

1

00:00:00,000 --> 00:00:29,760

Let's tape

2

00:00:29,760 --> 00:00:38,760

us for the benefit of those who may not be acquainted with the earlier background of UFO research or so-called flying saucers.

3

00:00:38,760 --> 00:00:47,760

This lecture on the introduction to flying saucers will be presented by Dr. A. G. Dittmar of New York.

4

00:00:47,760 --> 00:00:50,760

Ladies and gentlemen, Dr. Dittmar.

5

00:00:51,760 --> 00:01:00,760

This talk is intended to be an introduction to the study of flying saucers.

6

00:01:00,760 --> 00:01:09,760

There are many who might be interested in this subject but have not had the information at their fingertips.

7

00:01:09,760 --> 00:01:16,760

And so we will try to give you a background so that you might enjoy future tapes on this subject.

8

00:01:16,760 --> 00:01:27,760

It all happened back in 1947 when Kenneth Arnold, a private pilot, was flying in the state of Washington.

9

00:01:27,760 --> 00:01:39,760

All at once in the vicinity of Mount Rainier, he saw a stream of very odd shaped objects doing odd maneuvers in and about the mountain peaks.

10

00:01:39,760 --> 00:01:44,760

They were about 25 miles away and he watched them closely.

11

00:01:44,760 --> 00:01:53,760

Upon landing, he was interviewed by the press and the reporter asked him, what did they look like?

12

00:01:53,760 --> 00:01:57,760

And he said, they looked like saucers.

13

00:01:57,760 --> 00:02:03,760

And at that point, the word flying saucer was coined by that pressman.

14

00:02:03,760 --> 00:02:05,760

The name has stuck.

15

00:02:05,760 --> 00:02:12,760

It probably is sort of an unfortunate name because it really doesn't describe the things that we see in the sky.

16

00:02:12,760 --> 00:02:16,760

Some of them do look like saucers, but some of them do not.

17

00:02:16,760 --> 00:02:24,760

From that time on, there was a steady influx of reports of strange objects seen in the sky.

18

00:02:24,760 --> 00:02:34,760

They were not confined to the western part of the United States or the United States itself, but they came from all over the world by the thousands.

19

00:02:34,760 --> 00:02:39,760

There was a lot of comment and speculation throughout the world.

20

00:02:39,760 --> 00:02:50,760

The press carried many articles on these sightings and it became quite a mystery and people were wondering what they were, where they came from, why they were here.

21

00:02:50,760 --> 00:02:56,760

Some thought they were secret weapons of the United States. Some thought they came from other countries.

22

00:02:56,760 --> 00:03:00,760

But no one seemed to be able to say exactly what they were.

23

00:03:00,760 --> 00:03:11,760

Major Donald Keyhole, retired major of the Marines, decided that he would really investigate the matter to the fullest extent.

24

00:03:11,760 --> 00:03:16,760

Now, many of these sightings were made by pilots of the Air Force.

25

00:03:16,760 --> 00:03:23,760

He was able to obtain 41 of these reports from the Air Force.

26

00:03:23,760 --> 00:03:30,760

They were released by the Air Force and he used these reports as a basis for one of his books.

27

00:03:30,760 --> 00:03:38,760

He has written three books, the first of which was Flying Saucers Are Real.

28

00:03:38,760 --> 00:03:49,760

His second book, Flying Saucers from Outer Space, is where we find these 41 documented sightings from the Air Force.

29

00:03:49,760 --> 00:03:56,760

All at once during his investigation, a censorship closed in.

30

00:03:56,760 --> 00:04:05,760

No more reports were being released by the Air Force. A great secrecy veiled the whole subject.

31

00:04:05,760 --> 00:04:10,760

It wasn't long before people began to want to know more.

32

00:04:10,760 --> 00:04:18,760

And with this sudden censorship, they decided to do a lot of investigation for themselves.

33

00:04:18,760 --> 00:04:27,760

And so private investigation groups started to spring up all around the country and in other parts of the world too.

