

1

00:00:00,000 --> 00:00:03,000

You bet.

2

00:00:03,000 --> 00:00:06,000

Excuse me.

3

00:00:06,000 --> 00:00:11,000

Flying saucer's uncensored. We call this.

4

00:00:11,000 --> 00:00:14,000

We have a little bit of open issue too.

5

00:00:14,000 --> 00:00:16,000

For air.

6

00:00:16,000 --> 00:00:20,000

And if it gets too stuffy back there, it might try raising one of those.

7

00:00:20,000 --> 00:00:22,000

But I know it's up to you people.

8

00:00:22,000 --> 00:00:25,000

You'd like to remove your jacket.

9

00:00:25,000 --> 00:00:30,000

Flying saucer's uncensored is what we're calling this talk.

10

00:00:30,000 --> 00:00:36,000

And we've put it together because, largely because of the flat.

11

00:00:36,000 --> 00:00:40,000

Flying saucer flat, as we called it back in August of this year.

12

00:00:40,000 --> 00:00:47,000

And these come periodically to arouse people's interest.

13

00:00:47,000 --> 00:00:54,000

This is the main reason. This is what we were told back in 1946 in Borderland Sciences Research.

14

00:00:54,000 --> 00:01:03,000

That it was time for our man to wake up to a little more of the hidden reality behind appearances.

15

00:01:03,000 --> 00:01:07,000

Like, flying saucer's is one way of doing it.

16

00:01:07,000 --> 00:01:12,000

Someone was mentioning here, over here, talking about Alice Bailey and her work.

17

00:01:12,000 --> 00:01:17,000

One of the great, we call it teachers here in the United States.

18

00:01:17,000 --> 00:01:19,000

An English woman by birth.

19

00:01:19,000 --> 00:01:23,000

Who, whose master teachers are Hindus.

20

00:01:23,000 --> 00:01:27,000

Or Indians.

21

00:01:27,000 --> 00:01:33,000

And from the interplanes, you get this kind of mixture of racial types,

22

00:01:33,000 --> 00:01:39,000

but all teaching the same truth, or some aspects of treatment.

23

00:01:39,000 --> 00:01:44,000

And one of the interesting things that Alice Bailey's teacher wrote back in the 1940s,

24

00:01:44,000 --> 00:01:50,000

which was writing, Treat us Uncosm of Fire,

25

00:01:50,000 --> 00:01:59,000

was that, in our universe, in the larger universe, when we say the mega-universe,

26

00:01:59,000 --> 00:02:03,000

I think of our universe as being our own solar system.

27

00:02:03,000 --> 00:02:09,000

But in the galaxy, the Milky Way galaxy, in which our solar system is apart,

28

00:02:09,000 --> 00:02:14,000

there are older evolutionary systems in ours.

29

00:02:14,000 --> 00:02:20,000

And this is being recognized by science, or even talking about the percentage chance

30

00:02:20,000 --> 00:02:24,000

of visitors from these older systems coming here to the Earth.

31

00:02:24,000 --> 00:02:31,000

And I think in the current true magazine, Dr. Carl Sagan, the Harvard Observatory,

32

00:02:31,000 --> 00:02:36,000

talking about that, and that there might be another visitation within this century.

33

00:02:36,000 --> 00:02:39,000

Where are these people coming from?

34

00:02:39,000 --> 00:02:42,000

And what is their purpose?

35

00:02:42,000 --> 00:02:45,000

Well, some of them, their purpose is good.

36

00:02:45,000 --> 00:02:50,000

They're men of good will, shall we say, and they would be glad to help us

37

00:02:50,000 --> 00:02:53,000

if we could accept their help.

38

00:02:53,000 --> 00:02:56,000

But there may be others also that are evil.

39

00:02:56,000 --> 00:03:00,000

And in this Alice Bailey book, I think it's a treatise on the cosmic fire,

40

00:03:00,000 --> 00:03:04,000

which is a tremendous thing, perhaps over a thousand pages of material.

41

00:03:04,000 --> 00:03:12,000

The Master Decay does refer to two constellations which have universes like ours,

42

00:03:12,000 --> 00:03:14,000

which are decaying.

43

00:03:14,000 --> 00:03:17,000

They're burnt out.

44

00:03:17,000 --> 00:03:25,000

But in these systems, they have beings who are indelible to have Master's space travel.

45

00:03:25,000 --> 00:03:30,000

But they are not good, as we would call it.

46

00:03:30,000 --> 00:03:36,000

And they're actually looking for a new planet on which to take up their boldness.

47

00:03:36,000 --> 00:03:44,000

And because of their comparative superiority in science, they could dominate us, I suppose.

48

00:03:44,000 --> 00:03:49,000

But from our point of view, they would be troublemakers.

49

00:03:49,000 --> 00:03:55,000

I don't recall the constellation that Master Decay named, maybe some of you know.

50

00:03:55,000 --> 00:03:58,000

I'm not sure whether or not one of them was Orion.

51

00:03:58,000 --> 00:04:00,000

But Orion is named in the Bible.

52

00:04:00,000 --> 00:04:03,000

I think his symbol is the hunter in the heavens.

53

00:04:03,000 --> 00:04:08,000

And this could be one of the places from which some of these visitors are coming.

54

00:04:08,000 --> 00:04:14,000

Looking us over as a posthumous spot where they could break our people and settle down.

55

00:04:14,000 --> 00:04:17,000

And perhaps make slaves out of us.

56

00:04:17,000 --> 00:04:23,000

Well, of course, the implication in the Master Decay's material, and our own source of material,

57

00:04:23,000 --> 00:04:28,000

is that we do have races which are guarding us.

58

00:04:28,000 --> 00:04:32,000

We are, you might say, in the kindergarten of evolution.

59

00:04:32,000 --> 00:04:36,000

Maybe we're just ready to graduate from one grade to another.

60

00:04:36,000 --> 00:04:42,000

And the difference between the grades is the difference between the ability to travel in space

61

00:04:42,000 --> 00:04:44,000

or being confined to a planet.

62

00:04:44,000 --> 00:04:49,000

And this is what we're doing now. We're breaking out of our confinement.

63

00:04:49,000 --> 00:04:57,000

So this is a very, very critical time in the period of mankind.

64

00:04:57,000 --> 00:05:01,000

One of the things which is so absolutely necessary through this breakout

65

00:05:01,000 --> 00:05:05,000

is the ability to develop and handle more power.

66

00:05:05,000 --> 00:05:10,000

And one of these obvious sources of power is atomic energy.

67

00:05:10,000 --> 00:05:16,000

But as you know, what is so critical right now in the Earth's society

68

00:05:16,000 --> 00:05:21,000

is whether or not we'll use this atomic power in an all-out war to destroy ourselves.

