

1

00:00:00,000 --> 00:00:05,000

Can I tell you the whole story because that's the only way I can tell it?

2

00:00:05,000 --> 00:00:06,000

Sure.

3

00:00:06,000 --> 00:00:07,000

Okay.

4

00:00:07,000 --> 00:00:09,000

I was sleeping and I heard a bang.

5

00:00:09,000 --> 00:00:10,000

I have three kids, right?

6

00:00:10,000 --> 00:00:15,000

So I thought it was one of my kids getting up and I keep the bathroom light on for them.

7

00:00:15,000 --> 00:00:19,000

And it was blinking off and on like and then it would dim.

8

00:00:19,000 --> 00:00:20,000

And I thought it was my son.

9

00:00:20,000 --> 00:00:25,000

So I got up and checked and turned my bedroom light on and then my bedroom light started going off.

10

00:00:25,000 --> 00:00:33,000

I looked out the window and I live up on a hill and all the, there's houses down below me, eh?

11

00:00:33,000 --> 00:00:36,000

And they were off looking because I thought maybe it was a breaker.

12

00:00:36,000 --> 00:00:41,000

So as I was looking out the window I seen light and it was like lightning.

13

00:00:41,000 --> 00:00:43,000

And I, like it's pretty cold now.

14

00:00:43,000 --> 00:00:45,000

I didn't think it was lightning or anything.

15

00:00:45,000 --> 00:00:48,000

Or I thought maybe there was an accident in back of me somewhere.

16

00:00:48,000 --> 00:00:50,000

But I, there's bush in back of me.

17

00:00:50,000 --> 00:00:51,000

Do you understand me?

18

00:00:51,000 --> 00:00:52,000

Yeah.

19

00:00:52,000 --> 00:00:53,000

Okay.

20

00:00:53,000 --> 00:00:56,000

Then, so I tried dialing the phone.

21

00:00:56,000 --> 00:00:57,000

The phone was dead.

22

00:00:57,000 --> 00:00:59,000

So I kept looking out the window.

23

00:00:59,000 --> 00:01:01,000

I'm afraid of storms, eh?

24

00:01:01,000 --> 00:01:05,000

And I looked out and I thought maybe it was my light.

25

00:01:05,000 --> 00:01:07,000

Maybe I had my outside light on.

26

00:01:07,000 --> 00:01:11,000

And then it moved over above these houses that are down below me.

27

00:01:11,000 --> 00:01:17,000

And it was like a light, kind of like how lightning looks when it's in the clouds, right?

28

00:01:17,000 --> 00:01:18,000

Okay.

29

00:01:18,000 --> 00:01:19,000

And it flashed.

30

00:01:19,000 --> 00:01:22,000

And I thought, I didn't hear no thunder or anything.

31

00:01:22,000 --> 00:01:27,000

And as it was flashing, so were the lights in all the neighborhood.

32

00:01:27,000 --> 00:01:32,000

And then what got me is there was these Christmas lights on a house.

33

00:01:32,000 --> 00:01:34,000

And they stayed on the whole time.

34

00:01:34,000 --> 00:01:38,000

And then all of a sudden it started flashing red.

35

00:01:38,000 --> 00:01:43,000

And it wasn't the whole sky, it was just one area.

36

00:01:43,000 --> 00:01:44,000

Okay.

37

00:01:44,000 --> 00:01:50,000

I don't know how big it would have been, but it was just above those houses, eh?

38

00:01:50,000 --> 00:01:51,000

Okay.

39

00:01:51,000 --> 00:01:53,000

Now how far away would that be from you, approximately?

40

00:01:53,000 --> 00:01:55,000

Oh, well, these houses are about a block away.

41

00:01:55,000 --> 00:01:56,000

Not even a block away.

42

00:01:56,000 --> 00:01:57,000

Okay.

43

00:01:57,000 --> 00:02:00,000

It takes about two seconds to get there if I walk.