34

00:04:27,760 --> 00:04:31,760

And the sightings were still reported by civilians.

35

00:04:31,760 --> 00:04:42,760

At the same time, the Air Force kept close track of those that were reported by the pilots of the Air Force.

36

00:04:42,760 --> 00:04:53,760

The censorship became so great that Frank Edwards, a noted commentator, who spent a great deal of time commenting on the sighting of Flying Saucers,

37

00:04:53,760 --> 00:05:02,760

was released from his position as commentator and he was no longer able to report to the people about Flying Saucers.

38

00:05:02,760 --> 00:05:13,760

Flying Saucers are able to maneuver in very, very strange ways, ways in which ordinary aircraft are unable to maneuver.

39

00:05:13,760 --> 00:05:19,760

For example, they are able to hover, stand in one place for any length of time.

40

00:05:19,760 --> 00:05:30,760

Then they are able to accelerate at terrific speeds, right from a standstill to an immediate speed of thousands of miles an hour.

41

00:05:30,760 --> 00:05:32,760

And they've been tracked on radar.

42

00:05:32,760 --> 00:05:39,760

They seem to go five, six, seven, ten thousand miles an hour and more.

43

00:05:39,760 --> 00:05:47,760

Speeds which certainly are not even are vaguely approached by all known aircraft.

44

00:05:47,760 --> 00:05:53,760

Not only are they able to accelerate at these speeds, but they're able to come to an immediate standstill.

45

00:05:53,760 --> 00:05:57,760

They're able to change their direction instantaneously.

46

00:05:57,760 --> 00:06:02,760

Shoot off at a right angle, up, down, left or right.

47

00:06:02,760 --> 00:06:06,760

They do look like saucers in some instances.

48

00:06:06,760 --> 00:06:09,760

Some of them are cigar shaped.

49

00:06:09,760 --> 00:06:16,760

Those are the two main shapes of these unidentified flying objects.

50

00:06:16,760 --> 00:06:20,760

UFOs, unidentified flying objects.

51

00:06:20,760 --> 00:06:27,760

That is a word that has been coined or a group of words to describe these things we see in the sky.

52

00:06:27,760 --> 00:06:31,760

It seems to be better than a term flying saucer.

53

00:06:31,760 --> 00:06:45,760

Now, speculation has been made of how anyone could possibly survive these terrific accelerations and decelerations in change of direction.

54

00:06:45,760 --> 00:07:00,760

In one book I have here, *Space, Gravity and the Flying Saucer* by Leonard Cramp tells us about the theory of anti-gravitational propulsion.

55

00:07:00,760 --> 00:07:05,760

These ships, he thinks, set up their own gravity.

56

00:07:05,760 --> 00:07:11,760

Everything in that ship are occupants, machinery.

57

00:07:11,760 --> 00:07:19,760

All things that are in the ship are subject only to the gravitational field that the ship is able to produce.

58

00:07:19,760 --> 00:07:29,760

It is not affected at all by the gravity of the planet, which it is near.

59

00:07:29,760 --> 00:07:32,760

They do fly around silently.

60

00:07:32,760 --> 00:07:41,760

In most cases, no sound is heard at all during these sightings of the UFOs.

61

00:07:41,760 --> 00:07:44,760

But where do they come from?

62

00:07:44,760 --> 00:07:51,760

Some people have said they must be secret weapons of the United States.

63

00:07:51,760 --> 00:07:57,760

Well, many of these things have been sighted right in the commercial airlines.

64

00:07:57,760 --> 00:08:04,760

They have been seen by the pilots of these commercial airliners, and they have been seen by the passengers.

65

00:08:04,760 --> 00:08:21,760

Now, the United States certainly would not be testing its aircraft, its flying saucer, in the commercial airlines jeopardizing the safety of the people who are riding.

66

00:08:21,760 --> 00:08:24,760

So that eliminates the U.S.

