

1

00:00:00,000 --> 00:00:07,000

Flying saucers, back for fiction.

2

00:00:07,000 --> 00:00:22,400

On the grand spinner show UFO info with Jean DuPontier, editor of saucers, space and science

3

00:00:22,400 --> 00:00:23,400

magazine.

4

00:00:23,400 --> 00:00:33,680

At bright, eight-year-old boy, David Chute of Bertie, Ontario and his mother are both

5

00:00:33,680 --> 00:00:37,640

convinced they saw a flying saucer last January.

6

00:00:37,640 --> 00:00:42,400

Mrs. Chute was getting ready to go out when her son called from a window to come and look

7

00:00:42,400 --> 00:00:44,440

at the flying saucer.

8

00:00:44,440 --> 00:00:49,040

It was all bright lights across the road and moving away in the distance.

9

00:00:49,040 --> 00:00:53,600

David said it was suddenly over the two houses across the street.

10

00:00:53,600 --> 00:00:58,160

Bright lights were flickering all around it and hurt his eyes.

11

00:00:58,160 --> 00:01:03,640

It came closer and two things like legs came out from underneath it, then they retracted

12

00:01:03,640 --> 00:01:06,020

and the object flew away.

13

00:01:06,020 --> 00:01:12,400

The object emitted a buzzing sound and was the width of the two houses across the street.

14

00:01:12,400 --> 00:01:16,760

Mrs. Chute says it was pretty low because they couldn't have seen it through the porch

15

00:01:16,760 --> 00:01:19,000

windows if it wasn't.

16

00:01:19,000 --> 00:01:24,080

Even a skeptic can be excited by sight sincerity and honesty of opinion.

17

00:01:24,080 --> 00:01:28,200

Was there a real flying saucer outside their window or wasn't there?

18

00:01:28,200 --> 00:01:30,360

Your guess is as good as mine.

19

00:01:30,360 --> 00:01:37,160

If you would like a copy of tonight's script, send a self-addressed stamped envelope to

20

00:01:37,160 --> 00:01:52,640

UFOInfoCHUMTARATO7.

21

00:01:52,640 --> 00:02:00,640

On the grand finish show UFOInfo with Jean DuPontier, editor of Saucers Space and Science

22

00:02:00,640 --> 00:02:08,640

Magazine.

23

00:02:08,640 --> 00:02:13,520

We're not the only ones to see flying saucers here in Canada and the United States.

24

00:02:13,520 --> 00:02:19,560

Russia has been seeing them for the past 20 years too and they admit that the UFOs are

25

00:02:19,560 --> 00:02:25,120

as much a puzzler to Soviet scientists as to their western counterparts.

26

00:02:25,120 --> 00:02:29,760

Most of our reports come from eyewitnesses, but the Russians have been taking them up

27

00:02:29,760 --> 00:02:31,800

on radar screens.

28

00:02:31,800 --> 00:02:39,800

One scientist identified as F. Zygall says the UFOs may really be from outer space.

29

00:02:39,800 --> 00:02:45,040

After a number of years of strict silence on the subject, this breakthrough in UFO news

30

00:02:45,040 --> 00:02:49,080

from Russia is welcomed by all UFO researchers.

31

00:02:49,440 --> 00:02:53,520

Zygall says that there can be no doubt that UFOs exist.

32

00:02:53,520 --> 00:02:59,560

Of five possibilities listed by Zygall as to what the flying saucers are is one that

33

00:02:59,560 --> 00:03:04,880

they may be spaceships from an advanced civilization on another planet.

34

00:03:04,880 --> 00:03:11,040

One thing they are not, in the Russian scientist view, is a new secret flying apparatus of

35

00:03:11,040 --> 00:03:14,000

one of the military powers on Earth.

36

00:03:14,000 --> 00:03:18,000

In the words of Zygall, no one holds this view now.

37

00:03:20,000 --> 00:03:25,000

If you would like a copy of tonight's script, send a self-addressed stamped envelope to

38

00:03:25,000 --> 00:03:30,000

UFO info CHUM-TORRARO7.

39

00:03:34,000 --> 00:03:38,000

Flying saucers, facts or fiction.

40

00:03:39,000 --> 00:03:51,000

On the grand finish show UFO info with Gene Gouplottier, editor of saucers, space and science magazine.