44

00:02:00,000 --> 00:02:03,000

But all you could see was a light before moving.

45

00:02:03,000 --> 00:02:05,000

Yes, because there was clouds.

46

00:02:05,000 --> 00:02:06,000

Okay.

47

00:02:06,000 --> 00:02:08,000

But it wasn't the whole sky.

48

00:02:08,000 --> 00:02:10,000

It was just one area.

49

00:02:10,000 --> 00:02:15,000

And the lights were flicking with the lights of all the houses and all the street lights

50

00:02:15,000 --> 00:02:20,000

were flicking with the light of this whatever it was.

51

00:02:20,000 --> 00:02:24,000

Now was the object flashing off and on or pulsating?

52

00:02:24,000 --> 00:02:25,000

Pulsating.

53

00:02:25,000 --> 00:02:26,000

Okay.

54

00:02:29,000 --> 00:02:30,000

Yes.

55

00:02:30,000 --> 00:02:33,000

If it stopped, like it did, it did longer and shorter.

56

00:02:33,000 --> 00:02:38,000

Like, and the shorter the flashes were, the lights just dimmed.

57

00:02:38,000 --> 00:02:43,000

But if it was a long flashing, then it stopped, then the lights went out.

58

00:02:43,000 --> 00:02:44,000

Okay.

59

00:02:45,000 --> 00:02:48,000

Let me ask you a bit about how big that light was.

60

00:02:48,000 --> 00:02:50,000

I was just trying to think.

61

00:02:50,000 --> 00:02:54,000

Oh, no, it's a clear sky.

62

00:02:54,000 --> 00:02:55,000

Unbelievable.

63

00:02:58,000 --> 00:03:00,000

I'm trying to think.

64

00:03:00,000 --> 00:03:02,000

Maybe 100 feet wide?

65

00:03:02,000 --> 00:03:03,000

Okay.

66

00:03:04,000 --> 00:03:08,000

It's hard for me to estimate, but because it was up in the air.

67

00:03:08,000 --> 00:03:11,000

I don't know how far away it was or...

68

00:03:12,000 --> 00:03:14,000

And how about the color?

69

00:03:14,000 --> 00:03:20,000

Well, it was a light, very pale blue at first, and then it went red.

70

00:03:20,000 --> 00:03:25,000

And it wasn't what color was red.

71

00:03:25,000 --> 00:03:28,000

You know how the sun set in the sky gets kind of pinkish?

72

00:03:28,000 --> 00:03:29,000

Right.

73

00:03:29,000 --> 00:03:30,000

Okay, it was more red than that.

74

00:03:30,000 --> 00:03:31,000

Okay.

75

00:03:31,000 --> 00:03:33,000

It wasn't a red, red, red, red.

76

00:03:33,000 --> 00:03:34,000

Okay.

77

00:03:34,000 --> 00:03:38,000

And I called the OPP here and they just kind of, they wouldn't really...

78

00:03:38,000 --> 00:03:42,000

Well, we're going to investigate because they had got other phone calls too.

79

00:03:42,000 --> 00:03:44,000

What time does that occur?

80

00:03:44,000 --> 00:03:48,000

Well, I wasn't sure, but it was around quarter to 12.

81

00:03:48,000 --> 00:03:49,000

Alright.

82

00:03:49,000 --> 00:03:50,000

Our time.

83

00:03:50,000 --> 00:03:51,000

Alright.

84

00:03:51,000 --> 00:03:55,000

Okay, and how long did you watch it?

85

00:03:55,000 --> 00:03:57,000

Well, the whole time that...

86

00:03:57,000 --> 00:04:04,000

Well, it only lasted about three to five minutes, but the phone also went dead.

87

00:04:04,000 --> 00:04:09,000

And the only lights that I saw stay on were these Christmas lights.

88

00:04:09,000 --> 00:04:13,000

I know that sounds freaky, but there was Christmas lights on one of the houses down there,

89

00:04:13,000 --> 00:04:15,000

and they stayed on the whole time.