69

00:05:21,000 --> 00:05:24,000

Or can we?

70

00:05:24,000 --> 00:05:30,000

Get along well enough to turn our technology to more constructive lines

71

00:05:30,000 --> 00:05:34,000

and actually learn how to travel in space.

72

00:05:34,000 --> 00:05:39,000

This is a testing time, and I don't know really whether we can say we're going to pass the test or not.

73

00:05:39,000 --> 00:05:43,000

Perhaps the situation is still in the balance.

74

00:05:43,000 --> 00:05:47,000

But this is what we're involved in.

75

00:05:47,000 --> 00:05:56,000

And part of this great problem is to get people to adjust their consciousness, their understanding

76

00:05:56,000 --> 00:06:00,000

to the reality of these visitors.

77

00:06:00,000 --> 00:06:05,000

And to be willing to accept the very humbling knowledge or information

78

00:06:05,000 --> 00:06:10,000

that we are not alone in the universe and that we are not tops.

79

00:06:10,000 --> 00:06:14,000

We're pretty far down on the evolutionary scale.

80

00:06:14,000 --> 00:06:19,000

And I think this is the real block, especially on the part of people in authority

81

00:06:19,000 --> 00:06:26,000

and those who have it, with great pride established themselves in the professional fields.

82

00:06:26,000 --> 00:06:32,000

It's a problem of adjusting their consciousness through the fact of the superiority of the visitors.

83

00:06:32,000 --> 00:06:37,000

Now, I'm not saying morally superior, but technically superior.

84

00:06:37,000 --> 00:06:43,000

Because obviously they have mastered space travel and we're just beginning to find out how to do it.

85

00:06:43,000 --> 00:06:50,000

So there must be hundreds or even thousands of years ahead of us in evolution.

86

00:06:50,000 --> 00:06:55,000

Now, my personal feeling is I think it's time that our government changes its attitude

87

00:06:55,000 --> 00:07:01,000

on the information it has in hand and begun to release it in an intelligent way

88

00:07:01,000 --> 00:07:06,000

to the people of the United States. I think we have a right to it.

89

00:07:06,000 --> 00:07:14,000

Perhaps what is holding up a change in the silence policy is that we haven't demanded this information

90

00:07:14,000 --> 00:07:22,000

as voters and taxpayers after all who sets policy in the United States.

91

00:07:22,000 --> 00:07:26,000

Presumably the voters.

92

00:07:26,000 --> 00:07:30,000

So this is one of the things that I'm proposing on this trip.

93

00:07:30,000 --> 00:07:36,000

It just came to me as an idea just a few weeks ago.

94

00:07:36,000 --> 00:07:46,000

Suppose we flying saucer believers bombarded the presidential candidates in the 1968 campaign

95

00:07:46,000 --> 00:07:49,000

with a question which would go like this.

96

00:07:49,000 --> 00:07:57,000

If you do get into the White House and if there is a public landing of visitors from outer space

97

00:07:57,000 --> 00:08:01,000

in their spaceships at Washington International Airport,

98

00:08:01,000 --> 00:08:06,000

would you as president go out and welcome these teams as you would welcome ambassadors

99

00:08:06,000 --> 00:08:11,000

from other nations on the surface of the earth?

100

00:08:11,000 --> 00:08:15,000

As I see it, where have we got to lose it?

101

00:08:15,000 --> 00:08:20,000

Why don't we put this question up to the candidates that are going into the White House?

102

00:08:20,000 --> 00:08:24,000

We might even get one candidate to take a stand on it.

103

00:08:24,000 --> 00:08:32,000

And I think as a result of that, once that stand is taken of even admitting the possibility of the reality of flying saucers

104

00:08:32,000 --> 00:08:39,000

or the visitors and pilots, then we might see a change in the silence policy of flying saucers.

105

00:08:39,000 --> 00:08:46,000

We are going to have to initiate it because the presidents are not initiating it.

106

00:08:46,000 --> 00:08:51,000

When Eisenhower was asked about flying saucers back in 54 or whenever it was,

107

00:08:51,000 --> 00:08:55,000

he said, well, he implied that we are looking to the Air Force for the answers on this,

108

00:08:55,000 --> 00:08:59,000

but the Air Force doesn't set policy in the United States.

109

00:08:59,000 --> 00:09:06,000

The Air Force is just carrying out the orders of somebody who is in the civilian level in the government

110

00:09:06,000 --> 00:09:13,000

who says, let us suppress this information because it's too dangerous to let out.

111

00:09:13,000 --> 00:09:17,000

It's dangerous to whom?

112

00:09:17,000 --> 00:09:22,000

Dangerous to some vested interest in our society who is afraid to lose a few billion dollars?

113

00:09:22,000 --> 00:09:27,000

I think that's the real reason for the silence policy.

114

00:09:27,000 --> 00:09:33,000

And if that policy is going to be changed, we are the ones who are going to have to change it.

115

00:09:33,000 --> 00:09:39,000

And as long as we sit on our hands and wait for authorities to move, they won't move.

116

00:09:39,000 --> 00:09:49,000

Because they haven't moved since 1947, because the saucers have been present in our skies since

then in an important way.

117

00:09:49,000 --> 00:09:58,000

18 years and still no voice of authority in Washington or anywhere else standing up and saying,

118

00:09:58,000 --> 00:10:02,000

this planet is under observation.

119

00:10:02,000 --> 00:10:06,000

We are not alone in the universe.

120

00:10:06,000 --> 00:10:14,000

And yet we know beyond any shadow of it now that tangible proof is in the hands of our authorities.

121

00:10:14,000 --> 00:10:22,000

I'm going to show you some flying saucer pictures here tonight, which have been taken by amateurs.

122

00:10:22,000 --> 00:10:29,000

And if we have evidence this good, what about the evidence the Air Force has in its files

123

00:10:29,000 --> 00:10:38,000

where it has men on duty 24 hours a day all over the Earth with the best scientific equipment?

124

00:10:38,000 --> 00:10:44,000

So when an Air Force release says we have no physical evidence of their reality, this is a lie.

125

00:10:44,000 --> 00:10:50,000

A bold-faced lie because it just is not true.

126

00:10:50,000 --> 00:10:53,000

Now I'll give you an example of it right here.

127

00:10:53,000 --> 00:11:05,000

On December 16, 1954, a torpedo-shaped spaceship bigger than the B-29 bomber fuselage, no wings,

128

00:11:05,000 --> 00:11:14,000

appeared over Apple Valley Inn on the high desert, Victorville, California, about 150 miles from Los Angeles,

129

00:11:14,000 --> 00:11:22,000

and only four miles away from George Air Force Base, one of the jet training bases of the United States Air Force.

