimeter of space is filled with

85

00:10:00,400 --> 00:10:11,400

something not necessarily the appearance we call physical matter but let's say energy which is a word we use for an

86

00:10:11,400 --> 00:10:20,400

unknown substance which we know exists because we've seen its work its results and that energy again is only part of the aspect of a

87

00:10:20,400 --> 00:10:32,400

universal or cosmic force which is again the manifest aspect of the great being we call God

88

00:10:33,400 --> 00:10:42,400

all right then here's our little grain of corn that Zoroastra gave to the king well there are millions of grains of corn

89

00:10:42,400 --> 00:10:52,400

just as there are millions of planets scattered around on them life must be evolving on some it probably hasn't yet

90

00:10:52,400 --> 00:11:03,400

really started on others it may even have finished on the planet lies empty such as the twin planet of the solar system the moon

91

00:11:03,400 --> 00:11:14,400

because I correct myself there the moon is probably not empty there are definitely things going on on it but I feel the original moon races

92

00:11:14,400 --> 00:11:25,400

have left it long ago and this old shell of a world is now being used for something else maybe one day after that it will be used for the same

93

00:11:25,400 --> 00:11:38,400

another great teacher the universal secrets of the sea the old days a teacher used to make his class set at the beach and watched the tide

94

00:11:38,400 --> 00:11:53,400

and after some while he'd asked them what they learned well it will see you gain have a perfect model of the universe the great ocean of space is here represented by the great ocean of water

95

00:11:53,400 --> 00:12:08,400

you have a great universal and flow in the tide itself there is a time when there is water manifest on the beach there is a time when that water has withdrawn there is no water we would say there is nothing

96

00:12:09,400 --> 00:12:20,400

within that tide there are many waves within the waves there are many little ripples of head is and within those head is even smaller ones

97

00:12:20,400 --> 00:12:28,400

well now one of the smallest ripples of one of the smaller waves might correspond to our civilization

98

00:12:28,400 --> 00:12:50,400

it is merely an appearance a shaping of the one substance it takes its form changes the wave breaks and withdraws another wave takes its place but the one substance of life itself is continual, changeless and eternal

99

00:12:50,400 --> 00:13:04,400

the waves are gaining wave experience by their constant motion just as we are gaining much more rapid and intellectual experience by the constant motion of our lives

100

00:13:05,400 --> 00:13:22,400

trials joys sorrows all of which are equally good that is the point the Lord Buddha made so clear that one should neither resist nor seek after inordinate joy or sorrows they come to us and each

one has a theme to teach us

101

00:13:22,400 --> 00:13:29,400

you cannot say either one is good or bad they both can be used as part of our education

102

00:13:29,400 --> 00:13:48,400

well I'm not going to talk too much about our planet we know quite a lot about it but you see if these universal processes are universal and the study of astronomy shows they are the same motions going on in other galaxies as in this one

103

00:13:49,400 --> 00:14:03,400

and the universe is a universe there is one one substance one being one thing similar things must be going on all throughout it

104

00:14:03,400 --> 00:14:24,400

it's like a fast school it is the house of many mansions that Jesus Christ referred to like a fast school or kindergarten classes junior classes senior classes and then there are even graduates who have passed out of the school and sometimes return as teachers

105

00:14:25,400 --> 00:14:40,400

well it's my belief may not be true I don't know but some people follow it but a lot of our visitors coming now are graduates of this junior class this first school

106

00:14:40,400 --> 00:15:09,400

returning voluntarily to help us when the time comes to try and prevent us making the same mistakes that they may have made and to be with us for a long time now so that when we are ready when we have raised our consciousness to accept them they will be able to accept us

107

00:15:09,400 --> 00:15:22,400

you see you've got an analogy really in the colonization of the black races by the white there you've got a perfect example of how not to go about it

108

00:15:22,400 --> 00:15:45,400

the white races which were several thousand years in advance of the black whizzed in with run bibles beer gun powder diseases all modern improvements and tried to force our type of life and culture apart people probably went here ready for it

109

00:15:45,400 --> 00:16:01,400

and also most of this was not done with good intention it was done to obtain a nice cheap source of labor and to exploit for our own profit anything these underdeveloped countries had to offer

110

00:16:01,400 --> 00:16:22,400

well we're now reaping the karmic harvest of that South Africa is a good example and so are the southern states where awkward situation has been created by the ill treatment of a lesser developed race by a race which should have known better

111

00:16:22,400 --> 00:16:39,400

I know I can't generalize the whites do a great deal of good and probably helped many colored

people a great deal but the main way the thing was conducted was haphazard selfish and very unwise

112

00:16:39,400 --> 00:16:54,400

now our friends we say about them why don't they land here put our world right you see that's just what we tried to do we rushed off that there's a dial-up but from right that's a lie but the result

113

00:16:54,400 --> 00:17:15,400

they could not come in now and impose a culture several times the other head of our other partner there would be the height of folly and they would never do it but in great universal law there is a modern law which might be set up to say this

114

00:17:15,400 --> 00:17:28,400

thou shalt not interfere thou shalt mind thy own business thou shalt only help when help is asked for

115

00:17:28,400 --> 00:17:56,400

you see every planet like every class in every school has its own syllabus every country has its own syllabus the lessons being learned in one land or incarnating so does not quite the same as that in other land therefore if you try and interfere and impose a foreign culture or try and standardize a certain belief that may people accept it

116

00:17:56,400 --> 00:18:09,400

when you're just interfering with the creators program you're rarely could it could it say I know better than God I've such a fine fellow I'm going to put these fellows right