90

00:04:15,000 --> 00:04:19,000

Like, what is the name of the place that I'm talking to?

91

00:04:19,000 --> 00:04:22,000

Oh, this is the National UFO Reporting Center.

92

00:04:22,000 --> 00:04:23,000

Oh.

93

00:04:23,000 --> 00:04:25,000

Where did you get our number?

94

00:04:25,000 --> 00:04:26,000

We...

95

00:04:26,000 --> 00:04:30,000

Actually, we got it from Florida, from the Air Force Base in Florida.

96

00:04:30,000 --> 00:04:31,000

Oh dear.

97

00:04:31,000 --> 00:04:33,000

How'd you have to call way down there?

98

00:04:33,000 --> 00:04:38,000

Well, I remember seeing on Unsolved Mysteries, I think it was.

99

00:04:38,000 --> 00:04:39,000

Oh yeah.

100

00:04:39,000 --> 00:04:40,000

About UFO sightings.

101

00:04:40,000 --> 00:04:41,000

Uh-huh.

102

00:04:41,000 --> 00:04:43,000

And I thought they said, Texas, so we phoned Texas, and they said,

103

00:04:43,000 --> 00:04:48,000

well, why don't you phone the police station in Texas, so we phoned Florida.

104

00:04:48,000 --> 00:04:49,000

Oh, that's good.

105

00:04:49,000 --> 00:04:56,000

And then they gave us this other number in Florida, the Air Force Base,

106

00:04:56,000 --> 00:04:58,000

and then they gave us your number.

107

00:04:58,000 --> 00:04:59,000

Very good.

108

00:04:59,000 --> 00:05:01,000

Okay, well, we sure appreciate you reporting that,

109

00:05:01,000 --> 00:05:05,000

and if we get to follow-up information on this, we'll let you know about it.

110

00:05:05,000 --> 00:05:09,000

Well, yeah, oh, I would love that, because I was really freaked out by it.

111

00:05:09,000 --> 00:05:11,000

Okay, thanks a lot.

112

00:05:11,000 --> 00:05:12,000

Okay.

113

00:05:12,000 --> 00:05:13,000

Bye-bye.

114

00:05:13,000 --> 00:05:14,000

UFO Reporting Center.

115

00:05:14,000 --> 00:05:16,000

Yes, good morning.

116

00:05:16,000 --> 00:05:19,000

Sam, I guess you've been getting some calls from Canare, Ontario today.

117

00:05:19,000 --> 00:05:20,000

From where?

118

00:05:20,000 --> 00:05:21,000

Canare, Ontario.

119

00:05:21,000 --> 00:05:23,000

No, there's only head one.

120

00:05:23,000 --> 00:05:24,000

Is that right?

121

00:05:24,000 --> 00:05:25,000

That was early this morning.

122

00:05:25,000 --> 00:05:31,000

Okay, so apparently there was some kind of a strange going on here last night.

123

00:05:31,000 --> 00:05:34,000

Maybe we're interested to hear what I had to say.

124

00:05:34,000 --> 00:05:35,000

Sure, you bet.

125

00:05:35,000 --> 00:05:37,000

We went to bed around 11.

126

00:05:37,000 --> 00:05:38,000

Uh-huh.

127

00:05:38,000 --> 00:05:41,000

And the phones kept ringing.

128

00:05:41,000 --> 00:05:44,000

Like, they'll be over down the phone, but you know, sometimes how a lightning would hit the wires,

129

00:05:44,000 --> 00:05:45,000

and they'd ring.

130

00:05:45,000 --> 00:05:46,000

Right.

131

00:05:46,000 --> 00:05:51,000

Well, it kept doing this quite a few times, and then we noticed some lights outside.

132

00:05:51,000 --> 00:05:56,000

We couldn't actually see them, but they were like reflecting off the sky, off the clouds.