130

00:11:22,000 --> 00:11:32,000

This flying saucer appeared at 24,000 feet, about 24,000 feet above Apple Valley Inn, about 6 o'clock on the night of December 16.

131

00:11:32,000 --> 00:11:38,000

Now down on the ground, the sun had set, but up at that altitude it was still shining,

132

00:11:38,000 --> 00:11:46,000

and this was shining on this torpedo-shaped gleaming spaceship, which was stationary in the sky.

133

00:11:46,000 --> 00:11:52,000

We didn't have any equipment then, and I don't believe we'd have anything today, which could hover at that long at 24,000 feet.

134

00:11:52,000 --> 00:11:57,000

I don't believe our helicopters would go that high.

135

00:11:57,000 --> 00:12:01,000

And there were 50 guests there at the Apple Valley Inn.

136

00:12:01,000 --> 00:12:03,000

They all saw it.

137

00:12:03,000 --> 00:12:11,000

Partie Goodman, who gave this excellent report, a former Air Force pilot himself in World War II, a pilot of the B-29 bombers,

138

00:12:11,000 --> 00:12:19,000

a trained observer, watched this thing through binoculars, and you could see a row of coral portals along the side.

139

00:12:19,000 --> 00:12:24,000

Finally the sun went down, and darkness came on, even at those altitudes,

140

00:12:24,000 --> 00:12:31,000

and this thing didn't disappear in the darkness because it began to glow red, and it stayed there glowing that way all night long.

141

00:12:31,000 --> 00:12:38,000

And it was still there until noon the next day, 18 hours, this UFO, hovered in the sky there,

142

00:12:38,000 --> 00:12:45,000

motionless only four miles from this George Air Force base in the above Apple Valley Inn.

143

00:12:45,000 --> 00:12:52,000

Goodman said that he could see the contrails of jet planes flying around it, even 10,000 feet higher.

144

00:12:52,000 --> 00:13:00,000

They had at the Air Force had ample time to take thousands of feet of motion pictures of this thing that they wanted to.

145

00:13:00,000 --> 00:13:08,000

And the citizens, the civilians, are there at the Apple Valley Inn called George Air Force Base to ask about this,

146

00:13:08,000 --> 00:13:17,000

going to authority for answers, and the people at the Air Force Base wouldn't even admit that the UFO was there.

147

00:13:17,000 --> 00:13:21,000

They couldn't. Their regulations forbid it.

148

00:13:21,000 --> 00:13:29,000

Joint Army Navy Air Force Publication 200-2 says specifically that if the object is a UFO,

149

00:13:30,000 --> 00:13:37,000

you should, if you can't, if you can't explain it as a natural object or some natural phenomenon, I don't say anything.

150

00:13:37,000 --> 00:13:43,000

That has been in effect for years and it's still in effect. Who is going to change it?

151

00:13:43,000 --> 00:13:53,000

If anybody is, we are, we're going to have to change it. That's for sure.

152

00:13:53,000 --> 00:14:00,000

Part of them went back to Los Angeles, called Paul Coates, who had his TV interview program at the time,

153

00:14:00,000 --> 00:14:02,000

called him about the sighting.

154

00:14:02,000 --> 00:14:08,000

Coates was kept to go, but he got excited enough to walk to Apple Valley Inn and interview some of the guests who were still there

155

00:14:08,000 --> 00:14:12,000

who had seen it, also the manager and the cook.

156

00:14:12,000 --> 00:14:19,000

And he found a couple of sergeants from the Air Force Base who were willing to admit that there had been this UFO up in the sky.

157

00:14:19,000 --> 00:14:29,000

They went back to Los Angeles and went over his notes, called Apple Valley Inn and wanted to talk to the two Air Force sergeants again,

158

00:14:29,000 --> 00:14:34,000

found that they'd suddenly gone back to the base. They were in Communicado.

159

00:14:34,000 --> 00:14:45,000

But he did, Coates did confirm Goodman's story by talking to enough other people who had seen the UFO to know that it was a fact.

160

00:14:45,000 --> 00:14:54,000

Now, years earlier, 1948, Air Force pilots were willing to talk about sightings.

161

00:14:54,000 --> 00:14:57,000

Policy hadn't become so set then.

162

00:14:57,000 --> 00:15:03,000

Here's one that I cut out of the whole Louis-Star Bulletin because I was living in whole Louis at the time.

163

00:15:03,000 --> 00:15:09,000

But this report was in the United Press from Mitchell Field on Long Island, New York.

164

00:15:09,000 --> 00:15:14,000

Two Air Force jet pilots reported today, this was September 11, 1948,

165

00:15:14,000 --> 00:15:22,000

they chased a mysterious, round-flying object driving at a speed they estimated at 900 miles an

hour or 30 miles and couldn't catch it.

166

00:15:22,000 --> 00:15:28,000

No Air Force pilot today would even admit that this had happened to him. But it is happening.

167

00:15:28,000 --> 00:15:31,000

It's still going on.

168

00:15:31,000 --> 00:15:36,000

Weber Rogers and Columbia P.A. told Mitchell Field authorities he had captured Edward Bowler at Silver Delaware,

169

00:15:36,000 --> 00:15:43,000

sighted the object yesterday over Sandy Hook, New Jersey while they were on a routine training flight in the T-33 jet.

170

00:15:43,000 --> 00:15:47,000

I don't know if it was a flying saucer, but it sure was something I've never seen before.

171

00:15:47,000 --> 00:15:51,000

We couldn't call it an F-86 saver jet.

172

00:15:51,000 --> 00:15:55,000

He said it was white or silver-colored, it was about the size of a fighter plane.

173

00:15:55,000 --> 00:16:02,000

They were flying along at 450 miles an hour, 20,000 feet.

174

00:16:02,000 --> 00:16:09,000

So then of course there's this famous admission by Commander Robert McLaughlin of the United States Navy

175

00:16:09,000 --> 00:16:13,000

in that story of True Magazine, which was published in 1950.

176

00:16:13,000 --> 00:16:18,000

And in 1949 he had tracked flying saucers with a field of light at White Sands Proving Ground.

177

00:16:18,000 --> 00:16:24,000

They're in New Mexico, tracking our earliest missiles and where they're going.

178

00:16:24,000 --> 00:16:32,000

His famous statement, I am convinced that they are spaceships from another planet operated by animate, intelligent beings.

179

00:16:32,000 --> 00:16:39,000

And I'm quite sure from my own observation experience that this is still true, and I believe you would say the same thing.

