

1

00:00:00,000 --> 00:00:05,760

Hello to my friends and correspondence everywhere.

2

00:00:05,760 --> 00:00:13,200

This is Gray Barker and this tape is being made available as a part of the dissemination

3

00:00:13,200 --> 00:00:22,040

of my research into the mysteries of the yendy letters, the annotated edition of the case

4

00:00:22,040 --> 00:00:31,800

for the UFO, the apparent suicide of Dr. M.K. Jessup in 1959 and other matters that still

5

00:00:31,800 --> 00:00:37,640

remain mysteries and are of great interest to various students of ufology.

6

00:00:37,640 --> 00:00:43,160

Now this recording is just being made informally, it's not being read or it's just from a few

7

00:00:43,160 --> 00:00:51,160

notes so I hope you will pardon the way it's made but it's just as if I would be sitting

8

00:00:51,160 --> 00:00:56,200

here talking to you about this and that's how I would like to proceed.

9

00:00:56,200 --> 00:01:03,080

Some of you listening to this tape has already read the annotated edition of the case for

10

00:01:03,080 --> 00:01:10,760

the UFO by Dr. M.K. Jessup, the facsimile edition that I reprinted and have been distributing

11

00:01:10,760 --> 00:01:12,720

for some years now.

12

00:01:12,720 --> 00:01:17,720

Those of you who have read this, I'm sure this tape will mean a great deal more to you

13

00:01:18,040 --> 00:01:24,280

than those who haven't and to those who are thoroughly familiar with Jessup, the yendy,

14

00:01:25,160 --> 00:01:31,800

the alleged disappearing ship, etc. I hope that you will pardon me while I just sketch out some

15

00:01:31,800 --> 00:01:36,360

things briefly in case the person listening to this tape is not too familiar with these things.

16

00:01:37,320 --> 00:01:45,000

The mystery of the annotated edition, I suppose started back in 1955 when Bantam Books published

17

00:01:45,000 --> 00:01:49,240

a paperback of Dr. Jessup's book, The Case for the UFO.

18

00:01:49,240 --> 00:01:55,480

Well, that wasn't too mysterious but it was when a copy of this book was mailed into Washington

19

00:01:55,480 --> 00:02:01,400

to the Office of Naval Research. There was a lot of peculiar scribbling in this book,

20

00:02:01,400 --> 00:02:10,440

in three shades of blue ink, evidently written by three different mysterious people calling

21

00:02:10,440 --> 00:02:19,560

themselves Mr. A, Mr. B, and Gemmae. These annotations were almost alien in their character,

22

00:02:19,560 --> 00:02:26,200

very, very strange, and we don't know how it came about, but for some reason, possibly because of

23

00:02:26,200 --> 00:02:33,000

his allusions to a secret naval experiment, this book surfaced in a very peculiar edition

24

00:02:33,560 --> 00:02:39,400

sometime afterward. A company in Garland, Texas named the Vera Manufacturing Company

25

00:02:39,400 --> 00:02:47,080

was given this annotated edition by the military and in the office of this firm which manufactured

26

00:02:47,800 --> 00:02:55,080

electronics gear for the military, it was laboriously typed out on offset stencils and the

27

00:02:55,080 --> 00:02:59,720

annotations that were written in were printed in a different color of ink. If you've seen the

28

00:02:59,720 --> 00:03:05,800

annotated edition, you know what I mean. Then a limited number of copies of these were distributed.

29

00:03:06,360 --> 00:03:14,280

Also, in this book were reproduced some very strange letters that Jessup had received from

30

00:03:14,280 --> 00:03:22,600

a Carl M. Allen or a Carlos Miguel Allende, previous to the annotations being sent in.

31

00:03:23,400 --> 00:03:31,800

The most interesting thing about these letters were that they described an experiment which

32

00:03:31,800 --> 00:03:42,040

allegedly took place at sea and during which a destroyer with all his crew became invisible

33

00:03:42,040 --> 00:03:47,960

due to the utilizing of the principles of Einstein's unified field theory.

