

1

00:00:00,000 --> 00:00:03,500

Your name is Mr. Otto Blindeth?

2

00:00:03,500 --> 00:00:04,500

That's right, yeah.

3

00:00:04,500 --> 00:00:06,000

Do you explain the...

4

00:00:06,000 --> 00:00:07,000

Do you believe in these sources?

5

00:00:07,000 --> 00:00:11,000

I believe in the extent that people have seen definite objects.

6

00:00:11,000 --> 00:00:23,500

The airfield definitions of illusions and marsh gas and whatever they offer are definitely a cover-up for the fact that there are some kind of object.

7

00:00:23,500 --> 00:00:27,500

What the objects are, I have not prepared to say.

8

00:00:27,500 --> 00:00:29,500

I give you my opinion.

9

00:00:29,500 --> 00:00:37,500

My opinion is that their likelihood, the strongest possibility I can think of of all the theories I've seen is that they are simply people from modern space.

10

00:00:37,500 --> 00:00:39,500

That becomes the most logical one to me.

11

00:00:39,500 --> 00:00:51,500

For the simple reason that having been in the science into this whole space field for many, many years and having only been interested in UFOs, let's say, for the last year and a half,

12

00:00:51,500 --> 00:00:59,500

to tie in on that astronomers and scientists all over the world now admit that there are many civilized worlds throughout the universe.

13

00:00:59,500 --> 00:01:01,500

That is, the probability is very, very high.

14

00:01:01,500 --> 00:01:16,500

The next step is to assume that many of these civilizations, and they also admit, are many, many thousands of years older than us and ours, and technology is very great.

15

00:01:16,500 --> 00:01:20,500

And there is no reason to suppose that they don't have ships here.

16

00:01:20,500 --> 00:01:22,500

In other words, it becomes a negative way of looking at it.

17

00:01:22,500 --> 00:01:27,500

But logically, with millions of worlds on the base, that's the science end of it.

18

00:01:27,500 --> 00:01:32,500

And the scientist doesn't dare go further except in private, a lot of them in private, too.

19

00:01:32,500 --> 00:01:33,500

Now what is your profession?

20

00:01:33,500 --> 00:01:34,500

A science writer.

21

00:01:34,500 --> 00:01:35,500

You're a science writer?

22

00:01:35,500 --> 00:01:36,500

Yeah.

23

00:01:36,500 --> 00:01:37,500

What magazine was that again?

24

00:01:37,500 --> 00:01:38,500

Baseworld.

25

00:01:38,500 --> 00:01:42,500

I entered quite a few years and had about two dozen books published.

26

00:01:42,500 --> 00:01:45,500

Is there anything you're working on recently now that anybody can pick up on?

27

00:01:45,500 --> 00:01:46,500

In the science?

28

00:01:46,500 --> 00:01:47,500

Yes, in the science.

29

00:01:47,500 --> 00:01:59,500

I have articles in Baseworld magazine, and oh, there's one coming up in Mechanicals, straight up, I can't keep track of which ones now are coming up.

30

00:01:59,500 --> 00:02:05,500

And one of the men's magazines is called Gem, that's what you have published.

31

00:02:05,500 --> 00:02:06,500

In real magazine?

32

00:02:06,500 --> 00:02:07,500

I've noticed a lot of it.

33

00:02:07,500 --> 00:02:08,500

No, not in real.

34

00:02:08,500 --> 00:02:17,500

I will have something in fact, science articles as well as you have articles in National Enquirer, that's a tabloid thing, you know.

35

00:02:17,500 --> 00:02:22,500

I noticed you have a lot of these pictures on display that you were selling tonight.

36

00:02:22,500 --> 00:02:23,500

Yeah.

37

00:02:23,500 --> 00:02:30,500

Those are the original of my syndicated panel, which appears in about a hundred newspapers.

38

00:02:30,500 --> 00:02:41,500

About sixty, an American, forty porn appears daily, six days a week, and started in 1960s, and is going all this time.

39

00:02:41,500 --> 00:02:43,500

What publication could I see this in now?

40

00:02:43,500 --> 00:02:44,500

I want them to see these.

41

00:02:44,500 --> 00:02:48,500

The nearest one in this area, the big New York papers don't have it.

42

00:02:48,500 --> 00:02:51,500

The nearest one in this area is Patterson, New Jersey.

43

00:02:51,500 --> 00:02:52,500

Patterson, New Jersey.

44

00:02:52,500 --> 00:02:54,500

Morning call or something like that?

45

00:02:54,500 --> 00:02:55,500

Patterson, New York News.

46

00:02:55,500 --> 00:02:56,500

Patterson, New York News.

47

00:02:56,500 --> 00:02:59,500

Are these for sale today?

48

00:02:59,500 --> 00:03:01,500

The originals are, yes sir.

49

00:03:01,500 --> 00:03:04,500

Where would we be able to purchase these other than here today?

50

00:03:04,500 --> 00:03:11,500

Well, Jim Mosley will have them advertised in Saucer News, and they can be ordered by mail from him.

51

00:03:11,500 --> 00:03:14,500

Eventually when he gets the ad, I don't know what you should be.

52

00:03:14,500 --> 00:03:17,500

Most of these, as a matter of fact, are exclusive.

53

00:03:17,500 --> 00:03:21,500

People write in to me, and they have never reported these before usually.

54

00:03:21,500 --> 00:03:25,500

Or if they've reported to the Air Force, they've got the usual run around.

55

00:03:25,500 --> 00:03:30,500

And the first time they've been publicized in any way, this is in my calendar.

56

00:03:30,500 --> 00:03:35,500

I get hundreds and hundreds of letters from all these people, very sincere people.

57

00:03:35,500 --> 00:03:39,500

No cooks, or very few cooks, figuring they're in a bond of evil.

58

00:03:39,500 --> 00:03:46,500

But these people are genuinely sincere about the fact that they've seen something,

59

00:03:46,500 --> 00:03:49,500

and they describe it great until they're very fussed usually.

60

00:03:49,500 --> 00:03:54,500

And they often in their letters saying, what is it Mr. Bender is the one I'm supposed to know?

61

00:03:54,500 --> 00:03:58,500

Of course all I might pack is say, I wish I knew.

62

00:03:58,500 --> 00:04:02,500

But they're genuinely concerned, and they know they've seen something real.

63

00:04:02,500 --> 00:04:10,500

Many of them are engineers, technical people who can't be fooled by balloons,

64

00:04:10,500 --> 00:04:13,500

or helicopters, or anything like that.

65

00:04:13,500 --> 00:04:16,500

They know everything like that they've seen for many, many years.

66

00:04:16,500 --> 00:04:19,500

Have you ever given any lectures yourself on these UFOs?

67

00:04:19,500 --> 00:04:21,500

I've given short lectures.

68

00:04:21,500 --> 00:04:26,500

I'm really not that well versed in the UFO field. I'm still doing a lot of research.

69

00:04:26,500 --> 00:04:28,500

Thank you very much for your time.