180

00:16:39,000 --> 00:16:45,000

But there hasn't been any change in the flying saucer phenomenon since that time,

181

00:16:45,000 --> 00:16:48,000

except that there's perhaps an increase in sighting.

182

00:16:48,000 --> 00:16:52,000

This August 3rd flap is all over the world, apparently.

183

00:16:52,000 --> 00:17:01,000

Simultaneous sightings and cities in the United States, Europe, South America, Honolulu.

184

00:17:01,000 --> 00:17:04,000

Here's one more from out of the dim and distant past.

185

00:17:04,000 --> 00:17:09,000

This was published in the Victoria, B.C. Daily Times, July 24th, 1948.

186

00:17:09,000 --> 00:17:14,000

Huge, wingless, two-deck plane proves a mystery.

187

00:17:14,000 --> 00:17:19,000

And two Eastern airline pilots were on a flight between Montgomery, Alabama and Atlanta, Georgia,

188

00:17:19,000 --> 00:17:23,000

and the child's and widowed, flying along at 5,000 feet.

189

00:17:23,000 --> 00:17:31,000

And here this huge torpedo-shaped spaceship came flying along at the same altitude, just a mile or two away, blazing with light.

190

00:17:31,000 --> 00:17:33,000

No wings.

191

00:17:33,000 --> 00:17:42,000

I'll show you a slide copy of Child's drawing of what it looked like, a needle-nose torpedo-shaped spaceship with a huge jet.

192

00:17:42,000 --> 00:17:45,000

Exhaust coming out the back of it.

193

00:17:45,000 --> 00:17:53,000

Nothing particularly new, but here you have two reliable observers, of course, reporting what they saw.

194

00:17:53,000 --> 00:17:58,000

And meagles to say it, they weren't grounded when they got to Atlanta and told their story.

195

00:17:58,000 --> 00:18:03,000

They were closely questioned.

196

00:18:03,000 --> 00:18:09,000

How did all this...how did we get our information on saucers?

197

00:18:09,000 --> 00:18:12,000

We got them through a medium in San Diego.

198

00:18:12,000 --> 00:18:20,000

Mead Lane, the founder of our organization, had a young man named Mark Prober come to him who was having unusual psychic experiences.

199

00:18:20,000 --> 00:18:26,000

He'd go into trance and then he would speak in foreign tongues, Oriental and European.

200

00:18:26,000 --> 00:18:28,000

And he wanted to know what was happening to him.

201

00:18:28,000 --> 00:18:30,000

This is normal, I guess.

202

00:18:30,000 --> 00:18:32,000

Anyone should be curious.

203

00:18:32,000 --> 00:18:38,000

No one would tell him. They heard of Mead Lane, who was a student of the cult sciences and metaphysics.

204

00:18:38,000 --> 00:18:44,000

He came up to Mead's home in San Diego and told me what was happening to him.

205

00:18:44,000 --> 00:18:47,000

Then he went on into trance there and the phenomenon reoccurred.

206

00:18:47,000 --> 00:18:52,000

And he realized that this looked like a very exceptional form of mediumship.

207

00:18:52,000 --> 00:18:58,000

This was in about August 1946.

208

00:18:58,000 --> 00:19:01,000

And a couple of months later, this was no coincidence.

209

00:19:01,000 --> 00:19:02,000

I don't think.

210

00:19:02,000 --> 00:19:09,000

A huge black torpedo-shaped spaceship appeared over San Diego on the night of October 9th, 1946.

211

00:19:09,000 --> 00:19:12,000

We didn't call them flying saucers then.

212

00:19:12,000 --> 00:19:22,000

People there in San Diego who saw it thought it might have been a Navy dirigible operating in the area without motors and without lights.

213

00:19:22,000 --> 00:19:32,000

The reason so many people saw it that night, there were many amateur astronomers out for the Jacobey v. Zinner Comet shower of meteorites looking up into the skies.

214

00:19:32,000 --> 00:19:41,000

We needed to put an ad in the San Diego paper a day later wanting to contact with anyone who saw this and he got 40 replies and they were all positive.

215

00:19:41,000 --> 00:19:47,000

They didn't agree in their analysis of what they saw, but they saw something.

216

00:19:47,000 --> 00:19:53,000

So he could see that in fact Mark Roberts was one of the witnesses, the medium.

217

00:19:53,000 --> 00:20:02,000

Well, we need to ask to have the next seance session through Mark Roberts and talk about the controls.

218

00:20:02,000 --> 00:20:06,000

This is what they said. This was a visitor from outer space.

219

00:20:06,000 --> 00:20:16,000

You are under observation and you probably see more of these things because you are ready for this kind of information now.

220

00:20:16,000 --> 00:20:20,000

I think there are some people here in the United States who wouldn't agree with that.

221

00:20:20,000 --> 00:20:25,000

Whether we're ready or not, they're here and they're apparently in our sky, is that for sure?

222

00:20:25,000 --> 00:20:31,000

I'd like to give you the verbatim remarks of one of the controls, Charles Lindgren.

223

00:20:31,000 --> 00:20:41,000

This was in July 1947, a year after we got our, almost a year after we got our what we call our 4G interpretation of the spaceships.

224

00:20:41,000 --> 00:20:50,000

And about a month after Ken Arnold saw the nine saucers flying in front of Montreux, over here, on June 24, 1947.

225

00:20:50,000 --> 00:20:55,000

Lindgren said, in the course of time, you'll find that these flying saucers will tell their own story.

226

00:20:55,000 --> 00:20:59,000

You'll know from your reading and studying that there have been many such phenomena.

227

00:20:59,000 --> 00:21:05,000

Just now, you're having them in large numbers and over a wide region because the world is in the sense ready for them.

228

00:21:05,000 --> 00:21:09,000

All you need now is to be pushed a little bit and you'll wake up.

229

00:21:10,000 --> 00:21:15,000

Well, I don't believe that the majority of Americans really are awake yet to this.

230

00:21:15,000 --> 00:21:22,000

Perhaps if our government had set out with a positive program of education in 1947, we would be awakened.

231

00:21:22,000 --> 00:21:27,000

But we're still waiting for the voice of authority.

232

00:21:27,000 --> 00:21:32,000

But what authority is going to give us the psychic interpretation of the saucers?

233

00:21:32,000 --> 00:21:36,000

This is about what it comes down to.

234

00:21:36,000 --> 00:21:43,000

Lindgren said, you're supposed for a moment that any actual material things such as you know could rip and tear across the sky without running up.

235

00:21:43,000 --> 00:21:50,000

I don't mean to say that these are not material, but the material is such it can stand the heat and the speed.

236

00:21:50,000 --> 00:21:55,000

And then someone said, well, does this construction material exist in our physical plane as an alloy?