133

00:05:56,000 --> 00:06:02,000

So we went out, I went outside to make sure there was no electrical cables are, you know,

134

00:06:02,000 --> 00:06:03,000

anything.

135

00:06:03,000 --> 00:06:09,000

And I went, I was just on the sun deck looking at the cables, and then I went back inside

136

00:06:09,000 --> 00:06:11,000

and it was still doing it.

137

00:06:11,000 --> 00:06:12,000

So I went right outside.

138

00:06:12,000 --> 00:06:13,000

This time in the driveway.

139

00:06:13,000 --> 00:06:19,000

And I could see there was very bright red light, and that would change to kind of a blue

140

00:06:19,000 --> 00:06:22,000

light, reflecting off the clouds.

141

00:06:22,000 --> 00:06:23,000

Yes.

142

00:06:23,000 --> 00:06:26,000

And I could also hear there was very loud buzzing noise.

143

00:06:26,000 --> 00:06:33,000

Like, when two high-touching cables were touching, and they buzzed, and the phones continued

144

00:06:33,000 --> 00:06:34,000

to keep ringing.

145

00:06:34,000 --> 00:06:38,000

And so far, there's been no explanation in Kanara what it was.

146

00:06:38,000 --> 00:06:42,000

How was that light that you saw moving or stationary?

147

00:06:42,000 --> 00:06:46,000

No, I didn't see, actually, see the lights while I saw it was reflecting off the clouds.

148

00:06:46,000 --> 00:06:47,000

Oh, okay.

149

00:06:47,000 --> 00:06:50,000

The bright light was trying up into the clouds and it was like...

150

00:06:50,000 --> 00:06:51,000

Okay.

151

00:06:51,000 --> 00:06:54,000

But was that stationary at the whole one position?

152

00:06:54,000 --> 00:06:55,000

No, it was stationary.

153

00:06:55,000 --> 00:06:56,000

Okay.

154

00:06:56,000 --> 00:06:58,000

And all of a sudden, it just quit.

155

00:06:58,000 --> 00:06:59,000

Okay.

156

00:06:59,000 --> 00:07:01,000

Then the phone went back to normal.

157

00:07:01,000 --> 00:07:03,000

Yeah, and they were in right back to normal.

158

00:07:03,000 --> 00:07:07,000

And now the people reported lights were in the houses were going bright and dull, bright

159

00:07:07,000 --> 00:07:08,000

and dull.

160

00:07:08,000 --> 00:07:11,000

Okay, how long did this go on?

161

00:07:11,000 --> 00:07:16,000

I don't see about 10 or 15 minutes that I know what to step for.

162

00:07:16,000 --> 00:07:19,000

Okay, and was anyone with you at the time?

163

00:07:19,000 --> 00:07:20,000

Yes, my wife.

164

00:07:20,000 --> 00:07:22,000

Okay, she saw and heard all this too.

165

00:07:22,000 --> 00:07:23,000

Yeah.

166

00:07:23,000 --> 00:07:24,000

Okay.

167

00:07:24,000 --> 00:07:28,000

And I figured I was just something wrong with HydroA, and I tried to phone Hydro last night,

168

00:07:28,000 --> 00:07:29,000

but the lines were busy.

169

00:07:29,000 --> 00:07:34,000

And this morning, I'm hearing all kinds of reports of people have seen this, but there

170

00:07:34,000 --> 00:07:36,000

was no explanation for it.

171

00:07:36,000 --> 00:07:41,000

Apparently it's been on the news and on the local radio and that, and nobody knows what

172

00:07:41,000 --> 00:07:42,000

it was.

173

00:07:42,000 --> 00:07:43,000

Okay.

174

00:07:43,000 --> 00:07:45,000

Well, we sure appreciate the information.

175

00:07:45,000 --> 00:07:48,000

And if we get any follow-up relating to this, we'll let you know about it.