41

00:03:56,000 --> 00:04:02,000

What is probably one of the best UFO landing stories took place in Socorro, New Mexico in

42

00:04:02,000 --> 00:04:06,000

early evening of April 24, 1964.

43

00:04:06,000 --> 00:04:13,000

Patrolman Lonnie Zamora said he spotted an egg-shaped object on the desert about a mile south of Socorro.

44

00:04:13,000 --> 00:04:20,000

Upon closer investigation, the object was standing on four stilt-like legs and he could see two

45

00:04:20,000 --> 00:04:27,000

human figures in white coveralls, each about four feet tall standing near the contrivance.

46

00:04:27,000 --> 00:04:36,000

There was also a strange insignia on the side of the object, a red inverted V with bars through it.

47

00:04:36,000 --> 00:04:44,000

When Zamora got to within 100 yards of the machine, it flew away narrowly missing a dynamite check by two feet.

48

00:04:44,000 --> 00:04:53,000

Police sergeant Sam Sheviz joined Zamora in a search and they found 40 impressions in the soil and a rock that was grazed.

49

00:04:53,000 --> 00:04:58,000

A bush close by was supposedly burned by exhaust from the saucer.

50

00:04:58,000 --> 00:05:05,000

Army captain Richard Holder checked both white sands missile proving grounds and nearby Holloman Air Force Base,

51

00:05:05,000 --> 00:05:09,000

but neither used any object comparable to Zamora's machine.

52

00:05:09,000 --> 00:05:14,000

J. Ellen Heineck, special UFO consultant to the Air Force said,

53

00:05:14,000 --> 00:05:20,000

it is one of the soundest, best substantiated reports as far as it goes.

54

00:05:20,000 --> 00:05:27,000

One of the odd things concerning this incident is that no radar contact was made with the object.

55

00:05:27,000 --> 00:05:36,000

Could it be that some of these UFOs are using an anti-radar screen here by forging our attempts to get visual evidence of their visitations?

56

00:05:36,000 --> 00:05:43,000

Or was this machine really a top secret Air Force invention? Perhaps we'll never know for sure.

57

00:05:43,000 --> 00:05:53,000

If you would like a copy of tonight's script, send a self-addressed stamped envelope to UFOInfoCHMToronto7.

58

00:05:53,000 --> 00:06:03,000

On the grand finish of UFOInfo with Dean DuPontier, editor of Doctors, Space and Science magazine.

59

00:06:03,000 --> 00:06:13,000

One of the closest hangouts for UFOs is over Wannack, New Jersey, where they have a big reservoir.

60

00:06:13,000 --> 00:06:22,000

In January 1966, a UFO bore the hole about nine feet wide in the reservoir ice as policemen stood helplessly by.

61

00:06:22,000 --> 00:06:29,000

During the next two months, UFOs continued to make the six-mile-long reservoir a meeting place.

62

00:06:29,000 --> 00:06:36,000

And last October, Ronnick's mayor, Harry Wolff and hundreds of residents watched an over-sized star zoom by.

63

00:06:36,000 --> 00:06:46,000

Also in October, Sergeant Ben Thompson of the Reservoir Police said he was blinded for a short while by a UFO that came to within 50 yards of him.

64

00:06:46,000 --> 00:06:53,000

Thompson said it darted from one hill to another fast. In a split second, it covered a half-mile.

65

00:06:53,000 --> 00:07:03,000

As it flew over the trees, the branches were attracted to the object. He only saw for two or three minutes, but by that time he was 100% blind.

66

00:07:03,000 --> 00:07:10,000

The object behind the dazzling white glare was circular with a half-football shape beneath it.

67

00:07:10,000 --> 00:07:20,000

Chief John Kazaza of the Reservoir Police, who has also seen the UFOs, replaced the old floodlights with mercury vapor lamps which really lit up the area.

68

00:07:20,000 --> 00:07:28,000

Unlike insects which are attracted to light, the UFOs haven't been seen since the new bright light became operative.

69

00:07:28,000 --> 00:07:33,000

But don't despair, maybe they'll show up at a dimly lit Toronto reservoir anytime.

70

00:07:33,000 --> 00:07:45,000

If you would like a copy of tonight's script, then the self-address then send the envelope to UFOInfoCHMCuravo7.

