

1

00:00:00,000 --> 00:00:03,600

Your name is Mr. Otto Binder?

2

00:00:03,600 --> 00:00:04,600

That's right, yeah.

3

00:00:04,600 --> 00:00:05,600

Do you explain that?

4

00:00:05,600 --> 00:00:06,600

Do you believe in these sources?

5

00:00:06,600 --> 00:00:07,600

I believe in the extent that people have seen definite objects.

6

00:00:07,600 --> 00:00:19,600

The earthenings of hallucinations and March gas and whatever they offer are definitely

7

00:00:19,600 --> 00:00:23,600

a cover-up for the fact that there are some kind of object.

8

00:00:23,600 --> 00:00:27,800

But what the objects are, I have nothing to say.

9

00:00:27,800 --> 00:00:29,200

I can give you my opinion.

10

00:00:29,200 --> 00:00:34,600

My opinion is that the likelihood, the strongest possibility I can think of of all the theories

11

00:00:34,600 --> 00:00:37,600

I've seen is that they are simply people in the modern space.

12

00:00:37,600 --> 00:00:39,600

That becomes the most logical one to me.

13

00:00:39,600 --> 00:00:44,600

There's a simple reason that having been in the science into this whole space field

14

00:00:44,600 --> 00:00:50,400

for many, many years and having only been interested in UFOs, let's say, for the last

15

00:00:50,400 --> 00:00:56,600

year and a half, to tie in on that astronomers and scientists all over the world now have

16

00:00:56,600 --> 00:00:59,600

the chance that there are millions of civilized worlds throughout the universe.

17

00:00:59,600 --> 00:01:01,600

That is, the probability is very, very high.

18

00:01:01,600 --> 00:01:09,600

The next step is to assume that many of these civilizations and they also admit are many,

19

00:01:09,600 --> 00:01:17,000

many thousands of years older than us and ours and technology is very great and there

20

00:01:17,000 --> 00:01:20,600

is no reason to suppose that they don't have ships here.

21

00:01:20,600 --> 00:01:23,200

In other words, it becomes a negative way of looking at it.

22

00:01:23,200 --> 00:01:27,800

Logically, with millions of worlds on base, that's the science end of it.

23

00:01:27,800 --> 00:01:31,200

The scientist doesn't dare go further except for private.

24

00:01:31,200 --> 00:01:32,200

A lot of them are private too.

25

00:01:32,200 --> 00:01:33,200

What is your profession?

26

00:01:33,200 --> 00:01:34,200

A science writer.

27

00:01:34,200 --> 00:01:35,200

You're a science writer.

28

00:01:35,200 --> 00:01:37,200

What magazine was that again?

29

00:01:37,200 --> 00:01:38,200

Space World.

30

00:01:38,200 --> 00:01:43,200

I had it for quite a few years and had about two dozen books published.

31

00:01:43,200 --> 00:01:46,200

Is there anything you're working on recently now that anybody can pick up on?

32

00:01:46,200 --> 00:01:48,200

Yes, in the science.

33

00:01:48,200 --> 00:01:57,200

Articles in Space World magazine and all that's coming up in Mechanic Solstrate.

34

00:01:57,200 --> 00:02:01,200

I can't keep track of which ones now are coming up.

35

00:02:01,200 --> 00:02:06,200

One of the men's magazines is called Gem of the Spot UFOs Incident.

36

00:02:06,200 --> 00:02:07,200

In real magazine?

37

00:02:07,200 --> 00:02:08,200

I've noticed a lot of it.

38

00:02:08,200 --> 00:02:09,200

Oh, not in real.

39

00:02:09,200 --> 00:02:15,200

I will have something in fact science articles as well as UFO articles in National Empire.

40

00:02:15,200 --> 00:02:18,200

That's a tabloid thing, you know.

41

00:02:18,200 --> 00:02:23,200

I noticed you have a lot of these pictures on display that you were selling tonight.

42

00:02:23,200 --> 00:02:31,200

Those are the original of my syndicated panel which appears in about a hundred newspapers.

43

00:02:31,200 --> 00:02:36,200

About sixty an American, forty porn.

44

00:02:36,200 --> 00:02:41,200

Appears daily, six days a week and started in 1960s, we're going all this time.

45

00:02:41,200 --> 00:02:43,200

What publication could I see this in now?

46

00:02:43,200 --> 00:02:44,200

I want them to see these.

47

00:02:44,200 --> 00:02:48,200

The nearest one in this area, the big New York papers don't have it.

48

00:02:48,200 --> 00:02:51,200

The nearest one in this area is Patterson, New Jersey.

49

00:02:51,200 --> 00:02:52,200

Patterson, New Jersey?

50

00:02:52,200 --> 00:02:54,200

Morning call or something like that?

51

00:02:54,200 --> 00:02:55,200

Patterson, New England News.

52

00:02:55,200 --> 00:02:57,200

Patterson, New England News.

53

00:02:57,200 --> 00:02:59,200

Are these for sale today?

54

00:02:59,200 --> 00:03:01,200

The originals are, yes sir.

55

00:03:01,200 --> 00:03:04,200

Where would we be able to purchase these other than here today?

56

00:03:04,200 --> 00:03:11,200

Well, Jim Mosley will have them advertised in Saucer News and they can be ordered by mail from him.

57

00:03:11,200 --> 00:03:14,200

Eventually when he gets the ad and I don't know what you should be.

58

00:03:14,200 --> 00:03:19,200

Most of these, as a matter of fact, are exclusive to people right into me.

59

00:03:19,200 --> 00:03:22,200

They have never reported these before usually.

60

00:03:22,200 --> 00:03:26,200

Or if they've reported to the airport, they've got the usual run around.

61

00:03:26,200 --> 00:03:31,200

The first time they've been publicized in any way, this is in my calendar.

62

00:03:31,200 --> 00:03:36,200

I get hundreds and hundreds of letters from all these people, very sincere people.

63

00:03:36,200 --> 00:03:40,200

No books, or very few books, I figure they're in a very bounding mood.

64

00:03:40,200 --> 00:03:46,200

But these people are genuinely sincere about the fact that they've seen something.

65

00:03:46,200 --> 00:03:48,200

And they describe it greatly.

66

00:03:48,200 --> 00:03:50,200

They're very possibly true.

67

00:03:50,200 --> 00:03:52,200

And they often in their letters saying,

68

00:03:52,200 --> 00:03:54,200

What is it Mr. Benders, though I'm supposed to know?

69

00:03:54,200 --> 00:03:58,200

Of course all I find is that I wish I knew.

70

00:03:58,200 --> 00:04:03,200

But they're genuinely concerned and they know they've seen something real.

71

00:04:03,200 --> 00:04:13,200

Many of them are engineers, technical people who can't be fooled by balloons or helicopters or anything like that.

72

00:04:13,200 --> 00:04:17,200

They know everything like that they've seen for many, many years.

73

00:04:17,200 --> 00:04:20,200

Have you ever given any lectures yourself on these UFOs?

74

00:04:20,200 --> 00:04:22,200

I've given short lectures.

75

00:04:22,200 --> 00:04:26,200

I'm really not that well-versed in the UFO field. I'm still doing a lot of research.

76

00:04:26,200 --> 00:04:28,200

Thank you very much for your time.