176

00:07:48,000 --> 00:07:49,000

Thank you very much.

177

00:07:49,000 --> 00:07:50,000

Thanks for calling.

178

00:07:50,000 --> 00:07:51,000

See you back.

179

00:07:51,000 --> 00:07:52,000

Bye-bye.

180

00:07:52,000 --> 00:07:53,000

UFO reporting center.

181

00:07:53,000 --> 00:07:54,000

Hi.

182

00:07:54,000 --> 00:07:55,000

I'm calling from Canora, Ontario.

183

00:07:55,000 --> 00:07:56,000

Yes.

184

00:07:56,000 --> 00:07:57,000

I'm in Canada.

185

00:07:57,000 --> 00:07:59,000

I don't know if you've had any other calls today.

186

00:07:59,000 --> 00:08:00,000

I understand you may have.

187

00:08:00,000 --> 00:08:01,000

Yes, we've had two.

188

00:08:01,000 --> 00:08:02,000

We had two.

189

00:08:02,000 --> 00:08:05,500

Well, I'd just like to report sort of what happened to me at the time that this sighting

190

00:08:05,500 --> 00:08:06,500

was going on.

191

00:08:06,500 --> 00:08:10,000

I didn't actually see a spherical body or anything.

192

00:08:10,000 --> 00:08:13,000

I saw a reflection of lights in the sky.

193

00:08:13,000 --> 00:08:15,000

They were kind of a reddish orange color.

194

00:08:15,000 --> 00:08:16,000

Yes.

195

00:08:16,000 --> 00:08:20,000

And it was more of what happened in my house during this time that the things that woke

196

00:08:20,000 --> 00:08:25,000

me up and went on, it started off with my telephone ringing in my living room only.

197

00:08:25,000 --> 00:08:29,000

I also have a telephone right beside my bed and it was not ringing.

198

00:08:29,000 --> 00:08:35,000

And what woke me up was just two short rings of the telephone and I sort of was drifting

199

00:08:35,000 --> 00:08:38,000

in and I was not figuring out what was waking me up.

200

00:08:38,000 --> 00:08:43,000

And it happened again and I wasn't quick enough to catch the phone and then it happened again.

201

00:08:43,000 --> 00:08:46,000

The rings, there were just always two short rings and they were getting progressively

202

00:08:46,000 --> 00:08:47,000

closer together.

203

00:08:47,000 --> 00:08:52,000

And I tried to pick it up and when I did, I also have an answering machine.

204

00:08:52,000 --> 00:08:53,000

Yes.

205

00:08:53,000 --> 00:09:00,000

And it kicked in right away like sooner than it's programmed to and I've got what happened

206

00:09:00,000 --> 00:09:01,000

on tape.

207

00:09:01,000 --> 00:09:07,000

It was just a buzzing noise in the background, like nothing major but it looked like an electrical

208

00:09:07,000 --> 00:09:08,000

noise.

209

00:09:08,000 --> 00:09:13,500

And I hung up the phone and when I hung up it just kept ringing as if I hadn't picked

210

00:09:13,500 --> 00:09:14,500

it up.

211

00:09:14,500 --> 00:09:19,000

And finally when that rang about eight times altogether the last time that this happened.

212

00:09:19,000 --> 00:09:24,000

And I finally thought maybe somebody hit a pole outside on the highway and maybe that's

213

00:09:24,000 --> 00:09:25,000

what's causing the phones to go berserk.

214

00:09:25,000 --> 00:09:28,000

So I opened up the blinds and that's when I looked outside for a minute.

215

00:09:28,000 --> 00:09:30,000

That's when I noticed the reflection.

216

00:09:30,000 --> 00:09:36,000

I thought it was coming from behind my house and it was kind of a reddish orange glow and

217

00:09:36,000 --> 00:09:38,000

I thought, oh, there must be an accident on the highway.

218

00:09:38,000 --> 00:09:41,000

And then I realized that the light wasn't coming from the highway.