71

00:07:45,000 --> 00:07:52,000

Flying saucers, facts or fiction.

72

00:07:52,000 --> 00:08:06,000

On the grand finish show, UFOInfo, with Jean Du Pontier, editor of saucers, space and science magazines.

73

00:08:06,000 --> 00:08:19,000

Have UFOs ever been tracked on radar or other instruments that keep track of every body in space?
The answer is yes.

74

00:08:19,000 --> 00:08:30,000

In July 1965, Argentine and Chilean technicians had separate Antarctic bases photographed and observed a reddish lens-shaped UFO.

75

00:08:30,000 --> 00:08:34,000

Strong interference was noted on meters and tapes.

76

00:08:34,000 --> 00:08:38,000

Radio interference prevented communications with the other bases.

77

00:08:38,000 --> 00:08:48,000

Later, the same month, a luminous disc was sighted over the Azores, and at this precise moment, the weather bureau clocks stopped functioning.

78

00:08:48,000 --> 00:09:01,000

In December 1964, Navy radar operators at Patuxent Naval Air Station, Maryland, tracked two UFOs traveling at a speed of 4,800 miles per hour.

79

00:09:01,000 --> 00:09:07,000

The objects were executing a right-angle turn and disappeared from the scope.

80

00:09:07,000 --> 00:09:21,000

In August 1965, radar equipment at the Richdawk, TNW Bureau and Tinker Air Force Base in Oklahoma tracked four or five objects at an altitude of 22,000 feet.

81

00:09:21,000 --> 00:09:27,000

This occurred when visual sightings were being reported all over the Midwest states.

82

00:09:27,000 --> 00:09:40,000

And one year later, in August 1966, an orange-colored saucer was clocked at 90 miles an hour by a police radar set mounted in a patrol car. How about that?

83

00:09:40,000 --> 00:09:52,000

If you would like a copy of tonight's script, send a self-addressed stamped envelope to UFOInfoCHUNterrapo7.

84

00:09:58,000 --> 00:10:19,000

Fifteen circular exhaust marks about 100 yards away from a dead horse and another area punched with six identical holes, each two inches wide and four inches deep, were found by Denver Colorado investigators, who revealed the story to the press last Sunday, October the 8th.

85

00:10:19,000 --> 00:10:28,000

An autopsy on the horse by a Denver pathologist showed that its abdominal, brain, and spinal cavities were empty.

86

00:10:28,000 --> 00:10:38,000

The pathologist, who wishes to remain anonymous, said the absence of organs is unexplainable and the horse was definitely not killed by lightning.

87

00:10:38,000 --> 00:10:47,000

Alamosa County Sheriff, Ben Phillips, said the horse died a month ago and that they're trying to make a big mystery out of it.

88

00:10:48,000 --> 00:10:54,000

The investigating committee also found a circle on the ground 75 feet in diameter.

89

00:10:54,000 --> 00:11:00,000

The owners of the horse believed it to have been killed by inhabitants of a flying saucer.

90

00:11:00,000 --> 00:11:06,000

If this is true, it won't be the first time an animal was examined by UFO occupants.

91

00:11:06,000 --> 00:11:13,000

But the whole event, when the full story is known, may be a horse of a different color.

92

00:11:14,000 --> 00:11:24,000

If you would like a copy of tonight's script, send a self-addressed stamped envelope to UFOInfoCHMToronto7.

93

00:11:30,000 --> 00:11:33,000

Flying saucer, fact or fiction.

94

00:11:34,000 --> 00:11:46,000

On the grand finish, UFOInfo with Gene Du Prasier, editor of Saucers Space and Science magazine.

95

00:11:50,000 --> 00:11:54,000

The alien spacecraft are getting closer to home, it seems.

96

00:11:54,000 --> 00:12:01,000

Fort Elgin, here in Ontario, now has a flying saucer mystery on its hands, but no one is talking too much about it.

97

00:12:02,000 --> 00:12:06,000

A UFO appeared over Lake Curran on September 11th of this year.

98

00:12:06,000 --> 00:12:13,000

One sighting even entered the official log of the Point Douglas Nuclear Generating Station of the Ontario Hydro.

99

00:12:13,000 --> 00:12:16,000

About 17 persons witnessed the event.