34

00:03:48,680 --> 00:03:55,960

According to these letters, the experiment went wrong in some ways. Some of the crew froze or

35

00:03:55,960 --> 00:04:01,000

were unable to recover from the invisibility imposed with the strange field and they could be

36

00:04:01,080 --> 00:04:07,400

brought back by a strange laying on of hand ceremony by crew members or by sophisticated

37

00:04:07,400 --> 00:04:12,760

equipment. They're hurriedly ready after the experiment would arrive. We don't have time to

38

00:04:12,760 --> 00:04:18,680

go into all that now, but if you have read the letters, you will know what we're talking about.

39

00:04:19,400 --> 00:04:25,080

For years, people had heard about copies of this book but had never seen one.

40

00:04:25,800 --> 00:04:34,280

After I obtained a copy and reprinted it, however, it's more generally not. And a great

41

00:04:34,280 --> 00:04:42,120

many questions begin to surface for one thing. Who was Carlos Miguel Allende? Did he actually exist?

42

00:04:42,120 --> 00:04:49,640

Was he one of the people who annotated the strange copy of the paperbacks and into Washington?

43

00:04:50,280 --> 00:04:56,360

Well, no one could prove anything because no one could locate Allende and the mystery just went

44

00:04:56,360 --> 00:05:06,040

along. However, during the last couple of years, Allende or at least a man claiming to be Allende

45

00:05:06,040 --> 00:05:12,280

suddenly surfaced and began to show up and talk to people and write letters to people.

46

00:05:13,160 --> 00:05:19,160

Finally, I was able to have a meeting with Allende in the company of fellow researcher James

47

00:05:19,160 --> 00:05:28,280

W. Mosley and we asked him some questions and he considered that we record his answers on a tape.

48

00:05:29,800 --> 00:05:37,400

One of the amazing revelations that came from Allende was that not only did he write the letters

49

00:05:37,400 --> 00:05:43,960

but that he did the complete annotations. So he climbed being able to change his handwriting

50

00:05:43,960 --> 00:05:49,080

and to write in three different handwriting styles. I don't know if this proves that this

51

00:05:49,080 --> 00:05:55,960

man that we're going to hear is the actual Allende. The mystery of that and the research

52

00:05:55,960 --> 00:06:03,800

has been done would take up far too much time. But anyhow, here for you to use your own judgment on

53

00:06:03,800 --> 00:06:11,000

is that interview with Allende. So whether there is an Allende or whether Allende is disappeared

54

00:06:11,800 --> 00:06:18,200

and what I would like for you to identify yourself on the tape so that people can be sure

55

00:06:19,000 --> 00:06:21,160

that they are indeed hearing Allende.

56

00:06:21,560 --> 00:06:26,280

My name is Mr. O'Reilly, I am Allende and I am Allende.

57

00:06:34,280 --> 00:06:42,680

Excellent. Now Allende has been associated in the minds of the great many ufologists as the

58

00:06:42,680 --> 00:06:52,440

author of certain annotations in the book The Case for the UFO. Would you identify yourself as the

59

00:06:52,440 --> 00:07:01,320

author of those annotations? I can and I will. See here on my right, long finger. Yes, it is

60

00:07:01,640 --> 00:07:13,720

as you too witnesses here. James, Molly, Moseley and Ray Barker. Yes, you too witness this finger

61

00:07:13,720 --> 00:07:19,880

and can see it is carved and the top of it is once off on the nail that is matched. And so

62

00:07:20,440 --> 00:07:27,000

evidently I could not use that finger, the index finger, to write with in a normal fashion.

63

00:07:27,560 --> 00:07:33,720

This finger was done and obtained as managed during a shipwreck of the SS Byron,

64

00:07:33,720 --> 00:07:43,000

D'Anten, right below the Sand Island lighthouse in March 1946. And being as this finger was in

65

00:07:43,000 --> 00:07:49,080

such a bad condition, the index finger, of course as you see it, functional. And as this long

66

00:07:49,080 --> 00:07:57,000

finger rests on the surface of the table or desk, which I would be writing, it obviously

67

00:07:57,000 --> 00:08:04,280

became necessary for me to shift the thing. The position of my pen saw that that thing would not