67

00:08:24,760 --> 00:08:30,760

Well, are they coming from a foreign power, Russia, for example?

68

00:08:30,760 --> 00:08:42,760

Of all the flying saucer investigation groups, believe that this is not the case, because these things have been seen in every country of the world.

69

00:08:42,760 --> 00:08:51,760

And certainly, a foreign power would not risk a secret device over all areas.

70

00:08:51,760 --> 00:08:58,760

For the fear that one of these might crash and then the secret would be lost.

71

00:08:58,760 --> 00:09:03,760

So we certainly can eliminate foreign powers.

72

00:09:03,760 --> 00:09:08,760

That leaves very little on this earth.

73

00:09:08,760 --> 00:09:19,760

They must be coming, as Donald Keyhole intimates in his second book, Flying Saucers from outer space, that they must be coming from other places.

74

00:09:19,760 --> 00:09:24,760

Where could that be? Well, it must be from other planets.

75

00:09:24,760 --> 00:09:28,760

Well, this gives us a lot of food for thought.

76

00:09:28,760 --> 00:09:33,760

I'm not speaking to you as an authority on flying saucers, because I am not.

77

00:09:33,760 --> 00:09:42,760

What I am doing is trying to review what I have been able to read and learn over this period of study.

78

00:09:42,760 --> 00:09:54,760

And bring you more or less up to date on it, so that you will be able to enjoy future tapes and some of the literature on the subject.

79

00:09:54,760 --> 00:10:02,760

It isn't inconceivable that there can be life on other planets in our own solar system.

80

00:10:02,760 --> 00:10:15,760

And why would it be inconceivable with the millions of possibilities of other solar systems in this universe that there might not be many other planets with life upon them?

81

00:10:15,760 --> 00:10:29,760

If we can suppose that, then it also must be supposed that of the millions of other planets which are inhabited,

82

00:10:29,760 --> 00:10:35,760

that we would not be the most advanced civilization.

83

00:10:35,760 --> 00:10:46,760

We at best could only expect to be about average. That would mean that there are many civilizations farther advanced than we are.

84

00:10:46,760 --> 00:10:58,760

And these civilizations could then have been able to have conquered space and are able to perform interplanetary flights.

85

00:10:58,760 --> 00:11:10,760

That sounds quite logical to me and also to these people who are really studying the flying saucer problem.

86

00:11:10,760 --> 00:11:17,760

Just look at ourselves. We have advanced terrifically in the past 50 years.

87

00:11:17,760 --> 00:11:23,760

50 years ago some of the things that we see today couldn't be even dreamt of.

88

00:11:23,760 --> 00:11:30,760

But we have them today. What will another 50, 200, 300 years be?

89

00:11:30,760 --> 00:11:41,760

Right now we are attempting to conquer interplanetary flight. We're working with rockets.

90

00:11:41,760 --> 00:11:53,760

Rockets seem to be a dead end because of the terrific amount of fuel that has to be carried and used.

91

00:11:53,760 --> 00:11:59,760

But at least we're trying. We're going to send up a satellite.

92

00:11:59,760 --> 00:12:06,760

And with the idea of reaching the moon and then on beyond to the other planets.

93

00:12:06,760 --> 00:12:14,760

But we're thinking of those things. Certainly life on other planets are thinking of the same thing.

94

00:12:14,760 --> 00:12:24,760

So most flying saucer investigation societies and groups believe that they are coming from outer space.

95

00:12:24,760 --> 00:12:30,760

The question then always comes up. Why have they not landed?

96

00:12:30,760 --> 00:12:39,760

Well there are reports that flying saucers have landed. We have books about that.

97

00:12:39,760 --> 00:12:53,760

We have the story of Truman Berthram who tells about 11 personal contacts that he made with people from a flying saucer.

98

00:12:53,760 --> 00:13:00,760

Then we have Daniel Fry, an engineer out there at White Sands.

99

00:13:00,760 --> 00:13:16,760

He saw a flying saucer on the desert and as he investigated it he heard a voice suggest that he might get in and take a trip.