100

00:12:16,000 --> 00:12:22,000

It seemed to hover over the lake about one and a half miles out and drop something into the water.

101

00:12:22,000 --> 00:12:30,000

A plant employee said that he and others saw a similar craft return two nights later and for the next five nights,

102

00:12:30,000 --> 00:12:35,000

the UFO appeared to be searching for the object that was dropped earlier in the week.

103

00:12:35,000 --> 00:12:42,000

Some witnesses thought it was a plane, but no rad officials said no gunnery practice took place that night.

104

00:12:42,000 --> 00:12:49,000

Self-rejeraffor space near Port Huron did not investigate the UFO and no radar contacts were made.

105

00:12:49,000 --> 00:12:54,000

All we can do is wait until someone comes up with a logical explanation.

106

00:12:54,000 --> 00:13:01,000

And we won't be alone in these thoughts because that is exactly what the sighters at Fort Elgin are

doing.

107

00:13:01,000 --> 00:13:12,000

If you would like a copy of tonight's script, then the self-address stamps an envelope to UFOInfoTHMToronto7.

108

00:13:18,000 --> 00:13:21,000

Flying saucer, fact for fiction.

109

00:13:25,000 --> 00:13:35,000

On the grand finish show, UFOInfoTHMToronto7 with Jean Duquantier, editor of Gossers Space and Science magazine.

110

00:13:38,000 --> 00:13:45,000

Nineteen-year-old Alan Sayers of Lacombe, Alberta saw a flying saucer on two different occasions in one week.

111

00:13:45,000 --> 00:13:51,000

But the story doesn't stop there. He claims the second one chased him for two full minutes.

112

00:13:51,000 --> 00:13:55,000

That was on August the 19th, 1967.

113

00:13:55,000 --> 00:14:01,000

While riding his motorcycle, he says he saw the object on the ground beside a lake.

114

00:14:01,000 --> 00:14:07,000

Shortly after, it was flying 250 feet off to his left and a little behind him.

115

00:14:07,000 --> 00:14:11,000

It was a bright red color with a black vertical stripe down the middle.

116

00:14:11,000 --> 00:14:15,000

After traveling about two miles on a twisting country road,

117

00:14:15,000 --> 00:14:22,000

Sayers came to a yield sign and the craft suddenly took off in a northerly direction, disappearing in seconds.

118

00:14:22,000 --> 00:14:29,000

Just before it took off, Sayers said the object caused a costing and wheezing sensation in his motorcycle.

119

00:14:29,000 --> 00:14:35,000

The bike didn't work very well and he claims to have felt an unusual rise in temperature.

120

00:14:35,000 --> 00:14:39,000

The air was hot only when the object was above him.

121

00:14:39,000 --> 00:14:43,000

He reported the incident to the Lacombe police station.

122

00:14:43,000 --> 00:14:48,000

Constable Dale Neslitz said that Sayers was very serious and looked frightening.

123

00:14:48,000 --> 00:14:55,000

What do you think? Was it a lot of hot air or do you think if it happened to you, you'd keep your cool?

124

00:14:55,000 --> 00:15:06,000

If you would like a copy of tonight's script, send a self-address stamped envelope to UFOINVOLZHUM27.

125

00:15:07,000 --> 00:15:13,000

Flying saucers, fact or fiction.

126

00:15:18,000 --> 00:15:26,000

On the grand skinny show UFOINVOLZHUM27 with Jean DuPontier, editor of saucers, space and science magazine.

127

00:15:26,000 --> 00:15:40,000

Did you know that in 1954, a 1000 square mile area in the province of Alberta was put aside as an invitation for flying saucers to land?

128

00:15:40,000 --> 00:15:49,000

13 years ago, there was a rash of UFO sightings and this prompted a landing site for any extraterrestrials that wanted to settle down for a while.

129

00:15:49,000 --> 00:15:54,000

But nothing has happened in all that time and officials have just about given up hope.

130

00:15:55,000 --> 00:16:03,000

The place is at Suffield and is a top secret research station where work is carried out on bacteriological and chemical defense projects.

131

00:16:03,000 --> 00:16:08,000

No civilian or defense aircraft are allowed to fly over without permission.