219

00:09:41,000 --> 00:09:48,000

And then it almost, by the time that was over, my husband finally, when I said there's a

220

00:09:48,000 --> 00:09:53,000

light flashing outside and we didn't know what it was and he finally got up and looked

221

00:09:53,000 --> 00:09:56,000

and we had both our bedroom windows open.

222

00:09:56,000 --> 00:10:01,000

And that's when we, it was a very, it was really windy here last night and we heard what we

223

00:10:01,000 --> 00:10:06,000

thought was wind but it was so loud that we thought maybe there was a piece of heavy equipment.

224

00:10:06,000 --> 00:10:10,000

We lived right beside the TransCanada highway so we thought maybe they were moving some

225

00:10:10,000 --> 00:10:11,000

heavy equipment.

226

00:10:11,000 --> 00:10:15,000

I don't know why they'd be doing that late at night but it was really loud and that's

227

00:10:15,000 --> 00:10:20,000

what my husband thought was really strange more than the red light or anything.

228

00:10:20,000 --> 00:10:25,000

And then it was after that as we settled down to go to sleep, this all happened within

229

00:10:25,000 --> 00:10:28,000

about three, four minutes at the end.

230

00:10:28,000 --> 00:10:32,000

We turned, I added bedroom light on for a minute because I didn't think I'd be able to sleep

231

00:10:32,000 --> 00:10:38,000

and when I turned it off, I just happened to glance at the black and white television that we have in our room.

232

00:10:38,000 --> 00:10:44,000

And to me it looked very, it was a very light gray on the screen and I just mentioned to my husband

233

00:10:44,000 --> 00:10:50,000

I said, why is the television set, like I said it was glowing but it wasn't that strong.

234

00:10:50,000 --> 00:10:55,000

But when I look at it today, I've been testing it to see if maybe it was a reflection from the window

235

00:10:55,000 --> 00:10:59,000

and what it was doing was not a reflection.

236

00:10:59,000 --> 00:11:04,000

It was like just a very light greenish or grayish glowing on the screen.

237

00:11:04,000 --> 00:11:09,000

And I just kind of, I kind of put the cover on my head and went to sleep.

238

00:11:09,000 --> 00:11:13,000

I didn't want to look at it anymore so I'm not sure how long it lasted for.

239

00:11:13,000 --> 00:11:17,000

But this has been, just from what's been going on here all day and things that we've been hearing,

240

00:11:17,000 --> 00:11:22,000

I finally got up to courage to call. I thought I'd put in my two cents worth just out of interest sake.

241

00:11:22,000 --> 00:11:24,000

What time did that occur?

242

00:11:24,000 --> 00:11:29,000

Well, I remember looking at my clock. Now I don't remember if it was while it was occurring or before,

243

00:11:29,000 --> 00:11:33,000

but it was 1130, 1138 sticks in my mind.

244

00:11:33,000 --> 00:11:39,000

So I remember definitely looking at the clock. I can't remember if that was before everything happened or during.

245

00:11:39,000 --> 00:11:43,000

Did any of your electric clocks in the house lose time or gain time?

246

00:11:43,000 --> 00:11:47,000

Oh, I haven't checked them today against other clocks. I don't know.

247

00:11:47,000 --> 00:11:52,000

Okay. Now on that answering machine, did you have that answering machine on?

248

00:11:52,000 --> 00:11:56,000

Well, it did. See what happened was as it was ringing, I picked up the phone in the bedroom

249

00:11:56,000 --> 00:11:59,000

even though it wasn't ringing because I thought if somebody was trying,

250

00:11:59,000 --> 00:12:02,000

that's what I thought someone was trying to reach us and they couldn't get through.

251

00:12:02,000 --> 00:12:07,000

And I picked it up and my answering machine kicked in and that's,

252

00:12:07,000 --> 00:12:11,000

I'd listened to it this morning and it's just like a buzzing noise.

