

1

00:00:00,000 --> 00:00:04,000

You have a full reporting center?

2

00:00:04,000 --> 00:00:24,000

Yes, sir. I live in Prospect, Kentucky, and I, which is out in the country. I was coming home tonight, and something flies over the top of me and follows me down the road about 40 miles an hour, goes out beside me, and then just hovers there, and I slow down to about 10 miles an hour.

3

00:00:24,000 --> 00:00:31,000

Then it moves along, and I turn left to go into my house, and it stays right there and it takes off over the top of the creek.

4

00:00:31,000 --> 00:00:43,000

So I go home and I tell my wife, and she thinks I'm... I mean, she just left, so my 14-year-old son was with me, and I said, come on, let's go right now.

5

00:00:43,000 --> 00:00:57,000

So we go back, and we go up back down this country road, pull up into the church parking lot, turn off the lights, and this thing is out in the field over a barn.

6

00:00:57,000 --> 00:00:58,000

Are you still with me?

7

00:00:58,000 --> 00:00:59,000

Yes.

8

00:00:59,000 --> 00:01:09,000

And it stays there, and it hovers for about three minutes. So I went back and turn off the lights on the car. This thing comes around, and it's coming right at us.

9

00:01:09,000 --> 00:01:19,000

I got my son with me now. I mean, it's coming right at me, and it's lit up, and it's got a line of red lights out to the side of it that go up and down.

10

00:01:19,000 --> 00:01:28,000

Now, it comes right to... I mean, not right on us, but I mean, within, it seems like 100 yards up above me.

11

00:01:28,000 --> 00:01:29,000

Okay.

12

00:01:29,000 --> 00:01:36,000

I'm running back to my car. We got a camera. He turns around and takes a picture of this thing. We're running about as fast as we can go.

13

00:01:36,000 --> 00:01:43,000

When we get in the car, we look at the window, and it hovers right over the top of the church, and then goes out.

14

00:01:43,000 --> 00:01:55,000

So then we go back to the parking lot, and then when I'm coming back to my house, which is about four miles down the road, and right over my younger son's school, it just gets up there and stops.

15

00:01:55,000 --> 00:02:01,000

And we pull kind of close to it, and it's making a whistling noise.

16

00:02:01,000 --> 00:02:07,000

Now, I thought it first was a helicopter or something, but when it's right over the top of it, it's making a whistling noise.

17

00:02:07,000 --> 00:02:12,000

It's not making a helicopter or airplane noise. It's making just a whistling.

18

00:02:12,000 --> 00:02:16,000

What's the estimated altitude at that point?

19

00:02:16,000 --> 00:02:20,000

I'd say it was right over the top of the tree line by the school.

20

00:02:20,000 --> 00:02:21,000

About the tree top?

21

00:02:21,000 --> 00:02:22,000

And it stayed right there.

22

00:02:22,000 --> 00:02:23,000

Okay.

23

00:02:23,000 --> 00:02:27,000

And then it moved over to the river, and it stayed there.

24

00:02:27,000 --> 00:02:32,000

And then we turned around to go back to the church, and it was coming back that way, and all of a sudden it just went whew.

25

00:02:32,000 --> 00:02:37,000

I mean, I don't know if I'm crazy, sir. I mean, I couldn't believe it.

26

00:02:37,000 --> 00:02:42,000

But I came home tonight at 11.30. It comes right over the top of my car down this road.

27

00:02:42,000 --> 00:02:47,000

At Highway 42, coming out of Louisville, Kentucky, about 15 miles around Louisville.

28

00:02:47,000 --> 00:02:48,000

Yes.

29

00:02:48,000 --> 00:02:53,000

And it followed me, and then it moved over to the side. I slowed down, of course, I'm all over the road.

30

00:02:53,000 --> 00:02:56,000

I went down trying to figure out what this thing is.

31

00:02:56,000 --> 00:02:59,000

And I slowed down. I went about 40, and then slowed down.

32

00:02:59,000 --> 00:03:03,000

I got down to about 20 miles, and it stayed right where the engine stopped.

33

00:03:03,000 --> 00:03:09,000

And I turned left to give him my house, and then it just stayed right there and covered right there.

34

00:03:09,000 --> 00:03:14,000

And then it also just took off over the top of the tree line. That was the first time.

35

00:03:14,000 --> 00:03:21,000

And then my son was still up there taking a shower from the basketball, and I took him out.

36

00:03:21,000 --> 00:03:27,000

It took us a little while, but we spotted it out in this field over a barn.

37

00:03:27,000 --> 00:03:34,000

I mean, it wasn't, sir, it wasn't 200 feet over the top of this barn, and it did not move for three to five minutes.