100

00:13:16,760 --> 00:13:26,760

It also said that there was no one aboard but that he was talking to him by radio that this was a remotely controlled ship.

101

00:13:26,760 --> 00:13:32,760

And that the mother ship was about 600 miles above him.

102

00:13:32,760 --> 00:13:41,760

Well Daniel Fry tells us that he did go aboard and he flew from White Sands to New York and back in 20 minutes.

103

00:13:41,760 --> 00:13:47,760

Well by this time you are really being shocked.

104

00:13:47,760 --> 00:13:53,760

I know this information shocked me the first time I heard it.

105

00:13:53,760 --> 00:13:59,760

But I've been giving it careful thought for a long time now.

106

00:13:59,760 --> 00:14:10,760

And as you do that using this material as food for thought you too will see that these things could be possible and probably are.

107

00:14:10,760 --> 00:14:19,760

Cedric Allingham tells about a personal contact he made over there in Scotland.

108

00:14:19,760 --> 00:14:28,760

There are many others that have reported personal sightings and personal contacts I should say.

109

00:14:28,760 --> 00:14:35,760

All of these personal contacts have been made in remote places.

110

00:14:35,760 --> 00:14:40,760

And as we talk to people about them the question always comes up.

111

00:14:40,760 --> 00:14:49,760

Well why did they just present themselves to one person at a time or group of small group of persons.

112

00:14:49,760 --> 00:14:54,760

Well let's reverse the situation.

113

00:14:54,760 --> 00:15:00,760

What would we do if we were able to conquer space and reach a nearby planet.

114

00:15:00,760 --> 00:15:03,760

What would we do first.

115

00:15:03,760 --> 00:15:07,760

First thing we would do we would get the lay of the land.

116

00:15:07,760 --> 00:15:11,760

We would try to map it out.

117

00:15:11,760 --> 00:15:16,760

Learn the geography find out where things were.

118

00:15:16,760 --> 00:15:21,760

Then we probably would like to learn something about the people.

119

00:15:21,760 --> 00:15:32,760

We wouldn't land in the outskirts or in the center of a large city where a big group would immediately gather.

120

00:15:32,760 --> 00:15:45,760

Probably take us into custody put us in jail steal our ship tear it apart find out what makes it click.

121

00:15:45,760 --> 00:15:49,760

That would be a risk and we wouldn't do it.

122

00:15:49,760 --> 00:15:58,760

Wouldn't that happen if a flying saucer landed say in Central Park New York City.

123

00:15:58,760 --> 00:16:03,760

There would be a terrific gathering the police would be there the.

124

00:16:03,760 --> 00:16:06,760

The FBI.

125

00:16:06,760 --> 00:16:10,760

They'd be whisked off or questioning.

126

00:16:10,760 --> 00:16:16,760

The government would check over the ship probably take it apart.

127

00:16:16,760 --> 00:16:18,760

Find out what made it go.

128

00:16:18,760 --> 00:16:27,760

So that seems to be the reason why there have no have been no mass landings and mass contacts as yet.

129

00:16:27,760 --> 00:16:33,760

That may come when they find that the people are ready for it.

130

00:16:33,760 --> 00:16:41,760

In the instances where there have been personal contacts made such as Georgia dam skis.

131

00:16:41,760 --> 00:16:51,760

He tells us that the people have sent messages through him to be sent back to the people to prepare.

132

00:16:51,760 --> 00:16:58,760

The earth for these mass contacts and mass landings.

133

00:16:58,760 --> 00:17:03,760

They tell him that they will not harm us.

134

00:17:03,760 --> 00:17:06,760

That they are friendly.

135

00:17:06,760 --> 00:17:13,760

That they have long since given up the idea of war they have gone way behind and beyond that.

136

00:17:13,760 --> 00:17:21,760

They only dimly recollect times when there were wars on their planets.

137

00:17:21,760 --> 00:17:25,760

People there are living in perfect harmony.