253

00:12:11,000 --> 00:12:14,000

It just kind of goes like an electrical short out.

254

00:12:14,000 --> 00:12:19,000

And actually we heard that noise after we settled down to go to sleep.

255

00:12:19,000 --> 00:12:23,000

We could still hear that fairly loud noise. Now whether it was the wind outside or what, I don't know,

256

00:12:23,000 --> 00:12:26,000

but it was really loud and I could still hear this.

257

00:12:26,000 --> 00:12:29,000

I thought something was shorting out in the house to be honest.

258

00:12:29,000 --> 00:12:32,000

I thought, oh my God, the house is going to catch on fire or something.

259

00:12:32,000 --> 00:12:36,000

But it was a very strange experience. It was really exciting,

260

00:12:36,000 --> 00:12:41,000

but it was at the time that it was happening, I didn't want to really think of what it might be.

261

00:12:41,000 --> 00:12:45,000

What period of time did that tape cover on your machine?

262

00:12:45,000 --> 00:12:48,000

I mean, how long did it pick up that sound?

263

00:12:48,000 --> 00:12:56,000

Well, I listened to it. There's about three or four buzzing noises in a space of,

264

00:12:56,000 --> 00:12:58,000

I don't know, maybe ten seconds or so.

265

00:12:58,000 --> 00:13:04,000

Okay. And you never heard any sound outside other than back and forth?

266

00:13:04,000 --> 00:13:11,000

No, like nothing other than that. It was really strange because it was really windy last night,

267

00:13:11,000 --> 00:13:17,000

but it was something even my husband said and he's very skeptical and he said that's what he thought was strange.

268

00:13:17,000 --> 00:13:23,000

It was just a really loud noise, but it could have just been the wind. I don't know.

269

00:13:23,000 --> 00:13:25,000

Do you have pets in the house?

270

00:13:25,000 --> 00:13:29,000

Yes, I do. And actually, that's one other thing that kind of alerted us.

271

00:13:29,000 --> 00:13:33,000

I can't remember when he doesn't sleep in our bedroom. He sleeps in a different part of the house

272

00:13:33,000 --> 00:13:40,000

and at one point he burst out of there and he let out this one horrific bark just before kind of everything sort of started.

273

00:13:40,000 --> 00:13:44,000

I can't remember if it was when, just before I started to go for the phone or...

274

00:13:44,000 --> 00:13:51,000

It was a bonus space of at least 15 minutes, I think, by the time like the first distant ring of my telephone,

275

00:13:51,000 --> 00:13:55,000

something was waking me up continuously because I kept drifting it, drifting it out of sleep,

276

00:13:55,000 --> 00:13:59,000

not realizing what was waking me up. So the phone, I don't know how many times it had started to ring

277

00:13:59,000 --> 00:14:03,000

and it was in the living room, not in the bedroom. And why that phone in the bedroom didn't ring,

278

00:14:03,000 --> 00:14:07,000

I have no idea because I don't know if that's ever happened before,

279

00:14:07,000 --> 00:14:10,000

but I thought that was really strange at the time when it was happening.

280

00:14:10,000 --> 00:14:16,000

And I don't know, it was, for a period of about 20 minutes, I didn't have to figure by the time.

281

00:14:16,000 --> 00:14:19,000

It was really strange the way I was thinking about it today, the way the phone was ringing

282

00:14:19,000 --> 00:14:23,000

and it was like something far away was affecting it. And then when it got closer,

283

00:14:23,000 --> 00:14:26,000

that's when the phone just started ringing, just ringing, ringing, ringing,

284

00:14:26,000 --> 00:14:30,000

it wouldn't stop. And I was actually going to phone the phone company here

285

00:14:30,000 --> 00:14:34,000

and tell them, please fix this phone because it keeps waking me up.

286

00:14:34,000 --> 00:14:37,000

And actually what happened, my sister just lives up the road from us,

287

00:14:37,000 --> 00:14:40,000

or she was at this house up the road from us that night.