38

00:03:34,000 --> 00:03:39,000

And we pulled up in this church, which is out in the middle of nowhere, in the parking lot.

39

00:03:39,000 --> 00:03:45,000

And the thing hovered around us and started coming right directly at me.

40

00:03:45,000 --> 00:03:48,000

And we just took off running.

41

00:03:48,000 --> 00:03:53,000

Got in the car, and the thing hovered right next to us over the top of the parking lot.

42

00:03:53,000 --> 00:04:01,000

Stayed on top of the church, and then, like I said, went over to the grade school, which is probably three miles away.

43

00:04:01,000 --> 00:04:07,000

And hovered over the top of there for about maybe two minutes, three minutes,

44

00:04:07,000 --> 00:04:13,000

however long it took us to get there. And it also just disappeared.

45

00:04:13,000 --> 00:04:17,000

Okay, how close did it get to you at its closest point?

46

00:04:17,000 --> 00:04:24,000

Closest it ever got to me was probably right over the top when I was very first when I was just driving down the road.

47

00:04:24,000 --> 00:04:33,000

And just, you know, when I first saw it, it was, I mean, maybe 200 feet, 300 feet above me.

48

00:04:33,000 --> 00:04:40,000

I mean, the lights were bright. It was lit up with white lights,

49

00:04:40,000 --> 00:04:46,000

and on the side of it, it had like a string of red lights that were going up and down.

50

00:04:46,000 --> 00:04:49,000

Okay, could you make out an outline?

51

00:04:49,000 --> 00:04:51,000

Of what?

52

00:04:51,000 --> 00:04:54,000

Could you actually see what this thing was shaped like?

53

00:04:54,000 --> 00:05:01,000

It was shaped like a helicopter. I mean, it was kind of a bubble, like it had a bubble on the front of it with glass.

54

00:05:01,000 --> 00:05:06,000

And it had kind of a thing at the bottom, which was lit up too.

55

00:05:06,000 --> 00:05:12,000

And then it just like a pole sticking out the side of this thing with lights going up and down.

56

00:05:12,000 --> 00:05:18,000

But I was so close to it, I mean, you know, a helicopter makes, you know, a helicopter.

57

00:05:18,000 --> 00:05:24,000

And a jet airplane, but this thing was a whistling noise.

58

00:05:24,000 --> 00:05:31,000

I mean, I'm just glad I took my son out there just so they all wouldn't think I'm crazy.

59

00:05:31,000 --> 00:05:36,000

We actually saw that thing, and I mean, you know, it was coming right ahead of us.

60

00:05:36,000 --> 00:05:39,000

Did he get a lot of pictures?

61

00:05:39,000 --> 00:05:42,000

I'm telling you, how many pictures did he get?

62

00:05:42,000 --> 00:05:47,000

He got two when it was coming at us, or when it was over the church.

63

00:05:47,000 --> 00:05:48,000

Okay.

64

00:05:48,000 --> 00:05:52,000

I'm not sure how good they'll be. I mean, this is from a small camera that he had, you know.

65

00:05:52,000 --> 00:05:55,000

How long did you feel this whole thing took place?

66

00:05:55,000 --> 00:06:02,000

Same how long did it take place? I got home at 11.30, and what was it, 10 after 12, and we...

67

00:06:02,000 --> 00:06:13,000

It was 10. It happened to me at about 11.35, and we went out there and found it about 12, and took the pictures about 12.05.

68

00:06:13,000 --> 00:06:15,000

Okay.

69

00:06:16,000 --> 00:06:19,000

And the estimate of size on that?

70

00:06:19,000 --> 00:06:28,000

It looked like a small helicopter, maybe a medium-sized helicopter, you know, like a full-engined helicopter.

71

00:06:28,000 --> 00:06:31,000

It wasn't one of those big Army helicopters.

72

00:06:31,000 --> 00:06:33,000

Okay.

73

00:06:33,000 --> 00:06:38,000

It might have been a helicopter, but the thing didn't make any noise.

74

00:06:38,000 --> 00:06:40,000

Did you get our number?

75

00:06:40,000 --> 00:06:50,000

I called the airport here in town, the standard for field airport here in town, and the man gave me your number.

76

00:06:50,000 --> 00:06:52,000

Where are you located?

77

00:06:52,000 --> 00:06:54,000

We're in Washington.

78

00:06:54,000 --> 00:07:01,000

Well, we sure appreciate your reporting that, and if we get any follow-up information relating to this, we'll give you a call.

79

00:07:01,000 --> 00:07:02,000

Alright, sir.

80

00:07:02,000 --> 00:07:03,000

Thanks again.

81

00:07:03,000 --> 00:07:04,000

Thank you.

82

00:07:04,000 --> 00:07:05,000

Bye.