237

00:21:55,000 --> 00:22:02,000

And Lindgren said yes, kind of an alloy. There may be more of these flying saucers and there will be various kinds.

238

00:22:03,000 --> 00:22:12,000

But the flying saucers come from a condition or state from which we would call the etheric.

239

00:22:12,000 --> 00:22:19,000

And this is a sort of left-handed scientific term that came out in the 19th century.

240

00:22:19,000 --> 00:22:27,000

I think Sir Oliver Lodge was one of the ones who was responsible for it because he had also heard about the etheric levels through mediumship.

241

00:22:28,000 --> 00:22:36,000

And all pervasive fluid medium, which is invisible to normal sight and touch, is quite real.

242

00:22:38,000 --> 00:22:44,000

And then someone said, is there any relation between flying saucers and the things which have fallen to earth?

243

00:22:44,000 --> 00:22:50,000

Lindgren said, there are various ways of running things by remote control other than you know of.

244

00:22:50,000 --> 00:22:53,000

There are energies yet unknown to science.

245

00:22:54,000 --> 00:22:59,000

There are etheric dwellers who have not known physical life.

246

00:22:59,000 --> 00:23:04,000

I am referring to your flying saucers. They come out of that plane of existence.

247

00:23:04,000 --> 00:23:08,000

A materialization and a dematerialization.

248

00:23:10,000 --> 00:23:13,000

Someone said, do the discs carry a crew?

249

00:23:13,000 --> 00:23:19,000

Well, the large ones, yes, the small ones, no. These are controlled from the craft that carry a crew.

250

00:23:19,000 --> 00:23:26,000

Some of these remote-controlled discs break away from control and then become limp like paper and vanish.

251

00:23:26,000 --> 00:23:29,000

Well, this was fortunate for us.

252

00:23:29,000 --> 00:23:31,000

There is a lot of hardware operating up there.

253

00:23:31,000 --> 00:23:35,000

If it came down solid, it might crash into somebody or something and it will destroy it.

254

00:23:35,000 --> 00:23:39,000

It was very thoughtful of them to cause their ships to dematerialize.

255

00:23:39,000 --> 00:23:43,000

But of course this also leaves no evidence of their presence, doesn't it?

256

00:23:43,000 --> 00:23:47,000

And this is one of the points some scientists have made.

257

00:23:48,000 --> 00:23:55,000

That if they are flying through our skies, some of their equipment is bound to fail just as ours fails and it would come down.

258

00:23:55,000 --> 00:23:59,000

Yes, it would if it weren't made of negative matter.

259

00:24:03,000 --> 00:24:11,000

I suppose all the controls do up above there is collapse the magnetic field which holds the physical matter together

260

00:24:11,000 --> 00:24:14,000

and it just turns to dust and falls to earth undetected.

261

00:24:15,000 --> 00:24:18,000

And this has happened many times.

262

00:24:18,000 --> 00:24:28,000

There was this blazing torpedo-shaped object which flew in from the ocean across the South Island of New Zealand back in 1955 at tremendous speed.

263

00:24:28,000 --> 00:24:32,000

And thousands of people saw it because it was only 100 or 200 feet above the ground.

264

00:24:32,000 --> 00:24:36,000

It went on inland toward Inch Bonnie.

265

00:24:36,000 --> 00:24:41,000

And just before it ran into the mountain range there, it exploded with a roar which was heard for 100 miles.

266

00:24:41,000 --> 00:24:45,000

And there was this great cloud of dust that spoke there in the sky.

267

00:24:45,000 --> 00:24:48,000

If they hadn't seen it, they certainly heard it.

268

00:24:48,000 --> 00:24:55,000

And the authorities went to the area where this thing where the debris should have fallen toward and they didn't find nothing.

269

00:24:57,000 --> 00:25:00,000

That's kind of tough, isn't it?

270

00:25:00,000 --> 00:25:04,000

And then there is the experience of the Philadelphia policemen.

271

00:25:05,000 --> 00:25:12,000

On the night of October 1st, 1951, non-patrol in the super-combat city, the city of Brother Love,

272

00:25:12,000 --> 00:25:19,000

and here was this glowing object floating gently down through the twilight sky,

273

00:25:19,000 --> 00:25:23,000

came to the worth of the vacant lot, fairly close to the street.

274

00:25:23,000 --> 00:25:30,000

So the patrolman parked their patrol car and got out and radioed back to headquarters that they had this UFO under observation

275

00:25:30,000 --> 00:25:34,000

and would stay there until they saw what happened or whatever.

276

00:25:34,000 --> 00:25:46,000

And it was about 4 feet high, 6 feet across, just a massive material, and it was glowing faintly as ectoplasm was in the sails through under certain conditions.

277

00:25:48,000 --> 00:25:52,000

Walked over to it, shined their flashlights on it, no sound, no nothing.

278

00:25:52,000 --> 00:25:56,000

Finally, patrolman Collins put his hand out, finger and touched this massive stuff,

279

00:25:56,000 --> 00:25:59,000

and his finger went into it, and this is over jelly.

280

00:25:59,000 --> 00:26:03,000

I don't know whether it had a feeling of wetness or not.

281

00:26:03,000 --> 00:26:12,000

But they didn't have to wait long there, but in 20 minutes this massive material had just gradually shrunk away on the ground until it disappeared.

282

00:26:14,000 --> 00:26:19,000

Now isn't that a nice piece of data for a technician to puzzle over?

283

00:26:19,000 --> 00:26:22,000

Well, you're going to make it back.

284

00:26:23,000 --> 00:26:27,000

And here you have the factual report of four policemen each confirming the other story.

285

00:26:27,000 --> 00:26:29,000

This is what we saw.

286

00:26:31,000 --> 00:26:35,000

But this kind of backs up what Lincoln said in 1947 and four years earlier.

287

00:26:35,000 --> 00:26:42,000

The throes that get out of control, I suppose the saucer people consider that they're what we would say expendable.

288

00:26:42,000 --> 00:26:47,000

They don't bother to bring them back, they just collapse the field and let it go on disintegrate.

289

00:26:53,000 --> 00:27:00,000

And someone said then about this becoming limp like paper and vanishing, do they return to the etheric?

290

00:27:00,000 --> 00:27:01,000

He said, yeah.

291

00:27:01,000 --> 00:27:06,000

While they don't return to another rate of vibration, the energy goes back to its primal state.

292

00:27:06,000 --> 00:27:10,000

Remote control discs lose their identity.

293

00:27:10,000 --> 00:27:15,000

This explains what happens with those saucers that appear to land but cannot be found.

294

00:27:17,000 --> 00:27:19,000

The force and the structure disintegrate.