68

00:08:04,280 --> 00:08:10,840

extend or in its pain for as it was. Not rest on that surface, but be lifted above the surface

69

00:08:10,920 --> 00:08:19,640

slightly. So I shifted my pen and saw that it would be between the long finger and the index

70

00:08:19,640 --> 00:08:27,000

finger and supported slightly with my thumb. In this fashion, I learned to write in three

71

00:08:27,000 --> 00:08:35,160

different handwriting. And of course, to emphasize that this is three different handwriting using

72

00:08:35,160 --> 00:08:43,480

different forms of capital and small letters. And using this form of handwriting, as well as the

73

00:08:43,480 --> 00:08:49,800

normal form of handwriting, I was able to, with the difference in penmanship, the difference in

74

00:08:49,800 --> 00:09:01,160

color, ink colors, to dramatize. Delivously dramatize what I wrote in those annotations.

75

00:09:01,160 --> 00:09:14,280

So as to cause science through its tender pride to feel woefully behind the times and to be urged

76

00:09:14,280 --> 00:09:23,720

and spurred on into greater efforts to advance and to arrive at this level of knowledge,

77

00:09:24,360 --> 00:09:32,840

which they did during the I.G.Y. years, which followed only a couple of years after I wrote my

78

00:09:32,840 --> 00:09:41,400

annotations. And I discover only a few years or so ago from members of the academic community,

79

00:09:41,400 --> 00:09:52,520

which I regularly and often associate with this I.G.Y. years were caused mostly and mainly caused

80

00:09:52,520 --> 00:09:59,640

by spurred on by those annotations that I wrote claiming such superior knowledge.

81

00:09:59,640 --> 00:10:05,160

Well, how did the academic and scientific community become aware of these annotations?

82

00:10:05,720 --> 00:10:08,360

How did they find out about them?

83

00:10:09,480 --> 00:10:19,080

We must face the fact that in the prologue of or the foreword of the Navy

84

00:10:20,040 --> 00:10:27,960

Bureau of Research and Development Edition, and so-called Ann Avaro edition,

85

00:10:28,920 --> 00:10:34,520

of the annotated, uh, Joseph book, annotated by myself.

86

00:10:35,240 --> 00:10:41,320

I'm getting at is to uh, get you to tell us how that book was distributed and how the scientists

87

00:10:41,400 --> 00:10:42,760

became came to know about it.

88

00:10:42,760 --> 00:10:43,240

Yes.

89

00:10:43,240 --> 00:10:54,200

Well, in the front of that book, they say that there were, you know, in the letters to Jesse,

90

00:10:54,200 --> 00:11:04,200

and to myself also, the Navy says that their, who these books, the Naval reprint was made for

91

00:11:04,200 --> 00:11:14,040

the scientists of the old Bureau of Naval Research and Development, and for colleagues,

92

00:11:14,600 --> 00:11:22,600

that is fellow professors, also interested in force field functions, dynamics, and force fields,

93

00:11:22,600 --> 00:11:24,280

even as a physics.

94

00:11:24,280 --> 00:11:26,520

How many copies this book was distributed?

95

00:11:27,160 --> 00:11:36,200

As well as to France, as well as to France, to who, meaning the industrial industries and the

96

00:11:36,200 --> 00:11:43,560

universities who were contracted to the old Bureau of Naval Research and Development.

97

00:11:44,120 --> 00:11:44,680

All right.

98

00:11:45,640 --> 00:11:55,400

Uh, all of these, many people, of the French, to the colleagues outside of the

99

00:11:56,360 --> 00:12:01,560

old Bureau of Research and Development, as well as all of the scientists inside of the Bureau

100

00:12:01,560 --> 00:12:08,040

of Research and Development, received by the Navy's own words, by what they wrote in that

101

00:12:08,360 --> 00:12:13,080

prologue, forward to the book, copies of this book.