138

00:17:25,760 --> 00:17:33,760

It is only the earth that has still not progressed beyond the stage where it does wage wars.

139

00:17:33,760 --> 00:17:36,760

George Williamson.

140

00:17:36,760 --> 00:17:42,760

Who was present at one of the dam skis contacts his first one.

141

00:17:42,760 --> 00:17:55,760

He tells in a book how he and a group have made contacts by radio with spacecraft.

142

00:17:55,760 --> 00:18:03,760

At the end of this talk I am going to summarize all of the literature.

143

00:18:03,760 --> 00:18:12,760

You will be able to have it all in one place and be able to look into it as you see fit.

144

00:18:12,760 --> 00:18:16,760

We have a new book now.

145

00:18:16,760 --> 00:18:22,760

It was published in December 1955 by Donald Keyhole.

146

00:18:22,760 --> 00:18:27,760

It is called The Flying Saucer Conspiracy.

147

00:18:27,760 --> 00:18:30,760

This is one of the best books.

148

00:18:30,760 --> 00:18:34,760

Probably it is not the one you should start reading first.

149

00:18:34,760 --> 00:18:37,760

But it is one of the best books on the subject.

150

00:18:37,760 --> 00:18:43,760

He carries right through with having proof of everything that he states.

151

00:18:43,760 --> 00:18:49,760

He tells us of orders to the Air Force personnel to keep everything secret.

152

00:18:49,760 --> 00:18:54,760

Not to pass out any information on their sightings.

153

00:18:55,760 --> 00:19:00,760

He also thinks he knows why all of this has been kept secret.

154

00:19:00,760 --> 00:19:04,760

And he tells about it in his book.

155

00:19:04,760 --> 00:19:12,760

We are not alone in this flying saucer investigation.

156

00:19:12,760 --> 00:19:19,760

I have noticed that there are three distinct groups in regard to flying saucers.

157

00:19:19,760 --> 00:19:23,760

The first group is that which says, well there can't be anything to it.

158

00:19:23,760 --> 00:19:27,760

It is just science fiction. Forget it.

159

00:19:27,760 --> 00:19:34,760

Well I was once that way until I heard a few more things.

160

00:19:34,760 --> 00:19:37,760

I picked up a little interest.

161

00:19:37,760 --> 00:19:39,760

And there is the second group.

162

00:19:39,760 --> 00:19:44,760

The group that says there can be something there. Why not?

163

00:19:44,760 --> 00:19:47,760

I don't know anything about it.

164

00:19:47,760 --> 00:19:50,760

But I would like to hear about it.

165

00:19:50,760 --> 00:19:56,760

Well many of the listeners to this tape will be in that category.

166

00:19:56,760 --> 00:20:02,760

And then after they have studied this for a considerable length of time.

167

00:20:02,760 --> 00:20:06,760

Read the books, listen to tapes, listen to interviews.

168

00:20:06,760 --> 00:20:15,760

They come to this third feeling about flying saucers that they know that they are real.

169

00:20:15,760 --> 00:20:19,760

And that they are coming from outer space.

170

00:20:19,760 --> 00:20:29,760

I have been quite surprised at the type of person who has been interested in this.

171

00:20:29,760 --> 00:20:36,760

I find many people with good educations, good educational backgrounds.

172

00:20:36,760 --> 00:20:42,760

Who believe that there are flying saucers and that they are coming from outer space.

173

00:20:42,760 --> 00:20:51,760

Among them are clergymen, scientists, astronomers, teachers, principals, professional men.

174

00:20:51,760 --> 00:20:58,760

And so I hope that this is going to provide food for thought.

175

00:20:58,760 --> 00:21:01,760

So that you will not pass it over as well.

176

00:21:01,760 --> 00:21:06,760

Nothing but science fiction, all hoaxes.

177

00:21:06,760 --> 00:21:11,760

Inside the spaceships is George Adamsky's second book.

178

00:21:11,760 --> 00:21:16,760

It probably is the extreme in the flying saucer field.