295

00:27:20,000 --> 00:27:24,000

And someone said, well, suppose they have a crew aboard, what happens to the crew?

296

00:27:24,000 --> 00:27:30,000

Well, if there are beings in a discourse disintegrate, they simply go back to the etheric world and would stay emerged.

297

00:27:30,000 --> 00:27:33,000

And we do something like this too.

298

00:27:33,000 --> 00:27:39,000

When we die, we come from the astral plane and we return to it and allow our bodies to disintegrate too.

299

00:27:39,000 --> 00:27:43,000

But because we don't know this very well, we fear death.

300

00:27:43,000 --> 00:27:46,000

And it's something terrible.

301

00:27:46,000 --> 00:27:49,000

Well, actually, it may be a blessing, man.

302

00:27:49,000 --> 00:27:55,000

You thankfully go back, get out of the rat race here or the insane asylum.

303

00:27:55,000 --> 00:27:58,000

We're all committed to this institution.

304

00:28:02,000 --> 00:28:06,000

And someone said, well, are we going to get the truth from our authorities?

305

00:28:06,000 --> 00:28:07,000

No.

306

00:28:07,000 --> 00:28:10,000

The settling group will get no information from your higher-ups.

307

00:28:10,000 --> 00:28:12,000

The force seems to have been a lot in the siding lately.

308

00:28:12,000 --> 00:28:15,000

Have the spaceships been withdrawn from the earth?

309

00:28:15,000 --> 00:28:17,000

No, they are not being withdrawn.

310

00:28:17,000 --> 00:28:20,000

They are just being explained away.

311

00:28:20,000 --> 00:28:26,000

However, the flying saucers will carry on until explanations run out and people become curious again.

312

00:28:26,000 --> 00:28:30,000

And they have another flying saucer flap like we had in ours.

313

00:28:30,000 --> 00:28:33,000

And someone said, well, I had been in the reports for several days.

314

00:28:33,000 --> 00:28:36,000

And Linkford said, well, I just shifted their field of operations.

315

00:28:36,000 --> 00:28:38,000

They have to cover the earth, you know.

316

00:28:38,000 --> 00:28:44,000

There's a reason for everything, and I believe one reason for the discourse is to show the people of the world that there are ways of traveling faster and eliminating friction.

317

00:28:45,000 --> 00:28:53,000

The visitors may even allow one or two of these things to land so that they can be examined and experimented on.

318

00:28:53,000 --> 00:28:59,000

And that way you will find out how to build such craft that will travel out into space

319

00:28:59,000 --> 00:29:02,000

and maybe you can find a new planet on which to start a war.

320

00:29:07,000 --> 00:29:11,000

And someone truly observable maybe will be forced to leave this one.

321

00:29:12,000 --> 00:29:13,000

Oh, yes.

322

00:29:13,000 --> 00:29:17,000

I believe man will abandon this planet but not for many years to come.

323

00:29:17,000 --> 00:29:20,000

Nature is vast and man fits in as a part of it.

324

00:29:20,000 --> 00:29:25,000

He may try to destroy himself, but he will be unsuccessful and that will make him unhappy.

325

00:29:28,000 --> 00:29:32,000

Time will come and science knows that one of the human race hopes to survive,

326

00:29:32,000 --> 00:29:35,000

it will have to survive on another planet.

327

00:29:35,000 --> 00:29:40,000

Then someone said, well, do you recognize the presence of etheric planets or invisible planets?

328

00:29:40,000 --> 00:29:45,000

He said, oh yes, there are etheric planets and there are gaseous planets that are just forming into solids.

329

00:29:45,000 --> 00:29:48,000

New ones are made all the time.

330

00:29:48,000 --> 00:29:50,000

And he said, you know, I'm getting tired.

331

00:29:50,000 --> 00:29:53,000

The trouble in my world is the same as in yours.

332

00:29:53,000 --> 00:29:57,000

A great deal of talk and nothing really satisfactory.

333

00:29:59,000 --> 00:30:03,000

You will find that condition in all worlds and in all states of consciousness.

334

00:30:04,000 --> 00:30:06,000

Someone said, what? Is there no heaven?

335

00:30:06,000 --> 00:30:07,000

Limprit.

336

00:30:08,000 --> 00:30:11,000

No, if there is, you wouldn't be happy there.

337

00:30:14,000 --> 00:30:20,000

Well, outboard him there would be a state of inertia and must be unhappy in order to exist.

338

00:30:21,000 --> 00:30:23,000

Anybody agree with that?

339

00:30:26,000 --> 00:30:31,000

The moment he becomes perfectly happy, he becomes non-existent.

340

00:30:31,000 --> 00:30:35,000

You're going to stay at perfect balance, which might be absolute,

341

00:30:35,000 --> 00:30:37,000

compared to absolute.

342

00:30:37,000 --> 00:30:40,000

And then your consciousness would shift to another level.

343

00:30:41,000 --> 00:30:46,000

Some time ago one of the other controls hinted that man was an awesome creature in many ways.

344

00:30:46,000 --> 00:30:49,000

I could never begin to tell you how awesome he really is.

345

00:30:49,000 --> 00:30:55,000

Horror upon horror is in him and beauty beyond conception also.

346

00:30:55,000 --> 00:30:58,000

Man's many-sidedness is appalling.

347

00:30:58,000 --> 00:31:00,000

I want to add about the Flying Saucers.

348

00:31:00,000 --> 00:31:02,000

We haven't given you any wrong information.

349

00:31:02,000 --> 00:31:07,000

The predictions of that woman about the discs being of Russian origin are incorrect.

350

00:31:07,000 --> 00:31:13,000

There is no new information about Saucers at present, but the Russian source is ridiculous.

351

00:31:13,000 --> 00:31:21,000

I do know that the Flying Saucers come from the ethereal world, from the invisible and the returned to.

352

00:31:22,000 --> 00:31:25,000

And the controls have insisted now for 18 years.

353

00:31:26,000 --> 00:31:30,000

And that there is no physical travel really between the planets.

354

00:31:30,000 --> 00:31:32,000

This is necessary.

355

00:31:32,000 --> 00:31:38,000

There's a conversion of energy in each space to what we might call pure thought.

356

00:31:38,000 --> 00:31:44,000

And then a reconversion in the region of the planet you want to visit.

357

00:31:44,000 --> 00:31:47,000

Come back down the scale of tangibility.

358

00:31:47,000 --> 00:31:50,000

Dr. Hubertus Strughol was hinted something like this.

359

00:31:50,000 --> 00:31:55,000

He's in the thick of the space race there at NASA headquarters in Houston.

360

00:31:55,000 --> 00:32:00,000

He was pictured with Dr. Berry during the last Gemini flight.