102

00:12:13,080 --> 00:12:19,960

They all received this, and this, obviously, logically, considering it with the Navy,

103

00:12:19,960 --> 00:12:34,120

then employed well over 50 scientists in there of, well, the big part, it was well over 30

104

00:12:34,840 --> 00:12:42,680

scientists, physicists, physical scientists, that's the Bureau of Naval Research and Development

105

00:12:42,680 --> 00:12:50,680

facilities. They had to print more than 25 because there were more than 30 in the old

106

00:12:50,680 --> 00:13:01,000

and our own. So, logic informs you and all who are thinking people that not only were there

107

00:13:01,000 --> 00:13:07,960

more than 25, because they printed them for one copy for each, physical scientists there,

108

00:13:07,960 --> 00:13:17,640

and there were more than 30. So, plus four, that colleagues outside of what is now called the O-N-R,

109

00:13:17,640 --> 00:13:22,920

the Office of Naval Research, which is changed its name from Europe Naval Research and Development

110

00:13:23,400 --> 00:13:32,760

O-N-R. Not only for colleagues outside, but also for friends, that is, people, universities,

111

00:13:32,760 --> 00:13:40,280

and companies, even corporations that were contracted to the old Bureau of Naval Research

112

00:13:40,280 --> 00:13:48,840

and Development, same coverage. This means that there were a logically larger number than 25.

113

00:13:48,840 --> 00:13:56,360

Would you say a hundred copies? No, I would not say a hundred copies. I say more. I will tell you

114

00:13:56,360 --> 00:14:05,400

quite. The presidents of Austin, the extension of the Varo Manufacturing Company told me

115

00:14:06,360 --> 00:14:16,120

about a decade, let's see, 14 to 15 years ago while he was still then president, and that

116

00:14:16,120 --> 00:14:29,080

our first meeting, he said, we printed 116 copies. I received two. Yes, I received three.

117

00:14:30,040 --> 00:14:38,440

I destroyed my first copy because it was then and still possibly yesterday. Some of the world's

118

00:14:38,440 --> 00:14:44,040

most dangerous researchers, the only scientist specializing in post-fuelectivity, there were

119

00:14:44,760 --> 00:14:55,320

logically at least 116, a minimum of 116. However, I later discovered that there were additional

120

00:14:56,760 --> 00:15:05,400

25, believe it or not, 25 that were printed for the Office of Naval Research. Many years after

121

00:15:05,400 --> 00:15:14,840

the old Bureau of Naval Research and Development had printed the first 116, therefore the

122

00:15:14,840 --> 00:15:25,960

Naval Officer, who swore, he took on oath, on his words of honor as a gentleman and an officer,

123

00:15:26,920 --> 00:15:33,720

and after a strange man who swore to Charles Burgage that the experimenting

124

00:15:34,520 --> 00:15:43,480

in invisibility, that is absolute camouflage, is still going on. That officer was telling the

125

00:15:43,480 --> 00:15:54,680

logical truth and therefore when O. N. R. says there were only 25 copies printed for O. N. R.,

126

00:15:55,640 --> 00:16:02,200

he's telling the illiterate truth, but he's not mentioning the simple fact that for the old

127

00:16:02,200 --> 00:16:07,960

Bureau of Naval Research and Development scientists, the self-same men but under a different name,

128

00:16:07,960 --> 00:16:14,360

the self-same scientist just having a different name, now called the O. N. R. They're not mentioning

129

00:16:14,360 --> 00:16:25,960

that fact because the combined number would be more than 125 and would be implicative

130

00:16:26,680 --> 00:16:34,360

of the simple fact that research in this area of science is still going on, especially since

131

00:16:34,360 --> 00:16:45,560

three July ago, about 25 months ago, during the Soyuz Apollo mission when an invisible star was

132

00:16:45,560 --> 00:16:56,680

found radiating in the 390 angstrom region of the ultraviolet and having such strong force field

133

00:16:57,080 --> 00:17:06,680

condensants, the density that it proved my own statements of the past quarter of a century or

134

00:17:06,680 --> 00:17:18,360

more that invisibility can be achieved by using force fields and knowledge from Einstein's

135

00:17:18,440 --> 00:17:26,120

second repeat, second unified field theory as well as force fields and unified and ultraviolet

136

00:17:27,720 --> 00:17:33,560

light. My statement that this can be done invisibility achieved through UV light and force

137

00:17:33,560 --> 00:17:39,400

fields is proven to be true by the discovery of that star. There is no reason therefore for me to