117

00:18:09,400 --> 00:18:38,400

well there is a mark of a very junior soul and all teaching has to be offered with the utmost circumspection but most it can only be offered for people's consideration if they are ready for it or if their particular teaching is what they require they will accept it because the high soul knows exactly what its personality should take

118

00:18:39,400 --> 00:19:05,400

it will guide it and this what I'm speaking about now maybe unacceptable to some who listen in which case goodness sake don't bother with it if the time comes but this kind of talking is of use to you you will receive it so let us sum up then what our friends have done well they have made themselves know

119

00:19:05,400 --> 00:19:24,400

they have not yet been universally accepted despite a great deal of evidence now people have said why don't they did one absolute foolproof concrete case such as landing in a public park or in the middle of a city and putting their ship on show

120

00:19:25,400 --> 00:19:48,400

well let's consider a minute would that be why first of all they would be forcing us to believe something ahead of time they would be forcing certain knowledge on us that is the knowledge of more evolved of other races other parts of the universe that would be unwise first of all

121

00:19:49,400 --> 00:20:09,400

second of course would be a major panic and the false basement would possibly torn them from them thirdly if they did it in one country they would have to do it in every other country because if a falter landed in America publicly Russia would panic and say we must have it too or we'll fight you

122

00:20:10,400 --> 00:20:30,400

maybe they wouldn't say it in that way but immediately the military advantage would be foremost in everyone's mind and people would be frightened and you'll never so much tension as it is but a thing like that would increase the tension and perhaps to facilitate the one thing our friends wish to avoid

123

00:20:31,400 --> 00:20:43,400

to do it the other way to land in every capital city simultaneously would probably convince some of the governments of this world that a major invasion has taken place from space

124

00:20:43,400 --> 00:21:01,400

no we're just not ready for that you know I believe the same rules apply to this as applied to the so called miracle the great vision the wonderful things that were done to demonstrate the existence of the divine power

125

00:21:02,400 --> 00:21:17,400

there was always a net outclaws there was no miracle nobody had to accept it nobody had to see the same vision we say of angels exist why don't they appear or why should they

126

00:21:18,400 --> 00:21:35,400

I mean who we to think that the whole purpose of the universe is to make us accept it and then the Duke Wellington meeting a young lady in the park in London she rushed up to him said it's a happy day for me Duke I find I can accept the universe

127

00:21:36,400 --> 00:21:41,400

you the only you've looked at her stonely and replied madam you damn well better

128

00:21:42,400 --> 00:21:50,400

we do see doesn't really matter damn whether we believe in this or that or the other or whether we don't believe in anything

129

00:21:50,400 --> 00:22:05,400

God is not dependent on our kind acceptance of the program of the infinite wonders around us if we don't choose to observe them and accept them then it's our loss

130

00:22:05,400 --> 00:22:21,400

everybody else is going to be a loser this process of life here takes place many many times we come back again and again and again we have a lot to learn and one life is really just like a day at school

131

00:22:21,400 --> 00:22:30,400

well there's a limit to what you can learn and nobody's going to force the answer on anybody it hasn't done that way it's just like a class thing

132

00:22:30,400 --> 00:22:37,400

well teacher look if you'd give us the examination results it'll be so much easier we wouldn't have to work so hard this term

133

00:22:37,400 --> 00:22:56,400

for what teacher in his senses would listen to that he'd be doing them a disservice if our friends charged in here open their secrets gave us their power of form as they are of constitution their laws government their systems that dare it all is

134

00:22:57,400 --> 00:23:10,400

right we might even accept it we might even apply it but you surely notice that nothing is really satisfactory that you haven't worked and sweat it for and found out yourself

135

00:23:10,400 --> 00:23:26,400

three gifts on a plate are all very well at certain times and in the limited quantities but a big thing cannot just be given away free because it backs us it achieves the exact opposite result of what was hoped for

136

00:23:26,400 --> 00:23:43,400

just a television practically the death blow to any intelligent conversation or family life because here you have a huge entertainment potted entertainment coming out of a pipe practically and you can have it whenever you want it's no fun anymore

137

00:23:43,400 --> 00:24:12,400

not nearly so much fun as the other days when one made one's own entertainment one got out of it little family concerts one did things one's self who'd be here again we're getting a job because the rules are the same thing is actually doing things by self we're not just like plants and cabbages which sit there in the front and when the sun shines and the right amount of moisture they blossom and if it isn't they don't we are more active than that

138

00:24:13,400 --> 00:24:42,400

yes there isn't sun for us we can go out and find it we are on the move the life principle is so powerful in us that we are rushing out doing things for ourselves finding out so all science culture art is a splendid thing even though we have to do it the hard way for every ten turnings we take nine a blind alley it's alright we make slow but certain progress that way

139

00:24:42,400 --> 00:24:51,400

that one scientist was upgraded was saying if the forces landed told us their secrets I shouldn't want to listen to them

140

00:24:51,400 --> 00:25:00,400

well in a way he was right what he meant is that they would take away all the work set for us

141

00:25:00,400 --> 00:25:08,400

now I think they're going to give us hints they may even give us more than that but let's not be impatient

142

00:25:08,400 --> 00:25:17,400

this thing's only been going on nine years it's probably got to go on for another ninety or another nine hundred years I don't know

143

00:25:17,400 --> 00:25:28,400

the speed at which knowledge is given to us will be the speed at which we prepare ourselves to

receive it
