

1

00:00:00,000 --> 00:00:04,000

Do you have a report in the center?

2

00:00:04,000 --> 00:00:08,000

Yes, I'm calling from Bishop, California.

3

00:00:08,000 --> 00:00:12,000

I just had called the sheriff or the PD down here and they told me that there was this number to call.

4

00:00:12,000 --> 00:00:18,000

My wife and son last night, we live in an area just north of Bishop called Round Valley.

5

00:00:18,000 --> 00:00:22,000

They saw an object fly very, very low to the ground out here.

6

00:00:22,000 --> 00:00:26,000

It went across in front of their car and they were going up 395, how we 395?

7

00:00:26,000 --> 00:00:30,000

I can't make it out of the beginning, but it was a UFO.

8

00:00:30,000 --> 00:00:36,000

It was wingless, generally in the shape of a silver jetliner, but had no tails.

9

00:00:36,000 --> 00:00:42,000

Generally had a tail shape, but had no wings on the tail, had no wings period,

10

00:00:42,000 --> 00:00:48,000

had black windows down the side, square windows, and had a black canopy and had a round, blunt nose.

11

00:00:48,000 --> 00:00:52,000

It was flying very, very low. It filled the whole windshield. It was that low.

12

00:00:52,000 --> 00:00:58,000

We had a mesa to the east of us and after it came a long low there, it suddenly accelerated and quickly disappeared.

13

00:00:58,000 --> 00:01:02,000

I can't describe the thing, but it was totally no sound at all.

14

00:01:02,000 --> 00:01:04,000

That was like an airliner fuselage?

15

00:01:04,000 --> 00:01:08,000

Yes, generally in the shape of an airliner fuselage, but no wings at all.

16

00:01:08,000 --> 00:01:10,000

How about tail assembly?

17

00:01:10,000 --> 00:01:14,000

It had a general tail shape, but no small wings on the tail.

18

00:01:14,000 --> 00:01:16,000

The canopy was on top?

19

00:01:16,000 --> 00:01:20,000

Yes, it was on top of the fuselage.

20

00:01:20,000 --> 00:01:22,000

The canopy was on top?

21

00:01:22,000 --> 00:01:32,000

The canopy was generally on the top and the extremely aerodynamic was sort of blended in with the whole plane, which was extremely blunt.

22

00:01:32,000 --> 00:01:42,000

It was a black canopy, silver fuselage, had square windows along some of the sides that were black.

23

00:01:42,000 --> 00:01:48,000

The strange part was no wings and they didn't really get a side view.

24

00:01:48,000 --> 00:01:56,000

They didn't get really an under view to see if it was a lamb shape of a general airplane, but from the side it looked that way.

25

00:01:56,000 --> 00:01:58,000

Do you have any estimate of length?

26

00:01:58,000 --> 00:02:00,000

Any estimate of the length of the object?

27

00:02:00,000 --> 00:02:02,000

Well, she thought it was a little, what?

28

00:02:02,000 --> 00:02:04,000

Sometimes about the size of the good side of the jetliner.

29

00:02:04,000 --> 00:02:10,000

But it said the weird thing when the main nose sounded all, it was low enough that it was down at treetop.

30

00:02:10,000 --> 00:02:14,000

Any estimate of how close it was to them?

31

00:02:14,000 --> 00:02:18,000

Excuse me, how far away would you say it was from there?

32

00:02:18,000 --> 00:02:20,000

I don't know.

33

00:02:20,000 --> 00:02:22,000

What would you say?

34

00:02:22,000 --> 00:02:24,000

Block, half block, something like that.

35

00:02:24,000 --> 00:02:26,000

200 feet, about 2000 yards?

36

00:02:26,000 --> 00:02:28,000

200 feet.

37

00:02:28,000 --> 00:02:30,000

200, 300 feet something like that.

38

00:02:30,000 --> 00:02:34,000

Did the object cause any buffeting of the car?

39

00:02:34,000 --> 00:02:36,000

Did the object cause any buffeting of the car?

40

00:02:36,000 --> 00:02:38,000

No, nothing.

41

00:02:38,000 --> 00:02:40,000

No noise at all?

42

00:02:40,000 --> 00:02:42,000

How long was it in sight?

43

00:02:42,000 --> 00:02:44,000

How long would you say was total in sight?

44

00:02:44,000 --> 00:02:46,000

About 30 seconds.

45

00:02:46,000 --> 00:02:48,000

About 30 seconds.

46

00:02:48,000 --> 00:02:52,000

They were coming up the road, they thought, coming across the valley and crossed in front of them.

47

00:02:52,000 --> 00:02:54,000

And it was going fairly fast.

48

00:02:54,000 --> 00:03:00,000

Then they turned off, as this happened, they approached the side road by a mini-mart.

49

00:03:00,000 --> 00:03:02,000

They turned off the side road to see if they could follow it.

50

00:03:02,000 --> 00:03:06,000

And they watched it go east, but it quickly accelerated and disappeared over the...

51

00:03:06,000 --> 00:03:08,000

What time did that occur?

52

00:03:08,000 --> 00:03:10,000

About 5.30 in the afternoon.

53

00:03:10,000 --> 00:03:12,000

Was it reflecting sunlight?

54

00:03:12,000 --> 00:03:14,000

Was it reflecting sunlight at all?

55

00:03:14,000 --> 00:03:16,000

Yes.

56

00:03:16,000 --> 00:03:18,000

A little bit.

57

00:03:18,000 --> 00:03:20,000

How far north were you from Bishop?

58

00:03:20,000 --> 00:03:24,000

Over about 14 miles.

59

00:03:24,000 --> 00:03:28,000

And where did you get our number?

60

00:03:28,000 --> 00:03:32,000

My husband called, wasn't at the police department.

61

00:03:32,000 --> 00:03:38,000

In Bishop here, and they asked if he was reporting anything like that.

62

00:03:38,000 --> 00:03:40,000

All right, we sure appreciate you reporting that.

63

00:03:40,000 --> 00:03:44,000

And if we get any additional information relating to this, we'll call you back.

64

00:03:44,000 --> 00:03:46,000

Okay, thank you.

65

00:03:46,000 --> 00:03:48,000

Thanks again.