138

00:17:39,400 --> 00:17:47,480

remain hidden away in the old Mexico anymore. I come forth and write about the surface and present

139

00:17:47,480 --> 00:17:54,760

myself to the public for this reason because I want the public to know where really is a great

140

00:17:54,760 --> 00:18:05,800

benefit to be achieved from force field research and to not condemn the Navy for trying to protect

141

00:18:05,800 --> 00:18:11,480

the various secrets as even companies in populations even your own selves have your own

142

00:18:11,480 --> 00:18:18,760

personal secrets that you too also protect, why condemn someone else for having and protecting

143

00:18:18,760 --> 00:18:26,440

their secrets likewise in the same manner. I'd like to ask a question now. What is my name?

144

00:18:26,440 --> 00:18:38,680

Yendi. Thank you. Mr. Yendi, there is talk that you saw a ship disappear during an experiment which

145

00:18:38,680 --> 00:18:44,760

I believe some people have referred to as the Philadelphia experiment and you were an actual

146

00:18:44,760 --> 00:18:51,720

witness to it. I wonder if you would confirm that and if you can confirm it if you could describe

147

00:18:52,360 --> 00:18:59,480

the incident for us. I would like to say here and now that anything and everything that I

148

00:18:59,480 --> 00:19:08,520

and only I say by myself alone will be regarded always and forever and forever

149

00:19:08,600 --> 00:19:16,840

by the scientific and academic community as merely nothing more than pure hearsay.

150

00:19:17,480 --> 00:19:25,880

It has never been validated, confirmed, verified nor corroborated and there's nobody

151

00:19:26,680 --> 00:19:35,960

not one of you so-called scientists in this pseudoscience of ufology has even

152

00:19:35,960 --> 00:19:45,560

lifted a little finger to attempt to confirm, corroborate and verify and validate what I have

153

00:19:45,560 --> 00:19:54,040

been saying for almost a quarter of a century in print. You accept my word alone? What am I?

154

00:19:54,040 --> 00:20:03,240

A fountain of wisdom? An authority? A legislation? A simple fact. What I tell you is yes,

155

00:20:04,200 --> 00:20:13,480

it's true but you're going to be laughed at forever unless you yourself go and do

156

00:20:14,440 --> 00:20:24,040

and do the research that logically needs to be done to verify, confirm and corroborate and validate

157

00:20:24,600 --> 00:20:35,240

the statements that I make. I know that you are firstly caused to doubt what I have said.

158

00:20:35,240 --> 00:20:43,560

I want you to doubt and I want you to doubt enough so as go ahead and see for yourself

159

00:20:44,200 --> 00:20:52,280

whether or not what I have been saying for nearly a quarter of a century is so or not so.

160

00:20:53,240 --> 00:21:00,040

I say again in my old age in the 53rd year of my life weak,

161

00:21:00,040 --> 00:21:10,120

emaciated, sick and deprived, right probably not too long to live. I may die soon from these

162

00:21:10,120 --> 00:21:23,160

sicknesses that I have. I say yes, I saw the DE 173 become invisible right before my eyes,

163

00:21:23,800 --> 00:21:31,960

right before my eyes. But I am not the only witness and you intelligent people,

164

00:21:32,600 --> 00:21:39,960

you brilliant geniuses never thought that there would be other witnesses in a whole convoy

165

00:21:39,960 --> 00:21:48,040

full of 107 or more ships right over my head in the gun top just a minute behind my head

166

00:21:48,680 --> 00:21:59,320

were Navy, I repeat Navy gunners from the armed guards who sailed on the same ships with us.