179

00:21:16,760 --> 00:21:23,760

He tells us in this book about having made personal contacts.

180

00:21:23,760 --> 00:21:33,760

How he has been aboard the ships and how he has actually taken flights in them.

181

00:21:33,760 --> 00:21:40,760

A moment or two ago I told you there were two main classifications of flying saucers.

182

00:21:40,760 --> 00:21:45,760

The first is the saucer shape one, the scout ship.

183

00:21:45,760 --> 00:21:51,760

And the second is the cigar shaped mothership.

184

00:21:51,760 --> 00:21:58,760

The cigar shaped mothership is the interplanetary ship, the one that actually does the flying.

185

00:21:58,760 --> 00:22:04,760

Such as our, comparing it with our aircraft carrier.

186

00:22:04,760 --> 00:22:10,760

The scout ships are small ships that are carried aboard the mothership.

187

00:22:10,760 --> 00:22:17,760

And as the mothership nears a planet, it sends out these scout ships.

188

00:22:17,760 --> 00:22:22,760

And these are the scout ships that we see as flying saucers.

189

00:22:22,760 --> 00:22:28,760

And which reports have been made as having landed.

190

00:22:28,760 --> 00:22:34,760

These motherships may be two or three thousand feet long.

191

00:22:34,760 --> 00:22:43,760

The scout ships range probably from thirty feet to a hundred feet in diameter according to the reports.

192

00:22:43,760 --> 00:22:54,760

In Mr. Odafsky's book, Inside the Space Ships, he has diagrams of the scout ships from the various planets.

193

00:22:54,760 --> 00:23:02,760

Venus, Mars and Saturn and also of the motherships.

194

00:23:02,760 --> 00:23:10,760

Another interesting book which more or less tries to hold the thing together.

195

00:23:10,760 --> 00:23:17,760

It's called Flying Saucers and Common Sense by Waveney Geirvan.

196

00:23:17,760 --> 00:23:19,760

This is published in England.

197

00:23:19,760 --> 00:23:28,760

Flying Saucers and Common Sense, published by Frederick Muller's Limited London, England.

198

00:23:28,760 --> 00:23:31,760

Flying Saucers and Common Sense.

199

00:23:31,760 --> 00:23:34,760

I strongly urge you to read that book.

200

00:23:34,760 --> 00:23:49,760

Flying Saucers, Flying Saucers from Mars by Cedric Allingham, is an account of seeing a flying saucer in the sky and it landing.

201

00:23:49,760 --> 00:23:54,760

And the attempt to converse with the occupant.

202

00:23:54,760 --> 00:23:58,760

All of these books have photographs.

203

00:23:58,760 --> 00:24:06,760

Inside the space ships has many photographs which George Odafsky tells us he has taken with his six inch telescope.

204

00:24:06,760 --> 00:24:08,760

It's a reflector.

205

00:24:08,760 --> 00:24:22,760

George Allingham had a common camera and he took pictures, close up pictures of the saucer and he has one which he claims to be a Martian, a person.

206

00:24:22,760 --> 00:24:25,760

There are other books which are very good.

207

00:24:25,760 --> 00:24:33,760

We have one by Jessup, The Case for the UFO.

208

00:24:33,760 --> 00:24:36,760

MK Jessup.

209

00:24:36,760 --> 00:24:38,760

I strongly urge the reading of that one.

210

00:24:38,760 --> 00:24:44,760

It also can be obtained in a pocket edition.

211

00:24:44,760 --> 00:24:50,760

At this point, let's go through the recommended book list and recommended periodicals.

212

00:24:50,760 --> 00:24:54,760

First of all, the Donald E. Keyhole books.

213

00:24:54,760 --> 00:25:03,760

First one, Flying Saucers are real which may be unobtainable at the moment except in the library because it is out of print.

214

00:25:03,760 --> 00:25:12,760

However, Flying Saucers from Outer Space, the second book contains most of the same material and enlarges upon it.