132

00:16:08,000 --> 00:16:19,000

The officials thought that if some superintelligence was directing the alien spacecraft, they would recognize Suffield as a good spot for a landing without harm coming to them.

133

00:16:20,000 --> 00:16:28,000

The officials better think again because it seems that the UFO pilots took their directive seriously and also refused to go near the place.

134

00:16:28,000 --> 00:16:35,000

They also have landed at St. Paul, Alberta, where another landing pad has been built by the local townspeople.

135

00:16:35,000 --> 00:16:45,000

And yet, all over Alberta this past year in a number of places, strange things have been seen in the air and strange round marks on the ground have been found.

136

00:16:45,000 --> 00:16:52,000

With all this activity, chances are getting better for a landing at Suffield and St. Paul's any day now.

137

00:16:54,000 --> 00:17:03,000

If you would like a copy of tonight's script, send a self-address, St. Envelope, to UFOInfoCHMToronto7.

138

00:17:07,000 --> 00:17:12,000

We may still have use for those landing pads at St. Paul and Suffield, Alberta.

139

00:17:12,000 --> 00:17:23,000

Early in August of this year, nine complete circles up to 36 feet in diameter and 6 inches wide were found on a farm southwest of Camrose, Alberta.

140

00:17:23,000 --> 00:17:31,000

The circles have the appearance of having been impressed by some large objects sitting in the grass for some length of time.

141

00:17:31,000 --> 00:17:36,000

Whatever made the rings had crushed a stout willow fence post in one spot.

142

00:17:37,000 --> 00:17:41,000

Twenty area residents have witnessed UFOs in the past seven months.

143

00:17:41,000 --> 00:17:51,000

While a herd of cows in one field was apparently undisturbed when the rings were made, there was talk of other farmers animals being terrified at night.

144

00:17:51,000 --> 00:17:58,000

One farmwife saw a huge red glow from a window at midnight and at first thought it was a fire.

145

00:17:58,000 --> 00:18:02,000

The object skimmed across the field and disappeared.

146

00:18:02,000 --> 00:18:11,000

On July the 3rd, a woman heard a car drive into her field at 11.30 p.m. one night and then her two shots being fired.

147

00:18:11,000 --> 00:18:16,000

An object with multicolored lights rose up from the field and flew rapidly away.

148

00:18:16,000 --> 00:18:19,000

The occupants of the car were not identified.

149

00:18:19,000 --> 00:18:27,000

And as the saucers leave rings on the ground, at least the investigators going around in circles trying to explain the phenomenon.

150

00:18:27,000 --> 00:18:31,000

Editor of Gossers, Space and Science magazine.

151

00:18:37,000 --> 00:18:45,000

At 7.15 p.m. a meteor flashed across the skies of Peterborough, Ontario on April 5th of this year.

152

00:18:45,000 --> 00:18:55,000

At 7.45 p.m. a blinding lime green light illuminated the trees in a car driven by Mrs. Jim Donsey of Selwyn accompanied by her two children.

153

00:18:55,000 --> 00:19:00,000

She jammed on the brakes unable at first to see what caused the light.

154

00:19:00,000 --> 00:19:05,000

A sphere about 30 inches in diameter came into view close to the hood of the car.

155

00:19:05,000 --> 00:19:08,000

She said it was so bright it burned our eyes.

156

00:19:08,000 --> 00:19:13,000

It seemed to be a vapor sphere slightly flattened at the top and bottom.

157

00:19:13,000 --> 00:19:17,000

In the middle of the sphere was a luminous band of metal.

158

00:19:17,000 --> 00:19:24,000

Two vapor trails about four inches wide and about 18 inches apart were at the bottom and to one side of the object.

159

00:19:25,000 --> 00:19:30,000

It then rose extremely fast to a point above a large tree at the crossroads.

160

00:19:30,000 --> 00:19:35,000

Just then two lights appeared a short distance away from the vapor.

161

00:19:35,000 --> 00:19:39,000

The lights were red and white and went on and off alternately.

162

00:19:39,000 --> 00:19:44,000

They seemed to be trying to approach the vapor ball from several different angles.

163

00:19:44,000 --> 00:19:49,000

Each time they tried it the lights backed away and finally disappeared.

164

00:19:49,000 --> 00:19:53,000

The vapor ball rose even higher and moved westward.