167

00:21:59,320 --> 00:22:07,000

There were army personnel aboard that ship too. There were witnesses who witnessed this

168

00:22:07,640 --> 00:22:16,840

same thing they saw at the same time I did as approximately 5.05 in the afternoon on a nice

169

00:22:16,840 --> 00:22:26,200

clear sunshiney day, beautiful lovely day. I know the cloud to speak of in the sky only

170

00:22:26,200 --> 00:22:35,160

usual of you clouds are naturally small clouds. The ship in front of us you travel in convoy

171

00:22:35,160 --> 00:22:41,560

each ship must be 500 feet apart from the other ship the stern must be 500 feet from the bow the

172

00:22:41,560 --> 00:22:49,720

ship behind it and vice versa. No sailors on the ship in front of us whatever the name of that ship

173

00:22:49,720 --> 00:23:00,360

was I saw them watching, watching with their eyes the same thing that I saw occurring before my eyes

174

00:23:00,440 --> 00:23:07,080

to the DE 173 as it became invisible within that five minutes period of time.

175

00:23:07,800 --> 00:23:17,640

I am not the only witness in the world, God Christ man go find those other witnesses

176

00:23:18,680 --> 00:23:25,960

find the name of that convoy find the name of the ships in the convoy then get

177

00:23:26,920 --> 00:23:34,120

a list of all the crew members and to do this you must get first I repeat first the

178

00:23:36,280 --> 00:23:45,560

ships articles it is a pink piece of paper for a Facebook and it has the names of all the ships

179

00:23:46,360 --> 00:23:54,520

crew members of the merchant ships crew members and then get the ships log

180

00:23:55,640 --> 00:24:03,240

in which the names and addresses of those people those crew members that were on my ship the SS

181

00:24:03,240 --> 00:24:13,000

Andrew Fureseth are listed those addresses of all of the crew members I mean all of them

182

00:24:13,960 --> 00:24:20,040

then go into the Navy records and find out for voice number three it began

183

00:24:21,480 --> 00:24:34,120

on the October the 18th 1943 from the no folk Hampton roads shipping area around there

184

00:24:34,920 --> 00:24:43,880

find the Navy records for the names and home addresses repeat home addresses of the Navy

185

00:24:43,880 --> 00:24:51,640

armed the God Gunner Gunnery personnel that were on that ship the SS Andrew Fureseth and also

186

00:24:51,720 --> 00:25:03,800

witness this find the plot showing the position of each ship in that convoy and find the position

187

00:25:03,800 --> 00:25:11,080

of the SS Andrew Fureseth as we crossed eastward across the Atlantic after that great hurricane

188

00:25:12,040 --> 00:25:25,000

and find the name of the ship in front of the SS Andrew Fureseth and there on that ship you will

189

00:25:25,000 --> 00:25:34,360

find many other witnesses also and the ship immediately to the port side the two ships

190

00:25:34,360 --> 00:25:41,560

immediately to the port side in the other lane of ships the other lane of ships so we'll get the

191

00:25:41,560 --> 00:25:48,840

names and addresses of this merchant and naval personnel aboard that ship as well as the Army

192

00:25:48,840 --> 00:25:57,000

super cargo officer that always traveled on every merchant ship is his name too and in the other

193

00:25:57,000 --> 00:26:04,040

Army personnel being transported such as we had on SS Andrew Fureseth we had Army personnel

194

00:26:04,040 --> 00:26:12,040

being taken to war hear their names too collect all I repeat all of these witnesses

195

00:26:12,920 --> 00:26:23,640

don't look at me as if I am fountain of wisdom and authority to be uh accepted by all of science

196

00:26:24,280 --> 00:26:33,640

let us face the simple fact science regards my statements uh until two years ago during the

197

00:26:33,880 --> 00:26:44,040

Soyuz July uh Soyuz Apollo mission rocket mission space mission when they discover the invisible

198

00:26:44,040 --> 00:26:51,240

star start until then science regardless of any statement that I made has absolutely ridiculous

199

00:26:51,240 --> 00:27:02,920

and I repeat ludicrous ridiculous foppycock absurd preposterous let us face the simple fact that

200

00:27:02,920 --> 00:27:12,120

therefore science still is imbued and suffused impregnated with the idea that anything any ufologist

201

00:27:12,120 --> 00:27:22,840

says is therefore a lot of tomy rot you must do this research or you fail yourselves and make

202

00:27:22,840 --> 00:27:31,720

yourself look stupidly ridiculous as well as you fail to validate and the science of ufology

203

00:27:32,440 --> 00:27:39,640

and to a real science instead of the pseudo science is now is that concludes the tape