215

00:25:12,760 --> 00:25:18,760

Then we have the Wilkins book, Flying Saucers on the Attack.

216

00:25:18,760 --> 00:25:23,760

We have The Coming of the Saucers by Arnold and Palmer.

217

00:25:23,760 --> 00:25:30,760

This is the same Kenneth Arnold who made that historic sighting way back there in the early days.

218

00:25:30,760 --> 00:25:38,760

Then Leonard G. Cramp, C-R-A-M-P, Space, Gravity and the Flying Saucer.

219

00:25:38,760 --> 00:25:44,760

MK Jessup, J-E-S-S-U-P, The Case for the UFO.

220

00:25:44,760 --> 00:25:51,760

Flying Saucers and Carmen Sents by Waveney Gavan, The English Book.

221

00:25:51,760 --> 00:25:59,760

And then Leslie Anna Dapsky, Desmond Leslie is a scientist in England. They published the book together.

222

00:25:59,760 --> 00:26:03,760

Flying Saucers have landed.

223

00:26:03,760 --> 00:26:09,760

And Truman Bethram, B-E-T-H-U-R-U-M.

224

00:26:09,760 --> 00:26:18,760

The person who made the 11 personal contacts, his book is Abort a Flying Saucer.

225

00:26:18,760 --> 00:26:26,760

And Daniel W. Frey, F-R-Y, The White Sands Incident.

226

00:26:26,760 --> 00:26:33,760

Then the Saucers speak by Williamson and Bailey, the radio contact.

227

00:26:33,760 --> 00:26:38,760

And the Damsky's new book, Inside the Spaceships.

228

00:26:38,760 --> 00:26:47,760

And Cedric Allingham, A-L-L-I-N-G-H-A-M, Flying Saucer from Mars.

229

00:26:47,760 --> 00:26:55,760

And of course, don't forget the new Keyhole book, The Flying Saucer Conspiracy.

230

00:26:55,760 --> 00:26:58,760

And now the periodicals first.

231

00:26:58,760 --> 00:27:07,760

Cryfo C-R-I-F-O, Orbit O-R-B-I-T, published by Leonard H. Stringfield.

232

00:27:07,760 --> 00:27:15,760

7017, Britain Avenue, Cincinnati 27, Ohio.

233

00:27:15,760 --> 00:27:23,760

And Flying Saucers, International Saucers, Post Office Box 35-034,

234

00:27:23,760 --> 00:27:27,760

Los Angeles 35, California.

235

00:27:27,760 --> 00:27:32,760

And the Proceedings of the College of Universal Wisdom,

236

00:27:32,760 --> 00:27:42,760

published by George Van Tassel, Post Office Box 419, Yucca Valley, California.

237

00:27:42,760 --> 00:27:52,760

And Saucers with periods after each letter, Post Office Box 163, Fort Lee, New Jersey.

238

00:27:53,760 --> 00:28:08,760

And the Bolton of the T-Lonnic Research Group, T-E-L-O-N-I-C, Post Office Box 1654, Prescott, Arizona.

239

00:28:08,760 --> 00:28:14,760

This is George Williamson's group, published quarterly.

240

00:28:14,760 --> 00:28:25,760

And finally, the largest of them all, the Saucerian, S-A-U-C-E-R-I-A-N, published by Gray Barker,

241

00:28:25,760 --> 00:28:31,760

Box 2228, Clarksburg, West Virginia.

242

00:28:31,760 --> 00:28:41,760

It's suggested that you write to these publications for sample copies or their subscription rates.

243

00:28:41,760 --> 00:28:50,760

This about summarizes the literature. We hope that you will enjoy perusing the pages.

244

00:28:50,760 --> 00:28:56,760

And so, until next time, happy sightings.

245

00:29:11,760 --> 00:29:40,760

This has been a presentation of T-P-Recorded UFO Information Service, an unprofit organization.

246

00:29:41,760 --> 00:29:56,760

Thank you.