165

00:19:53,000 --> 00:19:58,000

Mrs. Donsey started her car and continued up the road until it got too muddy.

166

00:19:58,000 --> 00:20:04,000

When they turned to come back the object changed direction and began to move east with them.

167

00:20:04,000 --> 00:20:09,000

When she stopped the car the object stopped too.

168

00:20:09,000 --> 00:20:16,000

When she made a sudden stop to experiment the object stopped too with such suddenness that it seemed to rock.

169

00:20:17,000 --> 00:20:25,000

By the time they reached their destination the object was much farther away and appeared as a four inch vapor wrap glowing oval.

170

00:20:25,000 --> 00:20:30,000

Needless to say Mrs. Donsey no longer doubted UFOs.

171

00:20:34,000 --> 00:20:40,000

How would you like to see two little men about four feet tall in a field beside a saucer shaped craft?

172

00:20:41,000 --> 00:20:50,000

Stanley Moxon of Toronto says he did when he was driving along Highway 15 near Joyceville, Ontario in mid-August of 1967.

173

00:20:50,000 --> 00:20:58,000

At 4 a.m. he arrived at the Smith Falls Police Station and told Constable Steve Quinton about his strange experience.

174

00:20:58,000 --> 00:21:09,000

As he passed Joyceville he saw a green light in a field so he turned off his lights and pulled to the side of the road to watch two little men with white helmets and uniforms working around the spacecraft.

175

00:21:11,000 --> 00:21:18,000

He switched on his lights again and the little men jumped into the craft and took off at high velocity and flew out of sight.

176

00:21:18,000 --> 00:21:25,000

Constable Quinton questioned Moxon in great detail and said there is no reason to doubt his story.

177

00:21:25,000 --> 00:21:33,000

One thing is certain while many UFOs have been cited this past year more are also landing which makes us wonder.

178

00:21:33,000 --> 00:21:39,000

When will the first conversation with the pilots of these craft take place and what will they say?

179

00:21:39,000 --> 00:21:43,000

Where is the nearest service station?

180

00:21:43,000 --> 00:21:55,000

If you would like a copy of tonight's script then the self-address, Vance Enville, to UFOInfoTHUMTelavo7.

181

00:21:55,000 --> 00:22:01,000

Blind saucers are seen all over the world. This next report comes from England.

182

00:22:01,000 --> 00:22:07,000

A giant comb shaped object over 15,000 feet above seven coast guardsmen.

183

00:22:07,000 --> 00:22:19,000

For more than an hour they watched it through high powered binoculars as the object hovered over bricksome devan at slowly revolved revealing some sort of door in its side.

184

00:22:19,000 --> 00:22:24,000

An aircraft approached, flew around it and then flew away.

185

00:22:24,000 --> 00:22:30,000

Eventually the object vanished behind the clouds after climbing to the 20,000 foot level.

186

00:22:31,000 --> 00:22:40,000

Scores of people along the Devon Coast Telephone Police Station to ask about the object is cited at high noon on April 28, 1967.

187

00:22:40,000 --> 00:22:48,000

The Coast Guard's report about the object was forwarded within minutes to the Ministry of Defense by the RAF at Plymouth.

188

00:22:48,000 --> 00:22:56,000

The result puzzled the bricksome Coast Guard. The ministry at first denied it ever received the report.

189

00:22:56,000 --> 00:23:02,000

Later on they revealed they did receive a report but it was not logged.

190

00:23:02,000 --> 00:23:09,000

They suggested the object was a reflection of car headlights or some sort of meteorological phenomena.

191

00:23:09,000 --> 00:23:13,000

Harry Johnson, the Chief Officer at the station said,

192

00:23:13,000 --> 00:23:21,000

is just laughable for anyone to suggest to a body of highly trained observers that this was the reflection of car headlights.

193

00:23:21,000 --> 00:23:30,000

It was noon. The object was made of something very highly polished and reflected the sunlight almost like a star in appearance.

194

00:23:30,000 --> 00:23:41,000

It seems to me that the ministry in giving its explanations of this phenomenon has taken a page right out of Project Blue Book where they are experts at this kind of answer.

195

00:23:41,000 --> 00:23:44,000

Chief Officer, Fact or Fiction?

196

00:23:44,000 --> 00:24:01,000

On the grand finish of UFO info with Dean DuPontier, editor of Saucers Space and Science magazine.