361

00:32:00,000 --> 00:32:04,000

Strughol, I believe, is a German-American scientist.

362

00:32:04,000 --> 00:32:11,000

And some years ago in a public lecture he said that it might be that we wouldn't have to take huge quantities of air and water

363

00:32:11,000 --> 00:32:17,000

and food on the deep space voyages because there's no time involved in getting to Mars or Venus.

364

00:32:18,000 --> 00:32:25,000

It'll be practically instantaneous once they leave the region of the Earth or once they've left it.

365

00:32:27,000 --> 00:32:34,000

Well, what about with this other prediction of Glingford's there in 1947 that the visitors would allow some of their craft to land

366

00:32:34,000 --> 00:32:36,000

so our scientists could puzzle over them?

367

00:32:37,000 --> 00:32:44,000

One such craft came down on the Spitzbergen Islands in the Arctic Ocean north of Norway, Russia.

368

00:32:44,000 --> 00:32:48,000

July of 1952.

369

00:32:48,000 --> 00:32:53,000

And planes of the Norwegian Air Force saw this thing in the sky and followed it down.

370

00:32:53,000 --> 00:32:55,000

Christ there at Spitzbergen.

371

00:32:55,000 --> 00:32:58,000

Apparently there was no crew, Lord.

372

00:32:58,000 --> 00:33:06,000

The remains of this thing were taken to Narvik, Norway, and the Norwegian General Staff organized a

board of invertebrate liquorice thing

373

00:33:06,000 --> 00:33:09,000

and decided who and what and where it had been made.

374

00:33:09,000 --> 00:33:20,000

Three years later on September 4th, 1955 in Oslo, Norway, Colonel Gernel Darnebile of the Norwegian General Staff made a public release on it.

375

00:33:21,000 --> 00:33:25,000

Crashing of the Spitzbergen disc was highly important.

376

00:33:27,000 --> 00:33:31,000

I'm confident that these remains from Spitzbergen proved to be great importance.

377

00:33:31,000 --> 00:33:37,000

Sometime ago this understanding was caused by saying that the disc probably was of Choviet origin.

378

00:33:37,000 --> 00:33:41,000

He said, I wish to stay in fact fatally, this is not so.

379

00:33:42,000 --> 00:33:44,000

This has not been built in any country on earth.

380

00:33:44,000 --> 00:33:50,000

The materials used in this construction are completely unknown to all the experts having participated in the investigation

381

00:33:50,000 --> 00:33:58,000

and at any rate only to be obtained after physical and chemical processes still unknown to us.

382

00:33:59,000 --> 00:34:06,000

And anyone on to say that this information will be shared with British and United States governments because it was so highly important.

383

00:34:07,000 --> 00:34:14,000

So, and nothing else, I suppose that our government has the official report of the Norwegian Air Force Board of Infantry on this thing.

384

00:34:15,000 --> 00:34:18,000

Probably pictures, we might have even sent an observer over there to see this.

385

00:34:19,000 --> 00:34:21,000

As far as I know, the Norwegian government still has it.

386

00:34:22,000 --> 00:34:23,000

So, no reason why not.

387

00:34:26,000 --> 00:34:34,000

But there's another interesting interview in the same news item with Lieutenant Jelensson of the Norwegian Air Force

388

00:34:34,000 --> 00:34:44,000

who said, I think the Arctic is serving as a base for the unknowns, especially during snowstorms when we are being forced back to our bases by unpleasant weather.

389

00:34:45,000 --> 00:34:49,000

In my opinion, the flying discs take this opportunity to land.

390

00:34:50,000 --> 00:34:55,000

Shortly after such adverse weather conditions, I have seen them land and take off on three separate occasions.

391

00:34:56,000 --> 00:35:05,000

And by the way, in our slides you'll see the photograph of two glowing discs flying over Norway in 1954, taken by Norwegian photographers.

392

00:35:06,000 --> 00:35:10,000

Part of this plane was up there to get photos of the eclipse in the sun that summer.

393

00:35:13,000 --> 00:35:20,000

And more confirmation of Lingford statement that these ships would be allowed to land so our scientists could examine them.

394

00:35:21,000 --> 00:35:34,000

In January of 1954, Frank Edwards, radio announcer on ABC said that he had had words from California that the Air Force had a captured flying saucer in its possession.

395

00:35:36,000 --> 00:35:45,000

And then on April 16th, the director of our organization at that time, the founder of the also Mead Lane, received a letter from one of our associates.

396

00:35:46,000 --> 00:35:56,000

He said, I have just returned from New York. New York dry lake is Edwards Air Force base there on

the California desert.

397

00:35:57,000 --> 00:36:02,000

The report is true. That is the report of captured or landed flying saucers.

398

00:36:03,000 --> 00:36:11,000

I made the trip up to there, up there with F.A. of the Hearst Papers, E.M. of the Brookings Institute and Bishop M. of Los Angeles.

399

00:36:15,000 --> 00:36:25,000

They were allowed to enter the restricted section at Edwards Air Force base after six hours of examining their credentials and swearing into secrecy and security laws and so on.

400

00:36:26,000 --> 00:36:31,000

And I had the distinct feeling that the world had come to an end with fantastic realism.

401

00:36:32,000 --> 00:36:43,000

For I have never seen so many human beings in the state of complete collapse and confusion as they realized that their own world had immediate or treasured ideas and so on.

402

00:36:44,000 --> 00:36:48,000

He said he saw at least five flying saucers or space ships sitting on the runway.

403

00:36:49,000 --> 00:36:55,000

And a host of scientists and people of other walks of life in the United States and elsewhere.

404

00:36:56,000 --> 00:37:01,000

Economists, sociologists, congressmen and so on invited out there by the airport.

405

00:37:02,000 --> 00:37:05,000

Sworn to secrecy and allowed on the field to see these things.

406

00:37:06,000 --> 00:37:08,000

And apparently they were there for several months.

407

00:37:08,000 --> 00:37:16,000

In fact, I have heard on this trip that one space ship at least is still locked up in a top secret hangar there at Edwards Air Force Base.

408

00:37:20,000 --> 00:37:27,000

And the reaction of these authorities.

409

00:37:28,000 --> 00:37:41,000

Our associates said in some instances I could not stifle a wave of pity that arose as I watched the pathetic bewilderment of brilliant brains struggling to make some sort of rational explanation which would enable them to retain their familiar theories and concepts.

410

00:37:42,000 --> 00:37:49,000

And he said he thanked his own destiny that he had got lost in the metaphysical woods years early and found his way out.

411

00:37:50,000 --> 00:37:59,000

So he had some had adjusted his consciousness to the idea of other worlds, other planes of consciousness and the possibility of materialization and dematerialization.