288

00:14:40,000 --> 00:14:44,000

And when I came in to work this morning, I said to her,

289

00:14:44,000 --> 00:14:48,000

gee, did you guys see that last night? She just kind of looked at me.

290

00:14:48,000 --> 00:14:51,000

And she said, why would I? I said, did your phone keep ringing last night?

291

00:14:51,000 --> 00:14:54,000

And exactly the same thing happened with her phone up there.

292

00:14:54,000 --> 00:14:59,000

They were kind of sleeping watching TV and the phone kept getting her up

293

00:14:59,000 --> 00:15:03,000

and she couldn't answer it, there was nothing there and it kept making this buzzing noise.

294

00:15:03,000 --> 00:15:07,000

And even when she hung it up, she said it kept ringing, so finally she unplugged the phone.

295

00:15:07,000 --> 00:15:10,000

So that was the only way between the two of us that we kind of thought,

296

00:15:10,000 --> 00:15:14,000

I don't know if anybody else in the area had problems with their phones

297

00:15:14,000 --> 00:15:18,000

or if it woke them up at all, but just between, you thought that was really strange

298

00:15:18,000 --> 00:15:21,000

that it would affect two houses within the same.

299

00:15:21,000 --> 00:15:23,000

But all you saw outside was a couple lights?

300

00:15:23,000 --> 00:15:30,000

I didn't even see where a light, I saw the glow kind of in the sky as if it was coming from behind

301

00:15:30,000 --> 00:15:33,000

and the house was blocking it because I couldn't really see where it was coming from.

302

00:15:33,000 --> 00:15:37,000

And she said the same thing, she could see the red glow,

303

00:15:37,000 --> 00:15:40,000

she went outside to check on her dog because of the wind

304

00:15:40,000 --> 00:15:46,000

and she said she could see it out of the one window but not out of a different window in the house.

305

00:15:46,000 --> 00:15:48,000

So it was really strange.

306

00:15:48,000 --> 00:15:51,000

Okay, how long did all of this go on?

307

00:15:51,000 --> 00:15:54,000

Well, like I'm saying, I think from the time the phone started to wake me up

308

00:15:54,000 --> 00:15:56,000

it had to be in a good 15, 20 minutes.

309

00:15:56,000 --> 00:16:01,000

I think anyways, I wasn't really paying attention.

310

00:16:01,000 --> 00:16:05,000

I just thought it was really, I was really excited.

311

00:16:05,000 --> 00:16:10,000

My husband was angry, he said, oh they didn't take us with them.

312

00:16:10,000 --> 00:16:12,000

Can you tell me what other people reported?

313

00:16:12,000 --> 00:16:14,000

Was it basically the same as that?

314

00:16:14,000 --> 00:16:16,000

Basically the same, yes.

315

00:16:16,000 --> 00:16:17,000

That's right.

316

00:16:17,000 --> 00:16:18,000

It was the ringing of telephones.

317

00:16:18,000 --> 00:16:20,000

Wow.

318

00:16:20,000 --> 00:16:25,000

We just think this is so neat because it had these bumps all day long here.

319

00:16:25,000 --> 00:16:27,000

Well, we sure appreciate your reporting that.

320

00:16:27,000 --> 00:16:30,000

Well, I hope that's something, I don't know what, but I thought it was interesting.

321

00:16:30,000 --> 00:16:33,000

I hope we get any more information on this, we'll get back to you.

322

00:16:33,000 --> 00:16:35,000

Alright, then who am I speaking to?

323

00:16:35,000 --> 00:16:36,000

I'm Robert.

324

00:16:36,000 --> 00:16:38,000

Alright, okay, thank you very much.

325

00:16:38,000 --> 00:16:39,000

Thanks again.

326

00:16:39,000 --> 00:16:40,000

You're welcome. Bye bye.