197

00:24:01,000 --> 00:24:12,000

A retired professor of international fame who used to play violin duets with Albert Einstein believes flying saucers are planning an invasion of Earth.

198

00:24:12,000 --> 00:24:20,000

His assistant engineer, Paul Santorini, whose pioneering work helped him in the development of radar,

199

00:24:20,000 --> 00:24:24,000

and refuses for the Hiroshima Atom Bomb and the Napalm Bomb,

200

00:24:24,000 --> 00:24:32,000

came out of a two-year retirement to lecture to the Greek Astronomical Society and to give an interview to Athens Radio.

201

00:24:32,000 --> 00:24:41,000

Professor Santorini is not among the lunatic range of scientists attracted by the publicity potential of flying saucer investigations.

202

00:24:41,000 --> 00:24:46,000

The professor attributed the great New York blackout of November the 9th, 1965,

203

00:24:46,000 --> 00:24:55,000

as two smaller but similar power failures in the eastern United States and Mexico about the same time to flying saucer activity.

204

00:24:55,000 --> 00:25:04,000

All three blackouts coincided with peak flying saucer activity in the areas affected, with the saucers cruising along the power lines.

205

00:25:04,000 --> 00:25:10,000

He said there were two possibilities concerning the beings who visit Earth and flying saucers.

206

00:25:10,000 --> 00:25:19,000

First, if these beings are of about the same biological construction as we, they cannot come from outside the solar system.

207

00:25:19,000 --> 00:25:28,000

Second, if these beings come from outside the system, then their bodily construction must be entirely different than ours.

208

00:25:28,000 --> 00:25:36,000

He believes that the saucers are currently engaged in surveying Earth, taking back with them plant and animal samples.

209

00:25:36,000 --> 00:25:40,000

He inferred here that an invasion might be imminent.

210

00:25:40,000 --> 00:25:50,000

In 1947, the Greek Army supplied him with a team of engineers to investigate what were believed to be Russian missiles flying over Greece.

211

00:25:50,000 --> 00:25:59,000

It was established they were not missiles and the Army authorities, after conferring with the Pentagon, ordered them to discontinue the observations.

212

00:25:59,000 --> 00:26:10,000

Since then, he charged Greece has also joined the world conspiracy to deny that the objects regularly visiting Earth are flying saucers.

213

00:26:10,000 --> 00:26:22,000

If you would like a copy of tonight's script, send a self-addressed stamped envelope to UFOInfoCHMCurato7.

214

00:26:22,000 --> 00:26:34,000

There have been a number of reports of unusual sounds cutting in on radio and telephones lately and no source can be found.

215

00:26:34,000 --> 00:26:37,000

This report is no exception.

216

00:26:37,000 --> 00:26:51,000

On September 6, 1967, at about 10.30 p.m., Dr. Edward Goldstein was driving along a desolate section of road circling around the Bethpage State Park along Ireland on his way home from work.

217

00:26:51,000 --> 00:27:03,000

Without warning, an oddly illuminated cigar-shaped object materialized in the western sky about 300 feet distant, hovering about 50 feet off the ground.

218

00:27:03,000 --> 00:27:12,000

Minutes later, there appeared to the south a similar object glowing with the same ghastly rose-colored incandescent.

219

00:27:12,000 --> 00:27:19,000

Dr. Goldstein, at this point, abandoned his usual composure and tried to drive his car to the road below.

220

00:27:19,000 --> 00:27:24,000

But he says his car went slower and slower until it came to a dead stop.

221

00:27:24,000 --> 00:27:34,000

Dr. Goldstein went on to say that at this point, he heard some sort of faint, weird chatter coming

from his car radio which was turned off.

222

00:27:34,000 --> 00:27:39,000

Nothing the voices said was understandable, which sounded like four men talking.

223

00:27:40,000 --> 00:27:49,000

After about half an hour had left, the twin objects vanished as abruptly as they had come, leaving no clue as to their origin.

224

00:27:49,000 --> 00:27:55,000

This is the second time the doctor has cited UFOs on that same road in the same spot.

225

00:27:55,000 --> 00:28:03,000

If you should discuss the story with the doctor, you are apt to come away at least partially convinced that flying saucers do exist.