412

00:38:01,000 --> 00:38:03,000

Which is what the scientists are going to have to come to.

413

00:38:05,000 --> 00:38:15,000

Because when you conquer gravity, you conquer time, and if your control is right, you can disappear. It was like that.

414

00:38:16,000 --> 00:38:24,000

And I hope most of you here saw the dramatization in movies of H.G. Wells' time machine.

415

00:38:25,000 --> 00:38:27,000

Because there it was portrayed very clearly.

416

00:38:28,000 --> 00:38:32,000

Regardless of whether you could understand it or not, but H.G. Wells had it right.

417

00:38:33,000 --> 00:38:41,000

The idea of speeding up the vibratory rate to where the material becomes crystalline.

418

00:38:41,000 --> 00:38:48,000

Transmission, the light can come right through it. So you're seeing through it because you can see objects on the other side of where this thing was.

419

00:38:49,000 --> 00:38:54,000

And this is what was done for the scientists there at Edward Jarrah Force Base.

420

00:38:55,000 --> 00:39:00,000

Time and time again the pilots of these things caused them to disappear while they were sitting on the runway.

421

00:39:01,000 --> 00:39:04,000

And the scientists could see through them. This is what nearly caused them to crack up.

422

00:39:05,000 --> 00:39:12,000

And I suppose they walked over there and then they could feel this crystalline structure just like you feel plate glass.

423

00:39:13,000 --> 00:39:16,000

It's still solid, but it's translucent.

424

00:39:17,000 --> 00:39:22,000

And then the pilots would cause the vibratory rate to go even higher on the scale of tangibility.

425

00:39:23,000 --> 00:39:25,000

And then the scientists could walk right across the runway.

426

00:39:27,000 --> 00:39:31,000

And then they cleared the area and these things were caused to materialize again.

427

00:39:32,000 --> 00:39:34,000

This was done many times.

428

00:39:35,000 --> 00:39:41,000

So that there was no shadow of a doubt in the mind of our authorities that this could be done.

429

00:39:42,000 --> 00:39:45,000

And this is what caused them, maybe some of them did crack up.

430

00:39:46,000 --> 00:39:47,000

I wouldn't blame them.

431

00:39:48,000 --> 00:39:56,000

I remember Dan Fry saying one of his lectures a few years ago and talked about arguing with one of our space-aid scientists in California.

432

00:39:57,000 --> 00:39:59,000

Who just couldn't believe that flying saucers.

433

00:40:00,000 --> 00:40:03,000

So Dan said well, yeah, let's look at that.

434

00:40:07,000 --> 00:40:09,000

Dan said well, suppose a flying saucer landed on your lawn.

435

00:40:11,000 --> 00:40:13,000

The scientist said I still wouldn't believe it.

436

00:40:16,000 --> 00:40:20,000

And you got into people like this because they can't change.

437

00:40:21,000 --> 00:40:24,000

They don't want to change. They're satisfied with things or where they are.

438

00:40:26,000 --> 00:40:28,000

But the visitors aren't going to allow us to be satisfied.

439

00:40:31,000 --> 00:40:33,000

We've developed the atomic bomb.

440

00:40:34,000 --> 00:40:37,000

So it's time that we develop the moral responsibility which goes along with it.

441

00:40:46,000 --> 00:40:51,000

This associate also wrote, President Eisenhower, as you may know, was spirited over to Burak one night.

442

00:40:52,000 --> 00:40:53,000

We're not the greatest, I guess, in gold.

443

00:40:54,000 --> 00:41:02,000

President Eisenhower was spirited over to Edwards Air Force Base from Palm Springs.

444

00:41:03,000 --> 00:41:07,000

The President didn't have his vacation there at Palm Springs in March 1954.

445

00:41:08,000 --> 00:41:15,000

And for four hours on a Saturday night he did disappear from Palm Springs and the press went crazy trying to find out where he was.

446

00:41:16,000 --> 00:41:21,000

The Associated Press representative there actually put on the private wire in New York that Eisenhower had been assassinated.

447

00:41:22,000 --> 00:41:31,000

And when the Air Force press officers or the press have found this out, they had to admit that the President had it and killed him, even though they couldn't see where he had gone.

448

00:41:32,000 --> 00:41:35,000

But he was flown to Burak, though he didn't go out on the field.

449

00:41:36,000 --> 00:41:38,000

They were afraid that he might be kidnapped, perhaps.

450

00:41:40,000 --> 00:41:43,000

But he had no doubt about the reality of the visitors, I'm sure of that.

451

00:41:44,000 --> 00:41:53,000

That is the associate that is my conviction that the President will ignore the terrific conflict between the various authorities and go directly to the people via radio and television.

452

00:41:54,000 --> 00:42:04,000

If the impasse continues much longer, what I could gather, an official statement to the country is being prepared for delivery about the middle of May.

453

00:42:05,000 --> 00:42:12,000

The President could not resolve the conflict between the various authorities there as to what could be told to people.

454

00:42:13,000 --> 00:42:15,000

As you know very well, he said nothing.

455

00:42:19,000 --> 00:42:26,000

That was April 16, 1954, when our director received this letter and the staggering information which he had scarcely believed himself.

456

00:42:27,000 --> 00:42:35,000

So the next day he went over to Mark Fogart's apartment with the idea of the hope that he could talk to one of the inner circles through Mark.

457

00:42:35,000 --> 00:42:39,000

Mark went into trance and Ramon Natali took over.

458

00:42:40,000 --> 00:42:44,000

Italian scientist of the group who concerns himself with scientific subjects.

459

00:42:45,000 --> 00:42:52,000

And me, to ask if he should publish this information and Natali advised many, said that it would come out through someone else than you.

460

00:42:53,000 --> 00:42:59,000

But if you want to make a limited release to some of the hand-picked associates, that would be alright.

461

00:42:59,000 --> 00:43:05,000

So I did get this personal bulletin in Honolulu about this landing which I couldn't believe either.

462

00:43:06,000 --> 00:43:10,000

Because at that time I hadn't made up my own mind about the reality of the business.

463

00:43:12,000 --> 00:43:26,000

Then associate Francis Oome asked Ramon, do you feel Ramon that Eisenhower is sincere in his attempt and what he might try to do and his pressure put on him or what?

464

00:43:26,000 --> 00:43:33,000

And Natali replied, this man like all men of his kind in high government positions is the leader or a symbol of such in your country.

465

00:43:34,000 --> 00:43:36,000

They are always under pressure, they cannot act alone.

466

00:43:37,000 --> 00:43:42,000

A bag of even the shadows stands such individuals as Bernard Baruch and some of the high...
